INTERESTING NEWS NOTES FROM THE SOUTHWICK AREA

Bridal Shower

Upon arriving from Lewiston at the D. V. Kuykendall home, on Tuesday, April 20, Miss Barbara Bonser of Detroit, Mich., was greeted by a Kuykendall family — with a bridal shower. Which, needless to say, was a surprise.

After playing games the honoree was presented with a shower of gifts, which she opened and displayed. Mrs. Dick Watson, seated behind her, took down her comments, which were read later. She received a profusion of beautiful and useful gifts.

A lunch of cake, jello and coffee was served by the hostesses, Mrs. Jack Kuykendall of Kendrick, and Mrs. Alma Betts of Golden Rule, to 29 relatives and friends.

4-H Club Meeting The Southwick 4-H Club met on "Making and Baking a Wacky Cake." Mrs. Russell Perkins, assistant leader, demonstrated "Incorrect and Correct Ways of Setting a Table." Refreshments were served by the hostess and the Club sampled the

"Wacky Cake." The next meeting will be at the home of Hazel Perkins, and Club members will give their demonstra-

Howard Wolff To Graduate Lackland Air Force Base, Texas, (Official) — Howard A. Wolff, 19, son of Mr. and Mrs. Leonard Wolff, Kendrick, having successfully completed the initial phase of his aviation cadet training program, has been graduated from the USAF Pre-Flight School, Lackland Air Force Base, San Antonio, Texas.

The graduation was marked at a parade and assembly of the USAF Pre-Flight school. This organization conducts the introductory course for all students enrolled in both pilot or aircraft observer training. The program constitutes a major mission of Lackland, the gateway to the air force base, comanded by Brig. Gen Wycliffe E. Steele.

Having completed the twelve-week pre-flight course, he will enter the first flying training phases of the program at bases of the flying training air force. Many of the pre-flight graduates will receive delays enroute to their new assignments which will enable them to take a brief home

The graduating class included a number of students enrolled as members of South American, European and Asiatic nations as well as United States cadets. They are engaged in the training either under provisions gram or under agreements presently in force between their home countries

and the United States. Progress On Building

Heimgartner and Sparber are making very good progress on the construction of the new school bus garage. They have completed the pouring of the concrete bases for the walls, and piers for the supports over the doors, and a good portion Mrs. Brocke is area drive chairman, of the wall framing is now in place.

Shirttail Sharpshooter

Mr. and Mrs. Bob Nelson, American ridge, were awakened Tuesday night by the sharp barking of their dogs. Upon investigation it was discovered the dogs had treed a large coon - right under their bedroom window.

Clad in bedroom slippers and pa-jamas, Bob grabbed his trusty "gas pipe special" and aided by Mrs. Nelson with a flashlight, he took a "pop"

at the prowler.

Handicapped by darkness, this first shot just "winged" the coon, which fell from the tree and eluded them in the night, only to go "shinnying" up another tree, trying to get away. The Nelsons and their dogs gave hot pursuit down into the canyon, with pajamas "flapping" in the chilly night air, dogs yelping, and Mr. Coon only a few paces ahead.

Finally he was cornered, backed

into a log and brush, and Bob was able to get a shot into his head which

dropped the thieving prowler.

It was guessed that the male coon weighed around 25 pounds. He had visited the Nelson ranch before, on his expeditions of thievery, but this was the first time the dogs had been able to corner him within range of Bob's "trusty gat."

Eleven Choirs In Song Fete

Lewiston - Choirs from 11 Metho-Mr. and Mrs. Eugene Betts were dist churches from the Lewiston area joined voices in the Fourth Annual Cpt. Audrey Bonser of Seattle ar-rived at the D. V. Kuykendall home school auditorium last Sunday even-Choir Festival at the Lewiston High

About 250 voices were heard by an Mr. and Mrs. Henry Burnstein of gan of the University of Idaho school

of music faculty directed the singing.
The choirs joined voices to sing two selections, "Open Our Eyes" by MacFarland, and "Resurrection," by Curran.

Individual selections were sung by each of the eleven choirs representing churches at Moscow, Pullman, Pomeroy, Grangeville, Cottonwood, Aso-

A junior choir from Moscow sang two numbers, "Nobody Knows The Troubles I've Seen" and "Fairest Lord Jesus."

The invocation was given by the Rev. F. C. Schmidt of Kendrick, and a prayer offered by the Rev. LaVern Tooley of Grangeville. The Rev. Merritt Faulkner of Lewiston presided.

- Lewiston Tribune. The choir from the Kendrick Community church included Mrs. Dennis Racicot, director; Mrs. Bob Magnuson, Mrs. Bob Hutchinson, Janice Christensen, Donna Kanikkeberg, Joyce Armitage, Oretta Holt, Mrs. Charles Easterbrook, Mrs. George F. Brocke, Sr., Mrs. Wm. Holt, Jane Racicot, Jo Darby, and Mrs. H. C.

Lions Club News

The Community Lions Club met last Wednesday evening at the Fraternal Temple, with the Grange ladies serving a delicious ham dinner.

During the business meeting it was decided to sponsor the Mobile Chest X-ray Unit. Arrangements were left up to Dennis Racicot, Welfare committee chairman. He named Norla Callison, John Johanson and L. S. Thurber as helpers.

According to available information the unit will be in this area the first week in June.

Everyone is urged to avail them-selves of this opportunity. The x-ray picture is free.

Our Thanks To You

Take TVA Off Taxpayers Backs

The Chamber of Commerce of the United States has made a study of the Tennessee Valley Authority. It finds that TVA's revenues from selling below-cost electric power are insufficient to return the taxpayer's investment, and that over the years TVA has been subsidized to the tune of hundreds of millions of taxpayers dollars. It then suggests a number of steps that should be taken to put VA on a business basis:

1. TVA power should be financed through the sale of revenue bonds, or by temporary borrowings from the Treasury at current interest rates, thus eliminating direct ap-propriations by Congress for power operations.

2. TVA should continue to make payments on funds borrowed for its power investment until the debt is liquidated.

3. TVA should pay interest on the unamortized portion of its power investment to the general fund of the

4. TVA should pay state and local taxes equal to the amount that a private utility doing the same busi-

ness would pay. 5. TVA should pay to the federal government a suitable percentage of ts revenues in lieu of income taxes.

If TVA is really a soundly conceived and soundly administered venture, it is difficult to see how these proposals can be logically opposed. They certainly aren't punitive. All the power field must operate, and they would do is make TVA, which take it off the weary back of the is a commercial enterprise, operate taxpayers. — Industrial News Reas other commercial enterprises in

"COULD THIS BE YOU?"

the power field must operate, and

Human Brakes vs. Car Brakes

Few people seem to realize that a human being can stop quicker than any automobile made, and few people, especially those who have never driven a car, appear to realize the vast difference between walking speeds and vehicle speeds. While a pedestrian takes one step and advances about a yard, an automobile driver at 30 a yard, an automobile driver at 30 miles an hour advances nine yards. The average highway is 30 feet, on 10 yards wide. Simple arithmetic shows that a car approaching on your right 270 feet away will catch up with you when you cross the road, unless one or the other puts on the brakes.

on the brakes. It is seldom that a human being has defective brakes and in the case of the human being, the physical re-action and time of stopping is not dependent on mechanical reaction, so that the pedestrian will be safer de-pending on his own brakes and pay-ing more attention to the rules of the road, which apply to him as well as the driver of the car.

As pedestrians let's adopt an attitude of reciprocity and do our cross-ing in the paths provided for us, and where we have the right of way although some drivers don't seem to feel this is the case.

This advice comes from the Traffic Safety division of the Department of Law Enforcement.

THE TRAFFIC TREND

By Dwight Crofford

If the present motor vehicle accident rate continues to follow the same trend there will be one child in every family killed or severely injured in a vehicle accident, according to statistics published by the National Safety Council in cooperation with 20 colleges and universities throughout the nation.

This is an amazing fact to most of us. It is hard to realize that one of us. It is hard to realize that one of those youngsters having such a good time playing with the toy cars may eventually be the victim of an accident in a real car. There may be a tendency to pass these facts off lightly, thinking that they are only statistics and probably won't turn out as predicted, anyway. That may have been the attitude of the nearly 2000 that were injuried and the 196 2,000 that were injured and the 196 that were killed on the highways in Idaho in 1953. Be assured that the wrong attitude toward this problem can bring it to pass.

The average person asks: "What can be done to help protect my loved ones and myself as we drive our car?"

We can offer only one suggestion, which we feel will help to reme by the situation and reduce the toll. The answer is to drive as if your life depended upon it — for it does.

The soldier is thoroughly trained

in self protection and the art of combat, and he learns his lessons well if he wants to stay alive. Lawyers, doctors, ministers, newsmen and anyone else who wants to be successful train themselves and learn their lessons well in order to attain the highest standards of achievement.

It is time that we all learn what careful driving means, for there are more cars on the road these days than ever before. In a necessity of using the car is more apparent every day and the number of people driving is increasing. In the future, nearly everyone will drive and face the hazards of the road, which makes a thorough knowledge of safe driving more essential than ever before.

With the increase of drivers, vehicles, and miles of travel, comes the necessity of a complete knowledge of the laws governing traffic, and a willingness to do more than obey them. Drivers must be willing to forfeit their rights in many instances in order to avoid an accident.

Are you willing to help cut the traffic accident travel? Do you want to protect your children? Do you know and obey the laws as you drive? Will you give way to the other person in order to prevent an

If you can answer yes to all the above questions, then there is a chance to stop the present trend and preserve life and limb.

For Good Measure

He ordered two dozen roses to be sent to his beloved on her twentyfourth birthday anniversary. "A rose for every precious year of

your life," the card read. Then, because the young fellow was one of his best customers, the florist threw in an extra dozen.

Socrates once said that the highest knowledge which a man could have was to know that he knew little.

FIX RIDGE ITEMETTES

The ladies of the Friendship Circle Club met at the home of Mrs. Walter Dennier Thursday evening, with 11 members present. Mrs. Bill Laney of Moscow demonstrated "How To Make Candles." Mrs. Katherine Dennler of Lewiston and Mrs. Geo. Slead of Lenville were guests. The next meeting will be at the home of Mrs. Wallace Clark on May 21st. Mrs. Theo Meske of Cameron will show us how to decorate cakes. Lunch was served by the hostess, Mrs. Walter Dennler, at the close of the meeting.

Marilyn Sather of Genesee was an over-night guest of Judy Dennler,

Mr. and Mrs. Ernest Dennler and children and Mrs. Katherine Dennter were Wednesday evening supper guests of Mr. and Mrs. Adolph Den-

Arlene Dennler visited Sunday with Marie Heimgartner at Stony Point.
Mrs. D. M. Richardson and son Wesley, Miss Donna Briggs and Mr. and Mrs. Paul Brown and children, all of College Place, Wash., were Friday and Saturday visitors in the Wallace Clark home.

Mrs. Walter Dennler and son Bob,

Mrs. G. F. Dennler, Mrs. Tom Dennler and Mrs. Eleanor Dennler attended the pot-luck supper in Cameron Sunday evening.
Rev. and Mrs. W. W. Myers of

Lewiston were Sunday dinner guests of Mr. and Mrs. Bennie Weatherby Mrs. G. F. Dennler, Mrs. Walter Dennler and Mrs. Tom Dennler were Kendrick visitors Saturday afternoon.

SEED SLANTS

Garden time is here again, which means the selection of seeds to be planted is at hand. Of each variety of vegetable in common use, several types of seeds are available. Take peas, for instance. Some varities are early; some are late; some are good The temperature remained rather only for table use; some are canners chill, and as one farmer put it, "this only; and some are freezers — still others will freeze and can. The most popular of these varities of peas are the ones that will freeze, and still distributed nitrogen or land plaster retain fine flavor and shape. It seems that more and more gardeners are raising "freezing" peas each year, and in greater quantities. There are several fine types for freezing, such as Thomas Laxton, Laxtonian and 7-lb. 2-oz. son, born to them Sunday, April 25, at Coeur d'Alene. He has heen named Dala Allon April 25, at Coeur d'Alene. He has been named Dale Allen.

Her mother, Mrs. E. J. Platt, left Wednesday afternoon for that city to see their new grandson and help care for him over the week-end, on Mis. Kuykendalls return from the hospital.

One called "Freezemaster." This variety is ideal for freezing. It is good for table use when picked from the vipe. However, it cannot be used for canning, as it was not developed for this purpose. "Freezemaster" produces a compact pod, filled with lucious dark green peas, with a sweet, delicious flavor that is pleasing to all. The plants are of medium height The plants are of medium height, and are heavy yielders. Maturity is 60 days. Should you want the best, we recommend this pea for freezing, reminds fishermen of the recent the pea that has been developed for change in the trout and blueback bag the freezing industry, use only limit. It still allows seven pounds "Freezemaster," in Bettergrow Seeds.

For a canning pea, we have a fine new variety, named "Canmaster." This is strictly a canning pea. Light green in color, fine texture, very given away with the sale of cigars, sweet and tender. Matures in 64 days. cigarettes, and tobacco. For canning, try "Canmaster" peas. For all purpose peas we recommend

the following varities: Thomas Laxton, 65 days; Laxtonian, 64 days; Little Marvel, 63 days; American Wonder, 63 days; Little Gem, 64

For early table use the "Improved Early Alaska" is hard to beat. This pea will thrive in a cold, damp growing season, as well as under ideal conditions. For early table use plant a row or two of "Improved Early Alaska" Peas.

For the best in any seed, always buy "Bettergrow Seeds." Our stocks are selected from the finest available, well adapted to the growing conditions of this area.

Older model, but good. Mrs. W. L.
McCreary, Kendrick. 17-tf

Modern Dentistry Can Aid Youth with Cleft Palate

The role of modern dentistry in the total rehabilitation of young men and women with cleft lip or cleft palate so they can lead happy useful lives is revealed in the Journal of the American dental associa-

Asserting that more children are born with this condition than any other congenital deformity, Dr. Herbert K. Cooper, director of the Lancaster, Pa., cleft plate clinic, estimated that at least one out of every 700 children have this handicap.

"The most frequently found condition has been getting the least amount of attention," he said. "The citizens of this country should be as well informed on the subject of cleft palate as they are on poliomyelities, cerebral palsy and rheumatic fever."

Citing cases of patients treated at the clinic, Dr. Cooper told of a youth, 17, born with a cleft lip and cleft palate. During infancy, sur-gery had been performed, leaving him with a flat upper lip and very poor speech.

"He shunned all social contacts," Dr. Cooper said. "He left high school and was driving a truck. His whole family was extremely upset." Dr. Cooper said the youth was

given a medical, dental, speech and psychological examination. An appliance was constructed to build out the upper lip and cheeks and thimble crowns were placed on his five remaining upper teeth. At the same time, he was given speech instruction.

The boy was persuaded to finish high school, Dr. Cooper said, and he then was admitted to college. He added:

"The first two years were quite difficult for him because of his social adjustment problem, which he gradually overcame. Then he was taken into a fraternity and was graduated on the dean's list. He is now attending law school in a large university."

U.S. Still Leads World In Production of Matches

It's pretty difficult to get some-thing for nothing these days, but there's one item left that is used by the average person 14 times a day, and two out of five times he doesn't have to pay. That little item is the

The manufacture of matches is a \$25 millon-a-year industry in the United States. Each year, more than 500 billion matches are produced, and of 200 billion book matches made in the United States every year, about 196 billion are

Sweden had us topped for many years in the production of matches. The Swedish Match Company, formed in 1913 by Ivar Kruegar, had match factories in 43 countries of the world and manufactured most of the world's matches. Kruegar is said to have invented the common superstition that "three on a match" is unlucky, in order to sell more matches. His match empire lasted until 1932, when it was discovered he'd been using the company's capital for his own speculations.

Sweden now ranks fourth down the line led by the United States. Great Britain ranks second and the Soviet Union third.

Spices in History

There are many references to spices and herbs in the pages of history. They play important parts in the development of our civilization. The ancients attributed strange powers and accomplishments to spices. Basil, for example, is venerated by the Hindus who plant it outside their temples and homes to insure happiness. The famed laurel wreaths which crowned Greek heroes of war and sport are the same bay leaves we use today in our cooking.

Freezing of Water Pipes

Freezing is most likely to occur in pipes which run along an outside in pipes which run along an outside wall. This hazard should be corercted by re-location of the pipes, if possible. If this is impractical, thorough insulation with from two and one-half to three inches of good pipe covering is the only referenced. and one-half to three inches of good pipe covering is the only safeguard. Should any of the piping freeze, the work of thawing it should not be entrusted to a handyman. It should be done under the supervision of an experienced master alumber. experienced master plumber. Blow torches or other methods involving open flames are extremely dangerous. They not only involve fire hazards but also permit the generation of high pressures which may cause explosions.

Gregorian Calendar The form of our present calendar

was set by Julius Caesar with some additional innovations by Augustus Caesar. However, in about 1500 years the length of year adopted by the Caesars proved incorrect. Therefore, Pope Gregory, in 1582, appointed a commission which revised the calendar sufficiently to 17-1x bring it back in step with the seasons. Now it takes 3000 years for the calendar to slip out of line one 17-tf day. The Protestant countries did not accept the Gregorian calendar FOR RUBBER STAMPS OF ALL until 1732 and this is why certain KINDS see the Gazette. Top quality reasonably priced. Quick service. Gezette, Kendrick, Idaho. 27-tf
