### Expresses Farewell Sentiments

It seems fitting to use this means of expressing to the community our sincere and heartfelt appreciation for the kindness exhibited in honoring the teachers of the district in the pot-luck dinner, program and social hour last Friday evening. Certainly it was a mighty fine gesture and reminds those of us who are leaving how greatly we shall miss a community which has a spirit such as this. We especially wish to thank the committee in charge of arrangements, since such an event is really quite a chore. They succeeded well in providing that extra "something" which makes life so worth while and keeps the heart warm. An experience which is forever cherished and

While my family and myself are not leaving Kendrick for several weeks, this is in no way a word of farewell. In fact, we expect to see many of you from time to time after we leave. However, we do take this opportunity once more to thank our many friends who have shared in making the years spent here some of the happiest of uor lives. It has indeed been an enriching experience and we shall always remember the many acts of kindness and gestures of friendship, especially during this

#### Tuesday. Weather Warmer - Cooler

To attempt to accurately describe he weather the past week can possible best be done by the following: Warmer - Cooler - Warmer!" For that is certainly the case.

Thursday was quite a nice day,

although there was considerable wind and with the coming of evening it was downright chilly. Friday and Saturday were successively warmer. Sunday was real-

ly chilly, and Monday morning a coat was a very comfortable possession. Later on in the day the sun came out brightly and it grew steadily warmer.

Some hay has been cut, but on the whole farmers are waiting for more settled weather.

### C. C. Y. Enjoy Meeting

There was a spirited meeting of the Community church C. C. Y. Sunday evening. Nancy Callison gave a splendid report on her experiences at Camp Magruder. She came back loaded with ideas, inspirations, pamphlets and books.

The group decided to meet next Sunday evening, July 5, in spite of its being so near the 4th. Roger Christensen volunteered to cook, and Farrell Mizer will lead the discussion. All young people are welcome.

Right now, the big need is for someone who can play the piano. Is there a volunteer?

One advantage of starting late is that you miss the thousands who start early to avoid the crowd.

Yesterday—Manpower and a drill rig contrived from a springy sapling, cable and drill bits sank our first wells. Since the rudimentary tools restricted their depth, they produced little oil. The "tea kettle" refineries of the day were limited, too. They utilized only a portion of the petroleum and turned out a small number of useful products.

Today—Each of our 34,750 Standard Oilers works with an average \$51,000 worth of tools. They use diesel-electric drill rigs to tap oil pools as far as three or more miles deep. With refinery units that rearrange the structure of petroleum molecules they make each drop of crude useful. Ingenious production, refining and research "tools" like these enable Standard Oilers to make more than 1100 different products from a barrel of oil...gasoline 50% better than it was 25 years ago, and wear-saving lubricants; ingredients for wrinkle-resistant fab- P.O. HELLO, THERE, FOLKS -

Well, Saturday is a national holiday - July 4th - and with Sunday following, you have a long week-end ahead for that fishing and camping trip — or perhaps just family pienics on both days. Now here's our suggestion - bring in that portable ice box and let us fill it up for you Friday. It will be well chilled and ready to go Friday evening. We use only pure ice, so you can chip away from its contents for iced drinks. And too, don't forget to take several quarts of milk for the children and cottage cheese for that picnic
