It Was Really Labor Day

Despite the fact that most places of business in Kendrick were locked up for Labor Day — Monday — local farmers took the word at its "face" meaning and really labored. There was a steady stream of grain trucks to be seen coming and going on Kendrick's Main street, for no farmer will take even the tiniest bit of a gamble on the weather these days — especially since sunshine and wind are his biggest needs.

Quite a number of farmers in this section have rigged lights on their combines, and cut at night until the dew forces them to shut down. It is quite late in the morning before they can resume operations — so the night hours must be used in order to get in a really "full" day of harvest.

It is said that about two weeks more of good weather will be needed to complete the small grains crop — and considerably more if all the late beans can be harvested.

District No. 2 V. F. W.

Sunday, September 5th, officers of District No. 2, Veterans of Foreign Wars, held a Council of Administration meeting at the Fraternal Temple, Kendrick. Plans for the coming year were drawn up for all the Posts with the district.

Community service and membership were among the problems discussed.

Guests included Rev. and Mrs. F. C. Schmidt and Mr. and Mrs. Oscar Slind and family; Mr. and Mrs. Robert Lind, Elk River; Mr. and Mrs. Harold Goff, Asotin; Mr. and Mrs. John Deobald, Mr. and Mrs. Ben P. Cook and sons Ben B. and Gordon; Miss Donna Hansen and Miss Carol Dragseth, Kamiah; Mr. and Mrs. Tom Edwards and children, Mrs. Jennie Hund and Mrs. Con Anders, Lewiston, and Mr. and Mrs. Hugh Parker. The wedding rehearsal was held at the Kendrick Community church following the dinner.

COEUR D'ALENE COUPLE MEET DEATH IN BRADY GULCH

An elderly Coeur d'Alene couple were killed a mile above Kendrick Saturday morning when the car in which they were riding ran off the American ridge grade and plunged about 150 feet into the creekbed below. They were Mr. and Mrs. Edward C. Boone, the only occupants of the vehicle.

Russell Short, Latah county coroner, said Boone, 82, was thrown from the 1947 sedan as it plunged down the embankment, and was evidently instantly killed. Mrs. Boone, 77, lived about 35 minutes. Both sustained multiple injuries.

Kenneth DeYoung, State Highway Patrolman from Moscow, said after an investigation that he was unable to determine who was driving the car. He said the vehicle was descending the grade at about 11:08 a. m., when it suddenly veered to the left side of the road, then swung back to the right side and plunged over the embankment. DeYoung said the embankment was almost vertical at that point and the car did not touch it anywhere on the downward plunge. The sedan was demolished.

Mr. Boone's body was found about 50 feet from the wrecked car. Mrs. Boone was lying on the front seat with her legs extending out under the right front door, which was broken open by the impact. Dr. D. A. Christensen arrived on the scene before she died, at about 11:45.

In speaking of the accident Mr. Roberts said the car was moving at a high rate of speed (his estimate 50 miles an hour) as it approached, and he believes the swerve to the left was an attempt to "ditch" the car, but large rocks in the ditch evidently threw the vehicle back into the road and then it went over the embankment. He adds that an examination disclosed the emergency brake pulled back to the last notch, so it is very possible that the brakes had failed.

The accident was witnessed by Harold Roberts of American ridge, who was ascending the grade with a grain truck. He said he did not know what caused the accident. DeYoung said the Roberts truck was about 200 yards away when the car left the grade.

The bodies were taken to Short's Chapel at Moscow.

Short said, after conferring with Mr. Boone's relatives, that he apparently was the driver. He theorized that Mr. Boone was struck by a heart attack, and lost control of the car. He added that relatives said he suffered from a heart condition.

The Boone's were married about two and a half years ago at Coeur d'Alene, where Mr. Boone was a timber worker. Both had children by previous marriages.

Mrs. Dora Catherine Boone was born Oct. 4, 1876, in Anoka County, Minn. She was married at Moscow in 1896 to Daniel Lackner, who died in 1940. She was a member of the Church of God. Survivors include a daughter, Mrs. Marion Rathbun, Kendrick; three sons, Roy Lackner of Deer Park, Wash.; Kenneth Lackner of Turlock, Calif.; and J. R. Lackner of Montana; a brother, Ivan Bull of Colbert, Wash.; 18 grandchildren and 16 great-grandchildren.

Mr. Boone was born March 15, 1872, at Clark, Ill. and had lived in Idaho since 1917. He is survived by a daughter, Mrs. John Tutt of Beaumont, Calif.; a son, Jacob H. Boone of Seattle, and a sister, Agnes Williams of Moscow.

Joint funeral services will be conducted at the Church of God at Coeur d'Alene under the direction of Short's Chapel.

KATHLEEN CRAWFORD IS BRIDE OF BEN BURTON COOK

Wedding bells rang for another local young couple Sunday evening at 7:30, when Miss Kathleen Crawford, daughter of Mr. and Mrs. Walter Crawford, Leland, became the bride of Ben Burton Cook, son of Mr. and Mrs. Ben P. Cook, Kendrick, in a candlelight ceremony at the Kendrick Community church. A profusion of pink and white glads in big baskets against the altar, with tall candelabra and white tapers in the background, formed the setting for the nuptial rites.

Rev. F. C. Schmidt officiated at the impressive double ring ceremony as the young couple exchanged the sacred wedding vows.

Robert Lind, soloist, sang "Through The Years," "I Love You Truly" and "The Lord's Prayer," accompanied at the organ by Mrs. Oscar Slind, who also played the wedding marches and incidental music.

The bride, escorted and given in marriage by her father, was lovely in a floor-length gown of lace over satin, designed with a sweetheart neckline and standup collar, long tapered sleeves, a fitted bodice which was fastened with tiny buttons down the front and a full skirt. Her finger-tip veil of illusion net was edged in lace and fastened to a pearl and rhinestone tiara. Her bouquet was a white orchid with tiny pink rose buds. Her only jewelry was a jade necklace and carrying set, a gift of the groom. She wore the traditional blue garter, her veil was borrowed, and a penny in her shoe for good luck.

Miss Maxine Slind, maid of honor, was dressed in a floor length gown of pale orchid taffeta which was fashioned with bolero jacket and a flared skirt. She carried an arm bouquet of orchid glads and white mums. A head bandeau sprinkled with flowers completed her ensemble.

The bridesmaids, Donna Hansen and Carol Dragseth, both of Kamiah, wore gowns of pale blue and green taffeta respectively, and were identical in design to that of the maid of honor, as were their head bandeaus. They carried arm bouquets of glads and mums complementing their dresses. All three attendants had lived at Forney Hall with the bride while they attended the U. of I.

The candlelighters, Billy Blewett, a cousin of the groom, and Kevin Crawford, a brother of the bride, wore white jackets and dark trousers. Wee Kay Edwards, a cousin of the bride, was flower girl. Her dress was a miniature replica of the bridesmaids, in pink taffeta. Her little brother, Billy Edwards, in a white suit, was the ring bearer.

Gordon Cook, Longview, Wn., was his brother's attendant, and John Deobald and Harold Goff, brothers-in-law of the groom were ushers. All wore dark business suits with white carnation boutonnieres.

The bride's mother chose a navy crepe dress with white accessories and a white corsage for her daughter's wedding.

The groom's mother wore a French blue crepe afternoon dress, which was complimented with a pink rosebud corsage and pink accessories.

The bride chose for her going-away ensemble a brown wool suit with beige accessories and the orchid from her bridal bouquet.

A reception was held in the church parlors immediately following the ceremony for the 150 relatives and friends.

The pink and white theme was carried out at the reception with large baskets of glads and asters decorating the room. The bride's table, covered with a hand made lace cloth and centered with a beautiful wedding cake designed in the shape of a four-leaf clover was topped with a silver bell and miniature bride and groom, and was edged with tiny pink rosebuds. Tall white tapers in silver candelabra completed the setting. After the young couple had cut the first piece, the bride's aunt, Mrs. Kenneth Hund of the Dalles, Oregon, cut and served the cake. Mrs. Hugh Parks, another aunt, poured, and Mrs. Kenneth Hoduffer, aunt of the groom, served punch. Mrs. Tom Edwards and Marilyn ZumHofe assisted with the serving. Mrs. Sinclair Hund, Umatilla, Ore. an aunt of the bride, Mrs. Walter ZumHofe, DeAnn Mielke and Mrs. Elizabeth Anders, the latter another aunt of the bride, had charge of the gift table. Mrs. John Deobald, a sister of the groom, took care of the guest book.

The bride, a graduate of the Kendrick High school, attended the U. of I. for the past two years. The groom, also a graduate of Kendrick High school, attended W. S. C. before going into the Armed Services. He returned in August from a year's duty in Korea and will enter W. S. C. at Pullman this month, where they will reside.

The newlyweds left on a short trip to Portland and on to Medford, Ore., where they will call on the groom's grandmother, Mrs. Sarah Hoduffer.

All flower arrangements were done by Mrs. Elizabeth Anders, and the wedding cake was baked and decorated by the bride's mother.

Out-of-town guests included Mrs. Robert Emmett and Mr. and Mrs. John Hoduffer and daughter of Genevieve; Mr. and Mrs. Nye Blewett and family, Mr. and Mrs. Ralph White and family, Mrs. Charles Summers, Mrs. Minnie Clark, Mrs. John Summers, Mr. and Mrs. Tom Edwards and children, Mrs. Jennie Hund, Mrs. Con Anders, Mrs. Phil Schnabel and Mrs. Bob Rader, all of Lewiston; Mrs. Kenneth Hoduffer and son of Craigmont; Mr. and Mrs. Pierce Blewett and family and Mr. and Mrs. Harry Ruddell and family of

Brush Piling Season Ends

Henry Jones, local State Deputy Fire Warden said Tuesday morning that the brush piling season for this district ended Saturday evening — not for lack of brush, but because so many of the crew, including Jack Hammond, foreman, were leaving to attend school.

Mrs. C. H. Fry, who cooked for the crew this summer, prepared a "end o'season banquet" for them Friday evening.

As a token of appreciation the boys on the crew presented her with a wrist watch.

Mr. Jones says that because the brush season is over some may think the fire season also over — but such is not the case. A permit must be secured for any type of burning.

Pickup Injures H. S. Youth
Raymond Lockett, Kendrick High school student, and a son of Mrs. Clarence Thornton, received serious injuries Sunday evening when the pickup truck he was driving rolled on him.

He, with two of the Lohman boys from Southwick were driving an old pickup through a stubble field, when the steering wheel locked, causing the vehicle to "jackknife." As it rolled over, the Lockett boy was unfortunate enough to be thrown out and the machine came down on him. He received two fractures of the pelvis and a separation of the pubic bone.

Dr. Christensen took him to Lewiston for X-rays, and after their completion, brought him home, where he will have to stay in bed for about six weeks.

Extension Courses Widely Used
U. of I. — Nearly 800 Idaho residents were enrolled in University of Idaho extension courses throughout the state during the past year, according to the annual report released this week by Harlow H. Campbell, director of the educational field service.

Although most of the enrollees were secondary and elementary teachers, Campbell pointed out that many others were taking advantage of the extension program. Cited as an example was a geology course at St. Maries which drew 43 students, only two of whom were teachers.

Graduate classes were offered by the university in several new localities in the southeastern section of the state. These included courses at Pocatello, Idaho Falls, St. Anthony and Jerome.

The extension program enjoyed its largest enrollment during the fall semester, when 574 students enrolled for classes at 19 centers throughout the state. Twenty-seven courses were offered, including six at Boise, and two each at Nampa, Coeur d'Alene and Lewiston.

Due to the great demand of teachers, the majority of extension courses offered in the past have been in the fields of education and psychology. But Campbell added that the extension program is now being arranged to cover other fields as needs arise to serve laymen as well as teachers.

Really Sharp
Squire Tompkins is known as the sharpest bargainer and hardest shopper in town. The other day he tried his stuff on the new clerk in the hardware store.

"How long is this fixie extinguisher guaranteed?" he asked.

"Fifty years," came the prompt reply.

"Can't use it," said the old squire. "I'll not live that long."

"But you can take it with you when you go," replied the resourceful clerk.

SMALL GRAINS HARVEST IS DRAWING TO A CLOSE

Calls to our local warehouses, the Kendrick Rochdale Co., and the Lewiston Grain Growers brought almost identical answers from their managers, W. A. Watts and Ben Westendahl, respectively, both stating that in their opinion approximately 85 percent of the wheat in this area was now in the warehouses, although they are receiving a steady stream of the golden grain, and most of the remaining wheat is spring planting.

Oats and barley are also coming in by the hundreds of tons, with an estimate of 75 percent of these two now under roofs. The quality is said to be excellent, although the content of wild oats is running unusually high, this latter due to the cold, wet spring, which was just right for wild oat growth.

On barley yields of up to two tons per acre seem quite common; but no accurate reports on oats have come to light.

Wheat yields of from 55 to 63 bushels per acre have been reported, and the quality excellent.

On beans the picture is not quite so bright. Some farmers have been taking advantage of the cool, damp morning to cut beans until 9:00 or 10:00 o'clock, when it has been possible to start the grain combines. Some white beans have come in, and the quality is said to be excellent — but red beans have as yet failed to appear, with a week or ten days of good drying weather being estimated to bring them to ripeness.

Both warehousemen said they believed about two weeks would be needed to complete the small grain harvests — and from three weeks to a month to bring in the beans, as many farmers stated the cool, damp weather was keeping their beans in a "green condition."

Very little information is available on clover and grass seed — as harvesting operations on these items are just now beginning. However, indications point toward a good yield, provided the weather permits. Here, too, wild oats will probably be quite a problem — only time can tell.

SCHOOL NOTES

The schoolhouse doors in District No. 28 opened last Wednesday to a wall-bulging record enrollment of 388. Southwick elementary enrolled 38 students, with two more expected this week.

Juliaetta Elementary has a record enrollment of 161 in the six grades. The Second Grade room with 31 students, is particularly crowded.

The real record breaker is the Junior High, with 80 students enrolled in the two grades (7th and 8th).

The Senior High School has 109 enrolled at the present time, with at least twenty more students expected to enroll this week.

The Hot Lunch programs began operating the first day of school, and reports from all three kitchens indicated a very good attendance.

The sale of Savings Stamps will begin this week. Mrs. Wm. Johnson has charge of the plan, and will have an announcement for next week's paper.

Football Schedule Complete
The football schedule is now complete. It is as follows: September 24, Kendrick vs. Deary, at home.

Oct. 29 — Clearwater — away.
Oct. 3 — Weippe vs. Kendrick, a home game.

Oct. 13 — Cottonwood — away.
Oct. 22 — Craigmont — away.
Oct. 29 — Troy — a home game.
Nov. 5 — Pierce — away.

The three home games will be played at night, with the game time 7:30, with one exception — Weippe, which will start at 7:00.

Thirteen lettermen are on the line-up this year, with nine other prospects — which gives a pretty good picture. Coach Racicot says the team looks good and he's sure they will do as well and perhaps better than last year.

"Booster Band" To Visit

The "Booster Band" for the Latah County Fair and Fall Festival, September 16, 17 and 18, will make an appearance at Kendrick on Sept. 11, at 7:00 p. m., to stir up interest in the coming county-wide event. Fair officials announced this week.

Novelty and comedy selections will be presented by the "Booster Band" under the direction of A. B. Robinson, accordionist. Other band members and their instruments include Byron Henry on the bass fiddle; Jack Hayden, harmonica; Frosty Goodman, saxophone; Dwight Nye, trumpet; Jack Jackson, guitar; Walter Snodgrass, piano; Al Anderson, saxophone; Lee Comely, banjo uke and Clyde Culp on the drums.

The Booster Band plans to make a tour of the entire county during the days preceding the Fair. Stops will be made at Polatch, Troy, Genesee, Kendrick, Deary, Bovill and Palouse.

Officials of this year's Latah County Fair and Fall Festival are planning for the largest event in the history of county fairs. A talent show, exhibits, style review, football game, horse show, dances, junior fat livestock show and sale and a big parade are planned for the three-day affair.

All communities of the county are being requested by the Fair committee to take part in the talent show on the opening night, and in the Saturday parade.

Songs, dances, instrumental selections and other acts will be included in the talent show. The mayor and queen of all county communities are invited to ride in the parade.

All county residents are also reminded by fair officials to plan exhibits for the Fair. Flowers, crops, garden produce, fancy work, photographs and canned goods are but a few of the things that will be judged in open class and 4-H divisions at the Fair.

Parents Of Son
Mr. and Mrs. Wayne Arnett, Kendrick, are the parents of a 9 pound baby boy, born to them Friday morning at the Davidson Nursing Home. The little fellow, has been named "Stephen Wayne."
Mother and babe are doing nicely.

School Lunch Canning

The following report indicates a good many women in this community have given generously of their time and produce to insure high-grade, tasty meals for the children eating at the School Hot Lunch. Some idea may be gained from the lists below:

Sixty-two quarts peach jam have been prepared. The fruit was donated by Mrs. Lawrence Heimgartner, picked by Mrs. B. Smith, and processed by Karen Morss, Mrs. Bud Fey, Mrs. Roy Fey, Mrs. Earl Raiment and Mrs. E. M. White. Dewberries and blackberries left from last year in the locker were processed into jam by Mrs. White last week, with a yield of 16 quarts.

Fifty-five quarts of pickles have been processed this year by Mrs. Roy Craig and Mrs. E. M. White. They were donated by Mrs. Elmo Eldridge, Mrs. Wilbur Corkill and Mrs. E. A. Deobald.

Eighty-eight quarts of beet pickles donated by Gerald Ingle, Harold Siflow, Dr. D. A. Christensen, Homer Parks and Herman Meyer have been processed by Mrs. Ted Weyen, Mrs. W. H. Weyen, Mrs. Roy Craig, Mrs. Emil Siflow, Mrs. Harold Siflow, and Paige and Marcella Craig.

Twelve crates of strawberries purchased from Gus Nelson, yielding 133 quarts were frozen. Pickers were Mrs. Roy Scherer, Mrs. Ralph Scherer, Mrs. Ronald Jones, Mrs. Gerald Ingle, Mrs. Edgar Dammarell, Mrs. E. M. White, Dorothy Foster, Ruth Scherer and Carolyn Skaggs. Processors were Mrs. Lester Wallace, Mrs. Chester Vincent, Mrs. Gordon Peters, Mrs. Lloyd Craig, Mrs. Roy Craig, Mrs. Oral Craig, Mrs. Elmo Eldridge and Mrs. Ben P. Cook.

One hundred and eleven quarts of string beans were canned at the Lapwai cannery. They were donated by Mrs. Herman Meyer, Mrs. Nora Callison, Mrs. Eugene Taylor, Mrs. Cecil Gruell, Mrs. Geo. Dennler, and were processed by Mrs. Gordon Penland, Mrs. Eugene Taylor, Mrs. Cecil Gruell, Mrs. Harry Adams, Mrs. Dennis Racicot, Jane Racicot, Karen Nelson, Donna Mabbott, Mrs. Tom Long, Mrs. Oral Craig, Mrs. Bob Clemenhagen, Mrs. E. M. White, Lorraine Clemenhagen and David Eldridge.

One hundred and thirty-four chickens were purchased from Mrs. Vern Dunham and the following women turned out to prepare them for the locker: The Mesdames Wilbur Taret, Glen Wegner, Marvin Siflow, Jesse Heffel, Bud Fey, Stewart Wilson, Homer Parks, Roy Craig, Gil Erling, Gerald Ingle, Gordon Peters, Lloyd Craig, Verne Dunham, Ward Hixton, Elmo Eldridge, Bill Zimmerman, Reinhard Wilken, Billy Weyen, E. M. White, Irvin Draper, Walter Koopp, Herbert Schwarz, Harold Siflow, Emil Siflow, Cecil Gruell, Gordon Penland, Eugene Taylor, Henry Jones, Elaine Heffel, David Eldridge, Lynn and Judy Koopp and Mary Ann Glenn.

Prizes To School Children
Peter Peterson, president of the Skyline Drive association, this week announced a contest open to all students of grade and high schools in Latah and Benewah counties.

In cooperation with the Latah County Fair booth featuring Mary Minerva McCroskey Park, sponsored by the Skyline Drive association, Sept. 16, 17 and 18, Moscow seed and grain firms, appreciative of the necessity for conservation of Inland Empire (Palouse) watersheds, recreational areas, and the attraction of tourists with attendant revenue gain, are offering valuable prizes for the best theme or composition written by a grade or high school pupil on the topic: "Why Idaho Should Accept Mary Minerva McCroskey Park As A State Park?"

In submitting entries: Age of contestant should be listed in the upper right hand corner of the first page of theme. Entrants name, age, address, name of school and grade should be listed on a separate paper and enclosed in separate sealed envelope with theme. All entries must be postmarked not later than September 12. Address contest entries to: Theodore V. Smith, Secretary; The Skyline Drive Association; 408 N. Washington, Moscow, Idaho.

Kendrick Grange Meets
The regular Grange meeting was held Tuesday evening, with the final arrangements and plans for the booth at the Latah County Fair, Sept. 15, 16, and 17 completed.

Due to the unseasonable late harvest help is scarce, so it would be greatly appreciated if volunteers could be found to help set up the booth. Anyone interested please contact Mrs. Manning Onstott, Mrs. Jack Kuykendall or Mrs. Ed. Kent. Also, anyone with display entries please contact any one of the above ladies.

The date for Booster Night, which will also be open house, was set for Tuesday, Oct. 5, beginning with a pot-luck supper, followed by a short program and dance. There will also be an Idaho Products display, for which entries are also asked.

Refreshment committee is Mrs. Andy Cox and Mrs. Wilbur Corkill.

Holds Pianoforte Recital
Thursday evening, Sept. 2, at 8:00 o'clock Nancy Callison presented her piano pupils in a recital at her home. The program follows:

"Comin' Round the Mountain," a Folk tune, and "Theme" by Beethoven — Bobby and Nancy Callison.
"My Dancing Lesson" and "My Own Waltz," King — Judy Benschoter.
"Swaying Silver Birches" by Leslie, and "Patterns" by Thompson — Evelyn Andrews.

"Little Brown Rabbit" by Lemoine and "The Fairy Court" by Thompson — Andy Sue Cox.
Refreshments were served at the close of the program by the hostess and the mothers.

W. S. C. S. Thursday
The Kendrick W. S. C. S. will hold their first fall meeting Thursday afternoon at 2:00 in the church parlors. Mrs. Bob Nelson has charge of the program and will present the subject: "Jesus Concern for Cities."

Hostesses for the afternoon will be the Mesdames Nora Callison, Geo. Brocke, Jr., and Ed. Kent.
All members are urged to be present and a cordial invitation is extended to any who are interested.

AN EDITORIAL

It is seldom that an editorial appears in the columns of the Gazette, as we prefer to leave this type of newspaper work to the big daily papers and confine our columns to strictly local news — but when we saw in the Lewiston Tribune of Tuesday morning these figures on Idaho Traffic Deaths, we felt we should "speak our mind": Total to date this year, 146; total to date last year, 126. Lewiston area traffic deaths to date this year, 24; total to date last year, 18.

We have never agreed with some of the economies of Gov. Len Jordan, and chief of these was the cutting down on the number of State Highway Patrolmen. We do not have the first figures (when he took office) but we do know that now there are only 25 of these uniformed men for the 44 counties of Idaho — cutting it pretty thin, don't you think? We do!

If economies in state personnel were needed, there are many departments where it could have been done without appreciable loss in efficiency, and maybe even a gain noted — rather than in the one department where the difference in numbers might mean the difference between life and death for someone on the highway. A single drunken driver or speeder apprehended before he does his damage might mean a full and happy life for some playing child, or father, or mother, who could well die as the result of a law breakers deed.

It has long been our contention that these state guardians should be stationed according to area and geographic conditions rather than by counties. Let us presume that one were to be stationed in Kendrick. He would have the State Highway No. 42, half way to Lewiston, or 14 miles in a southern and western direction. He would have State Highway 42 to Deary, in a northerly direction for 17 miles; he would have State Highway No. 7 to the top of the Ahsanka grade, a distance of 20 miles. He would have various other county and highway district roads on which our school busses operate for about 7 miles in a westerly direction; 17 miles in a northerly and easterly direction and some 10 miles almost due north — an ample amount of highway and side roads, we would say, for any man to cover efficiently.

We can remember when there were enough of these public guardians that they were able to hold traffic inspections, and see to it that car and truck owners headlights, tail lights, windshield wipers, horns, etc., worked — not to mention proper licensing and display of license plates. Today these officers, spread so thin, have little if any time for these minor items, but which are all necessary to public highway safety.

Again, if a State Patrolman were stationed here, and road work did not take up all his time, this sort of added safety measures could again be put to use.

In the old "pre-economy" days the patrolmen often gave safety talks at our schools, pointing out highway dangers and pitfalls — we believe there was a sufficient number this would again be an excellent thing. Economy is fine — but why pick on the State Highway Police Department?

Duck Limits Changed
A word of explanation about the bag and possession limit of ducks for this year's hunting season — three of the nine-duck daily limit, and three of the 15-duck possession limit must be bonus species. The bonus species are pintails and wigglons. A hunter can shoot six, including any legal species, but if he elects to take the full nine, at least three must be of the bonus species.

Then, on his second hunting expedition, with his first day's bag still in possession, he can shoot six more ducks (any legal species), making up his full 15-duck possession limit, including at least three bonus ducks.

For the man that never shoots anything but mallards, this means a six-mallard bag limit, and a 12-mallard possession limit. The possession limit must represent at least two day's shooting — no hunter may lawfully take more than the bag limit in one day.

Swim Pool Closes For Season
The Area Living War Memorial Swimming Pool closed for the season last week. We understand the attendance was far below that of last year, due to the unusually cool, wet summer.

However, it was a successful season, in that many youngsters learned to swim for the first time, while others were able to perfect their strokes through advanced training. Figures are not available at this time for attendance or monetary receipts.

To Present Lecture
Mr. and Mrs. Leonard Showalter, missionaries from Bolivia, will show pictures and give a lecture on their work in that country at the Juliaetta Methodist church, Monday, Sept. 13th, at 8:00 o'clock. Everyone welcome.

Services To Be Resumed
Following the summer vacation regular services will be resumed at the Kendrick Community church, but with a slightly different hour, as follows: Sunday School at 9:30 a. m., Morning Worship at 10:30 a. m., and M. Y. F. at 7:00 p. m.

Evergreen Friendship Club
The Evergreen Friendship Club will hold its next meeting on Saturday, Sept. 18, at 1:30 p. m. in the home of Mrs. Barbara Chcate. Roll call will be answered with "A Good Use For Cheese."

A Son Is Born
Mr. and Mrs. Roy Emmett are the parents of a baby son, born to them on Saturday, September 4, at the Davidson Nursing Home, Kendrick. The little man weighed it at 7 pounds. Mother and babe are doing nicely.

Weather Still Holding
As we go to press (Wednesday) the sun is still shining and harvest weather holding. A condition that all hope will continue for a long time!

His Turn Finally Came
The captain wrote in the ship's log: "Mate was drunk today." After sobering up the mate went to the captain and pleaded with him to strike out the record. "It's the first time in my life I've been drunk," he pleaded, "and I promise never to do it again."
"In this log we write only the truth," said the captain.
The next day was the mate's turn to keep the log, and in it he wrote: "Captain was sober today."

Spats Are Coming Back!

U. of I. — Spats are coming back at the University of Idaho — but not cookskin coats.

The university's colorful marching band, which is a star attraction at football games, will join many other collegiate bands throughout the country this fall in wearing spats, according to an announcement by Prof. Hall M. Macklin, head of the

music department. Adding to the "new look uniforms" will be decorative epaulets and citation cords. The Sam Browne belt worn by musicians in past years has become a victim of time, and will be abandoned this fall.

With the opening home football game with the University of Oregon scheduled for Sept. 18 — two days before classes begin, the band will not make its 1954 debut until October 2nd. On that date the Vandals play host to San Jose State in the feature Homecoming game.

Terramycin Said Effective Against Pinworm Infection

Infection caused by the pinworms, the most common and widely distributed of all human parasites, can now be successfully treated with terramycin, according to a team of 6 American doctors conducting clinical trials in Haiti. Treating 61 cases of pinworm infection, the physicians found terramycin effective in all but two patients. Clinical trials with the wide-range antibiotic drug were undertaken because, said the doctors, "the usual treatment with gentian violet often does not eradicate the infection, and not infrequently the drug must be discontinued due to toxic reactions." Several of the patients who had taken gentian violet previously said they found terramycin "considerably more tolerable."

Pinworm infection is found throughout the world and in all ages. Public health experts estimate it affects 35 per cent or more of the general population. In southern states 50 to 60 per cent of all children have had it. Caused by a small white worm, its most disturbing symptom is itching. Often scratching brings about a secondary infection. Pinworm may interfere with eating and result in loss of weight and anemia. The disease usually infects the entire family.

In their clinical report, appearing in the current issue of the medical journal, "Antibiotics and Chemotherapy," the doctors point out that successful therapy depends upon simultaneous treatment of the whole family. In this respect one of gentian violet's disadvantages, they say, is that young children often cannot swallow the enteric-coated tablets.

Whenever possible, the medical team in Haiti examined whole families and treated them simultaneously with terramycin. Full cooperation was not always obtainable, but "despite inadequate dosage in a large number of cases," says the report, "in only 2 instances did treatment definitely fail by the fourth week after therapy was begun."

North Carolina Attacks Highway Safety Problems

A sound program to promote safety on the highways has been set in motion by the state of North Carolina. The appalling number of deaths and injuries resulting from motoring accidents in recent years has provoked this state to take action of a new and decisive type.

Since the first of July, applicants for driver's licenses and renewals have been required to have their eyesight tested on a complex instrument which measures 12 visual skills, including muscular balance, acuity at near and far distances, and depth perception. The instrument makes it impossible for drivers with poor vision to slip by, by memorizing the letters that they must read — a trick sometimes played with conventional charts. Those who fail the tests are advised to consult an eyesight specialist, and many of them will undoubtedly be enabled to pass by professional eye-care.

Good vision has long been recognized as a major factor in accident prevention, and thousands of hours have been spent in attempts to establish proper standards for motorists. But the results were always inconclusive, because too much of the element of personal opinion was involved. Under the new system, however, definite statistics on 1,300,000 drivers will be obtained by next July 1, and it will be possible to judge accurately which visual errors contribute most to accidents and which visual skills are most essential to highway safety.

A Comet's Weight

What is the weight of a comet? Weight is a measurement of the attraction of the Earth for a body on or near its surface, and as a comet moves far out in space, and is subjected to a varying attraction from the Earth and other planets, one should not speak of its "weight." Its mass, which is a measure of the amount of matter it contains, can only be determined roughly. It has been estimated that with Halley's comet the nucleus, which contains most of the material, has a mass of about a two-hundred-millionth of the Earth's mass. This would be about thirty million million tons. It has also been determined that the particles of which Halley's comet is made could not be held together by the gravitational attraction of a mass smaller than one twenty-fifth of the above figure. Most comets, however, are much smaller than Halley's, and have considerably smaller mass.

Schedule Is Wise

A regular painting schedule actually simplifies property protection. One wise farmer does a fourth of his buildings each year. In that way, each gets its necessary coat of protection every four years without fail, and each year's painting project can be fitted in as other outdoor work permits. While city dwellers do not have as many structures to safeguard, they are wise to look on painting as property-value insurance and to follow a regular schedule.

WIDE VARIETY OF POSTAL CRIMES, 99% CONVICTED

Washington, D. C. — Postmaster General Arthur E. Summerfield reported this week that mail fraud schemes are costing the American public over \$10,000,000 a year.

In discussing the record of postal crimes which resulted in 5,977 arrests in the year 1953, Mr. Summerfield said those most frequent were burglaries of post offices, holdups of mail custodians, and theft of mail.

Other frequently occurring crimes against the postal laws, according to him, included the wilful destruction of rural mail boxes, the mailing of fraudulent, lottery, and obscene matter and the raising and forgery of money orders and Postal Savings certificates.

One hundred and twelve postmasters and postal workers, a minute fraction of the more than one half million postal employees, handling a gross money turnover of over \$21-billion in 1953, were arrested during the year for embezzlement of funds.

An investigation of postal crimes uses the time of about 200 of the 900 men in the inspection service who serve under the bureau of the Chief Inspector in Washington, D. C. One hundred additional inspectors are now being added to meet the ever-increasing volume of work and to afford some relief to the constantly long hours of continuous service duty by the present staff.

Records of the inspectors to date show 99 percent of all those arrested have been convicted, Mr. Summerfield noted.

The Inspection Service, he pointed out, goes back to the days of our first Postmaster General in colonial times, Benjamin Franklin; is the oldest of the Federal government law enforcement arms, and is charged with protecting the mail and investigating all postal crimes.

While the Inspection Service is constantly on the trail of mail swindlers and other violating postal law, Mr. Summerfield cautioned that the continuing tremendous losses through mail frauds — aggregating \$10 millions yearly — calls for more vigilance by the public in its own self-interest.

An outstanding example of mail fraud in 1953 victimized 900 people, who were swindled out of \$1,000,000 on the promise of an operator they would get tax-delinquent land. He had no such land.

Another example was that of a lawyer who promised investors a return of 20 percent. He collected \$500,000 in six months from 100 victims and absconded.

A matrimonial swindler, posing as a rich Texan, married well-to-do women through lonely hearts clubs, lived with them until he got their money, and left. His ill-gotten gains totalled \$50,000.

Vicious medical frauds claimed many victims with promises of home cures for cancer, tuberculosis and the like. One operator took in \$1,000 a day for 100 days on worthless pills. Among nine arrested in 1953 for

violation of the laws prohibiting the mailing of poison and explosives was a socially prominent lady who mailed boxes of arsenic poisoned candy to her Sunday School class, making 21 persons violently ill.

After his offer of marriage was rejected, a jilted suitor mailed a home-made bomb to a young lady in Boston. The bomb was built so that a .22 caliber pistol would discharge when the package was opened, setting off a mixture of gunpowder and shells. The gun went off, sending a bullet into the young lady's arm, but she escaped death when the lethal mixture failed to explode.

The home mail box thief, often preying on the aged and dependents receiving regular government or private checks through the mail, is the most frequent violator of postal law and probably the most calloused.

Postal inspectors caught 3,851 persons for stealing mail in 1953, including 2,544 for pilfering home mail boxes.

Even when the victim recovers the stolen funds there is often delay and hardships involved in such thefts, Mr.

Summerfield noted. Some other statistics on arrests include: Burglary, 441; holdup, 19; damage to mail receptacles, 186; fraud and lottery, 227; mailing of obscene, scurrilous or defamatory material, 166; impersonating postal personnel, 7; extortion, 19.

Some other unusual cases included that of a dangerous armed criminal who went on a four-day spree with five burglaries, two auto thefts and attempted murder. He made his mistake when he robbed the Farmersville, Texas, postoffice. Postal inspectors took him at gunpoint.

A woman mail box thief averaged \$100 daily for five months stealing checks from apartment house boxes before inspectors caught her. Another hallbox thief stole electric bills from mail boxes. He confronted the housewives and told them their light bills were overdue and threatened to turn off the electricity unless they paid up. He collected \$1,500 before he was caught.

"I'm freezing up a batch of leisure hours—and better eating at less cost for my family"

"Believe me, I found out an Electric Home Freezer is more than just a box to store frozen foods in.

"It's an electric wonder that puts the most delicious, most nutritious fresh-frozen foods right at my fingertips whenever I need them to fill the ever-changing demands of my modern family.

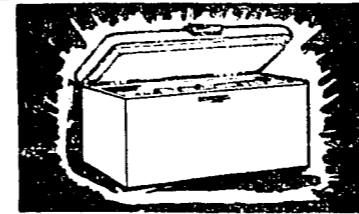

"Into my freezer go all kinds of quick-frozen foods that I snap up at bargain prices when the season's right... Together with Tom's tasty fish and game, it all adds up to better eating all year round for my hungry crew.

"Best of all, I save a lot of time by freezing pastries and lunches for weeks in advance... and by making fewer shopping trips... and by not having to can so much.

"And say, never again do I have to worry about unexpected guests... In fact, so many wonderful things come out of my freezer, it's hard to understand how I got along without it."

Man-Made Light Moves Ahead By New Inventions

There is nothing to show that our
anthropoid ancestors used candles to
find their way around among the
trees after dark, but there is ample
evidence that the hairy cave man
used fire to scare away prowling
beasts.

Man-made illumination has come
a long way since those remote days.
By far the greatest strides have
come in the past 75 years—greater
progress than through all the thou-
sands of years before. From the
cave man's torch to electric light,
the flame was the only source
of illumination.

Within recent weeks, a new
source of artificial light has been
announced wherein electricity ap-
pears to serve merely as a match
to light a wick. Powdered phosphor
on a sheet of glass emits a mellow
glow of its own under electric im-
pulse. Your house of tomorrow may
have these panels installed in walls
and ceilings. It is claimed the cost
of maintenance will be so low that
the only need for switches will be
to turn lights off when you want
darkness. Clockfaces, stair risers
and other incidentals will be per-
manently connected.

With this revolutionary develop-
ment in man-made light comes won-
der as to how it all started. Archae-
ologists have concluded among the
earliest to whom the cave man
passed his flaming torch were the
ancient dwellers of Mesopotamia
where lamps, fashioned from terra
cotta, were found to have been
used during 7000-8000 B.C. Copper
and bronze lamps were used by the
Persians and Egyptians in 2700
B.C. Homer described a "Festival
of Lamps" in 950 B.C. The Romans
were using lanterns a century be-
fore Christ.

The candlesticks of Biblical times
and the lamps of the vestal virgins
used animal and vegetable oils.
Pliny mentioned the use of a min-
eral oil for lamps in 50 A.D. The
Phoenicians appear to have been
the first to use wax for candles in
400 A.D.

Atom Disaster Would Demand Many Trained 'Mass Feeders'

"In case of enemy attack or atom
bombing, the disaster would de-
mand more trained persons for
mass feeding than we can hope to
have today," two Red Cross work-
ers who conducted an emergency
feeding program during the flood
disaster in Kansas City last July,
warn in an issue of the Journal of
Home Economics.

"Disaster feeding at best is a
hodgepodge affair because there are
never enough experienced people
and survivors to do an ideal job,"
Jane Griswold, assistant national
director of the American Red Cross
Food and Nutrition Service, and
Kathleen Kienstra, director of the
Midwestern Area division of that
service, explain in an article point-
ing out that experience in the flood
disaster indicates what the situa-
tion would be in event of enemy
attack. While urging the home
economists to be ready with their
professional help, the authors pay
great tribute to the work of the
community organizations who car-
ried out the feeding program dur-
ing the Kansas flood.

"It is encouraging to see the
common purpose that draws people
together when disaster comes
to a community. The simple, basic,
practical things that people can do
for each other helps to ease the im-
pact of catastrophe and turn the
mind from despair," the authors
conclude in the article, "Red Cross
Fights Flood Disaster."

Treating Addicts

Law enforcement, education of
the public and treatment of the in-
dividual are the three most im-
portant factors in combating the
alarmingly increasing dope addic-
tion among teen-agers, according
to an article in Today's Health,
published by the American Med-
ical Association. "Regardless of
where the upsurge of addiction
started, it has jumped racial, eco-
nomic and social boundaries," said
the author of the article, Dr. Vic-
tor H. Vogel, medical officer in
charge of the U. S. Public Health
Service Hospital at Lexington, Ky.
The hospital is one of the two fed-
erally operated for the treatment
of drug addicts. Dr. Vogel reported
that admissions at the two federal
hospitals for drug addicts rose
from 2,700 in 1949 to 4,500 in 1950,
with an estimated rate of 4,200 in
1951. "An alarming part of this
increase was due to the admission
of addicts under 21, which jumped
from 22 in 1947 to 440 in 1950—
an increase of 2,000 per cent," Dr.
Vogel stressed.

Early Inventors

Among the early American in-
ventors who founded great indus-
tries, few struggled against adver-
sity more desperately than Gail
Borden (1801-1875), who was the
first to obtain a patent (August 19,
1856) on a process for condensing
milk. His first invention was a meat
biscuit for which he was granted a
patent at the International Ex-
position of London in 1851. Return-
ing from London he was anguished
by the death of infants on the ship
who had been fed milk from sick
cows. As a result of this experi-
ence, he spent years of experimen-
tation to invent a process that
would preserve milk under whol-
some conditions.

Checking Stations To Operate
Idaho Fish and Game Department
checking stations began operating
with the opening of the moose, moun-
tain goat and bighorn sheep special
hunts on Sept. 5. From now until the
middle of October, each week will
see additional check stations installed
over the state to serve a number of
different purposes. Then, as the
hunts close, the number will dwindle.
At the peak there will probably
be about three dozen over the state.
They are set up at strategic points
to gather information on the status
of the game population during the
hunting season and to collect other
information on the harvest. Your co-
operation will be appreciated.

Hunters on special hunts are requir-
ed to report at check stations each
time they enter or leave the area,
but cooperation at the general hunt
check stations is largely voluntary.
This year the department will es-
pecially appreciate your help in stop-

ping to report on your way to and
from hunting areas. The check sta-
tion attendant will want to know how
many hunters are in the area covered
by his station, and on their return
what game they bagged, and how
long they hunted. Also, during the
hunt, game division biologists will
gather more detailed information on
selected segments of certain hunt
areas.

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, FOLKS:

Well, here it is the second week in September, and still lots of harvesting to be done — so it's more important than ever that your equipment operate at peak capacity. It cannot do this if not properly lubricated — and lubrication is our specialty. There's a Union Lubricant for every need — from Royal Triton for that motor to track roller lubricant for your "crawler." So come in and talk over that problem, or, better yet, give us a ring, describe your needs and we'll deliver it to you! Just say 1251 to the phone operator.

Young Man: "Have you a book called 'Man, the World's Ruler,' please?"
Long Married Librarian: "I should think you might find it in the fiction department, sir."

Want to "home polish your car?" If so we have almost all the popular brands of waxes and cleaners. Come in and get them.

Wag: "I hear that you've signed up as skipper on the good ship matrimony."
Tired Prof: "No, my wife is the skipper. I'm the second mate! I married a widow!"

Chill mornings remind us that fall is at hand, and a little fire is a necessity. Just Phone 1251 and we'll come out and fill that tank with Union Fuel Oil or Union Diesel, whichever fits your needs — you'll find it gives a clean, hot flame — and the cost per "heat unit" very low. If you haven't used it try it, won't you?

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Miss Lucille Schmieder of New Jersey was a guest in the home of Mr. and Mrs. August Brammer and family over the week-end. Miss Schmieder, Mildred Brammer and Marlene Wilken, the latter of Kendrick, left Monday for Parkland, Wash., where Miss Schmieder is a member of the Pacific Lutheran College faculty. Marlene is a senior and Mildred a junior in the same school.

Mr. and Mrs. Shaffer and son and two grandchildren from Ohio spent several days of last week with Mr. and Mrs. Herman Meyer and family. Mr. and Mrs. Shaffer are missionaries in India, having served there for 32 years. They are stationed about 16 miles from the place where Miss Dorothy Meyer is a missionary, and they visited with her frequently.

Mrs. Hattie Sparger, Mrs. Marian Sanford, Mr. and Mrs. Greg Sanford and Casey and Mike Adams, all of Clarkston, were Tuesday dinner guests of Mr. and Mrs. Ted Weyen. Mrs. Walter Kkoopp, Mrs. Kenneth Wilken and Mrs. Ernest Barmmer were hostesses at the September meeting of the Ladies Aid, in the hall on Wednesday.

Mr. and Mrs. Herbert Schwarz entertained at dinner Sunday for Mr. and Mrs. Loren Westerman and family of Spokane; Mrs. G. F. Criddlebaugh and daughter Shirley of the Lewiston Orchards; Mrs. Walter Denier and daughter Judy of Fix ridge; Mrs. John Schwarz, Mrs. Ida Stoneburner, Helen Mielke, Emma Hartung, Ernest and Lawrence Schwarz, Kenneth Wilken and Ted Mielke.

Mr. and Mrs. Otto Kruger, Rev. and Mrs. Theo Meske and Mrs. Geo. Wilken and daughter Marlene, the latter of Kendrick, were Sunday visitors in the home of Mr. and Mrs. August Brammer.

Helen Mielke, Mrs. Fred Newman, Emma Hartung and Mrs. Ida Stoneburner attended a shower honoring Mrs. George Allen at the Teakean Grange Friday evening.

Mrs. C. H. Fry of Kendrick is spending this week in the home of her son-in-law and daughter, Mr. and Mrs. Glen Wegner and family.

Mrs. Russell Rodgers spent a few days of last week with her niece, Mrs. August Brammer and family.

ALL THAT EXTRA WHY COMFORT AND WEAR? THAT'S EASY TO FIGURE OUT!

EXTRA WEAR because BOTH soles and uppers are of inner-shell horsehide. The center layer is the shell. The grain runs vertical—the wear is on the end of the fibers—like the wood in a butcher's meat block.

EXTRA COMFORT because Wolverine's exclusive triple-tanning process tans this super-tough 3-ply hide so it is buckskin-soft—dries out soft—yet retains all its remarkable strength and wear.

WOLVERINE SHELL HORSEHIDES

ONLY Wolverine SHELL Horsehides have this stronger, tougher inner-shell leather in BOTH soles and uppers—this 3-ply leather that wears and wears—that costs less to wear month by month on any work shoe job. No other work shoes in the world of leather tanned like Wolverine Shell Horsehides. Come in and try on a pair... no obligation.
