INTERESTING NEWS NOTES FROM THE SOUTHWICK AREA

Gymnasium Renovated

The people of the Southwick area wish to sincerely thank all those who donated their time and help in renovating the gym, and preparing the facilities for our children to return to school. On Wednesday 80 people were on hand for work. The ladies prepared dinner for all the workers at the Aid hall at noon, and in one day the building was ready for the children to return to school — Thursday.

Friday evening 59 people gathered at the Aid Hall to take part in a kitchen and food shower for the school lunch. During the evening words of appreciation, thanks and encouragement were expressed by Supt. Meserve, Ben F. Cook, Mrs. Alice Tarry, Mrs. Winifred Kluckholm, Darwin Tarry, Mrs. Helen Cowger and Rev. Martin Swiney.

The donations of food and utensils was very large, and we wish to thank Mrs. Ruth White and all the rest of the Kendrick people who participated in this drive.

During the evening coffee and cookies were served and \$53.16 taken in when the "hat was passed" for money for incidentals to help our cook, Mrs. Helen Cowger.

To Continue Ticket Sale

The Southwick Homemakers Club wishes to announce that the sale of tickets will continue. The blanket display may be seen at the Kendrick Variety & Gift Store.

Missionary Society Meeting

The Missionary Society met on Thursday at the home of Christina Cuddy with 11 members present. Guests of the Society for dinner were Mr. and Mrs. Abner Cowger and Rollin Armitage.

Meeting Postponed

The Homemakers Club have postponed their meeting scheduled for Thursday, until Friday, at the home of Christina Cuddy. On Thursday members of the Club will go to Cameron to take part in the "Landscaping" meeting to be held at the Parish hall in the forenoon, when Earl New of the U. of I. will lead the discussion. In the afternoon the ladies will go to the Emil Sillfow home where Mr. New will draw up plans for landscaping their grounds.

Fellowship Meeting

There will be a Fellowship meeting at the Community Church on Friday evening. Everyone come and enjoy the special music.

Rev. A. J. Taylor began holding revival meetings at the Southwick church on Sunday. He is especially interesting and all are welcome to come and hear him sing and preach.

General Newsletters

Dinner guests at the home of Mr. and Mrs. M. N. Benjamin Sunday were Rev. and Mrs. G. W. Benjamin and Mr. and Mrs. Delbert Clear of Clarkston, Wash.; Mr. and Mrs. Verlin Benjamin, Mrs. Winifred Kluckholm and Mr. and Mrs. Ervin Fry and sons.

Guests at the home of Mr. and Mrs. Aaron Wells on Sunday were Mr. and Mrs. James Reece and daughters of Cavendish, and Mr. and Mrs. Chas. Starkey and daughter of Ah-sahka.

Mr. and Mrs. Given Mustoe entertained at dinner on Sunday for Mrs. M. W. Beckham and Mr. and Mrs. Bob Mays of Spokane; Mrs. Otto Schoeffler of Kingston, Idaho; Mr. and Mrs. Ray Southwick of Kellogg, Idaho; Mr. and Mrs. Harry Johnson and sons of Lewiston; Mr. and Mrs. Gene Southwick of Clarkston; Mr. and Mrs. George Brocke, Jr., and son Dean of Kendrick, and Mr. and Mrs. Jack Mustoe.

In honor of Alda McIver's birthday anniversary, and as a farewell to Harvey McIntosh and Archie McIver of Saskatchewan, Canada, Mr. and Mrs. Don McIver entertained the following guests at dinner on Sunday: Harvey McIntosh and Archie McIver; Mr. and Mrs. Chet McIver; Mr. and Mrs. Ronald Vought and son of Orofino; Mr. and Mrs. Orville Choate of Teakcan; Mr. and Mrs. Don Cantrell and daughter Sandra, and Mr. and Mrs. Roy Gertje and sons.

Mr. and Mrs. Lloyd Thornton and family were dinner guests in the home of Mr. and Mrs. John Lettenmaier on Sunday.

Guests at the home of Mr. and Mrs. T. J. Armitage on Sunday were Mr. and Mrs. Elbert Armitage and son Larry of Spokane.

Mrs. Henry Davis returned on Thursday from California, where she had spent the past six months with their children, who are attending school in that state. Her brother, Virgil Dygert of Toulare, Calif., accompanied her home. He is visiting here at the homes of Mr. and Mrs. Lloyd Thornton, Mr. and Mrs. Henry Davis and at Lewiston at the home of his parents, Mr. and Mrs. Will Dygert.

Mr. and Mrs. Ray Southwick were guests at the home of Mr. and Mrs. Clay King on Sunday.

Mr. and Mrs. Aaron Wells spent Saturday night visiting with friends at Pullman.

Harvey McIntosh and Archie McIver returned on Monday to their homes at Saskatchewan, Canada, after spending several days here visiting with relatives and friends.

Rev. Martin Swiney returned on Friday from Hermiston, Oregon, where he attended the Pacific Northwest Ministerial Convention of the Pilgrim Holiness Church. He was accompanied home by Rev. A. J. Taylor, who is holding revival meetings here.

On Thursday Mr. and Mrs. Ervin Fry and Mr. and Mrs. Daymond

Weather "Marchist"

Despite the fact that spring officially arrived last Monday — or was it Sunday? — the weather has been what can best be described as "typically March."

There has been rain squalls, brief snow flurries, hail, wind, sunshine, chill — and anything and everything that goes to make up March weather. Farmers had been talking a bit about getting into the fields for early work — but just enough rain keeps falling to keep them too wet — not to mention the freezing and thawing, which also bring moisture to the top.

GERALD F. (DICK) CRIDLEBAUGH, DIES AT LEWISTON

Gerald F. Cridlebaugh, 50, principal of the College Elementary School, Lewiston, died unexpectedly at his home in the Lewiston Orchards Saturday morning, apparently suffering a stroke.

Mr. Cridlebaugh, a well known North Idaho educator, was stricken about a month ago by a broken artery. He was hospitalized for about ten days and was recuperating at his home, 720 Linden Ave., in Lewiston Orchards, when his death occurred.

His brother, Wallace Cridlebaugh of Lewiston, said the school principal had planned to return to his work Monday. He said his brother complained of a headache Saturday morning and considered going back to bed. But he started for a neighbor's home to borrow a minor item, and fell on his back porch. He was found there by a young daughter, who called a neighbor.

A doctor was summoned, but Mr. Cridlebaugh died at 11:30 a. m., shortly after the physician arrived.

Gerald F. Cridlebaugh was born at North Platt, Neb., on Nov. 16, 1903, and came to Lewiston as a young man. He was graduated from the Lewiston High school in 1921, attended Lewiston Normal school for two years, and then began his teaching career.

He taught at Harrisburg, Idaho, and at Cameron and Leland before returning to Lewiston. He was the teacher in charge of the Cameron and Leland schools, serving at Cameron from 1927 to 1935, and at Leland from 1935 to 1948.

He came to Lewiston in 1948 as principal of the old Garfield school, and two years ago became principal of the College Elementary School.

He married Louise Schmidt at Spokane on Aug. 23, 1935, and they had two daughters.

He was a member of the Masonic Blue Lodge.

Survivors include his wife and two daughters, Jeanette and Shirley Ann Cridlebaugh, all of Lewiston; four sisters, Mrs. Nell Bradley of Lewiston; Mrs. Elsie Elder of Grangeville; Mrs. Helen Wright of Kansas City, Mo.; and Mrs. Lelia McFadden of Phoenix, Ariz.; and two brothers, Bill Cridlebaugh of Clayton, Wash., and Wallace Cridlebaugh of Lewiston. — Lewiston Tribune.

For two summers, while teaching at Leland, Mr. Cridlebaugh was employed at Blewett's Market, where he made a host of friends.

"Dick," as he was known to most everyone, always had a cheery smile and a kindly word for everyone. It was with real regret that he was seen to leave this school system, and move to Lewiston.

Funeral services were held at 2:00 o'clock Tuesday afternoon from the Brower-Wann Memorial Chapel.

The Rev. Paul Daneker, pastor of Trinity Lutheran Church, officiated. Music was by the Rev. Truman Cotton, vocalist, and Mrs. Pauline Brigham, organist.

Honorary pallbearers included administrators of Lewiston schools, Clarence Booth, Leo Chick, Harry Haynes, Wayne York, Kenneth Hill and Clem Wallace. Active pallbearers were Van Priedeaux, Roy Haynes, Norman Loepky, A. L. Nash, Walter Schnabel and Jack Sorenson.

Burial was in Normal Hill cemetery, with Brower-Wann in charge. The multitude of floral offerings and the jammed auditorium gave mute evidence of the high regard in which Mr. Cridlebaugh was held — not only at Lewiston, but from the Cameron, Leland and Kendrick area.

New Baby Boy

Word was received here recently of the birth of a son to Mr. and Mrs. Russell Smith of Lewiston Orchards. The Smiths are former residents of Kendrick, he being connected with the Soil Conservation Service.

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

Take Aptitude Tests

Fourteen members of the Senior class took aptitude tests Wednesday morning. These tests were given by the Idaho Employment office personnel in Lewiston, and are meant to help in the selection of a vocation, particularly for those who have not definitely decided on their future occupations.

Preparing For Banquet

The Juniors are working overtime, preparing for the Junior-Senior Banquet Friday evening. From the looks of all the preparations going into this project, it is bound to be a success.

Journalism Class

The Journalism class, accompanied by their instructor, Irven McGeachy, is going to the State Journalism conference, which is held at the University of Idaho in Moscow. This conference begins on Friday and continues until Saturday afternoon. The school paper will be rated, Saturday.

Library News

Our library has received several new books the past few days. They are: "Desired Haven" by Evelyn M. Richardson; "Fields of Home" by Ralph Moody; and "Stillmeadow and Sugarbridge" by Gladys Taber and Barbara Webster. Also, we have a "Harvard Dictionary of Music" by Will Appel, and "The Story of Musical Instruments from Shepherd's Pipe to Symphony" by H. W. Schwartz.

Two music books have been placed on reserve by Mr. Poulos, our music instructor, for student use.

Also, an electric eraser has been purchased for student-librarian use in filing work. Two new Steelmaster filing cabinets have been added to the card catalog cabinet to allow space for the filing of cards which are added each day.

School Baseball News

Baseball season has officially begun. Twenty-seven eager prospects are practicing at Armitage Field getting ready for this season and its rugged schedule. The players are working very hard to get the field in good condition, so they can get down to the "brass tacks" of baseball.

This year the Tigers will play in the Valley League Baseball Conference. This conference is divided into the Northern and Southern Leagues. The Tigers will play in the "Southern League" with Lapwai and Culesac. Orofino, Clearwater and Kamiah are the three teams in the "Northern League." The winner of each League will play in a play-off game May 11 to determine the Valley Conference representatives in the District Baseball Tournament in Lewiston.

There are eight returning lettermen from last season's team. These lettermen will add a lot of much needed experience to the squad. The veterans are: Infielders, Jim Armitage, Ron Lohman and Glen Wegner; Outfielders Don Ingle, Dick Lohman and Robert Dunham; catcher, Leonard Gustafson, and pitcher Roger Christensen.

Coach Dennis Racicot has prepared the following schedule, which will be completed in the very near future:

April 2, Asotin (away) — There
April 16, Asotin (here) — Home.
April 23, Culesac (here) — Home.
April 26, Lapwai (away) — home.
May 3, Culesac (away) — there.
May 10, Lapwai (away) — there.

Seventh Grade News

"Should Eighteen-Year-Olds Be Allowed to Vote" was the recent question for class discussion. David Johnson presented the affirmative and Diane King the negative. A poll was taken which resulted in 24 students voting "no" and 21, "yes."

Students who received 100 percent in the six-week spelling test were: Bill Cook, Darrel Craig, Connie Howell, Loeda Meyer, Robin Magnuson, Patty Nelson, Lyle Parks, Dick Ostman, Sharon Strohm and Mary Lee Westendahl.

The program for the weekly class meeting was in the form of a TV show. Beverly Bowen was M. C.; Reggie Wegner was the Commercial announcer, and Patty Corkill, Karen Loudon and Patty Nelson the singing commercial trio. Piano selections were given by Loeda Meyer and Beverly Bowen, a reading by Darrel Craig; a song by Reinhard Schroeder, and an accordion selection by Patricia Grayson.

Do's and Don'ts of Kite Flying

During the windy month of March kite flying has always been a popular sport — and here are a few of the "do's and don'ts" that will make it a safe sport for your children as well:

Don't fly kites in busy streets or highways.
Don't fly kites near electrical wires.
Don't use tinsel or metal wire for string.
Don't use kites with a metal frame.
Don't climb poles or throw rocks or use sticks in an attempt to dislodge entangled kites.
Fly kites in the open spaces away from traffic and electric wires.
See that their runway is free from obstructions and stumbling hazards.
Encourage safe fun — don't discourage kite flying.

Kendrick Grange To Visit

Every member of the Kendrick Grange is reminded that next Friday evening, March 26, is visitation night for local Grangers to go to Deary — and at least 60 members will be needed if the local group is to win the Traveling Gavel.

All local Grangers are asked to mark this date on their calendar — and to attend at Deary.

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Walter Hartung and daughter of Moscow were Sunday dinner guests of Mr. and Mrs. Walter McCall.

Mr. and Mrs. Frank Cantril and daughters Janice and Diane and John Miller, the latter a student from the U. of I., drove to Joseph, Oregon, over the week-end to visit Mr. and Mrs. Wilbur Colwell and Mrs. Orville Halseth.

Rupert Hayward and his mother, Mrs. Mattie Hayward, of Lewiston, visited Sunday with Mr. and Mrs. Dave Clayton. Mrs. Hayward is Mrs. Clayton's grandmother.

Mr. and Mrs. Lloyd Hill and three sons of Terrebonne, Oregon, were visitors in the home of her parents, Mr. and Mrs. L. A. Wallace, from Thursday until Saturday. Mr. and Mrs. John Thiessen and sons of Clarkston also visited at the Wallace home Friday. Mrs. Hill and Mrs. Thiessen are sisters.

Gilbert Candler, who is attending Oregon State College, arrived home Monday to spend the spring vacation with his parents. Mr. and Mrs. Gif. Candler, Gilbert was accompanied home by a school chum, Howell Goforth, who will be his house guest.

Mrs. Ethel Evans and her son-in-law and daughter Mr. and Mrs. Marvin Seymour, and their son, Gary, all of Walla Walla, were week-end guests in the homes of Mrs. Evans' sister, Mrs. Walter Brocke and brother, Mr. and Mrs. Frank Abrams. Mrs. Millie York of Lewiston accompanied the group up from Lewiston.

Mrs. Ollis Sherbon of Pullman arrived here Tuesday to spend several days visiting Mr. and Mrs. Ronald Jones and family before going on up to Big Bear ridge to visit other relatives.

Wednesday evening Mr. and Mrs. Ronald Jones and sons drove to Lewiston to spend the evening at the home of her sister, Mrs. Lynn Hardin and family. The occasion honored Mrs. Hardin's birthday anniversary.

Bobby McDowell of Avery is staying with his grandmother, Mrs. E. E. McDowell, and attending kindergarten.

Mr. and Mrs. Chas. Deobald and sons were Sunday dinner guests of Mr. and Mrs. Bill Cuddy on Cedar ridge.

Bernard Jones, Big Bear ridge, was a Sunday dinner guest of Mr. and Mrs. Ronald Jones and family.

Mr. and Mrs. Harold Goff and sons of Genesee were Sunday visitors in the home of her parents, Mr. and Mrs. Ben P. Cook. Little Steve Goff remained with his grandparents to attend kindergarten. Kathleen Crawford, U. of I. student, was also a Saturday over-night guest in the Cook home.

Mr. and Mrs. W. L. McCreary spent the week-end in Spokane at the home of her brother, Mr. and Mrs. P. S. Griffith and family.

Mr. and Mrs. Ben LaVelle of Clarkston spent Sunday at the home of her parents, Mr. and Mrs. Carl Gustafson.

Wallace Fraser of Avery spent the week-end here with his parents, Mr. and Mrs. Everett Fraser.

Mr. and Mrs. Russell Snyder and family of Lewiston Orchards were Sunday dinner guests of Mr. and Mrs. Ed. Brown. Mr. and Mrs. Don Jensen and baby and Kathryn Brown, all of Moscow, were Saturday over-night guests in the Ed. Brown home.

Mr. and Mrs. Fred Stedman left Saturday for Aberdeen, Wash., to be at the bedside of his mother, who underwent surgery Monday morning. Latest reports are that she came through the operation in a satisfactory manner.

Mr. and Mrs. H. C. Schupfer accompanied by Mr. and Mrs. George Wilken, left for the coast last Friday. The Schupfers visited their son-in-law and daughter, Pvt. and Mrs. Bud Eichner at Tacoma, and the Wilkens will visit their daughter, Marlene, who is attending school at Parkland, Wash.

Mrs. Archie Garner, Mrs. John Darby, Mrs. Ben Westendahl and Mrs. Jack Kuykendahl attended a Home Demonstration Club Council meeting in Moscow, Friday.

Mr. and Mrs. Ben Westendahl and daughter Cheryl drove to Moscow on Monday evening to visit with his mother, Mrs. C. S. Westendahl, who is ill at the Jesse Oyer home.

Mr. and Mrs. Otto Schupfer visited Wednesday evening at the Ben Westendahl home.

Mr. and Mrs. Herman Travis of Grangeville dropped in on his parents, Mr. and Mrs. Jack Travis, Tuesday, taking them out to dinner at Burt's. The occasion honored the Travis' 47th wedding anniversary.

A great many from this area attended the final rites for Gerald F. Cridlebaugh in Lewiston, Tuesday afternoon.

Afternoon Circle

The Kendrick W. S. C. S. Afternoon Circle will meet Thursday afternoon at 2:00 in the home of Mrs. Roy Glenn with Mrs. Ben P. Cook as co-hostess.

Bring your needles and thread — the afternoon will be spent in sewing carpet rags. Also bring scraps of outtings and prints suitable for crib quilts.

Brings In Spring Flowers

Alice Cann, daughter of Mr. and Mrs. Alfred Cann of Cedar ridge, brought in to the Gazette office on Friday, March 13, a number of lambs' tongue or "cowslip" flowers, which she picked the evening before near their home.

These may not be the first, but at least they are the first which we have seen or heard of.

Evergreen Friendship Club

The Evergreen Friendship Club held its last meeting at the home of Mrs. Nellie Biddison, with Mrs. Maxine Fry as co-hostess.

During the business session Mrs. Flo Holt assigned committee members to work with the general committee regarding the all-day program to be held in May in honor of Home Demonstration week.

Mrs. Eleanor Wilson resigned as secretary-treasurer and Mrs. Nell Crocker was appointed to fill this office for the remainder of the year.

Mrs. Helen Hunter gave a demonstration on "Rug Making" and displayed several beautiful hand made rugs.

Mrs. Connie Fey was awarded the "White Elephant."

WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

Magician Coming

Mitchell Cain, a magician and comedian will present a program at the Juliaetta gym, on Monday, March 29, at 2:15 p. m. This is not a National Assemblies program, but is a highly recommended performance. The public is invited to attend.

Perfect Attendance Marks

First graders having perfect attendance for the third nine-week quarter are: Deane Brocke, Archie Garner, Linda Swan, Paul Uhlenkott, Mitchell Weeks and Lydia Wendland.

Second Graders: Bradley Bowen, Ida Glenn, Donna Johnson, Irven McGeachy, Bobby Wilson and Vivian Westendahl.

Third Graders: Sharon Fey and Roger Nelson.

Fourth Graders: David Eldridge, Larry Helton, Ann Dagefoerde and Adolf Wendland.

Fifth Grade — Freddy Foster, Barry Garner, Linda Holt, Sharon Reynolds and Douglas Shepherd.

Sixth Grade: Wesley Andrews, Byron Bowen, Larry Groseclose, Diann Johns, Ila Johnson, Richard Nelson, Jerome Pederson, Frances Rowden, Janet Deering, Linda Jones, Lynne Koopp, Pamela Potter and Marilyn ZumHofe.

News Notes

The Sixth grade has just received a number of prints of famous paintings, and are studying them, and the artists who painted them.

Mrs. Cecil Gruell was absent last Thursday and Friday from the Fourth grade room. Mrs. Asa Calvert substituted for her.

Douglas Hall of the First grade has left school to move with his family to California.

General News Notes

Mrs. Adrian Johns and family spent the week-end with relatives at Coeur d'Alene.

Mrs. Wm. Carlton went to Wenatchee, Wn., Tuesday, to attend the funeral services for her uncle, Harve Spray.

Mr. and Mrs. Harvie Shepherd and sons visited at Potlatch Friday evening with Mr. and Mrs. Woodrow Nye and family.

The condition of Mrs. E. O. McAllister is still listed as "very critical." She is a patient at the Pullman Memorial hospital.

Mrs. Mary Ottosen returned Saturday from a three-month visit with relatives at Tacoma and Seattle, Wn., and Central Point and Oakland, Oregon.

Mrs. Woodrow Nye and daughter Kathy and Mrs. Grace Moody, of Potlatch, visited here with friends, Monday.

Steady progress is being made on the new office and display rooms for the Mead & Howard Lumber Co., here. When completed, it will present a most attractive appearance — a credit to the firm and to the town.

Word has been received from Mrs. J. W. Mundell, former Juliaetta resident, that the family is now in Cascade, Idaho, having arrived there on March 14. She adds that it is quite warm and the snow is disappearing very rapidly.

Word has been received from Mr. and Mrs. Phil Johns, that they have settled in Cucamonga, Calif., at the corner of Baseline and Cornelian Ave., Route 1, and would be glad to have any of their old friends from Juliaetta or Kendrick call and see them.

Will Hold Rally

The Women's Missionary Ac. of the Idaho branch, United Brethren in Christ churches, will hold an all-day Missionary Rally at the Gold Hill United Brethren church on Saturday, March 27, starting promptly at 10:00 a. m. The first vice president of the branch, Mrs. Frieda Heinje of Cream ridge, will preside over the meeting. Churches attending are Lenore, Juliaetta, Clarkston, Gold Hill, Cream ridge and the Southwick Community church. The Rev. Martin Swiney, pastor of the Southwick Community church, will be the guest speaker for the afternoon.

Baby Boy Arrives

Mr. and Mrs. Wallace (Dee) Miller are the proud parents of an 8-pound 2-ounce son, born to them Thursday evening, March 18, at the Davidson Nursing Home in Kendrick. The little fellow has been named Jon Dee.

Mrs. Miller and baby are spending several days here at the home of her parents, Mr. and Mrs. Manning Onstott, before going back to their home in Lewiston.

Fund Drive Underway

Mrs. John Johanson, Red Cross Fund Drive chairman, assisted by Mrs. R. L. Blewett, made calls on local business houses and residences last week — launching the local drive for funds.

NEWS ITEMS ABOUT LELAND RESIDENTS AND FRIENDS

Cemetery District Meeting

The Potlatch Cemetery Maintenance District will meet on Tuesday, March 30, at 8:00 p. m. in the Cameron hall — this being a directors' meeting, concerning the operation of the district.

It is hoped, however, that all who are concerned will come out and attend this meeting so that the program can be set up on "Caretaking of the cemeteries," and a discussion held on the price of new cemetery lots, the opening and closing of graves, etc.

It is hoped that everyone in the district will turn out and help decide these problems. — Herman Meyer is the president; Ervin Lohman, treasurer and Gordon Peters, secretary.

Quarterly Conference

Quarterly Conference will be held at the Leland church on Wednesday, April 27, at 8:00 o'clock. Rev. Graves will be present at this meeting.

General News

Mr. and Mrs. Marvin Vincent and family were Sunday dinner guests of Mr. and Mrs. Bill Rogers in Kendrick. Other guests were Mr. and Mrs. Dick Lang and family of Clarkston and Mrs. Olivia Krutz of Yakima.

Mr. and Mrs. Virgil Flesham of Clarkston were Sunday dinner guests of Mr. and Mrs. Lloyd Craig and family.

Mr. and Mrs. Ervin Draper and family and Erma Lohman were Sunday dinner guests of Mr. and Mrs. Bob Draper.

Mr. and Mrs. George Peters and David Hudson of Orofino were Sunday dinner guests of Mr. and Mrs. A. G. Peters.

Mr. and Mrs. Ben Hoffman called Friday afternoon on Mr. and Mrs. Winfield Powell on Cream Ridge.

Mrs. Olivia Krutz and son James visited Monday with Mr. and Mrs. Marvin Vincent. Mr. and Mrs. W. H. Weyen of Kendrick were afternoon callers and Mr. and Mrs. Herman Johnson were supper guests.

Ruthy Tarbet spent Wednesday night with Paige Craig.

Mr. and Mrs. W. H. Weyen of Kendrick called on Mrs. Dora Heffel Monday afternoon.

Mr. and Mrs. Billy Weyen and family visited Sunday evening with Mr. and Mrs. Oral Craig at Kendrick.

Mr. and Mrs. Willis Thornton and family of Moscow, and Mr. and Mrs. Keith Thornton and family were Sunday dinner guests of Mr. and Mrs. Jesse Thornton.

Carol Weyen and Jeanne Craig were Wednesday over-night guests of Mr. and Mrs. W. H. Weyen at Kendrick.

Mr. and Mrs. J. M. Woodward and Mrs. Ervil Woody, the latter of Juliaetta, were Tuesday dinner guests of Mr. and Mrs. Ben Hoffman.

Message For Americans

Dr. James Millar of the Citizens' Foundation in Portland, spoke to a very small but highly appreciative audience Tuesday evening in the Kendrick High School gym.

Dr. Millar was sponsored by the Latah Home Demonstration Clubs and his itinerary included the whole of Latah county. He was introduced by Mrs. Helen Hunter.

He spoke on "America, Yesterday, Today and Tomorrow." He related the three great struggles in our history — the Revolutionary War, in which we fought for liberty — the Civil War was a conflict for unity, and the two last world wars have been for Democracy.

In his remarks he stated that if we are to preserve our country, we must give liberty to live and help live — we must be concerned about lifting the standards for all men everywhere.

As a yardstick for tomorrow he listed four things we must do —

1. Recover our self reliance.
2. Recover our self control.
3. Retain our self respect.
4. Practice the spirit of self-sacrifice.

Dr. Millar is by far one of the most outstanding speakers ever to visit Kendrick, and those who did not go to hear him were certainly the losers. His natural Irish wit gave a spicy flavor to his lecture, and was most entertaining.

A short program, which included an accordion solo by Joyce Armitage and a tap dance by Patty Corkill was enjoyed by the group.

Dr. Millar will speak Thursday to the High School students.

Harlem Clowns To Play

"Basketball fans who attend games played by the Harlem Clowns come for entertainment and laughs, and that is what we try to give them," says Al "Runt" Pullins, fabulous little manager of the colored cutups.

NEWSY ITEMETTES FROM AMERICAN RIDGE AREA

Hi-Hope Club Meeting
The Hi-Hope Club met last Thursday afternoon at the home of Mrs. Andy Cox, with Mrs. Frankie Benschoter as co-hostess. Plans were made for Home Demonstration Week and Mrs. Helen Hunter gave a demonstration on "Rug Making," which proved intensely interesting and was very much enjoyed by all present.

General News
Mrs. Harold Roberts and Mrs. Frankie Benschoter attended the Latah County Council in Moscow last Friday.

Mr. and Mrs. Gary Holms of Lincoln, Mont., and Mrs. Ethel DeHaven of Moscow were Wednesday guests of Mr. and Mrs. Bob Nelson. Mrs. Holms is a niece of Mrs. Nelson. The Boys' 4-H Club will meet at the home of Ted Nelson on Thursday evening. They met last Wednesday evening in the Harold Roberts home with Marvin Jagels of Moscow, present, and made plans for the coming year. Cecil Roberts, their leader, was also present.

Wesley Andrews and Rayner Havens spent Sunday afternoon with Ted Nelson.

Mr. and Mrs. George Havens were Sunday afternoon visitors of Mr. and Mrs. Werner Brammer and family. Mr. and Mrs. Henry Brammer of Juliaetta and Mr. and Mrs. Aug. Brammer of Cameron were also visitors.

Dave Crocker, Norma Andrews and Wesley Andrews were Sunday evening visitors in the George Havens home. Mr. and Mrs. Ira Havens of Juliaetta were also Sunday evening callers.

Mr. and Mrs. Harley Eichner and Connie Howell, the latter of Juliaetta, were Moscow visitors on Monday.

Mr. and Mrs. Bob Nelson spent Tuesday with Mr. and Mrs. R. J. Nelson at Lenville.

Jack Driscoll was a Monday afternoon caller at the home of Mr. and Mrs. Harley Eichner.

Those on the sick list this week are: Bruce Davis, with a virus stomach infection; Ira Havens has the mumps; Bobby Callison went back to school Tuesday after having the mumps; Joan and Janice Heimgartner are ill with the flu; Monty and Evelyn Andrews have the flu and tonsillitis; Orville Mizer, ill with the flu; Andy Sue Cox was ill with the flu, and Judy Benschoter is out of school due to illness.

Mr. and Mrs. Ira Havens of Juliaetta were Friday evening visitors in the home of Mr. and Mrs. Harry Benschoter.

Mr. and Mrs. Tom Neal of Moscow spent the week-end with her parents, Mr. and Mrs. Andy Cox and family.

Jerry Nilson of Troy spent Tuesday evening in the Andy Cox home.

Mr. and Mrs. Frankie Benschoter were Saturday evening guests of Mr. and Mrs. Wayne Weyen in Kendrick.

Mrs. Hazy Benschoter spent from Wednesday until Friday with her parents, Mr. and Mrs. Dan Lyle, at Peck.

Mr. and Mrs. Frankie Benschoter were Thursday evening guests of Mr. and Mrs. Wayne Davis and family.

Mr. and Mrs. Walter Benschoter and daughters Judy and Diana were Sunday dinner guests of Mr. and Mrs. T. J. Armitage at Southwick.

Mrs. Walter Benschoter and daughter Judy were Lewiston visitors on Friday.

Mr. and Mrs. Jess Mizer were Tuesday callers at the Norla Callison home.

Mrs. Dick McCall and daughter Lynda of Lewiston were Saturday evening visitors of her parents, Mr. and Mrs. Walter Benschoter.

Nancy Callison attended the Mid-Winter Institute of the M. Y. F. in Lewiston, Friday evening and Saturday.

Ernie Andrews and sons were Lewiston visitors on Saturday.

Mr. and Mrs. Warney May, Jr., were in Lewiston on Tuesday, and Mr. and Mrs. Harry Benschoter on Wednesday.

Mr. and Mrs. Charles Easterbrook of Kendrick spent the week-end with Mr. and Mrs. Warney May, Jr. Sunday afternoon and evening callers were Mrs. Roy Glenn and daughters of Kendrick; Mr. and Mrs. Lawrence Heimgartner and family, and Mr. and Mrs. Charles Taylor, the latter of Juliaetta.

Wins Essay Contest

Connie Howell, daughter of Mr. and Mrs. Willis Howell, Juliaetta, won first prize — a \$50.00 Defense Bond, in the seventh and eighth grade division of the Latah County Soil Conservation Contest. Connie is in the seventh grade. Her teacher is Mrs. Claude Jones.

Second prize, \$25.00 Defense Bond, was won by a Moscow student. First and second prizes in the fifth and sixth grade divisions were won by a Genesee and a Potlatch student, respectively.

Monday, Connie accompanied Mr. and Mrs. Harley Eichner to Moscow, where she had her picture taken with the other winners from the county. On returning to her class room she was awarded the \$50.00 bond by Mrs. Eichner, who is president of the Latah County Women's Auxiliary of the Soil Conservation Supervisors.

On Cemetery District Board

According to a Lewiston dispatch Dr. D. A. Christensen has been named as one of the Board members for the newly formed Nezah cemetery district. His residence is in Nez Perce county.

Undergoes Surgery

Mrs. Curt Arnett underwent surgery at St. Josephs Hospital in Lewiston last Thursday. Her condition is reported as satisfactory.

Home From Camp

Johnny Wilson was brought home Monday night from Camp suffering with an attack of severe dizziness caused by a derangement of the inner ear. He is responding to treatment and will soon return to work.

The common sponge, often thought to be a plant, is in reality a form of lowly animal.

GOLDEN RULE

Mar. 23 — Several from this community attended the "Work Shop on Slip Covers and Upholstering" one or more of the three days at the Ladies Aid hall in Southwick the past week. On Wednesday the ladies served some "three dozen men their dinner on the side, the men being volunteer workers on the "gym," preparing it for school duties on Thursday. More than 20 women were present, besides a number of children.

Mrs. Roy Martin accompanied her daughter, Mrs. Lyle Bashaw and daughters, to Lewiston on Wednesday to spend the day.

D. V. Kuykendall was a Moscow business visitor on Friday.

John Darby of Kendrick called on John Oylear, Friday afternoon.

Marie Kuykendall and Alma Betts helped the Cavendish ladies quilt Thursday.

Mr. and Mrs. Eugene Betts were supper guests of Mr. and Mrs. Geo. Finke Friday evening. The affair honored George's birthday anniversary. Mr. and Mrs. Elmer Souders were evening callers.

A kitchen shower was held at the Southwick Ladies Aid hall Friday evening to start up the school hot lunch program again on Monday.

Cookies and coffee were served to a large crowd and a collection of more than \$50.00 taken up to buy cups, plates, etc., not to mention a large supply of foods and other necessities.

Carl Finke, Mr. and Mrs. Don Christensen and children and Mr. and Mrs. Eugene Betts were Saturday visitors in the Alma Betts home.

Mr. and Mrs. Don Christensen and children called on Mr. and Mrs. Geo. Finke Saturday afternoon.

Mr. and Mrs. Bill Jennings were recent visitors in the Alma Betts home.

Daisy Stage called at the Oscar Lawrence home recently.

Miss Evelyn Kazda and Norville Nanik were Sunday visitors at the Oscar Lawrence home. Mrs. Lawrence went to Lewiston with them, attended a show, and then returned home with her son Albert, who was already in Lewiston.

Loy Martin was an Orofino visitor on Monday.

Russell Betts went to Lewiston on Friday and spent the week-end with his brother, Homer Betts and wife, returning home Sunday evening.

The Southwick Homemakers Club will meet Friday at the Christina Cuddy home, instead of holding our regular meeting Thursday. The change was made to permit attendance at the "Landscaping Program" at Cameron on Thursday, to which everyone is invited.

Mr. and Mrs. Eugene Betts were supper guests of Fred Stage Sunday evening.

Mr. and Mrs. Bruce Wilson visited with Mr. and Mrs. Eugene Betts Sunday.

Mr. and Mrs. Neil Vaughan were in our neighborhood collecting for the Red Cross, Monday.

Miss Evelyn Kazda graduated from her beauty course at Lewiston last week.

Mr. and Mrs. Bruce Tarbet and family and Mr. and Mrs. Ishmael Martin and daughter of Lewiston were among the week-end visitors at the Roy Martin home.

George Wells visited at the Betts home on Monday, as did Mrs. Willard Schoeffler and daughters.

Mrs. Ishmael Martin and Mrs. Roy Martin visited with Mrs. Ishmael Martin's parents, Mr. and Mrs. Winfield Powell, Saturday afternoon.

Mr. and Mrs. Dale Goffinett of Grangemont, and Mr. and Mrs. Lyle Bashaw and daughters visited at the Roy Martin home Sunday afternoon.

FIX RIDGE ITEMETTES

Clubs And Meetings
The Lutheran Ladies of Juliaetta are having a pot-luck supper for their husbands and their families on Friday evening, March 24, at 6:30 p. m., in the lunch room at the Juliaetta school. An invitation is extended to everyone who might like to attend.

The Friendship Circle ladies and their husbands gathered at the home of Mr. and Mrs. Ernest Denner Friday evening for a pot-luck supper. The evening was spent in playing games, with Mrs. Wallace Clark and Mrs. Walter Denner and Miss Teddy Giese the winners. Mrs. Walter Denner won the door prize for wearing the most green. The next meeting will be at the home of Mrs. Walter Denner.

Short Itemettes

Mrs. Annie Weaver and daughter Dayma visited Friday afternoon with Mrs. Adolph Denner.

Mr. and Mrs. Oliver Clark spent Sunday visiting with Mr. and Mrs. Roy Sweet and Mr. and Mrs. Clyde Sweet, in Lewiston.

Sunday supper guests of Mr. and Mrs. Geo. F. Denner were Mr. and Mrs. Tom Denner and sons, Mr. and Mrs. Walter Denner and family and Mrs. Eleanor Denner and sons.

David Denner visited Tuesday evening in the Adolph Denner home.

Mr. and Mrs. Wallace Clark were Sunday dinner guests of Mr. and Mrs. Rex Knight.

Mrs. Oliver Clark attended a demonstration party at the home of Mrs. Laura Groseclose Monday afternoon.

Saturday supper guests of Mr. and Mrs. Geo. Giese were Mrs. Chester Woodruff of Lewiston; Mrs. Huse Groseclose of Juliaetta; Mrs. Wallace Lane and daughter of Spokane, and Patrick Woodruff of Superior, Mont.

Mrs. Adolph Denner, Mrs. Annie Weaver and Dayma Weaver visited Tuesday afternoon with Mrs. Ellsworth Weaver in Lewiston.

Tuesday evening guests of Mr. and Mrs. Bennie Weatherby were Mr. and Mrs. Bill Lublow and Mr. and Mrs. Lyle Pea and family.

Mrs. George Giese visited Monday afternoon with Mrs. Adolph Denner.

Mr. and Mrs. George Giese were dinner guests Sunday of Mr. and Mrs. R. C. Woodruff in Lewiston.

Mrs. Wallace Clark.

Mr. and Mrs. Adolph Denner visited Monday evening with Mr. and

Get that fresh fish at Blewett's Cash Grocery every Thursday. Delicious, nutritious. 1-adv.

U. OF I. STUDENT TELLS OF WAR PRISONER HARDSHIPS

U. of I., Moscow — "Starvation can keep you from going nuts."

This is the view of a young Nez Perce Indian, Frank Penny, who is a student at the University of Idaho from Ferdinand. In looking back to day on 42 months as a prisoner of the Japanese during World War II, Penny said that he believes it was the challenge to scrounge enough food to keep him alive that pulled him through the toughest periods of prison life.

"Even while you were getting a beating by a guard or while you lay in filthy confinement, you thought about ways of sneaking more food to supplement the small rations of rice that were given you," explained Penny.

A favorite "pastime" of prisoners in one Japanese camp was to sneak out at night, under penalty of death, and dig up giant Japanese radishes. These radishes, averaging 18 inches long, were buried for the winter months in the camp ground near the kitchen. Although well guarded, the radish patch was raided quite often by prisoners who crawled along the ground, in and out of shadows, until obtaining their meal.

"We used to dive and scramble for orange peels and apple cores we would see while marching to work at a coal yard," said Penny. In the dock areas prisoners would hunt soy beans in old barges which had once hauled this product before being converted into coal carriers.

"Once in a while a Japanese woman would slip us a bowl of rice, but this was a rare occasion," the Idaho student reminisced. "The people were well-guarded, too, and it was dangerous for them to give us food. But the more danger in getting food made the months pass more quickly."

Penny said that he felt sorry for the 21 Americans who joined the Communists in Korea, because "I know what they went through." But he added that "as far as I can tell we received similar treatment from the Japanese, and we grouped together to control the situation." He said "there were no pro-Japanese in our camp, and we did as little work as possible without being killed. Anyone who became ambitious was reminded of his place."

Penny, a corporal in the Air Force, began his "lost 42 months" as a Japanese prisoner in the famed Bataan Death march. This was followed by short stays at a prison camp in central Luzon, and a work detail at captured Clark Field. He was soon transferred to the main prison camp on Luzon where he spent the next 15 months. Then he was shipped to Japan for the final two years of prison life.

A senior in elementary education, Penny is married and has two sons, age 2½ and six months. His wife, the former Phyllis Samuels, is from Ahsahka, Idaho.

In addition to his student activities, Penny is also assistant secretary of the executive committee of the Northwest Tribal Council of the Nez Perce Indians. He is one of four

delegates designated to attend the national conference of the Federated Indians of the United States in Washington, D. C., in late February.

Have Fun With Electricity

Idaho 4-H clubbers in farm electrification are showing considerable ingenuity, according to Dan E. Warren, state 4-H club leader. Although most of the 334 youths enrolled in farm electrification projects in 24 counties, last year, devoted most of their time to a study of applications, wiring systems and safety features of electricity, a few of the more advanced ventured into the equipment designing and building fields.

One enterprising clubber converted an old transformer into an arc welder, the state leader reports. Another developed an elevator to make hay handling easier around his farm. Other productions by advanced clubbers in farm electrification include speed reducers for motors, portable motor units, pig brooders and ice cream freezers.

With 85 members enrolled, Latah county leads the state in 4-H farm electrification enrollment, Warren indicates. Canyon county was second with 31 and Bonner county almost tied for that spot with 30.

"Most participants in farm electrification clubs are boys," Warren reports. "However, several fine farm electrification exhibits at the fairs last fall were entered by girls."

The 4-H farm electrification projects are helping get home electrical repairs done speedily and safely. Warren says that some of the local leaders of these clubs became interested in this type of project as a means of learning how to do their own minor electrical repairing.

A Lesson From East Germany

The people of East Germany have experienced the oppression of dictatorship and a planned economy. They have had only one right, and that is to produce at the order of those in power. They know from bitter experience what private trade and independent unions mean. To them they mean the difference between being free men and slaves.

The next time you hear someone advocating government ownership of industry, remember how desperately workers in East Germany and elsewhere are struggling to return enterprise to private hands in order to bring back individual opportunity and free trade unions.

And actually, we need not go as far as East Germany. We have the example of England, with its nationalized coal mines, railroads, medicine, that is returning these industries to private hands as rapidly as possible.

Acid Test

Customer: "I was told to buy either a casserole or a camisole, and for the life of me I can't remember which."

75 years of planning ahead to serve you better

STANDARD OIL COMPANY OF CALIFORNIA

From the West's first successful oil wells of 1879, Standard's drilling operations have stretched all over the world—even in ocean depths 4 miles off shore—to get the oil which you and our friends in other free nations need more and more.

Gasoline was a waste product in Standard's first refinery of 1879, but it's king today. We've developed fuels that made better engines possible, used research tools like the chassis dynamometer (below) to bring you today's top gasolines.

Before horses gave way to horsepower, Standard's wagons of the '80's brought only kerosene, harness oil and axle grease to Western farms. Now our insecticides, weed-killers, fertilizers help increase crop yields and add to your food supply.

First steel tanker in the Pacific, Standard's SS George Loomis back in 1888 began helping us put oil where you need it. Today 26 tankers, 3,748 miles of pipe line, thousands of tank trucks serve your oil needs everywhere in the West, Alaska, Hawaii.

World's first gas station was opened by Standard in 1907 at Seattle, Washington. Since then, we've pioneered the car care you enjoy now—windshield cleaning, tire, battery, lubrication, even "Chevron-matic" credit cards to save you time.

Duke Psychologist Offers Tips on Cigarette Control

Do you have trouble leading a sane cigarette life? If so, here's a common sense recipe by Dr. Gelolo McHugh, Duke University psychologist, that may help you "use cigarettes instead of being used by them."
"People who have to have cigarettes need psychological help, not scare tactics such as threats of stomach ulcers or lung cancer," Dr. McHugh says. "Swearing off entirely is dangerous, because if you fail once, the next try will be that much harder. Limiting your cigarettes to eight or 10 a day is also risky, because it keeps the thought of smoking uppermost in your mind."

Here are Dr. McHugh's suggestions for cutting down:

1. Set aside an hour or two at the beginning of each day and don't smoke during that period no matter how much you want to. After that, smoke as much as you like for the rest of the day.
2. Don't make your daily no-smoking period longer than you can safely control. Over-ambition sometimes leads to failure.
3. Tell your friends what you're doing. Their interest will help you keep control over your no-smoking period.

"After following this plan for several weeks, smokers often find that their cigarette control is growing stronger," Dr. McHugh said. "Experiments show that smokers who set aside a no-smoking period do not have a tendency to smoke more than usual during the rest of the day to make up for lost time."

"Most important of all, after two or three weeks of controlling part of the day, the smoker begins to find himself smoking a little less during the free period. This means that he is on the way to mastering cigarettes instead of being mastered by them."

Dr. McHugh's suggestions are based on data collected over a period of five years and covering some 600 people.

Chubb Crater 1,325 Ft. Deep, Largest Meteorite Crater

A new champion's official measurements have been announced by the National Geographic Society.

The champion is Chubb Crater, established as the largest of all known meteorite craters in the world as the result of four weeks' research carried on last summer at the crater site in northern Quebec by Dr. Victor Ben Meen, Toronto geologist, and five scientist-associates.

The huge pockmark in the sub-arctic granite has a maximum depth of 1,325 feet, figured from the level of the highest point on its rim. The surface of the lake in the crater bowl is 500 feet below the rim's top level, and the maximum depth of the lake is 825 feet. Diameter of the rim averages 11,500 feet, and its circumference is 6.8 miles.

The depth is thus a few feet less and the rim diameter a few hundred feet more than indicated by preliminary figures dispatched from northern Quebec last August at the time field work was completed. Both dimensions, however, are more than twice the corresponding ones of Arizona's Meteor Crater, long officially recognized as the earth's largest scar known to be due to an earth-meteor collision.

The crater lake averages 9,100 feet in diameter. Its shoreline measures 5.4 miles around.

Dr. Meen, director of Toronto's Royal Ontario Museum of Geology, and Mineralogy, led an expedition to the crater site. With magnetometers, they defined a "magnetic anomaly"—a subsurface mass of iron outlined by its effect on the earth's magnetic force. Such an anomaly is attributed by scientists to meteorite fragments buried deep in the granite rim.

Kinds of Mines

Coal mines are of four kinds, three of them underground. If the mass of coal can be reached horizontally, say from the side of a hill on a level grade straight to the heart of the coal, it is called a Drift Mine. If you have to reach the coal at a perceptible angle, down or up, you have a Slope Mine. To get inside either of these mines, tunnels are made into the sides of the hills. The miners may go to the working areas by "man-trip" cars, which are trains of mine cars pulled by especially designed mine locomotives. If you must ride a cage (mining term for elevator) to reach the coal seam, you are in a Shaft Mine. If the coal lies near the surface of the earth and you can rip it out by huge electrically operated shovels and bulldozers, you have an Open Cut or Surface (sometimes called "Strip") Mine.

Indian Legend

Hiawatha, who is believed by many persons to have been a purely legendary character, really lived about 1450 A.D. The mighty Iroquois chief of the Onondago tribe of North American Indians was transformed by legend into a miraculous character with supernatural powers. About 400 years after his death, he was immortalized by Longfellow in "The Song of Hiawatha", an epic poem written after the style of the great Finnish Kalevala.

Foresee Billion Barrels Jet Fuel from Oil Shale

Jet engine fuel by the billions of barrels can be produced from the Green river oil shale formation in northwestern Colorado, Dr. J. D. Lankford, acting chief, of the United States bureau of mines oil-shale demonstration plant in Rifle, Colo., reports.

Low cost oil shale mining already has been found feasible, Dr. Lankford says, and he predicts that the present trickle of 100 to 300 barrels of gasoline and Diesel fuel from the formation will become a mighty torrent as techniques improve.

"It is estimated that 88 volume per cent of the crude shale oil could be converted into a hydrogenated product containing a premium Diesel oil and a high-quality jet fuel practically free of sulfur, oxygen and nitrogen compounds," Dr. Lankford stated. "If desired, the hydrogenated material could be converted easily to gasoline by standard petroleum refining processes."

"The United States bureau of mines oil-shale demonstration plant at Rifle, Colo., is engaged in an integrated research and experimental program to point the way toward the development of a tremendous natural resource, oil shale, for possible wartime emergency and for the ultimate peacetime production of liquid fuels by private industry."

"Billions of barrels of liquid fuels are potentially available from the oil shale of the Green river formation of northwestern Colorado. Research and development work will be necessary over an extended period of time to bring this great natural resource to the stage where utilization will be possible."

Pocket Radiation Indicator Developed for Average Man

An accurate pocket-size radiation indicator, so simple that the man on the street can learn to read it after a few minutes instruction, has been developed at the atomic energy project on the Los Angeles campus of the University of California.

The device was developed by Dr. George V. Taplin and Clayton Douglas of the U.C.L.A. medical school's atomic energy medical research staff.

It measures radioactivity by a color change of chemical solutions in small vials. The chemicals are inexpensive, and it is estimated that the instrument could be produced on a large scale very cheaply.

The vials fit into a compact case about the size of a pack of paper matches, which could be worn around the neck like G.I. dog tags. They also could be adapted to a pencil-like container for the pocket.

The new radiation indicator was specifically designed to measure large doses of gamma and X-rays immediately after an atomic blast. It also lends itself to the development of important peacetime applications, says Dr. Taplin. For example, it could be useful in the calibration of such radiation equipment as fluoroscopes and X-ray machines. It might be used to measure radiation from radio iodine absorbed by the thyroid gland in treatment of hyperthyroidism.

Origin of April's Fool

It was the habit of observing July as the beginning of the year that is said to have started the whole idea of All Fools' Day. From its reputed origin in France, it quickly spread to other countries. We have such varied terms as the English "noddies, gawbies and April gobs," the French "April Fish," and the Scottish "April Gowks." While there are other theories about April Fool's day, the calendar story located by research librarians with Childcraft seems that when King Charles XI of France adopted the reform calendar in 1564, many Frenchmen refused to go along with the new January 1 New Year's. When they continued to celebrate on July 1, they were made the butt of countless jokes—receiving mock party invitations, fake gifts, and pretended ceremonious visits of congratulation.

United Nation's Building

Along the banks of East river on the Island of Manhattan between 42nd and 48th streets the Secretariat building of the United Nations is towering to the sky as workmen are rushing it to completion so that it can be occupied before the end of the present year. The structure will be 39 stories high. It is one of four units that will complete the headquarters as a "workshop for world peace." Contracts for the other three units have not yet been let but it is believed they will be completed during 1951.

Suggestion for Farmers

The average farmer spends 50 per cent of his time around the farmstead. This can be materially reduced by piping water to the point of use rather than carrying it. For example, consider what carrying water to a flock of laying hens involves. If the water point is 60 yards from the hen house, as it is on many farms, the farmer will carry approximately 10 tons of water a distance of 25 miles per 100 hens per year in addition to walking another 25 miles to the water point.

First oil industry 8-hour day was introduced by Standard in 1917. This was a major step in our employee relations programs which include health, pension, insurance benefits and a stock purchase plan—95% of eligible employees own Company stock.

On Lindbergh's trans-Atlantic flight in 1927, we fueled "The Spirit of St. Louis." Now, safer airliners, faster military planes mark aviation progress which Standard research has served. Today we're making jet and rocket fuels for tomorrow's aircraft.

New power for transportation and industry was born in 1935 when Standard's first compounded diesel lubricating oil made high-speed diesel engines a practical reality. Now our scientists are working on lubricants for the first atomic submarine.

Making housework easier, Standard made detergents available for "soapless soaps" in 1946. Later we produced the basic ingredients for wrinkle-proof clothing for men and women, adding again to the more than 1100 products we make from oil.

We pioneered peace-time use of atomic energy. In 1950, using radioactive piston rings, Standard measured engine wear as it occurs, used this research to develop better motor oils, including a new oil so superior it can boost gas mileage up to 15%.

The promise of the past is an even better future

You wear a suit woven from oil, drive on tires born in a refinery, whisk over asphalt super-highways, read about kerosene-powered planes that crack the sound barrier. And you live in a West undreamed of by those 1879'ers who formed the Company from which Standard grew. What lies ahead? If the past is any clue, oil will be saving you more work and money, improving your transportation and putting more luxury in your living. And Standard will continue to play a big part in this progress as we follow our 75-year tradition of planning ahead to serve you and the nation better.

STANDARD OIL COMPANY OF CALIFORNIA

Life Insurance Funds Going To Nation's Defense Plants

Life insurance funds are moving to the aid of the defense activities of the country in increasing volume, and loans made by the life insurance companies in support of the defense program may reach \$3,500,000,000 for 1951, according to the Institute of Life Insurance.

"In keeping with the usual policy of directing new funds into channels where they may be most useful for the national economy, the current trend in life insurance investments is towards meeting the capital needs of the preparedness program," Holgar J. Johnson, Institute president, commented. "This is in line with the voluntary credit restraint program under which defense needs have precedence over all other elements in the economy. Defense financing now accounts for the greater part of the life insurance company placement of policyholder funds in business and industry."

More than \$1,000,000,000 has been loaned by the life insurance companies so far this year to defense plants and indications are that a like amount may be loaned in the remaining months of the year.

In addition, some \$800,000,000 has this year been invested in loans to utility companies and railroads, which are basically involved in all defense activities. This amount may be nearly doubled by the end of the year. Thus, the total of financing made available during the entire year for defense industries or defense-supporting activities may come to \$3,500,000,000.

The loans for defense or defense-supporting purposes represent two-thirds of all loans made in the first six months by the life companies to business and industrial concerns, and the ratio has been increasing since mid-year.

Contrary To Superstition, Oysters Edible Year-Round

Contrary to superstition, oysters are edible in all 12 months. Hot-weather shipping problems helped to build the R-month legend. The taboo remains appropriate even with modern refrigerated transportation, however, since May to August is the natural spawning season. The adult female oyster's feet of discharging as many as a half-billion eggs in this season leaves her a bit too thinned down for prime succulence.

Shad were surpassed only by cod and salmon among U.S. commercial fisheries before the turn of the century. Overfishing, industrial pollution, and high dams barring the way to upstream spawning grounds have forced shad far down on the list now. Although the Chesapeake Bay still accounts for one fish out of three, the total catch is less than one-fifth that of 19th century peak seasons.

Crabs, alewives, rockfish, croakers, sea trout, and menhaden all figure importantly in Chesapeake Bay commerce. Like oysters and shad, they are studied for rehabilitation purposes by such organizations as the Chesapeake Biological Laboratory at Solomons, Maryland, and the Chesapeake Bay Institute, Baltimore.

Pearls and Pipelines

Iranian nationalists have laid verbal claim to Bahrain, oil-rich island across the Persian Gulf where Arabian dhows put in bearing huge milky pearls from the sea floor. Persia has been claiming Bahrain without avail since 1783, however. An independent sheikdom under British protection, Bahrain is the site of an American oil field and refinery. Saudi Arabia's oil wells were joined with the Mediterranean coast in 1950 by the competition of Tapline, a 1,068-mile, 30-inch pipeline across the burning Arabian desert. American and British engineers proposed to build next an even bigger "Middle East Inch" (34-36 inches in diameter) from Abadan to the Mediterranean. Iran's oil would thus be linked by a tunnel of steel with the Western world—if the hot desert wind from Tehran does not blow the project away.

Turbans

In a survey of "fashions down through the ages," made by The Book House For Children the turban was found to be a favorite head covering of many ancient peoples, among them, the Armenians, Babylonians, and Phoenicians. Today's favorites include variations of the cloche, beret, and "beanie," a small disc of felt or straw that is anchored to the head, usually with hatpin or veiling.

Color Blindness

Most common in color blindness is the confusion of red and green, which may affect as many as 80 men and 5 women per thousand population. One person out of several thousand has trouble with yellows and blues. Very rare is complete color-blindness, in which everything is seen as black, gray and white. Not more than a hundred such cases have been reported in the scientific literature. Even a partially color-blind person usually learns to name colors properly a great deal of the time. For example, one with red-green deficiency may learn by experience that what he sees as dull dark yellow is really red, while a light yellowish-gray is what other people call green.

Diabetics Can Live Long, Active and Normal Lives

The control of diabetes so that a person suffering from the disease may lead a long, normal and active life, has become a reality.

In a study of 760 diabetic patients suffering from the disease 25 years or more, Dr. Elliott P. Joslin, of Boston, found approximately 80 per cent active and a few in perfect health.

"The patients in perfect condition are those whose treatment was initiated (with hardly an exception) with strenuous control of diabetes in their early years," Dr. Joslin stated, "this control being maintained for 10 years, more or less, to more than the usual extent and even then continued."

"In this series the evidence is overwhelming that strict treatment of diabetes pays and, moreover, that control of the disease is possible."

Of the total group studied, 23 patients had had diabetes for more than 25 years and yet had a sound body with urine free from albumin, eyes without diabetic complications such as hemorrhages and cataracts, and had arteries free from calcification.

Of these 23 patients, all of whom lived in unusually favorable homes and under comfortable social circumstances according to the survey, 13 inherited the disease, the age of onset ranging from 1 4/5 to 32 years. All take insulin. Seventeen married, resulting in 28 living children, all of whom are healthy.

"Corroborative testimony that diabetics are living long and—most of them—useful lives is afforded by 40 of our patients with diabetes of 30 to 35 years' duration whose onset was in childhood," Dr. Joslin stated.

Mosquitoes Eat Dog (Food) In Unique Clinic Studies

Three million radioactive labeled mosquitoes raised on tap water and finely ground dog food containing radiophosphorus or a phosphate derived from it, were recently used in experiments conducted by the Chemical Corps Medical Laboratories of the Army in order to determine insect flight ranges.

With the constantly increasing human activity in northern regions, the study of arctic and subarctic species of biting insects has assumed great importance. Control of the enormous numbers of mosquitoes that occur in most arctic and subarctic areas is difficult ever with large scale spraying. Ever after such spraying, it has been established that reinfestation from the surrounding territory may occur rapidly. Accurate knowledge of the flight range and dispersal patterns of the important types of biting flies is needed in order to increase the effectiveness of control measures.

In this particular research project the region near Churchill, Manitoba, was selected. This region is on the timberline, and has enormous mosquito populations which include both tundra and conifer forest species. Radioisotopes were used as tracers. Adult mosquitoes were also made radioactive by feeding them on radioactivated rats and rabbits, raisins, flowers, and sugar solutions.

Insomnia

Insomnia is a demon that has plagued people all through the centuries. Now there are so many individual remedies that if a person tried them all, he'd never have time to sleep. There are many ex-insomniacs, though, who swear by their own particular remedy, and if sleep really is elusive every night, then the person suffering from insomnia has nothing to lose by trying one or two which appeal most to him.

A word of warning, though! Don't be too upset or disappointed if a "guaranteed-to-stop-insomnia" cure doesn't work. Before he settles down to the long list of suggestions that friends are more than willing to thrust on him, the insomniac should make a thorough check of his bed.

First, he should see that his mattress is level, resilient and in good conditions—that is, no sags, lumps, humps or bumps. Then he should check his bedspring—if it is in good condition, it will have no broken coils or sags. Next comes his pillow. To provide adequate support it should be fluffy, buoyant, resilient and fill the gap between his shoulders and neck. If his bedding passes this test, then he is free to try some of the 1001 sleep inducers—and with the best wishes of all ex-insomniacs.

Another suggestion, perhaps more to the liking of the teetotalers, is to drink a glass of warm milk every night.

Lightning Bugs

The full details of how a lightning bug produces its light are not fully understood, although it is known to utilize a chemical reaction involving water, oxygen, a rather simple compound called "luciferin" and a more complex one, belonging to the class known as enzymes, called "luciferase." Probably the luciferin, after it has become properly activated, actually produces the light. The insect may exercise some sort of nervous control over the organs that produce light, perhaps in the same way that a nervous impulse controls the contraction of a muscle, and several scientists are engaged in research to find how this happens.

There's Hope After All!

There have been many times of late when we have felt pretty sure that the world was going into reverse, in spite of our amazing technological progress in the ancient art of killing and the more modern techniques of rendering huge sections of the good earth insufferable to man and beast and even the very bugs.

But eight-year-old Bobby Hansen, of Blair, Neb., has reassured us. We don't, after all, think the world is wobbling out of its orbit . . . and maybe you could stand a bit of bucking up yourself.

We learn from "The Enterprise," that Bobby's father saved him from being electrocuted the other day. Put we're getting ahead of our story. Bobby put in a whole of a summer learning the fact-of-life. Shortly after school closed, and he felt free to conduct investigations of his own, he threw a pail of gasoline on a bonfire. The results were, of course, even more spectacular than he had

hoped for. He learned that combustion can be rapid enough to be classed as an explosion. His marks for this experiment will last longer than any received in school.

Shortly after his recovery, while playing in a barn with his younger brother, he decided it would be fun to swing on the electric light wires. The current, somehow, gripped his hands so he couldn't let go. Brother Dick ran for help, and father Hansen, rushing to the rescue, had the presence of mind to pull the power switch before taking his dangling son "off the line."

Soon the burns on his right palm healed up, and Bobby was as good as new — better in fact. He's already a lot wiser. But, we feel certain his urge for unscientific research burns undimmed. — Bob Taylor (USPA).

Make building easy with galvanized steel sheets

 Now's the time to make those much-needed repairs or start those new farm buildings. For now, once again, you can build with steel. For siding strength, use U S S Corrugated Steel Sheets. Because they're corrugated and have a high grade galvanized coating they give extra strength to the building without adding undue weight. For roofing appearance, your best choice is U S S Storm-Seal. Sprinkle, downpour, cloudburst, or gully-washer, StormSeal won't leak, gives you years of protection...yet costs no more than many types of ordinary roofing. Both are easy to apply and give a trim, finished appearance to any building. Come in now and get the facts about these two low-cost, long-lasting products.

STONY POINT NEWS

Miss Vivian Hoisington, a daughter of Mr. and Mrs. Cletis Hoisington, was married in Coeur d'Alene Saturday, March 20, to Robert Blair, son of Mr. and Mrs. H. D. Blair of Clarkston. Mrs. Blair has been with the First Security Bank of Lewiston for the last five years, and Mr. Blair is employed at the P. F. I. veneer plant. They will make their home in Clarkston Heights.

Those from our community attending the basketball games in Twin Falls over the week-end included Mr. and Mrs. Eldon Heimgartner and family, Mr. and Mrs. Cletis Hoisington and family, Marie Heimgartner and Don Brown.

Mr. and Mrs. Wayne Heimgartner went to Pasco, Monday.

The Friendship Club will meet with Mrs. Helena Brown on April 1st.

Thanks To All

I wish to sincerely thank my friends who remembered me with cards, letters and flowers while I was in the hospital in Oregon. — Mrs. Harl Whittinger.

SOUTHWICK NEWS

Schneider attended funeral services at Tekoa, Wash., for Mrs. Ann Winshaw. Mrs. Nellie Danforth accompanied them home. Mrs. Cora Thornton plans to remain at Tekoa for a few days visit.

Mr. and Mrs. Russell Perkins and daughter Hazel spent Sunday evening at the Lloyd Davis home at Cream ridge.

Mr. and Mrs. Lloyd Thornton and Virgil Dygert spent Monday in Lewiston, where they visited at the Will Dygert home, the latter being ill.

Mr. and Mrs. Leland Marvin and children and Mrs. Russell Perkins spent Tuesday in Lewiston and Clarkston.

Bill Cowger has gone to Genesee, where he has employment.

Virgil Harris, who is employed at Pasco, spent the week-end here with his family. On Saturday all were Lewiston visitors where they spent the day.

Selling Is The Answer

An article in a recent issue of Newsweek Magazine should interest consumers.

It began: "The business is there. It's up to us to go out and get it. That's the way most of the nation's producers and retailers are reacting these highly competitive days."

Newsweek then dealt with some of the tools retailers and others will use intensively to attract customers. Advertising is the biggest factor here, and in many cases budgets for this purpose are being greatly increased. Stores are being spruced up, and when possible prices are being cut. And sales forces are being bolstered and schooled in customer relationships.

Aggressive, intelligent selling is a part of the American genius. The prime example was the development of our vast system of mass-distribution, which made mass production workable. Critics have jeered at the salesman and the salesman-mentality. But the fact remains that selling, which simply means moving the largest possible quantities of goods into the hands and homes of the ultimate consumers — has been very largely responsible for our employment, earnings, and high living standards.

At the end of its article, Newsweek made this significant observation: "Success in the current selling drive may well spell the difference between prosperity or bust." American enterprise has long been preparing for the conditions that prevail today, and is convinced that it can do the needed job.

Americans have money — the federal reserve reports show that — the problem is to sell them on goods.

Study Course

The Kendrick W. S. C. S. has started another study course and anyone who has not attended before and who is interested, is cordially invited to attend.

The "Book of Jeremiah" is the new topic chosen and the next meeting will be in the home of Mrs. Howard Hoffman at 1:30 Monday afternoon. Mrs. Hoffman is acting as leader for the course.

It's Blewett's Grocery-Market for frozen Bird's Eye Foods! 1-adv

Man-Made Light Moves Ahead By New Inventions

There is nothing to show that our anthropoid ancestors used candles to find their way around among the trees after dark, but there is ample evidence that the hairy cave man used fire to scare away prowling beasts.

Man-made illumination has come a long way since those remote days. By far the greatest strides have come in the past 75 years—greater progress than through all the thousands of years before. From the cave man's torch to electric light, the flame was the only source of illumination.

Within recent weeks, a new source of artificial light has been announced wherein electricity appears to serve merely as a match to light a wick. Powdered phosphor on a sheet of glass emits a mellow glow of its own under electric impulse. Your house of tomorrow may have these panels installed in walls and ceilings. It is claimed the cost of maintenance will be so low that the only need for switches will be to turn lights off when you want darkness. Clockfaces, stair risers and other incidentals will be permanently connected.

With this revolutionary development in man-made light comes wonder as to how it all started. Archaeologists have concluded among the earliest to whom the cave man passed his flaming torch were the ancient dwellers of Mesopotamia where lamps, fashioned from terra cotta, were found to have been used during 7000-8000 B.C. Copper and bronze lamps were used by the Persians and Egyptians in 2700 B.C. Homer described a "Festival of Lamps" in 950 B.C. The Romans were using lanterns a century before Christ.

The candlesticks of Biblical times and the lamps of the vestal virgins used animal and vegetable oils. Pliny mentioned the use of a mineral oil for lamps in 50 A.D. The Phoenicians appear to have been the first to use wax for candles in 400 A.D.

Atom Disaster Would Demand Many Trained 'Mass Feeders'

"In case of enemy attack or atom bombing, the disaster would demand more trained persons for mass feeding than we can hope to have today," two Red Cross workers who conducted an emergency feeding program during the flood disaster in Kansas City last July, warn in an issue of the Journal of Home Economics.

"Disaster feeding at best is a hodgepodge affair because there are never enough experienced people and survivors to do an ideal job," Jane Griswold, assistant national director of the American Red Cross Food and Nutrition Service, and Kathleen Kienstra, director of the Midwestern Area division of that service, explain in an article pointing out that experience in the flood disaster indicates what the situation would be in event of enemy attack. While urging the home economists to be ready with their professional help, the authors pay great tribute to the work of the community organizations who carried out the feeding program during the Kansas flood.

"It is encouraging to see the common purpose that draws people together when disaster comes to a community. The simple, basic, practical things that people can do for each other helps to ease the impact of catastrophe and turn the mind from despair," the authors conclude in the article, "Red Cross Fights Flood Disaster."

Treating Addicts

Law enforcement, education of the public and treatment of the individual are the three most important factors in combating the alarmingly increasing dope addiction among teen-agers, according to an article in Today's Health, published by the American Medical Association. "Regardless of where the upsurge of addiction started, it has jumped racial, economic and social boundaries," said the author of the article, Dr. Victor H. Vogel, medical officer in charge of the U. S. Public Health Service Hospital at Lexington, Ky. The hospital is one of the two federally operated for the treatment of drug addicts. Dr. Vogel reported that admissions at the two federal hospitals for drug addicts rose from 2,700 in 1949 to 4,500 in 1950, with an estimated rate of 4,200 in 1951. "An alarming part of this increase was due to the admission of addicts under 21, which jumped from 22 in 1947 to 440 in 1950—an increase of 2,000 per cent," Dr. Vogel stressed.

Early Inventors

Among the early American inventors who founded great industries, few struggled against adversity more desperately than Gail Borden (1801-1875), who was the first to obtain a patent (August 19, 1859) on a process for condensing milk. His first invention was a meat biscuit for which he was granted a prize at the International Exposition of London in 1851. Returning from London he was anguished by the death of infants on the ship who had been fed milk from sick cows. As a result of this experience, he spent years of experimentation to invent a process that would preserve milk under wholesome conditions.

A Famous Recipe

BAKED SALMON AU GRATIN

By MARY BLAKE

Home Service Department
Carnation Company

Of all the tempting ways to serve salmon, none will please you more than this rich and savory oven dish.

5 tbsp. butter
3 tbsp. grated onion
1/4 cup chopped green pepper
1 cup soft bread crumbs
1 lb. can salmon
1/4 tsp. salt

1/4 cup Carnation Milk, diluted with 1/4 cup water
1/4 tsp. pepper
1/4 tsp. paprika
Juice 1/2 lemon
1/4 lb. American cheese, grated

Put 4 tbsp. butter in saucepan, add onion, green pepper, bread crumbs. Heat thoroughly. Remove skin and bones from fish and break in small pieces. Mix all ingredients, saving cheese and 1 tsp. butter. Place alternating layers of fish mixture in buttered baking dish, sprinkle generously with cheese and dot with 1 tsp. butter, until all are used. Bake in a moderate oven at 350° F. for 30-40 min. Serves 6.

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mrs. Herbert Schwarz, Mrs. Emil Silflow and Mrs. Harold Silflow will call on the people of this community to collect contributions for the Red Cross, some day in March.

Mrs. Meske, Mrs. Ted Weyen and Mrs. Glen Wegner were hostesses at an all-day Ladies Aid meeting Wednesday.

Gary Lohman, U. of I. student, spent the week-end with his parents, Mr. and Mrs. Ervin Lohman.

Mrs. Ida Stoneburner and Miss Emma Hartung received word from Lewiston Saturday at noon that Gerald F. Cridlebaugh had passed away very suddenly. Mrs. Stoneburner is at Lewiston with her niece, Mrs. Cridlebaugh.

Mr. and Mrs. Irvin McGeachy and family and Mr. and Mrs. Ed. Mielke and daughters spent Friday evening with Mr. and Mrs. Glen Wegner.

Mr. and Mrs. Herbert Schwarz and daughter JoAnn visited with Mr. and Mrs. Kenneth Wilken Friday evening.

Mr. and Mrs. Harl Whiting returned Sunday evening from a few weeks' stay at McMinnville, Oregon, where Mrs. Hartinger received medical care. They spent Saturday night with her aunt, Mrs. May McCall, at Lexington, Oregon.

Mr. and Mrs. Jim Whiting, Mr. and Mrs. George Wilken, Mr. and Mrs. Roy Ramey and Mr. and Mrs. Walter Koepf and family were Thursday evening dinner guests of Mr. and Mrs. Ernest Brammer.

Mr. and Mrs. Gus Kruger and Mr. and Mrs. Fred Silflow, the latter of Juliaetta, were Sunday visitors in the Mr. and Mrs. August O. Wegner home in Pullman.

Mr. and Mrs. Bill Rogers and fam-

ily of Kendrick were Friday evening dinner guests of Mr. and Mrs. Ted Weyen.

Helen Mielke was a guest of Mrs. Lloyd Craig at Leland at a quilting party on Thursday.

Mr. and Mrs. August Brammer and son Cecil visited with Helen Mielke and Ted Mielke, Friday evening.

Wayne and Vern Wegner spent Sunday evening with Ted Mielke.

Mr. and Mrs. Wilbur Tarbet and family were Thursday evening dinner guests of Mr. and Mrs. Ted Weyen and family.

Ed. Schliefer and Clarence Henger of Lewiston were Thursday visitors of Ted Mielke.

Mr. and Mrs. Roy Ramey, Mr. and Mrs. Ernest Brammer and Mr. and Mrs. Henry Wendt spent Sunday with Mr. and Mrs. Walter Koepf.

Mr. and Mrs. Maurice Hudson and family, Mr. and Mrs. Glen Newman, Mr. and Mrs. Harry Newman and daughter Linda and Mr. and Mrs. George V. Allen and family and Helen Mielke visited with Mr. and Mrs. Fred Newman, Sunday.

Mr. and Mrs. Ervin Lohman honored their son Ronnie on his birthday anniversary Sunday, with a dinner. Guests were Mr. and Mrs. Leo Lohman and family. Afternoon and evening visitors were Mr. and Mrs. Ed. Mielke and daughters.

Mr. and Mrs. Glen Wegner and family were Sunday dinner guests of Mr. and Mrs. Don Johnston at Lenore. The dinner honored Mrs. C. H. Fry of Kendrick, on her birthday anniversary.

Mr. and Mrs. Henry Wendt spent Monday evening with Mr. and Mrs. Kenneth Wilken.

Mr. and Mrs. Wilbur Tarbet and family were Saturday supper guests of Mr. and Mrs. Glen Wegner and family.

Mr. and Mrs. Art Sackett of Cavendish and Otto Rauschke were Sunday guests of Mr. and Mrs. Fred Schoeffler.

Mr. and Mrs. Henry Wendt and Mr. and Mrs. John Blankenship and family were visitors in Moscow on Monday.

BIG BEAR RIDGE NEWS

Mrs. Helen Hunter demonstrated "Rug Making" to the Happy Home Club at the Community hall Tuesday afternoon.

Mrs. W. A. Myers of Lewiston spent the week-end in the home of her son-in-law and daughter, Mr. and Mrs. Claude Jones.

Mrs. Grant Clemenhagen and Miss Bertina Forest attended a Club Council meeting in Moscow, Friday.

Mr. and Mrs. E. H. Jones were Lewiston visitors on Monday.

A. Kleth has returned to Lewiston, having spent the past week with their son, Ole.

Ray Jones arrived here from Bates, Oregon, a couple of weeks ago to assist his sister, Mrs. Ed. Hinrichs, with spring work.

Mr. and Mrs. Ingvald Aas of Clarkston spent Sunday with Mrs. Johanna Nelson.

From Lewiston Tribune, Sunday, "Records:" A marriage license was issued to Merwyn R. Emmett and Jeannie M. Griffith, of Lewiston.

The Morey families have received word of the death of Mrs. James Fiskin, in Spokane.

Mr. and Mrs. Ed. Peterson are moving to Portland, Oregon, to make their home.

Another card party was enjoyed at the Community hall Saturday evening.

Mrs. Ed. Galloway, local Red Cross Drive chairman canvassed the ridge for funds last week.

Arnold Halseth is employed at Lewiston.

Ladies Night

The last regular meeting of the Lions Club was designated "Ladies Night" with approximately 45 Lady Lions present. The St. Patrick's Day theme was carried out, with many men resplendent in green neckties.

A delicious swiss steak dinner was served by the Kendrick W. S. C. S. ladies, and enjoyed by all.

An entertaining program, with George Poulos as M. C., and lots of visiting rounded out a perfect evening.
