HELLO, THERE, FOLKS:

Well, it seems as if the chill of late fall is with us - even though winter may not be - and so it's time to think about your children's health. See to it that they have plenty of milk to drink all the time - at least a quart a day is the minimum requirment for a growing child. And you, as an adult, should have at least a pint a day. Get several quarts at the creamery next time you're in town — or let our deliveryman leave them.

When a man has a rip in this coat and, only three buttons on his shirt, he should do one of two things _____get married or get a divorce!

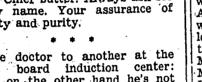

Are you going to entertain on Thanksgiving? If so, plan on using Potlatch Chief Ice Cream for dessert - or at least put a big. scoop on that piece of mince or

apple pie - or serve it with the evening snack. Everyone likes ice cream and Potlatch Chief is made in all the standard flavors - plus specials. Get several quarts the next time you are in town.
