## About Our Next Issue

Next week's issue of the Gazette will be our annual "Twenty Years Ago" paper, in which all news will be 20 years old. Advertisements will, of course, be current.

In addition, as an added feature, there will be several columns of history, compiled from various stated sources.

We well realize that some will consider inaccurate various statements in the histories. All we can say is that we have done our best and we hope you enjoy the issue.

The Gazette crew and our hard-working correspondents expect to enjoy the week's vacation provided by this issue.

## ROY GLENN WINS DECEMBER VACATION TRIP TO ARIZONA

Akron, Ohio (Aug. 9) — Latah Soil Conservation District, which headquarters at Moscow, has been selected as Idaho's grand award winner in a 1953-1954 national soil conservation competition, it was announced here today by the Goodyear Tire & Rubber Co., sponsors of the program.

Twenty of Idaho's 32 soil conservation districts were entered in the program.

K. J. Wilkins of Deary, and Roy R. Glenn, of Kendrick, will be guests of the sponsor with 98 other winners representing the other 47 states on a vacation trip to Wigwam Guest Ranch, Litchfield Park, Arizona, in December.

Wilkins was selected by the Latah Soil Conservation District, which headquarters at Moscow, as the outstanding rancher-cooperator. Rules of the contest provide for one representative of the state's first place district and the outstanding rancher-cooperator selected by the district to make the vacation trip with all expenses paid by the sponsor.

Other members of the first place Latah district governing body are: Harley Eichner, chairman, of Kendrick; George I. Comstock, Potlatch; John A. Luedke, Genesee, and A. E. Koster, Moscow.

Second place honors for the state were earned by Madison Soil Conservation District, headquartered in Rexburg, which nominated Ross R. Schofield, Rt. 1, Sugar City, as the outstanding rancher-cooperator.

Members of the Madison district governing body are: Wilford L. Jensen, chairman, of Rexburg; Glendon Gee, Sugar City; Glenn Sharp, of Thornton; James W. Steel and Ed. S. Covington, both of Rexburg.

Both first and second place districts will receive bronze plaques as permanent symbols of their achievements in conservation practice at a regional meeting of the National Association of Soil Conservation Districts later this year.

Members of the Idaho judging committee who selected the state's winners are: R. E. Bauer, vice president, First Security Bank of Idaho, Moscow, chairman; Arden W. Jacklin, partner, Jacklin Seed Co., Dismal, Wash.; G. T. McAlexander, district extension agent, Moscow, and C. O. Youngstrom, secretary, state soil conservation commission, Boise.

## Wrecking Train Leaves Sunday

The Northern Pacific wrecking outfit and work train which has been here this past week salvaging cars and contents from the big wreck scene of Sunday, Aug. 1, about a mile above Kendrick, departed Sunday for Spokane, after salvaging all the cars and their contents.

However, the big rotary snowplow, which was the cause of the wreck, still lies on its rock-slide resting place, having proven too heavy to lift from the angle in which the big crane was forced to operate.

We understand that an N. P. salvage crew will soon come to the scene and cut up the big 100-ton rotary plow, keeping intact all possible, and cutting up the balance for scrap metal.

We understand a thorough inspection showed the plow so badly smashed up that to bring in more equipment and construct hillside anchors for the cranes would raise the cost higher than the value of the plow.

All-in-all, it was a very costly wreck for the N. P. in material — but no one was hurt. Material can be replaced, but a human life can not be restored.

## Improving Slowly

Alva Craig is still in bed from the injury to his left foot, received some 10 days ago, while unloading logs at Cuddy's landing here in the railroad yards. X-rays showed no broken bones, but his foot was severely smashed when the log rolled onto it.

Alva said he saw the log coming and jumped, but not quite far enough. It will be about three weeks yet before he can work.

## Ill With Polio

Latest report from the Blewett family at Seattle is that John Blewett, little son of Lt. Col. and Mrs. Aaron Blewett, is also ill with polio, however, his case is a mild one.

**Entertains At Hamburger Fry**  
Julia Rowden entertained several of her friends at a picnic and swimming party in the park last Thursday.

Hamburgers and watermelon highlighted the afternoon. Ten girls were present.

## PLATT FAMILY REUNION AND SHOW DRAWS REAL CROWD

A goodly number of relatives and friends from Kendrick and surrounding communities joined with the John A. Platt family in a picnic dinner at the Kendrick park last Sunday afternoon. All members of the immediate family were present except the youngest daughter, Mrs. Stanley Gilson (Lorene), who was unable to come from her ranch home at Spirit Lake, Idaho. Besides Mr. and Mrs. John A. Platt of this city, immediate family members were Mr. and Mrs. E. J. Platt, Kendrick, and daughter Lois (Mrs. Richard Kuykendall) who attended from Coeur d'Alene, together with her husband and infant son; Mr. and Mrs. Ralph Tuttle (Mary), Lewiston; Mrs. Earl Harris (Frances) and son Robin Stackpole, Kendrick; Mr. and Mrs. John H. Platt and children of Pierce; Mr. and Mrs. Kenneth B. Platt, Barbara, Susan and Donald (recently returned from Cairo, Egypt).

Others attending included Mrs. Lyman Louvaas and son, Lewiston; Mr. and Mrs. Will Platt, Pomeroy; Mrs. Sadie McQueen, Lewiston; Mr. and Mrs. Ed Long, Kendrick; Mr. and Mrs. Bud Fey and children, Kendrick; Mr. and Mrs. John DeHaven, Kendrick; Mr. and Mrs. Will Herman of Genesee; Mrs. Ethel Hickman, Billings, Mont.; Mr. and Mrs. Ormand Hickman and children, Mr. and Mrs. John Hickman and children and Mr. and Mrs. Dave Hickman and children of Palouse; Mr. and Mrs. Roy Hanson, Lewiston; Will Hickman, Genesee; Mr. and Mrs. Fred Brazier, Genesee; Mr. and Mrs. Clarence Aherin, Genesee; Mr. and Mrs. Geo. Erickson, Genesee; Mr. and Mrs. Leon Danielson, Genesee; Mr. and Mrs. Alfred Hasfurther, Genesee; Miss Pauline Steltz and sister, Mrs. Caldwell, all of Genesee; Mr. and Mrs. Rudolph Nordby, Genesee; Mr. and Mrs. Oscar Nordby of Lewiston. The latter two are brothers of Julius Nordby, who was in Egypt with the Platts, and Mrs. Lela Jain of Lewiston.

Following a bountiful pot-luck dinner in the park the group gathered at the Kendrick Community church to view colored slides of Egypt and Palestine, taken by Kenneth Platt during his work and travels over the past two years. The Egyptian views included both aerial and ground pictures, illustrated the desert and irrigated lands of Egypt; water developments on the Nile; current land development projects of individual Egyptians and the Egyptian government to bring more land under irrigation; problems of Nile flood control; Egyptian farm practices, livestock and implements used; typical rural villages and city life; the pyramids, ancient temples, and other antiquities; glimpses of one of the palaces of the recently deposed King Farouk; and scenes from the Platt family home life in Cairo.

The scenes from Palestine, though limited to the Arab-held portions of that area, covered many sites of Biblical interest, such as the Mount of Olives, Garden of Gethsemane, Valley of Kidron, Garden of the Resurrection, Church of the Holy Sepulchre, the place where Christ was scourged before his trial by Pilate, the Pool of Bethesda, where Christ healed the paralytic, Solomon's Temple grounds, and the ancient walls of Jerusalem; the Church of the Nativity, and Shepherd's Field, in and near Bethlehem; the River Jordan; excavations of ancient Jericho, and the Mount of Temptation, and many others.

While in Cairo Platt worked as an advisor to the Government of Egypt on problems of natural resources development, covering principally land, water and mineral development. For this work he was assigned to the Department of Interior, under the technical aid phase of the U. S. Government's Foreign Aid program. Chief projects undertaken in the natural resources program were in water development, since all water now available is committed to existing irrigated lands or to irrigation projects now under development. One of these projects initiated a systematic survey and evaluation of the underground waters of Egypt, both in desert areas and in the Nile Valley and Delta. This survey is presently being led by three ground-water experts of the U. S. Geological Survey, aided by a selected group of Egyptian engineers who are expected to take over the job completely within two or three years. Training of the Egyptian technicians to carry on whatever work is started under the technical aid program is an integral part of each aid project, Platt stated.

Another water development project on which Platt worked was the aerial mapping of a proposed site for a new large reservoir on the Nile, immediately above the present Aswan Dam, some 600 miles south of Cairo. Aerial photography of the site was completed last year, and topographic maps, based on the photographs now are being produced by the U. S. Army Map Service. The finished maps will permit Egyptian engineers to accurately determine the best location for the dam, and how high to build it to provide the most storage at an economical cost. As now conceived the dam would rise about 450 feet from bedrock have a crest length of more than a mile, and impound nearly 130,000,000 acre feet of water. This would be more storage than the ten largest man-made reservoirs in the United States combined, Platt states. It would provide irrigation water for some 2,000,000

Mr. and Mrs. Warren Peters and daughter Louise have returned from Missouri and are living in the Scherer apartments.

Mr. and Mrs. Lude Groseclose and children and the C. V. Stroh family attended the "Winters' Family" picnic in the Spalding park Sunday. The picnic was in honor of Mr. and Mrs. Willie Winters and son David of Corning, Calif. Mr. Winters is a brother of Mrs. Groseclose and Mrs. Stroh.

Peggy Wunderlich, Orofino; Mrs. Ed. Groseclose, Arrow, and Mrs. Geo. Johnson were Sunday callers at the home of Mrs. Lura Nelson and Karen. Mrs. Susan Spray, Mrs. Fay Schetzle, Mrs. May McCall and E. O. McAllister were Sunday dinner guests of Mr. and Mrs. F. A. Wagner.

Linda Wunderlich, Orofino, was a Saturday over-night guest in the home of Linda Adams.

Mrs. Geo. Eggers of North Lewiston visited Friday and Saturday in the home of her son, Mr. and Mrs. Duane Eggers and her daughter, Mrs. Harry Adams and family. She also visited with her son, Gary, who is visiting here this summer.

## In Iron Lung With Polio

Word was received here last Thursday evening from Mr. and Mrs. Rex Blewett, who are visiting in Seattle, that their little eight-year-old son, Jay, was in a hospital there, ill with bulbar polio.

A later report Sunday evening revealed he had undergone emergency surgery and been placed in an iron lung. While he is in a critical condition hope was held for him as a report Monday evening said he had shown slight improvement.

Mr. and Mrs. Blewett and children were on vacation and were expected here this week. They had arrived in Seattle from California, where they had been visiting Mrs. Blewett's relatives, and it is believed Jay picked up the polio while there. At present they are staying with Mrs. Aaron Blewett in Seattle.

## WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

**Boy Scout Camping Trip**  
Early Saturday morning, Aug. 7, Archie Garner, Scoutmaster of the Juliaetta Boy Scouts group, took 12 of his Scouts up Dick's creek and camped out over-night. They also visited the Mason Butte Lookout.

They returned about noon Sunday — and Mr. Garner reports they were a tired bunch of boys.

**Guest Speaker**  
Elder C. Lester Bond, president of the Upper Columbia Conference of the Seventh Day Adventist church of Spokane, accompanied by his wife, delivered the morning message at the Juliaetta Seventh Day Adventist church.

**Parents Of Daughter**  
Thursday, Aug. 5, at 5:57 p. m., at the St. Joseph's hospital in Lewiston, Mr. and Mrs. Everett Farrington became the parents of a daughter. The young lady weighed in at 6 pounds and 6 ounces. She has been named Betty Jean. Mother and babe are doing nicely.

**"Rod" In Races**  
Rex Peters entered his "hot rod" (D-6) in the races Saturday night at Lewiston. We believe most all of Juliaetta turned out to see Rex "win." Better luck next time, Rex!

**D. V. B. S. School Closed**  
The Church of the Nazarene closed a good D. V. B. S. on Friday, Aug. 6. The program was at the church on Sunday morning at 10:00 o'clock, August 8th. Mrs. W. Bowen was superintendent of the school; Mrs. R. E. Bebout, Mrs. Lyle Pea, Beverly Bowen, Nadine Ostman, Mrs. Lloyd Knight, Mrs. Martin Shove, Geneva Groseclose, Dolores Gaskil, Mrs. Ben Weatherly and Mrs. W. Clark were the teachers — and many friends helped to make it a success.

One feature the children especially enjoyed with the King and Queen for a Day.

## SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

**Bids To Be Called For**  
At the last Board of Trustees meeting it was decided to call for bids for the gas and oil for the school buses for the coming year. Now that we have our own bus garage and can do our own servicing, we are in a position to save considerable on transportation costs. Practically all school districts in the Northwest operate their own school buses from their own bus garage, because it has been found to be the cheapest to the taxpayer, and to provide the most reliable service.

A call for bids has also been issued to move the Leland School building to Southwick. It is hoped to get the building moved and habitable before inclement weather sets in, as the present arrangements at Southwick are certainly inadequate.

**School Starts**  
School will open in all communities on September 1st. This is a few days earlier than we actually began last year, but not any earlier than was originally scheduled. We are not planning to have eleven months of school as some rumors stated. The sooner we get started in the fall means that we can finish that much earlier in the spring.

Registration for the Senior High school will be:  
Aug. 26, 10:00 a. m., Seniors  
Aug. 26, 1:00 p. m., Juniors.  
Aug. 27, 10:00 a. m., Sophomores.  
Aug. 27, 2:00 p. m., Freshmen.  
Junior High (7th and 8th) registration will be Aug. 27, at 10:00 a. m. The expected enrollment in all schools will be increased over last year, with an Elementary enrollment of 196; Junior High enrollment of 87, and 135 in the four years of High school.

**Faculty Complete**  
The faculty at the Elementary school in Juliaetta is the same as last year:  
Asa Calvert, Principal and sixth grade.  
Mrs. Pearl Nelson, fifth grade.  
Mrs. Crystal Gruell, fourth grade.  
Mrs

**Game Injuries On Highways**

Conservation officers continue to send in reports of accidents to game, particularly deer, along the highway. Some involve considerable damage to vehicles, and there is always a chance of serious injury to persons. But nearly all such accidents result in severe if not fatal injuries to the deer. Reports indicate a number of animals were left injured beside the road to continue as a traffic hazard, and to die a lingering death. Any animal hit should be reported immediately to the nearest conservation officer or to the local law enforcement authority, or state forestry officials, or forest rangers.

**Bigger, Better Fair Planned**

A bigger and better Latah County Fair is developing for September 16, 17 and 18. Additional festival events have been added. They include a colorful parade of twenty Idaho high school bands, an outstanding light horse show and public dances. The community talent show program will be expanded and more carnival attractions will be present. Eating concession space and allotments will be enlarged. The University of Idaho is adding to the week-end with a big student body rally and a football game with the University of Oregon. All of these events are in addition to the regular opening night 4-H Club style revue and the annual Junior Fat Livestock Sale. The regular fair will be restricted to the capacity of the 6th Street grounds in Moscow.

A very active response has been had from organizations throughout the county for both reservations. Undoubtedly all available space will be assigned well in advance of the fair dates. Exhibit requirements are much the same as previous years with the exception that the photograph department will be given more stress and the School Art and Hobby departments dropped.

Fair board members report that basic fair work is well advanced. Premium lists have been mailed to regular exhibitors and are available to others requesting them. Department and 4-H division superintendents have all been appointed. These people are willing and anxious to help others plan, prepare and enter exhibits at the fair.

Community leaders throughout the county are working together to make the 1954 Latah County Fair the best ever.

**Guests Hear Of Hawaiian Trip**

Twenty-three members of Canyon Chapter No. 63, O. E. S., were entertained Thursday afternoon by Mrs. Johanna Nelson at her home on Big Bear ridge. Mrs. Nelson gave an interesting travel talk on her recent cruise to the Hawaiian Islands.

She told in detail of the beautiful flowers and the leisurely life on the island, the delicious foods and colorful surroundings were vividly portrayed by Mrs. Nelson. She showed her guests many interesting things from her collection, including costumes, coral and lava samples, wood roses, flower leis and necklaces of seeds.

Delicious refreshments with Hawaiian punch were served, with the guests seated in the beautiful garden at the Nelson home.

**Rash Of Accidents**

Mrs. Paul Supple is being treated by Dr. Christensen for varicose veins and ulcers on one leg.

Walter Wolff, Leland, son of Mr. and Mrs. Leonard Wolff, received a deep gash below his right knee last Friday, while working on the combine, that necessitated seven stitches. In some way he slipped and fell against a piece of angle iron, and even though his knee suffered a deep gash, his pants were not torn!

Norman Fry lost the end of his middle finger on the right hand last Friday. Norman was "hooking" in a logging operation, and caught his finger in the hook.

The same day Alfred Pederson, who is employed at the Mead & Howard Lumber Co., Juliaetta, came too close to the saw he was working with, and cut the back of his right hand severely. The saw, cutting in to the bone, made an ugly wound. Eight stitches were taken in the repair job.

Dr. Christensen administered to all of the above injuries.

**Over-Grazing Can Kill Out Pasture Growth**

Now is the time to plan a "complete pasture program" that will give your dairy cattle an abundance of high quality, low cost feed at all times next year, says the Middle West Soil Improvement Committee. The Farmer who has an all-season supply of succulent forage, grass silage or hay is the farmer who will have bigger milk checks, lower feed costs and more overall profits, the committee points out. Earl Jones, Ohio State University extension agronomist, says that a well-rounded pasture plan should include: (1) Seeding well adapted leg-

**Duke Psychologist Offers Tips on Cigarette Control**

Do you have trouble leading a sane cigarette life?

If so, here's a common sense recipe by Dr. Gelolo McHugh, Duke University psychologist, that may help you "use cigarettes instead of being used by them." "People who have to have cigarettes need psychological help, not scare tactics such as threats of stomach ulcers or lung cancer," Dr. McHugh says. "Swearing off entirely is dangerous, because if you fail once, the next try will be that much harder. Limiting your cigarettes to eight or 10 a day is also risky, because it keeps the thought of smoking uppermost in your mind."

Here are Dr. McHugh's suggestions for cutting down:

1. Set aside an hour or two at the beginning of each day and don't smoke during that period no matter how much you want to. After that, smoke as much as you like for the rest of the day.
2. Don't make your daily no-smoking period longer than you can safely control. Over-ambition sometimes leads to failure.
3. Tell your friends what you're doing. Their interest will help you keep control over your no-smoking period.

"After following this plan for several weeks, smokers often find that their cigarette control is growing stronger," Dr. McHugh said. "Experiments show that smokers who set aside a no-smoking period do not have a tendency to smoke more than usual during the rest of the day to make up for lost time. "Most important of all, after two or three weeks of controlling part of the day, the smoker begins to find himself smoking a little less during the free period. This means that he is on the way to mastering cigarettes instead of being mastered by them." Dr. McHugh's suggestions are based on data collected over a period of five years and covering some 600 people.

**Chubb Crater 1,325 Ft. Deep, Largest Meteorite Crater**

A new champion's official measurements have been announced by the National Geographic Society.

The champion is Chubb Crater, established as the largest of all known meteorite craters in the world as the result of four weeks' research carried on last summer at the crater site in northern Quebec by Dr. Victor Ben Meen, Toronto geologist, and five scientist-associates.

The huge pockmark in the sub-arctic granite has a maximum depth of 1,325 feet, figured from the level of the highest point on its rim. The surface of the lake in the crater bowl is 500 feet below the rim's top level, and the maximum depth of the lake is 825 feet. Diameter of the rim averages 11,500 feet, and its circumference is 6.8 miles.

The depth is thus a few feet less and the rim diameter a few hundred feet more than indicated by preliminary figures dispatched from northern Quebec last August at the time field work was completed. Both dimensions, however, are more than twice the corresponding ones of Arizona's Meteor Crater, long officially recognized as the earth's largest scar known to be due to an earth-meteor collision.

The crater lake averages 9,100 feet in diameter. Its shoreline measures 5.4 miles around.

Dr. Meen, director of Toronto's Royal Ontario Museum of Geology, and Mineralogy, led an expedition to the crater site. With magnetometers, they defined a "magnetic anomaly"—a subsurface mass of iron outlined by its effect on the earth's magnetic force. Such an anomaly is attributed by scientists to meteorite fragments buried deep in the granite rim.

**Kinds of Mines**

Coal mines are of four kinds, three of them underground. If the mass of coal can be reached horizontally, say from the side of a hill on a level grade straight to the heart of the coal, it is called a Drift Mine. If you have to reach the coal at a perceptible angle, down or up, you have a Slope Mine. To get inside either of these mines, tunnels are made into the sides of the hills. The miners may go to the working areas by "man-trip" cars, which are trains of mine cars pulled by especially designed mine locomotives. If you must ride a cage (mining term for elevator) to reach the coal seam, you are in a Shaft Mine. If the coal lies near the surface of the earth and you can rip it out by huge electrically operated shovels and bulldozers, you have an Open Cut or Surface (sometimes called "Strip") Mine.

**Indian Legend**

Hiawatha, who is believed by many persons to have been a purely legendary character, really lived about 1450 A.D. The mighty Iroquois chieftain of the Onondago tribe of North American Indians was transformed by legend into a miraculous character with supernatural powers. About 400 years after his death, he was immortalized by Longfellow in "The Song of Hiawatha", an epic poem written after the style of the great Finnish Kalevala.

**Poultry Industry Expects To Boost Production**

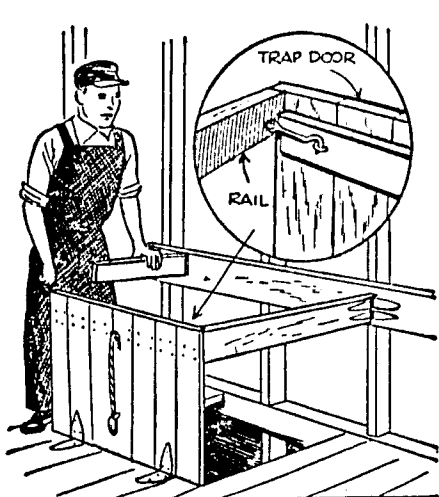

One of the nation's newest agricultural industries is expected to boost the value of poultry products beyond the four billion dollar mark this year.

This new industry—known as the broiler industry—is expected to account for almost half the chicken meat consumed in 1954, compared to an almost negligible amount 15 years ago. Poultry breeders have succeeded in developing chickens that eat less and still grow from two to three weeks faster to reach marketable size.

H. H. Alp, Director of Commodity Departments for the American Farm Bureau Federation, recently credited the success of the new industry to the nationwide Chicken-of-Tomorrow program sponsored since 1945 by A & P Food Stores.

Only a few years ago, according to U.S. Department of Agriculture reports, most of the chicken meat consumed in this country came from so-called "backyard flocks." Records of specialized broiler production in 1934 show that these chickens accounted for only 3 per cent of total consumption of 18.8 pounds of chicken per capita. In 1951 broilers are expected to account for 51 per cent of a per capita consumption of 29.7 pounds.

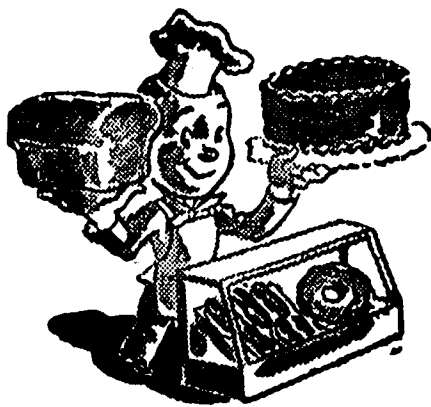

**Hayloft Door**

If you have a trap door in your barn loft, here is an idea that could possibly save you a dangerous fall. Fit it with guard-rails as shown above. The rails, which are hinged to the barn wall, swing outward and are hooked to the trap door when it is in the upright position. When the door is closed the rails are folded flush against the wall.

**Frozen Foods Show Huge Gain During Past Year**

A record percentage of farm produce is moving to consumers in frozen form. Figures compiled by A & P Food Stores, operator of 4,500 markets in 37 states with six million customers daily, show an overall increase in frozen food sales of 38.9 per cent. Leading this list of foods are citrus juice concentrates orange and grapefruit juice, a blend of the two, and lemon mix. Peas, and strawberries also increased.

**Controlled Storage Keeps Apples Prime**  
Regulated Atmosphere System Is Recommended

The answer to whether apples will taste as good in May as they do in September is "yes"—if they are apples from specially constructed controlled-atmosphere storage. That is the opinion of Prof. R.M. Smock, of Cornell university's agricultural experiment station. More than 100,000 bushels of apples are in 15 such storages in New York state, the first of their kind in the country. "When they come

It sort of puts the apple to sleep and it never awakens until brought out into store temperature.

out in April or May or June," Smock says, "the apples are expected to be of prime quality." Results of 10 years of experiments show that controlled-atmosphere storage will double the ordinary storage life of McIntosh, provided the rooms are properly constructed and operated. Good results also were obtained with Delicious and Northern Spy when the varieties were stored separately.

**Sweet Potatoes Make Valuable Farm Crop**

Many North Carolina farmers who have never planted sweet potatoes for market should be able to increase their farm income this year through the cultivation and sale of this root crop, according to H. M. Covington, extension horticulture specialist for the state college extension service. The U.S. department of agriculture has requested farmers to increase their production of sweet potatoes by 12 per cent. Even if such an increase is planted, production would still be about 10 per cent under the 1937-46 annual average.

Farmers who plan to increase their sweet potato acreage this year to have some for sale, should consider market outlets before planting, Covington states.

**Automatic Defroster**

A household device which automatically defrosts the refrigerator and is a fine electric clock has been put on the market. The defroster, the company stated, eliminates the housewife's periodic, usually messy defrosting chores which are so often put off until she finds time and a thick, insulating coat of frost has accumulated on the freezing unit. Automatically, the defroster turns the refrigerator off at 1 a.m. each day, and then, again automatically, switches it back on after the thin skin of frost is removed from the unit. During the shut-off periods, moisture created by the melting film is circulated through the box. With the defroster, which is a precision timing instrument, any electric refrigerator, old or new, easily can be made self-defrosting.

**Chlordane Is Effective Ant, Cockroach Killer**

The newest and most effective insecticide against cockroaches and certain kinds of ants is "chlordane." Two-per cent chlordane sprays, with oil or water base, now are for sale in many department, drug and hardware stores. These sprays leave an invisible, colorless film on surfaces to kill pests which come in contact with it.

UPRIGHT or CHEST-TYPE? See your I.E.E.L. appliance dealer for the complete story on what an electric freezer can do for your family.

"Believe me, I found out an Electric Home Freezer is more than just a box to store frozen foods in.

"It's an electric wonder that puts the most delicious, most nutritious fresh-frozen foods right at my fingertips whenever I need them to fill the ever-changing demands of my modern family.

"Into my freezer go all kinds of quick-frozen foods that I snap up at bargain prices when the season's right . . . Together with Tom's tasty fish and game, it all adds up to better eating all year round for my hungry crew.

"Best of all, I save a lot of time by freezing pastries and lunches for weeks in advance . . . and by making fewer shopping trips . . . and by not having to can so much.

"And say, never again do I have to worry about unexpected guests . . . In fact, so many wonderful things come out of my freezer, it's hard to understand how I got along without it."

Published Weekly by the Union Oil Service at Kendrick  
W. L. "Bill" Rogers, Editor

## HELLO, FOLKS:

Well, gol darn it, another week has rolled around and it's time to write copy for our "paper." We find it no trouble to get the "lighter side," but our products give us more "trouble," for we just don't have the space to describe all the fine Union Oil Co. items we have for sale — such as Royal Triton Motor Oil, Triton Motor Oil, Union 7600 Gasoline, Union 76 Gasoline, and Union Lubricants of every kind for every purpose, from a car through the oldest tractor — not to mention Union Diesel Fuel for that hard working tractor.

During a bus strike in a big city a good-looking young woman was trying to get a ride. A young man whose car was filled, seeing the trouble she was having, inquired: "Why don't you try waving a

white hankie?"  
The pretty young thing replied: "I'm just trying to get a ride. I don't want to surrender!"

Busy with harvest? Then let us wash, graze, change oil and generally care for your car! You'll be surprised at how little this care will cost.

Two Kentucky moonshine distillers were discussing their operations.

"When I take my stuff into town," one said, "I always drive slow — 'bout 20 miles an hour."

"Skeered o' the law?" jeered the other.

"Nope," retorted the first. "Ye gotta age the stuff, hain't ye?"

There is no substitute for good lubricants! We handle them.

Mr. and Mrs. Herman Johnson and Mrs. Julia Fleshman were Sunday dinner guests of Mr. and Mrs. Andy Dreps in Lewiston.

Danny Hunt of Coeur d'Alene is spending this week with his uncle and aunt, Mr. and Mrs. Herman Johnson, and his grandmother, Mrs. Julia Fleshman.

Mrs. Alan Medalen and children of Kendrick spent Monday with Mrs. Jesse Thornton.

The Leland 4-H Merry Stitches Club will meet Friday, Aug. 13, at the home of Judy and Lynn Koopp.

Leone Parks, who is attending the Lewiston Business College, spent the week-end here with her parents, Mr. and Mrs. Homer Parks.

#### Youth Council Meets

The Latah County Youth and Adult Council met at the Moscow Legion cabin on Monday, July 26. The highlight of the meeting was a talk given by Donald Ingle of Kendrick, and slides shown, which he took on his trip to Washington, D. C., in June.

Don was one of four delegates chosen from Idaho to attend the National 4-H Congress at Washington.

William Clyde of Moscow opened the meeting and Carol Hattan of Moscow presided, as president of the Youth Council.

The Youth Council decided to have a "Show Town," made up of 4-H members, at the fair this fall, for the purpose of maintaining order and protecting displays.

Other business discussed was a money making project at the fair. A committee was appointed for the further planning of the project.

On the committee are: Dan Blood of Palouse; Gary Nygard of Potlatch; Joan Linehan and Patsy Schleuter of Genesee; Carol Hattan and Lois Lindquist of Moscow. The money will be used for foreign Youth Exchange; the National 4-H Club center in Washington, D. C., and the Latah County Youth Council.

The meeting closed with refreshments being served by the Moscow 4-H Clubs.

#### Weather Warm And Dry

The weather this past week has been ideal for harvesting operations, which are getting more and more into full swing. No rain has fallen, and the temperatures have been pretty much in the high 80's, with Sunday the warmest day of the week, a nice round 92 degrees being recorded.

Bean raisers would welcome a good rain, as they say it would add growth to the plants as well as helping to fill the pods — but most farmers are quite well satisfied with the present weather.

More and more farmers are beginning harvesting operations, and the stream of grain trucks down Main street is increasing every day.

#### Big Bear Ridge 4-H Club

The Big Bear Ridge 4-H Club met at the home of Larry Galloway on August 9. There were seven members and seven visitors present.

Janeen Weber gave an interesting illustrated talk on "Types of Packages for the Freezer," and Richard Weber gave an illustrated talk on "How To Judge Sheep." Refreshments were served by the hostess, Mrs. Henry Galloway, at the close of the meeting.

The next meeting will be at the home of Eddie Galloway on August 23rd.
