CANCER FUNDS AVAILABLE TO THOSE WHO NEED HELP

The Idaho division has funds to help cancer patients who cannot help themselves. The "Little Red Door" in each community has funds to furnish dressings, equipment for home use, nursing services, hormone therapy, transportation and maintenance while the patient is away from home receiving out-patient treatment. Almost always the workers at every "Little Red Door" can coordinate community resources to solve the problems of cancer patients.

How many lives have been saved by timely information will never be known, but in cases where direct financial aid has been provided the society has a complete record.

For example, one patient recovering from tracheotomy which required daily irrigation, was allowed to go home. He was taken care of by visiting nurses at a nominal expense as compared to the long hospitalization which would have been a county liability, since his resources had been exhausted.

One day a man appeared at the "Little Red Door" demanding that a "miracle drug" he'd heard about be procured for him. His doctor had pronounced him an incurable case. It was hard for the workers to tell him that there is no wonder treatment for cancer, although most early cancers can be cured by prompt treatment by a reliable physician with surgery, X-ray or radium.

There is one patient in an Idaho community who was supplied with \$500 worth of dressings last year and for three previous years. He is an old-age pensioner and is fortunately ambulatory, so he can care for himself, otherwise he would be a state case.

Not long ago literature was sought at the "Little Red Door" by an obviously distraught young woman who had remembered reading about cancer's seven danger signals. She was a busy housewife, mother and clubwoman, who had little spare time and no established family physician. While in the society's office she selected a reputable physician and let them make the appointment with her chosen doctor. He saw her at once and she gratefully reported back that although she did have a condition that needed treatment, she did not have cancer.

Funds for these services are contributed each April when more than 5,000 cancer crusaders canvass Idaho in their annual campaign. The American Cancer Society is the only national organization supported by voluntary contributions that is battling cancer on three fronts: Research, education and service to the patients.

The American Cancer Society's joint educational and fund-raising campaign opened April 1st in Idaho as well as throughout the nation. The dollars given now may save the life of a loved one — the "Little Red Door" must stay open!

Potlatch Derby Sunday

We think it only fair to mention again that the annual "Potlatch Derby" will be run next Sunday, April 12, with the big ball hitting the water at the Potlatch bridge below the mouth of Cedar creek at exactly 1:00 p. m. — and how long it might take it to reach the Sperry grade bridge across the Potlatch (finish line) is anybody's guess — for the water is the lowest that it has been at this time of year for many years — and it might take a "heap of prodding" to keep it in the water and moving at all!

However, the Firemen say "move it will, if it takes the whole Volunteer Fire department to do the job."

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

P. T. A. To Have U. of I. Singers
One of the biggest events of the season will be April 22, when the Madrigal Singers from the University of Idaho will give an evening's concert for the Joint P. T. A. at Juliaetta.

The Madrigal Singers consist of 11 outstanding voices under the direction of S. Keith Forney. The group includes three sopranos; three altos; two tenors and two basses, besides the director. The personnel are Caroline Bailey, Grangeville; Lilli Flo Pratt, Meridian; Joann Jacobs, Council; Nancy Skelton, Moscow; Ann Tremaine, Boise; LaVonne Wilson, Colfax; Rex Eikum, Moscow; Richard Martin, Post Falls; Gary Leaverton, Boise, and John Herrett, Kellogg.

The method of Madrigal singing originated about the 15th century and is continued in many places ever today. The style was an outgrowth of after-dinner family group singing. The head of the household would direct after the dishes were cleared from the table, the whole family joining in. There is a constant feeling of voice-line independence of parts, yet it all fits together for an interesting and unusual effect.

In order that all of the community may be privileged to hear this unusual and outstanding group there will be no charge for high school students and younger. Adults will be charged 50c to help defray expenses.

Junior Prom April 10th

The Juniors are spending every possible spare moment decorating the gymnasium in preparation for the annual Junior Prom, which comes on Friday, April 10, with the grand march scheduled for 9:00 o'clock.

Music will be furnished by the "Rhythmairs." The theme "Chinatown," has been chosen, and will be carried out completely in the decorations as well as dance programs.

The Southwick Homemakers Club will present their program of plays and other entertainment at the Kendrick School gym., April 17. Benefits will go to the school lunch for their summer canning program. We would like all who possibly can to attend this program. We'll promise a very enjoyable evening.

Boy Scouts To Larson AF Base

Last Wednesday morning at 8:00 o'clock the local Explorer Boy Scouts, accompanied by their leader, Henry Jones, left for Moses Lake, Larson Air Force Base, on an "Explorer" trip. George Brocke, Sr., transported part of the boys over and back.

It was a thrilling trip for the boys — for all love airplanes and to be able to see them so close was indeed a revelation.

Upon arriving the boys were treated exactly like recruits, bunking in the barracks and eating in the mess hall. Incidentally they mentioned the wonderful food — and big steaks — their evenings were crammed with exciting entertainments, the kind that appeals to boys — wrestling, boxing, judo, and training shows.

They were called at the crack of dawn — like any recruit, and spent their days viewing the wonders of the base. Three types of planes are stationed there, the C124, a cargo ship; B-26, bomber, and the F-86 jet fighter.

The cargo ship in its immensity held the boys in awe. To think it would carry two Greyhound busses or 200 men with packs and parachutes, was almost beyond believing. One of the high-lights of the trip was a fire extinguishing demonstration. The new chemical "Pro-tem" foam was used, showing the exact technique employed in an emergency fire after a crash landing.

There were 354 Scouts present, coming from Idaho, Washington and Oregon.

Boys from here making the trip were Randy Wallace, Roger Christensen, Jimmy Armitage, Darrel Brocke, George Jones, Lee Jones, Gerald Heffel and Eddie Corkill, accompanied by Scoutmaster Henry Jones. All returned home Saturday evening.

Only trouble experienced was when one car ran out of gas — and the other suffered a flat tire!

Roberts, son of Mr. and Mrs. Harold Roberts, Route 1, Kendrick, has completed training at the Sixth Army Chemical-Biological-Radiological defense school at the Presidio of San Francisco, and is now qualified to serve as a CBR instructor for his unit, Headquarters Co., 6230 Area Service Unit Reception Center, at Fort Ord, Calif.

To Head Pomeroy School

Pomeroy — A one-year contract as superintendent of the Pomeroy School District 110, was signed Tuesday of last week by Jasper L. Nutting, the present superintendent of schools at Kendrick — who submitted his resignation to the board about a month ago.

Nutting was among 50 applicants interviewed by the board of education for the position.

The one-year contract signed with the Pomeroy school will pay \$6,000. Mr. Nutting has been superintendent of the Kendrick schools for the past eight years.

Kendrick Village Election

In this week's issue of the Gazette will be found the official Notice of Village Election and Registration.

It seems that every two years a Village election is required. If this one follows the pattern of two years ago, difficulty will be experienced in finding four candidates to fill out a ticket — the salary being what it is — nothing but "headaches" per year.

Falling Car Breaks Bones

Don Gruell, Juliaetta, suffered a broken collar bone Wednesday morning when the car he was repairing fell on him. He had jacked the one end up and neglected to block the wheels, when the vehicle "slipped from its moorings" and onto Don, who was underneath.

Dr. Christensen took him to the St. Joseph's hospital where a metal plate will be used to hold the bones together.

Grange Tuesday Evening

The Kendrick Grange met Tuesday evening in the Fraternal Temple. Lonnie Williams of Extension Service showed Forestry pictures to the 35 present.

Lunch followed in the banquet room, and was high-lighted with the Easter motif.

The next meeting will be in charge of the Home Economics chairman.

Kendrick Bakery Expands

Louis Wright of the Kendrick Bakery takes on a new contract Monday morning, to furnish Lee's Shurline Markets in Lewiston at 24th and Main and at Clarkston on the diagonal, with a complete line of baked goods. This will in no way change the service he has been rendering this area, but will be an addition to his business.

Purchases Apartment Bldg.

A deal was consummated last week whereby Walter Silflow became the owner of the N. H. Stedman apartment building on Main Street.

Mr. and Mrs. Stedman will move in with Mr. and Mrs. Fred Stedman for a time and then will leave for Michigan to spend the summer.

Red Cross Drive Over

Mrs. John Johanson, as chairman for the Red Cross Fund drive wishes to thank all her helpers — the Mesdames Elmo Eldridge, Wm. Johnson, R. L. Blewett and Ward Helton for the many hours they gave in soliciting funds — also to all who gave toward this worthy cause.

Big Trees Come Down

Burton Souders, Jr., and David Crocker, equipped with a power saw and an axe, were busy in front of the Frank Abrams home for a couple of days last week taking out three huge locust trees in the parking and one in the Abrams lawn — also several at the L. S. Thurber home.

The "naked effect" one now gets at a first-glance will undoubtedly pass away, but the sunlight can definitely pour in.

Wheat Smut Big Problem
Idaho has made some progress in control of wheat smut, but has a long way to go before it is whipped, Howard Roylance, agronomist of the University of Idaho extension service, reported on his return from a recent northwest conference at Portland. The meeting reviewed smut conditions in Oregon, Washington and northern Idaho.

"The problem is still severe," Roylance said. "In northern Idaho the most troublesome infestations are in winter wheats. Every grower should recognize the importance of selecting good seed and treating it before planting."

Reports made at the Portland meeting showed that approximately 22 percent of northern Idaho wheat inspected by the federal grain grading service was smutty. Of the common white varieties, Golden was the one showing the most smut. In the club varieties, Elgin showed the highest percentage of smut.

Roylance said comparative figures indicated that Brevor was a good variety as a fall wheat. It had low instance of smut among the spring wheats.

Four steps were recommended for every wheat grower: First, use smut-resistant varieties; second, use clean seed free from susceptible varieties; third, thoroughly clean wheat to remove smut balls; and, fourth, treat seed with an adequate amount of fungicide.

How to make your car and truck ride and drive easier

Your car and truck will roll over the bumps more smoothly; chassis bearings will last far longer if you lubricate with RPM Chassis Grease T-B. Do the job at least every 1000 miles and you'll always have a tough lubricating film on bearing surfaces that will not rupture under road shocks.

RPM Chassis Grease T-B contains special additives that help it stick on surfaces under the hardest shocks, resist moisture and reduce wear. Ask us about RPM Chassis Grease T-B in the special EZ Fill pail that makes it easier to load grease guns.

GRAIN MARKETS WEAKEN; FEEDS SHOW HIGHER PRICE

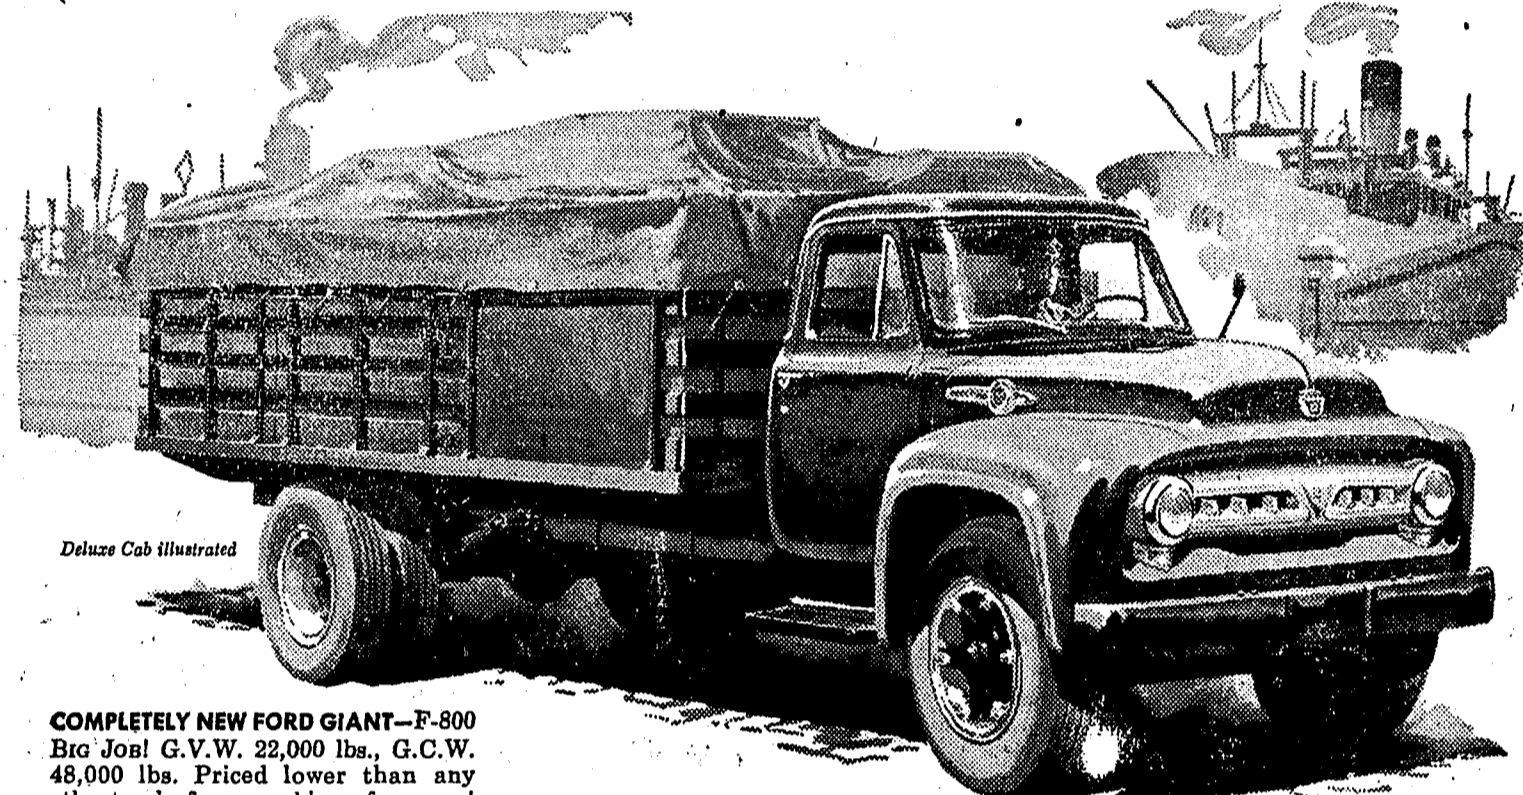

Grain markets generally weakened, reflecting a light demand for the increased offerings during the past week, according to reports to the Market News Service of the U. S. Department of Agriculture. Most grain prices were generally unchanged to a little lower except for soybeans and oats, which closed at higher levels. Wheat markets weakened, influenced by slow export and domestic demand but price changes were very small. Oats showed independent strength with a good demand for the moderate offerings, and prices averaged about 2c per bushel above a week ago. Barley prices were mostly unchanged. Wheat receipts at the primary

markets during the past week totaled nearly 6,000,000 bushels. This is about a million bushels more than for the previous week but about the same as for the comparable week a year earlier. Oats receipts at one and a half million bushels were slightly above a week ago. Wheat stocks of 339 million bushels on farms January 1, were nearly a fifth larger than a year ago, and slightly larger than average, according to estimates of the Crop Reporting Board. Sales under the International Wheat Agreement totaled 2.9 million bushels for the week. This brought the total for the season to 147 million bushels, leaving 106 million for sale under the quota. The principal countries involved in the latest sales were India, United Kingdom,

Italy and Saudi Arabia. Shipments of oats from Canada to the United States totaled a little over two million bushels for the past week. This brought the total since July 1 to 34.7 million bushels. Shipments of wheat for domestic use (mostly feed) totaled nearly 300,000 bushels, with only small shipments of barley and rye. Farm stocks of wheat in Oregon, Washington and north Idaho approximated 16.7 million bushels on January 1, according to the Crop Reporting Service. This is somewhat greater than the 13.5 million bushels on farms a year ago, but slightly under the 10-year January 1 average of 17.3 million bushels. Inspected wheat for export from the Pacific Northwest totaled nearly 1.9 million bushels the first week in January, and brought the total since July 1 to 38.9 million, with around 58.5 million bushels the total for the same period last year. At the close of the week, wheat markets in the Pacific Northwest were independently firm and prices were fully steady to somewhat higher compared with the previous week. An improved export and domestic inquiry coupled with lighter offerings as growers were placing large quantities under loan, were the principal strengthening factors. Receipts of wheat declined to 722 carloads during the week, compared with 863 cars a week ago and 976 a year earlier. Trading was moderately active in cash wheat following sales to India late last week, and purchases this week by Japan. India was also inquiring for additional supplies near the close of the week. Domestic demand for wheat improved somewhat following flour sales to the army and P. M. A. At the close of the market No. 1 soft white and white club were quoted at \$2.40 to \$2.41, basis track, Portland.

Pacific Northwest oats markets held about steady following last week's decline. Local No. 2 white oats, 38 pounds or better, were quoted at \$69.00 per ton on track at Portland, while Canadian Extra No. 1 feed oats were being offered at around \$67.50, delivered Portland. Receipts for the week totaled only 14 cars. **4-Hers Receive Recognition** Moscow — Idaho 4-H Club members received national recognition this spring in an address by Ezra Taft Benson, secretary of agriculture, according to the University of Idaho extension service. Benson is a former Idaho extension worker. He was the Franklin county agent and later extension economist. In an address at the national 4-H Club breakfast in Washington, D. C., he recalled Idaho experiences. "Thirty years ago," Benson said, "I had the pleasure to serve in Idaho as a humble county agent in one of the smaller counties. Among other things it was a joy to have 500 boys and girls in club work. I remember one time we were having a community meeting — a joint meeting of boys and girls with their parents present. The girls had put on an exceptionally fine program. "An outstanding 4-H Club boy who had just reached that very critical age when his hair must be well groomed and when he becomes interested in girls, asked after the meeting, 'Mr. Benson, is there anything lovelier than a beautiful, sweet, modest, 4-H Club girl?' I said 'Yes.' He was shocked. 'What is it?' I said, 'That same beautiful, sweet, modest girl as she holds her first-born baby in her arms — a mother and a homemaker. That is more beautiful.' "I do not know of any program more effective in building character, citizenship and leadership than the 4-H program. With all my heart I endorse it. It is no longer on trial. It has proved its worth — I am grateful for the 4-H program. May it continue to grow and increase until it touches the lives of every boy and girl in rural America."

"Only \$6.89 for electricity... we expected to pay twice that!"

"With my family of four, I moved from an eastern state to the Inland Empire in '51. My wife and I were surprised to find that the home we bought had an electric range, water heater, and electric laundry equipment, as well as all the more usual electric things we were used to back east.

"Sure we liked 'em, but we were afraid that such luxury would come high. Then came our first Reddy Kilowatt bill, and what a pleasant surprise! Only \$6.89 for services that have made everything so comfortable and convenient.

"Yes, I know Washington Water Power Company rates are low — and it seems only fair to let you know that we appreciate both the low rates and the excellent service."

Electricity is the Biggest Bargain in the Home!

This is typical of letters received by the Company from folks who have compared W.W.P. rates with rates elsewhere . . . AND . . . facts and figures prove they are right! The average cost of electricity served to W.W.P. residential customers is only 1.20¢ a kilowatt hour, while the national average is 2.71¢; and the average for PUDs, despite their easy tax burden, according to latest data is 1.28¢.

Special Musical Service

People will want to reserve Sunday evening, April 19, for the service sponsored by the C. C. Y. of the Kendrick Community Church. The Moscow M. Y. F. will present the worship service at 7:30 that evening, after which Mr. and Mrs. Norman Logan of the Music department of the U. of I. will feature an hour of music — during which Mrs. Dennis Racicot's choir will present a group of songs and Mr. Logan will lead a congregational hymn sing. Mrs. Herman Schupfer has graciously consented to leave her Hammond organ in the church a while longer, so it will be heard again the evening of the 19th.
 Further details next week.

My Thanks To You

I sincerely wish to thank all those who sent cards and gifts during my recent illness. — Mrs. James Whitinger.

Bamboo Poles From Japan
 Louis Wright, local angler, may experience some difficulty in staying on the job and attending to his business of furnishing the area with baked goods — all because he received three new fishing poles from Japan last week.

Clinton Smith, U. S. N., shipped him a kit containing three beautiful Japanese bamboo poles, with flies, hooks, line and all the necessary additional equipment. Louis says the outfit cost 3,000 yen (about \$8.00 in our money). He has been displaying the outfit at the bakery with considerable pride.

Many Attend Easter Services
 Cloudy skies and showers failed to daunt the Easter spirit as capacity crowds attended services throughout the area Sunday morning, to pay tribute to the risen Christ.

The Sunrise Services scheduled by the C. C. Y. of the Community church was held in the church rather than on Texas ridge, due to the chill rain. The youth group served breakfast to about 60 following the sunrise services and preceding the 9:30 service.

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

Well, Easter has come and gone, and as many predicted, it was damp and chilly — and seems like the weather is just determined to stay that way.
However, old Bossy won't freeze, and if you'll just take care of her and sell the cream to us — you'll find that your income will be higher than you thought. Try it. No quantity of cream is too large, none is too small. Bring or send it in — often.

"Just why do you want a married man to work for you, rather than a bachelor?" asked the curious friend.

"Well," said the harassed employer, "the married men don't get so upset if I yell at them."

As spring advances, the desire to spend more and more time outdoors will be upon you. However, that doesn't mean you will have to skimp on the meals — par-

ticularly desserts. Just keep a few quarts of Potlatch Chief Ice Cream on hand in the refrigerator or deep freeze, and serve it often. It will please your guests as well as your family. Made in all the standard flavors — plus specials. Take home several quarts today.

A motorist was helping his extremely fat victim to rise. "Why didn't you go around me?" shirled the victim.

"Sorry," murmured the motorist sadly, "I wasn't sure I had enough gasoline."

Need a locker box? Butchering time for spring will soon be at hand. We have locker boxes that will fit every purse and need. Come in and make your selection now! Know where you're going to put that meat.

And don't forget — we want to buy your cream!
