Mr. and Mrs. Paul Dagefoerde and family were Sunday dinner guests in the Reinhard Wilken home.

Mrs. Paul Dagefoerde and Mr. and Mrs. J. M. Woodward were Lewiston visitors on Tuesday.

Sunday afternoon callers in the Ervil Woody home were Mrs. Roy Glenn and daughters, Charles Easterbrook and Mr. and Mrs. Chas. Taylor, the latter of Juliaetta.

Mrs. J. M. Woodward was a Wednesday visitor in the Ervil Woody home.

Mr. and Mrs. Harold Parks were Moscow visitors on Wednesday.

Mr. and Mrs. Paul Dagefoerde and family, Mrs. Veta Stump, Linda Jones, and Mr. and Mrs. Wilbur Corkill and family and Karen Nelson, the latter of Juliaetta, were Lewiston visitors on Saturday.

Mr. and Mrs. Clifford Woodward

and family of Spokane visited in the home of his father, Mr. and Mrs. J. M. Woodward, Saturday.

Mrs. Veta Stump and Mrs. Wilbur Corkill attended a party at the home of Mrs. Archie Reed of Lewiston Orchards, Wednesday.

Mr. and Mrs. Fred Glenn and daughters were in Lewiston on Saturday. Paul Hall returned home with them to spend the week-end.

Mr. and Mrs. Gene Heath and son Robin were Sunday dinner guests in the home of her parents, Mr. and Mrs. Harold Parks. Afternoon callers included Mr. and Mrs. Ed. Hinrichs and son Herman of Big Bear ridge; Mrs. Ed. Mielke and daughter Patricia, and Charles Parks, who was home for the week-end.

Be sure to take some fried rabbit on your week-end out. It's delicious. See your grocer. 1-adv

THURBER'S

JULIAETTA NEWS

Mrs. James Albright is caring for the broiler plant while their hired man is on vacation.

Mrs. Raleigh Albright attended the W. S. C. S. sub-district meeting at Nez Perce, Tuesday. She had charge of the program for the luncheon and the "Women's Status" workshop.

Mr. and Mrs. Henry Wolff were Monday callers in the Raleigh Albright home.

Mrs. Ed. Groseclose spent Friday in the Raleigh Albright home.

Bill Brammer, Kenneth Anderson and Dennis Racicot returned Saturday night from an elk hunt — but luck was poor.

Mr. and Mrs. J. G. Peterson of Lewiston were Saturday evening dinner guests in the home of Mr. and Mrs. J. M. Mead.

Mr. and Mrs. Joe Lynch of Pasco, Calif., visited in the home of Mr. and Mrs. Wm. Hugo last week. Mrs. Lynch is their daughter.

Mrs. Dan Bausch and son Denny spent Wednesday in the John Rupples home in Lewiston Orchards.

Mrs. Harvie Shepherd and son Ricky spent Wednesday in the H. W. Nelson home in Lewiston Orchards.

Friday afternoon callers in the Harvie Shepherd home were Mrs. Bachman and Mrs. Wayne Shepherd of Troy.

Mr. and Mrs. Dan Bausch spent Monday evening in Lewiston.

Mrs. Harvie Shepherd and sons spent the week-end at the Alden Hoidal home in Troy.

The George Denmler, Tom Denmler, Walter Denmler and Dave Denmler families and Mrs. Mike Hedler were among the guests of Mrs. Kuni Denmler in Lewiston, Sunday.

Charles Snyder is visiting in the George Denmler home for a few days. A pick-up truck driven by Teddy Meyer of Cameron and a car belonging to Frankie Loeser, Southwick, collided on Main Street Saturday evening. No one was hurt, but quite extensive damage was done to both vehicles.

Mr. and Mrs. Caus Clark and Mrs. Melvin Brower and daughter Jeanne visited in the home of Mr. and Mrs. Phil Evans, and the Clark's granddaughter, Kathy Jo, at Nampa, Ida., last week.

Grangers Hold Election

Tuesday evening of this week, at their regular meeting, the Kendrick Grange held an election of officers, with the following being chosen:

Robert Draper, Master; Gerald Ingie, Overseer; Lecturer, Millie Corhill; Stewart, E. M. White; Assistant, Jo Benscoter; Treasurer, Herman Johnson; Secretary, Grace Ingie; Gatekeeper, Jack Kuykendall; Cates, Elsie Onstott; Pamona, Jessie Bateman; Flora, Annie Weyen; Lady Assistant Stewart, Aileen Johnson; Home Economics Chairman, Clara Kuykendall; Executive Committee, Andy Cox.

Celebrates Birthday

Mrs. Mary A. Deobald was honored at a luncheon in Moscow, Sat. Oct. 3, she being surprised by her daughters, Mrs. Eeva M. Thompson of San Diego, and Mrs. Elmer E. Bechtol of Seattle, for the occasion.

On Sunday, members of her family gathered at her home on American Ridge for a picnic dinner, at which a beautiful birthday cake with candles centered the picnic table. The cake was made by her daughter, Mrs. Otto Schupfer, and as Mrs. Deobald cut the first piece her granddaughter, Maribel Schupfer, snapped her picture as a memento of the occasion.

Little Folks Party

Mrs. Lester Crocker entertained a group of little folks at a party on Sunday afternoon, Oct. 4, honoring their little granddaughter, Pat Johnson's fourth birthday anniversary.

Games were played, after which ice cream and birthday cake were served. The table was decorated in the Halloween motif, with paper hats and horns for favors.

Guests were Lois Ann and Linda Wilson, Louise and Loren Hoffman, Bobby Callison, Judy and Jimmy Burns, Cheryl Janet and Jane Westendahl.

Daughter Is Born

Mr. and Mrs. Earl Choate are the parents of a 7½-pound daughter, born to them Sept. 30 at the Davidson Nursing Home. All concerned are doing nicely.

AMERICAN RIDGE

Cream ridge attended church in Kendrick, Sunday, and were dinner guests of Mr. and Mrs. Clarence Dougharty.

Mr. and Mrs. John Beoman of Boise visited Tuesday afternoon with Mr. and Mrs. Clarence Dougharty. It was just 62 years ago that another Mr. and Mrs. John Beoman and small son drove from Genesee down the Lewiston Hill in a wagon—and had to chain both rear wheels of the wagon to keep from going over the grade — some experience, just to get down a hill. I believe too many of us do not appreciate our roads of today.

Walter May and Ernie Andrews have returned from their elk hunt with an elk piece.

Mr. and Mrs. Harley Eichner now have a TV set in their home.

Pfc. Norman Cox of Cottonwood and a boy friend spent Monday night with Mr. and Mrs. Andy Cox.

Know-Nothing

On a little service station on the edge of an Arizona desert hangs this sign: "Don't ask us for information. If we know anything we wouldn't be here."

Choose of all kinds at Blewett's Grocery-Market, Kendrick. adv.

STONY POINT NEWS

Oct. 6 — Most of the women of this community have been "hunters' widows" during the past week to ten days, while the men were on their annual elk and deer hunts.

Due to sudden illness, Mrs. Wayne Heimgartner, who had planned to entertain the Friendship Club Thursday night, was rushed to the hospital Wednesday night, and Mrs. Leslie Heimgartner entertained for her. Mrs. D. Evans furnished vegetables cooked in the cooking ware she sells.

Mrs. Wayne Heimgartner was able to return home Sunday evening.

Mrs. Cletis Hoisington will be the hostess to the Friendship Club when it meets again Oct. 15th. She will be assisted by Mrs. Loren Hoisington, co-hostess.

Mrs. Floyd Heimgartner and children and Mrs. Loren Hoisington and children returned home Monday after a few days visit in Spokane.

Mrs. Lyle Kerby and children are visiting relatives and friends in southern Idaho this week.

Mr. and Mrs. Cletis Hoisington returned Sunday from a two-week vacation. They visited their son, Rev. Phil Hoisington and his family, and friends in northern California; saw Hoover Dam, the Grand Canyon of the Colorado, and other points of interest.

Mrs. Hugh Parks, Mrs. Walter Zum Hofe and Mrs. Ernest Steigers attended Booster Night at the Lappedwai Grange Saturday evening.

Mr. and Mrs. Tom Edwards and family, Mrs. Walter Zum Hofe and children and Byard Parks were Sunday dinner guests of Mrs. Hugh Parks. Sunday afternoon callers at their home were Mr. and Mrs. Herman Johnson of Leland; Mr. and Mrs. Dick Cuddy of Kendrick, and Mrs. Julia Pleshman.

Club Wins Many Awards

The Willing Workers 4-H Club entered their work at the Latah County Fair, which was held at Moscow on Sept. 17, 18 and 19. Below is a list of the awards won by them:

Frances Rowden: Cooking I, red ribbon; Clothing I, red ribbon.

Patsy Nelson: Room Improvement I, red ribbon; Cooking II, red ribbon.

Diane Benscoter: Cooking II, white ribbon; Gardening I, red ribbon.

Doris Wilson: Clothing I, red ribbon; Arts and Crafts, red ribbon; Cooking I, blue ribbon.

Janice Heimgartner: Clothing I, blue ribbon; Cooking II, red ribbon; Arts and Crafts, white ribbon; Home Economics Judging contest, blue ribbon.

Joanne Heimgartner, Judy Benscoter and Julie Rowden are the "Mascots" of this club. This year Joanne Heimgartner exhibited her crafts in "Children's Hobbies." She won two blue ribbons and one red ribbon on them.

Nita Benscoter: Clothing IV, blue ribbon; Cooking IV, red ribbon; Room Improvement I, blue ribbon; Freezing I, blue ribbon; Canning II, red ribbon; Modeling, blue ribbon; Home Economics Judging contest, blue ribbon.

Celia Roberts: Clothing IV, blue ribbon; Clothing V, blue ribbon; Modeling, blue and red ribbons; Home Economics Judging contest, blue ribbon.

Lolita Roberts: Clothing IV, blue ribbon; Canning II, red ribbon; Freezing I, red ribbon; Gardening II, red ribbon; Home Grounds Beautification I, red ribbon; Cooking III, blue ribbon; Modeling, blue ribbon; Home Economics Judging contest, blue ribbon.

Celia Roberts, Nita Benscoter and Lolita Roberts, after receiving blue ribbons in Modeling at the Fair, are eligible to model at the District meet which was held in Moscow, Oct. 5.

Mrs. Harold Roberts and Mrs. L. W. Heimgartner have had a great part in helping this club during the past year.

Father Struck By Car

Mrs. Marion Rowden received word Monday that her father, George Ring, 77, of 411 12th Street, Lewiston, had suffered a broken pelvis and minor lacerations and abrasions about the head and legs when he was struck by a car while crossing Idaho Street at its intersection with 12th Street, about 7:00 o'clock Sunday evening.

He was taken by ambulance to St. Joseph's hospital where attendants report he was "resting as well as could be expected."

The driver of the car, Carl W. Timme, 18, of Reubens, was cited for negligent driving.

Mrs. Rowden is in Lewiston with her father.

Nominated For Queen

The first act in the annual fall pageantry of Homecoming was shown this week at the University of Idaho with the nomination of 17 candidates for Homecoming Queen by men's living groups on the campus. The queen will be chosen from five finalists selected by members of the football team, and will be crowned during the half-time ceremonies at the Idaho-Oregon State college Homecoming game Oct. 24.

Among the nominees was Nancy Lyle, daughter of Mr. and Mrs. J. M. Lyle, Jr., former Kendrick residents, and well known here.

Weather Is Sunny And Mild

This area has certainly been enjoying the finest of fall weather for the past week, and farmers who still have beans, clover, barley and other late-sown crops to harvest, have been making the most of it — with loaded trucks to be seen regularly on the streets and at the warehouses.

For those who have all their crops under roof a good rain would be most welcome for fall plowing and seeding operations.

However, outside of a brief shower or two, skies have been generally sunny and the temperature mild.

New Sidewalk

A new concrete sidewalk is going in this week in front of the N. P. Section house, and on down to the west end of town. It will be a real improvement.

Don't fuss and fume over out-of-season items. Visit Blewett's Grocery-Frozen Foods Case. adv.

NOTICE OF INTENTION TO SELL AND OF SALE OF MUNICIPAL BONDS BY VILLAGE OF JULIAETTA, LATAH COUNTY, IDAHO

NOTICE IS HEREBY GIVEN by the Board of Trustees of the Village of Juliaetta, Latah County, Idaho, of the intention to sell the duly authorized general obligation coupon bonds of said Village of Juliaetta in the amount of \$7,000.00 heretofore duly authorized by election of the qualified taxpayer electors of said Village and proper resolutions of the Board of Trustees of said Village.

The foregoing bonds shall be dated October 1, 1953, and shall bear interest at a rate not to exceed six per centum per annum, payable semi-annually and shall be of the denominations of any multiple of \$100.00 but not in excess of \$1,000.00 and shall be payable at the office of the Village Treasurer of said Village of Juliaetta, at Juliaetta, Latah County, Idaho; said bonds shall mature and be payable upon the amortization plan prescribed by Section 57-211, Idaho Code, and the first annual amortized bond principal payment of said bond issue shall mature and be payable at the expiration of two years from and after the date of issue of said bonds and the various annual maturities shall be in such principal amounts as will, as nearly as practicable, together with the accruing interest on all outstanding bonds of said issue, be met and paid by an equal annual tax levy for the payment of the principal of said bonds and the interest accruing thereon during the period for which said bonds shall be issued, and the ultimate maturity of said bonds shall be twelve years from the date of issue thereof. The various annual amortized maturities will be determined upon the sale as ascertained by the rate of interest to be borne by said bonds in compliance with the provisions of Chapter 2, Title 57, Idaho Code, being the Municipal Bond Law of the State of Idaho; and said bonds shall be issued in strict conformity with and under the authority of said "Municipal Bond Law" and all acts amendatory thereof.

All bonds of said bond issue maturing at any time on or after five years from date of issue shall be redeemable at the option of said Village on any interest payment date on or after the expiration of one year and after one publication in any newspaper published in Latah County, Idaho, of a call for payment of such bonds as may be in said call designated for redemption prior to maturity and after said designated redemption date no further interest shall be paid on said bonds so called for payment.

None of said bonds shall be sold for less than par and accrued interest to the date of delivery thereof.

Sealed bids for said bonds, as required by law, are hereby requested; bidders shall submit sealed written bids specifying:

- the lowest rate of interest and premium, if any, above par at which the bidder will purchase said bonds; or
- the lowest rate of interest at which the bidder will purchase said bonds at par;

and each such bid (except any bid by the State of Idaho or its Department of Public Investments) shall be accompanied by a certified check or cashier's check, payable to the Village Treasurer of said Village of Juliaetta, in an amount equal to five per cent (5%) of any such bid, or by cash deposit in like amount, which such certified check, or cashier's check, or cash deposit shall be returned immediately to any such bidder whose bid is not accepted, and which certified check, or cashier's or cash deposit of any successful bidder, will be applied as part payment on the purchase price of said bonds, but which such certified check, or cashier's check, or cash deposit of a successful bidder, if he shall fail, neglect or refuse to accept the bonds so sold and to complete such purchase and pay for said bonds in accordance with the terms of said successful bid within thirty days following the acceptance thereof, shall be forfeited to said Village.

Sealed bids for said bonds will be received by the Board of Trustees of said Village at any time prior to 7:00 o'clock P. M., on Tuesday, the 20th day of October, 1953, at the Village Hall of said Village of Juliaetta, at Juliaetta, Latah County, Idaho, at which time and place the said Board of Trustees of said Village will meet at public meeting for the purpose of considering all bids received for said bonds and for the purpose of awarding such bonds, or any part thereof, which may be deemed advisable, or rejecting any and all bids, which right is hereby reserved to said board.

All bids for said bonds shall be unconditional. At such meeting or at any adjournment thereof the said bonds shall be sold to the bidder making the best bid thereof subject as aforesaid to the right of such Board to reject any and all bids and said Board will, in event no bids be received at the time hereinabove fixed or in event said Board rejects all bids submitted offer said bonds for sale at any adjourned meeting of said Board had and taken pursuant to this paragraph and pursuant to law and in such event bids will be received under the same conditions hereinabove stated at any time prior to any such adjourned meeting, which adjourned meetings, if any, will be held at the same place and at the same hour as hereinbefore fixed at weekly intervals after said sale date.

By order of the Board of Trustees of the Village of Juliaetta, Latah County, Idaho.

August Fines Bring In \$2,200

Conservation officers made 94 arrests during August for \$2,200 in fines, the Idaho Fish and Game department said this week. Valley county led with 14 arrests, Kootenai was second with 12, Clark third with 6 and Custer and Elmore had five each.

Eight juveniles were turned over to authorities for snagging blue-back salmon in Valley county, and three Salmon men were arrested for spearing fish. Highest single fines of \$100 each were paid by two non-residents for purchasing Idaho resident licenses.

Thank Practical Eskimos For 'Deep-Freeze' Invention

Thanks to practical Eskimos and a shrewd Yankee fur trader, we are now able to have seasonable fruits and vegetables "fresh" at any time of the year. The quick-freeze pack keeps them fresh.

The Yankee fur trader is Clarence Birdseye of Gloucester, Mass., who still indulges his fancy for adventure in the Far North. While dealing with Arctic Eskimos up the Labrador coast during 1912, he was amazed at the excellent meat and fish they seemed always to have available. The secret was in the quick-freezing of game freshly caught. "Quick-Freeze!" That was the Big Idea he mulled over as he sailed home. Invent a special kind of freezing machine to freeze almost instantly, patent it, make fresh foods available to everyone!

Inspired by this thought, and stimulated by his hope of protection afforded by our patent system, he built his first crude machine which he called the "Multiplate Quick Freeze." This consisted of a new garbage can of corrugated iron with layers of steel plates between which codfish and rabbit meat were placed. It was supplied with coils that contained salt brine as a refrigerant. Incredible, but true, this unpolished mechanism was the forerunner of our gigantic lockers of today. Encouraged by the success of his invention in food preservation, and the patent protection obtained thereon, Birdseye endeavored to promote his idea.

A skeptical America was not too eager to accept quick-frozen foods, and our inventor, in 1924, after making stabs in both Gloucester and New York, went broke. Unbeaten, his perseverance and ingenuity urged him to try again and, in 1927, after securing a \$2,250 loan on his life-insurance policy, and obtaining \$375,000 from backers, he again launched into the business. This time it took a year to interest the public sufficiently.

Cretaceous Geological Period Shale Collected In Fresno

More than a ton of shale and marl containing 100-million-year-old fossils, collected in Fresno County, Calif., last summer by Dr. Alfred R. Loeblich, Jr., Smithsonian Institution paleontologist, is being processed at the U.S. National Museum.

The Fresno County locality has one of the thickest known deposits—in some places as much as 25,000 feet—of sediments laid down in the ancient sea bottoms during the Cretaceous geological period, the heyday of the great dinosaurs on land and of the weird swimming reptiles, the plesiosaurs in the sea. The material collected by Dr. Loeblich, however, contains fossils far less conspicuous than these monsters, but in some ways they represent even stranger forms of life. They are minute Foraminifera, or shelled protozoans. Although constituting a very large branch of the Animal Kingdom, the Protozoa are one-celled animals and nearly all are microscopic; the best-known of the living forms are internal parasites which cause some of the most deadly diseases.

Foraminifera are a specialized group of Protozoa that build an external shell, and these shells may be preserved as fossils. During the Cretaceous period, represented by the material collected this summer, many of the more modern shell forms were first developed. These fossil shells are often used by the oil industry to determine the age of geologic strata and thus are of economic importance, as well as being of value to the scientist in showing evolutionary trends.

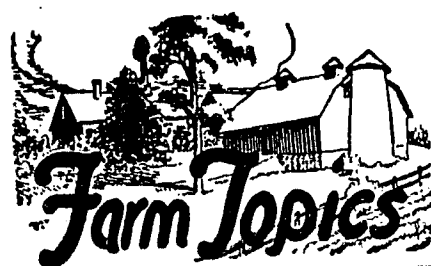

Although single-celled, such sea creatures may have many chambered shells. As they grow they form new chambers all connected by openings through which the protoplasm of the cell flows. But, however many chambers of this sort are produced, the protoplasm is continuous through all and the animal still remains a single cell.

Looking Back

Halle Selassie's 1,150-man, hand-picked battalion in Korea is a far cry from the desperate army he raised in 1935. Then, as Mussolini's men marched into his land, he issued this draft notice: (1) When this order is received, all men and boys able to carry a spear will go to Addis Ababa. (2) Every married man will bring his wife to cook and wash for him. (3) Every unmarried man will bring any unmarried woman he can find to cook and wash for him. (4) Women with babies, the blind and those too aged and infirm to carry a spear, are excused.

Ptolemaic System

The Ptolemaic System was the ancient concept of the universe, proposed by the Greek astronomer Hipparchus, who lived about 130 B. C. It is named after Claudius Ptolemy, a later astronomer, who popularized it in a famous book known as the Almagest. According to this system, the Earth was fixed at the center of the universe, and the Sun, Moon, planets and stars all revolved around it in varying periods. It has been superseded by the system proposed by Copernicus in 1543, which places the Sun at the center of the Solar System, and has the Earth as one of a number of planets revolving around the Sun.

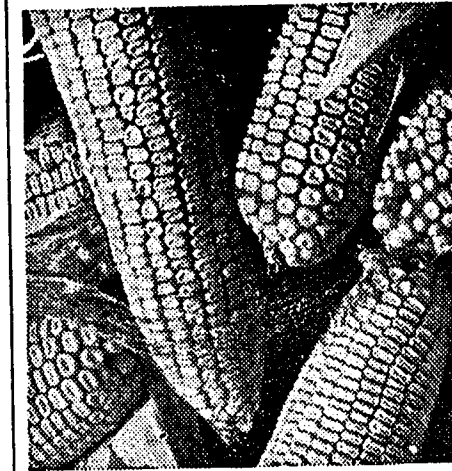

Farm Commodities Pose Big Problem Government Limited In Selling of Stocks

At the moment the government owns approximately \$1,806,365,438 worth of farm commodities, purchased through the years to support farm prices; agricultural department officials report.

Products stored in government bins include 3.5 million bushels of cotton, 145 million bushels of wheat, 167 million bushels of corn, 422 million pounds of linseed oil, 294 million pounds of dried milk, 79 million pounds of dried eggs, and quantities of various other items.

What's become of it all? It may be disposed of in various ways, but not dumped upon the

The government today has 167 million bushels of America's finest corn stored under the price support plan. The question is, what to do with it?

open market to compete with commodities now in private ownership. To do so would flood the market and depress the commodities offered far below support prices. The government would then find itself buying the commodities placed upon the market.

These commodities, however, can be sold should the market prices strengthen considerably above support levels.

The government has two methods at present of moving commodities. They are:

- (1) Persuading the consumer to increase their purchases through normal purchasing channels, thus reducing the supply and raising the price to where government stocks can be put on the market. Also, reducing supplies to a point where support prices would become unnecessary.
- (2) Many of the commodities in government stockpiles are being distributed to school lunchrooms, charitable institutions, Indian affairs, and needy groups.

New Corn Spray

Until recently, the corn earworm has prevented profitable sweet corn growing, especially in the South. Sometimes every ear in a crop is infested. Such corn cannot be sold.

Now the department of agriculture has developed a spray containing DDT, mineral oil, and

The new spray, when applied at the right times, will eliminate earworm and pay in growth of healthy corn on the American farm.

water that may be applied to silks and husks of developing ears. When applied at right times it kills worms before they attack and ruin the corn.

R. A. Blanchard, bureau entomologist, developed the method. He tested it in the field during three growing seasons in Texas, Mississippi, Missouri, and Illinois. Earworms were controlled in every instance, he reports.

January Exports Pass \$224 Million Mark

January agricultural exports totaled \$224,300,000, the agricultural department reports. Cotton topped the total with \$83,500,000.

Wheat and wheat flour were second to cotton, valued at \$47,300,000, while corn was in third place with \$14,700,000. Agricultural imports during the month were valued at \$290,700,000, or approximately 68 million more than exports.

Farallons, Bird Refuge, Now Closed to Civilians

California's Farallon islands, whose 1950 U.S. census count of an even 30 inhabitants was reported complete before the April 1 official census started, found human traffic there far greater in the 19th century than it has been in the first half of the 20th.

Russian sealers occupied the bleak group, 26 miles west of San Francisco's Golden Gate, from 1812 to 1833, notes the National Geographic society. Drafting Indians and Aleuts as labor, they reduced seals from abundance to scarcity, taking close to 200,000 skins for the China trade. Sir Francis Drake had restocked his vessel with seal meat at the Farallons in 1579.

During the 1849 gold rush in California, food was scarce in San Francisco. Egg-gathering from the nests of gulls and murrens on the Farallons became profitable and well organized, and the traffic continued for many years. Finally, bird lovers stepped in, and the islands are now a bird refuge, closed to civilians from April to August.

The Farallons, known but little even to mainland Californians, consist of three pinpoint groups of rocky islets spreading over seven miles of the Pacific ocean on air and water lanes of trans-Pacific travel. Paradoxically, although they are officially part of the City of San Francisco, the mayor and other city officials may not set foot on them without special permission.

The permission must come from the 12th coast guard district based in San Francisco. It provides the personnel that maintains the powerful beacon 358 feet above sea level atop Southeast Farallon, the only inhabited island of the group.

The lighthouse-keeping families live in neat, white houses at the foot of the high beacon cliff. A radar station and an automatic fog-signal horn complete the island's important navigation aid equipment.

Human Regard for Criminal Modern Idea, Says Educator

The idea that the legal offender shares a common humanity with his nonoffender brother is a relatively novel conception and regards the criminal as a human being and not subhuman, specialhuman, superhuman, inhuman, robothuman, or extrahuman. Dr. Robert Lindner, clinical psychologist at Harlema Lodge, Catonsville, Maryland, told the first session of the third annual institute on crime and delinquency which University of California extension held in Los Angeles recently.

Declaring that "Offenders, too, are human," Dr. Lindner pointed out that the modern view of the criminal historically succeeds the primitive, theological, philosophical, mechanical, and psychiatric views.

"The modern view is based on a total approach to the offender, including the whole person and his history in the world; it is based upon scientific knowledge that is reaching a level of maturity; its sources are biological, anthropological, sociological, and psychoanalytical. Among these, the psychoanalytical appears to be the most fruitful and comprehensive."

Study Hydrogen Bonds

While other scientists the nation over concern themselves with hydrogen bombs, Dr. Joseph W. Ellis and Dr. Leonard Glatt of the physics department of the University of California are busy with hydrogen bonds—a study more closely related to everyday life. Hydrogen bonds are links which assist in holding together the long molecular chains found in many of the substances we use in our daily life. These links are formed by the sharing of a proton (hydrogen nucleus) between two units of the same or different molecules. Examples of substances they bind together are liquid water, proteins, and many plastics, including nylon.

From Everywhere

The ingredients of paint products literally come from the world's four corners. Take, for example, a quarter pint can of varnish stain. It's packed in a shipping case made from fibre that may have come from Norway. The paper for the label may have come from the same place. The tin for the can probably came from either Bolivia or Malaya. The contents may consist of linseed oil that came from Argentina, the drier from Asia, tung oil from China, resin from Africa and dyes from England. Skillfully combined by American know-how, the user benefits from world-wide activity which he seldom realizes.

Making Good Soils

"Somehow the notion gets around," says Dr. Charles E. Kellogg of the U. S. department of agriculture, "that originally our farm soils were highly productive; that is, productive when first plowed. Many of them were, like the black lands in our Middle West and in central Eurasia, for example, and in some of the great deltas and alluvial valleys. But most soils are not it is through liming and fertilization, drainage, irrigation, the introduction of legumes, and a host of other practices, that farmers have made their soils productive," explains Dr. Kellogg.

**Medical School Enrollments
Are Setting New Records**

Medical schools of the United States in the last year took further steps to protect the future health of the nation by enrolling the largest number of students in their history.

This was revealed in the 51st annual report on medical education in the United States and Canada, compiled by the Council on Medical Education and Hospitals of the American Medical Association. The report was prepared by Dr. Donald G. Anderson of Chicago, secretary of the council, and his aides, Dr. Francis R. Manlove and Mrs. Anne Lipner.

A total of 26,191 students were enrolled in 79 approved schools in the United States for the 1950-51 academic year. This compares with the previous high record of 25,103 in the year before, an increase of 1,088 (4.1%). Since 1941, when there was an enrollment of 21,379 students in 71 approved schools, the increase has been 4,812 (22.5%).

The report also disclosed that the current academic year will see a continuation of this increase in medical education because of the enrollment of a record freshman class. It is estimated that about 7,400 new students will enter medical schools, compared with the previous record of 7,182 a year ago.

Also important from a future health protection standpoint was a survey which showed plans were under way in many states for the opening of additional medical schools and for the expansion of existing facilities.

"Significant progress is being made toward resolving the financial problems of the medical schools," the report also said. "Funds available to the schools during 1951-52 will total approximately \$109,600,000, which represents an increase of \$36,000,000 in the last four years."

**Psychologist Believes Kids
Aren't Bad—Just Problems**

There are no "naughty children" or "problem children," in the opinion of one distinguished child psychologist, there are only "children with problems."

"In modern days, we should not talk any longer about 'the naughty child' or 'a problem child' but should try to find the reasons back of the problems of the child."

Dr. Reymert, who is Director of The Mooseheart Laboratory for Child Research at Mooseheart, Illinois, explores some of these reasons and finds that most of them are related to a lack of understanding of the child and his needs, on the part of the parent.

He observes that "one child may be naughty because he feels that he is being blamed and criticized too much. Another child may misbehave because he feels that his parents are not interested in him and do not pay enough attention to him. A third child may use this means to rebel against excessive restrictions or confinements."

"It is toward removing the cause or causes for the child's naughtiness that we must turn our attention rather than toward even stricter and more severe discipline," Dr. Reymert points out.

Insomnia

Although many people are troubled with various types of insomnia, there is no one who "just can't sleep at all" for any length of time. There is a type of insomnia where one can't get to sleep easily, but after he has fallen asleep, he sleeps soundly. In another type, the person awakens often during sleep and, although he seldom stays awake for long, things he is awake for hours. Still another type is the person who awakens early and can't get back to sleep. The person who "just can't sleep at all," however, is non-existent. It is impossible to live without sleep. Even though one is troubled with insomnia, if he has a good sleep foundation, he will doze off—although he may not realize it. On a good quality sleep foundation, it is impossible to resist sleep for long unless there is something physically wrong with a person.

Stop Sediment

To prevent the sediment that accumulates in the bottom of a tea kettle from hard water, throw away immediately the remaining amount of boiling water which you are not going to use. Do not allow the boiling water to settle in the kettle. Installation of a water softener, to treat the hard water and get rid of the compounds that cause the sediment, would also eliminate the deposit.

Earth and Gravity

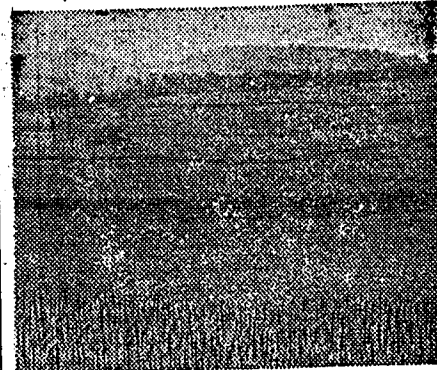

The force of gravity is lessened by the centrifugal force produced by the Earth's rotation because of centrifugal force. The effect of gravity at the equator is about one part in 289 less than it would be on a stationary Earth, or than it is at the poles, where there is no such force. The centrifugal force also throws the surface of the Earth at the equator about 13 miles farther than the poles from the center. This causes a further decrease in gravity, so a man who weighs 189 pounds at the pole would only weigh 188 pounds at the equator, as measured by a spring balance. Ordinary scales would not show this, since the weights used would be equally affected.

**Strip Cropping Helps
Hold Soil in Place
It's Only First Step
In Conservation Plan**

Strip cropping, an important part of soil conservation, is a good deal like putting a splint on a broken bone. The splint holds the bone in place, but it doesn't knit it. Strip cropping helps hold the soil in place, but it won't rebuild run-down fertility.

The above picture is a beautiful example of strip cropping, but it was not accomplished by mere contour plowing. It was accomplished by sound soil conservation, based on use and treatment of land with all proven, appropriate measures that are needed to keep it permanently productive while in use.

Strip cropping on a field just north of Neillsville, Wis., is a beautiful example of one step toward soil conservation.

Sound conservation means terracing land that needs terracing; contouring, strip cropping, and stubble-mulching the land as needed, along with use of supporting measures of crop rotation, cover and green manure crops and the use of the right commercial fertilizers.

No farmer should undertake a conservation program without expert advice. He should first contact any one of his soil conservation district officers and apply for assistance from his district. If he doesn't know who his officers are, he can locate the address of his district office in the phone book, or he can call his county agent. Districts help only farmers who request their assistance.

**Number of U. S. Farms
Lowest Since the 1890s**

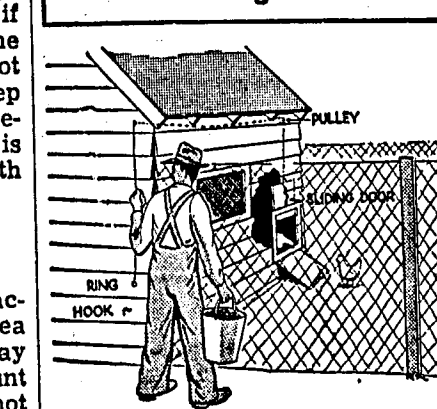

The number of farms in the United States has continued to decline since the end of World War II with the current total the lowest since before the turn of the century.

The department of agriculture reports there were fewer than 5.4 million farms in the country last year. This figure compares with approximately 5.9 million in 1945, and with the peak number of 6.8 million in 1935.

Thus the number of American farms has declined over 1.4 million, or more than a fifth, in the last decade and a half—a period in which land in farms has continued to increase and in which total agricultural production has likewise shown a spectacular increase in aggregate volume of products raised as well as in total market value.

In 1900 there were some 5.7 million farms in the U. S., approximately 350,000 more than at present. A decade before, in 1890, the number of farms was about 4.6 million.

Sliding Door

Poultry raisers can save many a step by a sliding door in poultry houses which can be operated from the outside. A small rope attached to the door by a screw eye runs to the ceiling or roof boards, along the wall, through the side of the chicken house and terminates in a ring. A hook can be attached to the side of the building and thus hold the door open.

**Farm Exports Increase
14 Per Cent, Report**

The agriculture department reported recently that farm exports increased 14 per cent over the preceding fiscal year. The total was placed at \$3,409,245,000. Cotton exports led the group in 1950-51 with a total of \$935,332,000,000, the second highest in 26 years. Wheat and wheat flour ranked second in value at \$747,570,000, up 9 per cent over the \$683,229,000 the preceding fiscal year.

**Medina Mosque Is Younger
Building than White House**

According to tradition, Mohammed journeyed north from Mecca to the region of Yathrib's oasis, where he loosed his camel to wander unguided until it stopped and knelt. There the mosque was built. Disciples renamed Yathrib Madinat-al-Nabi, meaning City of the Prophet, now varied to Medina.

The original house of worship has been rebuilt several times. No existing relics of previous structures bear proof of use earlier than 1306. The present Great Mosque is actually newer than the White House in Washington and replaces an earlier mosque which was destroyed by fire only a century ago.

Though somewhat crowded by other buildings on its south side, the mosque stands out gracefully from most angles of approach. Its minarets are shapely, its dome a restful, dull green. Dominant construction material is a locally quarried crystalline rock of pinkish hue, with occasional elaborate inlay and facade decoration.

Pilgrim trade is easily the chief business of Mecca, Medina, and Jidda, the Red Sea port by way of which nine-tenths of the worshipping tourists now travel. The two shrine cities each have sacred areas where unbelievers are not welcome and subject to trespassing fines or jail terms.

Date growing is the second industry around Medina's oasis, which is larger than Mecca's and can support more population. Under Turkish rule prior to World War I, Medina counted 80,000 people and was the southern terminus of a railroad from the cities of present Jordan, Syria, Turkey, and Iraq to the north.

Not until Mohammed moved from Mecca to Medina, did his creed begin the expansion that now encompasses 250,000,000 followers.

**Drug Given By Mouth Said
To Relieve Pain in Cancer**

A chemical compound which can be given by mouth is reported by seven New York doctors to be useful in bringing temporary relief to patients suffering from fatal cancer-like diseases of the white blood cells and tissues.

The oral use of triethylene melamine on 58 patients is described by Drs. David A. Karnofsky, J. H. Burchenal, George C. Armistead, Jr., Chester M. Southam, J. L. Bernstein, L. F. Craver, and Cornelius P. Rhoads. The doctors are all associated with the Memorial Center for Cancer and Allied Diseases, New York.

Triethylene melamine is a valuable addition to the small group of drugs now known to be effective in relieving pain in these types of disease, according to the doctors. This is due primarily to the fact that it can be given by mouth, releasing the patient from his dependence on a doctor for administration of the drug. All the other drugs, they point out, have to be injected intravenously, which almost always makes hospitalization necessary.

Clinical trials with the drug are now being widened to include a greater variety of tumorous conditions, they said.

Cleaning Up

In the Smithsonian Institution's laboratory of vertebrate paleontology, six tons of fossil bones belonging to the extinct gigantic ground sloth, Megatherium, are being cleaned and repaired. The skeletal remains of this grotesque animal were collected in western Panama by Dr. C. Lewis Gazin, curator of vertebrate paleontology of the U. S. National Museum, assisted by Dr. Theodore E. White, paleontologist of the Smithsonian's River Basin Surveys. The Smithsonian Institution paleontologists will attempt to reconstruct for exhibition in Washington a complete skeleton of the giant sloth. A large part of the collection will be returned to Panama for exhibition there.

Forming Pearls

Although some pearls are formed in fresh-water clams and oysters, the most valuable come from the marine pearl oysters of eastern Asia. They occur when some foreign object—perhaps a tiny grain of sand—gets between the shell and the body. The animal then secretes around the object successive layers of a material called nacre, which consists of calcium carbonate. This is the same material as the "mother of pearl" lining of the shell. The Japanese make "culture" pearls by deliberately introducing small particles of graphite into the oyster and keeping it for several years as the pearl is formed.

Infrared Rays

Infrared rays are similar to rays of visible light, except that the length of their waves is greater than those of red light, which are about 1/40,000th of an inch and are the longest that the eye can detect. The longest infrared waves are about 1/65th of an inch long. Any hot object—the Sun, an open fire, a red hot poker, a warm radiator, an electric lamp, etc.—sends out infrared radiation, often with visible rays as well. Special electric lamps to generate these rays, used for applying heat, have a filament which operates at a lower temperature than is used in one designed mainly for purposes of illumination.

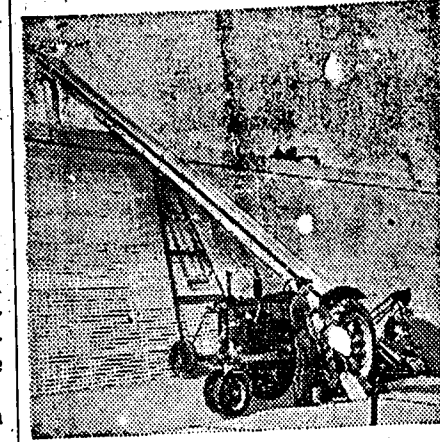

**Quonset-Type Huts
Meet Storage Needs
'Little Business' Answers
Challenge in Grain Belt**

Called upon by the department of agriculture to perform a modern miracle, "little business" in 10 midwestern states is tackling one of the biggest jobs of its kind ever undertaken anywhere in peacetime.

Its Herculean assignment is the site preparation and erection of 2,300 steel buildings—each 32x96 feet or larger—at 670 widely separated locations.

The task arose with the grain belt's acute need for space in which to store the record-breaking carry-over of 1948's corn crop. In line with

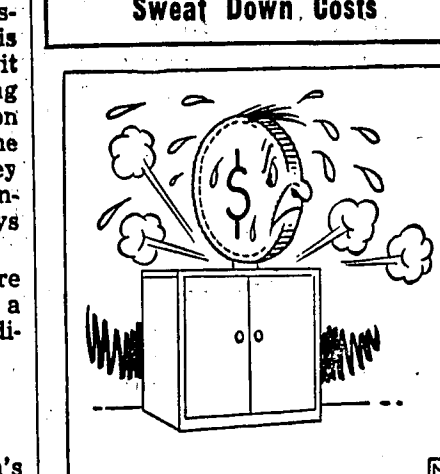

Grain being loaded into Quonset huts for CCC storage near Paulding, Ohio.

the trend toward economical "horizontal" grain storage, the department ordered Quonset buildings for a large part of the necessary new facilities. These arched steel units now are mushrooming up beside highways and railroads near farm centers through the efforts of local businesses and labor, rather than the work of transient crews employed by a few big and distant contracting firms.

Within two weeks time more than 1,100 concrete foundations had been laid, and erection of steel was under way on them in every state. The concrete work alone was roughly equivalent to laying 25 miles of highway in a time that an average road-making crew would require to put down one.

Sweat Down Costs

Sweat down your production costs if you want to maintain profits in these days of declining farm prices.

One way to sweat down those costs is to increase your crop yields per acre. More bushels of corn and grain per acre, more pounds of meat, milk, dairy products and poultry mean lower production costs per unit. On such a basis you can make a profit even if prices slacken further.

You can get those higher yields and lower costs with good soil management. Good soil management means giving your soil a fair deal. It means supplying the soil a well-balanced ration of plant foods, so crops will be well nourished. It means building up instead of breaking down soil structure and tilth. It means "recharging" the land with soil-enriching crops at regular intervals, instead of growing soil-draining row crops year after year on the same land.

**Dangers of Butchering
At Home are Outlined**

Home butchering is profitable on the farm and many rural families are replenishing their lockers, jars and pantries.

But, unless undue caution is used, home butchering can be dangerous. Equipment, too, should be used with care. All knives should be kept in a suitable place when not in use. Hoisting equipment should be checked. A tamper should be used to force meat into the grinder.

**Attention to Details
Pays Off for Hog Farms**

Attention to details is the biggest reason why some hog farms earned \$2,000 more than some others during the past year.

F. J. Reiss, farm management specialist in the Illinois college of agriculture, said that 128 high income hog farms averaged \$10,200 earnings from swine last year, while 161 less-efficient farms took in only \$8,000. Extra care at farrowing, control of parasites, helped

Kendrick Assembly Of God Church
H. L. Deweber, Pastor
The public is invited to attend the Sunday School Roundup, now in progress at this church. Features this week include special music and singing by Mr. and Mrs. Major, Nez Perce Indians of Kamiah. Mrs. Major, the former Miss Lillian Johnson, will tell how she was miraculously healed, while dying in a T. B. sanatorium.

Savings Stamps Sold
During the 1952-53 school year, the Kendrick post office sold \$44.95 in United States Savings Stamps of the 10c and 25c denominations, it was announced last week by Fred O. Stedman, postmaster.

FOR RUBBER STAMPS OF ALL KINDS see the Gazette. Top quality reasonably priced. Quick service. Gazette, Kendrick, Idaho. 27-tf

GOLDEN RULE

Oct. 6 - Mrs. Roy Martin, Mrs. Oscar Lawrence and Alma Betts accompanied Mrs. D. V. Kuykendall and son Gene to Lewiston Tuesday, where the ladies attended the Leadership Training meeting for Home Demonstration Clubs. The lesson was on "Painting Tiles and Dishes for Christmas" ideas.

Mr. and Mrs. George Finke entertained at a joint wedding and birthday anniversary dinner to honor the newly-weds, Mr. and Mrs. Eugene Betts, and the birthday anniversary of Alma Betts, Tuesday evening. Those present besides the guests of honor were Mrs. Kirk Wilson and Mr. and Mrs. Dick Watson and son of Kendrick; Mr. and Mrs. Don Christensen and family and Dan Luice of Camp Y, and Russell Betts.

Clarence Hasse is doing some land clearing for the Martins. Mr. and Mrs. Carl Finke, Sherry and "Butch" called at the D. V. Kuykendall home Friday, and then spent the evening at the Alma Betts home. Joan Lawrence was also a supper guest.

Oscar Lawrence drove to Spokane Saturday to take their daughter Joan to that city, where she is enrolling in Kinman Business University.

Mr. and Mrs. Elmer Souders accompanied Mr. and Mrs. George Finke to Lewiston, Saturday.

Lewis Kazda of Pomeroy came up Sunday and spent the night with his mother, Mrs. Oscar Lawrence and family, returning home on Monday.

George Wells visited at the Martin home on Monday.

Mr. and Mrs. Kenneth Pearson and family of Coeur d'Alene came Friday evening and spent the week-end at the Roy Martin home. Ishmael and Chester Martin returned from their hunting trip Friday.

Mr. and Mrs. Ishmael Martin and baby visited at the Martin home on Sunday.

Mr. and Mrs. Roy Martin became grandparents for the 15th time Friday night when Mr. and Mrs. Bill Eiben of Lewiston (nee Mary Jane Martin) became the parents of a baby girl.

Gene Kuykendall went to Lewiston Monday, where he has employment.

Mr. and Mrs. Eugene Betts were Kendrick visitors Saturday evening.

Mr. and Mrs. Don Christensen and family of Camp Y, and Mr. and Mrs. George Finke spent Sunday at the Alma Betts home - where the men held a wood making bee.

Caroline Lawrence had a wreck on her bicycle Monday evening, injuring an ankle quite severely. It is not known to us at this time whether or not it was broken.

Card Of Thanks
Mrs. Mary A. Deobald wishes to thank her many friends for the beautiful cards, flowers and gifts received for her birthday anniversary, Oct. 3rd, 1953.

Published by the Kendrick Creamery

HELLO THERE, FOLKS:

Well, here it is Sales Day again — with next Saturday the date of the big free auction sale, sports program, flower and produce exhibits, etc. — as well as lots of Specials at the stores.

Before you come in, gather those eggs to bring with you, and load in the cream can. You'll find that the money we'll pay you for those eggs and that cream will go a long way toward buying the Sales Day Special of your choice!

Wife: "Mother says she nearly died laughing over those stories you told her."

Hubby: "Where is she? I'll tell her some funnier ones!"

Hunters: Don't forget we have locker boxes to rent — and you'll need one for that elk or deer. There's a size for every need and a price for every purse. Come in

and pick yours out — today.

At a Chamber of Commerce dinner in honor of the teachers in a nearby town, there was a toast: "Long live our teachers!"

"On what?" murmured a pretty one under her breath.

Milk is a necessity for growing children — and a real help to adults, especially in the winter months. See to it that your refrigerator has a good supply at all times. Have our deliveryman leave it daily, or call at the creamery and pick up several quarts.

"Why is Mr. Gouch pacing up and down on their front porch?"

Friend: "He's awfully worried about his wife."

"Is that so? What's she got?"

Friend: "The car!"

Sell us your cream!

Honoring Mrs. Marie Bell of Erie, Penn., Mrs. Harold Silflow entertained at a luncheon Thursday. Present were Mrs. Walter Koopp, Mrs. Henry Wendt, Mrs. Carl Koopp, Mrs. Herbert Schwarz, Mrs. Emil Silflow, Mrs. Kenneth Wilken and the honored guest.

General News
Harl Whittinger entered Memorial hospital in Moscow, Monday, as a medical patient.

Mr. and Mrs. Loren Taylor and son Eldon were Sunday evening visitors in the Mr. and Mrs. Jim Whittinger home.

Mrs. Kenneth Sinclair and daughter Terry and Mrs. Ted Freeman of Moses Lake, Wash., spent Tuesday and Wednesday with their parents, Mr. and Mrs. Gus Kruger, and with their sister, Mrs. John Blankenship and family.

Mrs. Fred Newman, Mrs. Glen Newman, Mrs. Geo. Allen and children and Mrs. Maurice Hudson and children were Thursday dinner guests of Mrs. Eunice Carey at Ahsahka.

Mr. and Mrs. Henry Wendt spent the week-end with their son-in-law and daughter, Mr. and Mrs. Frank Harbert, at Twisp, Wash.

Mrs. John Schwarz spent Sunday with her sister, Mrs. Ida Stoneburner and Miss Emma Hartung.

Mr. and Mrs. Herbert Schwarz and daughter Jo Ann visited with Helen and Ted Mielke Sunday evening.

Mr. and Mrs. Ted Weyen and family were Sunday guests of Mrs. Hattie Sparger, in Clarkston.

Mr. and Mrs. G. F. Criddlebaugh and daughter Shirley were Saturday evening dinner guests of Miss Emma Hartung and Mrs. Ida Stoneburner.

Mr. and Mrs. Kenneth Wilken and family were Thursday evening dinner guests of Mr. and Mrs. Herbert Schwarz. The dinner honored Mr. and Mrs. Wilken's wedding anniversary.

Mrs. George Allen and children, Helen Mielke and Mr. and Mrs. Wally Newman and Mikey Hebert spent Sunday with Mrs. Fred Newman.

Mr. and Mrs. Dan Sullivan and family were Monday evening visitors in the Mr. and Mrs. Glen Wegner home.

Mr. and Mrs. Glen Wegner, Mr. and Mrs. Ted Weyen, Mr. and Mrs. Billy Weyen and Mr. and Mrs. Harold Silflow were Saturday evening guests of Mr. and Mrs. Wilbur Tarbet. The occasion was Wilbur's birthday anniversary.

Mrs. Otto Silflow and son Roy were Monday and Tuesday visitors in Spokane.

Mrs. John Blankenship and Mrs.

Ed. Nelson, the latter of Kendrick, visited the Juliaetta school Thursday.

Willard Schoeffler, Ed. Mielke, Gordon Peters, Nolan Weeks, Ervin McGeachy and Elroy Kuykendall returned from an elk hunt on Junction Mountain with six elk, Sunday.

Mr. and Mrs. August F. Wegner and Roy Silflow spent Friday evening with Mr. and Mrs. Glen Wegner.

Mrs. Gus Kruger and Mrs. John Blankenship visited with Mrs. Otto Silflow, Wednesday evening.

Betty Blankenship was a Thursday over-night guest of Sherry Schmidt.

Mr. and Mrs. Albert Glenn and son Eldon and Mr. and Mrs. Wilbert Brunstiek were Friday evening guests of Mr. and Mrs. Clay Albright in Lewiston. M/Sgt. Edward Albright reported back to Fort Lewis, Saturday.

BIG BEAR RIDGE NEWS

Mrs. Emma Nelson of Garfield visited with her sister-in-law, Mrs. James Nelson, last week.

Mr. and Mrs. Martin Schei and Mr. and Mrs. Kenneth Schei of Clarkston spent Sunday afternoon at the Verne Dunham and Mrs. Johanna Nelson homes. Mrs. Kenneth Schei is Mr. Dunham's cousin. The Schei family were former ridge residents.

Mr. and Mrs. Oscar Slind entertained at dinner Sunday honoring Mr. Slind's sister (Helen) Mrs. George Phillips and husband, who are visiting here from Sacramento, Calif. The guests, other than the Phillips, were Mrs. Halvor Lien, Lloyd Nelson, and Mr. and Mrs. Hjalmer Dalberg, all of Moscow.

Miss Maribel Schupfer of Moscow will show pictures she has taken in Europe, at the Lutheran church on Sunday evening, Oct. 18th. A social hour and refreshments will be enjoyed afterward. A most cordial invitation is extended to all.

Mr. and Mrs. Everett Hammond and children of Moses Lake, Wash., spent the week-end at the home of her parents, Mr. and Mrs. E. H. Jones. Miss Mamie Jones returned home with them for a visit.

The Robert Magnuson family spent the week-end at their summer home near Worley, Idaho.

Mr. and Mrs. Roy Glenn and daughters Sally and Ida visited friends here Saturday evening.

Ronald Jones and Kenneth Long, the latter of Spokane, returned Monday from a hunting trip. Mrs. Long spent the week with Mrs. Jones.

Ed. Halseth and son Arnold are visiting relatives at Dutton, Mont.

E. H. Jones returned home from Lewiston Wednesday, and is recovering from his leg injury.

Preaching services at the Lutheran church Sunday, Oct. 11th, at 7:30 p. m. Everyone welcome!

Mr. and Mrs. Claude Jones spent Friday evening with Roger at Moscow. Roger has pledged Sigma Chi fraternity.

Mrs. Will Hugo of Juliaetta spent the week-end with his parents, Mr. and Mrs. A. Kleth, while Mrs. Esther Carlson was in Lewiston.

Ole Kleth, Edwin, Joe and Miss Bertine Forest enjoyed a drive to Lake Wallowa, Joseph and Enterprise, Oregon, Friday.

Mr. and Mrs. George Wigen, Mrs. Anna Edinger, and the Misses Dollie and Theo Smith and Caroline Ellefson of Moscow spent Sunday with Mrs. Johanna Nelson.

Mr. and Mrs. Otto Alber of Dinuba, Calif., are expected to arrive here this week.

To Speak in Clarkston

Mr. and Mrs. Bob Magnuson have received word from his brother, Rep. Don Magnuson, congressman-at-large from Washington State, that he will make an address at Townsend Hall, Clarkston, Thursday evening of this week, and the Magnusons plan to go to Clarkston to hear him and visit personally.

He will speak on the development of Northwest water resources, including the Columbia and its tributaries.
