## ANNIE L. HARTINGER PASSES AWAY AT SPOKANE HOSPITAL

Annie L. Hartinger, well known in the Leland and Kendrick communities, passed away on September 18, 1952, in the Deaconess hospital at Spokane, Washington, following a long illness.

Mrs. Hartinger was born at Black Diamond, Washington, November 30, 1894. She came to Leland, Idaho, with her parents, Mr. and Mrs. Charles Larson, around the turn of the century. On November 17, 1914, she was united in marriage to Wesley Hartinger, and they farmed in the Leland section until 1929, when they moved to Lewiston, Idaho, to make their home. To this union two children were born: Evelyn, now Mrs. Richard Lines, and a son, Arthur Edwin, who preceded her in death, passing away in 1920.

Two grandsons, Richard Wesley and Bertram Barry Lines of Spokane; a sister, Edith Dammarell, Bellevue, Washington; three nephews and a niece, several cousins and a multitude of friends also survive.

Funeral services were held Monday, September 22, at 2:00 p. m. in the Brower-Wann Chapel at Lewiston, with the Rev. T. J. Spier of Spokane officiating.

Interment was in the Masonic section of the Normal Hill cemetery at Lewiston. Pallbearers were Herman Johnson, William Johnson, Fred Sillow, Laurel Flesham and Alex Larson (all cousins, and Dallas Hepler, a life-long friend.

Mrs. Hartinger made many friends wherever she had her home. She resided at Lewiston until the passing of her husband, Wesley, in May of 1938, after which she lived in Spokane, Lewiston and Ellensburg.

In November of 1942 she married Earl E. Briggs, which union terminated in divorce May, 1951, with the court awarding her her former name of Hartinger.

From the first of January in 1952, after she became ill, she made her home with her daughter in Spokane. Her passing will be mourned and she will long be missed by all who knew her.

## Cards From Scotland

Mr. and Mrs. Leonard Wolff have received a number of cards and a brief letter from their son Pfc. Leon Wolff, who visited Scotland in search of relatives of his grandfather, the late A. G. "Scotty" Wilson. With their permission we reprint portions of the cards and letter:

"Well, finally all the difficulties were over and we are now in Amsterdam, Holland. This is undoubtedly the closest packed city I have ever seen. It has been foggy most of the time, and it surely is hard to get pictures. We are going to Brussels tomorrow morning. Will have to keep moving if we get to all the places we want to see."

"We caught an army 'hop' from Holland to London, England. I don't care much for the English (what a bunch of stuffed shirts). We are going to Scotland tonight. It is cloudy, but not raining. Most everything is expensive here."

"Edinburgh, Scotland — As you see we have been traveling. I spent all morning in Glasgow trying to find relatives — no luck though. We came up here this afternoon. It is cold, cloudy and windy, but not raining. Will try again tomorrow to find relatives — the address can't be located, also part of birth certificate is wrong. Will give it another try tomorrow."

"Castlegate, Scotland — This is the place where granddad was born. Will know pretty soon if there are any relatives around. It seems doubtful to me. These Scotch are very nice people, the best I have been among so far. We have to leave here at 2:00 this afternoon. Can get on army plane to Paris."

"Prestwick, Scotland — I found the relatives. Will explain later on. We are now in Prestwick, and will fly to Paris from here. The plane leaves at 9:00 in the morning. It is 600 miles, so will save us a lot of money. We want to be in Madrid for the bull fights Sunday. The Scottish people are wonderful. Never have I seen such hospitality."

"We are back in Paris again. Really want to see Paris, so will be here for a while. It took us 20 hours from Madrid by train — and what trains! Will try to fly back to Germany — sure saves money."

"Madrid — Missed the bull fights due to a 9-hour train wait. It is warm and very cloudy, with an occasional mist, but so far it hasn't really rained. I am a little disappointed in Spain. It looks like a desert with a few mountains, and a desert tree that reminds me of sagebrush."

"As for relatives in Scotland — Mom, your dad had a sister. Her name was registered as Janet, but they say she was called Anna. She had one son whose name is Thomas McKinna. He is 59 years old and has a son 20 and a daughter 26, the latter is married and has one little girl, etc."

## Raises Huge Tomatoes

Ted Lind, who is employed on the Mart Klopfer farm at Stoney Point, and who was awarded several prizes at the Sales Day exhibit, read about the big Red Pontiac potatoes we had on display, and came in to see them — bringing with him a shoe box filled with tomatoes from his garden.

These tomatoes, a new variety for this area, "Climbing Beefsteak," were huge, the largest weighing 1 lb., 3 oz. Mr. Lind says they are very hardy, and will stand a frost that kills ordinary types.

## Hadley-Smith Nuptials

Miss Jayne C. Hadley, daughter of Mr. and Mrs. Fred W. Hadley of Juliaetta, became the bride of Don M. Smith, son of Mr. and Mrs. E. L. Smith of Manitou Springs, Colo., in the Methodist church at Coeur d'Alene, on Thursday afternoon, Oct. 9th.

They were attended by Mr. and Mrs. Dale Wittman of Spokane.

The young couple left immediately for Manitou Springs, Colo., where they are now at home to their friends.

Mrs. Smith is well known here, having graduated from the Kendrick High school with the class of 1951, and since her graduation has been employed by the Juliaetta Lumber Co. as secretary.

All wish them every happiness.

## SPOKANE STAR ROUTE MAIL TIME; ROUTE IS CHANGED

"Postmistress Tish Erb yesterday (Wednesday, Oct. 15) received official notification from the Postal Transportation Service ordering a time change in the Spokane-Lewiston Star Route. The new time will go into effect today.

"The star route truck, operated by Lloyd Templeton, Spokane, left the Washington city at 12:01 this morning and was scheduled to arrive at Lewiston at 6:30 this morning.

"The truck was slated to proceed to Lewiston through Pullman, Moscow, Troy, Deary, Kendrick and Juliaetta. It will return by the same route after depositing mail here.

Previously, the return route to Spokane was via Genesee and Moscow, which eliminated the early morning mail delivery linking Lewiston with Juliaetta, Kendrick, Deary and Troy.

"Mrs. Erb said last night that mail from Spokane, which normally arrives at Lewiston at 1:45 p. m. on the Northern Pacific train, will leave Spokane on the star route truck and arrive here 12 hours earlier.

"Although the volume of incoming mail from Spokane will be greatly increased by the change in time and addition of mail normally received by train, every effort will be made to obtain prompt delivery. Mrs. Erb said carriers will report for work at 7:30 each morning and deliveries will begin at 9:30.

"Official notification of the change was received by Mrs. Erb from M. F. Robertson, supervisor of postal transportation at Spokane." — Lewiston Tribune.

This is almost identical with the routing originally asked by the Kendrick Commercial Club, Moscow Chamber of Commerce, Juliaetta post-office patrons, and, belatedly, by the Lewiston Chamber of Commerce, but which was given no consideration at the time.

Postmaster Fred Stedman says the mail truck will arrive here about 5:00 a. m. It will pick up mail for Juliaetta, Lewiston, Troy, Moscow, Deary, etc. This mail will be taken to Lewiston, there pouched, and returned via the same truck on its trip back to Spokane, thus speeding up local and semi-local mail deliveries considerably. The truck will come through Kendrick on its return trip about 7:45 a. m.

## Drought Was Broken

A light shower Monday broke the longest dry spell in the history of this section — although not enough rain fell to clear the air, let alone moisten and lay the dust.

Official weather bureau records at Lewiston show that it had been 41 days and 40 nights since the last measurable precipitation was recorded on September 10.

The second longest dry spell for this period of the year was in 1916 when no rain fell for 39 consecutive days and nights.

Pastures are parched to a tinder dryness, and the woods are described as a "huge tinderbox" by forestry employees. Henry Jones, deputy state fire warden here, said that much more rain would have to fall before fire permits would be issued, or the closed areas opened to hunters.

Tuesday, following the brief rain, which was just enough to moisten the pavements and show on sidewalks, the sun came out brilliantly, and by mid-day the sky was cloudless.

## Injured In Car Crash

Willard (Perk) Cox, appliance buyer for C. C. Anderson Co., Lewiston, was reported in fair condition Tuesday night at Walla Walla General hospital after receiving a slight brain concussion, a fracture of the hip and possible internal injuries in an automobile accident Tuesday morning.

The accident occurred near the city limits of Walla Walla about 9 a. m., when Cox applied the brakes at a railroad crossing to avoid an oncoming train. The car went into a spin and overturned. It was almost completely demolished.

Mrs. Cox went to Walla Walla Tuesday to be with her husband. — Lewiston Tribune.

## In Seattle Hospital

Mr. and Mrs. Ted Weyen accompanied Mr. and Mrs. Weyen to Seattle Thursday of last week, where Weyen entered a hospital for treatment.

Tuesday word was received here that Mr. Weyen was in a grave condition, and his son, Billy Weyen took a plane from Lewiston Wednesday morning to be at the bedside of his father.

## JOINT DISTRICT P-T. A. MEETS AT SOUTHWICK MONDAY EVE.

On Monday evening, October 20, the Joint District P-T. A. met at the Southwick school with Ross Armitage, president, presiding.

Minutes of the previous meeting were read and approved.

The treasurer's report was read and accepted.

Under "Committee Reports" President Armitage reminded people to join the organization, and pay their dues to Mrs. Cecil Cruell, Mrs. Darwin Tarry or Mrs. E. M. White.

Mr. Calvert reported for the project committee and presented a recommendation "that the main portion of the entire fund raised by the P-T. A. this year be given to the Kendrick school for the purchase of some suitable article, and that a committee of three, as follows, namely: Superintendent Nutting, Principal Ben P. Cook, and the present president of the P-T. A. name and select the article." It was moved, seconded and carried to accept this recommendation.

Mrs. Dennis Racicot, Magazine chairman, asked for new subscribers for the magazine, and urged others to renew their subscriptions.

The project committee reported a total of 3,294 quarts of food processed to date. Mr. Nutting thanked the Canning committees and all others who helped in any way. He reported that very little participation had had been lost due to the raise in price of lunches.

There being no further business, the program chairman, Mrs. George Brocke, Sr., led the group in the singing of "America, the Beautiful."

Mrs. D. A. Christensen and Mrs. Brocke sang two duets, accompanied by Mrs. Herman Schupfer.

Mrs. Raleigh Albright spoke to the group on the "United Nations" and urged everyone to study the organization before deciding whether it should be continued or scrapped.

Mr. Nutting then introduced several political candidates from Nez Perce and Latah counties, who gave their views on the nine-point legislative program outlined by the State Unified Education Council.

Sen. William C. Moore, one of the speakers, who voted against NICE and SICE at the last legislature, said that the Idaho teacher scarcity could better be resolved by raising salaries than by educating more teachers.

Moore said "the primary problem is the matter of pay for teachers. If we needed more engineers, we wouldn't build another engineering school, we'd raise the salaries of engineers."

If teachers' salaries were raised about \$400 a year, he said, the problem would be largely solved. "If we raise the salaries of teachers to a level of pay commensurate with the pay of alternative types of work we'll get more teachers."

It would be pointless, he said, to educate more teachers and then watch them leave Idaho because of the low salaries here. He proposed that the money which might be available for operating NICE and SICE at Albion, be used instead for raising teachers' salaries.

But Moore added that "the schools belong to the people, and the people should decide what should be done with them." He advocated a referendum election to decide the issue.

Don Modie of Lewiston, candidate for state representative from Nez Perce County, also on the Republican ticket, also advocated a referendum election on NICE. But Modie said he would favor turning the Southern Idaho College of Education plant over to the State Industrial school at St. Anthony, a juvenile retention institution. A referendum on NICE should be held in 1954, he told the P-T. A.

The only Democratic candidate present, the Rev. Kenneth Holmes of Moscow, candidate for state representative from Latah County, declared that "NICE should be made into the best teacher college in the Northwest."

Mr. Holmes repeated a challenge which he had made previously to Gov. Len Jordan and Republican legislators who were in the legislature which eliminated NICE and SICE. The Baptist minister challenged them to "make a statement now on his attitude toward education and toward the two teacher colleges. The people have a right to know," Rev. Holmes said.

Moore made his statement later in answer to a question from the floor. Also speaking at the meeting was Representative Elvon Hampton (R-Latah) of Genesee. Victor Morris, candidate for state representative from Nez Perce County, attended the meeting but did not speak.

Each of the speakers presented his views on the nine-point legislative program adopted by the Unified Education Council.

The program calls for: 1—Increase of the minimum program by not less than \$2-million per year. The candidates said they favored this generally but thought it best not to pin themselves down to a definite figure.

2—Speeding up of apportionment by counties of state minimum program funds. The candidates favored this.

3—Increase of school district bonding issues. Hampton said he saw no reason for an increase, saying "The districts aren't bumping the limit now." But he added that "if necessary I wouldn't be opposed to raising the limit from the present 10 percent to 15 percent of assessed valuation." Modie said he would support this "within reason."

4—School district special levy

## PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Chas. Candler and Donna spent the week-end in Spokane with relatives, driving up Friday evening and returning Sunday.

Mr. and Mrs. Walter Zimmerman and family, who have been living here the past several months, left for Speckne last week, where he will be employed.

Howard Evans, Moscow, who has been stationed in Germany with the army of occupation for the past several months, was a Saturday morning caller in the Louis Wright home.

John DeHaven left Monday afternoon for Portland, where he will attend the National Rabbit Breeders' Association convention, which began Tuesday morning and will last through Saturday.

Clement Israel is in the process of moving their household goods and most farm equipment to Ephrata, where they will be located next year. In the meantime his wife and daughter will spend the time with her grandmother, Mrs. Adrienne Clemenhagen.

Mr. and Mrs. Sam Alexander (nee Winnifred Crocker) of Sacramento, Calif., and her mother, Mrs. Fred Crocker of Lewiston, visited last Tuesday with Mr. and Mrs. Frank Crocker. On Wednesday Mrs. Crocker's brother, G. A. Luckens of Spokane, was a visitor in their home.

Jud Lee came over from Seattle Friday night, to spend the week-end here with his wife and son.

U. of I. students home for the week-end were Dan Crocker, Charles and Douglas Christensen, Roger Jones, Charles Parks, Howard Wolf and Parker McCreary.

Mr. and Mrs. Jack Kuykendall spent Sunday at the home of her daughter, Mrs. Orville Preston, in Sprague, Wash.

Mr. and Mrs. F. C. Cuddy have purchased the Jud Lee home on the school house hill, the deal being closed Saturday by J. G. Travis, realtor. The consideration was not made public. It is understood that the Cuddy's get possession soon.

Cpl. Don Brown, son of Mr. and Mrs. Ed Brown, his honorable discharge in his pocket, arrived home last Saturday from Korea — and says that nothing could look better than the "old home town — and home." Don promptly put on civilian togs and spent Sunday hunting with his father. Tuesday morning, in company with Herb Weber, he left for the Oro Grande, to join other friends on a big game hunting trip. Don says there is no big game in Korea, but there are Chinese pheasants, and occasionally one "fell victim" to the guns of the G. I.'s.

Mr. and Mrs. Harry Harris and family, who spent the summer at Avery, where he was employed by Potlatch Forests, returned home last Saturday evening, and will spend the winter here.

Chas. Snowing, who has been visiting the past two months in the home of his daughter, Mrs. D. A. Christensen and family, left Sunday for his home in Salt Lake City.

Mr. and Mrs. E. A. Deobald, Mr. and Mrs. Otto Schupfer, and Mrs. Elsie Deobald, returned late Monday night from Chicago, driving out two new cars. The Schupfers attended a telephone convention in that city, and were joined by the Deobalds. They report wonderful weather and beautiful scenery all the way — but very dry.

Mrs. George Havens, as delegate from the Latah County Home Demonstration Clubs, left Wednesday morning, accompanied by Mrs. Helen Hunter, Latah County Home Demonstration agent, for Pocatello, where they will attend the State Home Demonstration Council sessions. The meetings are scheduled for Thursday and Friday.

Mr. and Mrs. Bob Whitehead and son Wayne of Seattle spent several days here visiting in the home of her sister and family, Mr. and Mrs. Walter Brocke, and in the home of her brother, Mr. and Mrs. Frank Abrams and family.

Mr. and Mrs. Walter Bigham attended the Idaho-North Dakota football game at Moscow Saturday afternoon.

Among those attending the "Dad's Day" festivities at the University of Idaho Saturday were Mr. and Mrs. Ben P. Cook, Mr. and Mrs. Ervin McGeachy, Mr. and Mrs. Tom Long, Mr. and Mrs. Andy Cox, Edwin Mielke, Mr. and Mrs. Floyd Millard and son Don, Jerry Armitage, and Mr. and Mrs. W. L. McCreary. The latter drove on to Spokane where they met their daughter, Pat, from Seattle. All spent Sunday in the P. S. Griffith home, returning home Sunday evening.

Mr. and Mrs. R. L. Blewett and son Billy were dinner guests Monday evening in the home of Lt. Col. and Mrs. Aaron Blewett at Moscow.

Beverly Ann Schupfer was a Sunday dinner guest in the home of her aunt, Mrs. Norris Walker, at Clarkston.

Mr. and Mrs. Louis Lindquist moved to Juliaetta last week, where they will make their home. The house they vacated, which was purchased by Arthur Foster and children, was occupied by the Fosters as soon as the Lindquists removed their furniture.

Lt. Col. and Mrs. Aaron Blewett and children of Moscow were Sunday dinner guests in the home of Mr. and Mrs. Ben P. Cook. Mr. and Mrs. Nye Blewett and family of Lewiston and Bruce Ebert and son of Oaksdale, Wash., were afternoon callers.

John Darby is working in Moscow, helping his brother, Fred Darby, build a new home.

## Still No Official Bridge Word

In response to repeated requests for information relative to the new bridge planned for the east edge of Kendrick, to replace the fallen steel structure, we must repeat what we have said several times before — "No official information has as yet been made available to us."

We are told that the structure is on the "emergency" and "rush" list — but that apparently does not mean immediate construction.

Had immediate construction been desired, the bridge could well have been built by this time — and perhaps the approaches as well.

Local prediction is that the present temporary structure will never withstand the rushing waters of Bear creek when the late fall or early spring freshets hit it — and we agree.

## INTERESTING NEWS BITS FROM THE SOUTHWICK AREA

The Joint District No. 283 P-T. A. met Monday evening at the Southwick school house. After a good program, some fine talks by members, and political candidates, coffee and assorted sweet hot rolls were served by the Hostess committee. About 70 parents and faculty members were present.

## More Huge Potatoes

Following our article telling of the big "Red Pontiac" potatoes raised by George Drube at Southwick, more of the big fellows made their appearance — the Galloway Brothers and Burton Souders putting on display at Burt's Confectionery, a large dish of the tubers, the largest of which weighed slightly better than three pounds. They are of the same variety — but were raised on Big Bear ridge at the Galloway Brothers ranch.

## Tendered Tin Can Serenade

A large number of neighbors and friends from here and Kendrick gathered at the Ed. Halseth home Tuesday evening to charavari Mr. and Mrs. Orville Halseth. Treats consisting of cigars, candy, coffee, cake and ice cream were served. After spending the evening socially, the guests departed, wishing the happy young couple all good things through life.

## Democratic Street Rally

Next Saturday evening, between the hours of 6:30 and 7:00 o'clock all the Democratic candidates from Latah county will be in Kendrick, at the city park, to meet with the voters of this area. They will have a truck of this area. They will have a truck of this area. They will have a truck of this area.

Everyone is cordially invited.

## Overseas Mailing Dates Set

The following overseas mailing dates will be important to those having relatives in the Armed Forces, or friends overseas. As set by the postoffice department, and given us by Fred Stedman, local postmaster, they are:

South and Central America, Nov. 22; Europe, Nov. 15; Africa, Nov. 1; Near East, Nov. 1; Far East, Oct. 15.

Air mail parcel post is limited to 2 pounds in weight, and 30 inches in length and girth combined.

The above dates are the last on which packages can be mailed for Christmas — with reasonable expectations of reaching their destinations on time.

## Circle Thursday Afternoon

The Kendrick W. S. C. S. Circle will meet today (Thursday) at 2:00 p. m., in the home of Mrs. Ed. Kent on American ridge.

Members and friends are urged to be present, and asked to bring hand work

elections to be replaced by budget hearings and levies to be certified thereafter by the school district trustees. The candidates who commented on this item said they were generally in favor of it.

5—Health examinations to be required of all school employees, not only teachers and bus drivers. Nobody opposed this.

6—Maintenance of present standards for teacher certificates. All of the candidates assured the P.-T. A. that they believed in maintaining the teacher standards at a high level.

7—Maintenance of a unimpaired teacher retirement system. All of the candidates said they favored a sound teacher retirement system. Mr. Hampton said "I found that teachers want a retirement system and they are willing to pay for it. I believe they should have a good, sound system."

Morris said he was in the legislature when the retirement plan was first promoted and that he thought "such a program very necessary." Modie also approved it.

8—Protection of juveniles by appropriate legislation. All candidates said they favored such legislation, and Senator Moore told the P.-T. A. that some work had been done on a new narcotics law which he expected to come before the next legislature.

9—Support of any move, if made by others, to increase the age of eligibility for driver's license to 16 years. The age is now 14. Those candidates who commented on the final item said they could not favor it because 14-year-olds are often needed on the farms as drivers during the harvest season. Hampton said there were few accidents caused by 14-year-olds.

Morris told the P.-T. A., "We've always got to remember that somebody has to pay the bills. But I know we will raise teachers' salaries this session enough to keep them in Idaho."

The other candidates also spoke briefly, with agreement on general issues apparent.

The meeting then adjourned and all were served delicious refreshments by the Southwick ladies.

Mrs. George F. Brocke, Sr., won the "White Elephant."

**Candidate For President**

U. of I., Moscow — Gordon Cook, Kendrick, is a candidate for the office of president of the Senior class at the University of Idaho. He is running on the Independent ticket. Class elections will be held November 5th.

**LINDEN ITEMS**

(Delayed)

On Friday of last week Mrs. Marion Souders and Mrs. Ernest Grim attended the Home Demonstration Council meeting in Moscow, as delegates from the Freindly Neighbor Club.

Mrs. Lester Weaver spent Saturday with Mrs. Frank Lyons.

(This Week)

I am still looking for someone to take over our news writing. I will help, when possible, in gathering news, but I just don't "travel around enough" to collect enough material to make a column. So, neighbors, please ask your neighbors, and let's find a reporter whose "hearing" is better than mine. — Your Reporter.

The Gold Hill W. M. A. sale and supper has been set for November 7, with the "family-style" supper to begin at 6:00 o'clock and the auction at 8:00 o'clock sharp. **May Have Television Later**  
Latah county may look forward to its own television on a new station which may be built under a plan of the Federal Communications Commission, in Moscow.

The FCC plan, which has just been adopted, calls for 28 new stations in Idaho. Most of them will operate in the ultra-highfrequency range, which is an untapped section of the radio spectrum. Use of this UHF band and expansion of the present service

would permit nearly 2,000 new television stations in every section of the nation. The 108 television stations now operating in the United States are in the VHF range.

When new stations are built, home television receivers will follow quickly, judging from the experience of present television areas. Based on the national pattern, Idaho can anticipate more than 95,000 sets a year or two after the new stations begin to operate, with nearly 3,500 sets predicted

for Latah county alone.

Under the FCC plan, Idaho cities and towns which may obtain new stations are Blackfoot, Boise, Burley, Caldwell, Coeur d'Alene, Emmett, Gooding, Idaho Falls, Jerome, Kollg, Lewiston, Moscow, Nampa, Payette, Pocatello, Preston, Rexburg, Rupert, Sandpoint, Twin Falls, Wallace and Weiser.

**Building Program Far Behind Schedule All-Purpose Barn Has Priority on Many Farms**

Although American farmers have undertaken considerable construction in recent years, the farm building program is still far behind schedule. Farm authorities report that farm buildings have a high average age, with the average all-purpose barn dating back to 1910.

For this reason the all-purpose building has first priority with many farmers who are interested in greater labor efficiency and a

better return on their farm investment.

The building pictured above is 48 feet long, 34 feet wide and 35 high. In addition to being soundly planned — subject to the individual farmer's own requirements — it will make a pleasing addition to most farmsteads.

The floor plan shows six cow stalls on either side of a driveway. Also provided in connection with the dairy sections, and mangers, feed alleys and gutters for each group. The second floor is a hay-mow. Revisions to suit any farmer's particular needs can be incorporated readily by the builder.

A flexible plan for the all-purpose barn may be obtained free by writing Farm Service Bureau, 111 West Washington St., Chicago 2, and asking for No. AFB-162.

**High Production Key To '52 Farm Success**

High farm production will be the key to success in 1952, agricultural economists report. They point out that operation costs will be higher, especially for labor, machinery and feed. But they feel the best way to beat higher costs is through greater production and efficiency.

Increased production can be obtained by use of more legumes in the rotation, using more commercial fertilizer or by tilling heavy land which is poorly drained but which can be made highly productive. Modern machinery makes farming larger acreages possible, and only through making maximum use of equipment can it become a profitable buy.

Another method of increasing production will be through expanding the livestock program. Continued high demand for livestock products will keep prices high and open good opportunities for profit.

The year of 1952 will also be a good time to reduce the mortgaged debt, economists say, and farmers who do will be in a better position to weather out any period of financial reverse, if one should occur.

**Modern Dentistry Can Aid Youth with Cleft Palate**

The role of modern dentistry in the total rehabilitation of young men and women with cleft lip or cleft palate so they can lead happy useful lives is revealed in the Journal of the American dental association.

Asserting that more children are born with this condition than any other congenital deformity, Dr. Herbert K. Cooper, director of the Lancaster, Pa., cleft plate clinic, estimated that at least one out of every 700 children have this handicap.

"The most frequently found condition has been getting the least amount of attention," he said. "The citizens of this country should be as well informed on the subject of cleft palate as they are on poliomyelitis, cerebral palsy and rheumatic fever."

Citing cases of patients treated at the clinic, Dr. Cooper told of a youth, 17, born with a cleft lip and cleft palate. During infancy, surgery had been performed, leaving him with a flat upper lip and very poor speech.

"He shunned all social contacts," Dr. Cooper said. "He left high school and was driving a truck. His whole family was extremely upset."

Dr. Cooper said the youth was given a medical, dental, speech and psychological examination. An appliance was constructed to build out the upper lip and cheeks and thimble crowns were placed on his five remaining upper teeth. At the same time, he was given speech instruction.

The boy was persuaded to finish high school, Dr. Cooper said, and he then was admitted to college. He added:

"The first two years were quite difficult for him because of his social adjustment problem, which he gradually overcame. Then he was taken into a fraternity and was graduated on the dean's list. He is now attending law school in a large university."

**U.S. Still Leads World in Production of Matches**

It's pretty difficult to get something for nothing these days, but there's one item left that is used by the average person 14 times a day, and two out of five times he doesn't have to pay. That little item is the match.

The manufacture of matches is a \$25 million-a-year industry in the United States. Each year, more than 600 billion matches are produced, and of 200 billion book matches made in the United States every year, about 196 billion are given away with the sale of cigars, cigarettes, and tobacco.

Sweden had us topped for many years in the production of matches. The Swedish Match Company, formed in 1913 by Ivar Krueger, had match factories in 43 countries of the world and manufactured most of the world's matches. Krueger is said to have invented the common superstition that "three on a match" is unlucky, in order to sell more matches. His match empire lasted until 1932, when it was discovered he'd been using the company's capital for his own speculations.

Sweden now ranks fourth down the line led by the United States, Great Britain ranks second and the Soviet Union third.

**Spices in History**

There are many references to spices and herbs in the pages of history. They play important parts in the development of our civilization. The ancients attributed strange powers and accomplishments to spices. Basil, for example, is venerated by the Hindus who plant it outside their temples and homes to insure happiness. The famed laurel wreaths which crowned Greek heroes of war and sport are the same bay leaves we use today in our cooking.

**Freezing of Water Pipes**

Freezing is most likely to occur in pipes which run along an outside wall. This hazard should be corrected by re-location of the pipes, if possible. If this is impractical, thorough insulation with from two and one-half to three inches of good pipe covering is the only safeguard. Should any of the piping freeze, the work of thawing it should not be entrusted to a handyman. It should be done under the supervision of an experienced master plumber. Blow torches or other methods involving open flames are extremely dangerous. They not only involve fire hazards but also permit the generation of high pressures which may cause explosions.

**Gregorian Calendar**

The form of our present calendar was set by Julius Caesar with some additional innovations by Augustus Caesar. However, in about 1500 years the length of year adopted by the Caesars proved incorrect. Therefore, Pope Gregory, in 1582, appointed a commission which revised the calendar sufficiently to bring it back in step with the seasons. Now it takes 3000 years for the calendar to slip out of line one day. The Protestant countries did not accept the Gregorian calendar until 1752 and this is why certain dates in history sometimes appear to be confused.

For giving relief from painful conditions, such as headaches, back ache, sciatic, etc., osteopathy has established a wonderful reputation. The same is true of many chronic disorders. If you are ill investigate osteopathy for yourself. Many people are healthier and happier today because they investigated and tried osteopathy "yesterday."

Meet Storage Needs  
**'Little Business' Answers Challenge in Grain Belt**

Called upon by the department of agriculture to perform a modern miracle, "little business" in 10 midwestern states is tackling one of the biggest jobs of its kind ever undertaken anywhere in peacetime. Its Herculean assignment is the site preparation and erection of 2,300 steel buildings—each 32x86 feet or larger—at 870 widely separated locations.

The task arose with the grain belt's acute need for space in which to store the record-breaking carry-over of 1948's corn crop. In line with

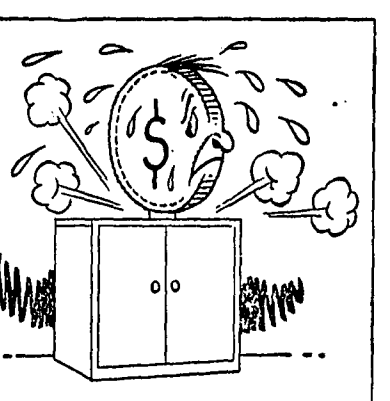

Grain being loaded into Quonset huts for CCC storage near Paulding, Ohio.

the trend toward economical "horizontal" grain storage, the department ordered Quonset buildings for a large part of the necessary new facilities. These archroofed steel units now are mushrooming up beside highways and railroads near farm centers through the efforts of local businesses and labor, rather than the work of transient crews employed by a few big and distant contracting firms.

Within two weeks time more than 1,100 concrete foundations had been laid, and erection of steel was under way on them in every state. The concrete work alone was roughly equivalent to laying 25 miles of highway in a time that an average road-making crew would require to put down one.

**Sweat Down Costs**

Sweat down your production costs if you want to maintain profits in these days of declining farm prices.

One way to sweat down those costs is to increase your crop yields per acre. More bushels of corn and grain per acre, more pounds of meat, milk, dairy products and poultry mean lower production costs per unit. On such a basis you can make a profit even if prices slacken further.

You can get those higher yields and lower costs with good soil management. Good soil management means giving your soil a fair deal. It means supplying the soil a well-balanced ration of plant foods, so crops will be well nourished. It means building up instead of breaking down soil structure and tilth. It means "recharging" the land with soil-enriching crops at regular intervals, instead of growing soil-draining row crops year after year on the same land.

**Dangers of Butchering At Home are Outlined**

Home butchering is profitable on the farm and many rural families are replenishing their lockers, jars and pantries.

But, unless undue caution is used, home butchering can be dangerous.

Equipment, too, should be used with care. All knives should be kept in a suitable place when not in use. Hoisting equipment should be checked. A tamper should be used to force meat into the grinder.

**Attention to Details Pays Off for Hog Farms**

Attention to details is the biggest reason why some hog farms earned \$2,000 more than some others during the past year.

F. J. Reiss, farm management specialist in the Illinois college of agriculture, said that 128 high income hog farms averaged \$10,200 earnings from swine last year, while 161 less-efficient farms took in only \$8,000. Extra care at farrowing, control of parasites, helped

Fine Collections Large

The state fish and game department reported a total of \$4,032 collected in fines from hunting and fishing violations during September.

There were 157 arrests, officials said. Bonneville county was first with 23; Clearwater county second with 14; Shoshone third with 11, and Ada and Jefferson counties tied with 10 arrests each.

The highest single fine of \$200 was paid by a Latah county man for unlawfully possessing a spotted fawn. Four men were fined \$150 each for illegal possession of deer meat, and four more \$100 each for killing and

possessing deer during a closed season. The department added that the most common offense was fishing without a license. Twenty-one people were fined a total of \$455 on this charge.

Very often a man thinks he is being restrained by conscience, when he is actually restrained by the fear of being caught.

## HELLO, THERE, FOLKS —

Well, here we are — the weather continuing fair and warm — and that hasn't helped the pasture a bit. So, to help Old Bossy do her best, give her a forkful or two of hay and a bit of grain every day. She'll more than repay you when you get that cream check from us. If you are not now selling here — try us. You'll like our service, our money, and the steam-sterilized, ready-to-use can that we return to you. No waiting, no fuss, no bother.

The great big beautiful car drew up to the curb where the cute little working girl was waiting for the bus. A young man stuck his head out and said: "Hello. I'm driving west."

"How wonderful," said the girl, "bring me back an orange!"

Don't wait to pick out that locker box — come in today. It's

real satisfaction to know where you're going to put that meat when you bring it home. We have a box that will fit every purse and purpose.

During a grouse hunt in England, two sportsmen were shooting at birds in a clump of trees near a stone wall. Suddenly a red face popped up over the top of the wall.

"Hey, you almost hit my wife!" "Did I?" cried the man aghast. "I'm terribly sorry — have a shot at mine over there!"

Milk is a necessity of life, particularly for growing children — each of whom should have at least a quart a day. See to it that yours have — and that it's pure pasteurized Potlatch Chief brand.

The label "Potlatch Chief" is your assurance of quality on any dairy product. Look for it!
