INTERESTING NEWS NOTES FROM THE SOUTHWICK AREA

Enjoy Pinocchio Session

Friday evening twenty-six residents of this area gathered at the school house to play pinocchio. Six tables were in play during the evening. High scores were won by Mrs. Leo Lohman and Russell L. Perkins. Lows went to Mr. and Mrs. Elton McCoy, and the "goose" to Wayne Harris.

Lunch was served at the close of the evening by the hostesses, Mrs. Russell Perkins and Mrs. Given Mustoe, and the host, Given Mustoe.

The next party will be on March 19th, with Mrs. Alice Tarry and Mrs. Winifred Klueckholm as hostesses.

Meetings And Clubs

The Southwick 4-H Club postponed their meeting scheduled for March 4th until March 11, when they will meet at the home of Sandra Cantril.

Saturday night, March 13, will be 4-H Night at the Evergreen Grange at Teakean. All 4-H Club members of this community and their parents are invited to attend. There will be no Grange meeting, as this will be "Open House."

Right here, friends and neighbors, we would like to remind everyone of the Carnival to be given April 9th by the Southwick Homemakers Club at the Southwick gymnasium. Everyone is welcome.

The Homemakers Club will meet on Thursday with Hulda Harris, Marie Kuykendall will be the co-hostess. We would like to see everyone there.

General News

Wednesday, March 3rd, Mr. and Mrs. Russell Perkins went to Clarkston to be with their son-in-law and daughter, Mr. and Mrs. Lloyd Randall, Jr., and to celebrate Mrs. Randall's birthday anniversary.

On Thursday Marie Kuykendall and Agatha Perkins went to Teakean to assist in cooking for the "Farm Institute" held there that day. Others attending the meeting from this side were Mrs. Jessie Bashaw, Mrs. Viola Martin and Alma Betts.

Mr. and Mrs. Wilmer Hanks of Lewiston spent Sunday at the home of Mr. and Mrs. Elton McCoy.

Ruth Armitage and Patsy Cuddy went to Lewiston to attend the 4-H Club leaders meeting on Saturday.

Mr. and Mrs. Leland Marvin and son Darryl drove to Lewiston on Tuesday to spend the day.

Mr. and Mrs. Milton Benjamin were dinner guests on Sunday in the home of Mr. and Mrs. Rollin Armitage.

Mrs. Opal Southwick is at home after spending the past month in the Lewiston Orchards at the Lee Davis home, caring for the chinchillas, while the Davis family were on a vacation trip.

Mr. and Mrs. Jack Mustoe were Saturday evening guests at the home of Mr. and Mrs. Leland Marvin.

Mrs. Grace Jenni of Teakean called at the Leland Marvin home on Monday.

On Friday Leland Marvin went to Peck, where he spent the day assisting an uncle, Clinton Thompson, in de-horning cattle.

Mr. and Mrs. Lloyd Davis of Leone were dinner guests at the Russell Perkins home on Monday evening.

Mr. and Mrs. George Finke have returned home after a six-week tour of the Pacific coast, going down to southern California.

Mr. and Mrs. Aaron Wells and George Wells went to Pasco where they spent the week-end at the home of Mr. and Mrs. Walthea Wells and son.

Mr. and Mrs. Raymond Rodgers of Orofino spent Sunday afternoon at the home of Mr. and Mrs. Virgil Harris.

Mr. and Mrs. Charles Harris and family and Mrs. Millie Harris motored to Pullman Sunday, where they visited at the home of Mr. and Mrs. Earl Harris.

Mr. and Mrs. Don Cantril and John Longeiget, accompanied by Mr. and Mrs. Frank Cantril of Kendrick, went to Seattle to spend the week-end.

Mr. and Mrs. Everett Triplett and family of Lewiston Orchards, visited at the home of Mr. and Mrs. Harve Triplett over the week-end.

Guests at the Chet McIver home Sunday for dinner were Mr. and Mrs. Roy Gertje and sons, Mr. and Mrs. Don McIver and sons, and Mr. and Mrs. Oscar Lawrence and daughter Caroline.

Give Talk At Schoolhouse

At the request of Jordon Kanikkeberg and Mrs. Claude Jones, Manning Onstott, Soil Conservationist, and Mel R. Carlson, Forester, but also of the Soil Conservation Service, appeared before the seventh and eighth grade students to present an illustrated talk on "Conservation of Our Soils." They showed the classes the importance of soil saving practices being applied in our local community.

The talk stressed the importance of these practices to all, in that food is being washed down the creek whenever the water sheds are not correctly managed. They stated that it takes 2 1/2 acres of cultivated land for each person, in order to maintain our present standard of living. Each of us has a stake in all of the soil resources — it is as important as life itself.

Whenever the streams and creeks flow heavily laden with silt, you can be certain that somebody didn't care about applying good conservation measures on the watershed.

Cemetery Election Today

The attention of everyone is called to the NezTah Cemetery Maintenance District election which is being held today (Thursday) March 11, with the voting place the Kendrick City hall — and the polls open from 12:00 noon to 5:00 p. m.

Unless we have been misinformed, the proposed area, which was legally described in our issue of last week, is the last one in Latah county not a part of a cemetery district — and one of the last ones in Nez Perce county. Inasmuch as this is a proposed joint district, the name NezTah was chosen by mutual consent.

Some of the cemeteries in this proposed district are in a disgraceful condition — and a cemetery district certainly seems to be the answer.

NEWS ITEMS ABOUT LELAND RESIDENTS AND FRIENDS

Honor Birthday Anniversary

Judy Thornton, daughter of Mr. and Mrs. Wayne Thornton, was honored on her sixth birthday anniversary with a party at her home on Friday, March 5th.

Guests present were Janice Thornton, Gary Draper, Carol and Bruce Vincent, Jeanne Craig, Bradley and Joan Thornton and Lydia Wendland of Leland; Janet, Jane, and Cheryl Westendahl and Eric Medalen of Kendrick. Mrs. Ben Westendahl of Kendrick and Mrs. Lloyd Candler of Juliaetta were also visitors.

After an enjoyable afternoon of games, refreshments were served to the little guests by Mrs. Wayne Thornton.

4-H Club To Meet

The Leland Merry Stitches 4-H Club will meet Thursday evening at 7:00 o'clock at the home of Loeda Meyer.

General News

Mrs. Herman Meyer, Mrs. Lloyd Craig and Emil Silflow attended the 4-H Club leaders' meeting in Lewiston on Saturday.

Mr. and Mrs. Marvin Silflow and family were Friday night supper guests of Mr. and Mrs. Emil Silflow.

Kathleen Crawford, who is attending the U. of I., spent the week-end with her parents, Mr. and Mrs. Walter Crawford.

Mr. and Mrs. Wm. Johnson and family of Kendrick and Mr. and Mrs. Jesse Heffel and family of Fairview were Sunday afternoon visitors in the home of Mr. and Mrs. Gordon Peters and family.

Darlene Peters, who is attending K. B. U. at Spokane, spent the week-end with her parents, Mr. and Mrs. Gordon Peters.

Mr. and Mrs. Homer Parks, Leone and Lyle, were Thursday evening supper guests in the McCreary home at Kendrick.

Mr. and Mrs. Jesse Thornton spent Saturday night and Sunday in Moscow at the home of their son, Mr. and Mrs. Willis Thornton and family.

Mr. and Mrs. Charlie Roach of Pottlatch, visited Sunday with their son and daughter-in-law, Mr. and Mrs. Bud Roach and son. All were Sunday dinner guests of Mr. and Mrs. Homer Parks.

Mr. and Mrs. Gordon Peters visited Monday afternoon with Mrs. Helen Hinrichs and son Herman on Big Bear ridge.

Mrs. Robert Draper visited Friday afternoon with Mrs. Dora Heffel, who has been ill with the flu.

Ben Hoffman accompanied Mr. and Mrs. Howard Hoffman and family of Kendrick to Stevens, Wash., Friday, where they visited Mr. and Mrs. Allen Hoffman. Mrs. Ben Hoffman met them there, she having been visiting other relatives on the coast. All returned home Sunday evening.

The Junior Mission Band of Camerem met Sunday with Mr. and Mrs. Emil Silflow.

Mrs. Jennie Hund spent the past week visiting with Mr. and Mrs. Walter Crawford.

Walter Crawford, accompanied by Ben P. Cook of Kendrick, spent Sunday fishing for steelhead on the Clearwater. We did not learn their luck.

Kendrick Canyon Klub

The Kendrick Canyon Klub met on Wednesday, March 3, with Irene Millard. Eighteen members and one visitor were present. Roll call was answered with a "Safety Hint."

At the meeting Mrs. Helen Hunter gave a most interesting demonstration on "Lighting the Home." The "white elephant" was awarded Mrs. Joyce Brammer.

Delightful refreshments were served by Mrs. Millard and co-hostess Emma Broeke.

LAPWAL, GENESEE EARN TOP DISTRICT B. B. SPOTS

Wildcats Defeat Tigers

Lapwai's Wildcats surrounded the Kendrick Tigers with a flurry of goals in the last five minutes of play and won a 55-46 verdict in a crucial Second District class B high school basketball tournament game Thursday evening.

The victory boomed undefeated Lapwai into the finals of the double-elimination playoff and also earned them a day of rest.

A turn-away crowd of 1,899 provided the background for a fierce battle between a pair of fast-breaking, hard-fighting teams — Lapwai and Kendrick.

Ten times the lead changed hands, and it was tied nine times — at 6, 7, 9, 13, 15, 26, 30, 32 and 36.

Kendrick forged a 42-39 margin on Al Clemenhagen's turn and jump shot and Walter Wolff's long one two minutes into the final period. It was destined to be the Tigers last advantage.

Jerry Sobotta, Lapwai's top scorer, with 22 tallies, potted one from close range and added a rebound, which returned the edge to the Wildcats for keeps.

All told, Lapwai scored 11 successive points at that stage of play, while shutting out the Tigers.

After Jerry Sobotta's pair of goals — with five minutes to play, Eddie Madsen rebounded for two points, Jerry added a gift toss and a goal from the side. Madsen drove in for two tallies and Jerry set up a jump shot which was good.

Lapwai began to stall with three minutes left, adding its final points at the foul line.

Until then, it was a bell-ringing battle. The teams had split a four-game regular season series.

Lapwai pushed off to a 5-0 lead on a pair of Jerry Sobotta goals and Marcus Wilson's gift shot. Clemenhagen, Wolff and Ron Craig potted jump shots which tied it at 6-0. Six minutes into the game Kendrick broke a 9-9 deadlock for its first lead, 12-9. Wilson canned a short one from in front of the goal before the quarter ended with Kendrick leading 12-11.

There was never more than three points difference between the teams in the second period, which ended with a four-point show by Jerry Sobotta and his brother (Bob's) gift try for a 23-20 Lapwai advantage.

Kendrick caught the Wildcats at 26 on Ron Craig's foul shot after goals by Jim Armitage and Al Clemenhagen.

Lapwai made it 30-26, but Armitage tied it again at 30 and his second successive jump shot, Wolff's goal and free tosses by Clemenhagen and Ted Havens earned Kendrick a 36-34 edge at the end of the third.

Clemenhagen netted two foul shots making it 38-34, Kendrick. Ben Arthur and Bobby Sabotta teamed at the free-throw line to run Lapwai's tally to 39. Then Clemenhagen and Wolff followed with the goals which produced the last Tiger advantage.

Lapwai shot 68 times from the field, but made 19 for a 28 percent success. The Wildcats canned 17 of 27 free throws — a 55 percent average.

Kendrick managed a 24.6 percent average from the floor, sinking 16 of 65 tries. The Tigers sagged to 40 percent on the foul line in making 14 of 32 lofts.

Lapwai 11 23 34 55

In the second game of the evening Genesee defeated Pierce 40-33. — Lewiston Tribune.

Kendrick Loses To Genesee

Genesee battled past Kendrick with two minutes of play remaining and posted a thrilling 57-55 verdict in the semi-finals of the Second District Class B prep basketball tournament Friday night.

The game, played before 1,700 fans at Northern Idaho College of Education gym, earned the Bulldogs a chance at the district crown, and also insured them a spot in the regional playoffs at Moscow this coming week-end. The loss eliminated Kendrick.

Accurate shooting from far out marked the Genesee-Kendrick contest. Ron Craig of the Tigers capped the performance when he canned one from 47 feet out, just before the half ended. This shot, from five feet behind the 10-second line (the middle of the court) earned Kendrick a 37-35 edge.

The losing Tigers drove to a 43-36 advantage on goals by Craig, Clemenhagen and Wolff. Then Genesee turned on its second great drive and snatched the lead at 45-43. A pair of shots from the corner by reserve center Bob Parks was instrumental in the Genesee spurt.

Wolff regained a 47-45 edge for

Potlatch Creek Is Up

Yes, Potlatch Creek is, and is probably at its highest point for this year — although still far below that often seen on corresponding dates in years gone by.

The creek is running a yellowish chocolate, evidence of the soil erosion taking place, and from the color we would guess most of it comes from logging trails and drag gashes, as not enough rain has fallen to produce an appreciable run-off from farmers' fields.

Anyway, the stream is far from being at flood stage. The warm rains and winds of the past three days have undoubtedly been responsible for melting snow in the back areas to produce the run-off.

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mrs. Bob Magnuson and Mrs. H. C. Scupper drove to Spokane Friday to attend a class of instruction on the electric organ, with Peter Heapes, well-known organist, as instructor.

Mrs. Oscar Slind accompanied them and visited with her parents, Mr. and Mrs. Wm. Leland, while there.

Mr. and Mrs. Bob Fraser and children from Avery came here Friday to spend the week-end with home folks. Wallace Fraser, also of Avery, spent the week-end with his parents, Mr. and Mrs. Everett Fraser.

Mrs. John Darby left Wednesday morning for Umapine, Oregon, where she will spend a week in the home of their son-in-law and daughter, Rev. and Mrs. Harold Pressnall and family.

Mr. and Mrs. James Benjamin, Mr. and Mrs. Gunder Reierson and Mr. and Mrs. Ole Johnson, Jr., and daughter Theresa came down from Little Bear ridge Monday evening to enjoy a pot-luck dinner with Mr. and Mrs. Edgar Long.

Mrs. Paul Lind left Monday for jury duty in Moscow.

Mrs. Ed Brown and Mrs. Kenneth Brown accompanied Mrs. Don Brown to Gold Hill Sunday afternoon to attend a pink and blue shower in honor of the latter.

Miss Kathryn Brown was home from Moscow over the week-end.

Marlene Silflow spent the week-end in Spokane with her sister, Barbara, who is attending KBU at that city.

Mr. and Mrs. Elwood Pearson of Lewiston spent the week-end with Mr. and Mrs. Walter Silflow and family.

Mr. and Mrs. Walter McCall and family and Mr. and Mrs. Dick McCall and daughter of Lewiston came up for dinner Sunday at the home of their parents, Mr. and Mrs. Walter McCall. The dinner honored Bob McCall, who leaves Friday for Los Alamitos, Calif., Naval Air Station, where he will attend a 90-day Naval reserve school.

John Miller, U. of I. student, was a week-end guest of Bob McCall.

Mr. and Mrs. Donald Bateman and children of Headquarters came down Saturday to spend the week-end with his parents, Mr. and Mrs. Grant Bateman and son Jerry.

Mr. and Mrs. Marion Rowden and Mr. and Mrs. Ernie Andrews attended a dance at the Moose lodge in Lewiston Saturday evening.

Mr. and Mrs. Dick Watson and baby were Sunday guests of Mr. and Mrs. Marion Rowden.

Mr. and Mrs. Walter McCall spent Monday evening in Lewiston at the home of their son, Dick, and family. Dick is ill with the flu.

To attempt to name those attending the basketball tournament in Lewiston, even for one of the nights, would be an impossibility — but they were "legion."

Parker McCreary left Wednesday afternoon for Spokane, and then on to Fort Ord, Calif., for service with the army. He was taken to Moscow by his mother, Mrs. W. L. McCreary, and Leone Parks.

Over the week-end Mr. and Mrs. Howard Hoffman and family and Ben Hoffman drove to Stevenson, Wash., to visit relatives and to bring home Mrs. Ben Hoffman, who had been visiting there. They report the drive as very scenic.

C. H. Goan took the train for Stevenson, Wash., Friday, where he will visit several days in the home of his son-in-law and daughter.

Dr. and Mrs. G. W. McKeever, accompanied by Mrs. John Johanson, left Sunday for Portland. The McKeevers will visit in the home of their son-in-law and daughter, Mr. and Mrs. Iyde Daugherty, Jr., and family, at Eugene, Br. Johanson will visit her son-in-law and daughter, Mr. and Mrs. Donald Lehman and family at Portland.

Mr. and Mrs. Chas. Hicks, American ridge, left last week for Riggins Hot Springs, Riggins, Idaho, where they will spend the summer.

Mrs. James Burns returned from the St. Joseph's hospital, Lewiston, following treatment, last Friday evening, and is convalescing at her home here.

Mr. and Mrs. Gerald White and son of Moscow were week-end guests in his parents, Mr. and Mrs. E. M. White.

Mrs. Ernest Stickman and Mrs. Wilford Mishishnek, both of Lewiston, were Friday guests of Mr. and Mrs. Charles Candler. The two women are Mrs. Candler's sisters.

Mrs. Olean Skagg and Mrs. Charles Candler spent Wednesday afternoon visiting in Lewiston.

Thursday of last week Mrs. Pearl Choate of Teakean visited with Mrs. Vernon Choate and daughter Marcia. Dinner guests in the Vernon Choate home Friday were Mr. and Mrs. Elwood Pearson of Lewiston.

WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

Hicks Place Sold

Mr. and Mrs. Charlie Hicks have sold their farm here to Mr. and Mrs. Fred Ostman of Lewiston Orchards. The Ostmans, with their small son, took possession Sunday. Mr. and Mrs. Hicks have gone to Red River Hot Springs, where they will be employed.

Mrs. McAllister To Hospital

Mrs. E. O. McAllister, who has been ill with pneumonia, was taken by ambulance Saturday to a Pullman hospital. She has been in an oxygen tent since that time, and her condition is considered serious.

Parents Of Daughter

Mr. and Mrs. Asa Cook received word of the birth of a daughter last Wednesday to their son-law and daughter, Mr. and Mrs. Nels Homsley at the Britman Memorial hospital in Moscow.

General News Notes

Mr. and Mrs. Everett Custer and Mrs. Lucile Hartung and daughters of Pullman, and Mr. and Mrs. Eldon Heimgartner and son were Sunday dinner guests of Mr. and Mrs. Sam Gruell.

Mr. and Mrs. John Hill of Lewiston and Mr. and Mrs. Wm. Carlton were Saturday evening dinner guests of Mr. and Mrs. Charlie Irwin.

Saturday afternoon callers at the Harvie Shepherd home were Mr. and Mrs. Max Stewart and sons of Lewiston.

Orville Fallwell underwent surgery at a Spokane hospital last Friday. He lives on the Irwin property below town.

Mr. and Mrs. Les Mosher and mother of Sandpoint spent the week-end with the Fred Wendt family.

Mike Hedler made a business trip to Seattle last week.

Mrs. Beulah Peters of Pullman visited here over the week-end.

Miss Esther Marie Andersen, a sophomore at the U. of I., was a Saturday over-night guest in the Cecil Gruell home. Miss Andersen's mother and Mrs. Gruell are cousins. Her home is at Rockland, Idaho.

Sunday guests of Mr. and Mrs. Harvie Shepherd were Mr. and Mrs. Tom Femreite and son Gary of Deary; Mr. and Mrs. Harold Milton and son Terry of Troy, and Mr. and Mrs. Wayne Shepherd of Lewiston.

Mrs. M. C. Halliday, Mrs. Sam Gruell, Mrs. Frank Wagner and Mrs. Lura Nelson attended the World Day of Prayer Services at Leland, Friday.

M/Sgt. Revis McAllister and two children visited last week with his mother, Mrs. Vada McAllister. Sgt. McAllister, who has spent 22 years in the Marine Corps, has been stationed in Hawaii. They left Friday for his new assignment in New Orleans, La.

Mrs. Charlie Irwin received word of the death of her nephew, Walter W. Poyfair, Friday, at Eugene, Ore. Mr. Poyfair, a former Juliaetta resident, will be buried at Palouse.

Mrs. Ivy Bausch, Leo Bausch and daughter Carol of Lewiston were Sunday visitors at the Dan Bausch home.

Mr. and Mrs. Ray Howard left Sunday for a visit with relatives in Montana and North Dakota.

Mrs. Fayne Corlick and daughter Jane Stephens of Troy, spent the week-end with Mrs. Georgia Southwick and children.

Mr. and Mrs. Dale Mabbutt and daughter of Craigmont spent Friday at the Ervin Mabbutt home.

Pink And Blue Shower

Mrs. Don Brown (nee Mary Ellen Weaver), Kendrick, was honored on Sunday afternoon with a pink and blue shower, given in the George Lyons home, with Mrs. George Lyons and Mrs. Ted Weaver as co-hostesses.

After participating in several appropriate games, the guests watched the honoree open and display the many lovely and useful gifts that were arranged about an umbrella, with pink and blue bows over the top.

Delicious refreshments of cake, ice cream, coffee and punch were served by the hostesses.

Guests from out of the community were Mrs. Ed Brown, Mrs. Kenneth Brown and the honoree, Mrs. Don Brown, all of Kendrick.

Playing In Tournament

Mr. and Mrs. Floyd Millard have received word from their son, Pfc. Herb Millard, serving with the army of occupation in Germany, saying that he was in Paris this week, playing in an 8-team basketball tournament, all the teams being from various Armed Service branches.

Herb added that the regular season of play was over, and that the team with which he was playing had tied for first place (in regular season play) but in the play-offs his team had lost by a score of 57 to 62 giving them second place, but still good enough to put them in the Paris tournament.

News Included This Week

Last week, in order to get in a full account of the tournament games for the benefit of the fellows in the service getting the Gazette, several worthy articles were forced out — and will be found in this week's issue.

Our apologies to those who wrote them or furnished information for their preparation.

Ill With Measles

Duane Harris, little son of Mr. and Mrs. Gerald Harris, Lewiston, has been quite ill with the measles.

His grandparents, Mr. and Mrs. Oscar Madalen, called to see him Sunday.

Road To Be Closed

The main Idaho North-South highway, U. S. 95, between Lucille and Riggins, is to be closed for major repairs during the coming next several weeks. It will be opened for brief periods a few times daily to permit traffic to pass — but these periods are not frequent.

Posted in most garages, service stations, hotels, motels, etc., will be found an official notice giving the hours on which the road will be open to passage of accumulated traffic. Better consult one of these tables if planning to drive south — it might save you a wait of hours somewhere along the Salmon river.

Garage To Be Built Soon

Heimgartner & Sparber were the successful co-bidders for the construction of the new school bus garage. This building will be constructed on the village lots behind the Kendrick Hotel. Work on this project is expected to begin immediately, with completion as soon as possible.

Inspector Visits School

On Tuesday of this week, Inspector Shoune, state high school inspector, visited our school and watched how it is being operated. He sat in on some of the classes and gave, to the teachers some helpful advice on improving class work. He also visited the library and gave advice on improving the library facilities.

WHAT HAPPENED HERE TWENTY YEARS AGO

Baby Girl Arrives — Mr. and Mrs. Hinkle W. Cox, living on Potlatch ridge, are the parents of a fine baby girl, born to them Friday, March 2, weighing 8 pounds.

Little Girl Breaks Arm — Maxine Bigelow broke one of her arms while roller skating last week. . . . Vernon Kite, son of Mr. and Mrs. John Kite, is also suffering with a broken arm. Vern is carrying his left arm in a sling as both bones in the forearm were fractured while playing around an old automobile.

Theater Improvements — The Schupfer Brothers installed some new equipment in the Kendrick Theater this week, which will be ready for this week's showing of "Moonlight and Pretzels" said to be one of the best musicals ever to be shown in Kendrick. The new equipment is of the new "wide-range sound on film" variety and is as new and up to the minute as can be found anywhere.

Has Infected Leg — Fred Schoeffler is suffering with an infection in one leg, caused by a slight abrasion. The pocket was opened Sunday, and the patient is recovering nicely.

Teakean — Mrs. John Lind is spending some time in Kendrick helping to care for her grandson, Gene Lind, who is ill with typhoid. . . . Mrs. Wm. Groseclose returned from Oregon last week where she had been visiting her daughter, Mrs. Leslie Garrison and family. She reports a mild winter in the Willamette valley with roses in bloom.

Southwick — Everett Triplett was operated on for appendicitis last week in Lewiston. . . . Delbert Hayward is driving a new Chevrolet truck. . . . Frank Thornton visited Sunday at the Burt Card home. . . . Mr. and Mrs. Roy Southwick were Sunday guests in the John Lettenmaier home. . . . Mrs. Henry Jones returned home Thursday after a visit in Kendrick.

Personals — Miss Rowena Ramey came down from Spokane Saturday, where she is attending school and stayed over night with her parents, returning Sunday. . . . Mrs. Everett Fraser and daughter Ethel, accompanied by Mrs. Rose Farrington and daughter Helen were Lewiston visitors on Saturday. . . . Mrs. S. S. McAllister went to Moscow Saturday to visit her daughter, Nona. . . . Edgar Long and John Kite were Lewiston visitors Monday. . . . O. W. Sherbon and Bernard Jones were business visitors in Orofino, Saturday. . . . Mrs. Wade T. Keene returned last week from Orofino, where she had gone to visit her father, Doug. Hunter. . . . Joan Grinolds, who is attending school at Lewiston, spent the week-end with her parents, Mr. and Mrs. Jake Grinolds.

Honor Rolls — The Seniors led in the highest honor roll the past six weeks, with the sophomores coming in second, the freshmen third and the juniors fourth. The following were in the highest honor roll: Kathryn Emery, Mildred Wegner, Maxine Keene, Allene Rider; Sophomores, Mary Elizabeth Thompson and Elmer Emery, Freshmen, Jean Bigelow. Those on the Honor Roll were: Seniors — Lawrence Schwarz, Annabel Davis, Erna Wegner, Leola LaHatt, Jayne Plummer, Juniors — Clem Lyons, Margaret Daugherty, Reva Berreman and Jeanne Ramey. Sophomores — Joe Watts; Freshmen — Margaret Schultz, Madeline Schultz, Emma Steiger and Cleota Bolon.

Guessing Game Is Still On

Inland Empire residents have two more chances to win a brand new electric clothes dryer in the current "sunshine-guessing" contest being sponsored by the Inland Empire Electrical League.

Robert Wilkinson, managing director for the League, reported from Spokane this week that several thousand entries had been received since the novel seven-week contest got underway on February 1, and that the volume was increasing each week.

A total of 14 electric dryers, furnished at the rate of two a week by Spokane distributors, have been offered as top prizes for the best sunshine predictions by contestants. Another 14 third and fourth place winners are receiving free dryer installations from the Inland Empire Chapter of the National Electrical Contractors association. The League supplements a "Winter Sunshine" sales campaign of the Washington Water Power company.

Wilkinson said as many as 1,100 entries have been received in a single week. "They are pouring in from all points of the Inland Empire," he disclosed.

"During the first four weeks of the contest," he said, "dryers were won by contestants from Spokane and St. John, Wash., and Rathdrum, Moscow and Nez Perce, Idaho, while free wiring jobs were awarded to winners in Lewiston, Reubens and Moscow, Idaho, and in Spokane and Valley Ford, Washington."

Contestants may obtain entry blanks from any electrical dealer, then guess the amount of sunshine that will fall on Spokane the following Monday. This Saturday night is the deadline for next week's contest, and March 13 is the deadline for the last week of the contest.

Krugers Buy in Kendrick

Mr. and Mrs. Elton Wilson report the sale of their modern new home in the east part of Kendrick to Mr. and Mrs. Gus Kruger of Cameron, the deal being closed last week.

Mr. and Mrs. Wilson and family will continue to occupy the house until next October, when the Krugers take possession.

Home From Hospital

Mrs. Keith Thornton and baby daughter arrived home from the hospital in Lewiston Saturday. They will spend several days at the home of her parents, Mr. and Mrs. E. M. White before going on to their home at Leland.

Moving To Juliaetta

The Kendrick Shoe Shop, which has been located on Village ground for the past several years, is moving this week to Juliaetta, a move made necessary to clear the ground for erection of the new school bus garage.

Building and equipment will be moved intact.

PERSONAL MENTION

On Saturday Mr. and Mrs. Albert Brown of Sanders, Ida., were callers in the Vernon Choate home.

Robert Steilman of McCall, Ida., was a dinner guest in the home of Mr. and Mrs. Vernon Choate Tuesday evening.

Mrs. Chester Vincent entered the St. Joseph's hospital, Lewiston, on Tuesday, for treatment.

Mr. and Mrs. Cahrls Easterbrook and Mr. and Mrs. Irvin Swenson returned Monday from Seattle and Marysville, Wash. They visited members of the Craig family at Marysville, and with other relatives and friends.

Mr. and Mrs. Herman Travis and son Donny were dinner guests Saturday in the home of his parents, Mr. and Mrs. Jack Travis.

NEWSY ITEMETTES FROM AMERICAN RIDGE AREA

Hi-Hope Club

The Hi-Hope Club will meet next Thursday, March 18th, at 1:30 p. m. at the home of Mrs. Frankie Benschoter. Mrs. Helen Hunter will give a demonstration on "Rug Making."

General Itemettes

Mr. and Mrs. Frankie Benschoter were Tuesday evening diner guests of Mr. and Mrs. Wayne Davis.

Mrs. Frankie Benschoter accompanied Mrs. George Havens and son Ira to Moscow, Friday.

Mrs. George Havens reported for jury duty in Moscow, Monday.

Ted Havens was an over-night guest of Teddy Meyers at Cameron, Tuesday.

Mr. and Mrs. Davis were over-night guests of Mr. and Mrs. Wayne Davis and family.

Mr. and Mrs. Wayne Davis and family visited in Pullman on Monday.

Mrs. Lawrence Heimgartner and Mrs. Harold Roberts attended a luncheon at the Moscow Hotel Monday. The luncheon was given by the Washington Water Power Co. for the 4-H Club leaders of Latah county.

Mrs. Lawrence Heimgartner and family visited with Mrs. Otto Schupfer Tuesday afternoon.

Mr. and Mrs. Sheldon Hill and Mr. and Mrs. Frank Hill visited with Mr. and Mrs. Ernest Andrews and family Sunday afternoon.

Mr. and Mrs. Clyde Nichols of Clarkston were week-end guests of Mr. and Mrs. Ed. Kent.

Mr. and Mrs. Ernest Roberts of Lewiston were Sunday evening visitors in the home of Mr. and Mrs. Nora Callison and family.

Mrs. R. J. Nelson and "Jot" Nelson of Genese visited in the Robert Nelson home Tuesday morning.

Mr. and Mrs. Jesse Mizer called on Mr. and Mrs. Nora Callison Tuesday morning.

Mr. and Mrs. George Havens and sons Ira, Charles and Rayner drove to Lewiston Sunday to see the picture "Martin Luther."

Mr. and Mrs. Lawrence Heimgartner and family visited with relatives in Lewiston, Sunday.

Nancy Callison was an over-night guest of Mr. and Mrs. Howard Hoffman, last Tuesday night.

Nora Callison was in Lewiston on business, Wednesday.

Callers in the Robert Smith home Sunday afternoon were Mr. and Mrs. Robert Nelson, Mr. and Mrs. Nora Callison, Mr. and Mrs. Wayne Davis and children, Mr. and Mrs. Harley Eichner, Mrs. Harold Roberts and daughter Celia and Mrs. Andy Cox and daughter Andy Sue.

Mr. and Mrs. Harley Eichner were Sunday evening visitors in the Wayne Davis home.

Mr. and Mrs. Clarence Dougharty spent Monday with Lawrence Dougharty in Lewiston.

Mrs. Walter Benschoter and daughter, Mrs. Frank Hoisington, were Lewiston callers on Monday.

Mr. and Mrs. Arlie Armitage were Monday evening supper guests of Mr. and Mrs. Walter Benschoter and daughters.

Sunday guests of Mr. and Mrs. Walter Benschoter and family were Mr. and Mrs. Frank Hoisington of Juliaetta; Mr. and Mrs. Ernest Roberts of Lewiston; Mr. and Mrs. Dick McCall and daughter, Lewiston; Mr. and Mrs. Arlie Armitage of Southwick and Marjorie Ingle. The occasion was Nita Benschoter's birthday anniversary.

Mr. and Mrs. Wayne Davis and family were Wednesday (last) evening dinner guests of Mr. and Mrs. Harley Eichner.

Mr. and Mrs. Frank Hoisington of Juliaetta stayed at the Walter Benschoter home last Friday while Mr. and Mrs. Benschoter were in Spokane.

Mr. and Mrs. Ed. Peterson are visiting his sisters in Portland.

Mr. and Mrs. Kenneth Schei held "Open House" at their home in Clarkston, Sunday afternoon, Feb. 28, honoring his parents, Mr. and Mrs. Martin Scheis' 52nd wedding anniversary. The Scheis were former ridge residents.

Mrs. Helen Hunter will meet with the Happy Home Club Tuesday afternoon, March 16th, to demonstrate "Rug Making." This meeting will be at the Community hall.

Mrs. Oscar Slind visited her parents in Spokane, Friday.

Mrs. Joe Clemenhagen was in Yakima, Wash., last week, to attend the marriage of her daughter, Fern.

Mr. and Mrs. Harold Peterson of Troy are the parents of a son, born to them March 8, at the Gritman hospital in Moscow.

Ira Havens of Juliaetta canvassed this ridge as Deputy Assessor, last week.

Hans Lien is confined to his room at Couer d'Alene Homes in Coeur d'Alene, by illness.

Quonset-Type Huts Meet Storage Needs
'Little Business' Answers Challenge in Grain Belt

Called upon by the department of agriculture to perform a modern miracle, "little business" in 10 midwestern states is tackling one of the biggest jobs of its kind ever undertaken anywhere in peacetime. Its Herculean assignment is the site preparation and erection of 2,300 steel buildings—each 32x96 feet or larger—at 670 widely separated locations.

The task arose with the grain belt's acute need for space in which to store the record-breaking carry-over of 1948's corn crop. In line with the trend toward economical "horizontal" grain storage, the department ordered Quonset buildings for a large part of the necessary new facilities. These arched steel units now are mushrooming up beside highways and railroads near farm centers through the efforts of local businesses and labor, rather than the work of transient crews employed by a few big and distant contracting firms.

Within two weeks time more than 1,100 concrete foundations had been laid, and erection of steel was under way on them in every state. The concrete work alone was roughly equivalent to laying 25 miles of highway in a time that an average road-making crew would require to put down one.

Grain being loaded into Quonset huts for CCC storage near Paulding, Ohio.

Terramycin Said Effective Against Pinworm Infection

Infection caused by the pinworm, the most common and widely distributed of all human parasites, can now be successfully treated with terramycin, according to a team of 6 American doctors conducting clinical trials in Haiti.

Treating 61 cases of pinworm infection, the physicians found terramycin effective in all but two patients. Clinical trials with the wide-range antibiotic drug were undertaken because, said the doctors, "the usual treatment with gentian violet often does not eradicate the infection, and not infrequently the drug must be discontinued due to toxic reactions." Several of the patients who had taken gentian violet previously said they found terramycin "considerably more tolerable."

Pinworm infection is found throughout the world and in all ages. Public health experts estimate it affects 35 per cent or more of the general population. In southern states 50 to 60 per cent of all children have had it. Caused by a small white worm, its most disturbing symptom is itching. "Often scratching brings about a secondary infection. Pinworm may interfere with eating and result in loss of weight and anemia. The disease usually infects the entire family."

In their clinical report, appearing in the current issue of the medical journal, "Antibiotics and Chemotherapy," the doctors point out that successful therapy depends upon simultaneous treatment of the whole family. In this respect one of gentian violet's disadvantages, they say, is that young children often cannot swallow the enteric-coated tablets.

Whenever possible, the medical team in Haiti examined whole families and treated them simultaneously with terramycin. Full cooperation was not always obtainable, but "despite inadequate dosage in a large number of cases," says the report, "in only 2 instances did treatment definitely fail by the fourth week after therapy was begun."

North Carolina Attacks Highway Safety Problems

A sound program to promote safety on the highways has been set in motion by the state of North Carolina. The appalling number of deaths and injuries resulting from motoring accidents in recent years has provoked this state to take action of a new and decisive type.

Since the first of July, applicants for driver's licenses and renewals have been required to have their eyesight tested on a complex instrument which measures 12 visual skills, including muscular balance, acuity at near and far distances, and depth perception. The instrument makes it impossible for drivers with poor vision to slip by, by memorizing the letters that they must read—a trick sometimes played with conventional charts. Those who fail the tests are advised to consult an eyesight specialist, and many of them will undoubtedly be enabled to pass by professional eye-care.

Good vision has long been recognized as a major factor in accident prevention, and thousands of hours have been spent in attempts to establish proper standards for motorists. But the results were always inconclusive, because too much of the element of personal opinion was involved. Under the new system, however, definite statistics on 1,300,000 drivers will be obtained by next July 1, and it will be possible to judge accurately which visual errors contribute most to accidents and which visual skills are most essential to highway safety.

A Comet's Weight

What is the weight of a comet? Weight is a measurement of the attraction of the Earth for a body on or near its surface, and as a comet moves far out in space, and is subjected to a varying attraction from the Earth and other planets, one should not speak of its "weight." Its mass, which is a measure of the amount of matter it contains, can only be determined roughly. It has been estimated that with Halley's comet the nucleus, which contains most of the material, has a mass of about a two-hundred-millionth of the Earth's mass. This would be about thirty million million tons. It has also been determined that the particles of which Halley's comet is made could not be held together by the gravitational attraction of a mass smaller than one twenty-fifth of the above figure. Most comets, however, are much smaller than Halley's, and have considerably smaller mass.

Schedule Is Wise

A regular painting schedule actually simplifies property protection. One wise farmer does a fourth of his buildings each year. In that way, each gets its necessary coat of protection every four years without fail, and each year's painting project can be fitted in as other outdoor work permits. While city dwellers do not have as many structures to safeguard, they are wise to look on painting as property-value insurance and to follow a regular schedule.

Chile Produces Some Of World's Best Wool
Three-Fourths of Crop Is Shipped to U. S.

The small American farmer has learned from experience just how profitable a small flock of sheep can be to his general farm program. And in the western part of the country great flocks are maintained by producers.

One of the greatest producers of wool, now selling at a record price, is Chile. The industry is valued at \$170,000,000 and employs more than 10,000 people.

Chile's first sheep were brought from Spain by the Spanish conqueror Pedro de Valdivia over 400 years ago. In 1877, 300 head were brought to the Punta Arenas area from the Falkland Islands.

The huge English Marsh Romney will produce 12 kilos of long staple wool, or 30 pounds. This type wool is often called the best in the world.

The industry specializes in the famous English Marsh Romney sheep which produces, according to many experts, the finest long staple wool in the world. Today, Chile has a total sheep population close to 7,000,000 head.

Three quarters of the nation's wool crop—about 15,000 metric tons—goes to the United States. England gets the remainder.

Farm Worker Crop Output Triples in Fifty Years

Fifty years ago a farm worker produced enough food for himself and five other persons. Today the crops raised by a single worker are sufficient for 15 persons. Although machinery has had much to do with this spectacular productivity record, a major factor is the expanded use of fertilizers. The nation's farms last year consumed 18,346,132 tons of soil food—six times as much as in 1901—at a cost of \$744,000,000.

At the turn of the century 265 million acres of crop land, tilled by 13 million farm workers, were needed to supply the crops required by a population of 76 million. Now 10 million workers produce from 345 million acres of land the food required by twice as many Americans, as well as thousands of persons in other countries.

Agricultural authorities say that the use of fertilizer is responsible for roughly one-fourth of the volume of all crops. The use of fertilizer is expected to continue upward for an indefinite period.

Seed Beds

It is a long time from planting seed beds, but gardeners and farmers might spend some of their spare time during the winter months making one. Seed beds with plastic covers are hailproof, shatter-proof and light in weight. A plastic-coated wire mesh, weighing less than glass, passes on to the plants most of the sun's ultraviolet and infrared rays. This material is available at most farm equipment dealers and hardware stores.

Poultry and Egg Eating Increases, Experts Say

Poultry experts report the American family is consuming more poultry and eggs and predicts the increase will continue during the rest of 1951. Forecasts indicate the average American will have eaten 30 pounds of chicken by the end of 1951, 10 per cent more than last year. 406 eggs, slightly more than in 1950; and about five pounds of turkey meat, approximately the same as last year.

Johnson's Story of Success Started About 65 Years Ago

When Samuel Curtis Johnson began making parquet flooring in his Racine, Wis., workshop 65 years ago, he little dreamed of the turn his business would take.

It was a small operation, with two men and two boys doing all the work, but they were thorough craftsmen. Their flooring can still be found in old American homes.

Mr. Johnson, reading his mail by lamplight in the evening, noticed that more and more customers were turning to him for information on how to care for floors. Knowing that many floors in Europe had withstood the tread of centuries, thanks to wax, he recommended that his customers use the same substance.

Within a few years the Johnson company was manufacturing its own wax and wood finishing products. They subsequently found that the sideline was outstripping the main products in volume of sales. In 1916, with simple tastes in home decorating becoming more evident, the company abandoned its parquet business and concentrated on wax products.

Today, with the founder's grandson, H. F. Johnson, at the helm, the company ranks high in American industry. Its main office and laboratory in Racine, the plans for which were drawn by Frank Lloyd Wright, is a symbol of industrial growth. The company has offices and plants in Canada, England, France, Australia and other parts of the world. It has a refinery and plantation in Brazil where the world's supply of carnauba wax is obtained.

The little group that began the manufacture of parquet flooring in the back-street workshop 65 years ago could never have guessed they were sowing the seed of a business that was to make Racine the wax center of the world.

Nurse Braved Fever, Risked Life to Help Malaria Fight

Feeding disease-laden, killer mosquitoes once was the hobby of an elderly Baltimore nurse.

Miss Lena Townshend, now 78 years old, hoarded spare time from her nursing duties to provide life-sustaining sugar water for the caged mosquitoes used in yellow fever experiments by the late Army doctor and scientist, Major Walter Reed.

As a civilian nurse, Miss Townshend's 16-month affiliation with Dr. Reed and his important work was unofficial but she made a definite contribution to the project's success. Her experience with the menacing mosquitoes today are a fond memory in her career, 38 years as a practicing nurse.

While the Army prepared to honor Major Reed by observing the centennial of his birth, September 13, the gray-haired nurse was proud but modest in a discussion of her work in the fever-ridden country that was Cuba in 1901.

Miss Townshend went to Cuba due to a post-war shortage of nurses and a personal desire for foreign duty at the turn of the century. As night superintendent of Havana Municipal Hospital No. 1, she had a role in the fight against another epidemic of that time, typhoid fever.

Her "spare time" work was done in Dr. Reed's laboratory, one part of the hospital, after she already had put in 12 hours of night ward duty. She worked on the yellow fever charts which Major Reed, maintained for the benefit of government and private hospitals in this country in addition to feeding the mosquitoes.

Interested both in the capture and care of the man-killing insects, Miss Townshend paid little heed to the other laboratory animals, guinea pigs and rats. She said she wasn't afraid of them but "I just didn't like them."

Although she nursed both yellow and typhoid fever cases—so many that she is unable to count them—Miss Townshend escaped both diseases.

Sunken Ore

About 100 years ago on the Marquette Range in Michigan, ore cars were sent down a long, descending grade to a Lake Superior dock. But sometimes the ore plunged to the bottom of the lake. In the 1850's, a strap iron railroad was built down the grade from the mines to the docks in Marquette harbor, 12 miles away. Strings of cars were loaded with ore and coasted by gravity down to the waterside. A brakeman rode each string of cars. The hand brakes of the period were far from efficient. Sometimes the cars continued off the end of the dock, and landed at the bottom of Marquette harbor. At intervals later cargoes of iron ore were dredged up where the old cars leaped to a watery grave.

Horns and Antlers

Horns, such as occur on cattle, sheep and Old World antelope, have a bony core. Over this is a layer of a material called keratin, which is similar to the calluses that occur on the palms of the hands or the soles of the feet. The antlers of the deer are different, as they consist of a growth of connective tissue which becomes hardened with the deposition of calcium. Antlers are shed annually and grown anew, as also are the horns of some animals, such as the prong horned antelope.

DO IT YOURSELF

SUGGESTIONS CARRIED OUT BY NATIONAL ADVERTISING

"DO IT YOURSELF" WITH THE DELTASHOP

This right combination of basic power tools... tilting blade CIRCULAR SAW, JOINTER-PLANER, DRILL PRESS and SANDER on one stand with one motor... does 95% of your home improvement jobs. Buy it as a complete unit or a tool at a time. Ask your Dealer for details.

DELTA POWER TOOL DIVISION
ROCKWELL MFG. CO.
400 N. Lexington, Pittsburgh, Pa.

Sweat down your production costs if you want to maintain profits in these days of declining farm prices. One way to sweat down those costs is to increase your crop yields per acre. More bushels of corn and grain per acre, more pounds of meat, milk, dairy products and poultry mean lower production costs per unit. On such a basis you can make a profit even if prices slacken further.

You can get those higher yields and lower costs with good soil management. Good soil management means giving your soil a fair deal. It means supplying the soil a well-balanced ration of plant foods, so crops will be well nourished. It means building up instead of breaking down soil structure and tilth. It means "recharging" the land with soil-enriching crops at regular intervals, instead of growing soil-draining row crops year after year on the same land.

LAY THE TILE WORTH YOUR WHILE

Lay the linoleum tile that's grease resistant, long-wearing, easy to clean, resilient (not hard and clattery). Lay genuine inlaid Gold Seal Linoleum Tile. It's so easy to install, lining felt is built in. Can actually be cut with scissors. Satisfaction guaranteed—or your money back. 29 colors, 9" x 9" tiles, only about 19¢ ea.

Dangers of Butchering At Home are Outlined

Home butchering is profitable on the farm and many rural families are replenishing their lockers, jars and pantries.

But, unless undue caution is used, home butchering can be dangerous. Equipment, too, should be used with care. All knives should be kept in a suitable place when not in use. Hoisting equipment should be checked. A tamper should be used to force meat into the grinder.

TRUE TEMPER "Kelly Perfect" Hammer

Here's a basic tool for any home craftsman, built by True Temper for long service.

- Built from high carbon hammer steel, tempered and hardened 3 ways.
- Improved bell-face design, finished mirror smooth.
- Fire-hardened hickory handle, oval shape, high lustre finish.
- Four-way tapered eye holds head in tightly.

TRUE TEMPER CO.

Attention to Details Pays Off for Hog Farms

Attention to details is the biggest reason why some hog farms earned \$2,000 more than some others during the past year.

F. J. Reiss, farm management specialist in the Illinois college of agriculture, said that 128 high income hog farms averaged \$10,200 earnings from swine last year, while 161 less-efficient farms took in only \$8,000. Extra care at farrowing, control of parasites, helped

Medical School Enrollments Are Setting New Records

Medical schools of the United States in the last year took further steps to protect the future health of the nation by enrolling the largest number of students in their history.

This was revealed in the 51st annual report on medical education in the United States and Canada, compiled by the Council on Medical Education and Hospitals of the American Medical Association. The report was prepared by Dr. Donald G. Anderson of Chicago, secretary of the council, and his aides, Dr. Francis R. Manlove and Mrs. Anne T. Pinner.

A total of 26,191 students were enrolled in 79 approved schools in the United States for the 1950-51 academic year. This compares with the previous high record of 25,103 in the year before, an increase of 1,088 (4.1%). Since 1941, when there was an enrollment of 21,379 students in 77 approved schools, the increase has been 4,812 (22.5%).

The report also disclosed that the current academic year will see a continuation of this increase in medical education because of the enrollment of a record freshman class. It is estimated that about 7,400 new students will enter medical schools, compared with the previous record of 7,182 a year ago.

Also important from a future health protection standpoint was a survey which showed plans were under way in many states for the opening of additional medical schools and for the expansion of existing facilities.

"Significant progress is being made toward resolving the financial problems of the medical schools," the report also said. "Funds available to the schools during 1951-52 will total approximately \$109,600,000, which represents an increase of \$36,000,000 in the last four years."

Psychologist Believes Kids Aren't Bad—Just Problems

There are no "naughty children" or "problem children," in the opinion of one distinguished child psychologist, there are only "children with problems."

"In modern days, we should not talk any longer about 'the naughty child' or 'a problem child' but should try to find the reasons back of the problems of the child."

Dr. Reymert, who is Director of The Mooseheart Laboratory for Child Research at Mooseheart, Illinois, explores some of these reasons and finds that most of them are related to a lack of understanding of the child and his needs, on the part of the parent.

He observes that "one child may be naughty because he feels that he is being blamed and criticized too much. Another child may misbehave because he feels that his parents are not interested in him and do not pay enough attention to him. A third child may use this means to rebel against excessive restrictions or confinements."

"It is toward removing the cause or causes for the child's naughtiness that we must turn our attention rather than toward even stricter and more severe discipline," Dr. Reymert points out.

Insomnia

Although many people are troubled with various types of insomnia, there is no one who "just can't sleep at all" for any length of time. There is a type of insomnia where one can't get to sleep easily, but after he has fallen asleep, he sleeps soundly. In another type, the person awakens often during sleep and, although he seldom stays awake for long, things he is awake for hours. Still another type is the person who awakens early and can't get back to sleep. The person who "just can't sleep at all," however, is non-existent. It is impossible to live without sleep. Even though one is troubled with insomnia, if he has a good sleep foundation, he will doze off—although he may not realize it. On a good quality sleep foundation, it is impossible to resist sleep for long unless there is something physically wrong with a person.

Stop Sediment

To prevent the sediment that accumulates in the bottom of a tea kettle from hard water, throw away immediately the remaining amount of boiling water which you are not going to use. Do not allow the boiling water to settle in the kettle. Installation of a water softener, to treat the hard water and get rid of the compounds that cause the sediment, would also eliminate the deposit.

Earth and Gravity

The force of gravity is lessened by the centrifugal force produced by the Earth's rotation because of centrifugal force. The effect of gravity at the equator is about one part in 289 less than it would be on a stationary Earth, or than it is at the poles, where there is no such force. The centrifugal force also throws the surface of the Earth at the equator about 13 miles farther than the poles from the center. This causes a further decrease in gravity, so a man who weighs 109 pounds at the pole would only weigh 88 pounds at the equator, as measured by a spring balance. Ordinary scales would not show this, since the weights used would be equally affected.

Medina Mosque is Younger Building than White House

According to tradition, Mohammed journeyed north from Mecca to the region of Yathrib's oasis, where he loosed his camel to wander unguided until it stopped and knelt. There the mosque was built. Disciples renamed Yathrib Madinat-al-Nabi, meaning City of the Prophet, now varied to Medina.

The original house of worship has been rebuilt several times. No existing relics of previous structures bear proof of use earlier than 1306. The present Great Mosque is actually newer than the White House in Washington and replaces an earlier mosque which was destroyed by fire only a century ago.

Though somewhat crowded by other buildings on its south side, the mosque stands out gracefully from most angles of approach. Its minarets are shapely, its dome a restful, dull green. Dominant construction material is a locally quarried crystalline rock of pinkish hue, with occasional elaborate inlay and facelace decoration.

Pilgrim trade is easily the chief business of Mecca, Medina, and Jidda, the Red Sea port by way of which nine-tenths of the worshiping tourists now travel. The two shrine cities each have sacred areas where unbelievers are not welcome and subject to trespassing fines or jail terms.

Date growing is the second industry around Medina's oasis, which is larger than Mecca's and can support more population. Under Turkish rule prior to World War I, Medina counted 80,000 people and was the southern terminus of a railroad from the cities of present Jordan, Syria, Turkey, and Iraq to the north.

Not until Mohammed moved from Mecca to Medina, did his creed begin the expansion that now encompasses 250,000,000 followers.

Drug Given By Mouth Said To Relieve Pain in Cancer

A chemical compound which can be given by mouth is reported by seven New York doctors to be useful in bringing temporary relief to patients suffering from fatal cancer-like diseases of the white blood cells and tissues.

The oral use of triethylene melamine on 58 patients is described by Drs. David A. Karnofsky, J. H. Burchenal, George C. Armistead, Jr., Chester M. Southam, J. L. Bernstein, L. F. Craver, and Cornelius P. Rhoads. The doctors are all associated with the Memorial Center for Cancer and Allied Diseases, New York.

Triethylene melamine is a valuable addition to the small group of drugs now known to be effective in relieving pain in these types of disease, according to the doctors. This is due primarily to the fact that it can be given by mouth, releasing the patient from his dependence on a doctor for administration of the drug. All the other drugs, they point out, have to be injected intravenously, which almost always makes hospitalization necessary.

Clinical trials with the drug are now being widened to include a greater variety of tumorous conditions, they said.

Cleaning Up

In the Smithsonian Institution's laboratory of vertebrate paleontology, six tons of fossil bones belonging to the extinct gigantic ground sloth, Megatherium, are being cleaned and repaired. The skeletal remains of this grotesque animal were collected in western Panama by Dr. C. Lewis Gazin, curator of vertebrate paleontology of the U. S. National Museum, assisted by Dr. Theodore E. White, paleontologist of the Smithsonian's River Basin Surveys. The Smithsonian Institution paleontologists will attempt to reconstruct for exhibition in Washington a complete skeleton of the giant sloth. A large part of the collection will be returned to Panama for exhibition there.

Forming Pearls

Although some pearls are formed in fresh-water clams and oysters, the most valuable come from the marine pearl oysters of eastern Asia. They occur when some foreign object—perhaps a tiny grain of sand—gets between the shell and the body. The animal then secretes around the object successive layers of a material called nacre, which consists of calcium carbonate. This is the same material as the "mother of pearl" lining of the shell. The Japanese make "culture" pearls by deliberately introducing small particles of graphite into the oyster and keeping it for several years as the pearl is formed.

Infrared Rays

Infrared rays are similar to rays of visible light, except that the length of their waves is greater than those of red light, which are about 1/40,000th of an inch and are the longest that the eye can detect. The longest infrared waves are about 1/65th of an inch long. Any hot object—the Sun, an open fire, a red hot poker, a warm radiator, an electric lamp, etc.—sends out infrared radiation, often with visible rays as well. Special electric lamps to generate these rays, used for applying heat, have a filament which operates at a lower temperature than is used in one designed mainly for purposes of illumination.

Strip Cropping Helps Hold Soil in Place It's Only First Step In Conservation Plan

Strip cropping, an important part of soil conservation, is a good deal like putting a splint on a broken bone. The splint holds the bone in place, but it doesn't knit it. Strip cropping helps hold the soil in place, but it won't rebuild run-down fertility.

The above picture is a beautiful example of strip cropping, but it was not accomplished by mere contour plowing. It was accomplished by sound soil conservation, based on use and treatment of land with all proven, appropriate measures that are needed to keep it permanently productive while in use.

Strip cropping on a field just north of Neillsville, Wis., is a beautiful example of one step toward soil conservation.

Sound conservation means terracing land that needs terracing; contouring, strip cropping, and stubble-mulching the land as needed; along with use of supporting measures of crop rotation, cover and green manure crops and the use of the right commercial fertilizers.

No farmer should undertake a conservation program without expert advice. He should first contact any one of his soil conservation district officers and apply for assistance from his district. If he doesn't know who his officers are, he can locate the address of his district office in the phone book, or he can call his county agent. Districts help only farmers who request their assistance.

Number of U. S. Farms Lowest Since the 1890s

The number of farms in the United States has continued to decline since the end of World War II with the current total the lowest since before the turn of the century.

The department of agriculture reports there were fewer than 5.4 million farms in the country last year. This figure compares with approximately 5.9 million in 1945, and with the peak number of 6.8 million in 1935.

Thus the number of American farms has declined over 1.4 million, or more than a fifth, in the last decade and a half—a period in which land in farms has continued to increase and in which total agricultural production has likewise shown a spectacular increase in aggregate volume of products raised as well as in total market value.

In 1900 there were some 5.7 million farms in the U. S., approximately 350,000 more than at present. A decade before, in 1890, the number of farms was about 4.6 million.

Sliding Door

Poultry raisers can save many a step by a sliding door in poultry houses which can be operated from the outside. A small rope attached to the door by a screw eye runs to the ceiling or roof boards, along the wall, through the side of the chicken house and terminates in a ring. A hook can be attached to the side of the building and thus hold the door open.

Farm Exports Increase 14 Per Cent, Report

The agriculture department reported recently that farm exports increased 14 per cent over the preceding fiscal year. The total was placed at \$3,409,245,000. Cotton exports led the group in 1950-51 with a total of \$935,332,000,000, the second highest in 26 years. Wheat and wheat flour ranked second in value at \$747,570,000, up 9 per cent over the \$683,229,000 the preceding fiscal year.

Clubs To Hear Speaker

The Homemaking Clubs of this area will bring Dr. James Miller of Portland, Oregon, here as speaker, in the High School gym., Tuesday evening, March 23, at 8:00 o'clock.

Dr. Miller is a director of and lecturer for the "Good Citizenship Foundation." He brings to his work a broad geographical background, having received his education at Cambridge and Oxford in England, as well as at Colorado State College, Denver University, and the University of Chicago. He further extended the international contacts of his student days by visits in the countries of Europe and in the Orient. Dr. Miller is a member of the "Overall" committee and the Executive committee of the "Oregon Governors' State Committee on Children and Youth."

His organization is non-partisan, non-sectarian and non-commercial, and works through schools, colleges, churches and various civic groups, to stimulate better citizenship among Americans, young and old.

His many years of teaching in high school and college working with many youthful community organizations has given Dr. Miller a rich background of keen insight into the problems of parental guidance, parent responsibility, citizen responsibility and world responsibility.

Dr. Miller has a sound philosophy of living, and uses a forceful presentation to bring the best to the group. During the past year he has lectured throughout the United States and Canada, before numerous university and college groups, conventions of civic organizations and high school assemblies.

We are very fortunate in having such a noted and highly praised speaker come to our community and sincerely hope that young and old alike will take advantage of this opportunity to hear him. It is hoped to have a good turnout from all the surrounding area and communities.

V. F. W. Post To Incorporate

Plans for incorporating Baker-Lind Post No. 3913, Veterans of Foreign Wars, are ready as the result of a meeting in Kendrick Feb. 25.

Joe Forest of Kendrick, commander of District 2, left Saturday for Boise, where he attended a quarterly meeting of the Council of Administration of the VFW Department of Idaho. Final papers for incorporation of the Kendrick post were to be considered and approved by the council.

The post and auxiliary plan to hold a benefit party in the near future as a money-raising project for future

Card Party Well Attended

The Lions Club held their card party in the Fraternal Temple Friday evening, Feb. 26th, with fifteen tables playing "racehorse" pinocle.

Men's high went to Bob Draper; women's high to Mrs. Roy Glenn; men's low to Ted Weyen and women's low to Mrs. Gordon Peters. The door prize went to Frank Benscoter, and Mrs. Everett Weeks took home the "Goose."

After an enjoyable evening of fun and "serious" pinocle, pie and coffee was served in the banquet room.

Together with 162 other employes with 20 to 30 years' service with the company, and the 142 retired veterans, they form the Water Power Trailblazers. Each is a pioneer, for pioneering is a continuing thing for WWP.

Their combined efforts over the years have brought you Electricity with Outstanding Service, at Low Rates, together with great Farm Electrification.

Reddy Kilowatt, salutes these electrical pioneers, as they celebrate the 65th anniversary of the founding of the company.

65th year of low-cost electricity

GOLDEN RULE

March 9 — Mr. and Mrs. George
Finke, who have been vacationing in
Oregon and California since early
January, returned home Wednesday.
They report a most enjoyable time.

Herman Kuykendall is now em-
ployed at the Bollinger Hotel in Lew-
iston as a bell-hop.

Mr. and Mrs. D. V. Kuykendall,
Mrs. Russell Perkins, Mrs. Roy Mar-
tin, Mrs. Lyle Bashaw and Alma
Betts were among those "from this
side of the mountain" who attended
the "Farm and Home Program" at
the Teakean Grange hall Thursday.
The Grange ladies served a delicious
dinner at noon and a most interest-
ing day was spent. It is regrettable
more people did not attend.

Mr. and Mrs. Ishmael Martin and
daughter spent Saturday night at
the Roy Martin home. Mr. and Mrs.
Chester Martin and son were Sunday
visitors, and Mr. and Mrs. Bill El-
ben and daughter spent Sunday and
Monday with them.

Mr. and Mrs. Arlie Armitage spent
Friday evening with Mr. and Mrs.
Eugene Betts.

Mr. and Mrs. Carl Finke of Oro-
fino were luncheon guests of Alma
Betts, Friday.

Mr. and Mrs. Eugene Betts drove
to Camp Y Sunday where they were
dinner guests of Mr. and Mrs. Joe
Quinn and family. Jim Finke and
Shirley Bullock of Orofino were Sun-
day evening guests in the Betts
home.

Mrs. Wayne Yenni called on Mrs.
D. V. Kuykendall, Monday.

Mr. and Mrs. Wilmer Hanks of
Elton McCoy visited with Mr. and
Mrs. D. V. Kuykendall Sunday after-
noon.

Mrs. D. V. Kuykendall received
word this week that her sister, Mrs.
Bertha Kuykendall, had been in a
car wreck, and is in a hospital in
her home town, El Centro, Calif.,
with several bones broken, including
six ribs, not to mention cuts and
bruises. She is said to be getting
along as well as could be expected.

Mrs. Fred Schoeffler and Mrs.
Willard Schoeffler and daughter
Marcia, visited her father, John
Oylear, Monday.

Joan Lawrence, who is attending
Kinnaman Business University at Spo-
kane, and a friend, Rich Paulsen,
drove down Saturday night, and
spent Sunday at the Oscar Law-
rence home. Miss Evelyn Kazda and
Norville Manick, both of Lewiston,
were also week-end guests.

Mr. and Mrs. Oscar Lawrence and
son Albert attended the funeral of
her uncle, John Soumar, at Lewiston
Thursday morning, and visited with
relatives the rest of the day.

The Teakean Grange is holding an
"Open House" Saturday evening,
with the 4-H Club putting on the
program. Everyone is invited.

Mr. and Mrs. Oscar Lawrence were
Orofino visitors on Monday.

Road Work Progressing
Steady progress is being made on
the bridge project across Bear Creek
at Kendrick, with fill and approach
work receiving the main spotlight.

Fill rock is being placed from the
east end of Main near the Elton
Wilson home to the Roy Glenn home
well across Bear Creek — and from
the size of the rock being used, we
would say this roadbed should defi-
nitely "be able to take it."

Concrete pouring on another sec-
tion of the bridge was completed last
week, and forms are now being moved
in preparation for pouring another
section.

The new bridge at Juliaetta across
the Middle Potlatch is not now being
worked on.

Warm Rains Produce Growth
The warm rains that fell Sunday
night, Monday and Tuesday, have
produced an almost startling change
in the appearance of the Potlatch
canyon.

Almost over night lawns have be-
gun to show a deep green; narcissis,
tulip and daffodil bulbs literally
"shot their spikes skyward," and il-
iac and other early spring shrubs
unfolded leaves so rapidly one could
almost see them grow. The canyon
sides are showing a faint green, and
at the present clip another week
should see spring at hand.

INTERESTING HAPPENINGS
IN THE LINDEN AREA

(Delayed)

Mrs. Katie Konen of Lewiston,
Mrs. Phil Bahr and Mrs. Stewart
Wilson were busy several days this
past week papering at the Sylvester
Konen home.

Mr. and Mrs. Arlie Allen and Mr.
and Mrs. Al Pederson were Colfax
visitors Tuesday. The men folk at-
tended a machinery sale, while the
women visited Mrs. Elmer Browleit
and daughter. All were dinner guests
of the Brownleits.

Mr. and Mrs. Ray Cuddy and El-
mer, Mr. and Mrs. Jim Holt and
family and Mr. and Mrs. Rollin Ar-
mitage and family, the latter of South-
wick, were Sunday dinner guests of
Mr. and Mrs. Bill Cuddy and family.
The occasion honored Bill's "23rd"
birthday anniversary.

Friendly Neighbors Club
The Friendly Neighbor Club met
Wednesday at the home of Mrs. Dan
Kechter, with eleven members and
two guests present. After the busi-
ness meeting the study, "Check List
for Shoppers" was led by Mrs. James
Holt. At the close of the discussion
on this, delicious refreshments were
served by the hostesses, Mrs. Dan
Kechter and Mrs. Geo. Lyons. The
next meeting will be at the home of
Eva Grim on March 31st. Mrs. Helen
Hunter will be with us for special
demonstrations.

General News
Mr. and Mrs. Joe Michaelis and
daughters of Dayton, Wash., and Mrs.
Sylvia Jenks of Lewiston spent the
week-end in the Louis Alexander
home. They all approved of the new-
est member of the Alexander family,
wee Dale Eugene, son of Mr. and Mrs.
Clarence Alexander.

Mr. and Mrs. Stewart Wilson visit-
ed Mr. and Mrs. Helmer Johnson and
family at Weippe, Sunday.

Carolyn Holt spent the week-end
with her grandparents, Mr. and Mrs.
Ray Cuddy.

Mr. and Mrs. Alva Craig, Gary
and Lynne visited Mr. and Mrs. Ir-
vin Swenson in Kendrick Tuesday
afternoon.

Bernal Bimmerman spent Sunday
with the Grinolds boys.

Mr. and Mrs. Everett Lohman and
Dick Parsley spent Friday in the
Dick Parsley home.

Mr. and Mrs. Vernon Snyder and
son of Lewiston were week-end guests
in the Bill Zimmerman home. Sunday
the Zimmermans accompanied the
Snyders home and were their supper
guests.

Mr. and Mrs. Bill Cuddy and fam-
ily spent Sunday afternoon and even-
ing in the Lloyd Farrington home.

Raymond Whybark and Robt. Kim-
bley spent Sunday afternoon in the
Alva Craig home.

Mr. and Mrs. Marion Souders and
children were Sunday supper guests
of Mr. and Mrs. Clarence Alexander.

Mr. and Mrs. Dave Parsley and
daughter of Peck spent Thursday
with Mr. and Mrs. Dick Parsley.

Mr. and Mrs. Phil Bahr were Wed-
nesday evening supper guests of Mr.
and Mrs. Bill Zimmerman and family.

Mr. and Mrs. J. P. Boyd of Puyal-
up, Wash., spent from Sunday until
Tuesday with Mr. and Mrs. Ernest
Grim. Mrs. Boyd and Mr. Grim are
sister and brother.

Mr. and Mrs. Jack Shepherd and
family of Lewiston were week-end
guests of her parents, Mr. and Mrs.
Dick Parsley.

nal and Mrs. Vernon Snyder called
on Mr. and Mrs. Clarence Alexander
and new son, Saturday evening.

Don't forget — Kids — the Cedar
Ridge 4-H Club meet Friday at
McAllisters. Be there.

Music Events Being Planned
U. of I., Moscow — Music lovers
in this area will not want for enter-
tainment this spring.

According to an announcement re-
leased this week by Prof. Hall M.
Macklin, head of the university's
music department, at least one musical
event a week is scheduled for the
remaining three months of the cur-
rent school year.

Included in the events are the fol-
lowing:

March 21, Sigma Alpha Iota-Phi
Mu Alpha concert; March 25, Uni-
versity band concert; April 11, Uni-
versity Singers concert; April 14,
Vandaleers home concert; April 27,
Madrigal Singers concert.

May 5, Community concert; May
8, May Fete; May 9, Mother's Day
song-fest; May 18, tenor Rex Eikuni,
Genesee, senior recital.

Special Services Planned
Special services are scheduled in
the Kendrick Community church for
the next two Sunday evenings —
March 14 and 21, at 7:30 o'clock.
Mrs. Raleigh Albright has consented
to present the "United Nations" with
emphasis on "Christian Faith and Re-
sponsibility."

Anyone — everyone — is invited
and urged to join in this very im-
portant discussion on "Achieving
World Order."

Evergreen Friendship Club
The Evergreen Friendship Club will
hold its next meeting at the home of
Mrs. Nellie Biddison on March 17, at
1:30 o'clock.

Roll call will be answered with:
"Why I Am Glad for the Coming of
Spring."

Mrs. Hunter will give a demon-
stration on "Rug Making."

Has Changed Positions
Allen Medalin, formerly associated
with his father, Oscar Medalin, in
the Kendrick Creamery and Gambles'
store, has accepted a position with
the Union Oil Service, at their new
station in the west part of town.
He began his duties Monday.

Heady Gift
Mamie: "The first thing Maud did
with her inheritance was to buy a
dozen new hats."
Mary: "I was afraid that money
would go to her head!"
