INTERESTING NEWS NOTES FROM THE SOUTHWICK AREA

Southwick Homemakers Club
The Southwick Homemakers Club met Thursday at the home of Mrs. Rachel Armitage. A very busy meeting was presided over by the president, Mrs. Virginia Cantril.

The topic of the meeting was "The South Sea Islands," and the table was decorated with a scene made by Mrs. Armitage depicting the islands, boats used in fishing, volcanos and vegetation. A little lady of the South Seas sat in the midst of it, beside her hut — the whole presenting a very lovely picture. A fruit compote of tropical fruits, punch, tea and cake were served.

The next meeting will be on Aug. 12 at the home of Marie Kachlemier.

Syringa 4-H Club
The Syringa 4-H Club will meet on Thursday afternoon at the home of LaVetta and Lavelle Thornton.

General News
Mr. and Mrs. Jack Mustoe, Wayne Harris, Mr. and Mrs. Frank Cantril and daughter Janice, Mr. and Mrs. Don Cantril and daughter Sandra and Johnnie Longteig went to Joseph, Oregon, Friday, to spend the weekend at the home of Mr. and Mrs. Wilbur Colwell. On Sunday Mr. and Mrs. Walter N. McCall and son Bob of Kendrick and Diane Cantril drove to Joseph to join the party. They all helped celebrate the Chief Joseph Days over the weekend.

Mr. and Mrs. Lloyd Thornton and family spent Sunday with Mrs. Thornton's parents, Mr. and Mrs. Will Dygett, in Lewiston.

Mr. and Mrs. Ronald Benjamin of Clarkston spent Sunday at the home of Mr. and Mrs. Milton Benjamin.

Mr. and Mrs. Ervin Fry entertained at dinner Sunday for Mr. and Mrs. Daymon Schneider and family of Cream ridge. The dinner was in honor of Eldon Fry's eighth birthday anniversary.

Joan and Stanley Davis were guests for dinner at the home of Rev. and Mrs. Martin Swinney, Sunday.

Rev. and Mrs. Martin Swinney, Mrs. Milton Benjamin, Mrs. Lloyd Thornton and Mrs. Ervin Fry and sons went to Elk River on Tuesday in search of huckleberries. Returning home through Bovill.

Mr. and Mrs. Aaron Wells spent Sunday at Ahsahka in the home of Mr. and Mrs. Wade Candler.

Mr. and Mrs. Roland Shaw of Coos Bay, Oregon, were guests at the home of Mr. and Mrs. Clay King on Wednesday and Thursday.

Mr. and Mrs. Ivory King and family returned Friday to their home at Bothel, Wash., after spending two weeks here visiting Mr. King's brothers and their families: Mr. and Mrs. Clay King, Mr. and Mrs. Claude King and Mr. and Mrs. Ray King, the latter of Cavendish.

Mr. and Mrs. C. A. Cuddy drove to Grangeville on Thursday to get their granddaughter, Debbie, who will remain with them for a week while her mother is having a medical check-up at the Grangeville hospital.

Mrs. Alice Wright, who has been a house guest of Mr. and Mrs. C. A. Cuddy, has gone to Gold Hill to visit friends and relatives there. She is now a guest in the William Cuddy home.

Mr. and Mrs. Charles Harris and daughter Linda are in Spokane, where Linda was operated on Monday for a speech impediment. While their parents are away, Delbert and Gilbert and Dave Harris are staying at the home of Mr. and Mrs. Abner Cowger; Shirley and Marilyn at the home of Mr. and Mrs. Earl Harris in Pullman.

Mrs. Helen Cowger, Pat Cowger and Mrs. Cora Jennings spent Friday in Orofino.

Guests of Mrs. Cora Jennings on Thursday afternoon were Mrs. Ardis Gertje and Mrs. Stella McIver.

Mr. and Mrs. Verlin Benjamin and daughter were Sunday visitors at the home of Mr. and Mrs. Al Pederson at Gold Hill.

Saturday guests at the home of Mr. and Mrs. William Kachlemeier were Mr. and Mrs. Pat Harnetts of Nez Perce, Idaho.

Mr. and Mrs. Edwin Hanks and children of the Lewiston Orchards were week-end guests in the home of Mr. and Mrs. Howard Southwick.

Mrs. Hattie Southwick and grandson David Winters, spent the day Monday at the home of Mrs. Christina Cuddy.

Mr. and Mrs. Darwin Tarry had as guests in their home on Sunday Mr. and Mrs. Gil Erlwin.

John Darby spent Sunday visiting with William Kauder at his home here.

Mr. and Mrs. Arlie Armitage spent the week-end camping at Kelly Fork, on a fishing trip. We did not learn their luck.

Dinner guests of Mrs. Millie Harris on Sunday were Mr. and Mrs. Given Mustoe, Hattie Southwick and David Winters.

Mr. and Mrs. Al Pederson of Gold Hill called at the Verlin Benjamin home on Monday.

Mr. and Mrs. Leland Marvin and children joined Mr. and Mrs. Jess Daniels of Cavendish; Mr. and Mrs. Andrew Marvin of Teakean; Mr. and Mrs. Dick Daniels and daughter of Orofino, and Mr. and Mrs. Harold Marvin of Asotin, in huckleberrying in the mountains, Sunday.

Guests from Lewiston at the home of Mr. and Mrs. Lloyd Thornton on Thursday were LeVina and Evelyn Thornton.

Mr. and Mrs. William Dygett of Lewiston spent Friday and Saturday at the Lloyd Thornton home.

Mr. and Mrs. James Reece and children of Cavendish were guests for

Twenty Year Ago Issue Coming

Our annual "Twenty Years Ago" issue of the Gazette will be delivered to the public on Thursday, August 19 — and will contain as an added feature, several columns of historical material on Kendrick, compiled from a number of sources.

This annual issue is put out to make it possible for the Gazette force to enjoy a brief vacation — not only for ourselves but for our faithful correspondents.

We, the McCrearys, plan on spending it fishing and just generally relaxing.

Therefore, if anyone be in need of job printing of any kind, please let us know at once.

TRAIN WRECK CAUSES "OPERATION FROZEN PEAS"

To find out exactly what happened will have to await an official railroad investigation, but last Sunday afternoon about 4:50 o'clock the N. P. "Highball" freight tore up about 200 feet of track approximately a mile above Kendrick, and five cars and a snowplow went over the steep embankment toward Bear creek — four of them coming to rest on their sides, and two of these cars were loaded with fresh frozen peas, enroute from Lewiston to market.

As we understand it, the "Highball" with a snow plow coupled to the rear of the caboose, was ascending the Bear creek grade between Kendrick and Troy. Due to unexplained reasons the big train, being pulled by a four-unit diesel locomotive, stalled on the grade, and in starting again, pulled the drawbar (coupling) out of the front of the big rotary snowplow.

An emergency coupling was made by a chain. However, the front end of the snowplow was unable to take this strain, and it too pulled away — allowing the big machine to begin rolling backward down the steep grade, picking up momentum every foot, until it hit the steep curve about a mile above Kendrick. Here, its speed being too high to enable it to negotiate the corner, it left the tracks, tearing out approximately 200 feet of track as it did so.

The "Highball" crew immediately began backing down the track toward Kendrick to see what had happened to the run-away plow, and to report. Descending slowly observers in the caboose were unable to spot the missing track on the sharp curve quickly enough, and despite emergency braking, were unable to stop the train in time to prevent the caboose from rolling onto its side, and four cars going over the steep bank. The crewmen jumped, and no one was injured.

In the meantime the passenger train, No. 314, had taken to a siding at Kendrick as they realized the "Highball" was very close ahead of them.

Two of the cars going over the bank were, as previously stated, loaded with frozen peas, and this highly perishable item had to be moved at once, so a big bulldozer of the Dammarell & McKeever Construction Co. was pressed into service to build a temporary road from near the Bear creek bridge to the scene of the wreck, and huge refrigerator vans from Lewiston and the surrounding area responded to the call of transporting the frozen peas back to the processing plant.

This job, called "Operation Frozen Peas" was no mean job in itself, as every case had to be handled by hand from the freight cars, laying on their sides at a steep angle, to the trucks. This work lasted all of Monday night and part of Tuesday.

In the meantime a wrecking train from Spokane, plus crews from the entire area, set the caboose and one car back on the track and brought it to Kendrick. The track was repaired and regular trains moved Monday afternoon.

An official investigation is now under way, as a great deal of equipment damage was involved, as well as threatened loss of life and produce. However, in one respect it was a very lucky accident — no one was hurt!

Girl 8 Cancer Victim

Deary Vicky Kay Nelson, eight year-old daughter of Mr. and Mrs. Norman Nelson, died of cancer Saturday morning at 9:15 at the home of her grandparents, Mr. and Mrs. E. C. Nelson, Moscow. She had been ill one year. Her mother will be remembered here as Ruby Hecht.

Besides her parents and paternal grandparents, she is survived by maternal grandparents, Mr. and Mrs. Wm. Hecht of Juliaetta.

Funeral services were held Tuesday at 2 p. m. in Short's Chapel, Moscow. Rev. Warren Winslow of that City officiated. The pallbearers, all uncles of the little girl were Dick Benjamin, Laurence Schlehuber, La Verne Baker and Alvin Whitcomb.

Vocalists were Norman Logan and Mrs. George Evans, who sang "The Lord's Prayer," "Safe in the Arms of Jesus" and "Sometime We'll Understand."

Grange — 1st and 3rd Tuesdays
Fireman — 2nd and 4th Wednesdays
Masons — 1st and 3rd Thursdays
Eastern Star — 2nd Tuesdays
Evening Circle, 4th Tuesday.
Rebekahs — 1st and 3rd Thursdays.
W. S. C. S. — 2nd and 4th Thursdays
1st Tuesday — Village Council meets
1st Wednesday — School Trustees

WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

Parents Of Son
Thursday, July 29, at the Gritman hospital in Moscow, at 1:00 p. m., Mr. and Mrs. Roy Heimgartner became the parents of a son.

The young gentleman weighed in at 9-pounds, 8-ounces. The name Dale Curtis was chosen.

Mother and babe returned home on Tuesday morning and both are reported as doing nicely.

Has Birthday Party
Little Susie Wendt entertained ten little friends at a birthday anniversary party at her home Wednesday afternoon at 2:00 p. m.

Games were played and refreshments served at the close of the afternoon by her mother, Mrs. Fred Wendt, and older sister, Laurel. Susie received many colorful gifts.

General Homettes
Mr. and Mrs. Herb McClain were Sunday visitors in the home of their daughter, Mr. and Mrs. Ralph Kepford and family at Orofino.

Mr. and Mrs. Myrt. Lee and daughter Lou Ellen of Lenore were Saturday callers at the Eril Woody home.

Mrs. Verla B. Johnson and daughter Maurine of Spokane were Sunday over-night guests in the Eril Woody home, and Monday afternoon all attended the funeral of Delbert Walker at Lewiston.

Gordon Swears, Lewiston, was in town Monday visiting with old friends.

Joe Sheer of Colfax was a Friday evening caller in the Harvie Shepherd home.

Mr. and Mrs. Phil Balliet of Carson, N. D., have been visiting this past week in the home of her parents, Mr. and Mrs. Frank Wagner.

Mr. and Mrs. Geo. Banks of the Lewiston Orchards were Sunday visitors in the Harvie Shepherd home.

Mrs. Viola Northrup and sons and Mrs. Lewis Meadows, all of Lewiston, were Wednesday dinner guests in the Dan Bausch home.

Mr. and Mrs. C. F. Lindor, Harold and Elmer of Superior, Mont., arrived Saturday to visit in the homes of their daughters, Mr. and Mrs. Tom Peters and daughter Pamela and Mr. and Mrs. Roy Heimgartner and sons, Mr. Lindor and Harold returned to Superior Sunday. Mrs. Lindor will help care for their new grandson, Dale Curtis Heimgartner.

Mr. and Mrs. Marvin Rudeen of Troy were Monday evening visitors in the Harvie Shepherd home.

Sunday callers at the home of Mrs. Georgia Southwick and children were Mrs. Anna Eneyard and son Floyd of Clarkston; Mr. and Mrs. Abner Corkill and Jane of Troy, and Roy Taylor, Potlatch.

Mrs. Glen Hansen and son of Potlatch and Mrs. Gordon Hansen and son of Moscow were Sunday dinner guests of Mr. and Mrs. Henry Brammer.

Bill Munsterman, Lewiston, and Julius Hoppe, Lindsay Creek, were Monday dinner guests of Mr. and Mrs. H. E. Brammer.

Mr. and Mrs. Gerald White and son Allen were Saturday over-night guests in the home of her father, H. S. Freeman and Frances.

Mrs. Wayne Arnett and children of Cedar Creek were Monday callers at the home of Mrs. Georgia Southwick and children.

Mr. and Mrs. Ralph Scherer and Mr. and Mrs. Ray Scherer and daughter Gil; Carolyn Skaggs, Kendrick, and Lewis Botens, Grangeville, picnicked at Laird Park, Sunday.

Frances Freeman left early Wednesday morning, Aug. 4, for Concord, Calif., where she will visit in the home of her uncle and aunt, Mr. and Mrs. R. W. Mahan and children. She plans to be away until time for school to begin.

Mr. and Mrs. Walter Zimmerman and children have moved from the Roberts apartments to Moscow, where he will be employed by the Huggins Dairy.

Mr. and Mrs. D. V. Raciocot and children had as guests in their home, Thursday through Sunday, his parents, Mr. and Mrs. E. A. Blair of Sandpoint.

Delores Bailey, SN, at St. Anthony's hospital, Pendleton, spent the past two weeks visiting in the home of her parents, Mr. and Mrs. A. W. Bailey. During her visit (Friday through Monday) she, with her parents motored to Salem, Ore., to visit Jeanette Bailey, SN., who is now completing her three months of psychiatric training there. They also visited Mr. Bailey's sister, Mrs. Edna Ridgeway, and her son and daughter.

Mr. and Mrs. A. W. Bailey left early Sunday morning for Pendleton, Oregon, taking back their daughter Dolores to St. Anthony's hospital, after her two-week visit here with them.

Mr. and Mrs. Frank Mackentire of Sweetwater and Mrs. Bertha Pierce of Spokane visited Sunday at the home of Mrs. Pearl Scott. Later in the day Mrs. Pierce and Mrs. Scott returned to Sweetwater with the Mackentires for a few days visit.

Mrs. Duane Eggers and daughter are spending a few weeks in the home of her parents at Missoula, Mont.

Mrs. Fay Schetzle of Seattle is here for a visit at the home of Mrs. Susan Spray.

Mr. and Mrs. Ed. Groseclose, Mr. and Mrs. Virgil Groseclose and Mrs. Lura Nelson and daughter Karen spent Sunday visiting in Touchet, Wash., also visiting in the Lawrence Wilson home.

Mrs. Ray Howard returned Sunday after spending a week in Seattle at

BAND CONCERT AND WATER FROLICS PLEASES

George Poulos, life guard at the Area Living War Memorial Swimming Pool staged a full day of activity Monday, by combining a swimming meet, band concert and aquatic show. Kids and parents swarmed over the park and around the pool, taking advantage of each event as it came, and the crowd did not disperse until after the last splash at the pool — which was well after 9:00 p. m.

The swimming meet, which began at 2:15, captured the interest of all the kids — each eager to show his or her "mom" how well they could swim, and from the looks of the pool, which was ringed deep with spectators, "mom" was not the only one interested in the program. Following is a list of contestants and ribbons won:

Waders' Race:
1. Janet Westendahl.
2. Jane Westendahl.
3. Linda McGeachy.

Sixth Grade and Under — Boys:
1. Freddy Foster
2. Irvin McGeachy.
3. Edward Jones.

Girls Sixth Grade and Under:
1. Ann Platt
2. Jackie Cuddy.
3. Judy Scotter.

Jr. Boys 25-yard Free Style:
1. Garry Browning
2. Jerry Armitage
3. Gordon Garner

Boys 25-yard Backstroke:
1. Garry Browning
2. Wesley Jones
3. Denny Abrams

Junior Boys 25-yard Breaststroke:
1. Garry Browning
2. Jerry Armitage
3. Denny Abrams

Junior Boys 25-yard Sidestroke:
1. Jerry Armitage
2. Garry Browning
3. Denny Abrams

Junior Girls 25-yard (Low Board):
1. Jerry Armitage
2. Norman Wilson
3. Denny Abrams

Girls 25-yard Freestyle:
1. Doris Wilson
2. Diane Benscotter
3. Ila Johnson

Girls 25-yard Backstroke:
1. Karen Louden
2. Doris Wilson
3. Ila Johnson

Junior Girls 25-yard Breaststroke:
1. Karen Louden
2. Ila Johnson
3. Ann Platt

Girls 25-yard Sidestroke:
1. Karen Louden
2. Doris Wilson
3. Linda Jones

100-yard Freestyle (Girls):
1. Doris Wilson
2. Ila Johnson

Senior Boys 50-yard Freestyle:
1. Randy Wallace
2. Wesley Jones
3. Charles Havens

Senior Boys Diving (Low Board):
1. Wesley Jones
2. Jack Wortman
3. Randy Wallace

Boys 200-yard Freestyle:
1. Wesley Jones
2. Garry Browning
3. Randy Wallace

Boys High Diving:
1. Randy Wallace
2. Jack Wortman
3. Wesley Jones

100-yard Medley Race:
Senior boys team — Randy Wallace, Jack Wortman, Wesley Jones, Charles Havens.

2. Junior boys team — Jerry Armitage, Denny Abrams, Garry Browning, Gordon Garner.

3. Junior Girls team — Ila Johnson, Ann Platt, Doris Wilson, Karen Louden.

The band concert at 7:30 p. m. was enjoyed by a large crowd. Parents, friends, and even the family "pooch" was present. Every available bench was pressed into service and the remainder of the crowd sprawled on the lawn around the band stand. Mr. Poulos, music instructor in the local schools, instigated the summer band practice, including any interested persons as well as school band members. So popular was his plan, and the turnout so good, that the band stand was filled with "veterans." Their music was a real treat, as was evidenced by the call for encores.

Following the band program, interest shifted to the pool, and the crowd clamored for ring-side seats.

The aquatic show started by showing the steps taken in giving lessons, beginners through advanced. This was done by children giving demonstrations — and various types and styles of diving were executed.

Adding fun and excitement were races, 100-yard and 200-yard events, already listed.

The display was climaxed by a water ballet when a group of pretty girls, swimming in graceful patterns, accompanied by dreamy music and accented by special lighting almost stole the show. As a grand finale the girls formed a large circle, with Jim Armitage diving from the high board into the center of the circle and surfacing at the further end of the pool.

All-in-all, it was a splendid program and show, and Mr. Poulos, as well as all others who took part, are to be highly complimented.

Go Huckleberrying

Mr. and Mrs. E. M. White; Mr. and Mrs. Jerry White and baby of Moscow, Mrs. Keith Thornton and two children spent Sunday on a huckleberrying expedition in the Bovill section—and came back "loaded."

Politics Galore!

In this issue of the Gazette will be found the political advertisements of a considerable number of aspiring candidates for both political parties, and as one spectator, who was watching us printing, said: "Brother, what a rogues gallery!"

Look at it any way you wish — the political pot is boiling. Included also in our columns will be found the official notice of Primary Election, which lists the names of every candidate for political office in Latah county and in this Justice and Congressional District — so your favorite candidates name is bound to be found in our columns.

Remember: Vote as you please on Tuesday, but vote!

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Leone Hobbs and family of Glidden, Iowa, he formerly of Kendrick, spent part of Sunday and Monday here visiting with old-time friends. They were enroute to the coast and other points on a vacation tour of the Pacific Northwest. Mr. Hobbs is a son of Grant Hobbs, who formerly owned the Jesse Oylear ranch just north of town, probably better known as the Dave Gentry ranch. Here Mr. Hobbs operated a dairy, and Leone Hobbs job was to deliver milk about Kendrick. He added that he was very favorably impressed with the appearance of Kendrick — its nice stores, restaurants and general "solid financial looks of the town. The neat park, swimming pool, clean, well-kept homes and lawns, and this sections general air of prosperity. Mr. Hobbs said that most eastern small towns are just "ghost towns." The Hobbs family left here in 1916. In visiting about town they discovered they knew Jack Travis' sister, who lives near Glidden, and with that information called at the Travis home and spent some time visiting.

Cpl. and Mrs. Donald Eichner and baby daughter arrived here Saturday evening from Fort Lewis. Donald is on furlough and will spend the month visiting their parents, Mr. and Mrs. Harley Eichner and Mr. and Mrs. H. C. Schupfer and daughter Beverly.

Mrs. Aaron Blewett and children, accompanied by Mrs. Ben P. Cook and Mrs. E. L. Blewett and son Billy spent Wednesday in Lewiston at the home of Mr. and Mrs. Ralph White. On Friday Mrs. Aaron Blewett and children, accompanied by Pam Sands, left for their home in Seattle, after visiting here for a couple of weeks. Pam Sands had spent the past five weeks with her uncle and aunt, Mr. and Mrs. W. L. McCreary.

Mrs. Elsie Deobald accompanied her son, Mr. and Mrs. W. A. Deobald and children of Pullman to southern Idaho last week, where they visited relatives at American Lake and Idaho Falls.

Norman Rhodes, Sr., and Mrs. Ruth White, both of Lewiston, were Sunday dinner guests in the home of Mr. and Mrs. W. L. McCreary.

Mr. and Mrs. John Johanson took their granddaughter, Jennifer Lehman, to Spokane Saturday evening, where she took a train for her home in Portland. The Johansons then spent the week-end visiting friends, returning home Sunday. They were also accompanied by Mrs. Estella Leith, who went on to Coeur d'Alene to spend the week-end with her children, Mr. and Mrs. Ig. Flaig and Mr. and Mrs. Bob Spencer; and by Mrs. F. C. Schmidt and Mrs. Moores, the latter taking a train from Spokane to her home in Seattle. Mrs. Schmidt and Mrs. Leith returned home with the Johansons Sunday evening.

Word has been received by relatives from Mjr. and Mrs. Rex Blewett, of Junction City, Kansas, that they will soon be on their way west to spend a furlough with relatives.

Mr. and Mrs. E. J. Platt and Mr. and Mrs. Bud Fey and children camped over-night Saturday and picked huckleberries Sunday in the Three Bear area.

Wilma Wilson went to Walla Walla Sunday evening, where she will spend the week visiting Mr. and Mrs. Robt. Mee, Mr. and Mrs. Mee were weekend guests of her parents, Mr. and Mrs. Chas. Krogh, and Wilma accompanied them home.

Mr. and Mrs. Bruce Wilson and children; Mr. and Mrs. Leonard Wolff and son Leon and Wilma McGann were fishing near Clarkia, Sunday.

Mr. and Mrs. Paul Lind and Mr. and Mrs. Edgar Long were huckleberrying Sunday. We understand they found excellent picking.

Mr. and Mrs. George Brocke, Jr., and son Dean left Friday on a vacation trip to Glacier National park.

Mr. and Mrs. Norman McIntyre and son of North Richland, Wash., (nee Nettie Mae McDowell) were here Saturday on business and to visit with old friends.

Dudley Carson of Idaho Falls visited in the home of Rev. and Mrs. F. C. Schmidt, Thursday.

Mr. and Mrs. G. H. Winn and sons Richard and Clark of Spokane were Sunday guests in the L. S. Thurber home. Mrs. Winn is a daughter of Mr. Thurber.

Mrs. Ray Hathaway of Spokane drove down last Monday for a visit with her parents, Mr. and Mrs. Clifford Davidson, remaining until Thursday, when she took her daughter Caroline home with her, she having visited with her grandparents for the past couple of weeks.

Mrs. Ben P. Cook went to Genesee Tuesday evening where she will spend a couple of days helping their daughter and family, Mr. and Mrs. Harold

First place award went to Mrs. Jack Kuykendall, 95 points; second to Mrs. Frankie Benscotter, 90 points; third to Mrs. Bud Fey, 85 points, and Mrs. Ed. Kent and Mrs. Roy Davis tied for fourth with 80 points.

These garments will be taken to Pomona Grange at Mt. Home in September, to compete with other subordinate Granges.

Mrs. Wilbur Corkill won first place on a handkerchief with crocheted edge.

Other visitors included Pomona Master of Nezperce County, Hugh Parks; Martin Johnson, Mt. Deary Master, and Herman Buckallew, Overseer of Lapwai Valley Grange.

Refreshments were served at the close of the evening by the refreshment committee in the banquet room.

There may be prettier spots, but the Kendrick park is one of the best for picnic and rest purposes.

NEWSY ITEMETTES FROM AMERICAN RIDGE AREA

Hi-Hope Club
The Hi-Hope Club will dispense with their regular meeting for this month — as the harvest rush is now on.

Mrs. Lawrence Gray and children, Larry and Loretta of Spokane were visitors in the home of Mr. and Mrs. Bob Nelson, Sunday. Loretta remained for a longer visit.

Barry Garner of Juliaetta is visiting this week with Tod Nelson.

Mr. and Mrs. Werner Brammer and daughters were Wednesday evening callers in the George Havens home.

Susan Stanton of Seattle is visiting in the home of her uncle and aunt, Mr. and Mrs. Harley Eichner.

Cpl. and Mrs. Bud Eichner and baby daughter of Fort Lewis, Wash., and Mr. and Mrs. H. C. Schupfer of Kendrick were supper guests Tuesday evening in the Harley Eichner home.

Tuesday afternoon Mrs. Harley Eichner, Susan Stanton and Mrs. Bud Eichner and baby were callers in the Andy Cox home, also visiting with Mrs. Tom Neal and baby.

Mr. and Mrs. Marion Knapp and three children of Colville, Wash., called Sunday afternoon at the George Havens home, after having called at the Wade T. Keene home in Lewiston and the home of Mr. and Mrs. Ira Havens at Juliaetta — and not finding them at home came on to the Geo. Havens home. They returned to Colville that evening.

Mr. and Mrs. Vern Havens of Boise and their granddaughter Dickie Hawkins, and Evelyn Essy of New Meadows, arrived Sunday evening at the Ira Havens home in Juliaetta for a visit. The above group were Sunday evening visitors in the George Havens home. Mr. and Mrs. Lawrence Heimgartner and family were also callers that evening.

Dr. and Mrs. Dan Guy of Lewiston and Mr. and Mrs. Frankie Benscotter spent the week-end at the Stephen Isaacson home at Fernwood. While there all went huckleberrying.

Mr. and Mrs. Don Benscotter and son of Craigmont came Monday to get their daughter, Sherry, who had been visiting her grandparents, Mr. and Mrs. Frankie Benscotter, for the past week.

Mrs. Ed. Kent spent Monday night with Mr. and Mrs. Frankie Benscotter, while Ed. was on a fishing expedition with Mr. and Mrs. Archie Morgan of Moscow.

Mr. and Mrs. Ed. Kent received word Tuesday that Mrs. Jennie Whetstone Robinson, who used to live on this ridge, had passed away in Moscow. The funeral will be at 2:00 o'clock Thursday afternoon in the Short Funeral Chapel.

Dorothy Anderson Succumbs
Mrs. Dorothy Anderson, 37-year-old wife of Robert Anderson, 712 Lapwai Road, died of cancer at St. Joseph's hospital, Lewiston, Tuesday morning. She had been ill three months.

Mrs. Anderson was born at Winchester Aug. 18, 1916, and was reared there. On May 6, 1939 she married Robert Anderson at Lewiston. They lived at Kinzua, Ore., from 1939 until 1942, when they returned to Lewiston. In 1950 and 1951 they resided at Juliaetta, he being employed by the J. M. Mead Lumber Products Co., but again moved to Lewiston to reside, although he continued his employment at Juliaetta.

Two daughters at the home are Judy 14, and Penny 12. Other survivors besides the husband are Mrs. Anderson's mother, Mrs. Susan Pierce of Lewiston; two sisters, Mrs. Sam Higby of Clarkston, and Mrs. Vernon Ray of Kamiah; and two brothers, Reed Pierce of Grants Pass, Ore., and Harvey Pierce of Oroville, Calif.

Funeral services will be held today (Thursday) at 2:00 p. m. at Trinity Lutheran Church, Lewiston. The Rev. Paul Daneker will officiate. Burial will be in Normal Hill cemetery with Brower-Wann in charge.

The sympathy of everyone goes to the bereaved family.

Kendrick Grange Meets
The Kendrick Grange met in regular session Tuesday evening, with Bob Draper, Master, presiding.

Following the business session entries for the Sewing contest were modeled. Entries were by Mrs. Frank Benscotter, Mrs. Ed. Kent, Mrs. Bud Fey, Mrs. Jack Kuykendall, Mrs. Roy Davis. Judges were the North Idaho Division Home Economics Chairman, Mrs. Hugh Parks, Juliaetta; Pomona Home Economics Chairman Mrs. Martin Johnson of Deary, and Mrs. Herman Buckallew, Chaplain of the Lapwai Grange.

First place award went to Mrs. Jack Kuykendall, 95 points; second to Mrs. Frankie Benscotter, 90 points; third to Mrs. Bud Fey, 85 points, and Mrs. Ed. Kent and Mrs. Roy Davis tied for fourth with 80 points.

These garments will be taken to Pomona Grange at Mt. Home in September, to compete with other subordinate Granges.

Mrs. Wilbur Corkill won first place on a handkerchief with crocheted edge.

Other visitors included Pomona Master of Nezperce County, Hugh Parks; Martin Johnson, Mt. Deary Master, and Herman Buckallew, Overseer of Lapwai Valley Grange.

Refreshments were served at the close of the evening by the refreshment committee in the banquet room.

PERSONAL MENTION

Goff, move to Astotin. Mr. Goff has accepted a teaching and coaching position in the High school there.

Mr. and Mrs. Bob Watts and Mr. and Mrs. Dee Miller, the latter of Lewiston, fished and camped over the week-end on the St. Joe river. Little Jon Miller stayed with Mr. and Mrs. Manning Onstott and little Patti Watts spent the time with her uncle and aunt, Mr. and Mrs. Joe Watts, in Moscow.

Mr. and Mrs. Walter N. McCall, Bob McCall, Diane Cantril, Mr. and Mrs. Don Cantril, Mr. and Mrs. Frank Cantril, Mr. and Mrs. Earl Rayment and family, Mr. and Mrs. Marion Rowden and family, Joe Forest, Mr. and Mrs. Dick Parsley, Donna Piastino, Jack Parsley, Ernie Heimgartner, Charles Westendahl, Geneva Groseclose, Mr. and Mrs. E. A. Deobald, and Mr. and Mrs. Chas. Candler were among those who attend the Joseph Days at Joseph, Oregon.

Mr. and Mrs. Ed. Dammarell and son Billy and Mr. and Mrs. Jim Farrington drove to Hope, Ida., Saturday morning to spend the week-end fishing, returning Sunday evening.

Mr. and Mrs. C. E. Rudd left by train for their home in Tacoma, Wn., on Tuesday, after a month's visit here in the home of their daughter, Mrs. Bob Magnuson and family, Dee and Robin accompanied their grandparents home for a visit.

Mr. and Mrs. Hiram Galloway, Mr. and Mrs. Ross Armitage, Mr. and Mrs. William Johnson and family and Jerry Brown were huckleberrying Sunday near Santa. They returned through the St. Joe National forest.

It was "reunion time" at the Tom Keene home in Joseph, Oregon, Sunday, with Mr. and Mrs. Chas. Candler, Mr. and Mrs. E. A. Deobald, Mr. and Mrs. Chas. Deobald and family; Mr. and Mrs. Wade T. Keene of Lewiston, and Mr. and Mrs. George Jones and daughters of Kennewick, Wash., as guests. Gerald Halseth, Joe Forest and Don Jones were callers.

Mr. and Mrs. Ben P. Cook have received word from their son, Pfc. Bennie B. Cook, stationed in Korea, saying he had gone north to Seoul to visit his uncle, Lt. Col. Aaron E. Blewett, also with Corp. Orville Halseth, and while there went on to visit with Pfc. Don Millard, who is about 10 miles from Seoul, Bennie is to sail from Inchon on Aug. 6 for the states, after a year's duty in Korea.

A pot-luck supper was enjoyed Wednesday evening at the Ernest Freytag home. Those attending were Mr. and Mrs. Ward Helton and children, Marilyn, Carolyn and Larry; Mr. and Mrs. Wayne Kuykendall, Otto Rauschke, and Mrs. Shea, Mrs. Stella Kempton and grandson David, all of Thomas, Wash.

Mr. and Mrs. Walenta was in town Tuesday and states he is much encouraged by the response to his campaign. Mr. Walenta is running for District Judge on the Non-Partisan ballot, and the Primary election on Aug. 10, end all balloting for District Judges.

Mrs. Norman Fry and children of Lewiston have been here this past week visiting with relatives.

Manning Onstott left Wednesday morning for Coeur d'Alene to attend an area Staff meeting of the S. C. S. Mrs. Onstott and son Ray will join him there Friday and spend the week-end visiting in the home of Mr. and Mrs. Ed. Ring.

Mrs. Rilla Johnson and daughter Maureen of Spokane visited Monday with Mrs. Richard Johnson and children.

Mr. and Mrs. Roy Ramey were Sunday guests in the home of their son, Mr. and Mrs. Roy Ramey, Jr., and family at Rosalia.

Political Rally Scheduled
The candidates rally Thursday evening at the Grange Hall, Moscow, will present the Latah county Republican candidates, and will bring four candidates at the state and national level: E. B. Knopp of St. Maries and Larry Mills of Pottlatch, candidates for First District Congress; Larry Gardner of Coeur d'Alene, candidate for governor, and Graydon Smith of Twin Falls, candidate for attorney general.

The meeting will be opened by the club president, Mrs. Robert Tamplin, followed by the invocation by the Rev. Norman Gano of the First Baptist church of Moscow. Candidates will be introduced by Mrs. J. Irving Jolley, chairman of the Republican central committee.

Arrangements for the coffee hour following the meeting are being made by Ruth Perkins.

New Shoe Repair Shop
Walter Jenks of Estacata, Ore., was in town last week lining up quarters preparatory to moving his shoe shop here.

He rented one of the Silflow apartments which he intends to use as the shoe repair shop, and has purchased the Henry Jones ranch. He will move his family and shop equipment here in the next couple of weeks.

Jack Travis handled the deal.

Remodeling and Re-roofing
Work has been begun on the R. L. Meserve home on the school house hill in the form of an addition containing two bedrooms. In the basement below them will be a garage.

Wayne Kuykendall has been busy for a couple of days re-roofing the "cupola" on the Marvin Long home. The area was quite small, but the roof very steep and high.

Installing Dial To Lewiston
The Pottlatch Telephone Co. is having a dial line installed this week to Lewiston. This will enable the local operator to take care of long distance calls to that city merely by dialing—giving as fast service to Lewiston as on local calls.

Armitage Field Lit Up
Last week, for the first time, lights were turned on at Armitage Field, Kendrick, and trial results were said to be very satisfactory, with only three pole-banks being lit. While all the poles are up, only four are now complete with wiring, switches and transformers, considerable work yet remaining.

This athletic field has long been a dream of sports enthusiasts in this area, and little by little the dream is coming true. Only through the "stick-to-it-ness" of several, and the help of many, has it been made possible.

The Mead & Howard Lumber Co. at Juliaetta donated the lumber for the cross arms on the light poles, and the Kendrick Community Lions Club has taken over the work, assisted by members of the R. E. A., and the W. W. P., and others.

Ross Armitage says they need more poles hooked up before there is sufficient light for night play. If this can be accomplished this week — play will start next week!

Weather Remains "Warmish"
Local weather this past week has been somewhat on the warm side — with the average daily temperatures running in the low 90's — from 90 to 94. Sunday, however, it took a rather steep climb, reaching a high of 97 degrees. Humidity has stayed low, so the heat has not been in the least unbearable.

Farmers have been making the most of the hot weather to finish putting up their hay, long delayed by intermittent rains, and in cultivating and hoeing bean fields. In the latter case they have been plagued by wild oats which found the moist spring exactly what was required for their excessive growth.

All crops are said to be in excellent condition, and a bumper crop seems indicated.

Caution! Fire Index Is High
Monday afternoon Jud Lee, of the local Forestry office, answered a call on a grass fire below Arrow Junction, near the railroad. However, by the time he reached there the section crew had the blaze under control.

Thursday of last week he was the first to reach another fire started by the train near the Spalding railroad bridge, and with the equipment soon had it under control.

Mr. Lee calls attention to the fire index, as it grows greater by the hour. The reading in the woods Tuesday was 80 out of a possible 100 — and anything over 80 is "explosive." He urges all persons to observe every safety measure while in the woods.

Car Crashes Into Tree
About 1:00 o'clock Monday morning, Ray Thornton, Lewiston, was on his way to the home of his parents, Mr. and Mrs. Jesse Thornton, Leland, and fell asleep at the wheel of his car. The car left the road near the A. G. Peters home, went over the bank and plowed into a tree.

Even though he suffered a broken nose, and deep cuts on his head and face, he was not knocked unconscious and walked to the Peters home to call Dr. Christensen, who administered to his injuries.

The car, a late model "hard-top" was badly damaged and hauled to Lewiston Monday.

Silflows Purchase Table Supply
Mr. and Mrs. Walter Silflow purchased the Kendrick Table Supply from Mr. and Mrs. Grant Bateman last week-end, and assumed the active management on Monday morning.

We understand that Mr. and Mrs. Bateman and son Jerry will move back to their Cedar ridge ranch, at least until after harvest.

Mr. and Mrs. Silflow need no introduction to this community, having made Kendrick their home for the past couple of years, and were Leland residents for many years preceding that. All wish them well in this new business venture.

Parents Tell Of Engagement
Mr. and Mrs. Frank L. Cantril, Southwick, announce the engagement of their daughter, Diane Rae, to Robert R. McCall, son of Mr. and Mrs. Walter N. McCall, Kendrick.

Miss Cantril is a graduate of Kendrick High school, and is now employed at the Lewis Lumber Co., in Kendrick.

Mr. McCall graduated in 1952 from Kendrick High school, attended K. B. U. at Spokane, and is now with the Naval Air Force Reserve at Spokane. No immediate plans have been made for the wedding.

Pink And Blue Shower
Mrs. Ross Armitage was complimented with a pink and blue shower at the home of Mrs. A. O. Kanikkeberg Thursday afternoon, with Mrs. Jud Lee as co-hostess.

Several appropriate games were played with the Mesdames E. M. White, Burton Souders, Jr., and D. A. Christensen winning prizes. Following the fun activities a basketette piled with gifts was rolled in before the honor guest, who opened and displayed them.

Delicious refreshments were served at the close of the afternoon.

Annual Spalding Memorial Service
The annual Spalding Memorial Service will be held at Spalding park on Sunday, Aug. 8th, beginning at 2:30 p. m.

Several speakers from neighboring Indian and white churches will give addresses, and bring special numbers in song.

Everyone is invited to attend, enjoy and participate in this annual event — thus keeping alive in memory the work of these, our early pioneers.

Rev. B. W. Pressnall, Deary, is the chairman of the program committee.

Purchases Onstott Property
A deal was completed last week whereby Mrs. Lettie Israel became the owner of the Onstott property adjoining the city park — probably better known as the "Wright place."

Mrs. Israel plans a bit of remodeling and decorating before occupying it.

Mrs. Onstott has purchased a home in Clarkston, and plans to move Sunday.

JULIAETTA NEWS

the home of their daughter, Mrs. J. B. Weaver and family. The Weaver children, Jimmy and Jackie, returned with her to spend a few weeks in the home of their grandparents.

Vernon Kiemig, Spokane, is spending a few days at the home of his grandparents, Mr. and Mrs. Chas. Nelson.

Dick Ostman and Jimmy Weatherby are attending the Pinelaw Nazarene camp near Spokane this week. Beverly Bowen will attend the camp next week.

The Juliaetta W. S. C. S. held its meeting in the Methodist church basement on Tuesday, Aug. 3. Mrs. Chester Westling and Mrs. Asa Cook were the hostesses.

Linda Adams has returned home from her visit in Missoula, Mont., for the past several weeks.

Rosemary Hugo, Clema Starkey and Bonnie Wade of Clarkston, and Freda Trenell of Lewiston left on Tuesday to tour the states through to Overton, Penn., where Rosemary will remain, while the other young ladies return.

Ed. Grant is in Spokane, visiting at the home of his sister, Mrs. Nettie Green, and is also undergoing medical treatment while there.

Ellen Denny, who has been working in Lewiston the past several months, is home for a visit.

Mr. and Mrs. C. E. Irwin spent Sunday at the John Hill home in Lewiston and attended the singing services held in the Assembly of God church that evening. The "Swordsmen Quartet" of San Francisco presented the program.

Bill and Glydas Carlton and the Lloyd Eckman family were huckleberrying near Bovill, Sunday.

The C. E. Irwins were business visitors in Lewiston early Tuesday morning.

Mr. and Mrs. Leland Irwin arrived from Ritzville, Wash., at the home of his mother, Mr. and Mrs. C. E. Irwin, Sunday evening. They returned to their home on Monday evening.

Mr. and Mrs. Lloyd Candler and son Dale spent the week-end at the home of Mr. and Mrs. Neil Candler in Pottlatch.

Mrs. Leah Cardinal was a Saturday over-night guest of Mrs. Bertha Pirrell.

The Dan Dillman family spent the week-end huckleberrying near Bovill. Larry Perkins is staying at the home of his grandparents, Mr. and Mrs. W. L. Candler, and working at the Juliaetta Mill.

Mrs. Abner Corkill and daughter Jane were Saturday over-night guests in the home of her daughter, Mrs. Georgia Southwick and children.

Mrs. C. V. Strohm was pleasantly surprised Wednesday by the calling at her home of an old friend, Mrs. Writer from Los Angeles, Calif. It had been some 20 years since they had seen each other. Mrs. Writer spent Wednesday and Thursday in the Strohm home.

Mrs. Fay Schetzle of Seattle is in Juliaetta visiting old friends.

Rev. and Mrs. F. C. Schmidt and her sister Mrs. Moores of Seattle called on Susie Spray Wednesday evening to visit Mrs. Fay Schetzle of Seattle.

Mrs. Wm. Hect and Mrs. M. C. Hal-

iday called on Mrs. Spray Tuesday.

Those visiting over the week-end in the Alonzo Guthrie home were Mr. and Mrs. Ward Booth and daughter Joan of Sacramento, Calif., and Mrs. Lottie Sprague of Stockton, Calif. Mr. Booth is an uncle of Mrs. Guthrie and she had not seen him for 40 years. Other visitors were Mrs. Ruth Martinson and Marvin Grayson, both of Clarkston.

GOLDEN RULE

Aug. 2—Mr. and Mrs. Chaf. McIver visited at the Oscar Lawrence home Tuesday evening.

Alma Betts picnicked as a guest of Mrs. Fred Schoeffler and Mrs. Willard Schoeffler and children, and Judy Choate, and picked huckleberries, Friday. Mrs. Frank LeBaron, Mrs. Andrew Marvin, Mrs. Leland Marvin and Mrs. D. V. Kuykendall and son were also picking there that day. To name all of those who have been huckleberrying recently would be an utter impossibility.

Miss Joan Lawrence and Jack Coil, of Spokane, spent Friday night visiting her parents, Mr. and Mrs. Oscar Lawrence.

Mary Ann Pavel visited with Alma Betts Saturday, and Mrs. Betts enjoyed a visit at the John Pavel home that evening.

Mrs. D. V. Kuykendall and son Jerry and her sister, Mrs. Bertha Kuykendall, were Lewiston visitors Saturday. Mrs. Bertha Kuykendall stayed in Lewiston to visit for a time.

Herman Kuykendall of Lewiston spent Saturday and Sunday with his parents, Mr. and Mrs. D. V. Kuykendall.

Mr. and Mrs. Eugene Betts visited at the Ernest Cowger home Sunday — in honor of Mr. and Mrs. Cowger's 13th wedding anniversary, and their daughter Fay's birthday anniversary. Roy Martin is assisting Russell Perkins with hay chopping.

Mr. and Mrs. Ed. Laves and family and her mother, Mrs. Myrtle Hall of Nez Perce, spent Saturday and Sunday at the Oscar Lawrence home. On Sunday Frank Nanick and Miss Evelyn Kazda of Lewiston brought Caroline Lawrence home, after she had spent the past week with Evelyn in Lewiston. Then the whole party spent Sunday huckleberrying and picnicking.

Mrs. Bill Elben and daughter, Mrs. Kenneth Pearson and children of Coeur d'Alene, spent the week-end at the Roy Martin home, while the men went on a fishing trip in the "Buzard's Rook" area. Mr. and Mrs. Bruce Tarbert and family were also Sunday visitors. Miss Anita Pearson stayed for a two-week visit with her grandparents.

Albert Lawrence attended the funeral of Clyde Frost, a fellow worker at Anshakka, in Lewiston Monday afternoon.

Russell Betts was a Walla Walla and Lewiston visitor the first of the week.

Parents Of Daughter

Mr. and Mrs. Richard Vurnham of Culldesac, are the parents of an 8-pound 5-ounce daughter, born to them on July 29, at the Davidson Nursing Home in Kendrick.

Vote For The Man Who Can Win In November

**Charles C. Gossett
for Governor**

Charley Gossett, Democratic candidate for Governor, is the ONLY tried and proven chief executive running on either ticket for Governor.

He made an outstanding record as governor when he was elected in 1944 by a majority of 10,995 votes. This was 2,128 more votes than President Roosevelt received in the same election.

Let's not take chances in November. Let's nominate the man who has demonstrated that he can not only win in the primary but also WIN in the General Election.

Gossett is the man to support and VOTE FOR.

There is no substitute for Gossett's experience, training and fitness for the office of Governor.

**Experts Say Barn
Windows Practicable
Sun Reduces Disease
And Barn Moisture**

Farm experts are urging farmers to make practical use of sunshine to solve some of their problems of moisture, sanitation and daylighting inside farm buildings by installing large windows.

Farm building windows in the past have been too small, have frosted over during cold weather so that sufficient sun energy could not get into the building to provide warmth. Also, little attention has

Lambs like these above, as well as other farm animals, are attracted to sunshine in a barn on a cold day. Large double-pane windows for better daylighting and moisture control in farm structures are becoming more popular.

been given to the germicidal effect of direct sunlight in the poultry house, dairy barn or farrowing pen. Proper ventilation and sunlight not only helps to dry up moisture, but direct sunlight helps kill bacteria wherever they gain access to farm buildings.

As an example of the sun's heating power, in a central farrowing house in Iowa using insulated windows in the south wall, the inside temperature never dropped below freezing although the outside temperature hit 25 to 30 degrees below zero.

**Wheat, Corn Estimates
Below Last Year Yield**

The nation's 1951 corn and wheat crops will fall short of 1950 production, according to the latest U. S. Department of Agriculture report.

The corn crop for all purposes is estimated at 3,105 million bushels, a decline of 26 million bushels from last year's production, but above the 1940-49 average of 2,981 million bushels. The indicated yield per acre of 36.7 bushels is 0.9 bushels above the average of 33.9 bushels.

Production of corn for grain this year is estimated at 2,789 million bushels compared with 2,845 million bushels last year.

Total wheat production is estimated at 994 million bushels, about 3 per cent smaller than the 1950 crop of 1,027 million, and 7 per cent smaller than the average of 1,071 million bushels.

Corn and wheat production, however, is expected to meet U.S. needs.

Poultry Litter

A specially-processed vermiculite poultry litter has been put on the market for the first time. Poultry producers might find that it will fulfill their needs. Called San-Flor, it is fireproof, vermin-proof, an efficient insulator against cold, and a non-conductor of electricity. The product is being introduced to seed and feed dealers and hardware stores across the country. It comes in four cubic foot bags, weighing about 25 pounds.

**Dead Tree Perils Are
Acute When Winter Hits**

Alive, trees are considered among the householder and farmer's best friends. Dead, they become his most dangerous enemies. Trees that succumb to insects or disease have a way of developing into serious menaces long before owners are aware of their peril. These woody foes should be removed before winter storms hit. Snow, sleet and howling winds make them acutely dangerous.

**How much
are Standard's
owners paid?**

75 years ago one of the companies from which Standard Oil Company of California grew was formed by five men. In those days smaller communities and simpler needs could be served by concerns owned by one man or a small group. They furnished all the money—they kept all the profit, too. But the West grew tremendously, and we've grown up with the West.

Today, no one man could pay for all the oil fields, refineries, and other equipment Standard needs to serve you well. These investments are shared among Standard's 112,000 owners. About 97% of these shareholders are private individuals like you—including 12,000 Standard employees, our largest single group of owners. In addition, 293 schools and universities are owners of Standard, along with 224 churches and religious organizations, 165 hospitals and medical groups, and 1889 small and large businesses. These are our sole proprietors—we

75 years of planning ahead to serve you better

Five-Grass Mixture Popular in Indiana

Pays Off in Higher Quality Hay, Pasture

Farmers in 12 northeastern Indiana counties swear by a 5-grass mixture that pays off in extra tons of high quality hay and pasture. The combination includes timothy, brome, red clover, Ladino clover and alfalfa, reports Walter Rusk, county agent of Huntington county. This legume-grass combination, he said, could profitably be used by farmers in other states.

When plenty of fertilizer carrying nitrogen, phosphate and potash is used at seeding time and plant nutrients are top-dressed each year, this 5-grass mixture has yielded as much as 3 tons of hay at the first

Five acres of the 5-grass mixture on the Norman Thompson farm near Huntington, Indiana.

cutting on many farms. One farmer in the area insists that 5 acres of the mixture provides more forage than he previously got from about 60 acres of pasture.

Norman Thompson, who farms near Huntington, Indiana, reports that he grazed 27 head of cattle, including 16 milk cows and 11 calves, as well as 100 small pigs and 18 sows for 5 weeks on a 5-acre pasture seeded to the 5-grass mixture.

Rusk points out that the well fertilized legume-grass mixture is doing an important soil building job, besides giving farmers a preferred position in forage supplies. The tap-roots of the legumes drill down deep to keep the soil open and well ventilated. They add organic matter to improve the soil's tilth and drainage. Large quantities of organic matter in the soil mean increased water-holding capacity. They also make it possible to get the best possible efficiency out of every ton of fertilizer used.

Improved Ever-Bearing Strawberry Developed

Strawberries from your garden from June to October are possible with the new, improved ever-bearing strains. Although the biggest crop comes from mid-to-late June, plants will continue to produce enough for breakfast cereal and dinner desserts until frost arrives.

Planting should be done as early in the spring as possible.

Said to thrive in any type of soil, is a new high-yielding variety developed by plant breeders of the Westerhauser Nurseries of Sawyer, Michigan. Called the "20th Century", this ever-bearing type is said to fruit in about 60 days and produce large, sweet, full-flavored berries all season long.

Seasoned gardeners recommend picking off the first blossoms so as to enable the roots to develop plenty of strength. They point out that while you may lose the first few fruits, you will gain in much bigger yields later in the summer.

Grand Champion

Iowa State College won the grand championship of the 52nd International Livestock Show with a 1,240 pound Aberdeen Angus steer, Toby. In 1950 Toby won the reserve championship and now is the only steer ever to return and capture the higher award. Shown with Toby are (left to right) Chief Judge A. D. Weber; W. W. Prince, president of the Union Stock Yards; Jess C. Andrews, president of the International Exposition; and George Edwards, herdsman for Iowa State College.

Time of Plowing Should Depend on Type of Soil

Ohio State University farm experts report type of soil should determine whether a farmer plows his land in fall or spring. Tests over a 14-year period indicate spring plowing is preferable on light soils. If plowed in the fall the ground has a tendency to become compacted by spring. On heavier soils tests show late fall plowing gives as good or better granulation of the soil than spring plowing.

Modern Dentistry Can Aid Youth with Cleft Palate

The role of modern dentistry in the total rehabilitation of young men and women with cleft lip or cleft palate so they can lead happy useful lives is revealed in the Journal of the American dental association.

Asserting that more children are born with this condition than any other congenital deformity, Dr. Herbert K. Cooper, director of the Lancaster, Pa., cleft plate clinic, estimated that at least one out of every 700 children have this handicap.

"The most frequently found condition has been getting the least amount of attention," he said. "The citizens of this country should be as well informed on the subject of cleft palate as they are on poliomyelitis, cerebral palsy and rheumatic fever."

Citing cases of patients treated at the clinic, Dr. Cooper told of a youth, 17, born with a cleft lip and cleft palate. During infancy, surgery had been performed, leaving him with a flat upper lip and very poor speech.

"He shunned all social contacts," Dr. Cooper said. "He left high school and was driving a truck. His whole family was extremely upset."

Dr. Cooper said the youth was given a medical, dental, speech and psychological examination. An appliance was constructed to build out the upper lip and cheeks and thimble crowns were placed on his five remaining upper teeth. At the same time, he was given speech instruction.

The boy was persuaded to finish high school, Dr. Cooper said, and he then was admitted to college. He added:

"The first two years were quite difficult for him because of his social adjustment problem, which he gradually overcame. Then he was taken into a fraternity and was graduated on the dean's list. He is now attending law school in a large university."

U.S. Still Leads World in Production of Matches

It's pretty difficult to get something for nothing these days, but there's one item left that is used by the average person 14 times a day, and two out of five times he doesn't have to pay. That little item is the match.

The manufacture of matches is a \$25 million-a-year industry in the United States. Each year, more than 500 billion matches are produced, and of 200 billion book matches made in the United States every year, about 196 billion are given away with the sale of cigars, cigarettes, and tobacco.

Sweden had us topped for many years in the production of matches. The Swedish Match Company, formed in 1913 by Ivar Kruegar, had match factories in 43 countries of the world and manufactured most of the world's matches. Kruegar is said to have invented the common superstition that "three on a match" is unlucky, in order to sell more matches. His match empire lasted until 1932, when it was discovered he'd been using the company's capital for his own speculations.

Sweden now ranks fourth down the line led by the United States. Great Britain ranks second and the Soviet Union third.

Spices in History

There are many references to spices and herbs in the pages of history. They play important parts in the development of our civilization. The ancients attributed strange powers and accomplishments to spices. Basil, for example, is venerated by the Hindus who plant it outside their temples and homes to insure happiness. The famed laurel wreaths which crowned Greek heroes of war and sport are the same bay leaves we use today in our cooking.

Freezing of Water Pipes

Freezing is most likely to occur in pipes which run along an outside wall. This hazard should be corrected by re-location of the pipes, if possible. If this is impractical, thorough insulation with from two and one-half to three inches of good pipe covering is the only safeguard. Should any of the piping freeze, the work of thawing it should not be entrusted to a handyman. It should be done under the supervision of an experienced master plumber. Blow torches or other methods involving open flames are extremely dangerous. They not only involve fire hazards but also permit the generation of high pressures which may cause explosions.

Gregorian Calendar

The form of our present calendar was set by Julius Caesar with some additional innovations by Augustus Caesar. However, in about 1500 years the length of year adopted by the Caesars proved incorrect. Therefore, Pope Gregory, in 1582, appointed a commission which revised the calendar sufficiently to bring it back in step with the seasons. Now it takes 3000 years for the calendar to slip out of line one day. The Protestant countries did not accept the Gregorian calendar until 1752 and this is why certain dates in history sometimes appear to be confused.

LARRY Gardner

for GOVERNOR

You'll LIKE the Mayor of Coeur d'Alene who came up the hard way to own a successful Idaho business and farm. The man Idaho's Mayors, City Managers and Councilmen liked so well they elected him as their recent president of the Municipal League.—They admired him, respected him... but most of all they LIKED him. You will, too.—You'll LIKE him as Governor of Idaho!

Backed by Gardner for Governor Clubs throughout Idaho

Norris N. Benson, Treas. Coeur d'Alene

You Can't Beat Experience!

JOHN SANBORN

HAGERMAN FARMER — LIVESTOCK MAN

Is The Only REPUBLICAN Candidate for Governor Having Legislative Experience

- * SANBORN served 2 terms as U. S. Representative from Idaho's 2nd District and 14 years in Idaho's Legislature
- * SANBORN knows Idaho's problems and has the know-how to do something about them.
- * For Good, Honest, and Progressive government in Idaho —

VOTE FOR

SANBORN

for GOVERNOR

TUES., AUGUST 10

Soap Holes Found Value in Disguise

Produce Magic Mud With Multiple Uses

Ever since Belle Fourche, S. D., was a rip-snorting cattle town at the end of the old Chisholm trail its residents have been damning the "soap holes" that plagued the area.

Fast-riding cowboys often took a nasty tumble in this super-slippery mud and cattle were forever getting bogged down in them.

But now, like a man discovering his hives are really a blessing, Belle Fourche has found its soap holes are one of its biggest assets.

Every one of them is filled with a magic mud called bentonite. It's an odorless, tasteless, soapy mud with a thousand uses and scientists are thinking up new ones every day.

Most of us already are using it a half dozen times a day, but almost nobody has heard of it. Men use it in shoe polish and hand cleaners. Women use it in face

Bentonite is the most absorbent material found in nature. When moistened it swells to several times its normal size. This quality makes it useful in waterproofing housing foundations and many other industrial uses.

powder, lotions, beauty cream. Bentonite also is found in many types of paint, plaster and cleaning agents. It's handy for filling holes in giant dams and for casting moulds for molten metal. Forced down thousands of feet into the earth this magic mud lubricates the drills in oil wells and sends the debris up to the drillers.

Its new uses and increasing popularity for its older uses all add up to a boom such as Belle Fourche hasn't seen since the gold rush.

In the past 10 years the population has practically doubled and bentonite now pours \$600,000 a year into the town in the form of additional purchasing power.

Fifteen years ago Belle Fourche shipped out three carloads of bentonite. Last year its production was 6,187 carloads and this year they expect carloading to go considerably higher.

Scientists say that bentonite, a strange mixture made up mostly of dust from prehistoric volcanoes, is found almost nowhere in the world except in the Black Hills of Wyoming and South Dakota.

It is the most absorbent material nature ever has devised, they say, and a half dozen teaspoonful will soak up a glass of water.

Bond Price Chart

PRODUCT	1932	1939	1949
Hogs, 200 lb.	112	60	20
Cattle, 1000 lb.	18	10	4
Milk, cwt.	586	446	173
Eggs, cases	176	144	60
Wheat, bu.	1,964	1,085	386
Corn, bu.	2,374	1,321	670
Cotton, bales	23	16	5
Tobacco, lb.	7,143	4,871	1,531
Potatoes, bu.	1,974	1,076	436
Apples, bu.	1,229	1,172	253

The above chart shows the almost unbelievable increase in the value of farm crops in the past 17 years, as depicted in a comparison of how much farm produce it takes now to buy a \$1,000 government savings bond with how much it would have required in 1932.

Insect Killers Made By Synthetic Means

New pyrethrum-like chemicals that kill insects have been made synthetically for the first time in the laboratories of the bureau of entomology and plant quarantine. It has been announced by the U. S. department of agriculture.

The chemical makeup of the synthetic materials is almost identical with that of the insect-killing principle in pyrethrum, according to the chemists.

Quonset-Type Huts Meet Storage Needs 'Little Business' Answers Challenge in Grain Belt

Called upon by the department of agriculture to perform a modern miracle, "little business" in 10 midwestern states is tackling one of the biggest jobs of its kind ever undertaken anywhere in peacetime. Its Herculean assignment is the site preparation and erection of 2,300 steel buildings—each 32x96 feet or larger—at 870 widely separated locations.

The task arose with the grain belt's acute need for space in which to store the record-breaking carry-over of 1949's corn crop. In line with

Grain being loaded into Quonset huts for CCC storage near Paulding, Ohio.

the trend toward economical "horizontal" grain storage, the department ordered Quonset buildings for a large part of the necessary new facilities. These archroofed steel units now are mushrooming up beside highways and railroads near farm centers through the efforts of local businesses and labor, rather than the work of transient crews employed by a few big and distant contracting firms.

Within two weeks time more than 1,100 concrete foundations had been laid, and erection of steel was under way on them in every state. The concrete work alone was roughly equivalent to laying 25 miles of highway in a time that an average road-making crew would require to put down one.

Sweat Down Costs

Sweat down your production costs if you want to maintain profits in these days of declining farm prices. One way to sweat down those costs is to increase your crop yields per acre. More bushels of corn and grain per acre, more pounds of meat, milk, dairy products and poultry mean lower production costs per unit. On such a basis you can make a profit even if prices slacken further.

You can get those higher yields and lower costs with good soil management. Good soil management means giving your soil a fair deal. It means supplying the soil a well-balanced ration of plant foods, so crops will be well nourished. It means building up instead of breaking down soil structure and tilth. It means "recharging" the land with soil-enriching crops at regular intervals, instead of growing soil-draining row crops year after year on the same land.

Dangers of Butchering At Home are Outlined

Home butchering is profitable on the farm and many rural families are replenishing their lockers, jars and pantries.

But, unless undue caution is used, home butchering can be dangerous. Equipment, too, should be used with care. All knives should be kept in a suitable place when not in use. Hoisting equipment should be checked. A tamper should be used to force meat into the grinder.

Attention to Details Pays Off for Hog Farms

Attention to details is the biggest reason why some hog farms earned \$2,000 more than some others during the past year.

F. J. Reiss, farm management specialist in the Illinois college of agriculture, said that 128 high income hog farms averaged \$10,200 earnings from swine last year, while 161 less-efficient farms took in only \$8,000. Extra care at farrowing, control of parasites, helped.

Oldest Living Thing in U. S. Has Rival in Olive Tree

Thousands of years from now, California may boast of possessing two types of trees that were growing here in the 20th century. One of these is the Sequoia, or giant redwood, a few species of which already have grown in the Golden state for over 4,000 years. The other is the olive tree, a comparative newcomer to the U. S.

The olive tree, although estimated to have lived in Mediterranean countries for periods of time equal to that of the Sequoia, did not join this other ancient perennial in California until about 1769. It was in that year that Franciscan padres planted the first olive tree cuttings around their missions.

The modest efforts of these religious men to provide a little shade became the basis of an industry which, according to the California Olive Association, now nets some 2,200 growers in the U. S. about \$10,000,000 annually.

It was not until the late 1890's that olives were available commercially in this country, even in a limited amount. Then improvements in canning processes and development of the modern type metal container by the American Can Company gave olives a new life in the new world. During the last 60 years the olive orchard "population" has grown steadily from less than 1,000 acres to about 28,000 acres last year. They now produce an annual crop of over 40,000 tons of olives. Of the 25,000 tons sold for canning, 98 per cent go into metal cans, the remainder in glass containers.

The ripe black olive of California, gathered when fully matured, has a rich oil content and is marketed in nine different grades, ranging in size from "standard" to "super-colossal." According to Professor M. E. Jaffa, nutrition specialist at the University of California, the ripe olive has about double the calorie value of the green olive.

Transfusions Through Arteries Said Life-Saving Measure

The rapid transfusion of blood through an artery, instead of through a vein as is usually done, has been described by two Washington surgeons.

Drs. Charles S. White and Donald Stubbs of the Research Foundation, Doctors Hospital, Washington, said the method has been found "safe, practical and life-saving."

Intra-arterial transfusion, they reported, has been found most effective in cases where the heart beat has stopped or has become almost imperceptible following a heavy loss of blood.

"It should be emphasized that this type of transfusion is not a proper substitute for intravenous transfusion except in those cases in which the blood pressure is very low, or cannot be recorded, or in arrest of the heart action from hemorrhage," they said.

In the latter cases, blood introduced into the veins, even under pressure, has a long route and a slow one to reach the coronary arteries (supplying the heart), even if it could be forced or propelled in some manner through the right chambers of the heart and lung. The most direct route to the coronaries is the arterial highway.

The Washington surgeons said that with blood pressure at zero and no pulse to be felt, circulation was repeatedly restored "in an unbelievably short time." They added:

"It is accepted generally that resuscitation is futile if more than seven minutes elapses after the heart action is arrested, as irreparable damage to the cerebral cells ensues, and if life is maintained the facilities remain permanently damaged. Some remarkable exceptions to this statement have been reported, but usually not well authenticated.

Fire in the Desert

Abadan, an oil city of some 140,000 people, only 40 years ago was a desert island in the sun-baked delta below the junction of the Tigris and Euphrates Rivers. In a great geologic trough beneath the Mesopotamian river basin waited a hidden treasure. It remained for an Australian wildcatter named William Knox D'Arcy to drill 1,180 feet through Iranian limestone and bring in a gusher in 1908.

Wild tribesmen had ridden into Persia thousands of years before and found oozings of gummy black bitumen to fire their lamps and bind the materials of their buildings, tools and weapons. Alexander the Great marched through Persia, his horsemen collecting naphtha and pitch from evil-smelling pools to strike blazing terror among the war elephants of enemies he met later.

Habits

Habits are easily formed, but not nearly as easy to break. According to Professor William James, Harvard psychologist, it is not enough just to decide to break a habit—one must decide wholeheartedly and not let a single exception occur. Habits should be broken off abruptly, and not gradually. Taking sleeping pills in a dangerous habit as well as an unnecessary one. Good bedding is all that's needed for sound, restful sleep as long as there are no physical ailments.

Report Thorough Cooking Of Pork Cuts Down Disease

Thorough cooking of fresh pork can help to reduce materially the incidence of trichinosis, an infection from diseased pork, it was shown in a report made public by Dr. Rodney R. Beard of San Francisco.

Dr. Beard credited that as one of the factors in an apparent two-thirds reduction in the incidence of trichinosis in San Francisco since 1936.

Trichinosis is caused by Trichinella spiralis worms which sometimes are found in pork. The worms lay eggs in the human intestinal tract. The embryos work their way into muscles, especially the diaphragm, where they develop. Diarrhea, nausea, colic and fever are the usual early symptoms of the disease, followed later by stiffness, pain, swelling of the muscles, fever, sweating and insomnia. The seriousness of the infection depends upon the degree to which the pork has been infected. Severe infections may cause death.

Dr. Beard cited a 1936 study in San Francisco of a random sampling of 200 human diaphragms taken at autopsy. Trichinosis worms were found in 24 per cent of the organs. A more recent study of 101 diaphragms, also a random sampling, showed only 8 per cent were infected—a decrease of two thirds.

He first pointed out that federal, state and local regulations now assure adequate processing of pork products intended to be eaten without cooking. In San Francisco, for example, stringently enforced rules by the local Department of Public Health provide for adequate salting and drying of Italian style salami, an uncooked product, or possible prior killing of trichinae by freezing.

Another factor he mentioned was the reduction in the proportion of pork from garbage-fed hogs. War-time scarcity of labor, difficulties of transportation and other factors.

Statisticians Report Life Safest Ages Nine and Ten

Life in the United States is safest at ages nine and ten, according to Insurance Company statisticians, and less safe during the first year than at any age to and including 65.

This is based upon an analysis by the statisticians of mortality data for the general population in 1949, as reported by the National Office of Vital Statistics.

An all-time high of 67.6 years in expectation of life at birth registered during the year represents a gain of fully 4 years since 1940, the statisticians note, and a gain of 18½ years since the start of the century.

Our greatest gains in life expectation, it is pointed out, have been at the early ages. At birth the gain in life expectation for males during the decade has been more than three years, whereas at age 40 the increase was less than a year.

"This reflects the strides made in the control of the infections of early life," the statisticians explain, "in contrast to the limited progress which has been made in the control of the chronic diseases of middle and later life. Then, too, with an unchanged life span limit of about 100 years, the closer that limit is reached the smaller is the margin left for gain."

The extent to which women live longer than men is greater than ever before. According to mortality conditions prevailing in 1949, women outlive men by an average of 5.6 years, as compared with 4.5 years at the beginning of the decade.

Even if there should be no further improvement in mortality, most people now living in the United States can expect to live beyond the biblical three score and ten years, according to the statisticians.

Finding Fingerprints

Criminal investigators use various methods to make fingerprints visible, depending on the surface where the fingerprint is located, its age, and other factors. When one touches a surface with the fingers, the ridges on the finger tips usually leave an invisible pattern of perspiration. If the print is on light-colored paper, and not more than a few days old, finely powdered lampblack or graphite dusted over it will usually make it visible. On a dark surface a white powder would be required. For older prints, there are various methods using chemicals which react with the minute amount of salts, such as potassium and sodium chloride, left after the perspiration has dried. In one such method, the paper bearing latent prints is dipped in a weak solution of silver nitrate, which converts the chlorides into silver chloride.

Aid for Key Losers

Motor-car-key forgetters or losers will be interested to know that Edward J. Tobin of Norfolk has come to the rescue with his invention of a combination lock to take the place of keys for automobiles. With this dial on your instrument panel, you can forget your key, but not your combination. It works like the combination on a safe. National Patent Council suggests that the combination numbers be kept with your driver's license. Tobin's patent is good for 17 years, and by that time he hopes combination locks will be clicking in autos throughout a good part of the motor world.

Most Life Policy Benefits Go to Widows, Children

Reflecting the basic use of life insurance in family financial planning, wives, children and other relatives appear to be the directly named beneficiaries in more than 80 percent of all life policy death claims, the Institute of Life Insurance says. This is indicated by an Institute analysis of one month's claims in the United States.

Applied to the year's probable total of death claims, the one month's distribution would indicate that this year, wives, children and relatives will be beneficiaries of some 1,200,000 life insurance policies, with total benefits about \$1,400,000,000. Wives and children alone would account for \$1,225,000,000. In addition, they will receive a considerable share of the 7 percent of claims and 14 percent of benefit payments which go to estates and other beneficiaries, excepting husbands.

Husbands were shown to be beneficiaries in 11 percent of the policies, although they received only 4 percent of aggregate benefits, reflecting the smaller average size of policies owned by women.

The month's claim analysis also revealed that, while the majority of death claims were paid on policies which had been in force a number of years, there was a large number in the early life of policies, even in the first year. Although great care is taken in selecting applicants, with those to whom policies are issued being in apparent relatively good health, nearly 5 percent of policies becoming death claims were found to be less than a year old. This would indicate that this year there will be some 70,000 death claims within a year of issuance of policies, with nearly \$100,000,000 involved.

Nearly one-sixth of all claims were shown to be under policies less than five years old. Almost 40 percent of the claims and just over 40 percent of the amount of benefits paid were under policies in force 20 years or more.

Preventive Measures Urged As Safeguard Against Stroke

The best way to avoid a stroke, third among leading causes of death in this country, is to recognize its possibility and make physical readjustments that may help to stave it off.

In the absence of serious systemic diseases such as diabetes and syphilis, there is not much chance of the average person having a stroke before 45 years of age, according to Dr. William Bolton, associate editor of the magazine. Today's Health. But, virtually every one past middle age is a possible candidate. The following precautions were recommended.

1. Obtain prompt, active treatment of systemic diseases.
2. Do not become or remain overweight.
3. Watch blood pressure that tends to become high.
4. Obtain regular physical check-ups.

"Strokes vary from widespread, devastating ones that bludgeon their victims into oblivion to tiny ones producing such vague, indefinite signs that they often escape immediate detection," he said. "The basic cause in both extremes is identical: escape of blood into the brain tissue. The amount of bleeding and its location near to or far from vital centers or important nerve pathways are the chief factors that determine severity in strokes.

"Not all strokes are the result of direct escape of fluid from blood vessels into brain tissue. Some physicians lean strongly to the belief that temporary spasm in a blood vessel may be a common cause.

"Another fairly common event is formation of a clot within one or more of the tiny arteries in the brain.

"There is increased possibility of stroke in certain diseases."

Tough Case

Recognizing the fact that portable movie projectors are often carried into all sorts of climates and that they must withstand the hard knocks incident to travel, the manufacturer of one such machine has devised a special carrying case that is able to "take it." Built of birch and basswood, high frequency radio waves are used to set the adhesive that binds the panels so they can never pull apart. The case is then dipped in a synthetic resin sealer that checks decay and minimizes moisture absorption. It is then primed, sanded, and painted with a spatter finish. Allowed to cure for three weeks, the finish is hard and durable. Even after years of intensive service, it does not become brittle or chip away from the wood.

Pre-War Army

Six months before World War II began, the Army contained 29 infantry and cavalry divisions at nearly full strength, totaling more than 450,000 officers and men, plus an armored force of four divisions with a total strength of 40,000 troops. The Army history, "Washington Command Post: The Operations Division," credits mobilization of the National Guard and induction under the Selective Service Act for this rapid expansion of strength.

Find Clue to Mortality Among Baby Calves, Pigs

Nobody knows definitely why many newborn calves and pigs die shortly after they begin to nurse, but a theory advanced by research veterinarians is winning acceptance because it seems to be the most logical explanation yet offered.

Picture a starving man who eats food that makes him violently ill, only to die from the illness rather than from starvation, and you will have an idea of what is believed to be happening to countless pigs, and calves too, on the nation's farms. The main difference is that the newborn animals die after consuming their mother's milk—the very thing upon which they depend for life.

This is how the trouble starts: While the cow or sow is pregnant, she is attacked by a virus disease that may or may not be apparent to the owner. Her natural body forces produce substances called antibodies that fight off the infection, and at the same time some of these antibodies find their way to the unborn calf or pig.

Large amounts of them also go into the colostrum or first milk, that will nourish the youngster after birth. These disease-fighting substances have a sensitizing effect on the unborn animal. Then, after birth, when the youngster starts to consume colostrum, it gets a large dose of the antibodies and dies from shock.

Prevention of such losses is a problem now confronting veterinarians. While the colostrum from affected cows and sows is obviously harmful, it also has many properties vital to the survival and health of calves and pigs. Ordinary milk and other feedstuffs do not contain all of these essential properties, and so far satisfactory artificial foods have not been developed for practical farm use.

Veterinarians Tell Ways To Prevent Pig Scours

These five suggestions for keeping scours out of the spring pig crop are offered by swine disease authorities of the American veterinary medical association:

1. Set up a definite schedule for feeding the sow. Irregular feeding results in an uneven flow of milk that causes nursing pigs to go hungry at one feeding and then scour from overeating at the next.
2. Don't overfeed the sow. Newborn pigs often scour because the brood sow is being overfed. Give her only warm water and no solid feed the first day after farrowing and a small amount of bran or oats the second day. After that, the ration can be increased a little each day so that she is on full feed within two weeks.
3. Feed a balanced ration. If the sow gets too much corn, her litter is almost sure to scour.
4. Keep sows away from mud holes, manure, and filth. Many cases of pig scours are traceable to filth consumed while nursing.
5. Protect pigs against sharp changes in temperature. Failure to keep pigs warm when the weather suddenly turns cold will cause outbreaks of digestive trouble.

Saws Used in Home

The saws commonly used in the home are the hacksaw and the handsaw. The hacksaw is used to cut metal and the handsaw to cut wood. There are two types of handsaws, the rip saw to cut with the grain and the crosscut to saw across the grain. All saws should be kept sharp. In starting a saw cut, the thumb of the left hand should be used to guide the blade until the cut is started at the desired location. The first stroke of the saw should be in the up direction. Sufficient pressure should be used when starting the cut so that the saw immediately begins to bite into the wood.

Warning to Cattlemen

Stock owners who use grazing land that adjoins oil lines and tanks are warned to watch out for crude oil poisoning in their herds. A bulletin from veterinary medical authorities cautions that the lines and tanks occasionally spring leaks, leaving pools of oil, and cattle may consume enough of it to be fatally poisoned. Animals on poor grazing land seem to have a special liking for crude oil, the bulletin adds. Cattlemen also are advised to keep their animals off pastures fronting recently oiled roads, particularly during rainy weather. The reason is that rain may wash enough oil onto the pasture to poison all or part of a herd.

Early Days of Indiana

Indiana territory's initial 1,000 settlers came from Kentucky, Virginia, and the Carolinas. They built their cabins in the south, along the Ohio and lower Wabash. They found the farm land rich, and when, in 1813, they moved their capital to Corydon, 20 trail miles west of Louisville, their number was 30,000. The total had jumped to 75,000 by late 1816, when statehood was won. There were a million and a half Hoosiers in Civil war days. By that time, the state's "naturals" in crops—corn, wheat, and hogs—had been found. Hominy and hogs continue to be good Hoosier fare.

Facts You Should Know About Ed Knopp

- Ed Knopp is a young man 40 years of age.
- He is married. His wife, Rachel, is a member of a pioneer Benewah County family.
- He is a life-long Republican, and has been active in party affairs.
- He has served as an officer of the Benewah County Republican Central Committee.
- He has been a resident of Idaho for 18 years.
- He has resided in St. Maries, Benewah county, for the past nine years.
- Before locating in Benewah county he was a resident of Shoshone and Adams counties, all in the First District.
- He has long been active in public affairs.
- He was reared a Congregationalist, and is a member of that church.
- He has been actively engaged in the retail field for 20 years.
- He has owned and operated his St. Maries drug business for the past nine years.
- He is a successful business man.
- He is past president of the Idaho Pharmaceutical Association.
- He is a college graduate with a B. S. degree in Pharmacy.
- He was named by his state association in 1953 as "Pharmacist of the Year".
- He was appointed by Gov. Len Jordan July 1 last year to a three-year term on the State Board of Pharmacy.
- He has long been active in the work of the Idaho Public Health Association, and served it as officer.
- He is currently serving as a member of the advisory lay committee of his school district.
- He has long been active in work for better roads in North Idaho.
- He is currently serving as president of the St. Maries Chamber of Commerce.
- He has served two terms as president of the St. Maries Aerie, No. 2012, Eagles lodge.
- He is immediate past president of Kiwanis.
- He has been a member of the Masonic bodies and the Elks lodge for many years.

Ed Knopp Can Win in November!

KNOPP FOR CONGRESS COMMITTEE
Charles W. Craney, Secy.
St. Maries, Idaho

NOTICE OF NOMINATING ELECTION

NOTICE IS HEREBY GIVEN that on Tuesday, August 10, 1954, at the regular polling place in the various election precincts of the County of Latah, State of Idaho, a primary election will be held for the nomination of Justices of the Supreme Court, District Judge of the Second District, United States Senator, Representative in Congress, First Congressional District, Governor, Lieutenant Governor, Attorney General, Secretary of State, State Auditor, State Treasurer, Superintendent of Public Instruction, Mine Inspector, State Senator, State Representatives, and for County Officers, and for the election of Precinct Committeemen.

The polls in the several election precincts on the day of said nominating election shall be open from 12 o'clock noon until 8 o'clock P. M.

The names and addresses of all persons for whom nomination papers have been filed and who are to be voted for, with the party designation and title of each officer, are as follows, to-wit:

For NON-PARTISAN JUDICIARY
 For Justices of the Supreme Court
 Donald Anderson, Caldwell, Idaho
 Walter H. Anderson, Pocatello, Ida
 James W. Porter, Boise, Idaho
For District Judge, Second District
 Jack McQuade, Moscow, Idaho
 Thomas R. Walenta, Moscow, Idaho

REPUBLICAN PARTY
UNITED STATES SENATOR
 Henry C. Dworshak, Burley, Idaho
 Les Lambson, Blackfoot, Idaho
REPRESENTATIVE IN CONGRESS
First Congressional District
 E. B. "Ed" Knopp, St. Maries, Ida.

Sit-Down Dentist's Career Is Longer, Professor Says

Several years of service will be added to the life of the average dentist if he sits down part of the time while he works.

This is the belief of Edgar W. Swanson, D.D.S., M.S.D., professor of operative dentistry at Northwestern university dental school who recommends that dentists use operative stools at least 50 per cent of the time.

Dr. Swanson said students in the operative technique laboratory at the Northwestern dental school use operative stools about 60 per cent of the time. Students in the clinics use the stools from 10 to 90 per cent per operation.

Northwestern, convinced that operative stools will be used more widely by dentists to eliminate fatigue and extend their years of service, trains students in the use of the stools.

To obtain more accurate information on the reaction of students to the stools, the school recently sent a questionnaire to every member of its senior class.

The first question was: "Do you feel as tired at the end of the day when you have used an operating stool as you do when you have operated from the conventional standing position?" All but three answered "no." Two of those answering "yes" said it may have been due to their limited experience with the use of a stool.

The second question was: "Do you like the idea of sitting while operating?" All answered "yes." To the question, "Would you do more operating from a sitting position if more stools were available?" All senior students answered "yes."

Dr. Swanson points out that the operative stool enables a dentist to change his position during the day, which is extremely important in preventing fatigue.

Sugar-Graving Animals Lured by Poison Plants

There may be danger ahead when livestock pass up lush pastures in favor of weeds and tough plants.

The attraction may be a poisonous spray or other chemical that gives ordinary unpalatable weeds and plants a special taste-appeal.

A bulletin issued by the American Veterinary medical association explains it this way: Certain chemicals used in farming, such as sodium chlorate, turn plant starches to sugar, and animals with a "sweet tooth" readily eat the sprayed plants.

Not all the chemicals used for spraying crops and treating soil are poisonous to animals, the AVMA emphasizes, but many of them are. The severity of poisoning varies directly with the kind of chemical and the amount of treated plants the animals consume.

Experiments are still being made to test the safety of various new chemicals on the market, and until all the facts are known, livestock farmers are advised to use only those proved to be safe and to follow manufacturers' instructions.

Resistant Plants

Plant diseases are no respecters of experimental plots. As a result scientists have sometimes acquired valuable information in the nick of time. So it was in the case of Victoria blight of oats, which invaded breeding plots and demonstrated to plant breeders of the U. S. department of agriculture and some of the middle west state experiment stations a type of disease resistance soon to be needed on a large scale. Clinton—and some of the other new varieties of oats derived from the Bond variety—in that way became known as resistant to a disease soon to be rampant in the Mississippi valley. This disease attacked the widely-grown oat varieties derived from the Victoria oat brought in from South America.

Vanishing Wildlife

Gone from the British Isles since World War II is the great bustard, Europe's largest land bird. Going or gone from haunts in Florida and vicinity is the ivory-billed woodpecker, largest of its clan. Deserting the Bahamas in alarming fashion is the tall, scarlet-hued flamingo, whose one United States haven is at Hialeah park, Miami, Florida. Whales, vital food source for many Europeans, long have been reduced to scarcity in northern hemisphere waters. Blue whales, biggest of all, currently show signs of sharp depletion in Antarctic whaling grounds. A new international treaty shortens the hunting season as a whale conservation measure.

First Tank Car

On November 1, 1865, about six years after the world's first oil well was opened at Titusville, Pennsylvania, the first tank car was loaded in that city. It was a flat car fitted with two wooden tanks shaped like inverted tubs. Many of these "rotary" oil cars, as they were called, were used for transporting oil from the Pennsylvania wells, until replaced by the present type of horizontal cylindrical tank, fitted with a dome which allows the oil to expand without injury to the tank. The first of this type was introduced in 1868.

Elves and Leprechauns Took Blame for Everything

It may not be on the official unemployment records, but the fact is that there are hundreds of sheeps, leprechauns, and elves out of a job.

Since each one of them has a long history of diligent service to humanity, it seems a real shame they can't be put back to work. Each of us needs one to take the rap for the petty annoyances of daily living. These out of the way, we could devote ourselves to the big problems.

According to the Childcraft reference library, our ancestors used the little people to full advantage. They let them take the responsibility of souring the milk, rattling the windows and creaking the stairs, and breaking Aunt Nellie's best china.

A nice feature of the little scamps, too, is their wide range of nationality.

Did your parents come from Scandinavia? Then you will want to select an elf. This pint-sized creature will live in your home and help keep the kitchen neat. If he occasionally cracks a dinner plate or burns the toast, you can't very well complain. That's what you want him for, to take the blame, isn't it.

Pixies are your choice if you have British ties, and there is a fine assortment of sheeps for you Scottish folks. If you are Irish you may select between the revelry-loving sheeps and the rather dour leprechauns, who, incidentally, are apt to ignore you as they spend most of their time making shoes for the sheeps.

If you favor France you will have to get along with a goblin. But maybe he's better than a German poltergeist, who is downright rowdy. He will cause no end of commotion until someone bakes him a spice cake.

Just a word of warning before you adopt one of these little chaps—they believe in people, and definitely expect people to believe in them.

Life Expectancy for Man Reaches 65-Year Average

Man once shared the life expectancy of a pack-donkey, but over a 2,000 year period has attained a 65-year average—almost rivaling the 70-year expectancy of the whale, the longest-lived mammal in the life chart.

But this increased age has drawbacks in the form of cancer, diabetes and heart disease.

The average Roman of about 50 B. C. lived only 25 years. Modern medicine and sanitation now give man at least 40 more years—and a greater chance of having one of the diseases usually associated with the aging of the human body.

Human progress up the life-expectancy ladder is something of a triumph for man, who is not too well endowed with protective equipment. He is the only mammal in the higher brackets who is without some form of protective armor. For example, he ranks with the whale, 70; the elephant, 60; the hippopotamus, 40; and the alligator, 40 years.

Domesticated mammals range in life expectancy from the dog, 10 years, to the cow and horse, 20 years, and the burro, 25. Lowest mammal in the chart is the mouse, who lives from 2 to 6 years.

"Breaking Up" Water

Water, which consists of hydrogen and oxygen, can be broken up into these elements by electrolysis. If two wires, carrying a direct electrical current, are placed in water, bubbles of oxygen form around the one connected to the negative side of the battery or generator, while oxygen forms around the wire connected to the positive terminal. Usually a small amount of acid must be added to the water to make it conductive of electricity. Also, if water, in the form of steam, is heated to a very high temperature, around 3500 F., it separates into hydrogen and oxygen. These recombine to form water as the temperature is lowered again.

Longer Life for Sheets

To lengthen the life of sheets follow these suggestions. Reverse sheets every other time by putting a bottom hem at the top. Cover bare springs with heavy sheet or sheeting to avoid snagging bed linens. And check all beds for needed carpentry. Put a mattress pad between the sheet and the mattress to avoid the abrasive action of the rough ticking against the sheet. Loosen the edges of the sheet until all around before stripping the bed. Use mild solution of bleaches and rinse thoroughly, or better still, let the sunshine do your bleaching. Always rinse thoroughly to remove traces of soap and soap powders.

Study Premature Babies

An instrument corresponding to a miniature iron lung has been used by University of Michigan researchers in studying premature babies. Object of the studies was to find out why premature babies breath irregularly—in gasps or jerks. The research has shown that the cause of this irregular breathing is that oxygen is not reaching the tissue of the brain center which controls respiration.

First Hunting Casualty
 The first hunting casualty report of the season has been received by the Idaho Fish and Game department, Ross Leonard, director, said today.
 "This report shows that though most people are out after salmon and trout, it is none too soon to start thinking about safe hunting," Leonard said. He added that the reported injury occurred when a woman with 10 years hunting experience shot her husband with an "empty" gun.
 Leonard cited a conservation officer's report that the two were shooting at ground squirrels as a means for the husband to teach his wife to use a .22 caliber revolver with which she was unfamiliar. The reports said she had shot several times, then released the hammer once when a squirrel disappeared before she could shoot at it.
 "Here is where basic gun instruction would have prepared both of these sportsmen to avoid accident," Leonard said. He pointed out that the next time she cocked the gun, the unused live cartridge simply passed along one notch. When the revolver "clicked empty," this single live cartridge still remained in the cylinder.
 According to the story, she kept on trying the action, snapping the gun on empty cartridges. When she came to the live one, it fired, and the bullet struck her husband in the hip.
 Leonard lauded various gun and sportsmen's clubs in Idaho who are sponsoring instruction programs in safe gun handling in preparation for the fall hunting season. He urged all sportsmen to cooperate with these programs on a local basis, and offered fish and game department aid in organizing them in communities where such programs do not exist.

Referendum Not Affect Allotment
 "There still seems to be a good deal of misunderstanding among the farmers regarding the effect of the July 23 wheat quota referendum on acreage allotments," Roy Emerson, chairman of the County Agricultural Stabilization and Conservation committee said today.
 "Whether quotas are approved or not, the wheat allotment proclaimed by the Secretary of Agriculture will be in effect for the 1955 crop. The controlling legislation requires the establishment of wheat acreage allotments every year, unless they are suspended because of emergency conditions.
 "Allotments are the basis for the quota administration when quotas are in effect, but when there are no quotas the allotments are still in operation.
 "Producers must comply with acreage allotments in order to be eligible for price supports — with or without quotas. If quotas are not in operation, there is, of course, no "marketing

penalty' for exceeding acreage allotments — the only penalty is the loss of price-support eligibility."

Fishing And Huckleberrying
 Local reports on fishing and huckleberrying, are that in the latter category they are at their peak, with berries reported in almost every known patch, and many, many gallons have been brought into Kendrick.
 In the fishing department reports are not so good. In the Avery area the road across the summit to Twin Creeks, Lost Lake, etc., is still closed by some 10 feet of packed snow and ice and not expected to be open for another week or ten days.
 In the Bungalow, Cedars and Kelly Fork area waters are still too high, report local anglers who invaded them last week-end. It is believed that two to three weeks more will be required to bring good fishing.

Strange Language
 An African chieftain flew to London for a visit and was met at the airport by newsmen. "Good morning, Chief," one said. "Did you have a comfortable flight?"
 The chief made a series of raucous noises — honk, oink, screech, z-z-z-z, then added in perfect English, "Yes, very pleasant indeed."
 "And how long do you plan to stay?" asked the reporter.
 Prefacing his remarks with the same strange noises, the chief answered: "About three weeks, I think."
 "Tell me, Chief," inquired the baffled reporter, "where did you learn to speak such flawless English?"
 After the new standard honk, oink, screech, whistle and z-z-z-z-z, the chief said, "Short wave radio."
 Get that lunch meat at Blewett's Grocery-Market, Kendrick. A good selection, always. 1-adv

"See what a new electric HOME FREEZER will do for your family,"

say Home Economists Jean Ensor and Dorothy Smith

"Just like you, we've heard a lot of claims about the value of an Electric Home Freezer: Can you save 30% to 50% on food costs? Does your family eat better with a freezer? Does it bring better living to your family?"

"The truth of the matter is: You can save time and food costs with an electric freezer, you can eat better and live better."

"But the most important fact about a freezer is: You get more out than you put in."

"First of all, you save money by buying foods in quantity when they're at their seasonal lows. By keeping alert for bargains, you can expect to save \$120 a year or more!"

"You save time and effort by freezing pastries, lunches and whole dinners in advance, ready to be used when you want them. And you cut your trips to the store."

"And, perhaps best of all, you practically have a supermarket full of the most delicious, most nutritious fresh-frozen foods right at your fingertips — wonderful when unexpected guests drop in."

Freeze 'n Save on Food Bills! There are many ways, including buying meats, vegetables and fruits in quantity when they're at seasonal lows.

Freeze 'n Save Time! Shop when you want to — and less often. Make lunches and bake in wholesale lots. Cut your canning.

A supermarket in your home! Meal planning's a cinch... and you're always prepared for unexpected guests.

UPRIGHT or CHEST TYPE

See your hometown appliance dealer for the complete facts on which freezer is best for your family.

LINDEN ITEMS

(Delayed)
 Mr. and Mrs. Dick Parsley visited his uncle, W. E. Parsley, at Weippe over Thursday and Friday and went huckleberrying. They picked only a few hours each day and brought out better than 12 gallons of fine berries.
 Mr. and Mrs. Ernest Grim spent the week-end with their son Dick Grim and family at Breakfast Creek.
 Penny Weaver left Saturday to spend the week with her uncle and Aunt Mr. and Mrs. Adolph Denner on Fix Ridge.

Mrs. Gil Erlewine accompanied her relatives on a Friday to Monday trip to Port Angeles, Wash.

Mr. and Mrs. William Holt and son Howard were Sunday evening callers of Mr. and Mrs. James Holt and family.
 Michael Holt spent Friday with Mrs. Nannie Gentry in Kendrick.

(This Week)
 Gene Foster spent last week with his grandparents, Mr. and Mrs. Arlie Allen, helping them with bean hoeing.

Mr. and Mrs. Joe Michaelis and children spent the week-end with her parents, Mr. and Mrs. Louis Alexander and her grandmother, Mrs. Sylvia Jenks.

Ernie Loeser helped with the haying at the Bill Zimmerman farm on Sunday.

Mrs. Art Foster and children of Kendrick, Mrs. Bill Zimmerman and children and Mrs. Clarence Alexander were huckleberrying in Three Bear on Friday.

Mr. and Mrs. Dick Parsley and son Jack spent the week-end at Wallowa Lake.

Mr. and Mrs. Harley Perryman and son Gene and Mr. and Mrs. Dan Kechter and family spent Sunday huckleberrying in the Three Bear area, and driving on the Mason Butte lookout before coming home.

Mr. and Mrs. Raymond Blankenship were Sunday afternoon callers in the Alva Craig home.

We understand that Don Wright has returned home from the army with his discharge about two weeks ago, and is now employed by "Lum" Farrington at his sawmill. We are happy to know when the boys' service time is completed and they are home again.

The Lester Weaver and Santford Weaver families picnicked at Boulder Creek, Sunday.

Mr. and Mrs. Art Foster, Janice, Freddy and Gene were Sunday supper guests of Mr. and Mrs. Arlie Allen. Gene remained to help with bean hoeing again this week.

Cleon McAlister left Sunday for Cholutis, Wn., where he will help again on the harvest. Dale and Shirley went on to Lind, Wash., to visit their grandparents.

Ellen Weaver left Sunday to spend the week-end with her uncle and aunt, Mr. and Mrs. Adolph Denner, on Fix ridge.

Elmer Weaver accompanied Clarence Perryman on a fishing trip to the Buffalo Hump country Friday, returning home Sunday.

Santford, Clarence and Alex Weaver spent Saturday and Sunday on a fishing trip into the Selway country.

Mr. and Mrs. Dick Richardson and Mrs. Hatfield, from Elk River; Mrs. Elsie Torgeson from Lewiston called at the Stewart Wilson home Sunday, and together with Mr. and Mrs. Wilson went on a huckleberrying expedition into the Three Bear area, bringing out about 10 gallons of berries.

Mrs. Alice Wright of Longview, Wash., is visiting this week in the Ray Cuddy, Bill Cuddy and James Holt homes.

Mr. and Mrs. Gil Erlewine enjoyed a visit with Mr. and Mrs. Darwon Tarry at Southwick, Sunday evening.

Fresh and cured meats, fresh frozen Bird's Eye foods and other eat's Grocery Market in Kendrick.

LELAND ITEMS

Homemakers Club To Meet
 The Leland Homemakers Club will meet in the Kendrick park for their regular business meeting on Wednesday, Aug. 11. Final plans for the booth at the County Fair will be made at that time.
 Co-hostesses for the afternoon are Mrs. Leonard Wolff and Mrs. A. G. Peters.

Honored On Birthday Anniversary
 Friends gathered at the home of Mr. and Mrs. Marvin Vincent Friday evening for a pot-luck supper honoring Mrs. Marvin Vincent on her birthday anniversary.

Guests were Mr. and Mrs. Manning Onstott of Kendrick; Mr. and Mrs. Chester Vincent and family; Mr. and Mrs. Harl Whittinger of Southwick; Mr. and Mrs. Dick Cuddy and Mr. and Mrs. Bill Rogers and family of Kendrick; Mr. and Mrs. Wm. Brooks of Spokane; Mr. and Mrs. Herman Johnson, Mr. and Mrs. Robert Draper and Mr. and Mrs. Ervin Draper and family.

General News
 Mr. and Mrs. Harl Whittinger were Sunday afternoon visitors in the home of Mr. and Mrs. Robert Draper.

Mr. and Mrs. George Baugh and son Norman of Orofino were Sunday dinner guests of Mr. and Mrs. Roy Craig.

Mr. and Mrs. Willis Thornton and family were week-end guests of Mr. and Mrs. Jesse Thornton.

Mr. and Mrs. Leonard Wolff and Mr. and Mrs. Bruce Wilson finished and picnicked at Camp 40, Sunday.

Sunday dinner guests of Mr. and Mrs. Charles Hoffman were Mr. and Mrs. Ed. Cheveroent of Lenore; Rev. and Mrs. Ed. Byrnes and family, and Mrs. Anna Borlase. Sunday evening visitors were Mr. and Mrs. Donald Morgan and family of Cavendish.

Mr. and Mrs. Charles Hoffman, Mrs. Ben Hoffman and grandson Donald Hoffman attended a Dr. Louis T. Talbott picture in Lewiston on Monday evening.

Mr. and Mrs. J. M. Woodward were Monday evening visitors of Mr. and Mrs. Ben Hoffman.

Herbert and Martha Malone of Renton, Wash., are visiting their grandparents, Mr. and Mrs. Ben Hoffman.

Mr. and Mrs. Wm. Thornton received word Monday that their son-in-law and daughter, Mr. and Mrs. Rudy Meyers, are the proud parents of a baby daughter, born to them on Sunday, Aug. 3.

Loann Christine Meyer of Clarkston is visiting her grandparents, Mr. and Mrs. Wm. Thornton.

Mr. and Mrs. Bill Barker and son Kevin of Pullman spent Saturday with Mr. and Mrs. A. G. Peters.

Mr. and Mrs. George Peters of Orofino were Sunday dinner guests of Mr. and Mrs. A. G. Peters. David Hudson returned home with them, having spent the past week with his grandparents.

FIX RIDGE ITEMETTES

Mrs. Leo Barnes and daughters Jean and Joan of Spokane were Wednesday dinner guests of Mr. and Mrs. Wallace Clark.

Mr. and Mrs. Adolph Denner and daughters; Ellen Weaver and Mrs. Annie Weaver of Kendrick were Sunday dinner guests of Mr. and Mrs. Ellsworth Weaver in the Lewiston Orchards.

Penny Weaver returned to her home Saturday evening, after visiting the past week in the Adolph Denner home.

Mr. and Mrs. Bennie Weatherby took their son Jimmy to Deer Cam, where he will spend a week at a boys' camp there. On their way back the Weatherbys visited relatives at Connell, Wash.

Adolph Denner and son Kenneth left Thursday morning for Meadow creek. They packed back about 10 miles and returned home Saturday evening. They said fishing was excellent and they caught their limit each day.

Ellen Weaver of Linden is visiting this week with Lenette Denner.

Tuesday supper guests of Mr. and Mrs. Adolph Denner were Mrs. Annie Weaver, Dayma and Clarence. The supper honored Dayma's birthday anniversary.

Mr. and Mrs. Tom Denner and sons and Herman Denner were Sunday dinner guests of Mr. and Mrs. G. F. Denner.

Mrs. Tom Denner, Mrs. Walter Denner and Mrs. Eleanor Denner visited with Mrs. Geo. F. Denner Wednesday, helping her celebrate her birthday anniversary.

Mrs. George Giese returned home Friday after visiting a couple of days with her brother, Mr. and Mrs. Paul Woodruff and family at Omak, Wn.

Mr. and Mrs. Walter Denner and daughter Judy were Sunday dinner guests of Mr. and Mrs. John Schwarz and sons at Cameron.

Carl Grieser and granddaughter Marla Woodruff of Genesee, visited Wednesday evening with Mr. and Mrs. Geo. F. Denner.

Mr. and Mrs. Keith Clark of Juliaetta visited Sunday afternoon with Mr. and Mrs. Oliver Clark.

Howard Hutchinson started combining and hauling peas this week. Wallace Lane, son of Mr. and Mrs. Wallace Lane of Spokane, is spending this week with his uncle and aunt, Mr. and Mrs. Geo. Giese.

SOUTHWICK NEWS

the day, Sunday, at the home of Mr. and Mrs. Tommy King.

A correction: In the article in last week's paper, little Susan Kay Benjamin was dedicated to Christian service at the Community church, instead of to the United Brethren church, and this was not a baptismal service, just a dedication. My apologies to Mr. and Mrs. Verlin Benjamin, Mr. and Mrs. Milton Benjamin, Mr. and Mrs. Al Pederson and to Rev. Swinney, for this error.

Card Of Thanks

I want to thank all the folks around Kendrick and Juliaetta for all they have done for me in my time of need — all the flowers and the gifts of money. My thanks to the pallbearers, the singer, and Rev. Nelson for his message. Again — "I Thank You All." — Mrs. Fern Babcock.

THE Bull itin

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, FOLKS:

...Yes, Harvest is beginning — and we're on our toes to serve you in every way possible. Phone 1251 for your Union Oil Products — Union 76 Gasoline, Union 7600 Gasoline, Union Diesel Fuel, Union Stove Oil, and Union Lubricants for every purpose, from the track rollers on your tractor to the motor.

A farmer was phoning a veterinarian. "Say, Doc," he said. "I've got a sick cat. He just lays around licking his paws and won't eat anything. What shall I do for him?"

"Give him a pint of castor oil," said the vet.

Somewhat dubious the farmer forced the cat to take a pint of castor oil. A couple of days later he met the vet in town.

"How's the sick calf?" inquired

the vet.

"Sick calf! That was a sick calf I had."

"Did you give him the pint of castor oil?"

"Sure did."

"Well, what did he do?" asked the vet.

"Last time I seen him," said the farmer, "he was going over the hill with five other cats. Two were digging, two were covering up, and one was scouting for new territory."

How are the tires on your car, truck or pickup? Are they ready for the harvest season? If not, come in and talk over that problem. You'll be surprised at just how cheaply you can have new U. S. Royals all-around!

WHAT CAMERON FOLKS ARE DOING THESE DAYS

John Schwarz returned home Tuesday after receiving medical care at the St. Joseph's hospital in Lewiston for a week.

Mr. and Mrs. Marvin Silflow and family, Mr. and Mrs. Emil Silflow and sons and Mr. and Mrs. Harold Silflow and daughter picnicked at Chatcolet lake Sunday afternoon and Monday.

Mrs. Jimmy Diehl and daughter Bonnie of Hermosa Beach, California, and Mrs. George Wilken were Monday afternoon visitors in the home of Mr. and Mrs. Kenneth Wilken.

Mr. and Mrs. Herman Meyer took their daughter Hermina to Spokane Sunday afternoon, where she will be employed.

Mrs. Russell Rodgers of Moscow visited with Mrs. Ida Stoneburner and Miss Emma Hartung Wednesday afternoon and evening.

Mr. and Mrs. Wilbert Brunstiek and Mrs. A. H. Blum picked huckleberries in the Dix Creek area Thursday.

Mrs. Willard Schoeffler and daughters, Mrs. Fred Schoeffler, Judy Choate, Mrs. Glen Betts and Mrs. Frank LeBaron picked huckleberries in the Dix creek area Friday.

Mrs. Russell Rodgers of Moscow visited with Mrs. Fred Schoeffler and Mrs. Grover Danforth a few days last week.

Mr. and Mrs. Walter Koepf and family and Mr. and Mrs. Glen Wegner and family camped and fished in the Avery and Canyon Ranger Station areas from Friday until Sunday evening.

Mr. and Mrs. Henry Wendt were Thursday evening dinner guests of Mr. and Mrs. Herbert Schwarz, Helen and Ted Mielke were evening callers.

Mr. and Mrs. Henry Wendt were Sunday guests of Mr. and Mrs. Bill Brammer in Clarkston.

Mr. and Mrs. Wilbur Tarbet and family were dinner guests of Mr. and Mrs. Ted Weyen and family, Sunday. Mr. and Mrs. Billy Weyen and daughters joined the group for a picnic on the Clearwater river Sunday evening.

Walter Crawford and Fred Silflow, the latter of Juliaetta, fished on the North Fork a few days of this week.

Mr. and Mrs. George Wilken spent Thursday evening with Mr. and Mrs. Glen Wegner.

Mr. and Mrs. Herbert Schwarz and daughter JoAnn visited with Mr. and Mrs. Kenneth Wilken Sunday evening.

Mr. and Mrs. Wesley Hull and family of the Lewiston Orchards and Mr. and Mrs. Dan Sullivan and family of Teakean were Sunday dinner guests of Mr. and Mrs. Aug. F. Wegner and sons.

W. C. Mielke of Lewiston; Mr. and Mrs. Ed. Mielke and daughters De-

Ann and Patricia, Mrs. Ida Stoneburner and Miss Emma Hartung visited with Helen and Ted Mielke Friday evening.

Mr. and Mrs. Geo. Allen and family were Monday luncheon guests of Mr. and Mrs. Fred Newman.

Mr. and Mrs. Kenneth Wilken and son David spent Saturday evening with Mr. and Mrs. Ernest Brammer at Southwick.

Mr. and Mrs. Earl Whiting accompanied a group of friends to the home of Mr. and Mrs. Marvin Vincent Friday evening, where they surprised Mrs. Vincent with a birthday anniversary pot-luck dinner.

Mr. and Mrs. Otto Silflow fished on the Salmon river last week. They reported good luck.

Mr. and Mrs. Lloyd Gephart and family and Mr. and Mrs. John Blankenship and family spent the week-end at Red River Hot Springs.

Mr. and Mrs. Walter Denner and daughter Judy; Mr. and Mrs. Herbert Schwarz and daughter JoAnn, Mrs. Ida Stoneburner and Miss Emma Hartung were Sunday dinner guests of Mr. and Mrs. John Schwarz and sons.

Mr. and Mrs. Gus Kruger spent Friday and Saturday with Mr. and Mrs. Kenneth Sinclair and daughters at Richland, Wash. Mrs. Sinclair and daughters came to Lewiston with her parents, where she will visit with relatives until Tuesday, then visit with relatives at Cameron for the remainder of the week.

Mrs. Fred Newman, Helen and Ted Mielke picked huckleberries in the Three Bear and Dix Creek areas on Friday.

Mr. and Mrs. Carl Koepf of Juliaetta visited with Mr. and Mrs. John Schwarz Saturday afternoon.

Mr. and Mrs. Earl Whiting spent Sunday evening with Mr. and Mrs. Bob Draper.

Roy Silflow was a Sunday dinner guest of Mr. and Mrs. Jim Whiting.

Rev. Theo Meske called from his mother's bedside Tuesday, saying she had passed away that day.

Home From Egypt

Mr. and Mrs. Kenneth Platt and children, Barbara, 14; Susan 11, and Donald 7, arrived in Kendrick Monday for a visit in the home of his parents, Mr. and Mrs. John Platt, and with other relatives, driving up from Boise where they had been visiting in the home of his wife's parents, Mr. and Mrs. F. W. Hewitt.

Mr. Platt and family have been stationed in Egypt, he as an employee of the U. S. Department of State, on loan from the Interior Department, on the Point-Four Program, spending two very interesting years there.

The Platt family plans a reunion in the Kendrick park Sunday, to be followed by a showing of colored slides taken by Mr. Platt in Egypt. The showing of these slides will be open to the public. However, as the place and hour is not known at this time, it will be announced in the park to the general public.

Mr. Platt is no stranger to the readers of the Gazette, two of his very fine letters to his parents have been published in past months — and we feel very sure that his pictures are also something no one should fail to see when given the opportunity.

First '55 Models On Display

The "first '55 of anything" of which we have heard here, makes its appearance in the columns of the Gazette this week in the announcement ad. of George F. Brocke & Sons, in which they will put on display in their show rooms, August 11, at 7:00 p. m., the '55 model Admiral Television sets which they handle.

In addition to the TV display and accompanying demonstration, the Brockes are "putting out the treats."

The large ad. announcing the display will be found on another page.
