## INTERESTING NEWS NOTES FROM THE SOUTHWICK AREA

**Homemakers Club To Meet**  
The Southwick Homemakers Club will meet on Thursday at the home of Agatha Perkins, with Ruth Armittage as co-hostess. If plans go through expected guests are Mrs. Homer Lipps and Mrs. Bernadine Tudder, both of Lewiston. Everyone plan to come — if possible.

**Substitute Pastor**  
On Sunday, May 29th, during the absence of Rev. Martin Swinney from the Southwick Community church, Rev. Wells of Lewiston will bring the message, both morning and evening.

**Rally Is Scheduled**  
On June 1, at the Community Church in Southwick there will be a Missionary and Evangelistic rally, held by Rev. R. E. Strickland and W. F. Brown. Rev. Strickland is a missionary, and it will be well worth everyone's time to come out and hear the message he has to bring.

**Summer Bible School**  
Summer Bible School will be held at the Community church here from June 13th through the 26th. All children in the community are welcome to attend.

**General Short Items**  
Rolland Cuddy of Lewiston spent Sunday at the home of his parents, Mr. and Mrs. C. A. Cuddy.

On Friday evening Mr. and Mrs. Dave Cuddy and son of Clarkston spent the evening at the home of Mr. and Mrs. C. A. Cuddy.

Mr. and Mrs. Verlin Benjamin and daughter spent Sunday at the home of her parents, Mr. and Mrs. A. F. Johnson, at Gold Hill.

Mr. and Mrs. Leonard Cole and daughter of Lewiston spent the weekend in the home of Mr. and Mrs. C. A. Cuddy.

Rev. and Mrs. Martin Swinney and daughter Myrtle left on Monday for California on a vacation. They plan to visit their son-in-law and daughter, Mr. and Mrs. Carl Morris at Cucamonga, Calif., then will go on to El Monte, Calif., where another daughter, Elnora, is attending college. She will accompany them home to spend the summer. They plan to be away about two weeks.

Mrs. Winifred Kluckholm was a Sunday dinner guest in the home of Mr. and Mrs. Bill Jennings. That afternoon all drove to Dent to watch the big log drive.

Sunday afternoon guests in the home of Mr. and Mrs. Abner Cowger were Mr. and Mrs. Don Candler and children, and Mr. and Mrs. Heinrich and three children, all of Bovill and Mary Lohman. Late afternoon callers were Mr. and Mrs. Bill Jennings and Mrs. Winifred Kluckholm.

Services are pending at the Brown-Wann Funeral Home. — Lewiston Tribune.

**Engagement Is Told**  
Mr. and Mrs. Otto Schupfer, Juliaetta, announced the engagement last week of their daughter, Maribel Mae, to Kenneth Severin Samuelson, son of Mr. and Mrs. David Samuelson, Shelly, Idaho.

Miss Schupfer, a graduate of the former Juliaetta High School and the University of Idaho, is a reporter on The Daily Idahoian in Moscow.

Mr. Samuelson is a first semester junior at the University, majoring in agriculture. He previously served three years in the U. S. Air Force and attended Gustavus Adolphus College at St. Peter, Minn.

A late September wedding at Moscow is planned. She will continue her work on the newspaper while he completes his studies for a degree.

An "EXTRA" edition of The Daily Idahoian just for relatives and friends announced the engagement of the couple.

**Boy Scout Court of Honor**  
A Boy Scout Court of Honor for all Scouts in this area will be held Wednesday, June 1, at 7:30 p. m., in the Lewiston Senior High school gymnasium.

The Kendrick and Juliaetta Boy Scouts and parents are urged to be present — as well as all others who might be interested.

## Install New Wide Screen

The Kendrick Theatre completed work on and put into use last Saturday evening one of the new wide screens — thus making this little theater one of the most modern and up to date in the entire country.

This past fall and spring remodeling work in preparation for the screen installation was completed — and Saturday evening put to use.

The screen had been ordered for some time, and had been shipped out of Los Angeles, but was caught in the truck drivers' strike now on in the 11 western states. It was finally located at Spokane, and Herman Schupfer drove up and got it.

## BENJAMIN F. BAKER, AREA PIONEER, PASSES SUNDAY

Benjamin F. Baker, a life-long resident of the Southwick and Cedar Ridge areas, died of a heart attack at his home near Southwick at 6:00 o'clock Sunday evening. He was 71 years of age.

Mr. Baker was born on a ranch near Southwick on June 1, 1883, just before the town of Southwick was established, and except for a short time spent in Canada, he had spent all his adult life on ranches in this area.

He was married April 10, 1904, at Southwick, to Maude Douglas. She passed away in 1911, and he was married March 10, 1937, to Anna Kimbley.

Surviving, besides his wife, are two sons, Harry Baker of Brentwood, Calif., and Russell Baker of Pierce, Ida.; a daughter, Mrs. Gertrude Foudray of Concord, Calif.; three brothers, Albert Baker of Orofino, George Baker of Coos Bay, Ore., and Walter Baker, who resides in Canada, and three sisters, Mrs. Ralph Wright of Lewiston, Mrs. Mary Kauble of Crescent City, Calif., and Mrs. Lottie Wright of Portland, Ore.

Funeral services were held at 2:00 p. m. Wednesday, at the Community Church in Southwick, with the Rev. E. C. Schmidt of Kendrick officiating. Interment was in the Kendrick cemetery.

Mr. Baker was a friendly man, he having a smile and cheery word for everyone. He was always ready to help out friend or neighbor, and thus endeared himself to all.

**John Meland Dies At Coeur d'Alene**  
John Meland, 93, who came to the Grangeville area more than 65 years ago, from Norway, died at 11:15 p. m., Monday, May 23, at Coeur d'Alene Homes, Coeur d'Alene. Death was attributed to a heart ailment.

He was born Sept. 22, 1861, in Norway, coming to the Grangeville area in 1889. In 1895 he moved to Spokane, and in 1940 to the Southwick area. He worked on farms most of his life. In 1954 he moved to Lewiston where he lived with a nephew. He had been at the Lutheran home for about two months.

Mr. Meland is survived by three nephews, I. J. Longteig, Lewiston; Hans Longteig, Tacoma, and Knute Longteig, Portland; one niece, Mrs. Harvey Bales, Lewiston.

Services are pending at the Brown-Wann Funeral Home. — Lewiston Tribune.

## WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

(Delayed)  
There seem to be quite a few new homes going up in the Juliaetta area, for example:

Mr. and Mrs. Otto Sliflow of Cameron have purchased a lot from Chas. Hicks, and are busy building a new home.

Mr. and Mrs. Chas. Hicks have purchased the former Ed. Grant home and are now remodeling it. Mrs. Grant is moving to Weippe to make her home.

Mr. and Mrs. R. E. Woody are building a new home.

Mr. and Mrs. George Sinclair and family moved this week into the former Susan Groseloc property, which they recently purchased. Mr. and Mrs. Tom Groseloc and children moved into the Roberts house, which was vacated by the Sinclairs.

Roy Whittum is making very good progress on the remodeling of his garage and service station. The new pumps are now in place.

Mr. and Mrs. Ronald Jones are very busy with remodeling and renovating on the former Juliaetta Electric Supply building, which they purchased from E. A. Kirkpatrick some weeks ago. They will operate a restaurant and confectionery in the former store room, and live in the adjoining apartment.

**General Items**  
Mrs. A. Whitted and daughter Rachel of Kelso, Wash., visited in the Lloyd Eckman home on Monday.

Thursday afternoon callers in the R. E. Woody home were Mrs. Verlin Johnson and Lou Backes of Spokane. Mrs. Johnson is Mrs. Woody's sister.

Mrs. Jesse Walker of Myrtle was a Monday caller at the R. E. Woody home.

Mr. and Mrs. Werner Brammer and daughters were Sunday guests of his parents, Mr. and Mrs. Henry Bammer.

## Working On Swimming Pool

E. M. White, village custodian, assisted by Ed. Nelson, is busy these days getting the local memorial pool in shape for use this summer. A good deal of work had to be done, as some pipes were badly corroded, and had to be replaced; work done on the pumps; not to mention clearing, scrubbing, etc.

However, anyone taking a dip these days would need a "fur lined" swimming suit. For when a fire is needed—who wants to go swimming? But then, summer may come. Who knows?

## CHARLES J. BOWER, BIG BEAR RIDGE PIONEER, PASSES ON

Charles J. Bower, 81, a farmer on Big Bear ridge, died at 9:00 p. m. Tuesday at the Gritman Memorial hospital in Moscow, where he was taken following a heart attack. He apparently had been in good health until his hospitalization 10 days before.

Mr. Bower was born Nov. 24, 1873, in Pennsylvania, and came to Big Bear ridge as a young man. He had made his home there ever since. On April 14, 1917, he was united in marriage to Anna Galloway, at St. Maries, Idaho. She survives.

Mr. Bower is also survived by one son, Charles A. Bower, at the family home, and three brothers, W. A. Bower, Avon, Ida.; Frank Bower of Craig, Colo., and John Bower, Hayden, Colorado.

Funeral services were conducted Saturday at 2:00 p. m., at Short's Funeral Chapel in Moscow. Burial was in Wild Rose cemetery on Big Bear ridge.

Mr. Bower was one of the best known residents of that ridge, and had seen it grow from a few homesteads, to the finely developed section it now is. His passing will be keenly regretted by all.

## Family Fellowship Dinner

The family fellowship supper Sunday evening in the Community Church was a capacity house, with every available table, chair and piece of silverware being pressed into service, as 145 parents and children sat down to eat together.

Following dinner a short program was enjoyed in which Dianna Weeks and Janet Eldridge gave piano solos; little Louise Hoffman, tap danced, and two readings were given, one by Mrs. Geo. Merrick, the other by Mrs. Floyd Millard.

Mrs. Bob Magnuson, M. C., called attention to the various fields of service in which different people and groups are aiding the local church program. Tokens of appreciation were given the Sunday School teachers; Mrs. H. C. Schupfer for 35 years as church organist (she modestly said she started as Sunday School and Epworth League pianist and two years later graduated to church pianist); members of the choir, church board, the pastor and his wife were all cited for their faithfulness. Mrs. C. H. Goan was awarded a Life Membership pin from the W. S. C. S., recognizing her as the oldest member in the women's society, dating back to the old "Ladies Aid" organization.

Mrs. Raleigh Albright was presented a corsage, complimenting her as Idaho's Mother of 1955, by the Bible class, in which she is a teacher.

The committee in charge of arrangements were the Messdames Chas. Easterbrook; Geo. Brocke, Jr., and Robert Magnuson.

## Starling Invades Kendrick

Bird lovers will be sorry to hear that the Starling has found our peaceful little valley here in Kendrick.

Mrs. Marvin Long, whose hobby is "birds," saw one in her garden last week, and she said, "I was shocked." For they are a destructive, dirty bird. They aren't even pretty, looking something like a blackbird, only their tail and the end of body are brown, with a creamy colored beak.

It's no secret that they are hated, not only by members of their feathered families for their ruthless methods of robbing feeding stations and the nests of other birds, but also by man.

A story in the Portland Oregonian recently told how pedestrians carried umbrellas to protect their clothes from these pests, so thick were they that no one was really safe from being "splattered" as he walked down the street.

They have been a pest and menace in the east for some time and have been seen in the Palouse area in flocks, but until recently have not been seen here. It was also reported some were seen on the ridge near the Ed Gertje ranch.

If you see these birds, and can possibly do so, use a shotgun or rifle on them — and at once!

**What Would You Think?**

Little Jimmy was obviously upset. "Dad, I want to go to another school."

"What's the matter, son?" his father asked with concern. "Don't you like the teacher?"

"No, I don't. She's trying to mix me up."

"What do you mean, son?"

"Yesterday she said five and five was ten. Today she said it was six and four."

**June Is National Dairy Month**  
"Idaho dairymen are today setting their sights on making the celebration of June as National Dairy month the most active and effective in the 19-year-old history of this event," says W. L. Hendrix, president of the Idaho Dairymen's Assn.

State chairman in charge of organizing Dairy Month features is Lyons Smith, a leading dairy industry official from Twin Falls.

Hendrix explains that the organization chiefly responsible for Dairy Month on the national level is the American Dairy Association, with its headquarters in Chicago. This organization prepares the banners, decorations, novelties and advertising which proclaim Dairy Month throughout the land. Similar organizations in other states formulate and direct the activities on a state-wide level.

He added that dairy production and dairy food processing are major sources of income in Idaho. For this reason alone recognition of June as "Dairy Month" is worthy of participation by every Idahoan.

**IN THE ARMED FORCES**

**Now On Guam**

Under date of May 17, from Guam, we received a letter from 2nd Lt. Howard Wolff, which says in part: "I left Parks A. F. B. the 1st of April and arrived here the 5th of May. We stayed one night in Hawaii, so we got to look around just a little bit."

Here on Guam the weather is nice. It rains a couple of times nearly every day, but the breeze blows all the time. In the evening it gets cool enough that I need a light jacket once in a while.

This island is 30 miles long and varies in width up to 14 miles. The highest elevation is about 1300 feet — so there are lots of small hills.

The beaches are wonderful, and there are lots of them. The water is very clear, and there are many different kinds of fish — all shapes, colors and sizes.

I've never seen such thick, green brush and so many little trees as there are growing here. It is a real jungle — and everywhere you look there are palm trees.

I have been pretty busy until now getting processed and taking care of the "red tape" to get Vivian (his wife) over here. She will get here the 12th of July, coming by ship.

We do all of our flying in B-29s right now, but this fall we get B-50s. We fly back to the states and pick them up, so I might get a chance to get home for a few days.

I fly about every fifth day, with the missions about 14 hours long.

Well, it's about time for me to go back to work again, so will close for now. — Sincerely, Howard.

**Ship First Carload Plywood**

From Independence, Oregon, comes a copy of the "Independence Enterprise" which carries on its front page a picture of a carload of plywood, and five men, the accompanying article saying in part:

"The above photo shows National Plywood Cooperative officials standing in front of the first carload of green veneer plywood to be shipped from the new plant last Thursday (May 12). The car of 1/10-in. face and back grade A and A patch veneer was shipped to Astoria Plywood Corp. at an approximate selling price of \$5,800.00. Since the first shipment last week cars have been shipped out regularly as well as many truck loads of the choice veneer."

**MEMORIAL DAY**

MAY 30, 1955

Three years had passed since the last shot had been fired. In the beginning it had not been easy for fighting men to learn again the ways of peace—to sleep without having an ear cocked for the crack of a picket's rifle, to get up by one's own will rather than at the call of drum or bugle, to work at a steady job instead of doing only what some officer ordered. For awhile even the beds had been too soft, and the food too rich for stomachs that had made their peace with hard-tack or grits and bacon.

But by the spring of 1868 most of the veterans, North and South, had taken up their old lives or made new ones. The war was fast slipping into the past, and men were coming to remember only its comradeships and victories, and to forget its horrors.

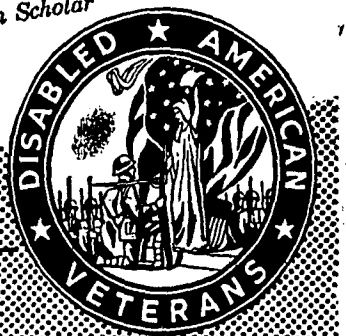

And perhaps to forget, too, the graves that marked every battlefield, even every hamlet. It was then that General John A. Logan, Commander-in-Chief of the Grand Army of the Republic, issued his celebrated general order designating May 30 as a day for strewing with flowers the graves of the men who had given their lives for their country. A few weeks later, solemn processions everywhere moved with slow step to the resting places of the dead.

Even before 1868 a number of Southern communities had decorated the graves of Confederate soldiers. As in the North, the custom spread and became permanent, although some Southern states still honor their dead on dates other than May 30.

While the war remained an unhealed wound, it was natural that the people of each section should glorify the valor of their armies at the same time that they did homage to the fallen. But with each year bitterness diminished, and ever-larger numbers saw that grief has no respect for geography. Thus Memorial Day came to embrace all Americans and the dead of all our country's wars.

We can do little more than set aside a day of recognition for those who never came back. But there are thousands who have come back—ill, maimed, burdened with hurts from which they will never recover. For these, the disabled, we can show that we mean our annual tribute. We can, if we will, make an effort to understand their problems, and offer them every opportunity to earn decent livings and lead normal lives. If we fail in this small obligation, we strip Memorial Day of its meaning.

**Opinions Elsewhere**

**The Swindle of the TVA**

How much is the government-owned TVA operation making for the American people or how much is it losing for them?  
Senator Fullbright of Arkansas who is a Democrat, and has been in favor of TVA right along has been doing some digging into the figures and what he has found has alarmed him as it ought to alarm any honest Senator, and not merely one of these loud-squawking liberals whose liberality consists mainly of a willingness to squander everybody's money but their own.

It seems that in the fiscal year ending June 30, 1953, TVA took in a little less than \$105 million and spent a little more than \$85 million. Using these as round figures, it made a profit of \$20 million in that period.  
But in this bookkeeping, no mention is made of the fact that the government of the U. S. borrowed \$805 million in capital with which to build the TVA plants. A private company doing the same thing would have had to pay more than \$34 million a year in interest and amortization. If we add that sum to the TVA expenses—then instead of having made \$20 million for the year, TVA would have lost \$14 million.

But that is not the worst of it. Any private business conducting the same operation would have had to pay \$76 million in taxes on the amount of business done by TVA, but that government outfit paid nothing at all. Add this loss of taxes to the operating loss of \$14 million, and the deficit for the year would have been \$90 million.

Having thus falsified the real record by ignoring interest or taxes and befuddled the issue, advocates of the Tennessee Valley Authority are able to say that they sell electric power for less than any private utility, and on the basis of that fact (for they do sell it that way) they invite industries to leave other parts of the Union and move to Tennessee Valley.

To think that we send a swindler to jail for forging a \$5 check, and yet let some of our so-called statesmen get away with this kind of financial murder is discouraging to say the least. What are we going to do about it?

Reprinted from the Bridgeport Telegram as a public service by the Washington Water Power Company.

**Private Power Would Speed Dam**

Three private power companies, the Washington Water Power, Portland General Electric, and Pacific Power & Light, are willing to undertake the providing of \$273,000,000 of the estimated \$310,000,000 needed for the construction of the 1,105,000 kilowatt John Day dam on the Columbia river.

Announcement of the offer by the private power companies followed the introduction of legislation by Rep. Sam Coon (Rep., Oregon) that would authorize partnership construction of the huge project.  
Explaining the proposed partnership development, Kinsey M. Robinson, WVE president, said: "We are very much interested in seeing the John Day project built promptly. An early start on the dam would aid materially in meeting the anticipated power needs of the more than 600,000 customers who look to us for their electric service requirements."  
Robinson continued: "In offering to participate in the construction of the John Day dam we want to make it plain that participation in the plan is open to any electric system, public or private, that is ready and willing to advance funds to help get the project started. Each participant would share proportionately in the power produced at the dam during the pay-out period. If necessary, the companies we represent are willing to undertake to put up the full \$273,000,000 needed for the power development."

Under the proposed plan the dam's generators would be tied in with the Northwest Power Pool and operation of the project would be fully integrated with the other river developments of the region. The project would be built, owned and operated by the government and would remain the property of the government when the money advanced by local interests had been repaid by power deliveries to the financial participants.  
The original cost plant account of the three companies in 1954 amounted to \$446,500,000, with gross revenues placed at approximately \$92,000,000. The three companies serve 618,700 customers in a population estimated at 2,500,000. Kilowatt hour sales in 1954 reached seven billion, eight hundred and seventy million.

## Radioactive Tuna Increased Geiger Counter Demands

NEW YORK—The disclosure of radioactive tuna fish in Japanese home waters led to a world-wide demand for Geiger Counters from American suppliers.

One New York firm received numerous inquiries from all over Japan and Europe, as well as from Africa and South America, asking for Geiger Counters to check for radioactive contamination resulting from A-and-H bomb test shots.

Civil Defense and Public Health authorities throughout the United States and the fishing industry on the West Coast have been studying the problem and the possibility of world-wide spread of contamination of fish from A-and-H-bomb fission product fallout.

Radiation "fall-out" may travel thousands of miles from the site of an explosion, and this is one of the means of detecting atomic blasts anywhere in the world. Though personal danger is remote, no one is entirely free from the reach of radioactive particles. Every A- and H-bomb explosion leaves considerable contamination in the air which decreases to infinitesimal amounts as distance from the detonation point increases.

Following public reports of contaminated fish in Japan, the Atomic Energy Commission said in its semi-annual report: "It appears that contamination consisted largely of radioactive materials on the exterior surfaces of the fish from contact with fallout material on the ship," adding that analysis of a specimen fish showed the "radioactivity of the edible portions to be . . . acceptable . . . for continuous use by humans."

So, it's safe to eat tuna next Friday.

## Older Men Are In Skilled Ranks

NEW YORK—The guy who said "It's a young man's world" probably hasn't been informed that half of all employed males in the United States are at least 40 years of age and that men at ages 40 and over are definitely in the majority among the skilled craftsmen, such as carpenters, brickmasons, machinists, painters and paper hangers, plumbers, stationary engineers, and tool and diemakers.

Too, older men predominate in some occupations such as tailors and railroad locomotive engineers more than half of whom are well past their 50th birthday.

Where are the younger men? An analysis of 1950 Census information shows relatively large numbers of young men among farm workers, automobile service station and parking attendants, and among linemen and servicemen employed in electric power, telephone and telegraph industries.

But the study, relating to 40-500,000 employed males, shows that each major occupation includes men in a wide range of ages, the median age being 39.7 years.

Among the 15,700,000 employed women the median age was 36.4 years. The median age for the large occupational group of stenographers, typists and secretaries was only 25.8 years.

## Pin-Ball Machinery Aids Defense Weapon

FLINT, Mich.—A scientific "pin-ball machine" is being used to speed up testing one of the Army's newest defense weapons—the Skysweeper.

The technical name for the new device is an "automatic high potential and continuity tester." Engineers have shortened this to "hipot."

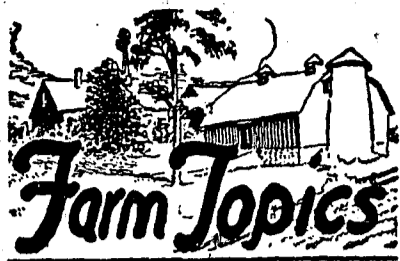

In operation, it looks like a pin-ball machine. Rows of lights mounted on the hipot flash off and on as it quickly and automatically tests hundreds of electrical connections in the Skysweeper for "shorts" and breaks. The light flashing stops if a faulty connection is found.

In each Skysweeper (an electronic artillery machine gun built to seek out and destroy invading fighter planes) there are eleven wiring harnesses. Each has as much as a half mile of wire and 800 connector points. The hipot can test the largest of these harnesses in less than an hour, while former test procedure took 40 hours.

## Sure-Fire Scarecrow

EAST LANSING, Mich.—Two Michigan State College faculty members think they've found a way to do away with scarecrows and costly tree covers in Michigan orchards.

Horticulturist G. M. Kessler and zoologist G. J. Wallace are installing in test orchards phonograph records of bird distress calls which they believe will keep robins and starlings from invading orchards and eating up the profits.

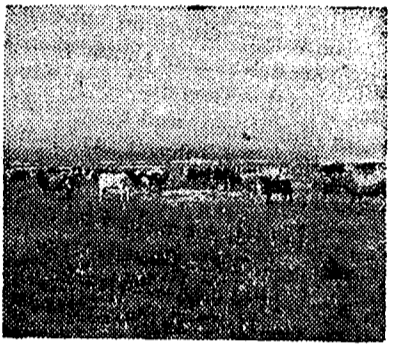

## Carelessness Cause Of Animal Disease

### Hardware Disease Can Be Avoided

Some untidy farmers are actually responsible for diseases which affect their livestock. One such disease, known as "hardware disease" is on the increase, says the AVMA, and carelessness is the cause.

In 1953, clinics at twelve veterinary colleges reported an average of over 50 cases of hardware disease in cattle, while only two years earlier, reporting clinics averaged only 33 cases.

Hardware disease is a condition of cattle caused by the animal swallowing foreign bodies,

Cattle grazing open lands, as shown above, are often less exposed to "hardware disease" than animals which feed along littered and worn down fences where they pick up various types of foreign objects along with their food.

especially sharp metal objects. A survey revealed that hardware disease is mainly a problem in full grown cattle since 93 per cent of the cases were over two years of age.

The penetrating foreign body was identified as wire in about 58 per cent of the cases, while some kind of nail was the cause in 36 per cent.

Magnet attachments are being used by feed manufacturers to remove metal particles from processed feed. They appear to be successful, the veterinary authorities report, but the magnets will not protect against the bits of wire strewn along farm fences or bits of metal strewn around the barnyard or feedlot.

Periodic inspection and cleanup campaigns by the farmer will help keep down the incidence of hardware disease and such cleanups should be made a regular feature in farm operations.

## Crossbreeding Program For Hogs Supported

Swine growers will get better market hogs if they follow a crossbreeding program.

S. W. Terrill, head of the swine division at the University of Illinois College of Agriculture, says results of nearly all experiments have consistently favored crossbreeds over non-crossbreeds.

One of the simplest ways to cross for market hogs is a rotation of three or four breeds or lines of boars. Use each boar until the gilts from his litters go into the breeding herd.

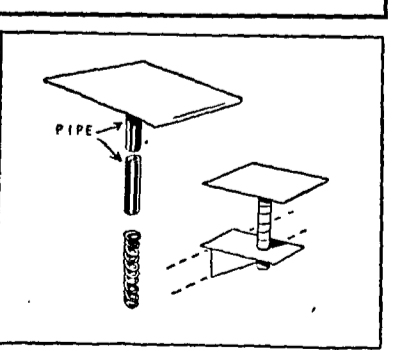

Then breed these gilts to a boar of the next breed or line in the rotation. You can still keep the older boar for breeding the dams of the gilts as long as you keep them in the herd.

Use purebred, topcross or "hybrid" (incross and linecross) boars and buy breeding stock only from individuals or firms you consider reliable and that have healthy herds.

Buy also from firms or breeders who are making an effective selection for high quality, meaty hogs with good carcass quality. The blood lines should have the ability to produce rapid and efficient gains and the brood sows should farrow, wean and raise to market weight large numbers of pigs.

Look at production records and results of tests giving live backfat probes, slaughter feed and gain data.

## Private Power Rates Low in Spite of High Taxes

"Trick wording" in reports, age rate was 1.32 cents, and the printed material and speeches average residential rate of the of PUDs and advocates of private utility serving this area PUD monopoly of electric service was 1.24 cents—and today it is ice has confused the public still lower, in spite of a recent about who to credit with this small rate increase.

**Rates Here Always Low** To make a truly fair comparison of PUD and private power company rates, it is necessary to consider the great difference in taxes paid. In 1950, before PUDs were even thought of, the state had been paying the same 5% to 6% of revenue in creating, the average residential taxes paid by the 18 PUDs in rate of the private utility serving this area was 2.17 cents per kilowatt hour, compared with a national average of 4.08 cents.

Due to great advances in science, engineering and mechanical equipment, rates have gone down throughout the nation, but in this area, by failure of PUDs to pay a fair share of taxes. This information is compiled and published, as a public service by the Washington Water Power Company.

## Your Handy Helpful Hardware Man suggests: HOW TO MAKE A GIFT FOR DAD

Here's a surprise for Dad on Father's Day that Junior can make. And Dad will appreciate it, too, for it's just about the handiest way to store hammers when not in use that's been devised. The main part is a narrow board of any suitable length, through which holes large enough to take the head of a hammer are bored with an auger bit. The narrow board is then nailed to mounting braces cut to the shape shown in the illustration. Dad can mount the hammer holder on the wall of his workshop with wood screws. It can be varnished or painted.

George King and son, Richard King and wife of Chewelah, Wash., were here for the funeral rites for Chas. J. Bower. They were guests in the Bower and Ed. Galloway homes over the week-end. Mr. King was a pioneer resident of this ridge and a cousin of Mrs. Bower and the Galloway Bros. Miss Maxine Slind, S/N of Spokane, and Mrs. Elfreda Huntley of Moscow were week-end guests in the Oscar Slind home.

The Happy Home Club will meet at the home of Mrs. A. M. Blanford on Tuesday afternoon, June 14th. Two lessons will be given at this meeting. Mr. and Mrs. Allen Galloway of Bovill were here for the Chas. Bower funeral rites.

All children are invited to attend the annual Daily Vacation Bible School at the Lutheran Church, May 31 to June 4th — 9:00 a. m. to 2:30 p. m. Theme: "Living As Children of God."

Mrs. Boyd Leland and daughter Lisa Rae of Clarkston spent last week with her parents, Mr. and Mrs. Ed. Halseth.

Mrs. Larry Warner (nee Carolee McGraw) has joined her husband at Tacoma, having visited her parents, Mr. and Mrs. Floyd McGraw at Deary.

A large number from here attended the Commencement Exercises at the Kendrick High school Monday evening. Monty Lee Clemenhagen and Dawn Marie Nelson were among the graduates.

Edwin and Miss Bertina Forest were Lewiston visitors last week. There will be a pot-luck dinner at the Deary Lutheran Church, Sunday, May 29, following the 11:00 o'clock services. Everyone is welcome!

**STONY POINT NEWS**

May 18 — Jawaharlal Ujaoney of Barwaha, in the Bhandara District of India, visited the dairy plant at Kerby's Ranch at Cheerylanes, Monday. It was the first time he had seen a dairy farm, Joe Thometz, county agent, reported yesterday. The visitor is staying at the G. R. Misner ranch at Reubens. He came to this area under the international farm youth exchange. He speaks fluent English and has a B. A. degree in chemistry, botany and zoology. He has raised rice, wheat and livestock, including buffalo. Since coming here earlier this month, Ujaoney has shown interest in cooperative markets and farmers organizations, Mr. Thometz added.

The Kerby ranch and water system was damaged in a cloud burst Monday when tons of soil and rock were washed down from the hill above onto an alfalfa field. Their water pipes, leading from their spring at the top of the hill, were badly twisted and broken, Mr. Kerby said.

Mrs. Newt Heath spent several days last week in Spokane. Her sister is seriously ill in the Deaconess hospital in that city.

# THE Bull itin

Published Weekly by the Union Oil Service at Kendrick  
W. L. "Bill" Rogers, Editor

### HELLO, FOLKS:

Well, we apologize! Yes, we apologize for telling you that "spring had sprung" and advising you to get ready for summer. It seems as if fall has come, instead, so we're going to again mention that wonderful Union Heating Oil — just the thing for these cold summer days!

A young married woman told a friend that her husband had gone skeet shooting several times recently, but that he hadn't brought home a single skeet.

And then she added: "Say, your husband has hunted a lot. How do you cook skeets?"

Farmers: Is your tractor developing full power for that day and night grind? If you are not already using it, try Union Diesel

Fuel in your diesel, and Union Royal 76 gasoline in that gas equipment. You'll be able to literally "feel the difference," and we deliver it right to your tank. Try it today, won't you?

A Hollywood figure announced at a party that he planned to take a long vacation away from all civilization.

"But how will you find a place like that," he was asked.

"I'll just fasten a big picture of Marilyn Monroe on the front of my car, and as soon as someone asks, 'Who's that?' I'll stop!"

You just can't beat those famous U. S. Royal tires for mileage economy. Come in and talk it over — we sell them!

Try our Union Service! It's tops.
