Has Finished Grandfather Clock
June 28, 1935 — A year or two ago, B. F. Nesbit received from Connecticut, portions of the wooden works of what had been, probably more than a hundred years ago, a perfectly good time keeper, but had been allowed to fall apart, until many of the wood wheels in the works were missing.

Mr. Nesbit set to work, gradually making and assembling the wheels until the works were finally complete. But that was not enough — the clock was a 24-hour affair, and he decided to make it into an eight-day clock. This being accomplished, he then added to the calendar part of the works, a moon phase, and the mechanism now tells the time of day in hours, minutes and seconds, tells the day of the month and gives the moon changes in mathematical order. Mr. Nesbit also made the dial and hands, and a superb job of workmanship it now is.

In the meantime he has been leisurely working on a case for "Grandfather Clock," which too is a work of art, and shows Mr. Nesbit as a wonderful cabinetmaker, as well as jeweler and apothecary.

New Swings And Teeters In Park
June 14, 1935 — A starting of playground equipment for the city park has been made by the city council, at the suggestion of the Beautification Committee appointed by the president of the Kendrick Commercial Club some time ago. Credit for this improvement goes principally to the ladies of this committee, who have been very active in the work.

Three teeter-totters and four chain swings have been erected in the city park for use of the kiddies of the town — and all others who may wish to make use of them. It is planned also to have a slide or two put in place when the proper kind can be found.

The Village Council minutes also stated that orders for the removal of the hitching racks from their present place to different places at the rear of stores, and on side streets, where even more room for hitching teams and unhitching for feeding purposes will be provided. The new hitching racks and feeding places will be fully as convenient as those now in use, and will take an unsightly place away from Main Street and the park.

JULIAETTA COMMENT
By T. O. Greene
June 28, 1935 — Haying season is nearly over in the Big Potlatch region. While the yield is not so heavy as in former years, because of the lack of rainfall, the quality was never better, according to Walter Clark, one of the most successful farmers in this area. Mr. Clark has just harvested 80 acres of alfalfa hay. He has been unusually successful not only in raising hay, but also hogs. His hogs are crosses between the large-boned Poland China and the Chester White varieties. He sells his pigs at \$5.00 each at weaning time and is unable to supply the local demand. Of four gilts, three recently gave him litters of 10 pigs each, while the fourth farrowed 13. Forty-one of the 43 are alive and thriving, giving the promise of a neat sum of \$205 for the first offspring of only four young sows.

The low price of eggs that has prevailed during the past two years has apparently not discouraged the raising of chickens. Thousands of young chicks, from a day to six weeks old have been shipped to Juliaetta this spring. Wm. Heimgartner of Fix ridge reports that of 400 chicks received in one shipment, he has lost very few. Eggs are selling from 18c to 20c a dozen, locally.

Cherry packing is expected to begin here the first week in July. A carload of box material has already arrived at the warehouse from the E. A. White Co., Lewiston, a firm which packed and shipped several carloads from Juliaetta last year. While the wheat growers are anxious for rain, the cherry growers are hoping strongly there will be no rain until after cherry picking time. Rain at this time would crack the skins of the fruit and cause heavy loss due to thorough culling.

About This Issue
As you are undoubtedly well aware, at least if you have looked at any of the article date lines, we are again printing our annual "Twenty Years Ago" issue, in which most of the news is of doings twenty years ago.

Of course, some is, of necessity, up to date, and of course all advertising is current.

Were it possible for local merchants to sell (if only for one week) at the prices listed in the papers of twenty years ago, Kendrick would see a trading boom unknown to those days, for example: Long's Store said — Crystal White Soap, 10 bars, 32c; Onion sets, 4 lbs. 25c; Pequot sheets, \$1.99, \$1.39; Ladies' Voile dresses, \$1.79; "Red A" coffee, 1 lb. 19c; Crisco, 3 lbs. 66c; dressed fryers, 1 lb. 20c; bacon, extra special prime, 1 lb. 28c — the Kendrick Hardware said — Full ball bearing lawn mowers, 5-knife with high wheel, \$8.50; 50 feet best quality garden hose \$3.75; .22 ammunition, box, 18c to 31c with 5 percent off in 500 lots. McDowell's Confectionery said — Hamburgers 10c, with all the coffee you can drink. E. O. McAllister said — Cherries, 2c per lb. The Kendrick Garage — a 475x19 Goodyear Tire, \$5.45. The Washington Water Power Co., a new Thor Speed Ironer for only \$44.95 cash; Westinghouse Flavor Zone Electric range \$89.50.

We have tried to pick from the files items most representative of those times and we sincerely hope you enjoy them.

The publication of this paper permits us to add a few short days to a short vacation.

INTERESTING NEWS BITS FROM OUR LOCAL SCHOOL

May 24, 1935 — This week marks the end of one of the most successful school years that Kendrick High school has ever enjoyed. Everyone is well pleased with the results that have been obtained, and it is to be hoped that future years will be as successful as this one.

Of the 17 Seniors who took part of their final examination, the Standard English Placement test for the University of Idaho, none fell below the standard set for University entrance requirements. Clem Lyons, Wayne Yenni and Wayne Wegner made "proficiency score," and Margaret Daugherty missed that score by but one point. Those people would be eligible to take a second test at the University. Should they pass this second test, they would be exempt from one semester of Freshman English.

The Juniors and Seniors went on a picnic Tuesday evening.

On Monday of this week the Seniors held their annual Class Day. Mr. Lyle was in charge of the program, which included: Salutatory address by Clem Lyons; Class Will, by Glen Wegner; Class History, by Jeanne Ramey; Class Prophecy, by Ronald Jones; speeches by the teachers; a song by Joyce Johnson, accompanied by Roberto Weeks, and the awarding of basketball letters to players. There was no special program given as the school exhibit occupied the evening.

Supt. Lyle announced that arrangements had been made to secure from the state serum for smallpox, diptheria and typhoid, which will be administered by Dr. D. A. Christensen. This not only applied to children of school age, but also to those of preschool age. The only charge will be 10 cents, to defray certain expenses.

This will be a splendid opportunity for parents to have their children immunized for these diseases, or at least to cause them to be in light form, should they be contracted.

Caught Large Trout
June 28, 1935 — Some other fishermen have been doing a good deal of "strutting" just because they caught a good-sized fish, using a fancy bamboo pole, reel and other like "moneysed" paraphernalia, but it remained for young Donald Fry, 10-year-old son of Mr. and Mrs. Clarence Fry, to bring in a 23 1/2-inch trout Wednesday evening that he landed with a piece of brush for a pole, and a fish eye for bait! It was a beauty and the catch was made in Cedar creek.

Reports are to the effect that about 250 acres have been burned over near the forks of Sponge creek in the eastern part of the Lochsa Ranger Station district. Many Went Fishing
May 24, 1935 — From Monday morning reports, at least half the male population of Kendrick went on fishing expeditions last Sunday — and all report a fair catch. It seems that a great many small ones were landed — not one of them getting away — but practically every large one hooked still is in its native habitat. However, we'll venture to say that more fish were "caught" on the sidewalks of Kendrick Monday morning than were landed all of Sunday — and most of them were big ones, too.

However, it will be one of the crack fast trains between Seattle and Chicago in the future. Air conditioning takes all the dust and dirt out of the cars and keeps them at an even temperature, making travel really a pleasure instead of something to be dreaded, especially in the summer time.

There were a total of 987 signer votes cast. Of these 887 were for continuation and 100 against it. Ninety-eight non-signer votes showed 73 for and 25 against continuation.

The percentages for and against in Latah county were about the same as the national average, said Mr. Benjamin.

Juliaetta Drops Game
 May 31, 1955 — Juliaetta was defeated by Erb's Bengals last Sunday on the Lewiston diamond by a score of 5-2. This was Juliaetta's first defeat of the season.
 The loss of this game was due mostly to errors and lack of practice. The batteries were: Juliaetta—Tilden and Carlson; Lewiston—Lawrence and Harrington.

Caught Four-Pound Trout
 May 17, 1955 — George Crocker can boast that he has thus far caught the largest trout that has been taken from the Potlatch this season — or for several seasons for that matter — he having landed a beautiful specimen last Sunday that tipped the scales at four pounds and measured an even two feet in length. He also had several others that we "not so bad."

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, FOLKS:

Well, this week Bill is putting out his 20-Year-Ago Edition. We can't do it with our section, as we weren't in business that long ago, but we can say this: Year by year the Union Oil Company keeps improving its products, and today we believe that they are without a peer. Witness the wonderful 76 Premium Gasoline, and 7600 Gasoline. Team one or the other of these power factors with Royal Triton Motor Oil and Union Lubricants — and you're set for the road — or for work in the field.

"Mummy," said little Brian, "Percy doesn't know how to swim because his Mummy won't let him go near the water."
"Well, Percy's a very good little boy."
"Yes," answered Brian thought-

fully, and "he'll go to Heaven the very first time he falls in!"

Folks — We've got some prices on U. S. Royal and U. S. Royal Master Tires that will "knock your eyes out." Come in and "talk trade with us." You'll be surprised at just how cheap you can own a set of these wonderful tires!

"Why is Mr. Knight pacing up and down on their front porch?"
"He's awfully worried about his wife."
"Is that so? What's she got?"
"The family car!"

Why slave and sweat cleaning up your car? Let us do it. We wash, vacuum clean, polish and lubricate cars, pickups, trucks. Try us!

We wash windshields — free!

Weaver, residing in the Cedar Creek section, brought to town some as pretty specimens as one would care to see — and sound as a dollar (as the saying goes) although the old American Dollar "ain't what she used to be."
