Parade Day Plans Progressing

Plans for Kendrick's Annual Parade Day are making steady progress — although still in the tentative stage.

It is hoped to have in the parade, which will begin at 11:00 a. m., besides the usual commercial, church, Grange, 4-H and other entries — the drill team of the University of Idaho R. O. T. C. unit — possibly the Spalding '49ers again — and other outside marching, fun and display units.

As usual, Marvin Long will sponsor the "Kid and Pet" section of the parade.

In the afternoon a ball game is planned, and in the evening, at the school gym, the annual all-school play, "Aaron Slick from Punkin Crick" will be presented.

So it's easy to see that a full and pleasant day is in store for those coming to Kendrick to spend the day — and evening.

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

Annual Spring Concert The Music Department of the Kendrick School will present its annual Spring Concert on Thursday, May 14, at 8:00 p. m. The program will include selections by the band; the Junior and Senior Girls' Choruses and the Mixed chorus.

Everyone is invited to observe this evening of relaxation and enjoyable listening. Come and see for yourself what these music groups have accomplished during the year. There will be an admission charge.

Baccalaureate Plans The Seniors held a class meeting on Tuesday. They had a discussion on who to have for the Baccalaureate speaker. It was voted and carried that Rev. Hardin would be the speaker; Rev. Tom Meske would lead in the Commencement prayer and that Rev. F. C. Schmidt would lead the closing prayer.

No Commencement Speaker This year the Seniors, instead of hiring a speaker, will have four of their fellow classmates speak at Commencement.

Those chosen for this occasion will be Susie Candler, speaking on "Religion"; Lee Jones, speaking on "Social"; Bernadine Glenn, speaking on "Education"; and Bill Mitchell "Democracy."

The main theme from which the various topics were chosen was "Our Part in Democracy." Commencement will be on Wednesday evening, May 20, at the gymnasium.

Seniors Plan Sneak Senior Sneak transportation was discussed at a recent class meeting. It was decided that the Senior class would pay the transportation to and from the Bar M, but those wishing to go would have to pay their own board bill. The group will leave on Thursday evening.

Play Date Changed Due to a crowded calendar the date of the spring play, "Aaron Slick from Punkin Crick," has been changed from May 12 to May 16 — since the 16th is on Saturday and evening of Parade Day.

There will be only one performance — that in the evening.

To Attend Track Meet The track meet will be held at Lapwai this year and the Kendrick district will attend — all will go Friday morning.

This meet will be a little different from that of other years. The ones participating in this will be selected in a class by their age, height and weight, instead of just by their class in school.

For the girls there will be a baseball throw, short sprint, and relay race. For the boys there is a broad jump, high jump, short sprint, relay race and shot put. We will have more next week on how the meet comes out.

Receive Good Ratings At the Music Festival in Lewiston last week-end the Kendrick band received a second place rating; the Senior Chorus a second place and the Junior Chorus a third, and the Senior Girls' Small Ensemble a second.

In a sight-reading test conducted immediately after singing for judging, the Senior Girls' Chorus won a second place rating.

The Kendrick Majorettes Twirling Team also won a second.

We feel this is a very good record.

Attends Library Meeting Mrs. Louis Lindquist attended the 1953 district meeting of the Idaho State Library association, Monday, May 4, in Lewiston, with Mrs. Eli M. Oboler of Idaho State College at Pocatello, presiding, and Lee Zimmerman, librarian at the University of Idaho, Moscow, as chairman.

Miss Maryann E. Reynolds, state librarian of Washington, and Leonard Thorp, assistant librarian of the University of Idaho, were featured speakers. Luncheon, which was a no-host affair, was held in the Lewis-Clark Hotel at noon.

MOTHER'S DAY

I see you in the sunlight and the starlight, At gloamingtime and when the east is grey;

I see you in the near-light — in the far-light — Across the fields of memory today.

Again the morning bells ring out their story, As hand in hand o'er cloverlands we go.

The chapel choir is singing of God's glory — In dear remembered songs of long ago!

In wildwood ways of old I seem to wander — Where April dried her tears to greet the May —

Where willows wave and weep I stand and ponder — The debt of love I owe to you today! — Bert Gamble.

### Another Big Egg Comes In

It seems, at least for this big egg contest, that men must have sup- planted women in the care of chickens — for our latest entry to date — Arley Allen, Cedar ridge, brought in an egg that measures 8 3/8 x 6 1/4 inches. It's larger one way than that brought in by John Vincent — but smaller the other. On stamp scales it showed identical content weight with the "vincent" eggs.

However, for good measure, Arley brought in a hen's egg about the size of that commonly associated with a pigeon. We didn't measure it — it's too small.

Come on, you women — surely some of your chickens must have produced eggs worth entering!

**New Councilmen Elected** — In perhaps one of the warmest contested village elections to be held in years in Kendrick, took place Tuesday of this week, when two councilmen were to be elected for a term of four years. A ticket bearing the names of George Leith and Herman Schupfer was filed late in the last day for filing. It later developed that another ticket would be put in the field, this bearing the names of W. J. Carroll and Ira Havens, stickers being used for the purpose of putting their names on the tickets by the voters. One hundred and eighty-five electors had been placed on the rolls — one of the largest lists ever to be filed in this village. Of this number 165 cast their votes, as follows: W. J. Carroll, 99; Ira Havens, 94; Herman

Schupfer, 77, and George Leith 61. The new council will be composed of W. J. Carroll, Ira Havens, Dr. G. W. McKeever, Silvie Cook and E. A. Deobald.  
**Gets Southwick School** — Orville W. Turnbaugh, formerly a teacher at Leiland, has secured the superintendency of the Southwick School for the ensuing year, replacing J. M. Lyle, Jr., who assumes the superintendency of the Kendrick school.  
**Organize Baseball Team** — R. H. Ramey, having decided that Kendrick should not be left off the baseball map entirely, has organized a team made up of school boys, and they have been doing considerable practice work lately. On Friday they played at Juliaetta, defeating them 25-5. Cuts Forehead — Little Bruce May received a cut above one of his eyes one day this week that required sev-

eral stitches to close.

**Polio Information Coming**

State-wide plans to provide communities with reassuring factual information about polio will be initiated at Boise this week at a day-long conference of leading women volunteer workers, it was announced this week by Mrs. Frankie Alworth, advisor on women's activities of the National Foundation for Infantile Paralysis.  
More than 200 women are expected to attend the polio information preparedness meeting, which will open at 9:00 Friday morning, May 1, at the Hotel Boise.

"With scientific victory over polio hopefully closer to hand, women face a challenging responsibility in the season just ahead of us," Mrs. Alworth said. "We must all intensify our efforts to make sure that all communities understand the full scope of services available through the National Foundation's unique patient care and educational programs. We must also make very sure that we ourselves know and understand the reasons for gamma globulin's short supply so that we can interpret the facts and help avoid community confusions and needless fear."

**Squirrel Provides Big Part Of Nation's Yearly Game Bag**

Although it is generally recognized as a prolific game species of extensive range, comparatively few people realize the truly important part the squirrel plays in the nation's game bag.

Several years ago the Remington Arms Company, Inc., conducted a survey of national wildlife resources and sportsmen's hunting preferences. The survey revealed that the squirrel ranked second only to the rabbit as the most sought-after game species in the country.

A recent analysis of "Hunters' Scorecards" returned to the office of the Mississippi Game and Fish commission placed the squirrel in an outstanding position in the hunting activities of the sportsmen of the Magnolia state. The analysis brings to light the fact that 79 percent or 150,000 of the licensed hunters in Mississippi sought squirrel during the 1950-51 hunting season. The cotton-tail rabbit and the Bob White quail practically tied for second high rank, with the rabbit nosing out the quail by the slight margin of 47.15% to 47.12%. Next in line was the lowly possum with the somewhat surprising score of 23.06%, topping the dove's rating of 21.58%.

A breakdown of the analysis in hunting activity percentage and estimated total statewide kill follows: deer 6%, 1,370; wild turkey, 1.35%, 249; quail 47.12%, 2,119,532; squirrel 79.83%, 2,418,574; rabbit 47.15%, 900,380; coon 16.2%, 208,712; possum 23.06%, 386,145; dove 21.58%, 522,876; ducks 8.97%, 182,217.

**Patients On Salt-Free Diet Given Hope for Meal Variety**

Patients on a monotonous salt-free diet were given the hope of adding more variety to their meals in two reports on further experiments in the recently developed exchange resin therapy. Exchange resin compounds have been administered to patients having congestive heart failure, cirrhosis of the liver, or kidney ailments which cause excessive fluids to collect in the system. The resin compounds eliminate the sodium which locks in the fluids. Because of this action, it becomes possible for the patient to take more sodium in his diet than would otherwise be possible.

In a report on resin therapy presented by Drs. Carl Voyles, Jr., and Edward S. Orgain, Duke University School of Medicine, Durham, N. C., it was concluded that "Resin therapy is a useful adjunct to conventional therapy in the management of chronic congestive heart failure, and it can be used safely in conjunction with strict sodium restriction in patients who are followed closely. Resin therapy also makes possible the addition of sodium chloride in amounts sufficient to render the diet more palatable," the report added, and it facilitates the action of mercurial compounds that help in fluid elimination.  
The second report on exchange resin therapy reviewed studies by Drs. B. L. Martz, K. G. Kohlstaedt, and O. M. Helmer, at the Lilly Clinic for Cardiovascular Research, Indianapolis.

**Sleep Anywhere**

One of the most energetic causes of sleep is fatigue. It is said that prisoners upon the rack have slept through sheer exhaustion while undergoing the horrors of torture. In a like manner, if one is tired enough he will be able to sleep on the floor or on any manner of uncomfortable bed, although he will not thoroughly relax. To the person who has known the luxury of sleeping on a good quality bed, though, sleeping on a worn out, sagging mattress and spring is almost as much torture as going to sleep on a prisoner's rack.

**War and Peace**

Development of the flame thrower, which first became a military weapon during World War II and has been used extensively by the Army in Korea, led to the peacetime perfection of a highly proficient weed killer. Tests at the Army Chemical Corps Center, at Edgewood, Maryland, proved that a thin jet of burning, jellied gasoline would kill weeds between rows of plants without harming the plants themselves.

**Deciding Issue**

If it had not been for the magic of the name "George Washington" the fabulous Phineas T. Barnum may have lived out his life in obscurity as a poor country store-keeper. One day, the man who was to become known as "the greatest showman on earth" heard an interesting story of a remarkable Negro woman, Joice Heth, who claimed to be 161 years old. When he went to see her, purely out of curiosity, she asserted that she had been the nurse of George Washington. Barnum became so excited upon discovery of documentary evidence to back up her claims, he decided to sell his store and exhibit the strange old woman in the east. The tour proved so successful, and stirred up so much interest, he was inspired to engage in other similar ventures. Finally, he formed the partnership with James A. Bailey, out of which grew the most famous circus in America.

## HELLO, THERE, FOLKS —

Well, it rather seems as if spring might be here after all — and if that's the case — ice cream should appear on your table more frequently than ever — for spring and summer is "eat more ice cream time," even though it is a popular year around dish.

To prepare for this increase, the next time you come down town take home several quarts — make it an "assorted purchase" and have it on hand when friends come to call or you need a quick dessert. You'll always be a popular host and hostess if you serve lots of ice cream — the dessert for young and old.

Private Dillon asked for week-end leave from a training camp on the grounds his wife was "expecting." He got it.

The following week he made a similar excuse and again got a leave.

But when he asked for leave

for the third week-end, the officer in charge remarked: "What is she expecting, anyway?"

"She's expecting me home again, sir," came the quick reply.

— No leave!

Now that warmer weather is at hand more care must be taken to keep your cream in top condition. Immediately after separating put it in a cool place and keep it there until you come to town and bring it to us. We'll return a steam sterilized, ready-to-use can — and your check. There's no waiting, no fuss, no bother when you sell to us. Bring or send in your next can.

"All requests for time off on account of headaches, severe colds, funerals, etc., must be handed in to the manager by 10 a. m. on the day before the game."

Sell us your cream!
