Dave Clayton was a Lewiston business visitor Tuesday.

## Kendrick Plays Mulligan At Regional Tournament

At the Regional Tournament in Coeur d'Alene this week-end, the Kendrick High School Tigers have drawn as their opponents — Mulligan — rated the top team in that area — and "top" in more ways than one. We understand that the Mulligan starting five averages 6-ft. 4-in. in height, with a 6-ft. 7-inch center. It's going to be something new for Ira Havens, Kendrick's 6-foot 4-inch center to have someone to "look up to" but nothing new for Ernie Heimgartner, 5-foot 7-inch Tiger guard — one of the smallest players in the District.

It is not known at this time whether or not the game will be broadcast.

## WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

(Delayed)

Jeanette Bailey and Sally Mahoney of St. Anthony's Nursing School in Pendleton, spent Sunday and Monday in the home of Jeanette's parents, Mr. and Mrs. A. W. Bailey. The brief vacation followed the "Capping" ceremonies at the school.

## BASKETBALL OVER — KENDRICK GOES TO REGIONAL

Kendrick Defeats Nezperce  
Lewiston — Craigmont eliminated Pierce Wednesday (March 4) in what was probably the first upset of the Second District class B prep cage tournament at Lewiston. Kendrick had sidelined Nezperce 52-44 in an earlier game.

Kendrick eliminated Nezperce in the first game Wednesday afternoon. The losers were on even terms with Kendrick midway through the game and never lagged by many points. But the winning Tigers staged a drive at the start of the last frame which gave them a 39-30 lead.

Ron Craig, Kendrick guard, and Ira Havens, center, teamed up for the explosion, which began with the Tigers holding a 31-30 edge.

Nezperce had taken its first lead of the contest 28-27 near the end of the first half and was in front again before the second period ended.

Craig earned 18 points to lead the game scoring and Richie Thomas of Nezperce topped his club with 9.

Forty-nine fouls were called by the officials and Nezperce was seriously hurt when it lost Thomas and Wayne Hueth. Don Ingle was the only Kendrick player to foul out.

## Kendrick Defeats Craigmont

Genesee swept past Lapwai Thursday evening 65-54, and Kendrick eliminated Craigmont 60-52 in play at the basketball tournament Thursday evening.

Center Ira Havens of Kendrick broke up a close ball game with Craigmont in the afternoon session. Kendrick had taken a 19-9 edge at the end of the first eight minutes.

Then Warren Paul and George Patton of Craigmont turned hot and cut their club's deficit to four points at 29-25.

Craigmont took the lead at 30-29 midway through the third frame and the club battled on even terms to 48-48 in the fourth. Meanwhile the score had been knotted at 32, 33, 34, 36, 37 and 46.

Then Havens turned on the steam with a series of shots from near the hoop and he ended up with 23 points and game scoring honors. Paul topped Craigmont with 14 tallies.

The winners were handicapped by the loss of three players because of personal fouls. Craigmont lost one man that way.

## Kendrick Upsets Lapwai

A slashing Kendrick attack which produced eight points in the first 65 seconds of the second quarter gave the Tigers enough advantage to stop Lapwai 66-62 in the "semi-finals" of the Second District class B high school basketball tournament at Lewiston Friday evening.

Lapwai twice fought back within two points in the last period, but Kendrick's Ron Craig shoved his team off to new margins with the last six of his 25 points for the night.

Kendrick's victory was its first in the last 14 games it has played with the Wildcats of Lapwai.

Craig's shooting performance, aided by nice teamwork by his mates, spelled the difference between the teams. When the stocky guard wasn't running up his club's score, Tiger Ira Havens and Jim Armitage were.

They combined to overshadow equally fine — but not as consistent — Lapwai performances.

The game produced as much action in 32 minutes as any other contest played on the NICE floor this season. Both teams used fast-breaking

attacks successfully and alert defenses changed the situation often.

The score was close for the opening quarter. Lapwai held the advantage most of the first eight minutes, but the count was knotted at 2, 4, 6, 8 and 10, before Kendrick took a 17-16 first-quarter edge.

The Tigers opened the second frame in matoon-like fashion, Kendrick's Ernie Heimgartner canned a long one. Havens took a Craig pass for an under the basket goal. Craig dribbled the length of the floor for two more points and Havens scored again from close range before the machine-gun barrage ended. Only a minute and five seconds had elapsed.

Lapwai called time out. When play resumed Wildcat fouls sent Havens and Heimgartner to the free-throw line for two more points, making the count 27-16. Three and one-half minutes ticked off the clock in the quarter before Lapwai scored on Eddie Madsen's goal from way out.

Sobotta, Rickett and Mickey McCormack fought back with goals which moved Lapwai to the 30 mark against Kendrick's 33. Craig jumped from the key for a goal and Armitage sank a gift try just before the half ended, 36-30, Kendrick leading.

Armitage did most of Kendrick's scoring in the third, which ended 53-46 with the Tigers still on top.

## Genesee Defeats Kendrick

Genesee rushed past a weary Kendrick basketball team in the second quarter Saturday night and went on to a 58-39 victory.

The powerful Bulldogs had a match for the first 14 minutes of action at NICE gym, but broke out of a 21-21 deadlock to win going away.

The contest was mainly for the glory, as both teams automatically qualified for the Northern Idaho section of the state tourney this week-end at Coeur d'Alene.

Genesee scored five points on Gary Sather and Don Dennler shots before Kendrick tallied. The Bulldogs then stretched their margin to 9-3, and then Kendrick found the range and cut the gap to three points at 11-8 going into the second frame on scores by Walter Wolff and Ira Havens.

The losing Tigers' Ron Craig, high-scoring guard, ran his club's count to 16 and Wolff bucketed a long shot and a gift toss which put Kendrick out in front 19-14.

Dennler, who had done all of his team's scoring for eight minutes, ran under the hoop for a lay-up, followed by a brace a free shots by mates and another Dennler goal, which knotted the count at 21-21.

From there Genesee raced to a 27-21 intermission edge and the Bulldogs rolled up the margin with little difficulty from that point.

Dennler scored 21 points in the game and unaided ran the Genesee count from 7 to 16 in the last four minutes of the first quarter and the first four minutes of the second frame.

Kendrick, which was playing its sixth game in six days, saw its last bit of strength ebb out in the second quarter. The Tigers lost their defensive zip and Genesee took full advantage of ragged Kendrick timing offensively.

Craig, a leading scorer in the tournament, picked up 15 points for Kendrick, including several long shots.

**Weather Delightful**

The Potlatch area has been experiencing some of the loveliest spring weather that anyone could wish — particularly last Saturday, Sunday and Monday. The skies were absolutely cloudless, and the sun so warm that a coat was not needed during the middle of the day.

Tuesday was a bit chilly, cloudy, and a little shower of rain fell. But it is all just right when it comes to making things grow.

Grass is turning a brilliant green, shrubs are beginning to leaf, and tulips and daffodils are high in the air, with the latter all but ready to bloom.

Moving, raking and cleaning leaves from lawns and flower beds is the "great national pastime" these days, and the sky is dotted with the smoke of leaf and trash fires.

**Contest Soon To Close**

The Boys' and Girls' Contest which has been conducted this past several weeks by the Variety & Gift Store and the Red Cross Pharmacy, will end on Saturday, March 14, at 9:00 o'clock, and is provoking a great deal of interest, especially among the "small fry" who are the contestants. The prizes of bicycles, wagons, jackets, etc., look mighty good to them.

**Board Meeting**

An official church board meeting of the Kendrick Community church has been called for Thursday evening, March 12, at 8:00 o'clock, in the basement of the church, to consider some pre-Easter events. All are asked to be present.

**BIG BEAR RIDGE NEWS**

Mrs. Ed. Galloway is chairman for the local Red Cross drive.

The Grant Clemenhagen family spent the week-end with their daughter and sister, Mrs. Clement Israel and family at Ephrata, Wash.

Mr. and Mrs. Arthur Anderson of Lewiston recently visited his sister, Mrs. James S. Nelson and family.

Emmet Lien of Montana spent several days here with his brother, Henry, Sunday they visited their sister Mrs. E. Bruseth, in Clarkston.

Joe Forest, Donald Jones, Harold and Gerald Halseth attended a V. F. W. meeting in Lewiston, Sunday.

Roger Jones and Maxine Slind, U. of I. students, spent the week-end at their homes here.

Mr. and Mrs. Tom Keene and children of Kendrick called on friends here Sunday afternoon.

Arnold Halseth, accompanied by his uncle, Pete Halseth, of Deary, were visiting their uncle and brother, John Halseth and family, in Tacoma, last week.

The Ronald Jones family were Lewiston visitors Sunday.

Congratulations to Roger Jones for his 4-H Award. He will represent Idaho at the National 4-H Club camp in Washington D. C., in June, being one of the four chosen from our state.

Mrs. Oscar Slind and son Leland left Wednesday afternoon for Spokane to spend a few days with her parents, Mr. and Mrs. Wm. Leland, and other relatives.

**Join Delta Kappa Gamma**

Saturday, March 7, at noon, in the Hotel Moscow, Epsilon chapter of Delta Kappa Gamma held a luncheon meeting. Centered by red rose buds and red candles, the table was attractively decorated for the 14 members present.

Miss Edith Crowley, Orofino, chapter president, presided during the business session. Miss Jessie McGee, state president, presented the state project of funds, establishment of a foreign scholarship for members.

The program was in charge of Mrs. Beryl Clem, Lewiston. The topic, "Education in India" was presented by Cyquana Naud Nagar, a WSC education student from India.

The following were initiated: Mrs. Elsie Deobald of Kendrick; Mrs. Eleanor Hammond of Juliaetta, and Mrs. Bernice Buettner of Cottonwood.

Mrs. Deobald is the Commercial teacher in Kendrick High school and Mrs. Hammond teaches the first and second grades at Juliaetta.

Delta Kappa Gamma is a National Honor society for women teachers. Its membership is obtained by invitation and the quota as a chapter is one-tenth of the women educators in the section in which the chapter members reside.

**Main Street Being Widened**

The process of widening Kendrick's Main street in the central block containing Blewett's Store, the Kendrick Bakery, Variety & Gift Store, Burt's Confectionery, Dick's Barber Shop, the Bowling Alley and the Kendrick Cafe, is now under full swing — and a real job it is proving to be.

Water meters, control valves and the like must be moved from their present location in the parking space to new positions at the end of the street, so ditches must be dug accordingly, pipe laid and new controls cordingly, pipe layed and new controls installed.

When completed, it will greatly relieve the congestion caused by parking, particularly at night.

**C. C. Y. News**

Last Sunday evening, at the Community church, the C. C. Y. held the dedication ceremonies for the new fire place, attaching the plaque received for that purpose.

There will be an Easter Sunrise Service, on April 5, under the direction of the C. C. Y. All are asked to keep this in mind and watch for announcement of place and hour.

The Regional Youth Fellowship Meeting will be held at Moscow on Friday and Saturday, March 13 and 14. All C. C. Y. members are urged to attend.

**Undergo Surgery**

Jimmy and Judy Ann, children of Mr. and Mrs. James Burns, Kendrick, had their adenoids removed this past week at the office of Dr. Christensen.

Little Pat Johnson, daughter of Mr. and Mrs. Richard Johnson, Wenatchee, underwent a tonsillectomy in the office of Dr. Christensen, last Thursday.

**Double Celebration**

Mr. and Mrs. H. C. Schupfer and Mr. and Mrs. Harley Eichner were dinner guests Monday evening in the home of Mr. and Mrs. Don Eichner, American ridge. The occasion honored Mr. and Mrs. Don Eichner's second wedding anniversary — also his birthday anniversary.

**Juliaetta Red Cross Drive**

The Juliaetta Red Cross drive has now begun, with Mrs. A. W. Bailey as local chairman. Mrs. Bailey will be assisted by Mrs. M. C. Halliday and Mrs. Ray Scherer.

The Red Cross has a much larger quota this year, and everyone is asked to give generously.

**Evergreen Friendship Club**

The Evergreen Friendship Club will meet at the home of Mrs. Elton Wilson, March 18th. The topic: "Care of the Feet" will be discussed by the Home Demonstration agent from Moscow.

**Undergo Surgery**

Willard Bowen, Juliaetta, underwent a tonsillectomy Friday at the office of Dr. Christensen. He is recovering nicely.

Mrs. Duane Cox of Richland, Wn., underwent a hemorrhoidectomy in the office of Dr. Christensen Monday. She is recuperating at the Davidson Nursing Home.

**Brings Son Here To Recuperate**

Carl Mattoon drove to Spokane on Saturday to bring his son, Kenneth here to recuperate from surgery he underwent in that city recently. His home is in Omak, Wn. His wife and six-month-old baby are here with him.

### Chicago Feeder Sale Nets Over \$1 Million

#### 257 Carloads Feeder Calves Are Exhibited

A record 257 carloads of feeder calves sold for well over a million dollars at the 7th annual Chicago Feeder Cattle Show and Sale, held at the Chicago Stock Yards.

Largest feeder cattle event in the nation, the expanding show and sale entry list exceeded last year's record by over a hundred carloads. It also pointed up the expanding beef industry and the interest in improved breeding.

The grand champion carload of feeder calves in the show were exhibited by veteran cattleman Fred

Mr. and Mrs. Fred DeBerard pose with their blocky Hereford calves that were judged grand champion carload of the Chicago Feeder Cattle Show and Sale.

C. DeBerard of Kremmling, Col. A Wanatah, Indiana, cattle feeder, bought DeBerard's blocky prize-winning Herefords for \$85 per cwt. The grand champion calves averaged 428 pounds.

The auction brought an average of \$42.11 per cwt. for 257 loads of cattle, \$4.89 per cwt. higher than last year's average. The average weight was 485 pounds. Sales totaled \$1,050,633.

Steer calves, numbering 132 loads, average \$46.48 per cwt. while 50 carloads of heifer calves averaged \$44.15 per cwt.

#### Americans May Eat More Meat in Next 12 Months

The average American may eat even more meat and poultry in 1952 than in 1951, if advance production figures are any indication.

According to a forecast of the U.S. Department of Agriculture, meat production this year may be large enough to provide an average of 144 pounds per person as compared with 141 pounds in 1951.

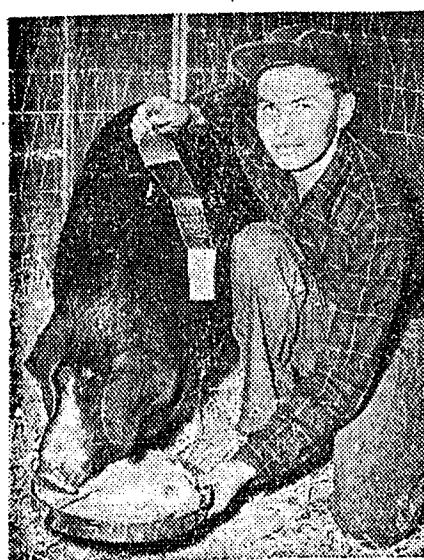

Most of the meat increase will be in beef and veal. Much of the step-up in beef will be in medium and lower grades, although some of it probably will be in the better grades of grain-fed cattle.

The amount of lamb and mutton eaten by the average American is expected to go up slightly. Last year consumption of lamb and mutton was the lowest on record—only slightly over 3 pounds per person.

A little more pork may be on the market in the first seven or eight months of 1952 than in 1951, but production for the last part of the year may be somewhat smaller.

Americans will also probably eat more chicken and turkey. Production of turkeys for 1952 may exceed the record-high 1951 level, but output of chicken is expected to be about the same.

#### Champion Barrow

Rolland Anderson, 17, of Leland, Ill., 4-H club member, is shown with his 250 pound barrow Poland China hog which was adjudged junior champion at the 52nd Annual Livestock Exposition in Chicago.

#### Experts Forecast Greater Cattle Slaughter

In the outlook for meat animals, 1952 may be a pivotal year when new or modified trends in meat production take place, experts report. The present low slaughter rate and large farm inventories are setting the stage for a substantial increase in slaughter in future years. The big question is how soon and what its price effect will be? In all probability cattle slaughter will increase in 1952 for the first time in five years.

**STILL THE WELFARE STATE**

Americans are characteristically humanitarian. They are known the world over for this trait. Friends and enemies alike take advantage of it. It has been a complicating element in our relations with the Communists—they confuse it with softness. And right here in our own country

our humanitarian instincts often lead us astray. An excellent recent example involves the report of the President's Commission on the Health Needs of the Nation. Not long ago when the report was released many of the country's leading publications, after a cursory glance, headlined it as a boon to the country. The introduction to the report is a masterly appeal to the humanitarian. But in between the lines is another story—an old story.

Farmers — Pay Once a Year!

**Acle Anderson Co.**  
Moscow, Idaho  
Phone 4691

The report recommends the expenditure of more than \$2 billions of tax money. The answer proposed for the solution to almost every problem is additional federal funds. Aside from the question of how these funds are to be raised in the background of all these endeavors lurks the shadow of federal control. Health is conditioned by food, housing and education, so the report advances the old argument that control of all these factors as well as health measures per se should come under the direction of an all-wise

federal government. In other words, without naming it the report has described the welfare state.

We are all interested in the steady improvement of health and medical care. However, the experience of other nations, especially Great Britain, has shown that good medical care and health cannot necessarily be bought at a given price. Here in our own country, ever since the founding of the nation, we have had continuous and in late years spectacular growth in both living standards and medical achievements. These great advances have been a normal development in a land where people are free to pursue their chosen occupations and live their lives without interference from government. Whenever government interferes, progress stops. And in the last analysis, every health proposal that has so far been submitted for federal legislative action, would mean abandoning the way of freedom and adopting the old world philosophy that government can do better than we can for ourselves.

This philosophy is a dead-end road at the end of which lies servitude. When confronted with such a philosophy, no matter how attractively presented, the American people must not let their humanitarian instincts betray them. — I. N. R.

Days have been growing steadily longer (as they always do) this season of the year, and the extra daylight is most welcome, particularly to town residents, who enjoy spending a bit of time outdoors, "scratching around" in the garden and flower beds, although it is still too early to really do much work. However, longer days make one feel like spring is close at hand.

**Modern Dentistry Can Aid Youth with Cleft Palate**

The role of modern dentistry in the total rehabilitation of young men and women with cleft lip or cleft palate so they can lead happy useful lives is revealed in the Journal of the American dental association.

Asserting that more children are born with this condition than any other congenital deformity, Dr. Herbert K. Cooper, director of the Lancaster, Pa., cleft plate clinic, estimated that at least one out of every 700 children have this handicap.

"The most frequently found condition has been getting the least amount of attention," he said. "The citizens of this country should be as well informed on the subject of cleft palate as they are on rheumatism, cerebral palsy and poliomyelitis."

Citing cases of patients treated at the clinic, Dr. Cooper told of a youth, 17, born with a cleft lip and cleft palate. During infancy, surgery had been performed, leaving him with a flat upper lip and very poor speech.

"He shunned all social contacts," Dr. Cooper said. "He left high school and was driving a truck. His whole family was extremely upset."

Dr. Cooper said the youth was given a medical, dental, speech and psychological examination. An appliance was constructed to build out the upper lip and cheeks and thimble crowns were placed on his five remaining upper teeth. At the same time, he was given speech instruction.

The boy was persuaded to finish high school, Dr. Cooper said, and he then was admitted to college. He added:

"The first two years were quite difficult for him because of his social adjustment problem, which he gradually overcame. Then he was taken into a fraternity and was graduated on the dean's list. He is now attending law school in a large university."

**U.S. Still Leads World in Production of Matches**

It's pretty difficult to get something for nothing these days, but there's one item left that is used by the average person 14 times a day, and two out of five times he doesn't have to pay. That little item is the match.

The manufacture of matches is a \$25 million-a-year industry in the United States. Each year, more than 500 billion matches are produced, and of 200 billion book matches made in the United States every year, about 196 billion are given away with the sale of cigars, cigarettes, and tobacco.

Sweden had us topped for many years in the production of matches. The Swedish Match Company, formed in 1913 by Ivar Kruegar, had match factories in 43 countries of the world and manufactured most of the world's matches. Kruegar is said to have invented the common superstition that "three on a match" is unlucky, in order to sell more matches. His match empire lasted until 1932, when it was discovered he'd been using the company's capital for his own speculations.

Sweden now ranks fourth down the line led by the United States. Great Britain ranks second and the Soviet Union third.

**Spices in History**

There are many references to spices and herbs in the pages of history. They play important parts in the development of our civilization. The ancients attributed strange powers and accomplishments to spices. Basil, for example, is venerated by the Hindus who plant it outside their temples and homes to insure happiness. The famed laurel wreaths which crowned Greek heroes of war and sport are the same bay leaves we use today in our cooking.

**Freezing of Water Pipes**

Freezing is most likely to occur in pipes which run along an outside wall. This hazard should be corrected by re-location of the pipes, if possible. If this is impractical, thorough insulation with from two and one-half to three inches of good pipe covering is the only safeguard. Should any of the piping freeze, the work of thawing it should not be entrusted to a handyman. It should be done under the supervision of an experienced master plumber. Blow torches or other methods involving open flames are extremely dangerous. They not only involve fire hazards but also permit the generation of high pressures which may cause explosions.

**Gregorian Calendar**

The form of our present calendar was set by Julius Caesar with some additional innovations by Augustus Caesar. However, in about 1500 years the length of year adopted by the Caesars proved incorrect. Therefore, Pope Gregory, in 1582, appointed a commission which revised the calendar sufficiently to bring it back in step with the seasons. Now it takes 3000 years for the calendar to slip out of line one day. The Protestant countries did not accept the Gregorian calendar until 1752 and this is why certain dates in history sometimes appear to be confused.

**Field Work Soon To Begin**  
If the good weather of the past two weeks hold a bit longer, farmers can begin field work, say many of them. As it is, it's dry enough on top, but just a bit too soggy when a plow goes more than six inches. However, many are now busy putting out landplaster, ammonium sulphate and other fertilizers, repairing fences, cleaning out brush, and otherwise getting ready for the rush of spring work.

**Farm Commodities Pose Big Problem Government Limited In Selling of Stocks**

At the moment the government owns approximately \$1,805,335,438 worth of farm commodities, purchased through the years to support farm prices, agricultural department officials report.

Products stored in government bins include 3.5 million bales of cotton, 145 million bushels of wheat, 167 million bushels of corn, 422 million pounds of linseed oil, 294 million pounds of dried milk, 79 million pounds of dried eggs, and quantities of various other items.

What's become of it all? It may be disposed of in various ways, but not dumped upon the

open market to compete with commodities now in private ownership. To do so would flood the market and depress the commodities offered far below support prices. The government would then find itself buying the commodities placed upon the market.

These commodities, however, can be sold should the market prices strengthen considerably above support levels.

The government has two methods at present of moving commodities. They are:

- (1) Persuading the consumer to increase their purchases through normal purchasing channels, thus reducing the supply and raising the price to where government stocks can be put on the market. Also, reducing supplies to a point where support prices would become unnecessary.
- (2) Many of the commodities in government stockpiles are being distributed to school lunchrooms, charitable institutions, Indian affairs, and needy groups.

**New Corn Spray**

Until recently, the corn earworm has prevented profitable sweet corn growing, especially in the South. Sometimes every ear in a crop is infested. Such corn cannot be sold.

Now the department of agriculture has developed a spray containing DDT, mineral oil, and

The new spray, when applied at the right times, will eliminate earworm and pay in growth of healthy corn on the American farm.

water that may be applied to silks and husks of developing ears. When applied at right times it kills worms before they attack and ruin the corn.

R. A. Blanchard, bureau entomologist, developed the method. He tested it in the field during three growing seasons in Texas, Mississippi, Missouri, and Illinois. Earworms were controlled in every instance, he reports.

**January Exports Pass \$224 Million Mark**

January agricultural exports totaled \$224,300,000, the agricultural department reports. Cotton topped the total with \$83,500,000.

Wheat and wheat flour were second to cotton, valued at \$47,300,000, while corn was in third place with \$14,700,000. Agricultural imports during the month were valued at \$290,700,000, or approximately 66 million more than exports.

**Wildlife Open House**  
The state fish and game department will hold open house at all its installations throughout the state during National Wildlife Week - March 15-21, it was announced this week.

The sixteen state fish hatcheries located at American Falls, Ashton, Twin Falls, Eagle, Hagerman, Clark Fork, Sandpoint, Mackay, Grace, Gannett, Gooding, Sagle, Mullan, Coeur d'Alene, Grangeville and McCall, will all be open for public inspection with guided tours provided by department fisheries personnel.

The two upland game bird farms at Jerome and Lapwai, and the North Idaho Bird Refuge at Post Falls will also be open to the public as a part of the National Wildlife Week celebration, as will the Farragut Game Management area and the Boundary county game refuge.

Everyone, including civic organizations and school children intending to visit Boise during the National Wildlife Week are urged to visit the department's native Idaho bird exhibit in the statehouse. This unique collection has been reconditioned recently and department personnel will escort visitors through the exhibit and show moving pictures on Idaho wildlife.

The purpose of National Wildlife Week is to acquaint the general public with the great wildlife resources America possesses and what the careful management of this precious re-

source means to each state in recreation for the millions of people who enjoy hunting and fishing each year. Idaho is fortunate in having an abundance of wildlife resources, and we should take advantage of National Wildlife Week to visit our state installations.

**Plant Many Acres Forest**  
Moscow - Idaho planted 2,200 acres of forest in 1952, according to a report announced this week by the forest service, and which Vernon Burlison, University of Idaho extension forester, helped to prepare.

Federal acreage planted amounted to 1,667. Private land was 480 acres, and public lands other than federal amounted to 53 acres. The figures include direct seeding, both by aerial and hand methods, on national forests.

Idaho's state nursery had an output of 518,000 trees for forest and windbreak stock. Small trees of several species were supplied to farmers from the nursery at Moscow. Another year of heavy planting was indicated for 1953 by Frank Pitkin, manager. He said that at the deadline (March 1) orders had piled in from all corners of the state.

# Potlatch Chief Sez

Published by the Kendrick Creamery

## HELLO, THERE, FOLKS —

Well, every day this past week has reminded us more and more that spring can't be too far away, and so, it will soon be "grass time" for those cows, with the increased flow of milk. — But Folks — don't depend altogether on grass. A little hay or grain to those milk producers is sure to pay you good dividends when you sell that cream to us. You see, we pay spot cash, and we return a steam-sterilized, ready-to-use can. So bring it in. No quantity too large, none too small.

Traffic Officer: "I've had my eye on you for some time, Miss." Girl: "Well, fancy that. And I thought you were arresting me for speeding."

Like hot rolls with your dinner? Hot biscuits for breakfast? Toast or a sandwich at lunch? Well, they'll all be better if accompanied by liberal chunks of "Potlatch

Chief" brand butter. The butter that is made from pasteurized cream — that has a fine sweet flavor and smooth texture. There is no substitute for butter, and "Potlatch Chief" is the tops.

Said one drunk to the other as they staggered down the railroad track: "Shay, these stairs are killing me!"

Said the other drunk: "Ain't the stairs — it's these low banisters!"

Now's the time of year to begin serving that delicious "Potlatch Chief" Ice Cream as dessert — for you'll want to be working out of doors — not cooking. And you can be sure that everyone likes ice cream. We have all the standard flavors, plus specials. Take home several quarts when you go today.

Sell us your cream!

# Why ALL THAT EXTRA COMFORT WEAR? THAT'S EASY TO FIGURE OUT!

EXTRA WEAR because BOTH soles and uppers are of inner-shell horsehide. The center layer is the shell. The grain runs vertical—the wear is on the end of the fibers—like the wood in a butcher's meat block.

EXTRA COMFORT because Wolverine's exclusive triple-tanning process tans this super-tough 3-ply hide so it is buckskin-soft—dries out soft—yet retains all its remarkable strength and wear.

## WOLVERINE SHELL HORSEHIDES

ONLY Wolverine SHELL Horsehides have this stronger, tougher inner-shell leather in BOTH soles and uppers—this 3-ply leather that wears and wears — that costs less to wear month by month on any work shoe job. No other work shoes in the world of leather tanned like Wolverine Shell Horsehides. Come in and try on a pair... no obligation.
