Harvesting Operations Over

Harvest work for this area may be said to be "over," although an occasional load of beans or seed may still be seen coming to town.

Warehousemen say this is one of the finest falls in their memory for the production of good grain, beans, seed, etc., as there has been no rain to bring up the moisture content or otherwise affect the grade.

Storage space has proven adequate, and it is believed that all is now under roof that will be harvested.

Now Visiting Scotland

However, he added that so far he had been unable to locate any relatives, but was continuing the search via old church records, etc., and hoped to find some relative.

Leon had to rejoin his unit in Germany on October 20, so not too much time was available for the search.

COLWELL-HALSETH NUPTIALS SOLEMNIZED FRIDAY EVE.

Barbara Lynn Colwell, daughter of Mr. and Mrs. Wilbur Colwell, Kendrick, became the bride of Orville Richard Halseth, son of Mr. and Mrs. Ed. Halseth of Big Bear ridge, Friday, October 10, at 7:00 p. m. in the Kendrick Community church.

In a setting of candle light, with tall baskets of pink and white glads flanking the altar, the young couple exchanged the wedding vows in the presence of a goodly number of relatives and friends.

Bishop Dean L. Baird, Lewiston, of the Church of Jesus Christ of the Latter Day Saints officiated at the beautiful double-ring ceremony, with Mr. Guy Cash of that church giving the prayer.

Burke Sower sang "Because" and "The Lord's Prayer," accompanied at the piano by Mrs. Oscar Slind, who also played the processional and recessional marches and incidental music.

Janice and Diane Cantril, cousins of the bride, acted as candle lighters as well as brides maids, and were dressed in net gowns of shrimp and blue colors, respectively. They were fashioned with fitted bodices and a full billowing floor-length skirt. Each carried shower bouquets of chrysanthemums in colors complimenting their dresses. Mrs. Jack Mustoe, a sister of the bride, wore a floor-length gown of lavender net, similar to that of the brides maids in design, and also carried a shower bouquet of chrysanthemums.

The bride, given in marriage by her father, was lovely in a white net floor-length gown, which was fashioned with a fitted bodice of crushed net, and a stand-up collar edged in lace. The skirt was full with front panels of accordion plaited net edged in lace. Her fingertip veil fell from a little Juliet cap, and she carried a shower bouquet of pink rosebuds and white stephanotis. She carried out the traditional custom for brides by wearing the blue garter, a six-pence in her shoe for good luck (given her by her father); for something borrowed she wore a strand of pearls; and as something old she carried an Irish linen handkerchief given her by the groom.

Mrs. Wilbur Colwell, mother of the bride chose for her daughter's wedding a charcoal crepe afternoon dress with wine accessories. Her corsage was of red roses.

Mrs. Ed. Halseth, mother of the groom was attired in a teal blue crepe dress with dark accessories. Her corsage was of pink rose buds.

The groom chose for his best man his brother Gerald Halseth. Jack Mustoe a brother-in-law of the bride, and another brother of the groom, Harold Halseth, acted as ushers.

Following the ceremony a reception was held in the church parlors, which were made festive with baskets of pink michaelmas daisies and daffodils.

The bride's table was centered with a three-tier wedding cake, and after the bride and groom had cut the first piece, the cake was cut and served by Mrs. D. A. Cantril of Southwick, an aunt of the bride, and Mrs. Ervin Halseth, Craigmont, a sister-in-law of the groom. Mrs. Boyd Leland, Lewiston, a sister of the groom, poured, and Mrs. Frank Cantril, an aunt of the bride, presided at the punch bowl. Susie Candler, a school mate of the bride, had charge of the guest book. Priscilla Benschoter and Bernadine Glenn, who are also school chums of the bride, assisted the newlyweds in opening and displaying their many gifts. Sandra Cantril, a cousin of the bride, passed the mints.

Both young people are well known here and popular with the younger set. The groom graduated from the Kendrick High School with the class of 1951, and is now employed at the Kendrick Creamery.

The happy couple left immediately following the reception on a short honeymoon trip to Spokane and vicinity.

FOURTEEN ATTEND COMMERCIAL CLUB MEETING

Fourteen interested business men and farmers sat down to a 6:30 dinner at the Kendrick Cafe last Wednesday evening, and then went on to the Firemen's hall for their regular monthly business session, presided over by Gerald Ingle, with Dee Miller as secretary.

Following the reading and approval of the Minutes of the previous meeting, committee reports were called for.

Tom Long, reporting for the Highway committee stated that employees of the Kendrick Highway district were busy cleaning ditches, grading and otherwise preparing roads for winter, although such work was extremely difficult due to the extreme dryness and inability to "hold" road surfaces.

For the Boy Scout committee Dr. Christensen reported that the annual finance campaign was still under way, but returns were somewhat slow and he suggested that all workers speed up their efforts in order to complete it as soon as possible. He added that the regular monthly meeting of the Lewis-Clark Council, Boy Scouts of America would be held in Kendrick Tuesday (Oct. 14) and that anyone interested is welcome. He particularly urged parts of Scouts and members of the Council and Commercial Club to attend.

Dennis Racicot, reporting for the Education Committee, said that book courses were on time; busses were maintaining excellent schedules and all going smoothly. He added that football games were occupying the sport spot-light, and the players showing improvement with every encounter. The game for Friday (Oct. 10) is to be played at Lapwai, rather than at Kendrick, as stated in the school notes.

On Agriculture, Roy Glenn said that beyond a doubt this year's crop had been the biggest and best in years, the warm dry fall removing all excess moisture from wheat, beans, grass and clover seeds. He added that Kendrick was exceptionally fortunate having warehouses with sufficient capacity to care for all crops — none having been hauled out of the territory, but some had come in from other communities.

There being no member of the Merchants committee present, no report was available.

On Civic Improvements

H. C. Schupfer told of the enlarging and remodeling of the Thurber building; the new Western Auto Supply store of Oscar Medalen, and improvements at the G. F. Brocke & Sons warehouse.

On the Finance Committee

H. C. Schupfer reported that the drive for Sales Day funds made by himself and Tom Keene had been successful, and added that there was sufficient money available for the Christmas program.

Continuing the discussion on this matter Dr. Christensen suggested that a new date be found for Sales Day, as we had had a conflict with the Nez Perce County Fair for the past two years. After some discussion the matter was referred to the Merchants committee. However, the consensus of opinion was that a new date was a necessity, as net sales results have dropped off greatly the last two years at the public auctions.

Dee Miller, reporting for the Fish and Game committee, said that deer and elk season to date was producing rather unusual results — a party either came home with a considerable quantity of meat, or empty handed. He added that the woods were very dry and noisy, and flies bad — and the heat made caring for meat extremely difficult. Figures showed that about 33 percent of the hunters made a kill, either of deer or elk. Quite a number of bear have been killed.

G. F. Brocke and W. L. McCreary gave a brief report on the medical fund for the benefit of Axel Swanson at Juliaetta, and the action of this committee was unanimously approved by the Club — all agreeing that money raised in the drive for medicine could not be used for any other purpose.

Gerald Ingle and A. O. Kanikkeberg reported that the drive for funds for a respirator to be kept in this community (Firemen's care) was making fair progress, a total of \$371 having been raised to date out of a total of \$500.00 needed.

A. O. Kanikkeberg reported to the Club that he had received a letter from the Nez Perce county draft board stating that the petition for retention of Dr. Christensen had been received, and he had been placed in Class 2-A. The petition originated at the Joint District P.-T. A. meeting last month, and carried more than 400 signatures.

There being no further business to come before the Club, adjournment was taken until Wednesday, November 12th.

Logging Operations Steady
Logging operations in this area are going forward as usual, despite the fact that operators are having to use extreme caution due to fire hazards.

Trucks are making regular trips in this area, and we understand the Juliaetta Lumber Co., and the J. M. Mead Lumber Products Co., at Juliaetta, will resume second shift operations as soon as the hunting season ends.

So many employees wanted time off to go hunting that it was decided to eliminate the night shift for a time.

Pot Luck Supper
The Kendrick W. S. C. S. is sponsoring a Pot Luck Fellowship supper in the church basement tonight (Wed., Oct. 15) at 6:00 o'clock. A cordial invitation is extended to all members and friends. Miss Beverly Schupfer, who just returned from a year's study in Europe, will be the guest speaker.

All are asked to bring a covered dish, sandwiches for your family, and your own table service.

Loses End Of Two Fingers
Dale Candler, Juliaetta, lost the ends of the third and fourth fingers of his left hand, when they became caught in the pulley of a jammer used in unloading logs.

4-H Club To Meet
The Leland 4-H Club will meet Friday evening at 7:00 o'clock at the Wilbur Tarbet home. All members are urged to be present.

Precautions For Hunters
 Precautions against getting lost: Be sure you have plenty of dry matches, either waxed or in a waterproof box. Discuss your plans with other members of the party, and do not change them when alone.
 Learn how to make a fire. A short piece of candle carried in the pocket makes an excellent starter. A small belt axe should always be carried.
 Watch where you are going. Study your country from a commanding spot and fix land marks in mind, particularly in relation to your camp.
 Be careful in crossing ridges. After crossing a ridge you may be in an entirely different watershed.
 Always try to get back to camp well before dark. If an inexperienced hunter — don't go out alone!
 Get back to camp well before dark. Remember that night comes on early in the fall.
 If you do become lost: Sit down and think things out. Conserve energy, don't run. A fire with lots of smoke will allow searchers to locate you. Such a fire is made by building a hot, small blaze, and then putting on green boughs for smoke. Stay with the fire until help arrives. If the woods are dry, be careful not to start a forest fire.
 If shooting a "lost signal" the universal one is two shots, then a pause, followed by one shot. Point your gun straight into the air. The sound will carry further. Don't waste shells by frequently repeating the signal. Carefully conserve by spacing.

Long Duck Season
 Ducks and geese will be the target of Idaho nimrods beginning at noon October 11, when a straight statewide 70-day waterfowl season opens in Idaho, the state fish and game department said this week. Closing date is December 19.
 In recommending the longer season for 1952, the commission chose the early opening to give eastern Idaho hunters more time to shoot before their higher altitude waterways froze for the year. At the same time the commission felt that the 70-day span would allow western Idaho hunters the chance to hunt late flocks of ducks and geese coming down the Snake river to open waters at lower elevations.
 The department advised that daily bag or possession limit for ducks is six, including not more than one wood duck. Two Canada geese may be taken or possessed, but there is no open season on Snow geese, swan or Ross geese.
 Officials advised that daily shooting hours will be from one-half hour before sunrise until one hour before sunset except on opening day, October 11, when the shooting will begin at 12:00 o'clock noon.
 A shotgun not larger than 10-gauge may be used. Shotguns must be plugged so that they will not hold more than three shells in the magazine and chamber combined, and the plug must not be removable without disassembling the gun.
 Idaho hunting licenses are required of all hunters, and all persons 16 years of age or over must have a 1952 federal migratory bird hunting stamp, which may be obtained from the post office. This stamp must be validated by the holders signature written across the face thereof, before taking any birds.
Fish Check Made On Stream
 An opening day fish check at Silver creek in Blaine county revealed that an estimated 4,830 pounds of fish were taken from the stream and its tributaries with an estimated 1,400 fishermen catching approximately 6,444 trout, state fish and game officials reported this week.
 Department biologists said trout averaged three-quarters of a pound each. Rainbow trout weighed from 4.8 pounds to less than one-quarter of a pound, and eastern brook trout weighed from 1.6 pounds to less than one-eighth of a pound each, with the latter comprising approximately one-eighth of the total catch.
 The average man fished a little over four hours, taking 1.1 fish per hour, officials added.
 Groucho Marx, when told he could smoke if he didn't annoy the lady airplane passengers, remarked: "You mean there's a choice! Then I'll annoy the ladies."
 Daffynition: A jukebox is a device for inflicting your musical taste on people who wouldn't give a plugged nickel for it.

"But why not, Matilda? After all, aside from taxes, gasoline costs about the same now as in 1925!"

It takes a far smaller share of your income to keep your car in gasoline today. Oil men have been beating increased costs with technical efficiencies that hold prices down—and yield better gas: two gallons now do work that used to take three. That's progress.

Bloodless Revolution

The day is approaching when some eager bridegroom will be crushed to hear the little woman say: "Darling, you wash things beautifully, but you're not the ironer my father was!" And he won't go home to mother, either, because he'd just get more of the same.

We offer these predictions on the firm foundation of modern research. After a survey of young couples and old, in 300 communities, including cities, towns and farms, a washing clinic reports to the nation that 91 percent of American husbands do housework in some form or another — and two-thirds of the wives say

they do it willingly.

In case you'd like to know where you stand, either as husband or wife — 67 percent of husbands are dish washers, nearly half "tidy the house," one-third wash clothes, and a quarter of them can cook, according to the clinic.

How come? One of the researchers' questions (that's loaded for Elks, Moose, Odd Fellows and others) may give you an inkling. The caller with the pad and pencil innocently asks the wife what kind of a housekeeper her husband is. "Excellent," responds the wife out of natural pride, or normal shrewdness. And half of them, the really smart girls, go on to re-

port that hubby can do some things better than they can. In Emporia, Kansas, for instance, an ex-valetorian said: "He has a fresh approach, and points out the shortcuts I'd never think of!"

What do the men say? Mostly they blush, and work the toe of a bedroom slipper into the door mat and allow they're not nearly as good as Mamma. But eight percent admitted they were quite a lot better. In these cases the little woman was at the bridge club, the movies, or shopping.

That's it, men. Whether we're angels or cowards, whether we're victims of feminism or flattery — we are mother's little helper, on a big scale over the nation. And the researchers can prove . . . we like it!!

Birth Of Tyranny

"If the benevolent ruler stays in power long enough, he eventually concludes that power and wisdom are the same thing. And as he possesses power, he must also possess wisdom. He becomes converted to the seductive thesis that election to public office endows the official with both power and wisdom. At this point he begins to lose his ability to distinguish between what is morally right and what is politically expedient." — Adm. Ben Moreell.

CABINET GORGE POWER NOW "ON LINE" — HELPS FIGHT POWER SHORTAGE

Built in record breaking time by your own private enterprise electric system, the Washington Water Power Company, Cabinet Gorge Dam is now pouring heavy reinforcements of low-cost "Reddy" kilowatts onto lines serving Inland Empire defense industries, homes, and farms.

Without one cent of cost to taxpayers, W.W.P. built the great \$46,000,000 Cabinet Gorge hydro-electric project in spite of tremendous obstacles, in a race against time! Now, with a threat of serious power shortage facing this area, the successful winning of this race is doubly important to you and your country.

50,000 additional "Reddy" kilowatts of electricity, from the first of four giant generators at Cabinet Gorge, are already helping to meet the urgent need for power . . . AND . . . three more powerful generators will soon be "on the job"—turning the swift flow of the wild Clark Fork River into 200,000 "Reddy" kilowatts of low-cost electricity to serve you!

Voters Week Proclamation
Governor Len Jordan has issued the following proclamation:

"The greatest heritage of a free people being that of the franchise and with full appreciation that this privilege was attained and preserved through the years by the sacrifices of our forefathers and the life and blood of our contemporaries, and

"Whereas There appears to be a lessening of our awareness of the great responsibility of the exercise of this sacred right of the self-governed.

"Now, Therefore, I, Len Jordan, Governor of the State of Idaho, in order to impress upon the minds of our First Voters the necessity of expressing their voice through the ballot, and to indicate in the young citizen the importance of the ballot to our continued liberty, by the power vested in me as Governor do hereby designate the week of October 12 through 18 as

Weather Continues Dry
Local weather continues to be dry and quite warm during the day, but nights have abruptly cooled off — the thermometer recording a low of 32 degrees here in the canyon Monday night — and perhaps the cooler nights will bring with them a frost or dew that will somewhat alleviate the fire danger, which continues very real.

Hunters report the woods "tinder dry," the leaves of brush crumbling into powder when pulled into the hand. It is also so noisy that one man working his way through the brush makes as much noise as a band of elk in normal conditions.

Farmers are finding the fall plowing very difficult, and a good rain would be more than welcome.

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

HUNTERS — Most of you are having luck getting kills, but how about your meat? Do you know where you're going to put it when you get home? It's better to be safe than sorry, so come in and pick out your locker box before you go. We have one to fit every purse and purpose. Look them over.

"What in the dickens are you doing down in the cellar?" demanded the rooster.
"If it's any of your business," snapped the hen, "I'm laying in a supply of coal!"

Chilly weather makes us think more and more of hotcakes, french toast, etc., for breakfast. And that meal will be all the tastier if you add liberal lumps of fine "Potlatch Chief" brand butter to it. Man's it's delicious. Made from pure pasteurized cream. Your

guarantee of purity and freshness.

Drunk (bumping into lamp post): "Excuse me, sir."
(Bumping into fire hydrant): "Excuse me little boy."
(Bumping into telephone pole): "Well, I'll just sit here until the crowd passes!"

Milk is a necessity of life, particularly for the growing child. See to it that your children have at least a quart of pure pasteurized "Potlatch Chief" milk every day. It's food, and will help to take the place of the missing summer sun — help prevent colds by proper nutrition.

Then there was a certain rather conceited nurse at the hospital who always deducted ten beats from the male patient's pulse to allow for personality.

Sell us your cream!

Kendrick School Library
The Kendrick High school students extend their sincere thanks to the Dr. D. A. Christensen family for the fine box of books that they have donated to our library.

Anyone willing to donate books suitable for High School Library use is asked to please call the school — their donation will be highly appreciated. The school is trying to expand its library, thus encouraging students to read widely for enter-

tainment as well as mental growth. Our school is also appreciative of the beautiful bouquet of dahlias which Mrs. Glen Wegner sent to the school.
