INTERESTING NEWS NOTES FROM THE SOUTHWICK AREA

Homemakers Club Meets
The Southwick Homemakers Club met on Thursday at the home of Agatha Perkins, with Ruth Armitage as co-hostess. After dinner, served at noon, a business meeting was conducted by the president, Virginia Cantril. This was followed by a talk on Red Cross and the Summer Swimming program, given by Mrs. Homer Lipps of Lewiston. Guests for the day were Mrs. Mary Jane Elben and two children of Lewiston; Mrs. Kenneth Bonser of Detroit, Mich., and Mrs. Homer Lipps of Lewiston. The next meeting is scheduled for the home of Alice Tarry, with Goldie Mustoe as co-hostess, on June 9th.

4-H Club Meets Thursday
The Spring 4-H Club will meet on Thursday afternoon at the home of Rona Armitage. During the summer all meetings will be held in the daytime, as it is more convenient, and the girls get more work accomplished.

Missionary Meeting
The Missionary Society of the Southwick Community church will meet the second Friday of June (10th) instead of the first, due to the absence of their leader, Mrs. Martin Swinney. The meeting will be held at the home of Mrs. Rollin Armitage.

Community Bible School
The Community Bible School will be held this year from June 13 through June 26th. All children are welcome to attend, Good lessons, lots of recreation and hand work is offered for each day. Anyone having 1/2 lb. 1-lb. or 2-lb. coffee cans of the Hills Bros. type, is asked to please send them for use in the Bible school.

No Sunday School
There will be no Sunday School at the Southwick church Sunday, June 3, as the people of Southwick will join other communities around for Children's Day at Gold Hill. Everyone is welcome to come and join the children on their day.

General Items
Church services were held at the Community Church Sunday by Rev. Canary of Clarkston, during the absence of Rev. Martin Swinney. His very interesting topic was "The Jerico Road."

Rev. and Mrs. I. G. Canary, Mr. and Mrs. Ervin Fry and sons and Orville Kelley were dinner guests at the home of Mr. and Mrs. Milton Benjamin, Sunday.

Mr. and Mrs. Edward Pederson were guests at the home of Mr. and Mrs. Verlin Benjamin on Saturday night. On Sunday they went to Gold Hill to visit at the Al Pederson home. Their home is at Spokane.

Mr. and Mrs. Ronald Benjamin and son Doug arrived home this week from El Monte, Calif., to spend the summer.

Mr. and Mrs. Arnie Cuddy went to Lewiston Sunday, to the home of Mr. and Mrs. Leonard Cole, where they joined other members of the family in celebration of the birthday anniversary of Mrs. Cuddy, and their granddaughter, Debbie Cole.

Mr. and Mrs. Aaron Wells spent Sunday at Lewiston, picnicking with the Walthen Wells and Carlos Walls families, who were visiting there.

Mr. and Mrs. John Duffy and son of Spokane were week-end guests in the home of Mr. and Mrs. Clay King. Patsy Cuddy of Gold Hill is spending several days at the Rollin Armitage home. Judy Cuddy, who was there the past week, has gone back to her home at Gold Hill.

Guests at the home of Mr. and Mrs. Tom Armitage over the week-end were Mr. and Mrs. Cecil Hayward and Rupert Hayward of Lewiston, and on Sunday afternoon Mr. and Mrs. Wade Candler of Ahsahka.

Mr. and Mrs. James Holt and family were callers at the home of Mr. and Mrs. Rollin Armitage, Sunday afternoon.

Mr. and Mrs. Russell Perkins and daughter Hazel spent Thursday evening at the home of Lloyd Davis on Cream ridge.

Word was received here this week that Lloyd Randall, Jr., of Clarkston, had been slightly injured in a car wreck there this week. Mr. Randall is a son-in-law of Mr. and Mrs. Russell Perkins.

Mr. and Mrs. Russell Perkins and daughter Hazel were dinner guests in the home of Mr. and Mrs. Arnie Cuddy, on Monday. In the evening they went to Clarkston, where they visited in the home of Mr. and Mrs. Lloyd Randall, returning Tuesday.

V. F. W. Auxiliary Holds Memorial
The V. F. W. and Auxiliary held a Memorial Service Sunday at 11:00 a. m. in the Kendrick park, in front of the Honor Roll, paying tribute to those who had given their all.

An Honor Guard parade preceded the service, with nine men and eight women taking part. The impressive service began with Ralph Scherer reading "In Flanders Fields," after which he laid a bouquet of poppies before the Honor Roll.

The rifle squad gave a salute, and a bouquet of spring flowers was placed with the others. The local Post also put flags on as many graves of Veterans in the area as they were able to learn about. Information was not complete on the list of Veterans, so some were undoubtedly missed. However, since the V. F. W. plans to make their Memorial tribute an annual affair, they are asking for help in making their list of war dead and the location of their graves complete. In case your loved one was missed, please contact any member of this organization. This was the second year this Memorial has been enacted by the local organization.

No Spring — What Of Summer?

This area, now that June is here — can very well say that there has been no spring to date — but what of summer? Will there be one? That seems to be the question uppermost in the minds of local residents. The past week has been chill and frequently windy, with several sharp rain squalls — and of course, some sunshine, but the latter has indeed been in the minority. Farmers, despite the inclement weather, have done very well with spring work, particularly in this area, but sunshine is needed by crops now in the ground. Wheat seems to be quite uniform, but rather pale. Peas may also be placed in that same category.

Logs In Short Supply

The cold, wet weather of the past two weeks has been definitely against logging operations in this area, as rain has kept forest roads so muddy that logging trucks have been unable to operate, although woods work, itself, has been moving forward on a curtailed basis. Of course, when the trucks can't get out of the woods they can't haul, and as a result logs at local mills have been in very short supply. The Mead & Howard Mill at Kendrick was forced to shut down Thursday evening of last week, and others are operating on a curtailed basis.

WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

Picnic Is Enjoyed
Some fifty youngsters and adults enjoyed a Church of the Nazarene Picnic at Spalding Park last Saturday, May 28, gathering about 4:00 p. m.

Dolores Bailey Featured
In a recent edition of a Pendleton, Oregon, newspaper, Dolores Bailey, daughter of Mr. and Mrs. A. W. Bailey of Juliaetta, a student nurse at St. Anthony's hospital, Pendleton, is shown in a large picture, adjusting the flow of serum albumin in a small suspended jug, as it goes into the veins of Jerry Cherry, seriously burned with boiling water. Serum albumin is a new human blood derivative, now being made by the American Red Cross, which offers a chance of survival to the seriously burned.

P-T. A. SETS UP SUMMER CANNING PROGRAM

A meeting was held at the Kendrick school house Monday evening, May 23rd, to make plans for the launching of the summer canning program for the school Hot Lunch. Present were R. L. Meserve, superintendent; Mrs. E. M. White, Mrs. Wm. Carlton, Mrs. John Wilson and Mrs. Norla Callison.

Plans were made to carry on very much as in previous years. Only by the splendid cooperation of the committee chairmen, the school cooks, and all the people who gave of their time and produce, has it been possible to have the "extras" that go to make up a well balanced, tasty luncheon.

According to the usual health regulations meats and vegetables must be canned in the canner. Jellies and jams will be made as before by various groups in the Kendrick or Juliaetta school kitchens.

As a reminder, the following are some of the produce most needed: Berries, cherries, cabbage, squash, potatoes, peppers (a few) turnips, corn, crab apples, cucumbers, beets, green beans and chickens.

The Kendrick school has a 15-gallon crock that can be used to make kraut.

Mrs. Callison named the following committee chairmen for the different communities. Some of the chairmen will have assistants that they will name:

- Juliaetta Mrs. Ray Scherer
- American Ridge Mrs. Wayne Davis
- Leland Mrs. Gordon Peters
- Cameron Mrs. Marvin Silflow
- Cedar Ridge Mrs. James Holt
- Bear Ridge Mrs. Henry Galloway

Responsibility for the different food items was divided as follows:

- Juliaetta — Beans, cherries, berries
- American Ridge — corn and berries
- Cameron-Leland — corn, pickles and jellies
- Cedar Ridge — strawberries, jam and cabbage
- Bear Ridge — beans, corn and crab apples

Chickens will be prepared in the school kitchens. Help on their preparation will be needed from all the communities as before.

Kendrick ladies will be asked to help wherever and whenever they can. Special appreciation goes out to those ladies who have so willingly helped in past years, even though they have had no children in school. If everyone would show that willingness to take their turn, the food preparation would be burdensome to none.

Anyone having any of the mentioned commodities please phone your nearest chairman. If you are unable to pick or prepare it, people will be contacted to do the job. If anyone has extra ground to plant potatoes, carrots, squash, pie pumpkins, etc., that will be a great help.

According to those who have been at state meetings, our canning program is unique in providing variety at lowest cost. Southwick carries on their own splendid program.

The Lions have generously offered to give us their help. For this we are very grateful. They can be on the alert for our call.

Let's all get together and willingly take our turn at helping make this another successful year.

Softball Game Scheduled

Ross Armitage, local softball team manager, announces that there will be a softball game on the local diamond Friday evening of this week at 8:00 o'clock, with Kendrick meeting the Clarkston Jay-Cees.

Chill weather has cut down on game attendance — but Ross promises a "balmy spring evening" for this game.

Now On Road To Recovery

W. W. Eldridge, who has been quite ill for the past several weeks, had lots of callers Sunday. His brother and wife, Mr. and Mrs. Earl Eldridge and Mrs. Verl Barnes (a cousin) and Mrs. Michel Barnes, (an aunt) all from Dixie, Wash, and Mr. and Mrs. Carl Barnes (a cousin) from Lapwai, came to call and wish him a speedy recovery.

Take Over Confectionery

Mr. and Mrs. Ervin Swenson, well known local residents, have leased Burt's Confectionery, and took charge of it the first of this month. The Swensons need no introduction, and are experienced in that business.

Mr. and Mrs. Burton Souders say they have no definite plans for the future.

Receives Press Award

U. of I. Moscow — Presentation of the Idaho Press Women's award to Jane Querna, formerly of Boise, and now Huron, S. D., as the outstanding woman graduate in journalism highlighted the installation of Theta Sigma Phi, national women's journalism at the University of Idaho.

Presentation of the award to the senior coed marked the fourth consecutive year that a University of Idaho graduate has earned this honor. Recipient last year was Eleanor Anderson Lauer of Spokane, who is now employed in Philadelphia; Sheila Jensen, Moscow, won the award in 1953, and Maribel Schupfer of Juliaetta, now at Moscow, earned the honor in 1952.

Lovely Mail Service

Kendrick and vicinity experienced a "mail-less week-end" as well as a chilly, windy one.

On Saturday morning the "Lightning Express," piloted by Cecil Gruell, brought in the mail — and then no more arrived until Tuesday morning — due to the fact that Sunday and Monday no mail travels, under Mr. Robinson's "new, "improved" mail service.

Old timers tell us that fifty years ago the service was far better than that of today — as two trains per day made the trip — and both carried mail!

Now don't get the idea that we are "taking a crack at Cecil," we aren't for his job is to carry the mail on the schedule laid out for him by Mr. Robinson — but it looks mighty asinine to us to have a train making trips through here every day — and yet we go "mail-less" for two solid days!

IN THE ARMED FORCES

To Stay In California

Mr. and Mrs. L. D. Crocker have received word from their son, Pvt. David F. Crocker, that he now has a mailing address, and will take his basic training at Fort Ord, Calif., rather than at Camp Carson, where he originally expected to be sent. For the benefit of friends who might care to write, his address is: Pvt. David F. Crocker, US 56-240-643; Co. L, 63rd Inf. Regt.; Fort Ord, Calif.

At Parks A. F. B.

(Official) Airman William R. Brown, Jr., son of Mr. and Mrs. William R. Brown of Kendrick, Idaho, is currently enrolled in basic military training with the U. S. A. F. at Parks Air Force Base, Calif. He is serving with Flight 157, 3277th Sqdn., 3275th Basic Military Training Group.

Airman Brown entered the Air Force on April 5th, 1955, and was sworn in at the Spokane Recruiting Station, through the Lewiston branch.

Prior to his enlistment, he attended the Kendrick High school, Kendrick, Idaho.

Busy Painting Cross Stripes

E. M. White, village custodian, with a helper was busy Tuesday painting the yellow stripes on the streets, showing the pedestrians the legal path to cross and also marking parallel parking stalls on the curbing.

The new striping gives a clean appearance to the streets and also is a gentle reminder to foot traffic.

And speaking of clean appearances, some of the vacant lots up and down Main Street could do with a bit of cleaning up, mowing, etc.

Kendrick's Main Street, which extends for nearly a mile and a half, bordered on either side with shade trees and parking, is a pretty sight and one which we should be anxious to maintain and promote.

Let's get at the job of cleaning up that vacant lot, of sprucing up our own property. A bit of elbow grease, a can of paint and a window washing job does wonders, you know. Let's be able to say our town is not only the prettiest, but the cleanest!

We may be content to be a Saturday night town — where good friends come to trade, meet and pass the time of day — but let's not be content with dirty, shabby back doors and side streets. Let's do the job up right.

In years past the Village Trustees used to sponsor an annual "Clean-up Day" in which trash taken from vacant lots, side streets, etc., was hauled away free — and the results were wonderful — why not again?

If a real clean-up results, credit it to Bill White with his bright yellow lines!

Get that lunch meat at Blewett's Grocery-Market, Kendrick. A good selection, always. 1-adv

Celia Roberts Wins Scholarship

U. of I., Moscow — Scholarships totaling more than \$2,000 have been awarded 16 students for the University of Idaho's 1955-56 school year, it was announced this week by Chas. O. Decker, director of student affairs. The awards are the first in a series to be announced by the university.

Of the total \$1,400 are in elementary education established by the

Board of Regents to encourage outstanding high school graduates to enter the teaching profession. Recipients agree to teach one year in the state following their graduation from the university.

Included in the students receiving the elementary education scholarships was Celia Roberts, Kendrick, a daughter of Mr. and Mrs. Harold Roberts, Route 1.

Standard's "Wood-Welder" helps supply you with a famous Pacific Northwest product

In 50 Jubilee years Douglas fir plywood has become one of America's most useful building materials. Demand—more than doubled since 1945—is still rising. To help meet this boom, Standard has put one of petroleum's newest products to work. Last year we completed the West's most modern plant to produce Phenol from petroleum. Key to glues that make plywood split-proof, water-proof, Phenol once came only from the East, frequently became scarce. Now, plywood men have a nearby source; can save shipping time, costs. It's another way Standard serves you, the homes, farms, industries of a growing Pacific Northwest.

...and our Free Scenic Views capture the West's golden beauty. Now you can collect full-color pictures of the West's most beautiful scenes—absolutely FREE! Each 11 1/2 x 14 inch print is superbly lithographed, handsomely matted, ready to frame; has descriptive story, photo data. A new print given away each week, exclusively at Standard Stations and independent Chevron Stations.

Working with you in Washington, Oregon and Idaho

- 3,081 Standard employees
- \$14,942,035 annual payroll
- 4,915 Pacific Northwest shareholders
- \$76,618,025 investment in plant, refinery and distribution facilities
- \$26,291,953 worth of goods and services bought from more than 1,575 Pacific Northwest businesses in 1954
- 3,067 independent businessmen who support themselves and their 8,492 employees by selling Standard products

Duke Psychologist Offers Tips on Cigarette Control

Do you have trouble leading a sane cigarette life?

If so, here's a common sense recipe by Dr. Gelolo McHugh, Duke University psychologist, that may help you "use cigarettes instead of being used by them."

"People who have to have cigarettes need psychological help, not scare tactics such as threats of stomach ulcers or lung cancer," Dr. McHugh says. "Swearing off entirely is dangerous, because if you fail once, the next try will be that much harder. Limiting your cigarettes to eight or 10 a day is also risky, because it keeps the thought of smoking uppermost in your mind."

Here are Dr. McHugh's suggestions for cutting down:
 1. Set aside an hour or two at the beginning of each day and don't smoke during that period no matter how much you want to. After that, smoke as much as you like for the rest of the day.
 2. Don't make your daily no-smoking period longer than you can safely control. Over-ambition sometimes leads to failure.
 3. Tell your friends what you're doing. Their interest will help you keep control over your no-smoking period.

"After following this plan for several weeks, smokers often find that their cigarette control is growing stronger," Dr. McHugh said. "Experiments show that smokers who set aside a no-smoking period do not have a tendency to smoke more than usual during the rest of the day to make up for lost time."

"Most important of all, after two or three weeks of controlling part of the day, the smoker begins to find himself smoking a little less during the free period. This means that he is on the way to mastering cigarettes instead of being mastered by them."

Dr. McHugh's suggestions are based on data collected over a period of five years and covering some 600 people.

Chubb Crater 1,325 Ft. Deep, Largest Meteorite Crater

A new champion's official measurements have been announced by the National Geographic Society.

The champion is Chubb Crater, established as the largest of all known meteorite craters in the world as the result of four weeks' research carried on last summer at the crater site in northern Quebec by Dr. Victor Ben Meen, Toronto geologist, and five scientist-associates.

The huge pockmark in the sub-arctic granite has a maximum depth of 1,325 feet, figured from the level of the highest point on its rim. The surface of the lake in the crater bowl is 500 feet below the rim's top level, and the maximum depth of the lake is 825 feet. Diameter of the rim averages 11,500 feet, and its circumference is 6.8 miles.

The depth is thus a few feet less and the rim diameter a few hundred feet more than indicated by preliminary figures dispatched from northern Quebec last August at the time field work was completed. Both dimensions, however, are more than twice the corresponding ones of Arizona's Meteor Crater, long officially recognized as the earth's largest scar known to be due to an earth-meteor collision.

The crater lake averages 9,100 feet in diameter. Its shoreline measures 5.4 miles around.

Dr. Meen, director of Toronto's Royal Ontario Museum of Geology, and Mineralogy, led an expedition to the crater site. With magnetometers, they defined a "magnetic anomaly"—a subsurface mass of iron outlined by its effect on the earth's magnetic force. Such an anomaly is attributed by scientists to meteorite fragments buried deep in the granite rim.

Kinds of Mines

Coal mines are of four kinds, three of them underground. If the mass of coal can be reached horizontally, say from the side of a hill on a level grade straight to the heart of the coal, it is called a Drift Mine. If you have to reach the coal at a perceptible angle, down or up, you have a Slope Mine. To get inside either of these mines, tunnels are made into the sides of the hills. The miners may go to the working areas by "man-trip" cars, which are trains of mine cars pulled by especially designed mine locomotives. If you must ride a cage (mining term for elevator) to reach the coal seam, you are in a Shaft Mine. If the coal lies near the surface of the earth and you can rip it out by huge electrically operated shovels and bulldozers, you have an Open Cut or Surface (sometimes called "Strip") Mine.

Indian Legend

Hiawatha, who is believed by many persons to have been a purely legendary character, really lived about 1450 A. D. The mighty Iroquois chieftain of the Onondago tribe of North American Indians was transformed by legend into a miraculous character with supernatural powers. About 400 years after his death, he was immortalized by Longfellow in "The Song of Hiawatha", an epic poem written after the style of the great Finnish Kalevala.

Good Pasture Program Means More Profits

Over-Grazing Can Kill Out Pasture Growth

Now is the time to plan a "complete pasture program" that will give your dairy cattle an abundance of high quality, low cost feed at all times next year, says the Middle West Soil Improvement Committee.

The Farmer who has an all-season supply of succulent forage, grass silage, or hay is the farmer who will have bigger milk checks, lower feed costs and more overall profits, the committee points out.

Earl Jones, Ohio State University extension agronomist, says that a well-rounded pasture plan should include: (1) Seeding well adapted leg-

ume-grass mixtures; (2) The use of lime and commercial fertilizer; (3) Good grazing management.

Jones recommends alfalfa, ladino clover and grass for summer grazing. Where alfalfa does not thrive, ladino clover and grass will do a good job. Timothy, brome grass or orchard grass may also be used.

He cautions farmers to avoid killing out pasture growth by over-grazing and to provide palatable and nutritious pasture by avoiding under grazing. Jones suggests dividing pasture areas into lots. Cattle are allowed to graze down growth in one lot and then are moved to another.

Along with good legume-grass mixtures and managed grazing, Jones emphasizes the benefits from adding lime and fertilizers carrying nitrogen, phosphate and potash.

Poultry Industry Expects To Boost Production

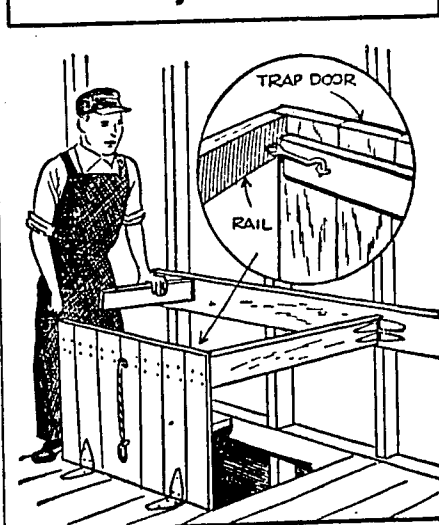

One of the nation's newest agricultural industries is expected to boost the value of poultry products beyond the four billion dollar mark this year.

This new industry—known as the broiler industry—is expected to account for almost half the chicken meat consumed in 1955, compared to an almost negligible amount 15 years ago. Poultry breeders have succeeded in developing chickens that eat less and still grow from two to three weeks faster to reach marketable size.

H. H. Alp, Director of Commodity Departments for the American Farm Bureau Federation, recently credited the success of the new industry to the nationwide Chicken-of-Tomorrow program sponsored since 1945 by A & P Food Stores.

Only a few years ago, according to U. S. Department of Agriculture reports, most of the chicken meat consumed in this country came from so-called "backyard flocks." Records of specialized broiler production in 1934 show that these chickens accounted for only 3 per cent of total consumption of 18.8 pounds of chicken per capita. In 1951 broilers are expected to account for 51 per cent of a per capita consumption of 29.7 pounds.

Hayloft Door

If you have a trap door in your barn loft, here is an idea that could possibly save you a dangerous fall. Fit it with guardrails as shown above. The rails, which are hinged to the barn wall, swing outward and are hooked to the trap door when it is in the upright position. When the door is closed the rails are folded flush against the wall.

Frozen Foods Show Huge Gain During Past Year

A record percentage of farm produce is moving to consumers in frozen form. Figures compiled by A & P Food Stores, operator of 4,500 markets in 37 states with six million customers daily, show an overall increase in frozen food sales of 38.9 per cent. Leading this list of foods are citrus juice concentrates, orange and grapefruit juice, a blend of the two, and lemon mix. Peas and strawberries also increased.

Thank Practical Eskimos For 'Deep-Freeze' Invention

Thanks to practical Eskimos and a shrewd Yankee fur trader, we are now able to have seasonable fruits and vegetables "fresh" at any time of the year. The quick-freeze pack keeps them fresh.

The Yankee fur trader is Clarence Birdseye of Gloucester, Mass., who still indulges his fancy for adventure in the Far North. While dealing with Arctic Eskimos up the Labrador coast during 1912, he was amazed at the excellent meat and fish they seemed always to have available. The secret was in the quick-freezing of game freshly caught. "Quick-Freeze!" That was the Big Idea he mulled over as he sailed home. Invent a special kind of freezing machine to freeze almost instantly, patent it, make fresh foods available to everyone!

Inspired by this thought, and stimulated by this hope of protection afforded by our patent system, he built his first crude machine which he called the "Multiplate Quick Freeze." This consisted of a new garbage can of corrugated iron with layers of steel plates between which codfish and rabbit meat were placed. It was supplied with coils that contained salt brine as a refrigerant. Incredible, but true, this unpolished mechanism was the forerunner of our gigantic lockers of today. Encouraged by the success of his invention in food preservation, and the patent protection obtained thereon, Birdseye endeavored to promote his idea.

A skeptical America was not too eager to accept quick-frozen foods, and our inventor, in 1924, after making stabs in both Gloucester and New York, went broke. Unbeaten, his perseverance and ingenuity urged him to try again and, in 1927, after securing a \$2,250 loan on his life-insurance policy, and obtaining \$375,000 from backers, he again launched into the business. This time it took a year to interest the public sufficiently.

Cretaceous Geological Period Shale Collected in Fresno

More than a ton of shale and marl containing 100-million-year-old fossils, collected in Fresno County, Calif., last summer by Dr. Alfred R. Loeblich, Jr., Smithsonian Institution paleontologist, is being processed at the U.S. National Museum.

The Fresno County locality has one of the thickest known deposits—in some places as much as 25,000 feet—of sediments laid down in the ancient sea bottoms during the Cretaceous geological period, the heyday of the great dinosaurs on land and of the weird swimming reptiles, the plesiosaurs in the sea. The material collected by Dr. Loeblich, however, contains fossils far less conspicuous than these monsters, but in some ways they represent even stranger forms of life. They are minute Foraminifera, or shelled protozoans. Although constituting a very large branch of the Animal Kingdom, the Protozoa are one-celled animals and nearly all are microscopic; the best-known of the living forms are internal parasites which cause some of the most deadly diseases.

Foraminifera are a specialized group of Protozoa that build an external shell, and these shells may be preserved as fossils. During the Cretaceous period, represented by the material collected this summer, many of the more modern shell forms were first developed. These fossil shells are often used by the oil industry to determine the age of geologic strata and thus are of economic importance, as well as being of value to the scientist in showing evolutionary trends.

Although single-celled, such sea creatures may have many chambered shells. As they grow they form new chambers all connected by openings through which the protoplasm of the cell flows. But, however many chambers of this sort are produced, the protoplasm is continuous through all and the animal still remains a single cell.

Looking Back

Haile Selassie's 1,150-man, hand-picked battalion in Korea is a far cry from the desperate army he raised in 1935. Then, as Mussolini's men marched into his land, he issued this draft notice: (1) When this order is received, all men and boys able to carry a spear will go to Addis Ababa. (2) Every married man will bring his wife to cook and wash for him. (3) Every unmarried man will bring an unmarried woman he can find to cook and wash for him. (4) Women with babies, the blind and those too aged and infirm to carry a spear, are excused.

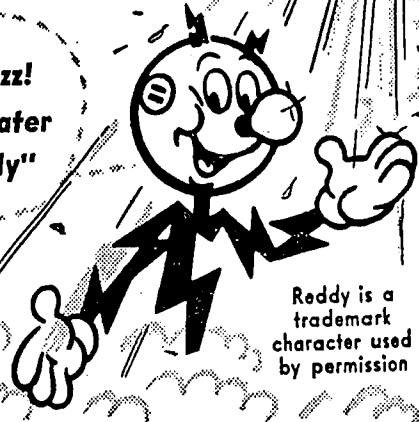

Ptolemaic System

The Ptolemaic System was the ancient concept of the universe, proposed by the Greek astronomer Hipparchus, who lived about 130 B. C. It is named after Claudius Ptolemy, a later astronomer, who popularized it in a famous book known as the Almagest. According to this system, the Earth was fixed at the center of the universe, and the Sun, Moon, planets and stars all revolved around it in varying periods. It has been superseded by the system proposed by Copernicus in 1543, which places the Sun at the center of the Solar System, and has the Earth as one of a number of planets revolving around the Sun.

American Inventions Make For Better Living Standard

During the period prior to World War II, when Adolph Hitler was building up an arsenal of weapons with which he hoped to conquer the world, a nuclear physicist at the University of Berlin had an idea for a death-ray gun.

The only thing wrong with the idea was that the inventor intended to use the death rays to kill microorganisms that spoil food. Hitler wasn't interested.

America thrives on inventions that promote health and make for better living. It provides a Patent System as an incentive for such inventions. Dr. Arno Brasch, the nuclear physicist with the death-ray idea, and his associate, Dr. Wolfgang Huber, left Berlin for New York 12 years ago.

Food is an important item of trade here, and financial interests backed the two physicists in developing their electronic gun to the extent of a half-million dollars. They rented an icehouse on Long Island and scrounged the area for food to get parts required for their electrical apparatus. The pilot model, resembling somewhat the skeletal structure of a skyscraper, began to tower toward the third-story ceiling. Near this was a cylindrical structure, tapering in sections to the top.

Out of this combination of transformers, insulators, and giant electronic tubes there protruded something similar to the muzzle of a gun, aimed straight down to hit the target directly underneath. A 220-volt house current was thus stepped up to shoot 3,000,000 volts.

It was five years ago that this amazing gun began its operation of shooting electron bullets into specimens of food.

Poison Deaths of Children Caused by Careless Parents

Parental carelessness plays a big part in the more than 600 deaths of children each year due to the accidental swallowing of poison, according to Dr. Jay M. Arena of Durham, N.C.

Dr. Arena is associate professor in the department of pediatrics, Duke University School of Medicine and Duke Hospital.

"Children who survive the ingestion of poison may be left with permanent disabilities," he added.

"Poisons contained in household agents are responsible for most of the deaths and disabilities. If all drugs and household agents that contain poison were made inaccessible to children, such poisonings could be almost entirely prevented."

Lye, he explained, is one of the most common causes of poisoning in childhood. During the first 18 years of the Duke Hospital, more than 136 children were treated for stricture of the esophagus caused by swallowing lye. Many of these cases were due to sodium hydroxide in washing powders, drainpipe cleaners or certain paint removers.

Among other causes of childhood poisonings listed by Dr. Arena are the following: strong acid, kerosene, iodine, strychnine, phenolphthalein, barbiturate, salicylate, aniline dye, lead, and mercury.

Farm Land Boom

Farm land prices on an over-all basis may have experienced a record rise over the last decade, but the increase varied widely as between one section of the country and another, according to figures compiled by the Bureau of Agricultural Economics of the U.S. Department of Agriculture. The boom was led by eight states, headed by Kentucky, which enjoyed increases of more than 200 per cent between the 1935-39 average of dollar farm land valuations and July of this year. More than half these states are in the South. Thirteen others, mostly in the South and Middle West, showed values of between 150 and 200 per cent, and fourteen more between 100 and 150 per cent. The remaining thirteen showed gains of less than 100 per cent.

High Hat

The expression "to high hat" or the snobbish toward one of lower rank probably goes back before the days when the top hat became a symbol of wealth and social position. The rank of a Spanish lady in the latter days of the Roman Empire could almost be measured by the height of her head covering. The more important the lady, the higher her turban towered above her head.

Sea Food

The ocean contains enormous quantities of small plants and animals, many of them microscopic in size, which cannot swim but float with the tides and currents. These are called "plankton" and they form the principal food of various whales, as well as sharks and many other kinds of fishes. The animal plankton is said to have a nutritive value equal to the best meat, since they consist largely of protein, while the plant plankton equal rye flour. The main difficulty seems to be in harvesting. A biologist who studied the matter has said that to meet the normal food energy requirements of one person would require the animal plankton each day from a volume of ocean water equal to an area the size of a football field, and about five feet deep.

TRAFFIC CHEATERS

You would resent it if someone accused you of cheating at cards. You would resent it if someone accused you of cheating at cards. You would probably feel like poking someone in the nose or parting friendships. When a driver cheats on traffic laws, the attitude is: "He was really smart to pull that one and get away with it." There's something wrong with this topsy-turvy attitude that is so prevalent in our society.

It seems that anything goes as long as you can get away with it. That is the attitude of a great many people when it comes to traffic laws and regulations. That attitude is responsible for the necessity of larger enforcement agencies and the development of new enforcement tactics. You can't trust people who have this attitude, to obey the laws when they are not being watched. These problem children, of all age groups, are causing countless traffic accidents every day.

These people can't seem to understand that no one gets away with this attitude indefinitely. They always take one chance too many and end up in a wreck of their own making. If an officer of the law doesn't catch up with them, the law of averages does.

If anyone had an easy solution to this problem our traffic accidents could be cut appreciably. But so far there is nothing in view, and no prospect of a "wonder drug" that will painlessly inject a sense of responsibility into drivers.

There is a definite relationship between traffic law violations and traffic accidents. Three out of 10 drivers in fatal accidents, in 1953, were violating a speed law, according to the National Safety Council figures. Fifteen percent were exceeding the stated speed limits and 14 percent were exceeding the safe speed for the conditions in rural areas.

Among the drivers involved in fatal accidents in 1953, 18 out of 100 had been drinking; 7 out of 100 did not have the right-of-way; 3 out of 100 were passing improperly at the time of the accident, while 9 out of 100 failed to keep to the right of the center line.

Three out of 100 drivers in fatal accidents in 1953 disregarded a stop sign; 2 out of 100 disregarded a warning sign, and one out of 100 disregarded a traffic officer or traffic signal.

These figures bring the total of violators for every 100 fatal accidents to 73. These are outright violations, and they do not include the great number of inattention, negligent driving, following too closely and failure to signal accidents.

These figures should convince every driver of the necessity for adherence to the motor vehicle laws in the State of Idaho, for it isn't the right-of-way that counts, it's the right way. It is just a short step from traffic cheating to life taking. — Dwight Crofford

Free Pictures To Be Given

Free distribution of a new series of "Scenic Views of the Colorful West" will get underway at Standard Oil Company of California service stations and outlets on Tuesday, May 24th, the company announced this week.

The all-color photos, selected from thousands of shots submitted by the nation's leading photographers, depict 15 famous beauty spots in the far western states, Alaska and Hawaii. Format of the pictures is similar to that of the views which the company distributed in past years, and which now hang in thousands of western homes. Each scene is 9x12 inches, printed on a 11 1/2 x 14 inch mat.

Leading authors and historians of the west have written the descriptive text on the reverse of each scene. The photography data is also provided.

A different view will be available at local stations each week of the 15-week travel promotion program.

Money Is Always Handy

One Friday a little boy went to the bank and withdrew five cents from his savings account. On the next Monday he returned and deposited the nickel again.

"I see you didn't spend your money," said the bank teller.

"No," the little boy replied, "but a fellow likes to have a little on hand over the week-end."

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 7th day of July, 1955, at Kendrick, County of Latah, State of Idaho, before Frank Barton, a notary public, proof will be submitted of the application to beneficial use of 0.573 cubic foot per second of the waters of Middle Branch Potlatch Creek in accordance with the terms and conditions of Permit 25029 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Adrian Johns and Viola Johns, husband and wife, Juliaetta, Idaho.

The use to which said water has been applied is Domestic purposes, and stock watering and irrigation.

The amount applied to beneficial use is 0.573 cubic foot per second.

The place where said water is used Lots 10, 11, 12, Block 15; Lots 1, 2, 3, 4, 5, 7, 8, 9, 10, 11, 12, Block 17; Lots 3, 4, 5, 6, 7, 8, Block 18; Lots 1, 2, 3, 4, 5, 6, Block 19; all in Original Juliaetta, Idaho, according to the recorded plat thereof; and Lots 21, 22, 23, 24, 25, 26, 28, of Pleasant Home Addition to Juliaetta, Idaho, according to the recorded plat thereof.

The name of the canal or ditch or other works by which said water is conducted to such place of use is None.

The right to take water from such works is based upon Permit No. 25029.

The source of supply from which such water is diverted is Middle Branch Potlatch Creek.

The date of priority which said user is prepared to establish is June 3, 1954. MARK R. KULP, State Reclamation Engineer. First pub. June 2, 1955. Last pub. June 23, 1955.

NOTICE OF SPECIAL BOND ELECTION WITHIN KENDRICK JOINT SCHOOL DISTRICT NO. 283 OF NEZ PERCE, LATAH AND CLEARWATER COUNTIES, IDAHO.

NOTICE IS HEREBY GIVEN that a Special School District Bond Election will be held within the foregoing School District on FRIDAY, JUNE 24, 1955, at which election there will be submitted to the qualified taxpayer electors of said School District (who are otherwise qualified and entitled to vote at said election as by law provided) the question whether the Board of Trustees of said School District shall be authorized to issue the Negotiable Coupon Bonds of said School District in the principal amount of not more than \$305,000.00, thereby incurring a school indebtedness in said amount, for the purpose, as expressed in the Resolution of said Board, adopted May 24, 1955, of obtaining funds to provide for and to pay the cost and expense of the following:

- (a) The construction of a two room Elementary School at Southwick, Idaho.
- (b) The construction of an addition to the present school at Kendrick, Idaho, to contain twelve classrooms, the repair of the present building, and the acquisition of land as a site for said addition.
- (c) The construction of an addition to the present school at Juliaetta, Idaho, to contain three classrooms, and the acquisition of land as a playground adjoining the same, and furnishing all of the above with necessary furniture, apparatus and equipment.

Said bonds of not more than \$305,000.00 shall be of the denomination of \$1,000.00 each, and shall bear interest at a rate, or rates, of not in excess of four and one-half per centum (4 1/2%) per annum which shall be payable semi-annually, and said bonds shall be amortized and payable in annual installments, commencing at the end of one year from and after the date of issue of said bonds, and annually thereafter, and the various amortized annual maturities shall, as nearly as practicable, be in such principal amounts as will, together with annually accruing interest on all outstanding bonds of such bond issue be met and paid by approximately equal annual tax levies for the payment of the principal of said bonds and the interest thereon during the twenty (20) year term for which said bonds shall be issued, and provision shall be made as required by law, for the levy and collection annually of taxes upon all of the taxable property within said School District, in addition to all other taxes, sufficient in amount to provide for the payment of the interest and to create a Sinking Fund for the payment of the principal of said bonds according to their maturities and within the term thereof as stated above.

The question to be submitted to said taxpayer electors shall be substantially as follows:

"SHALL THE BOARD OF TRUSTEES OF KENDRICK JOINT SCHOOL DISTRICT NO. 283 OF NEZ PERCE, LATAH AND CLEARWATER COUNTIES, IDAHO, ISSUE THE NEGOTIABLE COUPON BONDS OF SAID DISTRICT IN THE AMOUNT OF NOT MORE THAN \$305,000.00; THEREBY INCURRING AN INDEBTEDNESS IN SUCH AMOUNT FOR THE PURPOSE OF CONSTRUCTING A SCHOOL AT SOUTHWICK, IDAHO; THE REPAIR OF THE PRESENT SCHOOL AT KENDRICK, IDAHO; THE CONSTRUCTION OF AN ADDITION TO SAID SCHOOL; THE ACQUISITION OF LAND AS A SITE FOR SAID ADDITION; THE CONSTRUCTION OF AN ADDITION TO THE PRESENT SCHOOL AT JULIAETTA, IDAHO; THE ACQUISITION OF LAND FOR A PLAYGROUND ADJOINING THE SAME, AND FURNISHING OF ALL OF THE ABOVE WITH THE NECESSARY FURNITURE, APPARATUS AND EQUIPMENT; SAID BONDS TO BE AMORTIZED AND PAYABLE IN ANNUAL INSTALLMENTS, COMMENCING AT THE END OF ONE YEAR AFTER DATE, AND THE VARIOUS AMORTIZED ANNUAL MATURITIES SHALL, AS NEARLY AS PRACTICABLE, BE IN SUCH PRINCIPAL AMOUNTS AS WILL, TOGETHER WITH ANNUALLY ACCRUING INTEREST ON ALL OUTSTANDING BONDS OF SUCH BOND ISSUE, BE MET AND PAID BY APPROXIMATELY EQUAL ANNUAL TAX LEVIES UPON ALL THE TAXABLE PROPERTY WITHIN SAID DISTRICT DURING THE LIFE AND TERM OF SAID BONDS; WHICH SAID BONDS SHALL BEAR INTEREST AT A RATE OR RATES, OF NOT IN EXCESS OF FOUR AND ONE-HALF PER CENTUM (4 1/2%) PER ANNUM, PAYABLE SEMI-ANNUALLY, AND THE ULTIMATE MATURITY OF SAID BONDS LAST MATURING SHALL BE TWENTY (20) YEARS AFTER DATE OF ISSUE THEREOF, ALL AS PROVIDED BY RESOLUTION OF THE BOARD OF TRUSTEES ADOPTED MAY 24, 1955?"

BONDS, YES BONDS, NO

The voting place at said election shall be at the City Hall in Kendrick, Idaho.

The voting polls for said election will be open at the hour of 8:00 o'clock, A. M. and will remain open for voting until 8:00 o'clock, P. M. on said date, at which time said polls shall be closed.

In order to vote at said election a voter must be:

- 1. A qualified elector of the District; and
- 2. A bona fide resident thereof for more than 30 days last past; and
- 3. (a) A Taxpayer; or (b) The wife or husband of a taxpayer.

STONY POINT NEWS

May 28 - Leonard Bailey was an over-night guest Monday of Mr. and Mrs. Glen Stevens.

Rev. Ed Byrnes visited in this community Tuesday afternoon.
 A surprise party in honor of her ninth birthday anniversary was enjoyed by Karen Kerby, daughter of Mr. and Mrs. Darrel Kerby, Tuesday evening. The party was late for her birthday anniversary because of the measles epidemic. Guests were Carol Heimgartner, Glenda and Linda Stevens, Linda Holsington, Charlene Ankney and Julie Byrnes.

The Friendship Club met Thursday with Mrs. Floyd Heimgartner. There were 13 members, one visitor (Mrs. Ralph Steigers) and 12 children present at this, the last meeting of the spring. One large quilt was quilted for the hostess, and some embroidery work done on towels. There being no old or new business, Club was dismissed to be resumed again in September.

CARD OF THANKS

The family of Ben Baker wishes to thank relatives, friends and neighbors for their sympathy and many kindnesses, and for the beautiful floral offerings, during our recent bereavement. - Mrs. Anna M. Baker.

Thank You, Friends

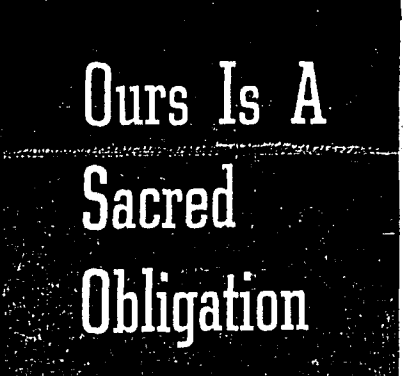

I wish to thank everyone who sent me cards, flowers and gifts, for visits and prayers while I was in the hospital. Sincerely - Chas. Hoffman. pd

Pioneer Association To Meet
 Celebrating Flag Day and Idaho Pioneer Day, members of the Elks Lodge No. 249, and members of the Latah County Pioneer Association, will hold their 15th annual joint session on Sunday, June 12, at the Elks Temple, 112 N. Main St., Moscow. Doors open at 10:00 a. m., with dinner at 12:30 p. m. Coffee, sugar and cream will be furnished.

The program will begin at 2:00 with a Flag address, a pioneer address, and special music, closing with a memorial in memory of the more than 160 Latah County pioneers who died since June 1, 1854. This is by far the largest number of deaths of pioneers in any one year in the history of the county.

4-H Dairy Day Scheduled
 A county-wide 4-H Club Dairy Day will be held at Moscow on June 7th. Beginning at 10:00 a. m., groups of 4-H Club members and leaders and friends will be conducted through the Arden Farms processing plant in Moscow. Following this inspection trip the members will convene at Recreation Park on West Sixth St. They are to bring their own lunch, but milk will be furnished by the Arden Co.

The feature of the lunch hour will be a discussion led by Howard Copenhaver on "Raising the Dairy Calf." At 1:00 o'clock the group will meet at the dairy barns at the University of Idaho, where they will judge three classes of dairy cattle. Assistance in the dairy judging will be given by members of the dairy department of the university.

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, FOLKS:

Going fishing Saturday? We'll bet that most of you are! So come in and let us service your car for that trip. Grease it with Union Lubricants; fill the crankcase with Royal Triton; check your tires and wash your windshield, and otherwise have it ready to go. But from all reports, waters are still high and muddy, so if you want to be able to tell your friends "we had all the fish we wanted to eat," better stop at one of the local stores and stock up on salmon, sardines, etc.

"Now then, young man," demanded her father irritably when the young fellow called for the tenth time, "what do you want with my daughter?"
"Wi-with her, sir? Well, you know best what you can afford."

Are you ready for summer's driving? (Provided summer ever comes) Are your tires in shape? If not, come in and talk it over with us. You'll be surprised at how cheaply you can own a set of famous U. S. Royals or U. S. Royal Masters!

Gay Blade: "Yes, I take very naturally to dancing. My business has helped me a lot."
Dolly: "What is your business?"
Gay Blade: "Furniture moving."

Need stove oil for this spring's "winter"? If so call 1251 — we'll do the rest — it's Union, too!

A girl applied for a job as stenographer, and they gave her a spelling test. "How do you spell Mississippi?" she was asked.
"The river or the state?"
