INTERESTING NEWS NOTES FROM THE SOUTHWICK AREA

Benjamin Are Honored

Complimenting the recent marriage of Mr. and Mrs. Ronald Benjamin, about fifty men and women gathered at the Ladies Aid Hall last Sunday, Aug. 2, for a nuptial shower.

The gift table was arranged in a corner with steps leading to the platform where a miniature bride and groom stood beneath wedding bells decorated with streamers of yellow, green and silver crepe paper. On the steps were useful kitchen articles, showered with rice. The windows were also decorated with crepe paper, and shower gifts were to be found in each of them.

The serving table was centered with a large four-tiered wedding cake, made by Lois Thornton, and decorated by Ruth Armitage. It, too, was topped with a miniature bride and groom. Tall candles, two more cakes and a beautiful flat bouquet of red roses completed the decorations.

Games were played with both men and women participating.

After the couple opened and displayed their many useful and lovely gifts, refreshments of cake, jello and punch were served by the hostesses—Lois Thornton, Marilyn Benjamin and Alice Fry.

Out-of-town guests were Rev. and Mrs. Martin Sweeney and daughters of Yakima, Wash.; Rev. and Mrs. A. G. Wheeler and daughter Phyllis of Clarkston, Wash.; Mr. and Mrs. James Townsend and daughters of Clarkston, Wash., and the Rev. Gene Watson of Cream Ridge.

Honored With Pot-Luck Dinner

A pot-luck dinner was held Sunday in the church yard as a farewell to the Rev. and Mrs. A. G. Wheeler and daughter Phyllis, who are leaving for California, and also as a welcome to the new minister, Rev. and Mrs. Martin Sweeney and daughters, who have moved here from Yakima, Wash.

Announcements

The Southwick 4-H Club will meet on Wednesday, August 12, at the home of their leader, Mrs. Rollin Armitage.

The Southwick Homemakers Club will meet on Thursday, August 13th, at the home of Viola Martin, with Agatha Perkins as co-hostess. We would like to see all the members present — if possible.

General News

Mrs. Carl Brandon of Clarkston; Mrs. Pete Specker of Lewiston and Mr. and Mrs. Jack Pletu of Kellogg, Idaho, were guests over the week-end at the homes of Mr. and Mrs. Given Mustoe and Mr. and Mrs. Jack Mustoe. The three ladies are sisters of Given Mustoe.

Mr. and Mrs. C. A. Cuddy and son Charles and Mr. and Mrs. Leonard Cole, the latter of Cavendish, spent the week-end on the Little North Fork, fishing.

Rona, Doug, and Dave Armitage left on Monday for Richland, Wash., where they will spend part of their vacation at the home of their uncle and aunt, Mr. and Mrs. Duane Cox.

Jeanette Cuddy of Woodland, Idaho, is visiting at the Rollin Armitage and T. J. Armitage homes, returning home on Monday.

Mrs. Aaron Wells went to Porter's Camp Friday and spent the night. She was joined there Saturday by her husband, both making the trip to Headquarters, where they visited at the home of Mr. and Mrs. Arlos Wells.

Mr. and Mrs. George Brocke, Jr., and son Dean of Kendrick, and Jerry Harris and son Duane of Clarkston were guests in the Virgil Harris home one day this week.

Mr. and Mrs. Charles Harris and family drove to Avon Sunday, where they visited at the Jim Allor home.

Doug Harris accompanied his father, Virgil Harris, on two trips to Cle Elum, Wash., this week, while Mr. Harris was helping move the machinery for the rock crusher from that city to Genesee.

Mr. and Mrs. Virgil Harris and family spent Saturday in Lewiston, shopping and visiting at the E. J. Torgerson home.

Ted Fry, of Culver, Oregon, who is spending the summer at the home of his brother, Ervin Fry and family, spent last week at the Daymond Schneider home at Lenore.

Mrs. G. C. Danforth spent Sunday visiting her mother, Mrs. Cora Thornton.

Mrs. Louis Mula and daughter Louise, of Berkeley, Calif., left for her home this week after spending ten days here visiting her mother, Mrs. William Elliott, Lewiston. Her sister, Mrs. Russell Perkins and family, and her brothers, in Moscow and Spokane.

Miss Hazel Perkins is in Clarkston spending part of her vacation with her sister, Mrs. Lloyd Randall, Jr., and family.

Mrs. Helen Cowger, Mrs. Elton McCoy, Mrs. Cora Jennings and Mrs. Ruth Armitage spent Wednesday morning canning cherries for the school lunch.

Mr. and Mrs. Harvey Triplett were Sunday dinner guests in the home of Mr. and Mrs. T. J. Armitage.

Gary and Mike Armitage, sons of Mr. and Mrs. Jay Armitage of Fraser, are visiting in the home of their grandparents, Mr. and Mrs. T. J. Armitage.

Jack Climer and daughter of Corvallis, Oregon, were visitors and callers at several homes in Southwick on Monday. Mr. Climer is a former teacher in the Southwick school.

Mr. and Mrs. Clay King had as guests in their home over the week-end their daughter, Mrs. Collin Biller and children of Kent, Wash.

Friday night guests in the Clay

Chicago Visitors Honored

Mr. and Mrs. Donald Riley and two children of Chicago, Ill., who arrived here Monday of last week for a visit with his parents, Mr. and Mrs. Wm. Riley and family, and other relatives, were honored Sunday in the Kendrick park by a family reunion picnic, with some 51 in attendance.

Those present were: Mr. and Mrs. Allen Baker and family of Clarkston; Mr. and Mrs. Chris Weber and family of Lewiston Orchards; Mr. and Mrs. Ben Greene and family of Lewiston; Mr. and Mrs. Ben Baker, Jimmie and Billie McGee of Southwick; Mr. and Mrs. Loyd Kimbley and family; Mr. and Mrs. Wm. Riley and son Harry; Mr. and Mrs. Rife Swanson and family; Mr. and Mrs. Alva Craig and family; Mr. and Mrs. Rosa Hazeltine and family of Spokane; Mr. and Mrs. Roy Riley of Spokane, and the guests of honor, Mr. and Mrs. Donald Riley and children of Chicago.

The Riley family leaves for their Chicago home today (Thursday)

JAMES S. NELSON, BIG BEAR RIDGE PIONEER, PASSES ON

James S. Nelson, a pioneer of the Big Bear ridge area, and one of its most prominent and respected citizens, died Tuesday afternoon, July 28, at the family home on that ridge.

Death was attributed to the infirmities of age. He was born at Viroqua, Wisconsin, February 12, 1871. He came to Idaho with his parents at the age of 17, they homesteading near Avon shortly after. He later moved to Big Bear Ridge where he made his home continuously, with the exception of three years in Clarkston, Wash.

Mr. Nelson grew to young manhood on the farm, and was following that calling at the time of his death. During his life, however, he taught school; served two terms in the Idaho State Legislature and served one term as Latah County Republican chairman. He was a charter member of the Zion Lutheran church of Deary.

He was united in marriage to Thelma Anderson on Dec. 24, 1897, at Bear Creek. Mrs. Nelson survives her husband.

Other survivors include two daughters, Mrs. Effie Lewis of Oakland, Calif., and Miss Betty Nelson of San Francisco, Calif.; two sons, Alfred of Chicago, Ill., and Lester of Kendrick; two sisters, Mrs. Lena Magnuson of Clarkston and Miss Emma Nelson of Garfield, Wash.; two brothers, Ole of Clarkston, Wash., and Sever of Moscow, Idaho. Four grandchildren also survive.

Until the infirmities of age prevented, Mr. Nelson took a prominent part in activities of all kinds pertaining to the welfare of the community in which he resided, and his words of council were always heard and respected. He was a kind and loving father, a good neighbor, always willing to lend a helping hand. His passing leaves a gap in the community which will long remain vacant.

Final rites were conducted Saturday morning at 10:00 o'clock, at the Zion Lutheran church in Deary, with the Rev. Edwin Barness, pastor, officiating.

Music was furnished by Mrs. Stanley Cox, who sang "In the Garden" and "Good Night Here and Good Morning There," accompanied at the organ by Mrs. Oscar Slind.

Palbearers were Melvin Sneve, Joe Clemenhagen, Albin Nelson, Hartwick Lee, Olaf Burnvik and Gabriel Forest. Interment was in the Lutheran cemetery near Deary.

Hudson-Peters Nuptials

Orofino, (July 19) — A double ring ceremony united Mrs. Iona Bernadine Hudson and George Robert Peters, Sunday at 2:00 p. m. in the Methodist church here. The Rev. James M. Lane read the nuptial vows before an altar decked with gladioli. The bride is a daughter of Mr. and Mrs. A. G. Peters of Kendrick, Idaho. The groom, a son of Mrs. George Peters of Tekoa, Wash.

The bride was attired in a champagne suit with lavender accessories. Her corsage was of pink rosebuds.

Mrs. Donna L. Sheets, sister of the groom, Tekoa, Wash., was matron of the groom. She wore a white and gray afternoon dress with red accessories. Her corsage was of white rosebuds.

Best man was Gordon Peters, Kendrick, a brother of the bride.

The reception which followed the ceremony was held at the home of the newlyweds on Riverside. Mrs. Ralph Whipple served the bride's cake and Mrs. Don Peterson and Mrs. Ernest Reece presided at the tea table.

Out-of-town guests included Mr. and Mrs. A. G. Peters, David Hudson and Mr. and Mrs. Gordon Peters of Kendrick, Idaho; Mr. and Mrs. Chas. L. Decker and family of Spokane; Mrs. George Peters and Mrs. Donna Sheets of Tekoa, Wash.

The couple will be at home on Riverside, in Orofino, after a week's trip to Canada. She is employed as bookkeeper for Lashly Sales and Service and he in the C. E. Brock office.

Root Beer Explodes

Mrs. Bob Watts had the experience of having a bottle of home made root beer explode — literally in her face — last Wednesday afternoon at their home here.

She went into their fruit room to get several bottles and put them in the refrigerator. On touching one of the bottles it exploded, a piece of the flying glass struck her in the forehead just above one eye, inflicting a small but deep cut.

It was indeed fortunate that the glass did not strike her in an eye.

(Continued on Page 2)

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Ben P. Cook have received word from their son, Pvt. Bennie Cook, that he will arrive home today (Thursday) to spend a short furlough before going overseas — presumably to Korea.

Mr. and Mrs. E. M. (Bill) White have received word from their son, Pfc. Richard V. White, that he is now in Germany with the 50th Food Service Co., 50th Fighter Bomber Wing.

Bruce Murdock, who has been living at his home here for the past several months, following illness, is now at the Leo Mundell home in Troy, where he is being cared for.

Mr. and Mrs. C. G. Arnett have received word from their son, Pfc. Lloyd G. Arnett, that he is now stationed in Germany with the Hq. and Serv. Co. of the 373rd Armd. Inf. Battalion.

Word has been received from Jake Riebold former Southwick resident, that he may be found by his friends at Clearwater, Idaho, having moved from Harpster.

Word has been received that Capt. Rex Blewett has again been transferred in Korea, and is now at the Hq. of the 45th Inf. Division, G-3 Section.

Mr. and Mrs. G. H. Winn, son and daughter of Spokane, were Sunday guests in the home of Mr. and Mrs. L. S. Thurber. Mrs. Winn is a daughter of Mr. Thurber.

John and Andy Galloway and Burton Souders, Sr., returned last Wednesday evening from a fishing trip in the Bungalow area — and reported "very little luck."

Mr. and Mrs. Marvin Long and Farrel Mizer returned Friday evening from a six-day fishing trip in the Cedars section. They reported their luck as "very good," and the time most enjoyable, as the weather was perfect.

Max Dammarell, his wife and baby arrived here last week from the coast — Max having completed his army service. They visited for a few days on the coast with her parents. However, they expect to make their home here.

Mr. and Mrs. Ben P. Cook drove to Genesee Sunday to spend the day in the home of his brother, Mr. and Mrs. John Hoduffer and family.

Douglas Christensen, son of Dr. and Mrs. D. A. Christensen, leaves Tuesday of next week for Fort Lewis, where he reports for duty with the Armed Forces.

Charles Snowling, Salt Lake City, is expected to arrive here today (Thursday) to spend some time visiting in the home of his daughter, Mrs. D. A. Christensen and family.

Mr. and Mrs. Harry Ameling left Monday morning for their home in Tucson, Arizona, after visiting here several days in the home of his mother, Mrs. Liddie Ameling, and other relatives. They will visit friends and relatives on the coast enroute home.

Douglas, Charles and Roger Christensen enjoyed a fishing trip to Kelly Fork and the Cedars several days last week.

Mr. and Mrs. Ed. Long and Mr. and Mrs. Hiram Galloway were huckleberrying on Bob's Creek near Bovill, Sunday. They report their luck as "fair."

Nancy Platt of Pierce is here visiting her grandparents, Mr. and Mrs. J. H. Platt, and other relatives, this week.

Mr. and Mrs. Marvin Long and Mr. and Mrs. Tom Long spent Sunday on Bob's Creek after huckleberries. They report the take as "fair."

Mr. and Mrs. John Platt spent a few days of last week fishing at Lake Chatoelet.

Mr. and Mrs. Oscar Medalen and grandson Eric drove to Seattle Sunday morning for a few days visit with their son-in-law and daughter Mr. and Mrs. James Wood and family.

Week-end guests in the Paul Lind home were Mrs. Bina Cook and son David and Eugene Lind, Lewiston, and Mr. and Mrs. Bob Lind and daughter of Moscow.

Mrs. Bina Raby of Lewiston was a Friday and Saturday guest in the home of her daughter, Mr. and Mrs. Paul Lind.

Mrs. Esther Hammond of Mineapolis, arrived here Monday of last week to spend five days visiting in the home of her sister, Mrs. E. M. White and family, and with her mother, Mrs. W. M. Huff. During Mrs. Hammond's visit Mr. and Mrs. Jerry White of Moscow were dinner guests, as were Roy White and Boyd Thornton, Lewiston. Other members of the family calling to visit with her were Mrs. Owen Harmon and Jim Huff of Clarkston; Bill Huff of Lewiston, and Mr. and Mrs. Keith Thornton and son Steve of Leland, Mrs. Hammond left for her home last Friday.

On Tuesday Mr. and Mrs. E. M. White, Mrs. Esther Hammond, Mrs. W. M. Huff and Mrs. Keith Thornton and son Steve drove to Walla Walla where they were joined by Mrs. Theodore Deobald and two daughters of Richland, Wash., and Ann White, who was visiting in the Deobald home. All enjoyed a picnic in the Walla Walla park.

Mr. and Mrs. John Darby and daughter Jo drove to Orofino Sunday to visit in the home of her brother, Mr. and Mrs. F. D. Hammond.

Wayne Ballie arrived home from Detroit last Saturday, driving a new car. Wayne flew back on July 25 — but says the eastern weather was too much for him, so he came home as rapidly as possible.

John Johanson, W. A. Watts, Bob Watts, Dee Miller and Vern Dunham and two sons spent Sunday and Monday on a fishing expedition.

(Continued on Page 2)

CONSOLIDATION OF LATAH ROAD DISTRICTS PLANNED

One more step toward the consolidation of five highway and good roads districts in the southwestern part of Latah county was made Saturday morning at Moscow when 26 highway district and road commissioners and the county commissioners met at the court house in Moscow to express their opinions of the proposed plan.

General feeling of the road commissioners was that they did not want to see the districts turned over to a county road system. After considerable discussion road commissioners of the outlying areas agreed that the consolidation of the five districts would not adversely affect them.

The county commissioners have received petitions from three of the districts for the proposed consolidation. The other two districts involved in the plan are ready to submit petitions, it was reported. Following the receipt of all five petitions, the county commissioners will act in accordance with the law and call a special election in the five districts to decide the matter.

The special meeting, called by Joe Parker, chairman of the Latah county road commissioners, brought out representatives from 10 of the 12 districts in the county. The Kendrick Highway district and Good Roads District No. 1, which is east of Kendrick, were the only areas not represented.

Primary purpose of the meeting was to find out how the other districts in the county would be affected by the consolidation of the five, and to see if any other districts in the county were interested in merging.

In regard to the 12 highway and good roads districts in Latah county Parker brought out the fact that the legislature advised the county two years ago to "put your house in order."

"We're going to consolidate voluntarily rather than have the legislature do it for us," he added.

Regarding the possible merger of the Potlatch and Princeton districts, a Princeton road commissioner said they did not want to ask Potlatch to take them in. "Why should they divide with us?" he added. He reported that logging trucks in the area have caused many problems in the district.

Willard Scoville, Potlatch, secretary of the association, said that their district would consolidate with Princeton on the basis that it would be better than a county system. "We have to consider that the big districts have the responsibility of the smaller systems," he added.

Adrian Nelson, Genesee Highway district commissioner, explained that the proposed consolidation plan was plotted out geographically, taking into consideration the shopping areas of Genesee and Moscow and the school district boundaries.

The proposed plan would put about 185 miles of roads in the Genesee district and 170 miles in the Moscow district. Genesee would take in the south two-thirds of Good Roads district No. 3, which is in the Lenville area, the south two-thirds of Highway District No. 1, Good Roads District No. 2, Highway District No. 2 and the Genesee-Rimrock district.

Art Johnson of Road District No. 3 at Deary, reported that his area is isolated and inconvenient for consolidation. Four miles of state highway between Deary and Bovill make it infeasible for the merger of the two into one district.

At the present time the Bovill highway district is in good shape with enough equipment to take care of the small amount of highway distances in their area. They are not interested in a consolidation movement, it was reported.

Troy road commissioners said that they were operating satisfactorily at the present time. The consolidation of the five districts would not adversely affect them, they said. — Daily Idahonian, Moscow.

Local On All-Star Team

A meeting of coaches and Gridiron Club members was held some two weeks ago at the Bannock Hotel, Boise, to work out plans for the 1953 High School All-Star Basketball games. This year there will be three games played between the East and West teams. The first game is to be played at Pocatello, Aug. 20; the second game at Idaho Falls, Aug. 21, and the final game at Jerome, Aug. 22nd. All three games are to be played in the evenings.

The Bengal Gridiron Club is sponsoring all three games and plans are now under way to promote the event this year to the largest and most successful since it has been staged. No effort is being spared to arrange a half-time activity that will be a real attraction in itself.

The coach for the East team will be Francis Clark of Idaho Falls, and the West coach is Cris Leston of Aberdeen.

Included on the East team will be found the names of Richard Gillispie of Moscow; Kenneth Kinzer of Genesee; Don Denner of Juliaetta; Jim Wicks of Lewiston; Fred Baines of Payette; Duane Peppy and Max Goin of Nampa; Gary Moore of New Plymouth; George Milions of Kellogg; Billy Johnson of Wallace and Larry Barnes and Archie Russell of Coeur d'Alene.

New Daughter

Mr. and Mrs. Richard Burnham of Culeasac are the parents of a 7-lb. daughter, born to them Wednesday morning, Aug. 5, at the Davidson Nursing Home, Kendrick.

Mrs. Waldo Russell Dies

Word has been received of the death of Mrs. Waldo Russell at Vancouver, Wash., on July 14, 1953.

Mrs. Russell was born at Southwick, Idaho, October 4, 1904.

Funeral services were held at the Stoller Memorial Chapel, Vancouver, Wash., at 2:00 p. m., July 17, with the Rev. Harold Hoover bringing the message.

Music was furnished by Miss Arlene Rieckers, who sang "The Old Rugged Cross," and "Beautiful Garden of Prayer," accompanied at the organ by Mrs. Lucille Johnston.

Survivors are her husband, Waldo Gene; a son, Dale; a daughter, Mrs. Ina Jean Dixon; her mother, Mrs. Nancy Holmes; brothers, Frank and Herbert Holmes; and Ronald Malcolm; a sister, Mrs. Ella Roberts; two grandsons, James Arley Russell and Glen Dixon.

Mrs. Russell was a daughter of Mr. and Mrs. J. H. Holmes of Southwick and her aunt is Mrs. Hattie Southwick, all of Southwick.

1952 FOREST FIRE STATISTICS RELEASED THIS MONTH

Missoula, Mont., Aug. 1 — The U. S. Department of Agriculture has just released the annual compilation of Forest Fire Statistics for the calendar year 1952. Cooperating in this release are the U. S. Forestry Service, Soil Conservation Service, the Department of Interior, Tennessee Valley Authority, and cooperating states and fire fighting agencies.

Estimates on fire damage have been omitted from the compilation this year because of the doubtful character of such estimates. The figures are shown separately by the individual states reporting and totals are given for certain geographical groups of states. The tabulation is prepared in three sections: Summary of Forest Fire Statistics for 1952; Number of Forest Fires by Cause and Size, and Areas Burned.

During the calendar year of 1952, Montana, with approximately 25,129,000 forested acres had a total of 681 fires, 392 on federally owned land, 289 on state and privately owned land. Lightning was responsible for the greatest number of fires, 371. Campers and smokers were responsible for 185. Average burned area per fire was 7.4 acres. Altogether, 5,007 forested acres were burned over in the state of Montana during the calendar year of 1952.

The state of Idaho, with approximately 29,080,000 forested acres had 1,300 fires during the same period; 682 on federally owned land; 618 on state and privately owned land. Lightning caused 798 fires, and campers and smokers caused 251. Average burned area per fire was approximately 26.3 acres. Altogether, 34,141 forested acres were burned over in that state.

The state of Washington, with approximately 25,202,000 forested acres had a total of 2,207 fires; 363 on federally owned land; 1,844 on state and privately owned land. Lightning was responsible for only 263 fires, but campers and smokers were responsible for 747. Average burned area per fire was 18.1 acres and some 39,977 forested acres were burned over.

Nationally, on approximately 639,493,000 forested acres the burned-over figures stand at 14,187,324 acres of which 13,906,459 were state and privately owned. The national figure stands at 188,277 fires, of which 178,643 were on state and privately owned forested acreages.

The fire season during the calendar year 1952 was much longer than normal and continued until broken by rain at the end of October.

Rain Is Badly Needed

Rain, and a good one, is badly needed in this area particularly by bean and spring wheat raisers, and unless it falls soon it will come too late to be of much benefit.

During the entire month of July no rain fell, and there was day after day of 90 degree temperature, and several hot winds, which tended to dry out the ground, despite the extremely high moisture content with which July began.

Last Sunday, August 2, the Kendrick area was visited with a brief, but heavy dust storm, one which sent housewives scurrying to close windows and otherwise protect home furnishings.

Monday evening, following an unusually sultry day, during which not a breath of air stirred, and leaves hung droopily on the trees and shrubs, rain began falling about 6 o'clock, in the form of a light drizzle, which later turned into a brief rain storm, only enough moisture falling to clear the air and wash dust off trees however.

School Lunch Canning

Raspberry canning bees were held recently for the school Hot Lunch program — as follows:

Twenty quarts donated by Mrs. George Havens and Mrs. Walter Bencoter. Workers on these were Mrs. Kirk Wilson, Mrs. Bruce Wilson and daughter Wilma, Mrs. Walter Bencoter and Mrs. E. M. White.

Fifty quarts of raspberries were processed and donated by the Roy Glenn family — also six quarts of dewberries.

Seventeen quarts of raspberry jam were donated by Mrs. John Blankenship and Mrs. Emil Silflow.

Eleven quarts of raspberry jam were donated by Mrs. George Havens. Those picking and preparing this were Mrs. Jesse Mizer and son Farrel, Jeanette and Tommy Rowden, Norla Callison and son Bobby and Mrs. Ed. Nelson.

INTERESTING HAPPENINGS IN THE LINDEN AREA

Gil Erlevine's aunt and cousins, Mrs. Bertha Ogard from Alhambra, Calif.; Rex Ogard of Fremont, Neb., and Mr. and Mrs. Frank Ogard of Bridgeport, Neb., arrived on July 25 for a visit in the Erlevine home. They departed on Monday, Aug. 3, for their respective homes.

The Erlevine and Ogard families picnicked on Breakfast Creek Thursday.

Mr. and Mrs. Newt Morey and sons of Big Bear ridge were Sunday dinner guests of Mr. and Mrs. Dan Kechter and family. Mr. and Mrs. Harley Perryman and son Gene and Clarence Morey were afternoon callers.

Mr. and Mrs. Phil Bahr were Monday callers in the Bill Zimmerman home.

Mr. and Mrs. Elmer Browleit and baby of Colfax, Wn., were Sunday guests of her parents, Mr. and Mrs. Al Pederson, Douglas and Jerry Pederson returned home with the Brownlets for a couple of weeks visit.

Mr. and Mrs. Vernon Snyder and baby son of Lewiston were week-end guests of Mr. and Mrs. Bill Zimmerman. Mr. and Mrs. Ernest Grim were also Sunday dinner guests.

Gene Foster of Kendrick is helping in the beans at the Arley Allen farm this week.

John Gentry of Weiser, Idaho, was a Wednesday over-night guest in the Jim Holt home. Thursday evening he, with Mr. and Mrs. James Holt, attended the wedding of Jackie Florence and John Zentz at Clarkston.

Mr. and Mrs. George Lyons drove to Spokane to stay over-night with her parents, Mr. and Mrs. Fred Baever and to meet relatives from Kansas. On their return they brought three of the Dan Lyons children with them, to visit in the F. C. Lyons home.

Mr. and Mrs. Dan Lyons and two children of Spokane, arrived Tuesday for a short visit at the F. C. Lyons home. They returned home Wednesday, taking Joella, Mary Alice and Danny, who had been here the past two weeks.

Mr. and Mrs. Alva Craig and family attended a family reunion picnic at Kendrick, Sunday, honoring Mr. and Mrs. Don Riley of Chicago, Ill.

Mrs. Duane Cox and son and Mrs. Dustin Keown of Richland, Wash., were Sunday over-night guests of Mr. and Mrs. Ray Cuddy and son Elmer.

Mrs. Joe Michels and daughters of Dayton, Wash., spent the past week in the Louis Alexander home, while Mrs. Louis Alexander visited her sister, Mrs. Earl Dunham and family at Walla Walla.

Mrs. Adolph Swenson of Lewiston spent last week here with her son-in-law and daughter, Mr. and Mrs. Bill Zimmerman and family.

Gary, Shirley and Dale McAlister, Douglas and Jerome Pederson, Ricky Alexander, Lois and Eunice Norbo returned home Friday night from the American Sunday School Camp at Newman Lake, Wash. They had been away a week.

Michael and Pat Morey of Big Bear ridge were Sunday and Monday night guests in the Harley Perryman home.

Clarence Morey of Big Bear ridge was a Sunday dinner guest of Mr. and Mrs. Harley Perryman.

Mrs. Geo. Lyons entertained in honor of Master Charles Lyons birthday anniversary Friday afternoon. Guests were the Ted Weaver children and the Dan Lyons children, the latter of Spokane.

Mr. and Mrs. Harley Perryman and son Gene were Spokane visitors on Wednesday.

Dick Cuddy is visiting his grandmother, Mrs. Lettie Israel, in Kendrick this week.

Clem and George Lyons drove to Garfield, Wn., last week to get a combine; they had purchased there.

The Friendly Neighborhood Club will meet with Mrs. Marlon Souders on Wednesday afternoon. Mrs. F. C. Lyons will lead the discussion on "Am I Well Groomed?"

Nearly everyone in this neighborhood has been to Three Bear huckleberrying during the past two weeks. All report they had good luck, though patches were rather inconsistent.

The rain here on Monday night was most welcome — and it surely settled the dust.

Fire Plug Knocked Over

Sunday afternoon the fire plug on the street between the J. G. Travis residence and the Ben P. Cook planing mill and cabinet works was hit by a pickup truck driven by Carl Mattoon. The plug gave in its base, laying on its side, but did not break and no water was lost.

As we understand it, Mr. Mattoon was hauling a "painter's board" in the back. This fell out, causing quite a loud noise, he turned his head to see what had happened, and evidently turned the wheel at the same time, hitting and knocking over the plug.

Only superficial damage was inflicted on the pickup.

Paving Is Extended

Friday of last week a Lewiston paving concern was busily engaged in widening the oiled surface of Main Street and two of the side streets in Kendrick where curbing had been removed to bring the street to the sidewalk's edge.

Following the curbing removal and widening of the street, the ground thus gained was filled with crushed rock and allowed to settle to give a firm basis for the paving.

THURBER'S

SOUTHWICK NEWS

King home were Mr. and Mrs. Claude King and Sammy May of Cavendish, and Monday night guests were also Mr. and Mrs. Claude King and Sammy and Mrs. Iva May, the latter of Lewiston.

Visitors at the Milton Benjamin home over the week-end were Mr. and Mrs. Ronald Benjamin of Clarkston; Mr. and Mrs. James Townsend and daughters of Clarkston, and Mr. and Mrs. Glenn Daggett and son Quentin of Lewiston.

Mr. and Mrs. Verlin Benjamin left Monday for Yakima, Wash. They will help the new minister, the Rev. Martin Sweeney and family move their household goods here. The ladies of the church met Monday at the parsonage to prepare the home for the new family.

Eugene Hanks of Lewiston spent the week-end with his grandparents, Mr. and Mrs. Howard Southwick, while his parents, Mr. and Mrs. Edwin Hanks, were on a fishing trip to Kelly Fork.

Mr. and Mrs. Russell Perkins left Tuesday for a several days' trip to Enterprise, Wallawa, Pedleton, and other Oregon cities for a vacation.

T. B. Murray Resigns

State fish and game commission chairman Norman F. Raymer, has announced the appointment of Ross Leonard of Salt Lake City, Utah, as Idaho Fish and Game department director to succeed T. B. Murray, who has resigned.

Leonard is a graduate of the Utah State Agricultural College; taught school in Emery county school district and served a two-year term as mayor of Huntington City. He served a short term in the United States Border Patrol and in 1942 was appointed director of the Utah Fish and Game department.

Serving as a director of that department until 1948, Mr. Leonard resigned to accept a position as the western representative of the Wildlife Management Institute, the position he now holds.

During his time with the Institute Mr. Leonard worked on surveys of organizations, laws and programs in eight western states.

He has studied wildlife conditions of all the western states as well as some of the eastern and southern ones.

"Since I have worked on a detailed study of the problems of Idaho, I feel that I have an advantage in that I would not have to spend a great deal of time in getting acquainted with the general program of the department," Leonard said. "I am already acquainted with a number of the employees and will be able to proceed toward the established and desired objectives without delay."

Fire Season Now On

Local residents — picnickers, fishermen, campers, are reminded today by Henry Jones, district deputy state fire warden, that the fire season is now on in earnest — and extreme care must be used at all times.

Permits for burning are no longer being issued and violators will be prosecuted to the limit.

When in the woods do not build any camp fires — or smoke — except at designated camping spots, and then use every precaution. Make sure all duff, limbs, etc., are cleared away well beyond the fire area, and when you leave camp, extinguish every spark with water — don't just "stamp it out."

Too, when going into the woods always carry a shovel, bucket and axe with you — it's good insurance.

Mr. Jones said that to date no woods areas had yet been closed — and unless fire readings increased, there was no immediate prospect of this action. He added, however, that carelessness was a "must" if all were to enjoy the woods.

Ten Special Elk Hunts

Idaho elk hunters will have a choice of ten special elk hunts offering 2,500 permits for the 1953 season, but were advised this week by the Fish and Game department to make application early, since the deadline for these will be noon, Aug. 17th.

Permit fee for all special elk hunts is \$5.00 but hunters are required to buy their own tag for \$2.00. Application blanks and 1953 big game hunting maps may be obtained at license vendors throughout the state.

Having a permit for a previous hunt is no bar for the 1953 hunt drawings.

The department further informed applicants to remit a separate check or money order and a self-addressed envelope with each application except group applications. One check or money order is sufficient for this category. Do not send cash or coin.

Family Dinner

Mr. and Mrs. Oney Walker of Lapwai and Mr. and Mrs. Jesse Walker of Myrtle were hosts and hostesses at a fish fry in the Spalding park Friday evening. The following members of their families were present:

Mr. and Mrs. Clifford Walker and family of Gooding; Mr. and Mrs. Orval Walker and family of Clarkston; Mr. and Mrs. Lyle Walker and daughter; Leo Walker, Myrtle, and Mrs. R. E. Woody, Juliaetta.

The Messrs. Oney, Jesse and Clifford Walker and Mrs. Woody are brothers and sister.

Showing Steady Improvement

Latest word from Mrs. Allen Medalen, who has been ill for many months, is that she is showing steady improvement, and the doctor has given her permission to be on her feet for a short time each day. She can now come to the table for her meals.

Souders Home Painted

The home of Mr. and Mrs. Burton Souders Sr., in the west part of town, has just received a coat of gleaming white paint at the hands of Carl Mattoon.

Enhanced by beautiful flowers and lawn the home is indeed a pretty place.

Be sure to take some fried rabbit on your week-end out. It's delicious. See your grocer.

PERSONAL MENTION

Mrs. A. O. Kanikkeberg and Mrs. Nora Callison left Monday for Seattle, where they will attend a district conference of the Methodist W. S. C. S. Mrs. Callison is the district officer for Missionary Education, and Mrs. Kanikkeberg is the local officer for that office.

Mrs. Jo Watts of Spokane visited in the W. A. Watts home several days of last week.

John Glenn and Roy Glenn spent most of last week on a fishing trip. We understand their luck was "fair." Mr. and Mrs. Theodore Deobald and daughters of Richland, Wash., spent last week-end here in the homes of their parents, Mr. and Mrs. E. A. Deobald and Mr. and Mrs. E. M. White and family. Ann White, who had spent the last ten days in their home visiting them, returned with them here.

Mr. and Mrs. Jack Travis and grandson Donnie Travis returned last Saturday from a three-week vacation trip which took them into Canada, as well as several western states. While away they visited her brother, Melvin Hagen in British Columbia; another brother, Melvin Tarriff, at Calgary; visited Banff and Lake Louise, with relatives at Medicine Hat; another brother, Herman Hagen at Lethbridge, Canada, then came back through Great Falls, Mont., into Yellowstone Park; Wyoming, etc. They report a most enjoyable time.

Mr. and Mrs. Reuben Meyer and little daughter (nee Glynns Thornton) of Lincoln, Nebraska, called at the home of Mr. and Mrs. John Darby Sunday evening.

Mr. and Mrs. Walter McCall, Mr. and Mrs. James Farrington and Mr. and Mrs. Dick McCall spent Sunday huckleberrying in the Pierce area. They reported "fair" luck.

Mr. and Mrs. Cecil Choate and Vern Choate returned Monday from a five-day fishing trip in the Salmon river area. They reported good fishing and their catch will be displayed in the Variety Store window Saturday.

Mr. and Mrs. Clarence Dougharty have received word that their recent house guests, Mr. and Mrs. Carl Kinzer, arrived at their home in Miami, Florida, on July 23. Their most unusual experience was being at Anchorage, Alaska, when the volcanoes were in eruption.

Mr. and Mrs. George White of Lewiston spent Monday at the Clarence Dougharty home, Mr. White helping to get the combine ready for harvesting.

Mrs. Goldie Martin of Joplin, Mo., and Mr. and Mrs. George Davis of Veradale, Wash., brought a lunch with them Saturday and spent the day with Mr. and Mrs. Cecil Babcock. When they left for Spokane that evening the Babcocks accompanied them to that city, returning home Tuesday. Mrs. Martin is an aunt of Mrs. Babcock, and it was the first time they had seen each other for 23 years. Mrs. Davis is a cousin.

Mr. and Mrs. Dick Cuddy and Mr. and Mrs. Ross Armitage and son Jerry and niece Kathleen Armitage, who is visiting here from Clarkston, picked huckleberries at Long Meadow and Three Bear, Sunday.

Mrs. Lettie Israel and sons Marlin and Don called at the C. E. Harris home Sunday.

Mr. and Mrs. Dick Fry and children and Mrs. C. H. Fry were dinner guests in the Don Johnston home at Lenore Saturday evening.

Mr. and Mrs. Earl Harris and daughters of Avery were week-end guests in the C. E. Harris home. Mrs. Earl Harris and daughters remained to spend this week visiting other relatives and friends.

Mr. and Mrs. Lyle Strohm of Tacoma and Mrs. Lila Strohm of Troy spent Tuesday evening in the C. E. Harris home.

Richard Johnston came down from Spokane Saturday and took his wife and daughters back to Spokane, where they will make their home. They have been at the home of her parents, Mr. and Mrs. L. D. Crocker for the past several weeks.

Mrs. Harry Langdon, Lewiston, was in town Tuesday and Wednesday, visiting with Mrs. Ida McAllister.

Mr. and Mrs. E. A. Deobald and Mr. and Mrs. Otto Schupfer were huckleberrying in the Bovill area Wednesday. We did not learn their luck.

AMERICAN RIDGE NEWS

Todd Nelson, son of Mr. and Mrs. Bob Nelson, is ill with virus pneumonia, but is recovering satisfactorily.

Friday Mr. and Mrs. Bob Nelson took his sister, Mrs. Ethel DeHaven back to Moscow, after she had visited in their home the past three weeks.

Mr. and Mrs. Jack Odem and Mrs. Charles Carr, Lewiston, and Mr. and Mrs. Milton Odem and daughter Jackie of Redmond, Oregon, were Friday evening supper guests of Mr. and Mrs. Frankie Bencoter.

Mr. and Mrs. Lawrence Heimgartner and family were supper guests last Wednesday evening in the Geo. Havens home.

Mr. and Mrs. George White and family of Lewiston were Monday evening visitors in the home of Mr. and Mrs. Frankie Bencoter.

Ira Havens was a supper guest Tuesday evening in the L. D. Crocker home, honoring David Crocker's 19th birthday anniversary.

Grangers Meet

The regular meeting of the Kendrick Grange was held Tuesday evening with 29 members present. Principal item of business was a discussion of a proposed booth for the Latah County Fair.

The group voted to have no meeting August 18.

Refreshments were served in the banquet room to close the session.

Resigns At Village Custodian William Bamberry, village custodian for the past several years, tendered his resignation at the meeting of the Village Board Tuesday evening of this week.

To date we understand no one has been employed to take his place, as it is felt Mr. Bamberry may reconsider.

DAVE SAYS:

KEEP THOSE INSECTS AWAY WITH 6-12 LIQUID REPELLENT AND TICK'S-OFF PRESSURE SPRAY. NON-IRRITATING TO THE SKIN AND VERY EFFECTIVE.

As Practical As Potatoes
Throughout the nation, chambers of commerce, civic organizations, banks and other groups are actively engaged in seeking to bring more industry to their communities. They want the spending and the employment that come with expanded industrial activity.

This is a perfectly natural and desirable state of affairs. However, in rural sections of the nation, there is another and equally important possibility which is generally overlooked.

That is to work for improvement, in a scientific and orderly manner, of farm production. If, for instance, any region's farm output and farm income could be raised by 20 to 25 percent the beneficial effects would be felt by everyone. And this would be of lasting service to the country as a whole, which must face the problem of feeding a swiftly growing population from a fixed land area.

Greatly increased farm production is no impossible deal — it is as practical as a sack of potatoes. It can

600,000 4-H'ers Say "Let's Help Correct Safety Hazards"

Chicago—(Special)—The largest volunteer army ever organized for a peaceful mission is now "invading" farms and rural communities throughout the Nation. It consists of more than 600,000 4-H Club boys and girls whose objective is to show rural folk how to prevent accidents, and fires which result in 14,000 deaths and 1 1/2 million injuries among farm people, as well as destruction of millions of dollars' worth of buildings and equipment annually.

Falls account for 36 percent of all fatal accidents in farm homes and 19 percent outside. More than 50 percent of all fatal accidents in working with farm machinery involve tractors, and overturning accounts for more than half of the tractor accident fatalities.

Safety experts give considerable credit to the contributions made by 4-H'ers for the reduction of one-fifth in the number of fatal accidents to farm people in 1951—the last year for which estimates are available—from the estimated annual rate in 1941, the first year of the National Farm Safety Week, which will be observed this year July 19-25.

Illustrative of the 4-H'ers do "approach" to the accident problem, a Tennessee club girl reported that she picked up broken glass, rusty nails protruding from boards, and other sharp articles in the farm lot; helped her father and brother become safety conscious in working with farm machinery; had a ladder with two broken rungs repaired; per-

sued her mother to use a step-ladder in reaching high places in the house, and to always wipe up grease or water immediately if it is spilled on the floor.

A Texas 4-H boy reports that their farm tractor often was filled with gasoline to overflowing when the engine was warm. He called this unsafe practice to the attention of his father and brother and now the tractor is filled correctly. His small brothers frequently asked to ride on the tractor, but this safety enthusiast taught them to understand how hazardous it was to hitchhike a ride on a tractor.

Similar reports of the 4-H'ers participating in the National 4-H Safety program are legion. Instead of using "don't" admonitions, expressions such as "Let's Correct This Hazard" prevail.

Outstanding 4-H records of achievement in safety are rewarded with awards provided by General Motors for the ninth consecutive year. They include sterling silver medals for the blue award group in each qualifying county, and an all-expense trip to the National 4-H Club Congress in Chicago next November for the state winner. Six state winners will be chosen to receive a national award, which is a \$300 college scholarship. A handsome plaque, appropriately embossed, will be awarded to the county reporting the most outstanding county-wide 4-H safety program.

The National 4-H Safety program is conducted under the direction of the Cooperative Extension Service.

Water Supply Vital In Farm Fire Control Annual Damage Amounts To Over \$100 Million

Recently a New Jersey farmer's barn was set afire by lightning, and despite the efforts of three fire departments from nearby villages, the barn was a complete loss.

Two factors combined to defeat the firemen. There was a delay in notifying the fire department because the fire wasn't immediately noticed. There wasn't a good supply of water near the barn from which the pumpers could draw.

These conditions are common to most properties in rural or small town areas. If rural residents can find means to correct them, they

No water. There is not much these firemen could do to save the barn without an adequate water supply.

will go a long way toward reducing the large number of "total losses" that occur on farm properties, causing damage amounting to \$100,000,000 a year and taking the lives of 3,500 farm residents.

In spite of efforts on the part of county agents, farm groups, insurance men, and volunteer fire departments to encourage the building of farm ponds, there still are thousands of farms in all parts of the country with inadequate water supplies.

The easiest way to provide adequate water is to dam a brook, or deepen an existing marsh or water hole near the barn. Or a farmer may be able to bulldoze a suitable pond near his buildings. For proper drainage, the pond should be laid out with surveying instruments.

Helium Effect on Living Organism Reported at U.C.

Helium, argon and possibly other inert gases—gases which do not combine chemically with other elements—are far from inert in their effect on living organisms.

This is reported by Dr. S. F. Cook, professor of physiology in the University of California school of medicine.

Dr. Cook has completed experiments in which he studied the reactions of small animals living in an artificial atmosphere consisting of oxygen and helium or of oxygen and argon.

The artificial atmosphere contained the same amount of oxygen found in the normal earth's atmosphere—about 20 per cent. But nitrogen, which forms nearly all of the remaining 80 per cent of the earth's atmosphere, was removed and the inert gas substituted in this same proportion. The ordinary atmospheric pressure of sea level was maintained.

When helium was used in such an atmosphere, the physiological processes of mealworms, lizards and mice were markedly changed. Similar, but less marked, changes were observed when argon was used.

The principle effects of the two gases were retardation of growth in the animals and an increase in the metabolic rate—a stepping up of the pace of work done by the body in the living process.

The research indicates that it may be useful to substitute helium for nitrogen in air used by men working in some tunnels, underwater construction projects, and some other conditions of high pressure.

Hard Pad Canine Disease Gives Dog Owners Scare

A serious distemper-like infection that leads to hardening of the foot pads and nose is being seen in American dogs, but there is no evidence that it is a new disease or that it is becoming more prevalent.

Alarming reports from England, where the so-called hard pad condition is reported to be widespread, have made many United States dog lovers overly fearful of the disease.

Thickening, hardening, and peeling of the foot pads and nose sometimes occur in advanced stages of distemper or distemper-like illness, but this condition always is seen in company with other symptoms—never alone.

Among theories as to the cause are:

- (1) The canine distemper virus may undergo a change, under certain conditions, that causes it to produce symptoms that differ from those seen in typical distemper cases. "Hard pad" may be one of the symptoms so produced.
- (2) In some cases, the pure distemper virus—which causes fever, respiratory distress, and diarrhea—may be accompanied by a second virus that brings on the changes in foot pads and nose.
- (3) The severe illness caused by distemper or complicated distemper can lead to a temporary nutritional deficiency and loss of body fluids that may account for the thickening and hardening.

Immunization with biological products is the best means of preventing distemper and the hard pad condition.

New Course in Science

A revolutionary approach to the teaching of science which combines all the sciences in a single course emphasizing their relationship to man was described to the 118th national meeting of the American chemical society held in Chicago, by Dr. John Xan, head of the department of chemistry of Howard college, in Birmingham, Ala. Taught without a text, the course is designed to give students a broad acquaintance with the modern scientific world and an effort is made to stimulate their interest in scientific discoveries and periodicals by basing examinations mainly on knowledge acquired outside the classroom, Dr. Xan reported. Ninety to 95 per cent of students finishing the combined general science course have voted for it in preference to the conventional type of science course.

"Candling" Eggs

Candling is used on practically all eggs before they reach the stores. An electric light is placed inside a box with a hole about the size of an egg, in which the egg is placed. In a darkened room, with some practice, it is possible to detect cracks, blood spots, developing germ and the size of the air cell. The latter is the most important criterion of freshness because it gets larger as moisture escapes and is replaced by air. By comparing a few eggs known to be fresh with others that are older, one may learn how to judge the size of the air cell and the age.

Changing "Hand-Me-Downs"

Giving "hand-me-downs" a new and different color via the dye-bath is one sure way of getting little sister or brother to wear them without resentment. Adding a hem, collar or belt will still further accentuate the "new look." Wash and thoroughly rinse all articles before dyeing, and also remove buttons, buckles and trimmings. Use color remover first, the bureau counsels, when the article is unevenly faded or spotted and when changing to a different color.

'Sound of Corn Growing' Recorded by Professor

Probably every farmer in the United States at one time or another has heard the old saw "it's so hot you can almost hear the corn growing." Now, seven men, including three University of Wisconsin experts, have joined the ranks of believers.

They have a tape recording of what they describe as corn growing. Herbert Jacobs, telegraph and farm news editor of the Madison Capital Times, thought up the idea. With the aid of Wisconsin U. experts the experiment was conducted in a 100-acre stand of university raised corn.

Recording equipment was carried 500 feet into the field. Microphones were carried deep into the corn rows. There was no wind or other noises to complicate the recording, the experimenter reported.

When the experiment was over and the recording played, Verner E. Suomi, associate professor of meteorology at the school, said, "When background noises subsided, you could hear that corn growing."

Farm experts report corn makes 80 per cent of its growth during night-time and will grow as much as two to five inches in one night.

Hinged Fence

Here is an idea a number of Midwest farmers might use in their feed lots. Hinged at the bottom and held in position by chains, a section of fence is lowered to form a manger. It can be raised when not in use to become again part of the fence. Posts should be set along the length of the manger as illustrated.

Farm Land Prices Up Sharply in Nebraska

Farm land dollar values in Nebraska have increased 124 per cent since 1939, according to figures of the bureau of agricultural economics. In the west north central region of the country, of which Nebraska is a part, prices have increased 3 per cent during the four months ending in July. This despite the usual seasonal reduction in farm real estate activity and a downturn in farm products.

NOTICE OF SPECIAL MUNICIPAL BOND ELECTION

Pursuant to the laws of the State of Idaho and pursuant to Ordinance No. 105 of the Village of Juliaetta, Latah County, Idaho, PUBLIC NOTICE IS HEREBY GIVEN, that a special municipal bond election will be held in the Village of Juliaetta, Latah County, Idaho, at the voting place hereinafter designated, on the 15th day of September, A. D. 1953, beginning at the hour of 9 o'clock A. M. and closing at the hour of 7 o'clock P. M. of said day, for the purpose of taking a vote of the qualified electors of the Village of Juliaetta, Latah County, Idaho, who are taxpayers of said Village, upon the following question, to-wit:

"Shall the Village of Juliaetta, Latah County, Idaho, issue negotiable coupon bonds in the amount of \$7,000.00 to provide funds with which to construct, reconstruct, enlarge, extend, repair, alter, and improve the water works system and plant of the Village of Juliaetta, by purchasing the necessary materials, installing a pumping plant, constructing, reconstructing and improving the water storage plant and water distribution system of the Village of Juliaetta, Idaho, as prescribed by Village Ordinance No. 105, approved the 27th day of July, 1953." Said election shall be held in the Village of Juliaetta, Latah County, Idaho, and a vote upon said question taken within said Village, and the Village Hall of said Village of Juliaetta has been and is the designated voting place for said election.

NOTICE IS HEREBY FURTHER GIVEN, that each and every person, in order to vote at said election, is required to register, as provided by the laws of the State of Idaho.

N. I. Uhlenkott, Village Clerk, office at Village Hall, is ex-officio registrar of the Village of Juliaetta, Latah County, Idaho, and the person with whom all voters must register in order to vote at said election.

Persons may register at any time during office hours beginning with the day that the notice election is given, and each day thereafter until and including the Saturday next preceding the election, and on Thursday, Friday and Saturday next preceding said election persons may register between the hours of 9 o'clock A. M. and 5 o'clock P. M. and between the hours of 7 o'clock P. M. and 9 o'clock P. M.

The voting at said election shall be by ballot. The ballot to be supplied to the voters for their use at said election shall be in the form set forth in Ordinance No. 105.

Dated at Juliaetta, Idaho, this 31st day of July, 1953.

N. I. UHLENKOTT
Village Clerk, Village of
Juliaetta, Idaho

First pub. Aug. 6, 1953.

Inland Empire Electrical League

Foresee Billion Barrels Jet Fuel from Oil Shale

Jet engine fuel by the billions of barrels can be produced from the Green river oil shale formation in northwestern Colorado, Dr. J. D. Lankford, acting chief, of the United States bureau of mines oil-shale demonstration plant in Rifle, Colo., reports.

Low cost oil shale mining already has been found feasible, Dr. Lankford says, and he predicts that the present trickle of 100 to 300 barrels of gasoline and Diesel fuel from the formation will become a mighty torrent as techniques improve.

"It is estimated that 88 volume per cent of the crude shale oil could be converted into a hydrogenated product containing a premium Diesel oil and a high-quality jet fuel practically free of sulfur, oxygen and nitrogen compounds," Dr. Lankford stated. "If desired, the hydrogenated material could be converted easily to gasoline by standard petroleum refining processes."

"The United States bureau of mines oil-shale demonstration plant at Rifle, Colo., is engaged in an integrated research and experimental program to point the way toward the development of a tremendous natural resource, oil shale, for possible wartime emergency and for the ultimate peacetime production of liquid fuels by private industry."

"Billions of barrels of liquid fuels are potentially available from the oil shale of the Green river formation of northwestern Colorado. Research and development work will be necessary over an extended period of time to bring this great natural resource to the stage where utilization will be possible."

Five-Grass Mixture Popular in Indiana

Pays Off in Higher Quality Hay, Pasture

Farmers in 12 northeastern Indiana counties swear by a 5-grass mixture that pays off in extra tons of high quality hay and pasture.

The combination includes timothy, brome, red clover, Ladino clover and alfalfa, reports Walter Rusk, county agent of Huntington county. This legume-grass combination, he said, could profitably be used by farmers in other states.

When plenty of fertilizer carrying nitrogen, phosphate and potash is used at seeding time and plant nutrients are top-dressed each year, this 5-grass mixture has yielded as much as 3 tons of hay at the first

Five acres of the 5-grass mixture on the Norman Thompson farm near Huntington, Indiana.

cutting on many farms. One farmer in the area insists that 5 acres of the mixture provides more forage than he previously got from about 60 acres of pasture.

Norman Thompson, who farms near Huntington, Indiana, reports that he grazed 27 head of cattle, including 16 milk cows and 11 calves, as well as 100 small pigs and 18 sows for 5 weeks on a 5-acre pasture seeded to the 5-grass mixture.

Rusk points out that the well fertilized legume-grass mixture is doing an important soil building job, besides giving farmers a preferred position in forage supplies. The tap-roots of the legumes drill down deep to keep the soil open and well ventilated. They add organic matter to improve the soil's tilth and drainage. Large quantities of organic matter in the soil mean increased water-holding capacity. They also make it possible to get the best possible efficiency out of every ton of fertilizer used.

Improved Ever-Bearing Strawberry Developed

Strawberries from your garden from June to October are possible with the new, improved ever-bearing strains. Although the biggest crop comes from mid-to-late June, plants will continue to produce enough for breakfast cereal and dinner desserts until frost arrives.

Planting should be done as early in the spring as possible. Said to thrive in any type of soil, is a new high-yielding variety developed by plant breeders of the Westerhauser Nurseries of Sawyer, Michigan. Called the "20th Century", this ever-bearing type is said to fruit in about 60 days and produce large, sweet, full-flavored berries all season long.

Seasoned gardeners recommend picking off the first blossoms so as to enable the roots to develop plenty of strength. They point out that while you may lose the first few fruits, you will gain in much bigger yields later in the summer.

Seasoned gardeners recommend picking off the first blossoms so as to enable the roots to develop plenty of strength. They point out that while you may lose the first few fruits, you will gain in much bigger yields later in the summer.

Origin of April's Fool

It was the habit of observing July as the beginning of the year that is said to have started the whole idea of All Fools' Day. From its reputed origin in France, it quickly spread to other countries. We have such varied terms as the English "noddies, gawbies and April gobs," the French "April Fish," and the Scottish "April Gowks." While there are other theories about April Fool's day, the calendar story located by research librarians with Childcraft seems that when King Charles XI of France adopted the reform calendar in 1564, many Frenchmen refused to go along with the new January 1 New Year's. When they continued to celebrate on July 1, they were made the butt of countless jokes—receiving mock party invitations, fake gifts, and pretended ceremonious visits of congratulation.

United Nation's Building

Along the banks of East river on the Island of Manhattan between 42nd and 48th streets the Secretariat building of the United Nations is towering to the sky as workmen are rushing it to completion so that it can be occupied before the end of the present year. The structure will be 39 stories high. It is one of four units that will complete the headquarters as a "workshop for world peace." Contracts for the other three units have not yet been let but it is believed they will be completed during 1951.

Suggestion for Farmers

The average farmer spends 50 per cent of his time around the farmstead. This can be materially reduced by piping water to the point of use rather than carrying it. For example, consider what carrying water to a flock of laying hens involves. If the water point is 60 yards from the hen house, as it is on many farms, the farmer will carry approximately 10 tons of water a distance of 25 miles per 100 hens per year in addition to walking another 25 miles to the water point.

Mulching Will Not Prevent Freezing Leaves, Grass, Straw Are Good Materials

Even though many gardeners have used mulches for years and are aware of their value, they are not sure of their reasons for mulching. It is not to prevent plants from freezing, as often thought, but to prevent quick freezing and thawing.

It prevents drying out of plant tissues, and freezing and thawing from heaving plants out of the ground. It also prevents plant development too early in the spring when buds might be harmed by late frost.

The gardener looking for mulching materials could try leaves when available in quantity. They

Mulching is nature's way of providing plant protection. Leaves, grass, straw, peat moss and ground corn cobs are all good mulching material.

are satisfactory for perennials borders and beds, rock gardens and around evergreens and shrubs.

Straw is another good material, especially good for strawberry beds. Oat straw is preferred over wheat and others.

Peat Moss is often used and does an excellent job of preventing temperature fluctuations, but has a tendency to crust on top. Grass clippings are good, too, if available in large quantity.

Ground corn cobs have recently come into use as a mulch, especially for roses. This material is reported to also improve the soil by stimulating the growth of microorganisms.

200-240 Pound Hogs Will Bring the Best Price

According to livestock specialists, both underfinished and overfinished hogs are likely to sell at larger-than-usual discounts this fall.

The 1951 pig crop of about 105 million head is the second largest on record, and there no longer is the strong world demand for fats and oils of a year ago. So there will be more fats available and possibly a weaker lard market.

As a result this will mean more price differential for type in live hogs. Hogs that are too heavy or too fat will probably have to take a larger discount than last year.

Specialists believe farmers should feed out hogs now under 180 pounds. Discounts on lightweights are such that farmers can hardly afford not to feed them out.

With so many hogs starting to market, packers can be rather choosy about the type of hog for which they pay top prices. Both underfinished and overfinished animals will sell at a disadvantage. Try to sell as many as possible between 200 and 240 pounds.

Filling Up

Restored pens of the Kansas City stockyards begin to fill up as cattle flow in again after the great flood. More than 20 feet of flood water covered this area. The job of rehabilitation has been hailed as an outstanding feat by livestock men throughout the midwest.

Not less than 12 million pounds of the most valuable part of the beef carcass are trimmed out around grub holes from cattle slaughtered in the U. S., according to livestock specialists. The trimming detracts from the carcass' appearance, resulting in a lower price per pound. It has also been estimated that grubs cause \$20 million damage to hides each year, enough to make a million shoes.

Cattle Grubs Cause Big Meat and Hide Losses

Not less than 12 million pounds of the most valuable part of the beef carcass are trimmed out around grub holes from cattle slaughtered in the U. S., according to livestock specialists. The trimming detracts from the carcass' appearance, resulting in a lower price per pound. It has also been estimated that grubs cause \$20 million damage to hides each year, enough to make a million shoes.

Ask for More Trained Men For Animal Disease Study

Solution to some of the nation's most costly animal disease is being slowed by lack of highly trained research men.

There is urgent need for giving promising young scientists an opportunity to learn the techniques of animal disease investigation. The only way this can be done is by a long range fellowship program.

Such a program has been sponsored by the AVMA for the past six years. Under this program, which will be expanded as funds permit, research-minded graduates of colleges of veterinary medicine get financial aid to engage in animal disease studies at leading scientific institutions. This gives them background and experience needed for unraveling highly complex diseases.

Many livestock and pet owners who ask for "more research to solve disease problems" have given too little thought to how the job might be done.

Finding out what causes a perplexing animal disease isn't much different from tracking down a dangerous criminal, and neither is a job for anyone but a well-trained person.

The Federal Bureau of Investigation would not put a man on any of its cases without first training him in FBI methods. The same advantage should be given to people interested in disease investigation.

Funds for expanding the fellowship project should come from private sources rather than the federal government "because the nation already has gone too far toward dependence on federal hand-outs."

Mastitis Germs Live 5 Days on Broomstick

Harmless though it may look, that broom in the corner of the barn might be the means of starting a new case of bovine mastitis.

The germ responsible for most cases of bovine mastitis can stay alive for as long as 20 days on objects around the barn, and for as long as 26 days anywhere on a cow's skin. From these jumping-off places, the germ can eventually get into a cow's udder, where it starts the disease known as mastitis.

Survival time of the germ was observed after mastitis-infected milk was poured on manure, hair, wood, bricks, udder cloths, and other materials commonly found or used around dairy barns.

The germ stayed alive for 4 days on rubber boots, 5 days on a broom handle, 7 days on an udder-washing cloth, 8 days on a bucket, 13 days on hair, and 20 days on hay. However, when some of these objects were treated with a disinfectant before being smeared with infected milk, the germ didn't do so well. Enough of the disinfectant lingered to cut down the survival time to a day or less.

This research emphasizes the need for clean barns, clean cows, clean attendants, and prompt disinfection of any object that gets splattered with milk.

Use of Columbium

John Winthrop, Jr., who supervised the construction of America's first successful blast furnace at Saugus, Massachusetts, in 1643, found an unidentified rock fragment near his home. About 150 years later, an English chemist, Charles Hackett, saw this fragment in the British museum, analyzed it, and thus discovered the element columbium. Today, this element is playing an increasingly important part in the manufacture of stainless and heat resistant steels for such uses as jet aircraft engines.

Columbium is one of the most recent elements to find use in the steel industry. It was used commercially as an alloy in the 1930's, although experimental work had been done with it as early as 1920. Last year 632,000 pounds of columbium metal was consumed in the manufacture of steel.

Origin of Camouflage

The origin of the word camouflage has, it seems, been lost in the shuffle. One of the stories told in connection with it is that, during the Indian troubles in the Southwest, one Jacques Camou built a circular mud fort. This fort had large square openings at regular intervals around the walls. Through these, the garrison of the fort would fire. As the Indians' shots also found their mark through these openings, Camou painted the entire fort like a checkerboard—with large black squares on a white field. This confused the Indians so they were unable to determine at which dark squares to aim.

Thermal Snow Removal

Thermal snow removal from sidewalks and driveways by means of embedded piping is a new and interesting development in the heating industry. The snow is removed automatically and without effort by the heat from pipe coils installed under the surface of the pavement. Hot water, circulated through the coils, transfers its heat to the pavement, thus melting the snow and keeping the surface dry. Automatic snow removal is economical. There is no necessity for using snow shovels or chemicals. All the owner does is to turn the switch to start the system in operation when the snow begins to fall.

How to get more work from your heavy-duty engines

You can reduce "down time" and save on operating costs by lubricating your diesel and heavy-duty gasoline engines with RPM DELO Heavy Duty Lubricating Oil. Specially compounded, it resists corrosion, prevents the formation of harmful engine deposits, keeps contaminants dispersed and stops foaming of oil in the crankcase.

With RPM DELO Heavy Duty Lubricating Oil keeping engines clean and cutting wear, they will run smoothly, develop more power and do more work. They will stay on the job and need less overhauling. Get RPM DELO Heavy Duty today.

NO "HOUSING" PROBLEMS... with an Amana UPRIGHT FOOD FREEZER

The Amana Upright... the food freezer that grew UP, takes up to 40% less floor space than chest models of similar capacity. So, if space limitations have prevented you from enjoying the tremendous savings on food dollars and the many conveniences of a food freezer, come in and see the wonderful Amana Upright. You'll like the "See-Level" visibility feature... all foods in sight and within easy reach!

BULLETIN!
Amana UPRIGHT FOOD FREEZER PROVED BEST by TEST!

- Independent laboratory tests of the 9 major brands prove conclusively that the Amana Upright freezes large quantities of food faster than all other freezers tested.
- The Amana Upright consumes less electricity.
- It stays more economically than the average of all other freezers tested.

Name Accidentally Omitted
 In reporting the names of those taking swimming lessons who had successfully completed their assigned work, the name of Patricia Mielke, Cameron, was unintentionally omitted from the "Beginners" class. She has received her certificate.

Learning Early
 An editor was interviewing an applicant for the position of proofreader. "I suppose you're aware of the responsibility attached to this job?" he questioned.
 "Oh, yes," replied the applicant. "I know that when you make a mistake, I take the blame."

Picnic supplies of all kinds are in stock at Blewett's Grocery-Market in Kendrick. 1-adv

BIG BEAR RIDGE NEWS

Mr. and Mrs. George S. Moline and daughters, Marianne and Suzanne of Spokane, and Mrs. Slind's mother, Mrs. Wm. Leland, also of Spokane, visited Sunday at the Oscar Slind home. Marianne and Suzanne remained for a longer visit.
 Mrs. Johanna Nelson is attending a reunion honoring an elderly cousin, in Seattle, for a few days.

Maxine Slind returned home Sunday after spending a week assisting Mrs. Edwin Barsness at her home in Polatch, while Rev. Barsness conducted a week of Bible School here.

Mr. and Mrs. Bob Jones and son Ronnie visited at the Ed. Halseth home Sunday. Other visitors were Miss Eunice Woods and brother Charles and daughter "Punky" and their mother, Mrs. Woods, all of Clarkston.

Several from this community went fishing near Bovill, Sunday.
 Jim Burns is drilling for water at the Herb Weber home. We wish them luck.

Vern Dunham and sons joined friends from Kendrick and went fishing over the week-end.

Mrs. Rose Long, Pullman, visited her daughter and family, Mr. and Mrs. Ronald Jones and children, over the week-end.

Mr. and Mrs. Henry Galloway are in the process of building a new home. Ben P. Cook and Walter Sparber are doing the concrete work.

Miss Betty Nelson of San Francisco is spending a two-week vacation with her mother, Mrs. James S. Nelson, Alfred and Effie having returned Sunday to their respective homes, after attending the funeral of their father, James S. Nelson.

Diane Emmett and Karen Nelson spent last week at the Forest home, while attending Bible School here.

Miss Gail Ingle of Seattle, Wash., is visiting her parents, Mr. and Mrs. Leon Ingle.

Pro Team To Be "Loaded"
 Spokane, Aug. 3 — The Green Bay Packers of the National Football league will have their ranks increased by the return of four veterans from the Armed Services. Already favored to win the world's professional title this season, Coach Gene Ronzani said that the veterans would be needed when his team meets the Chicago Cardinals at Spokane's Memorial stadium on Aug. 29, at 8:00 p. m.

Probably the outstanding star to return to the Packer lineup is Clayton Tonnemaker, former all-American and outstanding lineman of the league during the 1950 season. The former Minnesota star plays center on offense and middle linebacker on defense.

In addition to Tonnemaker, the Packers will have Larry Coutre back at halfback and Len Szafaryn as tackles to add to their lineup. Coutre was a leading ground gainer for the Packers in 1950, while Szafaryn was a defensive regular.

Pre-game sales indicate that most good tickets will be sold before the game against the Chicago Cardinals in Spokane, D. D. McHenry, ticket manager, said. Choice seats are still available in all categories, but demand is expected to increase rapidly as game time draws near. Orders should be sent to "Pro Football, Desert Hotel, Spokane, Wash."

Antelope Inn Improved
 The front of the Antelope Inn is now presenting a vastly improved appearance, having just received a new "two-tone" paint job at the hands of Carl Mattson.

The colors used were a soft green and white.

Modern Dentistry Can Aid Youth with Cleft Palate

The role of modern dentistry in the total rehabilitation of young men and women with cleft lip or cleft palate so they can lead happy useful lives is revealed in the Journal of the American dental association.

Asserting that more children are born with this condition than any other congenital deformity, Dr. Herbert K. Cooper, director of the Lancaster, Pa., cleft plate clinic, estimated that at least one out of every 700 children have this handicap.

"The most frequently found condition has been getting the least amount of attention," he said. "The citizens of this country should be as well informed on the subject of cleft palate as they are on poliomyelitis, cerebral palsy and rheumatic fever."

Citing cases of patients treated at the clinic, Dr. Cooper told of a youth, 17, born with a cleft lip and cleft palate. During infancy, surgery had been performed, leaving him with a flat upper lip and very poor speech.

"He shunned all social contacts," Dr. Cooper said. "He left high school and was driving a truck. His whole family was extremely upset."

Dr. Cooper said the youth was given a medical, dental, speech and psychological examination. An appliance was constructed to build out the upper lip and cheeks and thimble crowns were placed on his five remaining upper teeth. At the same time, he was given speech instruction.

The boy was persuaded to finish high school, Dr. Cooper said, and he then was admitted to college. He added:

"The first two years were quite difficult for him because of his social adjustment problem, which he gradually overcame. Then he was taken into a fraternity and was graduated on the dean's list. He is now attending law school in a large university."

U.S. Still Leads World In Production of Matches

It's pretty difficult to get something for nothing these days, but there's one item left that is used by the average person 14 times a day, and two out of five times he doesn't have to pay. That little item is the match.

The manufacture of matches is a \$25 million-a-year industry in the United States. Each year, more than 500 billion matches are produced, and of 200 billion book matches made in the United States every year, about 196 billion are given away with the sale of cigars, cigarettes, and tobacco.

Sweden had us topped for many years in the production of matches. The Swedish Match Company, formed in 1913 by Ivar Kruegar, had match factories in 43 countries of the world and manufactured most of the world's matches.

Kruegar is said to have invented the common superstition that "three on a match" is unlucky, in order to sell more matches. His match empire lasted until 1932, when it was discovered he'd been using the company's capital for his own speculations.

Sweden now ranks fourth down the line led by the United States. Great Britain ranks second and the Soviet Union third.

Spices in History
 There are many references to spices and herbs in the pages of history. They play important parts in the development of our civilization. The ancients attributed strange powers and accomplishments to spices. Basil, for example, is venerated by the Hindus who plant it outside their temples and homes to insure happiness. The famed laurel wreaths which crowned Greek heroes of war and sport are the same bay leaves we use today in our cooking.

Freezing of Water Pipes
 Freezing is most likely to occur in pipes which run along an outside wall. This hazard should be corrected by re-location of the pipes, if possible. If this is impractical, thorough insulation with from two and one-half to three inches of good pipe covering is the only safeguard. Should any of the piping freeze, the work of thawing it should not be entrusted to a handyman. It should be done under the supervision of an experienced master plumber. Blow torches or other methods involving open flames are extremely dangerous. They not only involve fire hazards but also permit the generation of high pressures which may cause explosions.

Gregorian Calendar
 The form of our present calendar was set by Julius Caesar by some additional innovations by Augustus Caesar. However, in about 1500 years the length of year adopted by the Caesars proved incorrect. Therefore, Pope Gregory, in 1582, reappointed a commission which revised the calendar sufficiently to bring it back in step with the seasons. Now it takes 3000 years for the calendar to slip out of line one day. The Protestant countries did not accept the Gregorian calendar until 1732 and this is why certain dates in history sometimes appear to be confused.

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

Well, there's still a week or ten days to go before harvest really gets under way — and you, Madame Housewife, are of course making fullest use of that time in canning berries and vegetables for winter — but are you doing it the modern, easy way — by freezing? Or are you using the slow, hot way?

If you're a devotee of the old, hot style, come in and talk over with us the modern, easy way — via locker box, and let us show you our locker room. There's a box to fit every purse and purpose.

Barber (to squirming customer): "How is the razor, sir, does it hurt?"
Customer: "I can't answer for the razor, but my face sure does!"

With the busy harvest days that lie ahead, don't spend time pre-

paring desserts. Just keep several quarts of Potlatch Chief Ice Cream on hand. Serve it to your family and hired men for dessert — and to friends and neighbors when they come to call — for everybody loves ice cream. Potlatch Chief is made in all the standard flavors — plus specials.

The reporter was getting very little out of his interview with the politician, and finally he chided the man gently: "I always thought that a statesman should be familiar with all public questions."
"He should be," agreed the grafter, "but not necessarily with all the answers."

Don't let cream go bad on you during the busy harvest season. Keep it clean, keep it cool, and send it in to us often — don't wait for a quantity to collect. No quantity is too small — none too large — but the fresher the better.

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mr. and Mrs. Marvin Silflow and family, Rev. and Mrs. Theo Meske and family, Mr. and Mrs. Harold Silflow and daughter and Mr. and Mrs. Emil Silflow and sons fished and picnicked at Lake Chatcolet, Wednesday and Thursday.

Mr. and Mrs. Walter Koeppe and family, Mr. and Mrs. Ernest Brammer and Mr. and Mrs. Roy Ramey spent Sunday with Mr. and Mrs. Roy Ramey, Jr. and family at Rosalia, observing Roy Ramey, Jr.'s birthday anniversary. Judy and Lynn Koeppe remained for a few days visit.

Reggie Wegner is spending this week with his uncle and aunt, Mr. and Mrs. Bill Fry and son, at Elk River.

Mr. and Mrs. Glen Wegner and family and Mr. and Mrs. Harold Silflow and daughter were Saturday evening guests of Mr. and Mrs. Wilbur Tarbet and family — observing Sandra Tarbet's birthday anniversary.

Mr. and Mrs. Geo. Allen and family and Judy Leake spent Saturday evening with Mr. and Mrs. Fred Newman.

Mr. and Mrs. Walter Koeppe and Mr. and Mrs. Ernest Brammer fished at Fourth of July creek Thursday and Friday. They brought back their limit of fish.

Mr. and Mrs. Herman Meyer and family spent Thursday evening in the home of Mr. and Mrs. Gerald Schmidt and family, observing the birthday anniversaries of Mr. and Mrs. Homer Parks.

Mrs. Jesse Hoffman of Lewiston and Mrs. Charley Hoffman visited with Mr. and Mrs. Harl Whiting near Southwick, Thursday afternoon. Helen and Ted Mielke visited with Mr. and Mrs. Aug. F. Wegner and sons Sunday evening.

Mr. and Mrs. Dick Fry and sons and Jack Kuykendall of Kendrick were Thursday evening supper guests of Mr. and Mrs. Glen Wegner.

Mr. and Mrs. John Blankenship and family were Sunday dinner guests of Mr. and Mrs. Lloyd Gephart at Culesac.

Mr. and Mrs. Harl Whiting attended church services at Clarkston Sunday morning. Rev. and Mrs. Tetwiler accompanied them to Astin, where they enjoyed a picnic lunch.

Mr. and Mrs. Jim Whiting, Mr. and Mrs. Ernest Brammer and Roy Silflow attended the baseball game at Lewiston Saturday evening.

Mr. and Mrs. John Blankenship and family visited with Mr. and Mrs. Kenneth Sinclair and Mr. and Mrs. Ted Freeman at Moses Lake, Wash., from Wednesday until Saturday. They brought little Terry Sinclair home with them for a week's visit.

Mr. and Mrs. Ervin Lohman and Charles Parks were Sunday visitors in the Mr. and Mrs. Ed. Mielke and family home.

Mrs. Boyd Blankenship and children of Culesac spent Monday with Mr. and Mrs. John Blankenship and family.

Mr. and Mrs. Marvin Silflow and family visited with Mr. and Mrs. Ed. Nelson and family in Kendrick Sunday evening.

Mr. and Mrs. Ted Weyen and family visited with Mr. and Mrs. Walter Koeppe Monday evening.

Mrs. Loren Taylor and son Eldon of Lewiston were Tuesday dinner guests of Mr. and Mrs. Harl Whiting. They called on Mr. and Mrs. Harry Newman and family in the afternoon.

Tillman Schoenwald of Kellogg visited with friends at Cameron and Leland, Thursday. He lived in the Cameron area from 1915 until 1917.

Mr. and Mrs. Albert Glenn and son Eldon, Mr. and Mrs. August Brammer and family and Mrs. A. H. Blum were Sunday dinner guests of Mr. and Mrs. Wilbert Brunseick.

Home Demonstration Club
The Cameron Home Demonstration Club will meet on Tuesday, August 11, at 1:30 p. m. at the home of Mrs. Harold Silflow.

LELAND NEWS

Homemakers Club To Meet
The Leland Homemakers Club will meet at the home of Mrs. A. G. Peters, Wednesday, Aug. 12, at 1:30 p. m. There is to be an auction sale — and all members are asked to bring a white elephant.

The purpose of the sale is to raise money for club operations.

Other Newswettes
Karen and Ricky Craig stayed the past week with their uncle and aunt, Mr. and Mrs. Roy Craig and daughter Paige.

Sunday, Mr. and Mrs. Roy Craig and daughter Paige, Mrs. Dora Hefel, Charley Craig, Karen and Ricky, the latter of Clarkston, met Mr. and Mrs. Wilbur Corkill and family in Kendrick, and picnicked in the city park.

Petesa Medalen, who has been staying with her grandparents, Mr. and Mrs. Jesse Thornton, spent the weekend with her parents, Mr. and Mrs. Allen Medalen, in Kendrick.

Mr. and Mrs. Jesse Thornton joined Mr. and Mrs. George Baugh and son Norman of Orofino at that city, and accompanied them on a fishing trip to the Crooked River country near Elk City. They report the fishing as "fair." The party left on Friday morning and returned home Sunday.

Mr. and Mrs. Keith Thornton and son Steve were Sunday dinner guests of her parents, Mr. and Mrs. E. M. White and family at Kendrick.

Mr. and Mrs. Reuben Meyer and daughter of Lincoln, Nebraska, arrived Saturday night to visit with her parents, Mr. and Mrs. Bill Thornton and family.

GOLDEN RULE

Aug. 4 — Julius Hoppe, Lewiston, was visiting with old friends and neighbors in our community. Friday.

Gene Kuykendall, Miss Barbara Bonser and Mrs. Kenneth Bonser spent a couple of days at different times in Lewiston, this week.

Alma Betts spent Tuesday at the Carl Finke camp, visiting and picking berries.

Oscar Lawrence left Sunday for Lacrosse, Wash., where he will work in the harvest.

Mr. and Mrs. Pat Holliday and son of Lewiston and Mr. and Mrs. Jack Kuykendall of Kendrick were Sunday visitors at the D. V. Kuykendall home.

Oscar Lawrence, daughter Caroline and son Albert, John Pavel and Eugene Betts were among the Lewiston visitors on Saturday.

Mr. and Mrs. Bruce Tarbert and children spent Saturday and Sunday at the Roy Martin home.

A 2/c and Mrs. Stanley Martin and daughter of Spokane visited at the Roy Martin home here Monday night.

News is scarce. Everyone is busy getting ready for harvest.
