## INTERESTING NEWS NOTES FROM THE SOUTHWICK AREA

### Club and Society Meetings

The Southwick Homemakers Club will meet on Thursday at the home of Goldie Mustoe, with Mrs. Mustoe as hostess and Edna King as co-hostess. Because of extreme weather conditions we have missed one meeting, and are a little behind with our work — so everyone plan on being present and help to make up for the lost time.

The Missionary Society of the Southwick Community Church met on Friday at the home of Mrs. Russell Perkins. Three quilts were finished for the missions, and baby gowns cut out and sewed. Dinner was served to twelve ladies, with Rev. Lloyd Laubach and Ervin Fry as guests, at noon.

The 4-H Club will meet Thursday afternoon at 4:00 in the home of Mrs. Rollin Armitage. Norman Fitzsimmons, Nezperce County 4-H Club agent will be present at the meeting. The boys interested in 4-H Club work are urged to attend in order to organize their club. Anyone and everyone interested in Club work is urged to come.

The Missionary Society of the Southwick Community Church would like anyone having recipes, religious poems, thread, pins, buttons, tape, etc., as well as short pieces of material which they are not going to use, and are willing to give to missionary work, to please notify Mrs. Ervin Fry, Rev. Lloyd Laubach, or any others of the Missionary Society. A way will be found to collect it and put it to practical use.

### Appears on TV

Those of us fortunate enough to see Channel III on TV every evening, saw Mrs. Rollin Armitage make her appearance on that channel Monday evening between 6:30 and 7:00 o'clock. All were pleased to see her.

### General Items

Guests at the home of Mr. and Mrs. William Jennings on Sunday were Mr. and Mrs. Elton McCoy.

Mrs. Milton Benjamin and Mrs. Ervin Fry were callers on Wednesday in the home of Mr. and Mrs. C. A. Cuddy.

Mrs. C. A. Cuddy is recuperating at their home after undergoing major surgery in Lewiston at the St. Joseph's hospital. Last week their daughter-in-law, Mrs. Dave Cuddy of Clarkston visited in their home, assisting with the work. Miss Annabelle Cuddy arrived from Seattle during the week and is visiting for a while in the home of her parents.

Guests Sunday evening in the home of Mr. and Mrs. Ervin Fry were Mr. and Mrs. Carl of Clarkston.

Sunday guests in the home of Mr. and Mrs. Verlin Benjamin were Mr. and Mrs. Al Pederson of Gold Hill and Mr. and Mrs. Elmer Browlett and family of Colfax.

Frank Laubach was a Sunday dinner guest of Warren and Eldon Fry.

Sunday dinner guests in the home of Mr. and Mrs. William Jennings were Mr. and Mrs. Albert Helm and family.

Bill Mitchell, Moscow; Billy Cowger and Herman Kuykendall spent Sunday in the home of Billy's parents, Mr. and Mrs. Abner Cowger.

Mr. and Mrs. Clay King were guests Sunday at the home of Mr. and Mrs. Ray King, Cavendish.

Mr. and Mrs. Arlie Armitage visited Sunday at the Frank Holsington home on Big Bear ridge.

Mr. and Mrs. Jack Mustoe drove to Joseph, Oregon, over the week-end, where they were guests in the home of her parents, Mr. and Mrs. Wilbur Colwell.

Mr. and Mrs. Charles Hill and son of Lewiston were visitors Sunday in the home of Mr. and Mrs. Darwin Tarry.

Sunday guests in the home of Mr. and Mrs. Ernest Brammer were Mr. and Mrs. James Whitinger.

Following the funeral of Mrs. Mick Armitage at Orofino on Friday, a family dinner was served at the T. J. Armitage home. Guests included Elbert Armitage of Spokane; Mrs. Carl Mustoe of Kellogg, Idaho; Mr. and Mrs. Ross Armitage and Mr. and Mrs. Max Clemenhagen of Kendrick; Mrs. William Jennings, Mr. and Mrs. Arlie Armitage and Mr. and Mrs. Rollin Armitage. During the evening Mr. and Mrs. Given Mustoe were callers. Elbert Armitage returned to Spokane Saturday, and Mrs. Carl Mustoe to Kellogg, the same day.

Mrs. Russell Perkins went to Lewiston on Monday, accompanying her daughter, Mrs. Leland Marvin and son Darryl to Walla Walla, on Tuesday. Mrs. Neil English of Clarkston also accompanied them to that city. All returned home on Wednesday.

Mrs. Roy Martin spent Tuesday visiting in the home of Mrs. Russell Perkins.

LaVella Thornton was a Sunday over-night guest in the home of Rosalie Helm.

The inclement weather of the past week has certainly not been enjoyed — but maybe when spring does come it will come to stay!

### Birthday Surprise

Mrs. Roy Glenn was surprised on her birthday anniversary, which was Sunday, when members of her family dropped in with a birthday dinner all prepared. The self-invited guests were Mr. and Mrs. Albert Glenn and son Eldon, Mr. and Mrs. Chas. Taylor and son Dale, Mr. and Mrs. Chas. Eastbrook and son Chad and John Glenn. In the evening Mr. and Mrs. Arnold Woody of Boise and Mr. and Mrs. Manning Onstott and son Ray called to offer congratulations.

## Final Rites For J. L. Johnson

Funeral services for John Lee Johnson were held Thursday at the Kendrick Community Church, with the Rev. Hubert Deweber of the Kendrick Assembly of God Church officiating. Mrs. George E. Evans sang hymns, accompanied by Mrs. Herman Schupfer at the organ.

Honorary pallbearers were Harley Eichner, Walter Benscoter, Harry Benscoter, Frank Benscoter, Richard Blewett and Ben Westendahl. Active pallbearers were Wade T. Keene, Clarence Dougharty, E. A. Deobald, C. G. Arnett, Adria, Johns and Norrell Callison, all old-time friends of the deceased.

Burial was in the Kendrick Cemetery, with Brower-Wann Funeral Home of Lewiston in charge.

## FRED MAGEE, FORMER CEDAR RIDGE RESIDENT, DIES

Genesee — Fred Magee, 60, a well-known Genesee grain and cattle farmer, died Friday night about 7:30, at the Gritman Memorial hospital in Moscow. He had been a patient in the hospital since Wednesday, after suffering a heart attack.

Mr. Magee was prominent in the activities of the Masonic Lodge. At the time of his death he was District Deputy Grand Master of the Second District Masonic Grand Lodge. He was a Past Master of the Masonic lodge at Genesee, and a Past Patron of the Order of Eastern Star, also at Genesee.

His Lewiston affiliations included the Elks Lodge, the Scottish Rite and Calam Temple of the Shrine. He was a member of the Community Church at Genesee and taught an adult Bible class in the church. He also was president of the Christian Men's Brotherhood.

Mr. Magee was born June 2, 1895, at North Dower, Ontario, Canada. He grew up and married in Canada. He and his family moved from Carlyle, Canada, to the Cedar Ridge area, near Kendrick, in the early 1930s, where he farmed extensively. The family moved to Genesee in 1944.

He was a brother of the late Dr. C. F. Magee of Moscow, and was the last of several brothers in the family.

Besides his farming activities he was a licensed auctioneer and was a representative of a life insurance company during the past year. He was injured three years ago in a tractor accident while repairing the machine, and at that time he underwent major abdominal surgery for the injury.

He is survived by his wife, Edna, at the family home in Genesee; two sons, Fred, Jr., a student at the University of Idaho, and George Magee of Genesee; two daughters, Margaret Dirks of Midland, Mich., and Mrs. Melvin Wetzel of Crowsfoot, Cuba.

Final rites were conducted Monday afternoon at 1:30 in the Genesee Community Church, with the Rev. R. Melford Knight officiating.

Elvon Hampton and Wayne Hampton sang, accompanied by Mrs. Elvon Hampton. Pallbearers were Thor Gilje, Robert Schooler, Jesse Johnson, Merle Roberts, Forrest Durbin and William Mervyn, Jr.

Burial was in Normal Hill Cemetery at Lewiston. Unity Lodge No. 32, A. F. & A. M., was in charge of the graveside rites. G. Wilbur Lee of Clarkston was acting Worshipful Master and Wayne Hampton of Genesee was chaplain. Vassar-Rawls Funeral Home of Lewiston made arrangements.

## Final Rites For Charlie Harris

Final rites for Charlie Harris, well known former Southwick resident, were held at 2:00 p. m., Thursday, Feb. 16, at Short's Chapel, Moscow, with the Rev. Elton Hilliard bringing the message. Glen Lockery sang "The Old Rugged Cross," and "Abide With Me," accompanied on the organ by John Larson.

Active pallbearers were Henry Tschantz, Chris Tschantz, Wilbert Brunick, Ernest Brammer, Tom King, Clay King. Honorary bearers were Wm. James, Wm. Kammerer, B. W. Davidson, Howard Hatley, John Cane, Charles Kincaid, Werner Ziemann, Jim McGreevy, Otis Barbee, Paul Lideman and Harry Lideman.

Interment was in Sunset Memorial Gardens, Moscow.

## Winner in Plenums Contest

In the "Plenums Sweepstakes" race which ended nationally on Nov. 30, and sponsored locally by the Red Cross Pharmacy, Mrs. Elwood Rosseau was one of the winners. She was awarded a year's supply of Plenums, worth approximately \$25.00.

## LIONS COMMUNITY CALENDAR

Note: This calendar is for the listing of coming events. To list items under it, call R. L. Meserve, Supt. of Schools.

## WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

### Cancer Drive Workers

Mrs. M. C. Halliday and Mrs. A. W. Bailey attended the Cancer School at Lewiston on Feb. 10 and 11.

At the school Mrs. Bailey was appointed Drive chairman for the Juliaetta area. She will be assisted in this work by Mrs. M. C. Halliday and Mrs. Harvey Shepherd. Mrs. Edith Clark has been named Drive chairman for Fix ridge.

### Dinner on Birthday Anniversary

On Sunday a birthday dinner was held at the Wm. Groseclose home in honor of her 79th birthday anniversary. Those present included Mrs. Annie Groseclose of Oregon City, Ore., a daughter of Mrs. Groseclose, who formerly resided here, and Mr. and Mrs. Carrol Groseclose and family.

### Rebekahs Initiate Four

Initiation ceremonies for four candidates were held Thursday evening by the Juliaetta Rebekah Lodge, with Mrs. Floyd Millard, Noble Grand, presiding. Admitted to membership were Mrs. Ross Armitage, Mrs. Wm. Cuddy and Mrs. Dick Cuddy of Kendrick, and Mrs. Mary Millard, Juliaetta.

One of the highlights of the initiation was the Past Noble Grand's Charge, given by Mrs. Charlie Irwin, who is 84 years old.

Secret Pal names were drawn during the refreshment hour.

### Dinner Honors Anniversaries

Mrs. Laura Nelson and daughter Karen gave a dinner last Sunday honoring several relatives and friends whose birthday anniversaries fell in February. These included Mr. and Mrs. Ed. Groseclose of Arrow; Mrs. Howard Wunderlich and Mrs. Paul Baldwin, both of Orofino; Donna Mabbott and Mrs. Mable Westling of Juliaetta.

Also present during the day were Howard, Larry and Linda Wunderlich, Cecil Wilson, Paul Baldwin and John Groseclose, all of Orofino; Macie and Bert Nye, Gene Groseclose, Gary Eggers and Linda Adams, all of Juliaetta.

### General News

Miss Dolores Bailey, S/N of Pendleton, Oregon, is now at home visiting her parents, Mr. and Mrs. A. W. Bailey for a week, following completion of three months specialized training in Salem, Oregon. She will return to her studies at Pendleton on Sunday.

Mrs. Everett Custer of Pullman is here caring for her mother, Mrs. Sam Gruell, who is ill with a bronchial disorder.

Mr. and Mrs. Max Gruell and daughter Sharon and Mr. and Mrs. Roy Gruell and son Bobby of Craigmont, visited Sunday in the home of Mr. and Mrs. Don Gruell — the occasion being Don's birthday anniversary.

Mrs. Mary Ottosen has returned from Tacoma, where she spent two months with her son and daughter and their families.

Rev. and Mrs. R. E. Bebout attended a Nazarene District Sunday School Convention in Pasco, Wash., on Thursday.

Mrs. Annie Garrison of Oregon City, Oregon, has been visiting in the William Groseclose home.

Mrs. Ike Ostman enjoyed a birthday anniversary dinner with her children and grandchildren in Lewiston, Sunday.

Mrs. Vada McAllister has returned to her home from the Lewiston hospital, and is now recuperating nicely.

The N. F. M. S. is to meet at the home of Mrs. Martin Shove on Thursday at 1:30. Members and friends are most cordially invited.

Mr. and Mrs. Roy Rosso and twins, Betty and Bob, were Monday evening dinner guests in the home of Rev. and Mrs. E. E. Bebout.

Mr. and Mrs. Clarence Leshures of Swift Current, Canada, are visiting in the Earl Gaskill home.

Mrs. Jane Currier of Longview, Wash., and her daughter, Mrs. Myrtle Patterson and daughter were Friday guests of Mr. and Mrs. Lloyd Knight.

Mr. and Mrs. C. O. Meyer of Seattle were recent guests of Mr. and Mrs. Teddy Peters and Mr. and Mrs. G. Clark.

Rev. and Mrs. R. E. Bebout have returned from a visit with relatives at Dayton, Wash.

The Joe Wing family were visitors in the Bill Bowen home Friday evening.

The Lyle Pea family have been visiting at the Pea family home in Moscow this week. Mr. Pea's father, Eli Pea, passed away recently. The funeral services were held Wednesday afternoon.

Mr. and Mrs. J. M. Mead left by train Monday for San Francisco, on a combined business and pleasure trip. Mr. Mead will attend a meeting of the Western Pine Association.

### Test Now Run on Well

A test was run last week on the Kendrick village well following completed installation of the rebuilt pump and results were quite satisfactory.

A continuous flow of 130 gallons per minute was shown, despite the fact that a tiny "pin-hole" leak appeared in the booster pump.

At the time of installing the rebuilt pump a new flow meter was also put in, so there is now doubt about the accuracy of the test.

E. M. White, village custodian, says that for several weeks now the big well has been overflowing — for the first time in a couple of years, indicating that once depleted sub-soil moisture is coming. He adds that he believes there will be plenty of water for all this coming summer.

After the "pin-hole" leak is repaired in the booster pump a test of several hours will be made.

## SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

### Number 20,000

Talking to Mrs. White, our cook, we find that number 20,000 is soon to be entering the lunch room. Mrs. White says: "That person will enter the lunchroom sometime this month — and will receive a free lunch."

### Substitute

Due to Connie Fey's illness, Ada Westendahl is helping Mrs. White in the kitchen, serving the lunches. To Mrs. Fey we send our best wishes and hope that she will recover soon.

### P.-T. A. Factfinding Committee

The members of the P.-T. A. Factfinding Committee met Monday evening, March 5, to count up the questionnaires which we sent out to the parents of school children in this district, and to real taxpayers.

The questionnaires asked for pertinent information on what the recipient thought of our present school system and what improvements should be made. There were a total of 182 questionnaires examined.

The committee spent four and one-half hours examining those returned to date, but came to no conclusion because of the late hour. The matter will again be discussed during the school board meeting on Wednesday, March 7th.

### Basketball Statistics

Coach Dennis Racicot has completed statistics on the Kendrick Tigers for the basketball season just closed, and we present them to you.

Armitage: 410 field goal attempts, made 128, percentage 31.4; attempted 148 free throws, made 66, percentage 44.6, total points 322.

Wegner: Attempted 333 field goals, made 131; pct. 39.8. Attempted 154 free throws, made 78, pct. 50.6. Total points 340.

Merrick: Attempted 201 field goals, made 72, pct. 36.0; attempted 84 free throws, made 44; pct. 52.4; total points 188.

Cuddy: Attempted 177 field goals, made 58, pct. 33.0; attempted 53 free throws, made 20, pct. 37.7; total points 136.

Christensen: Attempted 143 field goals, made 44, pct. 31.0; attempted 32 free throws, made 13, pct. 40.6; total points 101.

Parks: Attempted 166 field goals, made 55, pct. 32.5; attempted 62 free throws, made 34, pct. 54.8; total points 144.

Clemenhagen: Attempted 69 field goals, made 29, pct. 42; attempted 31 free throws, made 18, pct. 58.1; total points 76.

Lockett: Attempted 54 field goals, made 14, pct. 25.9; attempted 9 free throws, made 4, pct. 44.4; total points 32.

Brocke: Attempted 18 field goals, made 2, pct. 11.1; attempted 11 free throws, made 1, pct. 9.1; total points 9.

Magnuson: Attempted 26 field goals, made 6, pct. 24; attempted 15 free throws, made 7, pct. 46.7; total points 19.

Field goal shooting percentage for entire team, 34.4; free throw percentage, 47.3. Total points for season 1,363.

### Baseball Schedule

Coach Dennis Racicot has announced the following schedule of baseball games:

April 3 — Kamiah, there.  
April 13 — Clearwater, there.  
April 17 — Lapwai, there.  
April 20 — Kamiah, home.  
April 30 — Clearwater, home.

May 3 — Lapwai, home.  
May 7 — Culedas, home.  
May 10 — Culedas, there.

### Activities in Track

There will be a district track meet May 5th at Moscow. The North Idaho Regional Track Meet will follow the above mentioned one, with the date as yet undetermined, but it will be held in Moscow.

Several invitational track meets in which Kendrick will participate are anticipated. Dates and places will be announced later.

A state track meet is also scheduled, in which we hope to participate.

### Football For Next Fall

Football promises to be as interesting as last year, with Kendrick continuing to play 8-man ball. Two leagues have been drawn up by Dist. II, with Kendrick, Culedas, Genesee, Troy, Deary and Elk River in our league.

Clearwater, Weippe, Pierce, Kamiah, Greenecreek and Cottonwood comprise the other. A play-off between the winners of 1st, 2nd, 3rd, 4th, 5th and 6th place in each league will determine their standing within the district.

### Prospects For Glass Backboards

A great deal of interest has been shown in glass backboards for the local gym, following the close of the area tournaments — and it is felt that such boards would be a distinct benefit to the local teams. This, of course, would entail an expense of from \$360.00 to \$500.00, depending on type and styles.

Sufficient school funds for such a purchase are not available — so "outside" help must be secured.

If you are one of those who would like to see this project put over, contact Floyd Millard, Dennis Racicot, Mrs. Glen Wegner or Dick Benjamin.

### Homes Change Hands

Mr. and Mrs. Bob Magnuson have completed a deal whereby they became the owners of the Walter Sillow home this week. They plan to take possession as soon as it is available.

Mr. and Mrs. Dave Clayton have purchased the Tom Keene home here, and hope to move in soon. The house is now occupied by Mr. and Mrs. Bob Magnuson and family.

## Farm Institute Day Success

The annual Farm Institute Day, sponsored by the Kendrick Community Lions Club was held Tuesday of this week and may well be considered a real success.

Despite the rather inclement March weather the streets of Kendrick were filled with cars, and parking room was almost at a premium.

At the free lunch at noon, courtesy of Kendrick business firms, 152 were served. Likewise, the cafes in town were crowded during the noon hour.

A number of farmers, asked about the program, said it "was the best held for some years," and interesting all the way through.

The entire program and the free lunch were in the Fraternal Temple building.

## KENDRICK TIGERS BOW OUT OF LEWISTON TOURNAMENT

### Kendrick Bows out of Tournament

Craigmont eked out a narrow 62-60 victory over Kendrick and Troy overwhelmed White Pine rival Genesee in class B tournament basketball games yesterday at Lewis-Clark Normal School gymnasium.

Both losers were eliminated. Behind 51-42 going into the fourth quarter, the Tigers pulled to within one point of Craigmont, 59-58, with two minutes to play. Craigmont's Jim Osburn scored off a fast break. Jim Kendrick responded with a basket for Kendrick. With 30 seconds to play, Craigmont's Dick Lenz went to the free throw line and made one of two free throws. Kendrick went down the floor but Craigmont stole the ball and retained possession until the game ended.

Jim Osburn paced the Cougars with 23 points while Glen Wegner led Kendrick with 20.

With Lynn Thompson and Osburn pumping in the baskets, Craigmont went out on front early in the game. Kendrick kept on the Cougars' heels through the first quarter, which ended 17-15, but the Craigmont spread widened to as much as 10 points during the second period.

### Tigers' Cold

Kendrick had trouble hitting its layins in the first half and Craigmont was shooting well. Osburn made six baskets in the first half and Dick Lenz made six for six at the free throw line. Craigmont led 35-26 at the half-time.

Craigmont lead widened to 13 points early in the third quarter. Then Kendrick got rolling and matched the Cougars' point for point for the period. Kendrick was getting most of the rebounds, but alert Cougar defenders often intercepted passes.

Free throws represented the only Kendrick scoring for five minutes of the fourth period. Kendrick guards were harrying the Cougars all the way down the court, and the Cougars were often tied up in the forecourt.

Craigmont hit 67 per cent of its free throws (18 of 27) and 37 per cent of its field goal attempts (22 of 60). Kendrick hit 61 per cent on free throws (14 of 23) and 30 percent from the field (23 of 76).

### Interesting Side Views

Lapwai set a new record for Second District Class B tournaments when it defeated Nezperce Saturday night.

Although three high schools, Genesee and Kendrick, have each won the B championship three times, no team had won it for three successive years until the close of the game Saturday night.

Lapwai won its first district championship in 35 years in 1954, repeated in 1955 and again this year. Harley Williams is in his fourth year as coach at Lapwai.

Kendrick's string of titles was broken in 1946 by Kamiah. Kendrick took the championship in 1945, 1947 and 1948. Genesee won it in 1950 and 1951, lost out to Cottonwood in 1952, then climbed back to the top in 1953.

The Tigers won five successive regional, or state tournaments, starting in 1944. They were co-holders of the state flag in 1944 and 1945 — when no state playoffs were held because of World War II restrictions (gasoline and tires).

Kendrick was runnerup in the state in 1946 and won the title a year later. The Tigers took the 1948 regional meet. Ross Armitage was coaching Kendrick then. It's his son, Jim, who was this season's center for the Kendrick Club. Jim's a senior.

### Entertain Basketball Team

In honor of their ninth anniversary of doing business in Kendrick, Mr. and Mrs. Louis Wright of the Kendrick Bakery were host and hostess to the Kendrick High School basketball team, the team managers, Coach Dennis Racicot and the K. H. S. Cheer leaders, Tuesday evening in the Kendrick Bakery.

Following is the menu served: Elk River, Deary, Potlatch Cocktail; Roast Lapwai Wildcat; Culedas Dressing; Nezperce Indian Gravy; Crushed Pierce Berries; Mashed Genesee Bulldogs; Candied Troy Trojans; Buttered Clearwater Rams; Grangeville Bulldogs with Butter; Chilled Winchester Loggers.

Drink: Craigmont Cougars Beverage, and dessert, Weippe with Whipped Libby.

### Honors Daughter's Anniversary

Mrs. Roy Glenn entertained at a surprise birthday anniversary dinner and party Thursday evening for their daughter Sally, honoring her 12th birthday anniversary.

Guests included Sharon Deweber, Pamela Schmidt, Julie Ann Rowden, Karen Groseclose, Ann Dagefoerde, Nancy Moore, Judy Benscoter and Dee Magnuson.

## P.-T. A. FACT FINDING COMMITTEE REPORTS RESULTS

The P.-T. A. Fact Finding Committee met at the High School Monday evening for the purpose of canvassing the questionnaires that had been returned.

The four-and-a-half-hour tabulation job revealed that 191 householders had completed the questionnaire out of a total of 497 that were mailed out to the residents of this school district.

The tabulation showed an excellent return from property owners, 166 in this category having returned their questionnaires, and 25 returned by non-property owners.

The committee wishes to express their appreciation for the interest shown by those who completed and returned this questionnaire. Because of the length of time necessary to tabulate the returns there was not sufficient time Monday evening to correctly analyze the varied opinions presented. This will be done at a future meeting. The committee plans to meet with the School Trustees this Wednesday afternoon.

As soon as the answers can be carefully and completely analyzed the results will be presented to the P.-T. A. and made public.

Comments were many and varied, as could be expected. A typical example is: "If we are going to have children, we are going to have to have schools. Someone helped to pay for our education, so it is only fair we help others get their education."

Rev. H. L. Deweber wrote the following comments on his questionnaire: "It would seem reasonable that we should have a school system in keeping with the needs of our day. Perhaps a new method of finance should be investigated. I am sure most parents of children (who are not property owners) would be happy to assume part of the obligation in order to send their children to a modern and up to date school. I would be glad personally to make an annual contribution comparable to that made by my neighbors, who are property owners (if such a system could be worked out). If we, as local citizens are interested in the expansion and progress of our community, we must do something about our school situation. Respectfully submitted — H. L. Deweber."

The committee feels that this questionnaire has accomplished its purpose of finding the wants of the people and any building program recommended by the Fact Finding Committee will be guided by the results of the questionnaires.

## BRIDAL SHOWERS IN SPOTLIGHT

### Pre-Nuptial Shower

Miss Ann White was complimented with a pre-nuptial shower last Wednesday evening in the Community Church parlors.

Several fun games were played with Mrs. John Deobald and Mrs. Keith Thornton winning prizes.

The honor guest was then seated at the beautifully decorated gift table and opened and displayed her many presents. Her mother, Mrs. E. M. White and her fiances mother assisted her.

Refreshments were then served from a lace covered table, which was centered with daffodils and lighted tapers. Hostesses included the Mesdames E. A. Deobald, Geo. Brocke, Sr., and W. L. McCready.

Miss White is the bride elect of Harvey Dale, Lewiston, and their wedding is scheduled for March 10.

### Bridal Shower

Members of the Community Church Choir honored Miss Oerta Holt with a bridal shower Thursday evening of last week at their practice hour.

The group met in the home of Mrs. Herman Schupfer, where all joined in playing several appropriate games before the bride-to-be opened and displaying her gifts.

Appropriate games were played with prizes being won by Mrs. Burton Souders, Jr., and Mrs. Bud Eichner.

**NEWSY ITEMETTES FROM AMERICAN RIDGE AREA**

The Hi-Hope Club will meet on Thursday, March 15, at 1:30 p. m. in the home of Mrs. Norla Callison. The topic will be "Safety In The Home," with Mrs. Wayne Davis and Mrs. Lawrence Heimgartner as leaders.

**General Items**

Bob Nelson and son Jim were in Spokane on business Tuesday.

Walter Benschoter was a Monday caller in the Norla Callison home.

Mr. and Mrs. Norla Callison and son Bobby were Friday evening visitors in the home of Mr. and Mrs. Bob Smith and family.

Mr. and Mrs. Walter Benschoter and daughters were Sunday dinner guests of Mr. and Mrs. Frank Hoisington on Big Bear ridge.

Mr. and Mrs. Geo. Havens and son Rayner were Saturday evening visitors of Mr. and Mrs. Wayne Davis and family.

Mr. and Mrs. Bob Nelson attended the basketball games in Lewiston on Tuesday and Wednesday of last week.

Barry Garner was a Monday overnight guest in the Bob Nelson home.

Mr. and Mrs. Norla Callison and son Bobby were Moscow visitors on Saturday.

Mr. and Mrs. Wayne Davis and family were Friday evening callers in the George Havens home.

Mr. and Mrs. Bob Smith and family spent the week-end in Spokane with her parents, Mr. and Mrs. John Geiselbrecht.

Mr. and Mrs. Don Benschoter and family of Cottonwood spent the week-end with his parents, Mr. and Mrs. Frankie Benschoter.

Mrs. Bud Eichner attended a bridal shower honoring Miss Oreta Holt in Kendrick, Thursday evening.

Mr. and Mrs. Bob Smith were in Lewiston on Monday.

Mrs. Harry Benschoter spent from Friday until Sunday in Peck with her parents, Mr. and Mrs. Dan Lyle.

Tom Cox, who is attending the U. of I., spent the week-end in the Ed. Kent home.

Mrs. Lawrence Heimgartner and Mrs. Wayne Davis were Lewiston visitors one day last week.

Mr. and Mrs. Bud Eichner attended a card party in the Geo. Brooke, Jr., home Saturday evening. Little Becky spent the night with her grandparents, Mr. and Mrs. Herman Schupfer.

Mr. and Mrs. Harley Eichner spent Sunday evening with Mr. and Mrs. Wayne Davis and family.

Mr. and Mrs. Frankie Benschoter spent Friday night in Lewiston with her sister, Mrs. Ruth Odem.

Mr. and Mrs. Bud Eichner and daughter Becky were Saturday luncheon guests of Mr. and Mrs. Harley Eichner.

Mr. and Mrs. Ed. Kent were Saturday evening visitors in the home of Mr. and Mrs. Frankie Benschoter.

Mr. and Mrs. Ed. Kent and Mr. and Mrs. Frankie Benschoter were Monday evening supper guests of Mr. and Mrs. Wayne Davis and family. The dinner honored Wayne's birthday anniversary.

Mrs. Harry Benschoter spent Tuesday in Lewiston with her sister, Mrs. Lillian Puckett.

Mrs. Lawrence Heimgartner and Mrs. Wayne Davis attended the Leadership School in Moscow, a week ago Friday.

Mr. and Mrs. Harley Eichner were Lewiston visitors on Tuesday.

Mr. and Mrs. Herman Schupfer spent Sunday evening with Mr. and Mrs. Bud Eichner.

Reggie Wegner spent Thursday night with Rayner Havens.

Mr. and Mrs. Lawrence Heimgartner and family and Sharon Fey were a week ago Monday callers in the Geo. Havens home.

Mr. and Mrs. Henry Brammer were Sunday dinner guests of Mr. and Mrs. Werner Brammer and daughters.

Mr. and Mrs. Warney May were in Lewiston on business, Tuesday.

Mr. and Mrs. Ernest Andrews spent Thursday afternoon (a week ago) with Mr. and Mrs. Geo. Havens.

Mr. and Mrs. Harry Benschoter and Mr. and Mrs. Ernest Andrews attended the basketball games in Lewiston on Tuesday, and Mrs. Benschoter and Mrs. Andrews attended again on Wednesday.

Mr. and Mrs. John Scott and sons of Lewiston were Sunday dinner guests of Mr. and Mrs. Ernest Andrews and family.

**FIX RIDGE ITEMETTES**

The Lutheran Missionary Society will meet at the home of Mrs. George F. Denmler on March 14.

Mrs. Adolph Denmler underwent major surgery Thursday of last week at the Grifman Memorial hospital in Moscow. We understand that she is doing as well as could be expected.

Among those who attended the basketball tournament in Lewiston last week were Mr. and Mrs. George Denmler and daughters, Mr. and Mrs. Bennie Weatherly and son, Mr. and Mrs. Walter Denmler and family and Elmer Heimgartner and daughter.

Adolph Denmler was an overnight guest of Mr. and Mrs. Bob Heimgartner of Moscow, Wednesday.

Mrs. Annie Weaver and son Alex were dinner guests of Adolph Denmler and family, Sunday.

Mr. and Mrs. Rex Taber and daughter Jeanette were Lewiston visitors on Friday.

Mr. and Mrs. Walter Denmler and family were Saturday evening visitors in the home of Mr. and Mrs. Smith King and daughter at Lewiston.

Rowena Elkum and Maurine Luedke of Genesee spent Saturday and Sunday with Janice Denmler.

Linda Denmler was an overnight guest of Linda Springer in Genesee, Thursday.

Mr. and Mrs. Caus Clark were Sunday dinner guests of Mr. and Mrs. George Rice of Lapwai.

Mr. and Mrs. Geo. Giese were Lewiston visitors Saturday.

Callers in the Walter Denmler home Sunday were Mr. and Mrs. Tom Denmler and sons, Mrs. George Denmler and daughter Linda, Mikey Hedler and Rex Taber.

**Visit With Friends**

Mr. and Mrs. Wade T. Keene of Lewiston attended the final rites for J. L. Johnson here last Thursday, and then visited for a time with old friends about town.

**PERSONALS AND NEWS BITS ABOUT KENDRICK FRIENDS**

Mr. and Mrs. Roger Maloney and children of Seattle arrived here Saturday of last week for a visit in the home of her parents, Mr. and Mrs. Wayne Kuykendall. They started back to their home Monday morning, but were turned back at Pullman by blizzard driving conditions, so returned to Kendrick and visited until Wednesday.

Vern Choate was a Spokane business visitor on Wednesday of last week.

Mr. and Mrs. Louis Porter of Orofino were Wednesday evening supper guests of Mr. and Mrs. Ervin Swenson.

Mr. and Mrs. Gerald Gustin of St. Maries were Saturday over-night guests in the home of her parents, Mr. and Mrs. Ben Westendahl.

Mr. and Mrs. Jim Jones and son Timmy of Deary were Friday evening dinner guests of Mr. and Mrs. Ben Westendahl. They were over-night guests of her parents, Mr. and Mrs. Giff. Candler, returning to Deary on Saturday morning.

Mrs. Gerald Gustin called on Mrs. Dick Cuddy and Mrs. Wm. Cuddy Saturday morning.

Mrs. John Johanson returned from Spokane, Friday, where she had spent several days.

Mr. and Mrs. Loyd Farrington and children of Gold Hill were Saturday and Sunday guests in the home of her parents, Mr. and Mrs. John Darby.

Mr. and Mrs. David Clayton and Mr. and Mrs. Bob Watts and Patty were Monday evening guests in the Walter McCall home at Lewiston. The occasion honored Mr. McCall's birthday anniversary.

Mr. and Mrs. Vernon Banks and son of Lewiston were Sunday callers in the home of Mr. and Mrs. Edgar Long.

Friday evening dinner guests in the home of Mr. and Mrs. Dick Watson and David were Mr. and Mrs. Clarence Wilson, Ricky and David of Eastside, Oregon; Mr. and Mrs. George Finkle, Mr. and Mrs. Eugene Betts and daughter Gale, Mr. and Mrs. Stewart Wilson and Wilma Marie of Southwick; Conrad Swan, Deary; Mr. and Mrs. Kirk Wilson and Mrs. Billy Wilson.

Mr. and Mrs. A. O. Kanikkeberg returned Saturday evening from a two-week trip to California, by way of Seattle. They visited in Los Angeles and San Francisco, while in California.

Wm. Rogers attended a Union Oil Co. meeting for consignees and retail men at the Lewis-Clark Hotel in Lewiston last Wednesday. Mrs. Rogers accompanied him and visited with her aunt, Mrs. R. Lange, while he was in conference.

Mr. and Mrs. L. Hites and two daughters of Moscow were Sunday callers in the home of her brother and family, Mr. and Mrs. Wm. Rogers. In the evening both families drove up to visit with Mr. and Mrs. Chet. Vincent and family at Leland.

Mr. and Mrs. H. C. Schupfer were Sunday guests of Mrs. Norris Walker in Clarkston.

Dr. and Mrs. D. A. Christensen and son Roger joined their other children, Mr. and Mrs. Douglas Christensen and Mr. and Mrs. Chas. Christensen of Moscow, and Mr. and Mrs. Jim Griffen of Pullman at a birthday dinner Sunday in the home of Mr. and Mrs. Carl Horting, Colfax. The occasion honored the birthday anniversary of Douglas Christensen.

Mr. and Mrs. Wallace Fraser and children of Avery, Idaho, spent the week-end here with his parents, Mr. and Mrs. Everett Fraser.

Mr. and Mrs. N. H. Stedman have been quite ill, and confined to bed.

Mr. and Mrs. Ben P. Cook entertained at dinner Sunday for Mr. and Mrs. J. J. Fox of Lewiston, their daughter Bernice; Gordon Cook of Walla Walla, and Mr. and Mrs. R. L. Blewett and son Billy, Mr. and Mrs. John Deobald and children were afternoon callers.

Mrs. A. G. Peters left Saturday for Fort Lee, Virginia, where she will visit for a time in the home of her son-in-law and daughter, Mr. and Mrs. Robert N. Olsen and family.

**Red Cross Drive Now On**

The annual American Red Cross drive for funds is now under way — and all are urged to give and give generously to this worthy cause.

It may be of interest to the public to cite the following expenditures: Years 1950-51, \$3,946,000 (315 operations including the eastern states storms and floods; Sierra Nevada and central California floods; North Central states floods; Florida hurricane, etc.

1951-52, \$19,152,500, including the Kansas, Missouri, Oklahoma and Illinois floods; southern tornadoes, Missouri valley floods, Milk River, Mont., flood, etc.

1952-1953, \$5,610,400, including the Massachusetts and New Hampshire tornadoes; Michigan tornadoes, Iowa and Minnesota floods; Waco, Texas, tornado, etc.

1953-1954, \$2,124,900, including the southwest Texas floods; Louisiana and Mississippi tornadoes, etc.

1954-1955, \$6,059,200, including the New England hurricane; Oklahoma-Kansas tornado; hurricane Hazel (in North and South Carolina) Colorado and Kansas floods, etc.

July 1, 1955 to Dec. 31, 1955 — \$27,000,000, including the eastern states floods, western states floods, hurricanes Connie and Diane, New Mexico floods, Iowa flash floods, etc.

**Installing Burner**

Workmen engaged in the rebuilding of the Mead & Howard Lumber Co. sawmill at Kendrick have almost completed the installation of a new burner at the mill — a burner made necessary by decision of Potlatch Forests, Inc. at Lewiston, that they no longer will require sawdust and hog fuel to be hauled into their Lewiston plant.

This action, of course, also forced removal of the "hog" which was installed last summer. We understand that Wayne Bailie and J. K. Bruce and son, who have been hauling the sawdust and hogged fuel to Lewiston, will put their equipment to use in a lumber haul when weather and road conditions permit.

**Roads In Terrible Condition**

Almost without exception roads in this area are in the worst condition that they have been in for many years — due to heavy traffic, frost boils, etc., not to mention natural rains and melting snows.

The road between Kendrick and Juliaetta is without a doubt in the worst condition since it was oiled.

We might add that the state highway department at Lewiston has come in for a great deal of criticism for permitting heavy traffic over the state highways in this area when they were literally "as soft as mush."

This latter may or may not be justified — but don't blame the truck drivers — they have a living to make and are going to continue to haul as long as the State Highway Department says they may.

In the Genesee Highway District area, just above the Otto Schupfer ranch near Juliaetta, frost boils developed that literally bogged down light vehicles to the point where a tractor was required to get them out. It would seem that this distant corner of the Genesee district has not been given the attention to which it's entitled, and such conditions certainly do not speak favorably for the "so-called big" or county road district.

One fact, however, remains clear — the road between Juliaetta and Kendrick will have to have a tremendous amount of work done on it to bring it back to really "comfortable travel shape." We might add that Kendrick's Main Street, a part of the state maintenance program, also has numerous pot-holes, despite the fact that it has been rocked and graveled for many years.

**National 4-H Week**

Boys and girls of Latah County will gear up for another year of activity during national 4-H week, March 3 to 11.

Jarvis Hurst, assistant county agent, said the time will be an occasion for reviewing what has been done and organizing programs for a brisk season. There will be special events and exhibits in Latah county.

Last year with 383 members in 31 new clubs, the state of Idaho set a new record of 12,634 members in 1337 clubs.

Hurst said there is an opportunity for more leaders to serve and an invitation to all boys and girls, particularly those on farms, to take part in 4-H, which has a national membership of two million banded together under the slogan, "Learn by Doing," and following the motto, "To Make the Best Better."

During Club Week emphasis is on four purposes: To inform the public of the value of 4-H training; to interest other young people in joining; to recognize the part played by local leaders; and to provide members a special occasion for evaluating past achievements and planning on their farms, in their homes, and in their communities.

**Weather Anything But Springlike**

Despite predictions that "spring is just around the corner" and "we'll have an early spring — we always do following tough winters", winter has continued to hang on with an icy clutch in this section.

"True, we have had a few 'spring like' days, but this past week has been more like February than March. Thursday and Friday of last week saw mild temperatures, that melted the snow in the canyon, and sent the Potlatch river up a couple of feet. Friday night and Saturday a storm of blizzard like proportions struck, and was followed on Sunday by chill winds — although the sun shone for a time.

Monday morning the thermometers read 26 above and Tuesday morning 22 above — with perhaps a quarter inch of podery snow on the ground. Throughout the entire area the same conditions have existed, although the wind here in the canyon was not nearly so strong as on top the hills.

**Bug Stuck In Snow Drift**

The N. P. "bug" which runs between Lewiston and Spokane daily, has been "hard put" trying to buck the snow and keep on schedule. Sunday it didn't arrive in Kendrick until 5:55, or six hours late, due to a big snow drift between Troy and Moscow, the Pullman switcher having to go out and free it from its snowy bed.

On Monday a snow plow was called for and put into action between Kendrick and Troy, and on up the line, as the high winds and storms of the past few days had drifted the snow into huge banks — almost faster than it could be cleaned out.

**Extends Thanks To All**

From the Boise headquarters of The National Foundation for Infantile Paralysis, under date of Feb. 27th, comes the following letter, and while addressed to the Gazette, we feel it of importance to all:

"Dear Mr. McCreary: While the March of Dimes reports are not yet complete, there is every indication that the 1956 campaign has been the most successful Idaho has ever had. On behalf of the National Foundation for Infantile Paralysis and the thousands of its volunteer workers, please accept our sincere thanks for your wonderful cooperation and for your outstanding efforts in providing public information throughout the campaign.

"Our appreciation is voiced for every Idaho family who will suffer the ravages of polio during this coming summer, and for those who have suffered from infantile paralysis in the years gone by. The National Foundation still stands behind each stricken family, assuring proper medical aid and care and every available medical facility to those who need it. At this time it seems as if we are at last in a position to eradicate this disease.

"We are fully aware of the great contribution of the volunteer workers in this fight against polio, and that the active participation of all made the success of this vital campaign possible.

"Most sincerely — Howard Alexander, Idaho Representative."

**Grange Meeting**

The regular Grange meeting was held Tuesday evening in the Fraternal Temple. During the business session a round-table discussion was held on the present agricultural problems, which include the soil bank, farm prices, etc.

The project for making and placing new "farm road" signs was discussed and plans furthered.

The literary program, which was in charge of Mrs. Gerald Ingle, was on the theme of "Safety."

Ten Boy Scouts presented a demonstration on First Aid, assisted by their leaders, Ed. Nelson and Everett Fraser.

An announcement was made of the forthcoming visitation meeting of the Kendrick Grange at Rock Creek this coming Sunday, March 11, at 2:00 p. m. All members are urged to attend.

A delicious lunch was served by the refreshment committee.

**A Bit Of Idaho History**

Saturday, March 3rd marked the 93rd anniversary of the creation of Idaho Territory and Lewiston's brief reign as the capital city.

Idaho Territory was organized on March 3rd, 1863, by proclamation of President Abraham Lincoln, out of parts of Washington, Nebraska and Dakota Territories.

The first Territorial Legislature convened in Lewiston Dec. 7, 1863, and a second session was held Nov. 14, 1864. It was in the latter 40-day session that the act to permanently locate the capital at Boise was approved, to take effect Dec. 24, 1864.

**Potlatch Creek Low**

The Potlatch river (or creek as most local residents call it) is unusually low for this time of the year, and it would perhaps be better if it were carrying more water — for a great deal of snow lies back on its head waters, and the season is getting late.

The creek is far below the high water mark — not to mention flood stage, and the waters are not even lapping at the N. P. gauge near the depot.

**"Crack Down" On Publicity**

At a meeting last month of the Idaho Press Association country editors voted overwhelmingly to "crack down" on free political publicity items of all kinds — confining such news to "barest announcements."

It was felt that almost without exception candidates were spending their advertising money for expensive TV time, and expecting the weekly papers to "carry the ball" for them through free readers and other like "gimmicks."

This policy will be rigidly followed by the Gazette, in line with other country papers.

**Move To Warney May House**

Mr. and Mrs. J. K. Bruce moved out of the Kendrick Hotel apartments last week and into the Warney May house just vacated by Mr. and Mrs. Jim Everets and family.

**AMERICAN  
CANCER SOCIETY**

**CRUSADE BANNER** — This official poster of the American Cancer Society's 1956 Crusade illustrates the combined objectives of cancer education and fund-raising. The crusade urges the public to have regular physical check-ups as a safeguard against cancer and to contribute to the campaign to raise \$26,000,000.

**The Hog Situation**  
Hog prices have declined sharply of late. The Portland Oregonian explains why, in an editorial aptly entitled: "Too Many Pigs."  
The paper says: "The reason the hog market is so low is that there are so many pigs going to market. The reason so many pigs were produced this year — more than 100 million — is that prices on hogs were good a little more than a year ago and corn prices, depressed by a total supply of some five billion bushels, have been dropping. When corn is

cheap and pork high, hog production goes up and hog prices do down." This is an example of how the law of supply and demand works in a free market. Almost invariably scarcity makes for higher prices and abundance for lower. The producers and sellers of every commodity in general use are subject to the law's workings. This year, for instance, automobile dealers found themselves hard pressed to dispose of the roaring flood of cars the factories are making, and as a consequence consumers have been offered excep-

The Great Gray Owl is seldom seen in Idaho. The one Miss Paula Drinkall of Nampa shows here was salvaged by Idaho Fish and Game department personnel for addition to the department's traveling school exhibit. The bird's apparent size — largest of North American owls, is due to the extremely fluffy construc-

tion and arrangement of its feathers. Stripped of its plumage, it is a surprisingly small bird. The great gray owl is a highly beneficial bird, being an efficient mouser, but it is seldom seen even as far south as the settled parts of Canada, except in winter. ally good buys, particularly at the close of the model year. Going back to the hog situation, what should be done? One important help lies in current campaigns in which packers, retailers and others are participating, to promote increased pork consumption, and to publicize the bargain prices now prevailing. Also the government is to buy \$85,000,000 worth of pork products — not for storage, but for consumption in the school lunch and

other established programs. And, of course, there is talk about government price supports for hogs. The fallacy in that was pointed up by the Record Stockman, of Denver, when it said: "The chief answer lies with slashing hog numbers. . . Price propping for hogs would . . . encourage the inefficient hog feeder to feed this winter." Fresh Frozen Juices of all kinds at Blewett's Market, Kendrick. 1-adv

**Report Thorough Cooking  
Of Pork Cuts Down Disease**

Thorough cooking of fresh pork can help to reduce materially the incidence of trichinosis, an infection from diseased pork, it was shown in a report made public by Dr. Rodney R. Beard of San Francisco.

Dr. Beard credited that as one of the factors in an apparent two-thirds reduction in the incidence of trichinosis in San Francisco since 1930.

Trichinosis is caused by Trichinella spiralis worms which sometimes are found in pork. The worms lay eggs in the human intestinal tract. The embryos work their way into muscles, especially the diaphragm, where they develop. Diarrhea, nausea, colic and fever are the usual early symptoms of the disease, followed later by stiffness, pain, swelling of the muscles, fever, sweating and insomnia. The seriousness of the infection depends upon the degree to which the pork has been infected. Severe infections may cause death.

Dr. Beard cited a 1936 study in San Francisco of a random sampling of 200 human diaphragms taken at autopsy. Trichinosis worms were found in 24 per cent of the organs. A more recent study of 181 diaphragms, also a random sampling, showed only 8 per cent were infected—a decrease of two thirds.

He first pointed out that federal, state and local regulations now assure adequate processing of pork products intended to be eaten without cooking. In San Francisco, for example, stringently enforced rules by the local Department of Public Health provide for adequate salting and drying of adequate style salami, an uncooked product, or possible prior killing of trichinae by freezing.

Another factor he mentioned was the reduction in the proportion of pork from garbage-fed hogs. Wartime scarcity of labor, difficulties of transportation and other factors.

**Statisticians Report Life  
Expectation Nine and Ten**

Life in the United States is safest at ages nine and ten, according to Insurance Company statisticians, and less safe during the first year than at any age to and including 65.

This is based upon an analysis by the statisticians of mortality data for the general population in 1949, as reported by the National Office of Vital Statistics.

An all-time high of 67.6 years in expectation of life at birth registered during the year represents a gain of fully 4 years since 1940, the statisticians note, and a gain of 18½ years since the start of the century.

Our greatest gains in life expectation, it is pointed out, have been at the early ages. At birth the gain in life expectation for males during the decade has been more than three years, whereas at age 40 the increase was less than a year.

"This reflects the strides made in the control of the infections of early life," the statisticians explain, "in contrast to the limited progress which has been made in the control of the chronic diseases of middle and later life. Then, too, with an unchanged life span limit of about 100 years, the closer that limit is reached the smaller is the margin left for gain."

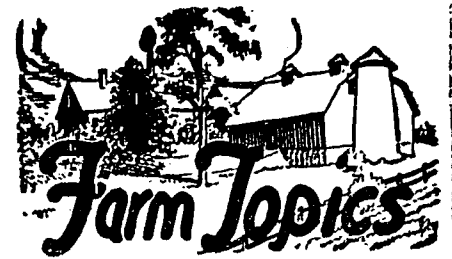

The extent to which women live longer than men is greater than ever before. According to mortality conditions prevailing in 1949, women outlive men by an average of 5.6 years, as compared with 4.5 years at the beginning of the decade. Even if there should be no further improvement in mortality, most people now living in the United States can expect to live beyond the biblical three score and ten years, according to the statisticians.

**Finding Fingerprints**

Criminal investigators use various methods to make fingerprints visible, depending on the surface where the fingerprint is located, its age, and other factors. When one touches a surface with the fingers, the ridges on the finger tips usually leave an invisible pattern of perspiration. If the print is on light-colored paper, and not more than a few days old, finely powdered lampblack or graphite dusted over it will usually make it visible. On a dark surface a white powder would be required. For older prints, there are various methods using chemicals which react with the minute amount of salts, such as potassium and sodium chloride, left after the perspiration has dried. In one such method, the paper bearing latent prints is dipped in a weak solution of silver nitrate, which converts the chlorides into silver chloride.

**Aid for Key Losers**

Motor-car-key forgetters or losers will be interested to know that Edward J. Tobin of Norfolk has come to the rescue with his invention of a combination lock to take the place of keys for automobiles. With this dial on your instrument panel, you can forget your key, but not your combination. It works like the combination on a safe. National Patent Council suggests that the combination numbers be kept with your driver's license. Tobin's patent is good for 17 years, and by that time he hopes combination locks will be clicking in autos throughout a good part of the motor world.

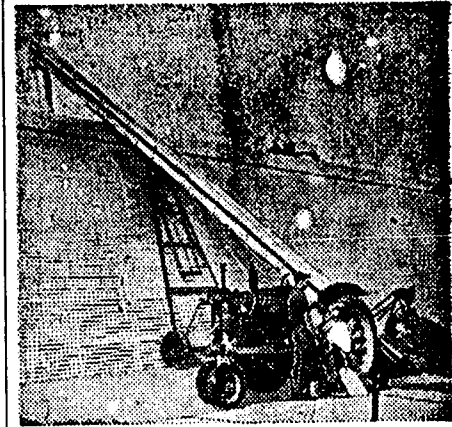

**Quonset-Type Huts  
Meet Storage Needs**

**'Little Business' Answers  
Challenge in Grain Belt**

Called upon by the department of agriculture to perform a modern miracle, "little business" in 10 midwestern states is tackling one of the biggest jobs of its kind ever undertaken anywhere in peacetime. Its Herculean assignment is the site preparation and erection of 2,300 steel buildings—each 32x96 feet or larger—at 670 widely separated locations.

The task arose with the grain belt's acute need for space in which to store the record-breaking carry-over of 1948's corn crop. In line with

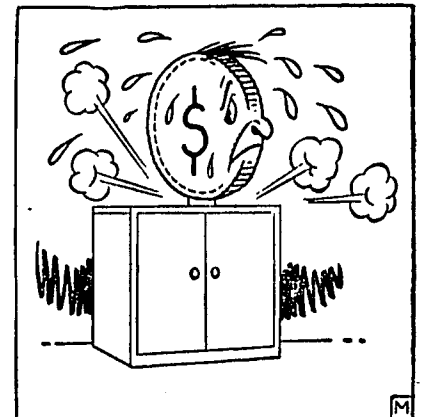

Grain being loaded into Quonset huts for CCC storage near Paulding, Ohio.

The trend toward economical "horizontal" grain storage, the department ordered Quonset buildings for a large part of the necessary new facilities. These archroofed steel units now are mushrooming up beside highways and railroads near farm centers through the efforts of local businesses and labor, rather than the work of transient crews employed by a few big and distant contracting firms.

Within two weeks time more than 1,100 concrete foundations had been laid, and erection of steel was under way on them in every state. The concrete work alone was roughly equivalent to laying 23 miles of highway in a time that an average road-making crew would require to put down one.

**Sweat Down Costs**

Sweat down your production costs if you want to maintain profits in these days of declining farm prices.

One way to sweat down those costs is to increase your crop yields per acre. More bushels of corn and grain per acre, more pounds of meat, milk, dairy products and poultry mean lower production costs per unit. On such a basis you can make a profit even if prices slacken further.

You can get those higher yields and lower costs with good soil management. Good soil management means giving your soil a fair deal. It means supplying the soil a well-balanced ration of plant foods, so crops will be well nourished. It means building up instead of breaking down soil structure and tilth. It means "recharging" the land with soil-enriching crops at regular intervals, instead of growing soil-draining row crops year after year on the same land.

**Dangers of Butchering  
At Home are Outlined**

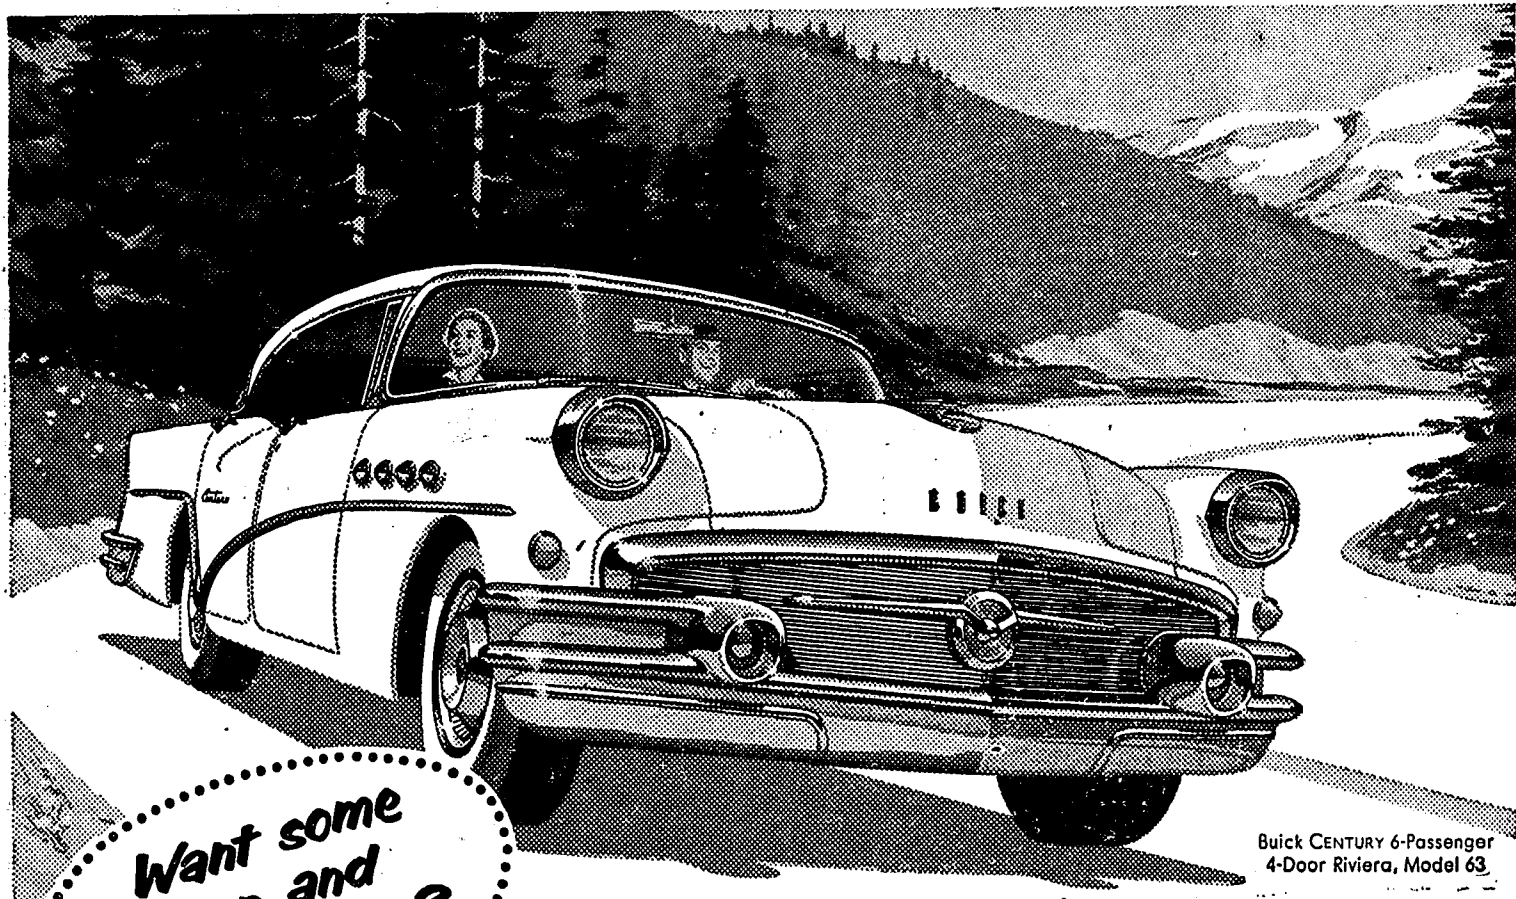

Home butchering is profitable on the farm and many rural families are replenishing their lockers, jars and pantries.

But, unless undue caution is used, home butchering can be dangerous. Equipment, too, should be used with care. All knives should be kept in a suitable place when not in use. Hoisting equipment should be checked. A tamper should be used to force meat into the grinder.

**Attention to Details  
Pays Off for Hog Farms**

Attention to details is the biggest reason why some hog farms earned \$2,000 more than some others during the past year.

F. J. Reiss, farm management specialist in the Illinois college of agriculture, said that 128 high-income hog farms averaged \$10,200 earnings from swine last year, while 161 less-efficient farms took in only \$8,000. Extra care at farrowing, control of parasites, helped,

Want some  
Fun and  
Fast Action?

Come join Buick's

**THRILL-A-MINUTE CLUB**

Here's the why of it:

There's so much excitement at the wheel of a '56 Buick, we had to do something to accommodate all the folks who want to get in on it.

So we set up a little Club to handle matters—and it's for fun and for free.

All you do to join is drive a new Buick—that makes you a member. And all you do to drive this beauty is ask.

From that point on it's pure thrill all the way.

Because then you'll feel the sheer bliss of cradled travel in the best riding Buick yet built—and of a wonderful handling ease in the car with the truest sense of direction yet . . .

Because then you'll tingle with the flash-fast power response that's yours from Buick's big 322-cubic-inch V8 engine—where horsepower and compression ratios hit lofty new peaks, and road command hits a soaring new level . . .

Because then—and only then—will you feel the absolute smoothness and the electrifying action of today's new

Variable Pitch Dynaflo\*—where the first inch of pedal travel does new wonders for getaway and cruising and gas mileage—and where flooring the pedal switches the pitch for the most spectacular safety-surge in America today.

So if you want some fun and fast action—if you want to see what it's like to call signals on the most performance-packed automobile in all Buick history—come join our Thrill-A-Minute Club.

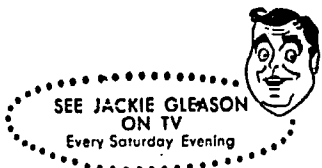

As we said, there's nothing else to do for membership except drive a new Buick. And, as we'll gladly show you, there's nothing to match this beauty as a bedrock buy—for we're making the best deals ever on the best Buick yet.

Drop in on us today or tomorrow—press that pedal—and let the thrills fall where they will.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

### Thank Practical Eskimos For 'Deep-Freeze' Invention

Thanks to practical Eskimos and a shrewd Yankee fur trader, we are now able to have seasonable fruits and vegetables "fresh" at any time of the year. The quick-freeze pack keeps them fresh.

The Yankee fur trader is Clarence Birdseye of Gloucester, Mass., who still indulges his fancy for adventure in the Far North. While dealing with Arctic Eskimos up the Labrador coast during 1912, he was amazed at the excellent meat and fish they seemed always to have available. The secret was in the quick-freezing of game freshly caught. "Quick-Freeze!" That was the Big Idea he mullied over as he sailed home. Invented a special kind of freezing machine to freeze almost instantly, patent it, make fresh foods available to everyone!

Inspired by this thought, and stimulated by this hope of protection afforded by our patent system, he built his first crude machine, which he called the "Multiplate Quick Freeze." This consisted of a new garbage can of corrugated iron with layers of steel plates between which codfish and rabbit meat were placed. It was supplied with coils that contained salt brine as a refrigerant. Incredible, but true, this unpolished mechanism was the forerunner of our gigantic lockers of today. Encouraged by the success of his invention in food preservation, and the patent protection obtained thereon, Birdseye endeavored to promote his idea.

A skeptical America was not too eager to accept quick-frozen foods, and our inventor, in 1924, after making stabs in both Gloucester and New York, went broke. Unbeaten, his perseverance and ingenuity urged him to try again and, in 1927, after securing a \$2,250 loan on his life-insurance policy, and obtaining \$375,000 from backers, he again launched into the business. This time it took a year to interest the public sufficiently.

### Cretaceous Geological Period Shale Collected in Fresno

More than a ton of shale and marl containing 100-million-year-old fossils, collected in Fresno County, Calif., last summer by Dr. Alfred R. Loeblich, Jr., Smithsonian Institution paleontologist, is being processed at the U.S. National Museum.

The Fresno County locality has one of the thickest known deposits—in some places as much as 25,000 feet—of sediments laid down in the ancient sea bottoms during the Cretaceous geological period, the heyday of the great dinosaurs on land and of the weird swimming reptiles, the plesiosaurs in the sea. The material collected by Dr. Loeblich, however, contains fossils far less conspicuous than these monsters, but in some ways they represent even stranger forms of life. They are minute Foraminifera, or shelled protozoans. Although constituting a very large branch of the Animal Kingdom, the Protozoa are one-celled animals and nearly all are microscopic; the best-known of the living forms are internal parasites which cause some of the most deadly diseases.

Foraminifera are a specialized group of Protozoa that build an external shell, and these shells may be preserved as fossils. During the Cretaceous period, represented by the material collected this summer, many of the more modern shell forms were first developed. These fossil shells are often used by the oil industry to determine the age of geologic strata and thus are of economic importance, as well as being of value to the scientist in showing evolutionary trends.

Although single-celled, such sea creatures may have many chambered shells. As they grow they form new chambers all connected by openings through which the protoplasm of the cell flows. But, however many chambers of this sort are produced, the protoplasm is continuous through all and the animal still remains a single cell.

### Looking Back

Halle Selassie's 1,150-man, hand-picked battalion in Korea is a far cry from the desperate army he raised in 1935. Then, as Mussolini's men marched into his land, he issued this draft notice: (1) When this order is received, all men and boys able to carry a spear will go to Addis Ababa. (2) Every married man will bring his wife to cook and wash for him. (3) Every unmarried man will bring an unmarried woman he can find to cook and wash for him. (4) Women with babies, the blind and those too aged and infirm to carry a spear, are excused.

### Ptolemaic System

The Ptolemaic System was the ancient concept of the universe, proposed by the Greek astronomer Hipparchus, who lived about 130 B. C. It is named after Claudius Ptolemy, a later astronomer, who popularized it in a famous book known as the Almagest. According to this system, the Earth was fixed at the center of the universe, and the Sun, Moon, planets and stars all revolved around it in varying periods. It has been superseded by the system proposed by Copernicus in 1543, which places the Sun at the center of the Solar System, and has the Earth as one of a number of planets revolving around the Sun.

### Duke Psychologist Offers Tips on Cigarette Control

Do you have trouble leading a sane cigarette life?

If so, here's a common sense recipe by Dr. Gelolo McHugh, Duke University psychologist, that may help you "use cigarettes instead of being used by them."

"People who have to have cigarettes need psychological help, not scare tactics such as threats of stomach ulcers or lung cancer," Dr. McHugh says. "Swearing off entirely is dangerous, because if you fall once, the next try will be that much harder. Limiting your cigarettes to eight or 10 a day is also risky, because it keeps the thought of smoking uppermost in your mind."

Here are Dr. McHugh's suggestions for cutting down:

1. Set aside an hour or two at the beginning of each day and don't smoke during that period no matter how much you want to. After that, smoke as much as you like for the rest of the day.

2. Don't make your daily no-smoking period longer than you can safely control. Over-ambition sometimes leads to failure.

3. Tell your friends what you're doing. Their interest will help you keep control over your no-smoking period.

"After following this plan for several weeks, smokers often find that their cigarette control is growing stronger," Dr. McHugh said. "Experiments show that smokers who set aside a no-smoking period do not have a tendency to smoke more than usual during the rest of the day to make up for lost time."

"Most important of all, after two or three weeks of controlling part of the day, the smoker begins to find himself smoking a little less during the free period. This means that he is on the way to mastering cigarettes instead of being mastered by them."

Dr. McHugh's suggestions are based on data collected over a period of five years and covering some 600 people.

### Chubb Crater 1,325 Ft. Deep, Largest Meteorite Crater

A new champion's official measurements have been announced by the National Geographic Society.

The champion is Chubb Crater, established as the largest of all known meteorite craters in the world as the result of four weeks' research carried on last summer at the crater site in northern Quebec by Dr. Victor Ben Meen, Toronto geologist, and five scientist-associates.

The huge pockmark in the sub-arctic granite has a maximum depth of 1,325 feet, figured from the level of the highest point on its rim. The surface of the lake in the crater bowl is 500 feet below the rim's top level, and the maximum depth of the lake is 825 feet. Diameter of the rim averages 11,500 feet, and its circumference is 6.8 miles.

The depth is thus a few feet less and the rim diameter a few hundred feet more than indicated by preliminary figures dispatched from northern Quebec last August at the time field work was completed. Both dimensions, however, are more than twice the corresponding ones of Arizona's Meteor Crater, long officially recognized as the earth's largest scar known to be due to an earth-meteor collision.

The crater lake averages 9,100 feet in diameter. Its shoreline measures 5.4 miles around.

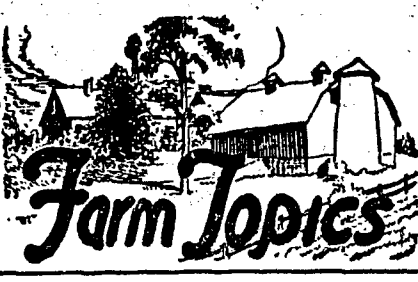

Dr. Meen, director of Toronto's Royal Ontario Museum of Geology and Mineralogy, led an expedition to the crater site. With magnetometers, they defined a "magnetic anomaly"—a subsurface mass of iron outlined by its effect on the earth's magnetic force. Such an anomaly is attributed by scientists to meteorite fragments buried deep in the granite rim.

### Kinds of Mines

Coal mines are of four kinds, three of them underground. If the mass of coal can be reached horizontally, say from the side of a hill on a level grade straight to the heart of the coal, it is called a Drift Mine. If you have to reach the coal at a perceptible angle, down or up, you have a Slope Mine. To get inside either of these mines, tunnels are made into the sides of the hills. The miners may go to the working areas by "man-trip" cars, which are trains of mine cars pulled by especially designed mine locomotives. If you must ride a cage (mining term for elevator) to reach the coal seam, you are in a Shaft Mine. If the coal lies near the surface of the earth and you can rip it out by huge electrically operated shovels and bulldozers, you have an Open Cut or Surface (sometimes called "Strip") Mine.

### Indian Legend

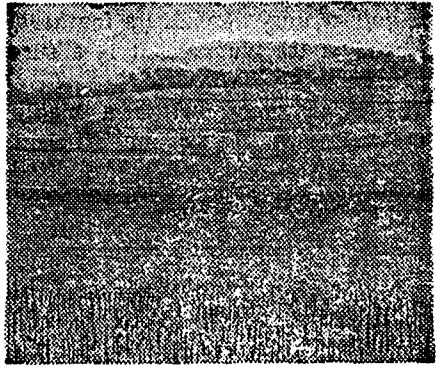

Hiawatha, who is believed by many persons to have been a purely legendary character, really lived about 1450 A.D. The mighty Iroquois chieftain of the Onondago tribe of North American Indians was transformed by legend into a miraculous character with supernatural powers. About 400 years after his death, he was immortalized by Longfellow in "The Song of Hiawatha", an epic poem written after the style of the great Finnish Kalevala.

### Strip Cropping Helps Hold Soil in Place It's Only First Step In Conservation Plan

Strip cropping, an important part of soil conservation, is a good deal like putting a splint on a broken bone. The splint holds the bone in place, but it doesn't knit it. Strip cropping helps hold the soil in place, but it won't rebuild run-down fertility.

The above picture is a beautiful example of strip cropping, but it was not accomplished by mere contour plowing. It was accomplished by sound soil conservation, based on use and treatment of land with all proven, appropriate measures that are needed to keep it permanently productive while in use.

Strip cropping on a field just north of Neillville, Wis., is a beautiful example of one step toward soil conservation.

Sound conservation means terracing land that needs terracing; contouring, strip cropping, and stubble-mulching the land as needed; along with use of supporting measures of crop rotation, cover and green manure crops and the use of the right commercial fertilizers.

No farmer should undertake a conservation program without expert advice. He should first contact any one of his soil conservation district officers and apply for assistance from his district. If he doesn't know who his officers are, he can locate the address of his district office in the phone book, or he can call his county agent. Districts help only farmers who request their assistance.

### Number of U. S. Farms Lowest Since the 1890s

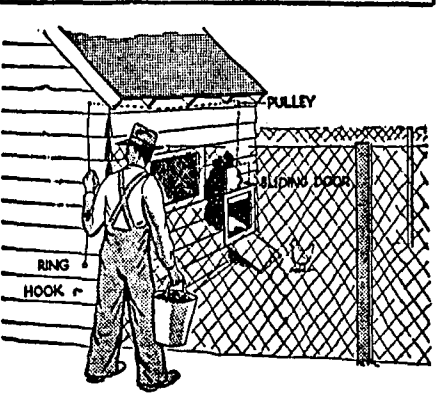

The number of farms in the United States has continued to decline since the end of World War II with the current total the lowest since before the turn of the century.

The department of agriculture reports there were fewer than 5.4 million farms in the country last year. This figure compares with approximately 5.9 million in 1945, and with the peak number of 6.8 million in 1935.

Thus the number of American farms has declined over 1.4 million, or more than a fifth, in the last decade and a half—a period in which land in farms has continued to increase and in which total agricultural production has likewise shown a spectacular increase in aggregate volume of products raised as well as in total market value.

In 1900 there were some 5.7 million farms in the U. S., approximately 350,000 more than at present. A decade before, in 1890, the number of farms was about 4.6 million.

### Sliding Door

Poultry raisers can save many a step by a sliding door in poultry houses which can be operated from the outside. A small rope attached to the door by a screw eye runs to the ceiling or roof boards, along the wall, through the side of the chicken house and terminates in a ring. A hook can be attached to the side of the building and thus hold the door open.

### Farm Exports Increase 14 Per Cent, Report

The agriculture department reported recently that farm exports increased 14 per cent over the preceding fiscal year. The total was placed at \$3,409,245,000. Cotton exports led the group in 1955-56 with a total of \$935,332,000, the second highest in 26 years. Wheat and wheat flour ranked second in value at \$747,570,000, up 9 per cent over the \$683,229,000 the preceding fiscal year.

### Modern Dentistry Can Aid Youth with Cleft Palate

The role of modern dentistry in the total rehabilitation of young men and women with cleft lip or cleft palate so they can lead happy useful lives is revealed in the Journal of the American dental association.

Asserting that more children are born with this condition than any other congenital deformity, Dr. Herbert K. Cooper, director of the Lancaster, Pa., cleft plate clinic, estimated that at least one out of every 700 children have this handicap.

"The most frequently found condition has been getting the least amount of attention," he said. "The citizens of this country should be as well informed on the subject of cleft palate as they are on poliomyelitis, cerebral palsy and rheumatic fever."

Citing cases of patients treated at the clinic, Dr. Cooper told of a youth, 17, born with a cleft lip and cleft palate. During infancy, surgery had been performed, leaving him with a flat upper lip and very poor speech.

"He shunned all social contacts," Dr. Cooper said. "He left high school and was driving a truck. His whole family was extremely upset."

Dr. Cooper said the youth was given a medical, dental, speech and psychological examination. An appliance was constructed to build out the upper lip and cheeks and thimble crowns were placed on his five remaining upper teeth. At the same time, he was given speech instruction.

The boy was persuaded to finish high school, Dr. Cooper said, and he then was admitted to college. He added:

"The first two years were quite difficult for him because of his social adjustment problem, which he gradually overcame. Then he was taken into a fraternity and was graduated on the dean's list. He is now attending law school in a large university."

### U.S. Still Leads World in Production of Matches

It's pretty difficult to get something for nothing these days, but there's one item left that is used by the average person 14 times a day, and two out of five times he doesn't have to pay. That little item is the match.

The manufacture of matches is a \$25 million-a-year industry in the United States. Each year, more than 500 billion matches are produced, and of 200 billion book matches made in the United States every year, about 196 billion are given away with the sale of cigars, cigarettes, and tobacco.

Sweden had us topped for many years in the production of matches. The Swedish Match Company, formed in 1913 by Ivar Krueger, had match factories in 43 countries of the world and manufactured most of the world's matches. Krueger is said to have invented the common superstition that "three on a match" is unlucky, in order to sell more matches. His match empire lasted until 1932, when it was discovered he'd been using the company's capital for his own speculations.

Sweden now ranks fourth down the line led by the United States. Great Britain ranks second and the Soviet Union third.

### Spices in History

There are many references to spices and herbs in the pages of history. They play important parts in the development of our civilization. The ancients attributed strange powers and accomplishments to spices. Basil, for example, is venerated by the Hindus who plant it outside their temples and homes to insure happiness. The famed laurel wreaths which crowned Greek heroes of war and sport are the same bay leaves we use today in our cooking.

### Freezing of Water Pipes

Freezing is most likely to occur in pipes which run along an outside wall. This hazard should be corrected by re-location of the pipes, if possible. If this is impractical, thorough insulation with from two and one-half to three inches of good pipe covering is the only safeguard. Should any of the piping freeze, the work of thawing it should not be entrusted to a handyman. It should be done under the supervision of an experienced master plumber. Blow torches or other methods involving open flames are extremely dangerous. They not only involve fire hazards but also permit the generation of high pressures which may cause explosions.

### Gregorian Calendar

The form of our present calendar was set by Julius Caesar with some additional innovations by Augustus Caesar. However, in about 1500 years the length of year adopted by the Caesars proved incorrect. Therefore, Pope Gregory, in 1582, appointed a commission which revised the calendar sufficiently to bring it back in step with the seasons. Now it takes 3000 years for the calendar to slip out of line one day. The Protestant countries did not accept the Gregorian calendar until 1752 and this is why certain dates in history sometimes appear to be confused.

**Highway Tax Plan Protested**  
Washington (UP) — The American Automobile Ass'n. complained last week that ordinary motorists would have to pay an "unfair share" of new road-building costs under a tax-boosting plan proposed by House Democratic leaders.

The AAA said it is opening a drive to mobilize "grass roots" pressure on Congress to revise the tax plan so that operators of the nation's 3½ million big, heavy trucks pay their fair share.

The Association's opposition to the Democratic plan was voiced by Executive Vice President Russell E. Singer in an interview with the United Press.

Singer said he believed he was speaking not only for the AAA's five million members, but for all of the millions of motorists "who are not well organized, and have no commercial axe to grind."

The Democratic plan was embodied in a bill introduced last week by Rep. Hale Boggs (D-La.). Its major revenue raising features include an additional one-cent-a-gallon tax on gasoline and diesel fuel and an across-the-board tax "increase of three cents a pound on tires, big and small."

Singer said there should be a tax "differential" to reflect the higher cost of building highways capable of carrying big heavy trucks and the more efficient output of diesel engines which power the heavy trucks.

The AAA, he said, favors tax increases of ½c a gallon on gasoline;

two cents a gallon on diesel fuel; one cent a pound on tires weighing less than 45 pounds and five cents on tires weighing 45 pounds or more.

This, he said, would provide "equity in the sharing of the tax load" between (1) the 5,200,000 passenger cars and 7 million light trucks, and (2) the 3½ million heavy trucks which weigh more than 20,000 pounds fully loaded.

The House Ways and Means Committee will open hearings on the Boggs bill soon, and Singer said the AAA would be on hand to urge that it be revised.

### Pump Ready For Test

The re-built and re-newed pump for Kendrick's deep well was brought back from Spokane and installed in the well last week. The pump house has now been put back into place, electrical wires and equipment re-installed and it is now almost ready for a test, awaiting only the repair of the booster pump which puts the water from the ground level up to the reservoir on the schoolhouse hill.

Bill White, village custodian, says that the water in the well had risen to within six feet of the top of the bore, and should be overflowing shortly, which is indeed good news. It shows that the moisture of the past few months has penetrated deep into the ground.

 Young People's Groups at 6:30 p. m.  
 Evangelistic Services at 7:30 p. m.  
 "Come with us and we will do you good."

**BIG BEAR RIDGE NEWS**

Mr. and Mrs. Anton Moen of Coeur d'Alene spent several days with Mrs. Johanna Nelson last week. Enroute they stopped at the U. of I., bringing along their daughter Nancy and her school chum.  
 A pinocle party was enjoyed Saturday evening at the Big Bear Ridge Community hall, with Mr. and Mrs. Roy Clemenhagen, Bernard Jones and Mr. and Mrs. Newt. Morey as joint hosts and hostesses. Mr. and Mrs. Cecil Chamberlain held high scores for the men and women, while lows were taken by Ed. Galloway and Mrs. W. L. McCreary. The "goose" went home with Mrs. Claude Jones.  
 Mr. and Mrs. Pearl Hazeltine of Fairview recently closed a deal whereby they became the owners of the A. Kleth farm. The Kleths, who have lived on this ridge for the past 50 years, are moving to Deary, and will farm there. Friends hate to see them leave, but wish them good luck and prosperity in their new home.

**Pinocle Party Saturday Eve.**  
 Mr. and Mrs. George Brocke, Jr., were host and hostess at a pinocle club party in their home Saturday evening. Guests present were Mr. and Mrs. Bud Eichner, Mr. and Mrs. Keith Thornton, Mr. and Mrs. Charles Eastbrook, Mr. and Mrs. Luther Parks and Mr. and Mrs. John Deobald.  
 High scores went to Mrs. Charles Eastbrook and Bud Eichner; lows to Mrs. Luther Parks and Charles Eastbrook, and the "goose" was taken home by Bud Eichner.  
 Delicious refreshments were served at the close of the evening.

**W. S. C. S. Thursday**

The regular meeting of the Kendrick Women's Society for Christian Service will meet on Thursday, March 8 in the Community Church basement. The program "Ventures in Discipleship" will be presented by Mrs. Raleigh Albright.  
 Mrs. Howard Hoffman and Mrs. Bob Nelson will be hostesses for the afternoon.

**CARD OF THANKS**

To our many friends in this and adjoining communities, we extend at this time our sincere thanks and appreciation for the kindness and sympathy shown during the illness and passing of our beloved father and brother, S. S. Taber. — Rex Taber and Family; Mrs. Evan K. Evans and Family; the Ira Fix and Lillie Hall Families. 1x

**NOTICE OF INTENTION TO LEASE VILLAGE PROPERTY**

Notice is hereby given that the Board of Trustees of the Village of Juliaetta, Idaho, proposes to lease the following described property, situate in Latah County, Idaho, and owned by said Village, to-wit:

Commencing at the Northeast corner of the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$ ) of Section Four (4) in Township Thirty-seven (37), North, Range Three (3), West of the Boise Meridian, running thence West on a straight line to the center of the Mill tail race as located June 28th, 1915, a distance of approximately 301 feet; thence Southerly and Easterly following the center of the Mill tail race a distance of more or less to the North line of the tract now occupied by the R. E. A.; thence East on the North line of said R. E. A. tract to the right-of-way of the Northern Pacific Railway Company; thence Northerly along said Northern Pacific Railway Company's right-of-way to the line between the South half of the Southwest Quarter and North half of the Southwest Quarter in Section Three (3), Township and Range aforesaid; thence due West to the point of beginning, except the following described parcel thereof, to-wit:

Beginning at the Northeast corner of Section Nine (9), Township Thirty-seven (37), North, Range Three (3) West B. M.; thence West along the North line of Section Nine (9) a distance of 301 feet more or less to an iron pin located on the West right-of-way line of the Northern Pacific Railroad which is the true point of beginning; thence continuing on this course for a distance of 192 feet to a point on the East right-of-way line of the State Highway; thence Southwesterly along this right-of-way line a distance of 216.2 feet to a concrete right-of-way marker and curve point; thence along a 995.0 foot radius curve to the right a distance of 198.3 feet to a point which is the intersection of the East right-of-way line of State Highway and the West right-of-way line of the Northern Pacific Railroad; thence Northeasterly along the Northern Pacific Railroad right-of-way a distance of 104.4 feet to a curve point of 3869.83 foot radius curve to the right; thence along the above mentioned curve of right-of-way a distance of 310 feet plus or minus to an iron pin which is the point of beginning.

That it is proposed to lease said property for a term of ten (10) years, for use as an industrial site, at a rental of Fifty (\$50.00) Dollars per month, subject to termination at the option of said Village, in event the lessee shall fail to maintain a sawmill or other similar industrial plant upon said premises.

Notice is further given that the Board of Trustees of said Village will meet at the hour of 8:00 o'clock P. M. on the 12th day of March, 1956, at the Village Hall, for the purpose of adopting proper resolution authorizing and defining the terms and provisions of said lease agreement and authorizing and directing execution thereof by the officers of said Village.

Pursuant to order of said Board of Trustees.

N. I. UHLENKOTT  
 Village Clerk.

First pub. March 1, 1956.  
 Last pub. March 8, 1956.

**New Apparel Makes Pedestrian Night Life Safer**

ST. PAUL, Minn. — Since the automobile took over from the horse, a constant problem and source of tragedy has been the nighttime pedestrian—the dim figure that looms up suddenly before the motorist.

Traffic authorities attribute many thousands of pedestrian deaths each year to the failure of man's eyes to keep up with the development of his machines. The driver cannot see in the dark and yet pedestrians walk in the dark streets.

After years of experimentation, scientists have evolved a solution —wearing apparel that looks like just any other apparel and that is being produced in highly styled designs but that reflects light back to motorists when their headlights hit it, making the wearer visible to the driver from hundreds of feet away. Yet, because it reflects light back only to the source of light the garment looks just like any others to people on the street or road. The wearer is not at all conspicuous except to the driver whose headlights are directly on him.

Introduction of these reflectorized garments marks one of the most promising developments in the history of safety and may revolutionize the entire textile industry by leading to incorporation of reflectorized material into all outer garments.

**Volunteers Man Needed Mobile Unit**

PITTSBURGH—Typical of volunteer fire department units in a small community is the Berryville, Arkansas unit headed by Chief Owen Payne.

When Payne returned from war service in 1952 he led a group of veterans in a drive to provide Berryville with a mobile unit equipped to aid victims of emergencies and disasters.

The response was quick and generous. An automobile agency provided a truck at cost, a tire dealer offered new tires at a fraction of their value. The veterans painted the truck themselves. Stretchers, first aid supplies, axes, shovels and other emergency equipment flooded in as the community rallied to the call for help. Funds were raised for the purchase of an automatic artificial respiration instrument.

Since the rescue unit was established, the life-saving respiratory equipment has been used in emergencies on an average of once a month.

**Less Strain On Man Who Works Alone**

LOS ANGELES—Though his job may be simpler, the assembly line worker is under more psychological strain than the man who works alone.

In a recent project at Michigan's Research Center for Group Dynamics, Dr. Alvin Zander, of the University of Michigan helped set up two production situations which simulated work of an assembly line nature and that of an individualistic crafts nature. At each worker's foot was an electric button which he was urged to press whenever he felt the urge to stop work and take a break.

The researcher found that in the assembly line situation workers are very much dependent upon the actions of fellow workers and other factors beyond their control. A crafts worker who does each step in production of an object himself is under less pressure from the group.

**More Farm Buyers Use Credit Financing**

NEW YORK—Credit is playing a bigger role now in the farm real estate market than it has in a number of years.

Figures compiled by the U. S. Department of Agriculture show that more than six out of every ten farms bought in the year ending March, 1954 involved credit financing. The comparable proportion in the mid-forties averaged little more than four out of every ten farms sold.

Average debt per acre also has increased, amounting to around \$60 last year, up approximately 100 per cent since the end of World War II. Average valuation of farm real estate per acre rose approximately 67 per cent in the same period. Total farm mortgage debts at the end of 1954 was estimated at \$8.2 billions, up 7 per cent over the year before and 72 per cent above the 1946 low.

Thrown By Tree  
 STOUGHTON, Wis. — Austin Jones, 44, was the accidental victim of an old American Indian torture while helping remove a tree near here.

He was thrown through the air like a missile from a slingshot when the top branches were removed from a tree which was bent double and the tree snapped to an upright position.

Idaho Heritage Week  
 Gov. Robert E. Smylie has proclaimed the week of March 11th as "First Annual Heritage Week" and urges all Idahoans to get behind this new effort to promote the state's historical lore.

Publicizing of Idaho's historical attractions is now largely in the hands of the Idaho State Historical Society, a board of three persons, consisting at present of Dave Tate, Mrs. Glenn Balch and Mrs. Calvin Cowles, which serves at the pleasure of the Governor. Created nearly half a century ago by legislative action, this board is now considered inadequate for the proper development of the state's historical program.

In a conference called by the governor and the board for March 12th, in Boise, K. Ross Toole, director of the Montana Historical Society, will

participate in round-table discussions from 2:00 to 4:00 p. m. in the State Historical Museum. That same evening at 6:30, a no-host dinner will be held in the Hotel Boise. The charge will be \$2.50 per plate. All interested persons are invited. Reservations should be made by March 10th, with Mrs. Gertrude McDevitt at the Idaho State Museum. Phone 2-6511, Museum Extension.

The State Chamber of Commerce asks all local Chambers to sponsor at least one observance of the First Idaho Annual Heritage Week, during the week. Service clubs and schools are urged to participate.

To Our Friends And Neighbors  
 We wish to extend our sincere thanks for all the special favors and help given us during our hour of bereavement. — The Rex Taber Family. 1x

# THE Bull itin

Published Weekly by the Union Oil Service at Kendrick  
W. L. "Bill" Rogers, Editor

## HELLO, FOLKS:

Well, despite the fact that spring was supposed to be "just around the corner" it doesn't seem to have arrived — so we want to again remind you that it's a very good idea to keep an eye on that fuel tank — and keep it well up in the "safety margin." Just pick up your phone and call 1251, say: "Fill it up" — and we'll do the rest. Remember, too, that we offer an "always full" service, which will even save you this trouble. Ask about it.

Hubby: "My dear, a great doctor says women require more sleep than men."

Wife: "Indeed?"  
Hubby: "Yes, dear, so — or — perhaps you'd better not wait up for me tonight."

How's your car? Squeaky, dirty, and in need of service? If so, just bring it in and let us again put it in "the pleasure to drive class." We'll lubricate it thoroughly with those famous Union Greases; we'll fill the crankcase with that wonderful Royal Triton Motor Oil; then vacuum clean the interior and wash it. Yes, even give it a wax job if you so desire. Try us, won't you?

"Have you any cream for restoring the faded complexion?" asked the faded spinster.

"Restoring, madam? You mean preserving!" said the druggist heartily.

He sold her \$5.00 worth!

Boss (to exceedingly shapely secretary): "Take the afternoon off, Miss Jones, I want to think!"

### WHAT CAMERON FOLKS ARE DOING THESE DAYS

#### Group Entertains

A group of relatives and friends gathered at the home of Herman Silflow to spend Sunday evening with him. The time was spent in playing cards, with refreshments served at the close of the evening.

Guests included: Mr. and Mrs. Fred Silflow of Juliaetta; Mr. and Mrs. Gus Kruger of Kendrick; Mr. and Mrs. Otto Silflow, Mr. and Mrs. James Whiting, Mr. and Mrs. Wilbert Brunsiek, Mr. and Mrs. Albert Glenn, Mr. and Mrs. Earl Whiting, Mrs. John Blankenship, Roy Silflow and Doris Thompson.

**Herman Meyer Honored**  
Mrs. Herman Meyer honored her husband with a dinner, Sunday, in their home in honor of his birthday anniversary.

Guests were Mr. and Mrs. Gerald Schmidt and family, Mr. and Mrs. Marvin Parks and family, Mr. and Mrs. Marv Silflow and family, Rev. and Mrs. Theo Meske and family, Mrs. Schmidt and Hermine Meyer.

**Plans For Confirmation Class**  
Mrs. Newman Meyer, Mrs. John Blankenship, Mrs. Elmer Lohman, Mrs. Reinhard Wilken, Mrs. Theo Meske — the mothers of members of the Confirmation Class, met at the Meske home Monday evening to make plans for the Confirmation.

Mrs. Walter Koepf is also one of the mothers, but was unable to attend, due to illness.

**Club To Meet**  
The Cameron Home Demonstration Club will hold their next meeting on March 13, in the home of Rev. and Mrs. Theo Meske.

Mrs. James Whiting will give a demonstration on "Becoming Clothes and Colors."

Mrs. Meske is the hostess.

**General Items**  
Mr. and Mrs. Gus Kruger of Kendrick visited with Mr. and Mrs. Wilbert Brunsiek, Thursday evening.

Mrs. Walter Koepf entered the Gritman Memorial Hospital at Moscow last Thursday, where she underwent surgery Friday morning. All wish her a speedy recovery and hope to see her home soon.

Mr. and Mrs. Earl Whiting spent Thursday evening with Mr. and Mrs. Wilbert Brunsiek.

Mr. and Mrs. Glen Wegner and family were supper guests of Mr. and Mrs. Everett Lohman Saturday evening.

Mr. and Mrs. James Whiting and Mr. and Mrs. Wilbert Brunsiek were supper and evening guests of Mr. and Mrs. Earl Whiting, Friday.

Glen Wegner, Jr., spent Saturday

night with Ernie Heimgartner.  
Mr. and Mrs. Albert Glenn were among the guests at a birthday anniversary dinner in the Roy Glenn home at Kendrick Sunday, in honor of Mrs. Roy Glenn.

Mr. and Mrs. Otto Silflow and son Roy and Doris Thompson spent Monday in Spokane.

Mr. and Mrs. Aug. Wegner left Saturday for Spokane where they are spending a few days visiting with his brother, Arthur Wegner.

Mr. and Mrs. Wilbert Brunsiek, Mrs. Minnie Albright and Herman Silflow were supper and evening guests of Mr. and Mrs. Albert Glenn and Mrs. Blum, Monday. Mrs. Albright remained to spend the night.

Mr. and Mrs. James Whiting and Mr. and Mrs. Ernest Brammer pooled their dinner Sunday, and ate at the Brammer home.

Mr. and Mrs. Glen Wegner were Sunday dinner guests of Mr. and Mrs. Harold Silflow.

Doris Thompson of Lewiston is spending a few days with Mr. and Mrs. Otto Silflow and Roy.

Mrs. Glen Wegner and daughter Jillian visited with Mrs. Kenneth Wilken Saturday afternoon.

Mr. and Mrs. Earl Whiting spent Thursday with Mr. and Mrs. Robert Draper. The women spent the time quilting.

Mr. and Mrs. Ed Mielke and family; Helen and Ted Mielke and Mr. and Mrs. Charles Parks spent Saturday in Pomeroy visiting with Mr. and Mrs. L. S. LaHatt.

Mr. and Mrs. Charles Parks entertained Mr. and Mrs. Ed Mielke and daughter and Helen and Ted Mielke at dinner Saturday evening in their home.

Mr. and Mrs. Harry Newman and family and Mr. and Mrs. Glen Newman and family spent Sunday with their parents, Mr. and Mrs. Fred Newman. On Monday afternoon Mr. and Mrs. Wally Newman and Mikey, and Helen and Ted Mielke visited with Mr. and Mrs. Fred Newman.

Roy Silflow and Doris Thompson spent Tuesday with Mr. and Mrs. James Whiting at Southwick.

Mr. and Mrs. Marvin Silflow and family were supper and evening visitors of Mr. and Mrs. Fred Silflow in Juliaetta.

Mr. and Mrs. Harold Silflow and daughter Kathy were supper and evening guests of Mr. and Mrs. Marvin Silflow, recently.

**Throws Hat Into Ring**  
Marvin Vincent, 61, well known Leland rancher, announced his candidacy March 1st for Nez Perce County Commissioner in the Democratic primaries. He thus opposes Otto Brammer of Gifford, who also has announced his intention of filing as a Democrat from the county's third commissioner district.

Mr. Vincent is very well known in this area, as it has been his home all his life with the exception of time spent in the service in World War I, and a year at Moscow. The land he now farms in partnership with his son Chester was homesteaded by his father, John Vincent, in 1872.

Mr. Vincent is vice president of the Farmers Union at Kendrick; has been a Grange member for 24 years, and a Grange Master three times. He also has been a director in the Lewiston Grain Growers for the past ten years, and three times has been commander of the Kendrick Post, Veterans of Foreign Wars.

For the last five years he has served as a Ground Observer Corps supervisor at Kendrick — Mrs. Vincent as his assistant. During World War II he commanded the Leland Post of the I. V. R.

He is also a member of the Lewis-Clark Post of the American Legion and a member of the Lewiston Elks Lodge.
