

**PERSONALS AND NEWS
ABOUT KENDRICK FRIENDS**

Mrs. Ida Cross and daughter Seeran and Mrs. Hazel Cross, all of Spokane, were week-end guests in the home of Mr. and Mrs. L. S. Thurber.

Word has been received here that Mrs. Irene DePeel, former resident of Kendrick and Juliaetta, was married to A. E. Rosenau of Cheney, Wash., in the Lutheran church at Medical Lake, Wash., on Dec. 14. They are making their home at Che-

ney, Wash., RFD No. 1. Mr. and Mrs. Luther Parks, U. of I. students, spent the week-end here with their parents, Mr. and Mrs. Homer Parks and Mr. and Mrs. Walter Brocke.

Arthur Foster received word Monday evening that his wife, who is a patient at the state TB hospital at Gooding, had been given a ten-day pass — so Mr. Foster left immediately for southern Idaho by car to bring her home for a brief visit. This will be her first trip home since entering the institution — and speaks

well of her recovery progress. All will be glad to see her.

Edgar Long returned to Spokane Friday to undergo further medical treatment for an allergy.

Clairence Ferryman and Walter Sparber were Lewiston visitors Sunday.

Mrs. Hattie Lohman returned home last Saturday from Oregon, where she had spent about six weeks in the home of her daughter, at Portland.

Mr. and Mrs. Reinhard Wilken and daughter Marga and Mr. and Mrs. Henry Reil, Leland, and Mr. and Mrs. Geo. Wilken were guests Sunday in the home of Mr. and Mrs. H. C. Schupfer. The time was spent in showing pictures taken in Europe by Beverly Schupfer, last year.

Mr. and Mrs. Floyd Millard have received word from their son, Pvt. Don Millard, who is stationed at Camp Roberts, Calif., that he is in the hospital there, following dental work — but expects to be out soon.

Mr. and Mrs. Alvin Steigers of Myrtle were in Kendrick Monday, visiting with old friends and transacting business.

Word has been received that Mr. and Mrs. Robert Fry, former residents here, who have been living at Chico, Calif., have moved to Bakersfield, Calif., where they expect to make their home.

A brief note from Mr. and Mrs. Walter Hartung, former Juliaetta residents, but more lately of Johnson, Wash., states that they are now getting their mail on a rural route out of Moscow.

Mrs. Walter McCall returned Saturday from Spokane to care for their children at the home of her husband's parents. She reports her husband, who underwent surgery on a knee last week, as still confined to the hospital, but showing improvement.

Latest report from the bedside of Mrs. Allen Medalen at the St. Joseph's hospital in Lewiston, is that following surgery last week, she is now responding to treatment.

Sgt. and Mrs. Delbert Nicholson and little son Willis arrived here Saturday night from Betteravia, Cal., he with his discharge papers. They are at the home of her parents, Mr. and Mrs. C. E. Harris.

C. E. Harris, Jim Wilson and Wallace Fraser were out from Camp 44 at Avery over the week-end.

Mr. and Mrs. Harry Harris and family were up from Lewiston Sunday to greet Sgt. and Mrs. Nicholson.

Mrs. C. H. Fry was a Saturday night guest in the Norman Fry home at Lewiston.

Mr. and Mrs. Delbert Nicholson and Mrs. C. E. Harris took Dawn Marie Nelson to Lewiston Monday evening, where she will join her parents and enroll at the Lewiston High school.

Mrs. Alice Thompson of Garfield, Wn., arrived Tuesday to spend several days visiting Mr. and Mrs. W. W. Eldridge.

Mrs. Oral Craig kept little Teresa Ann Medalen a couple of days last week while her grandparents, Mr. and Mrs. Jesse Thornton, visited her mother, Mrs. Allen Medalen at the St. Joseph's hospital.

Mr. and Mrs. Rol Bryant left Monday on a vacation trip to California.

Cpl. and Mrs. Roy Riley arrived home a week ago, Roy with his honorable discharge papers. For the past few months he had been stationed at Richland, where he was a cook in the hospital there. They are now at the home of his parents, Mr. and Mrs. Wm. Riley.

Mr. and Mrs. Ervin McGeachy and children, accompanied by Mr. and Mrs. Ben F. Cook, were supper guests in the home of Mr. and Mrs. Harold Goff at Genesee Friday evening. All attended the basketball game.

Grange Visitation Night
Tuesday evening the Kendrick Grange was host at a visitation meeting. Twenty-two members from Moscow and 26 from Deary joined forces with Kendrick members, to make 72 present.

An enjoyable program was presented by all the Granges. Two pins were presented, one to Jessie Bateman, Past Chaplain, and one to Eileen Johnson, Past Lecturer, by Ralph White of the Moscow Grange and Herb. Whitsull, Latah County Panna Master.

Delicious refreshments were served in the banquet room by the hostess committee. A patriotic theme was used in table decorations, which was a timely reminder of the inaugural ceremonies.

Square dancing and a social hour completed the evening.

Fresh fruits and vegetables at Blewett's Market, Kendrick. 1-adv

JULIAETTA NEWS

Mrs. Raleigh Albright and Mrs. Dennis Racicot attended the Latah County Republican Women's Club meeting at Moscow, Wednesday. Mrs. Albright was the guest speaker.

Mrs. Raleigh Albright attended the Cancer School at Coeur d'Alene on Thursday, Friday and Saturday. It was a regional school for county and local workers.

Mrs. W. L. McCreary, Mrs. W. A. Watts and Rilla Davidson were Friday callers in the Ira Havens home.

Mr. and Mrs. Roy Ramey of Kendrick were Friday callers in the Ira Havens home.

Mr. and Mrs. H. E. Brammer were Sunday visitors in the home of Mr. and Mrs. Carl Koopp.

Mrs. H. E. Brammer is taking care of their granddaughter, Rhonda Sue Brammer for a few days, while Mrs. Werner Brammer attends a school on upholstery.

Mr. and Mrs. Werner Brammer of Kendrick spent Sunday evening in the H. E. Brammer home.

Mr. and Mrs. Allen Grayson and son of Bieber, Calif., have been visiting at the home of Mr. and Mrs. Alonza Guthrie.

W. K. Swift of Walla Walla was a house guest Thursday and Friday in the J. M. Mead home.

W. C. French of Spokane visited in the home of Mr. and Mrs. J. M. Mead, Wednesday.

Mr. and Mrs. J. M. Mead were Lewiston visitors Sunday.

News seems very scarce — perhaps the pouring rains have been keeping local residents at home.

FAIRVIEW NEWS ITEMS

Birthday Honored

A dinner was served Sunday at the home of Mr. and Mrs. Wilbur Corkill in honor of Mr. Corkill's birthday anniversary. Guests were Mr. and Mrs. Robert Draper and granddaughter Barbara Jo Deobald of Pullman; Mr. and Mrs. Roy Craig and daughter Paige, Mrs. Dora Hefel, and Mr. and Mrs. Lloyd Craig and daughters Marcella and Jeannie, all of Leland. Following dinner games were played by everyone. Cake and ice cream were served at the close of the evening.

Other News

Mr. and Mrs. Don Bateman and family of Headquarters, Idaho, were week-end guests in the home of her mother, Mrs. Veta Stump. The Bateman family and Mr. and Mrs. Jesse Heffel and family were supper guests Friday evening of Mrs. Stump.

Mr. and Mrs. Paul Dagefoerde were Lewiston business visitors on Friday.

Charles Parks of the U. of I. was home over the week-end.

Ed. Hinrichs and son Herman of Big Bear ridge were Sunday afternoon visitors in the Jesse Heffel home.

Mr. and Mrs. Jesse Heffel and Mrs. Veta Stump were Lewiston shoppers on Wednesday.

Lewiston shoppers Saturday included Mr. and Mrs. J. M. Woodward and Mr. and Mrs. Wilbur Corkill and family.

To Appear In Concert

U. of I., Moscow — The University of Idaho symphony orchestra and the University Singers, student choral group, will appear in a joint concert at the university tonight (Thursday, Jan. 22).

The joint concert has been scheduled in place of individual performances usually presented each year. Prof. Hall Macklin, said. The orchestra will appear in the first half of the program, and following intermission the University Singers and orchestra will combine.

Included in the vocal soloists will be Robert Lind, bass, Kendrick. The concert, which starts at 8:00 p. m. in the university auditorium, is open to the public without charge.

W. S. C. S. Circle

The Kendrick W. S. C. S. Circle will meet Thursday afternoon at 2:00 in the home of Mrs. Don Miller, with Mrs. Frank Crocker and Mrs. Paul Lind as co-hostesses.

Mrs. John Johanson, Circle chairman, has planned an interesting skit. All ladies are invited to be present.

My Thanks To You

I want to thank the ones that sent me such lovely cards and flowers while I've been ill, also those that called on me while in the hospital and at home. It's the little things that are done that means a great deal to one who is ill. Thanking you all so much. — Mrs. Harl Whittinger.

Little Known Facts
The new U. S. superliner, United States, is 100 percent fireproof — there is no wood in her at all. Also, says Fillmore Hyde in the current Reader's Digest, she can be converted quickly from a swank 2,000-passenger peacetime ship to a troopship capable of carrying an army division.

Kitchen, plumbing and ventilation facilities are built to accommodate 14,000 men. She is fast enough to outrun any submarine, could go from San Francisco to Asia and back without refueling, and can get through the Panama Canal. It's almost impossible to overstuff a boy with food, says Judith Chase

Churchill in the current Reader's Digest. A survey of 13 to 17-year-olds at St. Paul's school, Concord, N. H., showed they made good use of 5000 calories daily — three times their basal energy requirements. So don't worry if your kid seems to over-eat. The 1953 U. S. Federal budget of \$85.4 billion is greater than all the incomes of all the people west of the Mississippi river.

Gaution Urged in the Use Of Urea for Cattle Feeding

Urea is a valuable protein substitute in rations for cattle and sheep, but poisoning may result when large amounts are fed for extended periods.

This is the verdict of Oklahoma livestock health investigators. Steers force-fed very large amounts of urea developed muscular tremors, gasped, frothed at the mouth, and died in less than two hours. The investigators pointed out, however, that there is little likelihood cattle will willingly consume enough of the chemical to suffer fatal illness.

The animals don't object to small servings of this substitute feed—safe amounts such as are generally recommended—but they may shun feed heavily fortified with the chemical.

Urea acts as a protein-saver in rations by causing bacteria naturally present in the rumen to multiply and build their own protein, which is then digested by the animal. Ammonia is produced in the process of urea breakdown in the rumen.

Small amounts of ammonia are not harmful, but large amounts that accumulate from excessive urea feeding cause chronic or acute poisoning.

Medical School Enrollments Are Setting New Records

Medical schools of the United States in the last year took further steps to protect the future health of the nation by enrolling the largest number of students in their history.

This was revealed in the 51st annual report on medical education in the United States and Canada, compiled by the Council on Medical Education and Hospitals of the American Medical Association. The report was prepared by Dr. Donald G. Anderson of Chicago, secretary of the council, and his aides, Dr. Francis R. Manlove and Mrs. Anne Tipner.

A total of 26,191 students were enrolled in 79 approved schools in the United States for the 1950-51 academic year. This compares with the previous high record of 25,103 in the year before, an increase of 1,088 (4.1%). Since 1941, when there was an enrollment of 21,379 students in 77 approved schools, the increase has been 4,812 (22.5%).

The report also disclosed that the current academic year will see a continuation of this increase in medical education because of the enrollment of a record freshman class. It is estimated that about 7,400 new students will enter medical schools, compared with the previous record of 7,182 a year ago.

Also important from a future health protection standpoint was a survey which showed plans were under way in many states for the opening of additional medical schools and for the expansion of existing facilities.

"Significant progress is being made toward resolving the financial problems of the medical schools," the report also said. "Funds available to the schools during 1951-52 will total approximately \$109,600,000, which represents an increase of \$36,000,000 in the last four years."

Psychologist Believes Kids Aren't Bad—Just Problems

There are no "naughty children" or "problem children," in the opinion of one distinguished child psychologist, there are only "children with problems."

"In modern days, we should not talk any longer about 'the naughty child' or 'a problem child' but should try to find the reasons back of the problems of the child."

Dr. Reymert, who is Director of The Mooseheart Laboratory for Child Research at Mooseheart, Illinois, explores some of these reasons and finds that most of them are related to a lack of understanding of the child and his needs, on the part of the parent.

He observes that "one child may be naughty because he feels that he is being blamed and criticized too much. Another child may misbehave because he feels that his parents are not interested in him and do not pay enough attention to him. A third child may use this means to rebel against excessive restrictions or confinements."

"It is toward removing the cause or causes for the child's naughtiness that we must turn our attention rather than toward even stricter and more severe discipline," Dr. Reymert points out.

Insomnia

Although many people are troubled with various types of insomnia, there is no one who "just can't sleep at all" for any length of time. There is a type of insomnia where one can't get to sleep easily, but after he has fallen asleep, he sleeps soundly. In another type, the person awakens often during sleep and, although he seldom stays awake for long, things he is awake for hours. Still another type is the person who awakens early and can't get back to sleep. The person who "just can't sleep at all," however, is non-existent. It is impossible to live without sleep. Even though one is troubled with insomnia, if he has a good sleep foundation, he will doze off—although he may not realize it. On a good quality sleep foundation, it is impossible to resist sleep for long unless there is something physically wrong with a person.

Stop Sediment

To prevent the sediment that accumulates in the bottom of a tea kettle from hard water, throw away immediately the remaining amount of boiling water which you are not going to use. Do not allow the boiling water to settle in the kettle. Installation of a water softener, to treat the hard water and get rid of the compounds that cause the sediment, would also eliminate the deposit.

Earth and Gravity

The force of gravity is lessened by the centrifugal force produced by the Earth's rotation because of centrifugal force. The effect of gravity at the equator is about one part in 289 less than it would be on a stationary Earth, or than it is at the poles, where there is no such force. The centrifugal force also throws the surface of the Earth at the equator about 13 miles farther than the poles from the center. This causes a further decrease in gravity, so a man who weighs 189 pounds at the pole would only weigh 188 pounds at the equator, as measured by a spring balance. Ordinary scales would not show this, since the weights used would be equally affected.

Now.. Much-Needed "Reddy" Power from Cabinet Gorge!

Second Giant Generator Placed "On Line" Adds More Badly-Needed "Reddy" Kilowatts to Forces Fighting Power Shortage

Important new reinforcements of electric power have just been made available by the Washington Water Power Company, to help overcome the present serious power shortage in this area. Working night and day, Company engineers and crewmen have completed installation of a second 50,000-kilowatt generator at Cabinet Gorge. Together with power from the first generator, which was placed "on the line" in September, this makes over 100,000 kilowatts of additional generating capacity for Inland Empire homes, farms, and industries.

Work on the installation of a third generator is underway, and the fourth is scheduled in the near future. Each is rated at 50,000 kilowatts capacity, but it is expected that total power produced at Cabinet Gorge will exceed 200,000 kilowatts when all four are in operation.

Cabinet Gorge Dam was constructed in record time by the Washington Water Power Company, without a cent of cost to taxpayers. It is already helping greatly to overcome the power shortage caused by the unusually dry weather.

THE WASHINGTON WATER POWER COMPANY

Squirrel Provides Big Part Of Nation's Yearly Game Bag

Although it is generally recognized as a prolific game species of extensive range, comparatively few people realize the truly important part the squirrel plays in the nation's game bag.

Several years ago the Remington Arms Company, Inc., conducted a survey of national wildlife resources and sportsmen's hunting preferences. The survey revealed that the squirrel ranked second only to the rabbit as the most sought-after game species in the country.

A recent analysis of "Hunters' Scorecards" returned to the office of the Mississippi Game and Fish commission placed the squirrel in an outstanding position in the hunting activities of the sportsmen of the Magnolia state. The analysis brings to light the fact that 79 per cent or 150,000 of the licensed hunters in Mississippi sought squirrel during the 1950-51 hunting season. The cotton-tail rabbit and the Bob White quail practically tied for second high rank, with the rabbit nosing out the quail by the slight margin of 47.15% to 47.12%. Next in line was the lowly possum with the somewhat surprising score of 23.06%, topping the dove's rating of 21.58%.

A breakdown of the analysis in hunting activity percentage and estimated total statewide kill follows: deer 6%, 1,370; wild turkeys 1.35%, 249; quail 47.12%, 2,119,532; squirrel 79.83%, 2,418,574; rabbit 47.15%, 900,360; coon 16.2%, 208,712; possum 23.06%, 386,145; dove 21.58%, 522,876; ducks 8.97%, 182,217.

Patients On Salt-Free Diet Given Hope for Meal Variety

Patients on a monotonous salt-free diet were given the hope of adding more variety to their meals in two reports on further experiments in the recently developed exchange resin therapy. Exchange resin compounds have been administered to patients having congestive heart failure, cirrhosis of the liver, or kidney ailments which cause excessive fluids to collect in the system. The resin compounds eliminate the sodium which locks in the fluids. Because of this action, if becomes possible for the patient to take more sodium in his diet than would otherwise be possible.

In a report on resin therapy presented by Drs. Carl Voyles, Jr., and Edward S. Orgain, Duke University School of Medicine, Durham, N. C., it was concluded that "Resin therapy is a useful adjunct to conventional therapy in the management of chronic congestive heart failure, and it can be used safely in conjunction with strict sodium restriction in patients who are followed closely. Resin therapy also makes possible the addition of sodium chloride in amounts sufficient to render the diet more palatable," the report added, and it facilitates the action of mercurial compounds that help in fluid elimination.

The second report on exchange resin therapy reviewed studies by Drs. B. L. Martz, K. G. Kohlstaedt, and O. M. Helmer, at the Lilly Clinic for Cardiovascular Research, Indianapolis.

Sleep Anywhere

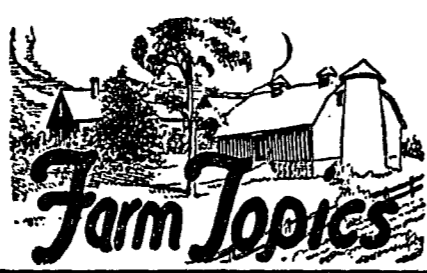

One of the most energetic causes of sleep is fatigue. It is said that prisoners upon the rack have slept through sheer exhaustion while undergoing the horrors of torture. In a like manner, if one is tired enough he will be able to sleep on the floor or on any manner of uncomfortable bed, although he will not thoroughly relax. To the person who has known the luxury of sleeping on a good quality bed, though, sleeping on a worn out, sagging mattress and spring is almost as much torture as going to sleep on a prisoner's rack.

War and Peace

Development of the flame thrower, which first became a military weapon during World War II and has been used extensively by the Army in Korea, led to the peacetime perfection of a highly proficient weed killer. Tests at the Army Chemical Corps Center, at Edgewood, Maryland, proved that a thin jet of burning, jellied gasoline would kill weeds between rows of plants without harming the plants themselves.

Deciding Issue

If it had not been for the magic of the name "George Washington" the fabulous Phineas T. Barnum may have lived out his life in obscurity as a poor country storekeeper. One day, the man who was to become known as "the greatest showman on earth" heard an interesting story of a remarkable Negro woman, Joice Heth, who claimed to be 161 years old. When he went to see her, purely out of curiosity, she asserted that she had been the nurse of George Washington. Barnum became so excited upon discovery of documentary evidence to back up her claims, he decided to sell his store and exhibit the strange old woman in the east. The tour proved so successful, and stirred up so much interest, he was inspired to engage in other similar ventures. Finally, he formed the partnership with James A. Bailey, out of which grew the most famous circus in America.

Small Town Utility Serves Farm Folks Gas Made Available To Farms for First Time

The farm folks within 20 miles of Antigo, Wis., have gone in for gas in a big way. This new interest of farm folks in heating and cooking with gas started over a year ago with the reorganization of Antigo's City Gas company.

The Antigo utility which manufactured gas from oil, coke and steam converted its plant to "propane-air" gas and offered service

Mrs. Dale Madison, a rural homemaker, has converted her kitchen to gas, and reports it gives her more freedom from kitchen duties.

to farm homes and rural firms within a radius of 20 miles.

The new rural customers have their own "backyard utility" in the form of storage tanks for large users and "bottled" installations for homes with smaller consumption.

Because they are a part of the Antigo utility system, country customers receive monthly fuel bill just like the town. Fuel consumption is recorded on a meter attached to their cylinders or tanks. Bad weather can't interrupt service, since a sufficient supply is stored on the premises in advance of use. Empty cylinders are periodically replaced by company service men.

Since the reorganization, rates have been reduced for town and farm users three times.

Contour Farming Cuts Soil Losses in Half

Iowa agronomists report that contour farming cuts soil losses in half, boosts corn yields as much as 7.4 bushels per acre and ups soybean production by 2.7 bushels.

Other advantages from contour farming include lower fuel and operating costs for tractors and other machinery and an increase in the length of corn rows.

The need for more contour cultivation will increase with the steadily expanding acreage of row crops to meet the nation's food needs.

While contouring is a vital step in keeping soil at home, other soil building measures are needed to keep farm land at high yielding levels. Every crop burns up organic matter and uses up plant nutrients. The organic matter can be replenished by growing well-fertilized deep-rooted legumes regularly in the rotation and by returning manure and crop residues to the soil.

Safety Plug

A new safety plug has been developed that should be of interest to most farmers. It has a tiny replaceable fuse. Electrical cords are connected to the plug exactly as they are connected to the wall socket itself. The fuse blows out should a short circuit develop in any connected cord. This prevents current from reaching the danger point, instantly cutting off the source of fire.

Nebraska Farmers Paid High Cost for Corn Crop

Nebraska farmers paid with two lives, 194 fingers, 18 hands, 10 arms, one leg, four toes and two feet in gathering approximately 225 million bushels of corn. That is last year's accident record. Failure to stop the cornpicker before trying to remove the stoppage of the machine accounted for almost every accident. Farmers should discuss safety problems with their harvest crews.

Eisenhower Urges Nation Support March of Dimes

President-elect Eisenhower meets 1953 March of Dimes Poster Girls Pamela (left) and Patricia O'Neil, of Raleigh, N. C.

NEW YORK CITY—President-elect Dwight D. Eisenhower called on the American public to support the 1953 March of Dimes being conducted throughout the nation during all of January.

He joined in the annual appeal after meeting the two Raleigh, N.C., sisters who are pictured on the 1953 March of Dimes poster. They are Patricia, 6, and five-year-old Pamela O'Neil, both of whom were stricken with polio but now are recovered completely.

"It's hard to believe that these are the same little girls whose pictures are on the March of Dimes poster," he noted. "Now

they're completely recovered from polio, thanks to the generosity of the American people."

He urged all Americans "to help the others like them by joining the March of Dimes."

Later, he joined the poster girls in making a short film which is being shown by television stations throughout the nation. This year's March of Dimes follows the all-time record polio epidemic of 1952 in which more than 55,000 were stricken. At the beginning of 1953, there were 58,000 polio victims of former years still undergoing treatment, with financial help from local March of Dimes chapters.

Pass The Good Word Along

Don't be backward about speaking a good word for this town—costs you nothing, and its value is beyond mention.

You may imagine that the weight of your individual voice is little avail. But you are in error.

Every good word counts—as does every bad one.

Your individual opinion has great weight with some, and reasonable weight with others. There is no one upon whom it does not leave its impression.

When you point out the beauties and the advantages of this commun-

ity, and the good qualities of its citizens, you stamp these facts upon the minds of those with whom you converse, and they in turn transmit them to others.

In this way the good work becomes an endless chain, always traveling, always boosting, always beckoning to the stranger to come where good words and deeds abound, and where ill ones are seldom heard or seen.

Every voice has its weight, and yours is not the least of all. — Nez Perce Herald.

Like rabbit? Get them at Blewett's Grocery-Market, Kendrick. 1-adv.

Get set now for Spring work

B.F. Goodrich Tractor Tires

give extra traction, save time, save fuel

You'll work more land per hour — and save fuel — when your tractor rolls on B. F. Goodrich Power-Curve tires. Power-Curve cleats bite into the soil like a spade, give you full shoulder-to-shoulder traction. Forget about spinning wheels, wasted time and fuel. Power-Curve tires make fast work of spring tractor work! Stop in to see these powerful tires now!

Ask about our convenient terms!

We RECAP your worn TRACTOR TIRES

Recap your worn tractor tires with new rubber high cleats. Recapped tires give extra wear, full traction — save you money.

START! with a B. F. Goodrich BATTERY

Sure-starting B. F. Goodrich batteries for your car, truck and more give you the power you need for spring work.

B.F. Goodrich LIFE-SAVER Tubeless Tire

- Seals punctures
- Protects against blow-outs
- DEFIES SKIDS, TOO

This tire protects against all three tire hazards — punctures, blowouts and skids! As low as \$4 down puts a set on your car now!

Costs less than regular tire with safety tube. Convenient terms.

Wipes a wet road so dry you can light a match on it!

Dislikes Recall Action

To The Editor of the Kendrick Gazette, Kendrick, Idaho:

Recall action is intended for protection of the citizens of a county against corruption and inefficiency. It is a valuable safeguard in the hands of the people, if used properly. With a justifiable charge the threat of recall becomes vicious, and may be initiated by any sectional, political or racial group, which does not have the leadership of individuals who may be thoughtful of beneficial and enduring results to the entire county.

In Latah County we have an example in the much publicized attempt at recall of E. Dan Pederson. The charge: "That the County Assessor of Latah County, E. Dan Pederson, has adopted a system of assessing property which is unfair to the taxpayer."

There are no charges, such as dishonesty or corruption. There is no question as to his integrity, and certainly there has been no mismanagement of his office. He has simply placed in effect a system of assessing property, endorsed and supplied by the Tax Commission of the State of Idaho, a commission authorized by the voters of Latah County and the State of Idaho.

Groundwork for the Tax Commission methods of assessment was laid at least two years before E. Dan Pederson was elected the first time in November, 1950; therefore, it is only logical to believe that he did not "adopt a system of assessing property which is unfair to the taxpayer."

Inequities or discrepancies unfortunately attend any new taxing program, whether it be by commission or individual.

Recall of the Latah County Assessor, as now threatened, is not a remedy, neither does it provide corrections, nor a solution. It is not reasonable to believe that an elected official should bow to demands of a self-appointed group, disregard his oath of office and cast aside legal restrictions as well as regulations.

How much will a Recall Election cost? This is another matter to be considered.

How much better it would be if a truly representative group of Latah County taxpayers could meet with the State Tax Commission, the Board of County Commissioners, and the Assessor, and thereby arrive at conclusions which would be long lasting. Forget the threats, rid the current situation of malice, and attempt to gain a true understanding of the matter. It is believed the recall action has been hasty and not representative of the entire county. — H. J. Martinson, Genesee, Idaho.

Report Thorough Cooking Of Pork Cuts Down Disease

Thorough cooking of fresh pork can help to reduce materially the incidence of trichinosis, an infection from diseased pork, it was shown in a report made public by Dr. Rodney R. Beard of San Francisco.

Dr. Beard credited that as one of the factors in an apparent two-thirds reduction in the incidence of trichinosis in San Francisco since 1936.

Trichinosis is caused by Trichinella spiralis worms which sometimes are found in pork. The worms lay eggs in the human intestinal tract. The embryos work their way into muscles, especially the diaphragm, where they develop. Diarrhea, nausea, colic and fever are the usual early symptoms of the disease, followed later by stiffness, pain, swelling of the muscles, fever, sweating and insomnia. The seriousness of the infection depends upon the degree to which the pork has been infected. Severe infections may cause death.

Dr. Beard cited a 1936 study in San Francisco of a random sampling of 200 human diaphragms taken at autopsy. Trichinosis worms were found in 24 per cent of the organs. A more recent study of 161 diaphragms, also a random sampling, showed only 8 per cent were infected—a decrease of two thirds.

He first pointed out that federal, state and local regulations now assure adequate processing of pork products intended to be eaten without cooking. In San Francisco, for example, stringently enforced rules by the local Department of Public Health provide for adequate salting and drying of Italian style salami, an uncooked product, or possible prior killing of trichinae by freezing.

Another factor he mentioned was the reduction in the proportion of pork from garbage-fed hogs. War-time scarcity of labor, difficulties of transportation and other factors.

Pioneer Association Meeting

Members of the Latah County Pioneer Association meet Saturday, Jan. 31, in the Ad Club at Moscow for their annual all-day mid-winter session. Doors open at 10:00 a. m., with a covered dish dinner to follow at noon — and business session and program at 1:30 p. m.

Dishes, coffee, sugar and cream will be furnished. Please bring a covered dish and sandwiches. The program theme will be "School Days." If you have any pioneer pictures of early residents, events or places that you are willing to put on display, please bring them.

Pioneers and their friends are invited.

Card Of Thanks

With deepest gratitude I would like to thank my many friends, neighbors and relatives for their constant acts of love and thoughtfulness to me through the fall and winter. On my birthday in October — then when I was ill in November, yes, and Christmas too, I received so many lovely cards, flowers and gifts. To each of you goes my sincere thanks. Such kindness and neighborly thoughtfulness can never be forgotten. — Mrs. M. A. Deobald.

NOTICE OF TIME AND PLACE OF HEARING ON PETITION FOR ADMISSION OF WILL TO PROBATE

In The Probate Court of Latah County, State of Idaho

In The Matter of the Estate of Carrie Sollie, Deceased

NOTICE IS HEREBY GIVEN that there has been filed in the above entitled Court an instrument which is alleged to be the Last Will and Testament of Carrie Sollie, deceased, and that Hans Lien has petitioned the above entitled Court for an order admitting said instrument to probate as the Last Will and Testament of the said decedent and further praying that Melvin Sneve, of Kendrick, Idaho, be appointed as administrator with the will annexed of the estate of said decedent, and that the Court has fixed Monday, the 2nd day of February, 1953, at 10 o'clock A. M. of said day, in the Court room of the above entitled Court in the Court House at Moscow, Latah County, State of Idaho, as the time and place for the hearing to be had upon said petition, and at which time and place any person interested in said estate may appear and show cause why said instrument should not be admitted to probate as the Last Will and Testament of the said decedent, or why letters of administration with the will annexed should not be issued to the said Melvin Sneve, as prayed for in said petition.

WITNESS MY HAND and the Seal of said Court on this 12th day of January, 1953.

LLOYD G. MARTINSON
 Probate Judge and Ex-Officio Clerk, Latah County, Idaho.

Statisticians Report Life Safest Ages Nine and Ten

Life in the United States is safest at ages nine and ten, according to Insurance Company statisticians, and less safe during the first year than at any age to and including 65.

This is based upon an analysis by the statisticians of mortality data for the general population in 1949, as reported by the National Office of Vital Statistics.

An all-time high of 67.6 years in expectation of life at birth registered during the year represents a gain of fully 4 years since 1940, the statisticians note, and a gain of 18½ years since the start of the century.

"Our greatest gains in life expectation, it is pointed out, have been at the early ages. At birth the gain in life expectation for males during the decade has been more than three years, whereas at age 40 the increase was less than a year.

"This reflects the strides made in the control of the infections of early life," the statisticians explain, "in contrast to the limited progress which has been made in the control of the chronic diseases of middle and later life. Then, too, with an unchanged life span limit of about 100 years, the closer that limit is reached the smaller is the margin left for gain."

The extent to which women live longer than men is greater than ever before. According to mortality conditions prevailing in 1949, women outlive men by an average of 5.6 years, as compared with 4.5 years at the beginning of the decade.

Even if there should be no further improvement in mortality, most people now living in the United States can expect to live beyond the biblical three score and ten years, according to the statisticians.

Finding Fingerprints

Criminal investigators use various methods to make fingerprints visible, depending on the surface where the fingerprint is located, its age, and other factors. When one touches a surface with the fingers, the ridges on the finger tips usually leave an invisible pattern of perspiration. If the print is on light-colored paper, and not more than a few days old, finely powdered lampblack or graphite dusted over it will usually make it visible. On a dark surface a white powder would be required. For older prints, there are various methods using chemicals which react with the minute amount of salts, such as potassium and sodium chloride, left after the perspiration has dried. In one such method, the paper bearing latent prints is dipped in a weak solution of silver nitrate, which converts the chlorides into silver chloride.

Aid for Key Losers

Motor-car-key forgetters or losers will be interested to know that Edward J. Tobin of Norfolk has come to the rescue with his invention of a combination lock to take the place of keys for automobiles. With this dial on your instrument panel, you can forget your key, but not your combination. It works like the combination on a safe. National Patent Council suggests that the combination numbers be kept with your driver's license. Tobin's patent is good for 17 years, and by that time he hopes combination locks will be clicking in autos throughout a good part of the motor world.

Get Fresh Fish at Blewett's Market Thursday!

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

Well, it seems as if ducks would be much more suitable to our climate here the past few days than chickens — but duck eggs don't pay off — and chicken eggs do — when you sell to us. Eggs, like your cream — are a cash crop the year around — and your market is right here at home. There is no need to ship, then wait for returns. They are obtainable here — at this creamery.

The draft board doctor was examining a prospective draftee. "Read that chart," he commanded.

"What chart?" asked the draftee, looking about.

"That's right," said the Doc. "There isn't any chart. You're in, boy!"

Doing considerable entertaining this winter? Most folks are — and if you're one of them, let us

suggest a dessert that will please young and old alike. It's "Potlatch Chief" Ice Cream. It's a taste treat any time. It's smooth, pure, and tops in popularity. Get at least a quart the next time you are in town — or better still, a gallon. Keep it on hand, always. It's wonderful for snacks, too.

Amos: "She got her feelings hurt because she kept overhearing the word 'idiot' and thought they were referring to her."

Chuck: "How conceited — as if there were no other idiots in the world!"

Are you drinking enough milk to protect your health, these wet, chilly days? You know, doctors say every growing child should have at least a quart, and every adult at least a pint of milk daily. And you can be sure it's pure and sweet if it's "Potlatch Chief" brand. Pasteurized for safety!

WHAT CAMERON FOLKS ARE DOING THESE DAYS

The sum of \$25.50 was contributed to the March of Dimes polio drive at a pinocle party in the hall Friday evening. High prizes were won by Mrs. Ed. Mielke and Grover Danforth; second high prizes went to Mrs. Walter Koepf and Vern Wegner. The "galloping goose" was awarded to Herbert Schwarz.

Mrs. Harl Whiting returned on Thursday from the Gritman Memorial hospital at Moscow, where she was a medical patient for several days. The Cameron Home Demonstration Club met Wednesday at the home of Mrs. Kenneth Wilken. Officers were elected for the ensuing year, as follows: Mrs. Kenneth Wilken, president; Mrs. Harold Silflow, vice president; Mrs. Walter Koepf, secretary-treasurer; Mrs. Theo Meske, Roll Call; Mrs. Henry Wendt and Helen Mielke, Members of the Council. Mrs. Marvin Silflow gave an interesting and constructive talk on "First Aid In The Home." Mrs. Wilken served delicious refreshments at the close of the afternoon.

Sunday dinner guests of Mr. and Mrs. Henry Wendt were Rev. and Mrs. Theo Meske and family and Mr. and Mrs. Kenneth Wilken.

Mr. and Mrs. August Wegner spent Sunday in the home of their daughter, Mr. and Mrs. Dan Sullivan and family at Lena.

Mr. and Mrs. Harold Silflow and daughter Kathy were Sunday evening visitors in the home of Mr. and Mrs. James Whiting.

Roy Silflow and Wally Newman were business visitors in Spokane Wednesday and Thursday.

Mr. and Mrs. Glen Wegner and family and Mr. and Mrs. Don Johnson and family, the latter of Lenore, were Sunday guests of Mr. and Mrs. C. H. Fry in Kendrick.

Mr. and Mrs. Henry Wendt and Mrs. Herbert Schwarz and daughter JoAnn were visitors in Moscow, Wednesday.

Mr. and Mrs. James Whiting were Sunday dinner guests of Mr. and Mrs. Harl Whiting.

Mr. and Mrs. August F. Wegner and Herman Silflow were among those who attended the funeral of Mrs. Ned McCamant (nee Hanna Wegner) at Spokane on Wednesday.

Mrs. McCamant was well known in this community, having lived here for many years.

Mr. and Mrs. Otto Silflow and Mr. and Mrs. Robert Draper visited with Mr. and Mrs. Harl Whiting Saturday afternoon.

Mr. and Mrs. Glen Wegner, Jillan and Reggie spent Thursday evening with Helen and Ted Mielke.

Mr. and Mrs. Raymond Blankenship were Sunday dinner guests of Mr. and Mrs. John Blankenship.

Mary Meske was an over-night guest of Betty Blankenship, Thursday.

Mr. and Mrs. John Blankenship and family spent Sunday evening with Mr. and Mrs. Walter Silflow in Kendrick.

LINDEN ITEMS

We of this community are indeed sorry to hear of the death of our long-time friend and neighbor, Ben I. Smith. Funeral services will be at 2:00 o'clock today (Wednesday) at the Gold Hill church. Interment at the Gold Hill cemetery.

Rev. and Mrs. Norbo and family enjoyed Sunday dinner with Mr. and Mrs. Frank Lyons.

Mr. and Mrs. Ted Weaver and family of Lewiston ate Sunday dinner with his parents, Mr. and Mrs. Lester Weaver.

Mr. and Mrs. Al Pederson called on Mr. and Mrs. Geo. Lyons Thursday evening.

Mrs. Rollin Armitage visited in the Ray Cuddy home Monday.

Rev. Johnson of Lewiston will be with us on Sunday, January 25, and will have moving pictures to show. All are cordially invited.

Bob Grim spent Sunday and Sunday night with his parents, Mr. and Mrs. Ernest Grim.

Sunday dinner guests in the Al Pederson home were Mr. and Mrs. C. A. McAllister and family and Verlin Benjamin, the latter of Southwick.

Mr. and Mrs. Geo. Lyons and family and John Vincent were Friday evening callers in the Al Pederson home.

Tuesday guests of Mr. and Mrs. Stewart Wilson were Mr. and Mrs. Bill Zimmerman; Oscar Torgerson, Lewiston, and Mrs. Herman Huguenin of Colville, Wash. Mr. Torgerson remained for a longer visit with relatives and friends.

Mrs. Geo. Lyons and Mrs. James Holt are participating in an upholstery workshop held in Kendrick this week.

Mr. and Mrs. Dick Parsley visited in Rogersburg, Wn., over the weekend.

Bobby West of Lewiston was a Friday night guest in the home of Mr. and Mrs. Gil Erlewine.

Mr. and Mrs. James Holt and family spent Sunday with Mr. and Mrs. Rollin Armitage and family at Southwick.

Mrs. Arlie Allen spent Saturday evening and Sunday in the Archie Gauer home at Kendrick.

Sylvester Konen was a Spokane business visitor over the week-end.

Mr. and Mrs. Dick Konen spent Sunday with his mother, Mrs. Sylvester Konen, at Lewiston.

Mr. and Mrs. Ted Grinolds and children were Moscow visitors Monday.

Mr. and Mrs. Lou Alexander spent Sunday afternoon and night with her mother, Mrs. Sylvia Jenks, at Lewiston.

Mr. and Mrs. Bill Zimmerman were host and hostess at a pinocle party in their home Saturday evening.

High scores went to Phil Bahr and Mrs. Gil Erlewine; lows to Mrs. Dan Kechter and Dick Konen. The "galloping goose" went home with Wayne Arnett. Delicious refreshments were served by the hostess at the close of play.

Eddie Galloway of Big Bear ridge spent the week-end with his cousin, Gene Perryman.

Mr. and Mrs. Sam Weaver and family and the F. K. Grayson family were Thursday evening visitors in the Dan Kechter home.

George Brocke, Sr., and Clarence Morey spent Saturday evening in the Harley Perryman home, watching television.

Slides Plague Crews

Dirt and rock slides have been plaguing railway and highway maintenance crews for the past few days—the continuous rains having saturated the ground and loosened rocks.

On Sunday, just this side of Arrow, a slide occurred on the N. P. tracks, taking the section crew approximately two hours to clear it away.

Clarence Perryman of the local state highway department reports a number of slides on roads in this area: One on the Big Bear ridge grade; one on the Wauncher Gulch grade, and two between Kendrick and Arrow — at the Brammer hill and near the Albright ranch.
