Our Note: News of this community is the scarcest of all in our files — most of those mentioned having passed away — or moved away. Juliaetta is indeed a changed town.

More Fine Timothy

(Twenty Years Ago) — Last week we published an article saying that Mr. Sparber had brought in some very fine Timothy, that measured 38 to 40 inches in height with heads 7½ and 8 inches long, which is indeed a very fine specimen. Mrs. M. A. Deobald brought in another sample Monday morning which was grown on her American ridge farm — which measured on an average more than 48 inches in height and the heads were from 8 to 9 inches in length. One particular stalk measured 5 feet and 9 inches in height with a 9-inch head. There is no doubt that there are many farms that can and do produce equally as well as the two above mentioned, which goes to show conclusively that this section of the country can raise as good Timothy as can be grown anywhere.

Something Wrong Somewhere
(Twenty Years Ago) — Last week George Wayland sent a fine dressed veal that weighed 95 pounds to the Spokane market. He received a check the first of the week for \$1.95 after express charges had been deducted. In ordinary times this animal would have brought \$10.00. There is something wrong, somewhere!

Melons Late

(Twenty Years Ago) — The crop of watermelons and cantaloupes which make Juliaetta famous will be about 30 days late this summer, due to the cold, wet spring, which hindered all planting operations. Tomatoes, however, are looking fine and will be on "full tilt" in about two weeks.

ABOUT THIS PAPER

This week, in order to get a short vacation, we are publishing for you a "Twenty Year Ago" issue, in which we have endeavored to present all the worthwhile news from our files of July 12th to August 15th.

We have tried to note all items that are "twenty years old." Other news will of necessity, be of a miscellaneous type.

For the first time in all the years we are not carrying election returns from the local precinct and county — as we expect to be fishing and loafing on Kelly Fork when you read these pages.

Please bear with us. We "just gotta have a little rest."

RATTLESNAKE CREATES EXCITEMENT AT THOMAS' HOME

(Twenty Years Ago — July 15) — While a party was being held on the lawn at the Harold Thomas home in the east part of town last Saturday evening an incident happened that served the enliven the evening's program — only it was a part that wasn't scheduled at all.

Just before dark Cecil Emmett came around the corner on horseback — which was nothing unusual — only from the fact that he was dragging at the end of a rope several feet long, a fine big specimen of a rattlesnake. The reptile happened to slip from its moorings just as he passed the Thomas home. It was found a short time later by Lloyd Ware who was passing by, and he proceeded to kill the thing again (Cecil had inflicted a death dealing blow some time before, or at least said he had) but anyway it was still squirming.

The guests at the Thomas' lawn party were soon attracted to the road and came to view and examine his snakeship, which measured, by the way, something over three feet in length and bore nine rattles. Of course everyone began telling snake stories and many of the ladies (and what men there were present) became somewhat frightened at finding so large a rattlesnake cruising about in the residential part of town.

Those who moved near the rock fence (or so someone said) and immediately a hunt was begun for its mate (which Cecil had not brought along). The grass and weeds were beaten like into a tiger hunt in the wilds of India — but no snake was forthcoming. Coal oil was thrown into the weeds and grass and it was undertaken to start a fire to smoke the reptile out, but the stuff would not burn, and the chase was given up.

But it was a good snake story — and score — and all caused by Cecil Emmett losing the thing, unknowingly — just where he did.

Entertains At Bridge

(Twenty Years Ago) — Aug. 5 — The home of Mr. and Mrs. George Leith was the scene of an informal bridge party, when the game was played at four tables. Miss Edith Dammarell was the winner of high score, while Mrs. D. A. Christensen received low. Those in attendance were: Mesdames R. H. Ramey, Wade T. Keene, Edgar Long, Frank H. Rider, Helen Boyd, Harold Thomas, W. L. McCreary, E. H. Emery, Lester Crocker, W. J. Carroll, H. B. Thompson, A. K. Carlson, Miss Edith Dammarell, Miss Rilla Davidson and the hostess, Mrs. Leith. Delicious refreshments were served at the close of the afternoon.

Farm Home Burned

(Twenty Years Ago) — Aug. 12 — The farm home of Mr. and Mrs. S. S. Taber and family on Fix ridge was completely destroyed by fire on Wednesday, August 3. The fire started in the woods shed and spread rapidly to the 7-room dwelling.

Most of the furniture was saved, but so badly damaged that a large portion of it will have to be refinished. Everything in the basement was destroyed or ruined, including some 300 quarts of fruit and vegetables. The loss is said to be only partly covered with insurance. We understand Mr. Taber plans to rebuild with a modern bungalow.

Celebrates Birthday Anniversary

(Twenty Years Ago) — Mr. and Mrs. Virgil Flesham entertained at dinner Sunday in honor of Mr. Flesham's approaching birthday anniversary. The guests included Mr. and Mrs. T. J. TWENTY YEARS AGO THE WEEK OF JULY 29TH

Another Snake Story
There doesn't seem to be any particular reason why so many snakes should be haunting our little city (most of the inhabitants are reasonably temperate) — but this story has a moral to it — for snakes, at any rate — for the one about which this is concerned met a sudden and ignominious death. It happened Wednesday morning as Mrs. Wade T. Keene opened her back door, pushed back the screen — and, lo and behold a large snake, about three feet in length, dropped down from overhead, apparently from the door jamb, to fall on the back of her neck.

It wasn't a rattler, but it was just as cold, just as slimy and just as squirming, and brought forth screams of horror from Mrs. Keene. But right there was where Mr. Snake made his big mistake, for after the first shock of horror had passed, Mrs. Keene grabbed two brooms and proceeded to "shorten" Mr. Snake's life, and right now. She held the reptile down with one broom and swept the life out of him with the other. Just how the snake got up over the door will remain an unsolved mystery, for it didn't live long enough to shed any light on the subject.

Mr. and Mrs. Ward Howell of Monterey, Calif., are the proud parents of a baby son, who arrived at their home to take up permanent residence on July 22. The little fellow has been named James Roger. Mrs. Howell was formerly Miss Vera Ameling.

Swimming About Done

(Twenty Years Ago) — Swimming in the local swimming hole near the Vollmer-Clearwater warehouse is about done for this year, the creek having dropped to such a low level that it does not keep the eddy clean and a green scum is forming on the water, plus that "stale smell." It is said, however, that the "Jacobs Hole" near the Ira Foster home is still fresh and wholesome and most of the youngsters are going up there. However, if the cool weather continues for a few weeks, everyone will be out of the notion of swimming anyway.

LARGE CHERRY CROP KEEPS MANY PEOPLE EMPLOYED

July 15 (20 Year Ago) — There are a large number of people employed in harvesting the cherry crop here at Juliaetta this year. The cherries are of an extra fine quality, and the crop is better than average. It is expected that 10 to 12 carloads will be shipped from this point this year. About 300 people are employed in the cherry harvest now, picking, hauling, sorting, packing, etc.

E. O. McAllister from his Park View farm at Juliaetta brought in some luscious ones to the Gazette this week. The variety was "Lambert," and one picked from the lot measured 3¼x3½ inches in size. Mr. McAllister is a rural mail carrier out of Juliaetta, but still manages to look after his fruit farm, which boasts a large variety of fruits of all kinds, as well as berries, and if the quality is as good as the sample he should have no trouble getting rid of his crop.

A Freak Egg

(Twenty Years Ago) Aug. 5 — Much has been said at various times about the large eggs produced by hens in various parts of the country, but Mrs. Claude Craig of Southwick brought to the Gazette office last Saturday an egg that is indeed a freak. By putting ones fingers around it, it resembles a large white horse eye with the opening and winkers around the eyeball. It looks like old "biddy," after she had made up her mind to go on laying eggs, was about to change it on account of the "repression."

Anyway, it is a freak for sure.

WHAT HAPPENED HERE TWENTY YEARS AGO

Mr. and Mrs. Leo Lohman, Southwick, are the proud parents of a baby daughter, born last Saturday.

Mr. and Mrs. Walter May are the proud parents of a daughter, weighing 4½ pounds, born Saturday, July 9th.

Cow Had Quills — What might be termed a freak of nature was reported by Ira Foster the other day, when he noticed his old, Bossy was somewhat timid about eating, and upon examination he discovered a big bunch of porcupine quills protruding from one side of her "face." They were removed and "Bossy" went about the business of taking nourishment in the usual manner.

Democrats Committed to Repeal — The Democrats in national convention assembled at Chicago, by a vote of 394 to 213 voted to work for repeal of the 18th Amendment.

Boy Scouts Receive Instruction — On Monday evening of this week the local troop of Boy Scouts were given a very interesting and instructive talk by Dr. D. A. Christensen on "First Aid," practically all forms being taken up and explained to the boys. The talk was very much appreciated by the boys interested in that course. Everett Fraser, Scoutmaster, asks the boys to come on time to each meeting, at 7:30 p. m., as special instruction is planned for every session.

Camp Fire Girls — The Camp Fire Girls, accompanied by Miss Rilla Davidson, guardian, went to the Brocke spring up Brady Gulch where they camped Monday night, returning to town Tuesday morning. Those making the trip were Jean and Rowena Ramey, Maxine Keene, Allene Rider, Kathryn Emery, Mildred Kite, Phyllis Cummings, Mary Elizabeth Thompson, Alpha Jones and Orne Hardean, the latter from Peck.

More Gold Seekers — Edgar and Howard Dammarell and "Chuck" Davis left Tuesday for the "wilds" of the Gold Hill country where they will seek their share of the golden metal — for which many thousands are seeking at this time. Harley Perryman and Walt Sparber are building a machine for the salvaging of gold and will soon go to a selected point where they will try to "corral" their share of the precious metal.

Harold Thomas and Lester Crocker returned to civilization again last Friday evening, bringing their gold separator out with them. They said the were sure their machine would work providing they found the proper place for its use. There is no doubt but that "there is gold in them thar hills" — throughout the mountains of Idaho, as indicated by the finding of color in almost every sandbar in the entire region.

Finis Rattler In Cellar — On Tuesday last week when Mrs. Edgar Long went into her cellar to get some fruit jars, she was startled to find a large rattler stretched out on top of some empty jars. To say she was frightened puts it mildly. She summoned her son Roy and he got there just in time to see the reptile crawl away into a hole in the wall — and Ed. a short time later cemented it tightly shut. Whether the snake is entombed in the wall or got away through another entrance is not now known, but it is a cinch it will not get into the cellar via the same route again.

Mr. and Mrs. Martin Sackett and little daughter are staying at the Jack Travis home for the purpose of harvesting their clover seed.

Receives Check For 23c

(Twenty Years Ago) — A short time ago N. B. Long & Sons shipped to Spokane 10 fine hides, for which they received a check in the magnificent sum of 23 cents. The shipment contained 8 prime calf hides and two prime steer hides. Is it any wonder people are becoming more and more dissatisfied every day? The large packer is the fellow who furnishes the hides for the shoe and harness trade — the little fellow doesn't even have a look-in. Or are the hides imported?

Visit With Old Friends

Aug. 14 (This week) — Mr. and Mrs. O. C. Holmes from Fontana, Calif. (formerly Mrs. Clive Aiken), her sister, Mrs. Hazel Juzler, Lewiston, and Mrs. Holmes' daughter Mrs. V. Verboncoeur (nee Dolly Aiken) of Libby, Mont., were in town Wednesday visiting with old friends.

Circus Is Coming Saturday Saturday will be "Circus Day" in Kendrick — and Kendrick will be treated to its first big circus in several years when the well-known Cole & Walters circus pitch their tents at Armitage Field for two full and complete performances at 2:00 and 8:00 p. m. on Saturday, August 16. Early in the morning spectators can watch the show unload and the erection of the "big top," where men, elephants and automatic machinery combine to quickly build the city of canvas. At 10:00 a. m. all children are invited to the circus grounds to see the animals fed and watered — an education in natural history for all — where elephants, camels, llamas, lions, tigers, bears, apes, monkeys, kangaroos, etc., will be on exhibition.

Twenty big-time circus acts will be presented in addition to trained elephants, camels, horses and ponies. Jack Bell's famous circus band will entertain with a free concert before the afternoon and night performances get under way at 2:00 and 8:00 p. m. The elephants will entertain downtown at noon circus day.

Popular low prices will prevail for this engagement and the management wishes to state that positively no gambling games of any kind are allowed on the grounds, nor will there be any "hootchy-kootchy" dancing, a policy that the Cole & Walters Circus has followed for many years, earning them the title of the "show with a million friends."

Closing Date On Special Hunts

The fish and game department reminded hunters that noon, Aug. 14, is the closing date for receiving special hunt applications on antelope and mountain sheep.

The department said that applications for the 2,295 antelope permits have been coming in rather slowly to date, and advises early filing to permit processing for the drawing. Permit fee for antelope, including the tag, is \$4.00. The mountain sheep permit is \$25.00, with an additional \$10.00 required for the tag.

The department said that regulations prohibit a person who obtained an antelope permit in 1951 from applying on any antelope hunt this year.

The antelope hunt will take place September 6, 7 and 8, with the mountain sheep hunt from Sept. 15 to Sept. 25.

Putting In New Cream Station
 (Twenty Years Ago) — A new cream station is being put in by Oscar Raby and Paul Lind, in the rear of the old Kendrick Store building, where cream will be received as soon as things are put in readiness. They plan to buy independently and will gather up the cream at the farmers' homes and return their empty cans by truck. Cream will be paid for as soon as tested. Paul Lind will have charge of the truck service and Oscar Raby will care for the station.

Relic Of By-Gone Days
 (Twenty Years Ago) — Lester Crocker was exhibiting a relic of by-gone days on Tuesday of this week. While doing some work on the ventilators at the school house the other day he chanced to find a pint whiskey bottle (empty of course) cashed in one of the ventilators, near the top of the building, which had undoubtedly been put there when the building was built. The label was O. F. C. brand (whatever that means — or meant) and was marked: "Made in the spring of 1903 and Bottled 1911."

Leaves For South Idaho
 Stanley Smith, Kendrick, left Saturday of last week for Boise, to spend a couple of weeks in intensive training before taking part in the East-West basketball game in that city on August 16.

Hail Hits Camas Prairie
 (Twenty Years Ago) — A hail storm broke over the Camas Prairie Monday night, devastating 2,000 acres of spring grain as it swept a giant path 15 miles long. The storm began near Cottonwood about 7:00 p. m. Buildings were damaged greatly, roofs torn off, windows broken, and any cars on the streets literally had their tops torn to ribbons.

Moose And Goat Hunts
 Applications for permits to hunt 75 moose and 54 mountain goats will be accepted at their Boise office until noon, August 18, the fish and game department reported today.

The moose hunt will be in three units in portions of Fremont, Teton and Clark counties from Sept. 27 to October 1 — and allows the killing of a moose of either sex.

Any person successful in drawing a permit for any previous special moose hunt is not eligible to apply again for such a permit.

The mountain goat hunts will take place Sept. 15 to 25 in parts of the Salmon river drainage and in the Selkirk mountain range in north Idaho.

Application cards and other information may be obtained from license vendors or the department office the game department adds.

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

Yes, we know it's been hotter than hot for these past several days — but that's just the time to enjoy "Potlatch Chief" Ice Cream, with its chilly smoothness and delightful flavor appealing to even the most fastidious.

It's quick and easy to serve as a dessert, as a snack, or as a treat to that unexpected company. It's made in all the standard flavors, plus specials. Next time you are down town take home from a quart to a gallon. Keep it on hand all the time.

"I can't marry him, mother; he is an atheist — doesn't believe there is a hell."
Mother: "Marry him, dear, and between us we'll convince him he's wrong."

Going picnicking, camping, fishing? Sooner or later you are, and you'll be packing a lunch. Now

that lunch will be all the more delicious if you spread those sandwiches with "Potlatch Chief" Butter. It's made from pasteurized cream. It has a pure, sweet taste, a delightful aroma and smooth texture. Try it once — you'll use it always.

Waiter: "Do you want the dollar steak or the dollar and a quarter steak, sir?"
Diner: "What's the difference?"
Waiter: "You get a sharp knife with the dollar and a quarter steak!"

Don't slave and sweat over a hot stove canning. Do it the quick, easy, modern way, by freezing. We have locker boxes that will fit every purse and purpose. Come in and look them over. Then "can" the easy way.

And don't forget — we want to buy your cream!

CAMERON HAPPENINGS

(Twenty Years Ago) — Marie Schwarz spent Friday afternoon with Mrs. Fred Newman.

Harry Newman was an over-night guest of Kenneth Wilken, Monday. Mr. and Mrs. Carl Wegner and son Edward, Mr. and Mrs. A. O. Wegner and son Robert, Miss Anna Wegner and Herman Silflow went fishing near Bovill this week.

Mr. and Mrs. George Wilken and Mr. and Mrs. W. R. Johnson of Peck, who are visiting in the Wilken home, were Lewiston visitors Sunday afternoon.

Viola Schultz was an over-night guest of Helen Newman, Sunday.

Miss Anna Wegner arrived from Spokane Saturday to spend her vacation here with relatives and friends.

The Lutheran Missionary Society met with Mrs. Henry Wendt Sunday afternoon.

Mr. and Mrs. Walter Silflow and Mr. and Mrs. Gus Kruger were business visitors at Cherry Lane Monday.

Those who enjoyed a fishing trip to the Bungalow last week were Mr. and Mrs. Fred Newman and children, George Wilken and son Kenneth, Walter Koepf and Herbert Brunstiek, Herbert and Edwin Mielke, Leola LaHatt and Marie Schwarz.

Mrs. Gus Blum spent several days with her husband at Princeton last week. Mrs. Blum is staying with Mr. and Mrs. Herman Blum while her husband is working on the fire patrol.

Rosalie Kruger spent several days this week with Margaret Davis at Kendrick.

A large crowd attended the miscellaneous shower given for Mr. and Mrs. Leo Lohman Sunday evening. The Lohmans were the recipients of many lovely gifts.

Miss Emma Hartung, Mrs. Ida Stoneburner, Henry Schmidt and G. F. Cridlebaugh returned Sunday evening from a five-week's tour of Minnesota, the former home of Miss Hartung and Mrs. Stoneburner. They also visited Mr. Cridlebaugh's former home in Nebraska. They report a fine trip, but still think the Potlatch is the best place after all.

Fair Trade Act Effective

Boise — The Idaho "Fair Trade Act" is back in full force and effect but enforcement is not up to the village constables, city policemen or Idaho state patrolmen, according to the Idaho Council of Retailers. Enforcement must come in the form of court action begun by an individual claiming injury, the Council said.

When the McGuire-Keogh Fair Trade Act went into effect July 14, upon being signed by the president, the Idaho act was reinstated automatically. The Idaho law "relates solely to a seller controlling the price of the product which any reseller may sell, and must be distinguished from the Unfair Sales Act, which controls the mark-up of merchandise, the Retail Council pointed out.

"Under the Idaho Fair Trade Act any person who willingly and knowingly advertises, offers for sale or sells any commodity which bears a trade-mark, brand or name of a producer or distributor, below the minimum price which has been set by the seller, violates the provisions of the Act. The violation can occur whether or not the reseller has specifically signed a contract, agreeing not to sell lower than the stipulated price, the Retail Council said.

The enforcement of the Act lies with any person who may be damaged or injured by any reseller who sells below the minimum price and may take the form of an injunction or suit for damages or both. The enforcement lies solely with the sellers and not with any governmental agency, according to the Council.

No Sage Grouse Season

The Idaho fish and game commission has declared a state-wide closed season in sage grouse this year, Robert Salter, bird supervisor, said this week.

"Generally," Salter said, "the sage grouse population appears in good shape and not in any danger. However, certain local sage grouse populations have declined in numbers for several years. Although other factors besides hunting have undoubtedly had their influence, it is felt that these areas should be given a short rest."

"With so many hunters participating in sage grouse hunts it isn't feasible to close many small areas where bird populations are low. This increases hunting pressures in other areas with the possibility of overshooting the birds."

"We hope that the sage grouse population will increase sufficiently during the closed 1952 season to permit the opening of larger areas in years to come."

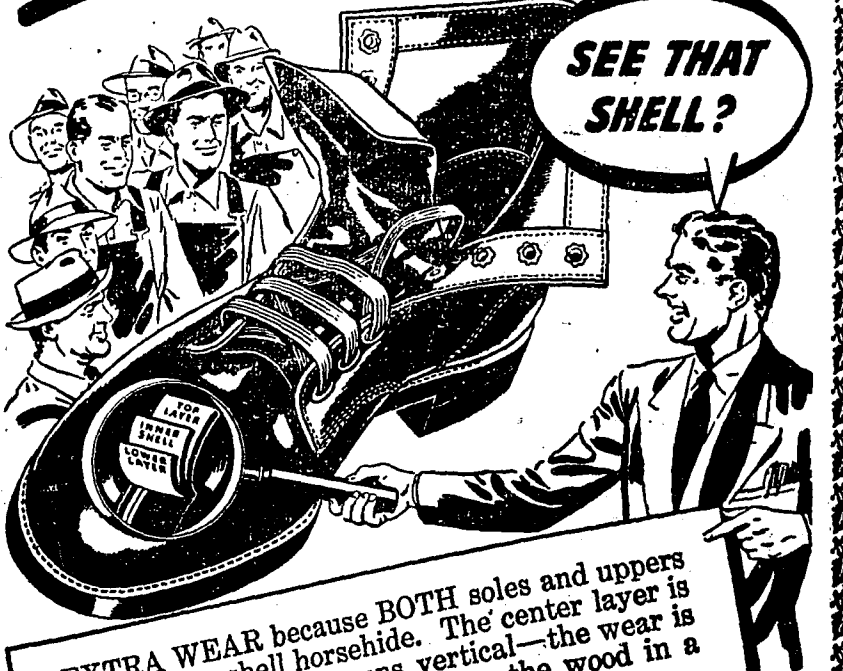

In August the Idaho Cooperative Wildlife Research unit plans to conduct an intensive research project on sage grouse populations in eastern Idaho," Salter added.

* Our Note: It would be a mighty fine idea if the few remaining blue grouse in this territory, and in all of northern Idaho for that matter, were also protected by a closed season!

ALL THAT EXTRA WHY COMFORT-WEAR? THAT'S EASY TO FIGURE OUT!

EXTRA WEAR because BOTH soles and uppers are of inner-shell horsehide. The center layer is on the end of the fibers—like the wood in a butcher's meat block.

EXTRA COMFORT because Wolverine's exclusive triple-tanning process tans this super-tough 3-ply hide so it is buckskin-soft—dries out soft—yet retains all its remarkable strength and wear.

WOLVERINE SHELL HORSEHIDES

ONLY Wolverine SHELL Horsehides have this stronger, tougher inner-shell leather in BOTH soles and uppers—this 3-ply leather that wears and wears—that costs less to wear month by month on any work shoe job. No other work shoes in the world of leather tanned like Wolverine Shell Horsehides. Come in and try on a pair... no obligation.
