INTERESTING NEWS NOTES FROM THE SOUTHWICK AREA

Farmers-Farmerettes Meet

The Farmers and Farmerettes held their 4-H Club meeting at the home of Caroline Lawrence on June 7. The meeting began with the president calling it to order. Flags were saluted and the secretary's report read. The president read two letters which had been received from headquarters in Lewiston.

A demonstration was given concerning the Electricity Project. Norman Fitzsimmons, assistant county agent, gave a talk on "Beef Stock." It was also decided on what the boys taking "Electricity" would put in their tool boxes. The next meeting will be held at the Gerald Kuykendall home, June 21, at 7:30 p. m. The president closed the meeting and refreshments were served by the hostess—Sandra Cantrill, reporter.

Bible School Scheduled

Mrs. Rollin Armitage, director for the summer session Bible School, reports that classes will be held June 18 through 29, in the Southwick Community Church. Instructors will be Mrs. Henry Davis, Mrs. Lois Thornton, Mrs. Ervin Fry and Mrs. Rollin Armitage.

Landmark Goes Down

Clay King, owner of the old "Ladies Aid Hall" has been dismantling the building, which has been standing for a good many years, and occupied by many a business. Sunday's wind storm completed the job for him, and thus closes another chapter of the history of Southwick.

Club Meetings

The Syringa Girls 4-H Club will not meet this Thursday as previously scheduled, but will postpone their gathering until next Thursday afternoon.

The Southwick Homemakers Club will meet for an all-day session on Thursday, June 14, at the home of Mrs. Stanley Hepler, with Mrs. Roy Martin as co-hostess. Mrs. Bernadine Tudder, home demonstration agent, will be present.

FATHER'S DAY

Again it's Father's Day and dawn-winds sweeping
Across the landscape of the golden past —
Bring memories — given to my care
and keeping
So long ago — of days too dear
to last —
And in this heart of mine so long
forsaken
While singing stars re-light life's
spring-time-way
The sweetest of life's golden days
awaken
With love that burns anew on
Father's Day. — Bert Gamble.

SANDRA TARBEI BRIDE OF NEIL ERLEWINE JUNE 2ND

Sandra Lee Tarbet, daughter of Mr. and Mrs. Wilbur Tarbet, Leland, and Neil Gilbert Erlewine, son of Mr. and Mrs. Gil Erlewine of Southwick, were united in marriage on the 2nd of June at the Cameron Emmanuel Lutheran Church, in the presence of nearly 100 relatives and friends. The double-ring ceremony was read at 7:30 o'clock by the Rev. Theo Meske, pastor of the church.

Lighted candelabra formed a back ground for the large baskets of white and red peonies and snowballs. Mrs. Theo Meske played the prelude and the bridal march. Miss Dorothy Meyer sang "Oh Perfect Love" and "The Lord's Prayer," accompanied at the organ by Mrs. Geo. Lyons.

The candles were lighted by Mike Tarbet, a brother of the bride, and Reggie Wegner.

The bride wore a white suit with a dainty matching hat, and accessories of navy blue. She carried a bridal bouquet of stephanotis shower centered with a lavender orchid corsage. She was escorted and given in marriage by her father.

Ruthie Tarbet, a sister of the bride, was maid of honor, and carried a bouquet of pink daisies and carnations.

Gerald Erlewine, a brother of the groom, was best man. Ushers were David Grim of Headquarters and Boyd Thornton of Lewiston, close friends of the groom.

Viola Tarbet, a sister of the bride, had charge of the guest book. Dorothy Foster and Jeanette Rowden, schoolmates of the bride, presided at the gift table.

A reception was held in the Cameron Hall immediately following the ceremony.

The bride's table was centered with a tiered wedding cake, baked and beautifully decorated by Mrs. Meske. After the traditional first piece had been cut by the bride and groom, the cake, together with the groom's cake, was served by Mrs. Billy Weyen, assisted by Mrs. Glen Wegner, Mrs. Teddy Weyen, Mrs. Harold Siflow and Mrs. Herbert Schwarz.

Mrs. G. W. Tarbet, grandmother of the bride, poured, and Mrs. John Coultis, the bride's aunt, presided at the punch bowl.

The young couple left on a trip to the coast, and upon their return have established residence in one of the Blewett apartments in Kendrick.

Real Dust Storm Sunday

A wind and dust storm that could well be called a "jim dandy" hit this area Sunday afternoon. The high wind carried dust with it, which was deposited thickly over the entire area. The wind broke many small limbs from the trees and whirled locust tree seed pods into every conceivable crevice about town.

At the height of the storm it was impossible to see across the canyon—so heavily was the air laden with dust.

Evergreen Friendship Club

The Evergreen Friendship Club will hold their monthly meeting at the home of Mrs. Jack Travis with Mrs. Kirk Wilson as co-hostess, on Wednesday, June 20th, at 1:30 p. m. Roll call will be answered by a "Household Hint." The program will be "Party Sandwiches and Table Decorations," presented by Mrs. Dick Watson.

Kendrick Canyon Klub Meets

The Kendrick Canyon Klub met last Wednesday at the home of Mrs. Floyd Millard, with Mrs. John Darby as co-hostess.

The hostesses also presented the program, which was a lesson on "Party Sandwiches and Table Decorations."

Weather Cool, But Dry

The weather this past week has been an odd mixture of heat, wind and sunny coolness.

On the week-end, up to Sunday's big windstorm, temperatures rose to the 80-degree mark.

Since that time they have been definitely on the cool side, with a high of 70 degrees and a low of 40.

However, there has been no rain and farmers are trying desperately to catch up on delayed field work in preparation for haying — the latter must await better weather, however.

Pollatch river, above the forks of Bear creek, is comparatively clear now — but Bear creek is running a great deal of mud.

SHORT LOCAL ITEMS OF MORE THAN PASSING INTEREST

Pony League Baseball

The Kendrick-Julietta entry in the Pony Baseball League played its first game at Armitage Field on Thursday evening, June 7, being defeated by the Orofino team by a score of 10 to 8. Orofino jumped into an early 9-0 lead, but were hard pressed to hang on and win by two runs, as the local boys kept pecking away at their lead. Leading hitters for the home team were Jerry Armitage, with 3 for 4, and Wes Andrews with 2 for 5, including a home run. Batteries for Kendrick-Julietta were Foster, Armitage in the 2nd, and Andrews, For Orofino Breslin and Brown.

Short score: Orofino, 10 runs, 5 hits, 3 errors.

Kendrick-Julietta: 8 runs, 7 hits, 7 errors.

On Monday, June 11, the local boys journeyed to Kooskia, and got into the win column by shacking the Clearwater entry, 14 to 1. For this game the boys were attired in their new uniforms and this may have had something to do with the brand of ball they played. Leading hitters for the game were: Meske with 3 for 4; Reynolds, 2 for 4; Andrews 2 for 4 (including a home run) and Armitage 1 for 2 (including a home run).

Batteries for Kendrick-Julietta were: Foster, Armitage in the 4th, and Andrews, For Clearwater: Wagner, Potter in the 3rd, Barnes in the 5th, and Baldwin.

Short score for the game: Kendrick-Julietta, 14 runs, 10 hits, 5 errors. Clearwater: 1 run, 4 hits, 5 errors.

Team caps were donated by N. B. Long & Sons, and the uniforms are being paid for by public subscription. Anyone wishing to contribute to this worthy cause may make their donation to either Floyd Millard or Bob Magnuson.

Next scheduled game is at Grangeville on Thursday, June 14, and the next home game against Kamiah on June 21.

The dinner honored the wedding anniversaries of Mr. and Mrs. Herman Schupfer and Mr. and Mrs. Otto Schupfer, and Mrs. Becky Ann Eichner's second birthday.

Graduates From Oregon
Mrs. Grace Kortemeier, well known former resident of Big Bear ridge, but now of Corvallis, Oregon, was a member of the graduating class of Oregon College of Education, Monmouth, Oregon, at the June 2nd Exercises.

She received a degree as Bachelor of Science.

Following Commencement Mrs. Kortemeier left for Bellflower, Calif., to visit an aunt.

Says Hello To Friends
In a brief note accompanying a subscription remittance Mrs. Mary C. Emmett, old-time Kendrick resident, but now of Carrolton, Mo., says in part: "I have been ill, but am feeling much better now. I hope everyone there is well, especially all my old friends, to whom I want to say hello. We are having cooler weather now than we had a year ago, and it is quite nice."

Are At McMinnville, Oregon
Word has been received from Mr.

and Mrs. Walton S. (Newt) Morey that they are now comfortably settled at McMinnville, Oregon, where he is taking treatments, and that he is responding nicely.

Child Falls From Car
The little three-year-old daughter of Mr. and Mrs. Tom Groseclose of Juliaetta met near death Sunday when she fell from the family car.

The door came open as her father was driving about 50 miles an hour on the straight stretch below Juliaetta. She received multiple scratches, bruises and cuts, the worst of which was on her scalp and knees, these requiring stitches.

Dr. Christensen cared for her and she is resting at the family home.

Swim Pool Leak Repaired
Bill White and Walter Sparber have completed repairs on the Area Living War Memorial Swim Pool at Kendrick, and it is now in full operation.

Just after filling, leaks were discovered in the water circulation system, and it was necessary to drive two tunnels underneath the adjoining cement walk to get at the broken pipes.

Fractures Left Ankle
E. E. McGuire, Cavendish, fractured his left ankle Monday, June 11, at the family home, when he tripped over a chain and fell.

Dr. D. A. Christensen cared for the injury.

4-H Short Course At U
The annual 4-H Club Short Course, highlight of Idaho's 4-H activities, will get underway at Moscow Sunday as an expected 550 Idaho boys and girls begin arriving on the campus for a full week of fun, friendship and serious training.

Howard Shepherd, assistant state 4-H club leader says his enrollment figures for the state are almost complete. A few more than 550 youngsters have sent in registrations, and the total figure of visiting agents, leaders and club members may reach 600 when final enrollment is in. The youngsters and leaders will make the trip to Moscow by cars and chartered busses.

The program for this year has been carefully planned, Shepherd said. The youngsters occupy men's and women's dormitories for the week and meals will be served in the hall's dining rooms.

FOREST MANAGEMENT IS RESEARCH IN ACTION

Going Our Way

Our pledge as an American Business

- ★ ... to use wisely the natural resources of our nation, remembering at all times to use, conserve, develop and defend from waste our country's minerals, soil, forests, waters and wildlife

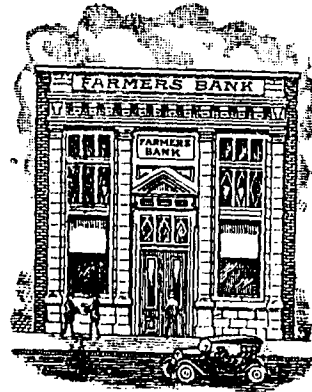

Yes, going your way, today and tomorrow, too. Potlatch foresters are paving the way for a continued harvest of forest crops. The future will be safe, secure and prosperous because of sound forest management, wise conservation and more complete utilization of our natural resources today. Another example that shows—Forest Management is Research in Action.

A Little Bit Of Everything
 In removing the trees, old curbing, etc., to widen the street between the Red Cross Pharmacy and the Kendrick Cafe, workers found what might be termed "a little bit of everything."
 There were old water pipes that apparently were attached to nothing and went no where (believed to be left overs from the old gas light era), water pipes that were capped, yet had water in them, and water pipes attached to the main that appeared to go somewhere — yet nobody knew where.
 There were also old sewer pipes no longer in use — and odds and ends of most everything — but nothing of any value.
 Pipes were "sorted out" to the best of the workers ability and soon all will be in readiness for gravel and paving.

Football Vitamins And Colored Socks For Sore Tootsies

CHICAGO—Doctors who answer questions for other doctors often tangle with such knotty problems as: Should football players be given extra vitamins; are colored socks bad for sore feet, and what can be done with a four-year-old who refuses food?

The consultants recently came up with the following answers:

All "mass medicine," including vitamins and iron in daily doses, is bad medicine for athletes. The consultant quoted a resolution by a joint committee from the National Education Association and the American Medical Association. It disapproved medicine or oxygen administration because players begin to expect it, and are encouraged to exert themselves beyond the limits they have learned "from instinct and experience."

About colored socks: a consultant said wearing them while suffering open foot sores "involves no common peril." Wearing white socks—a common recommendation for infections or other sores—is probably not necessary. Sometimes colored socks cause trouble, but only because of an allergy to dye or yarn.

The four-year-old child who won't eat unless her parents feed her just needs to make "a new start in life" another consultant said. He recommended giving "a complete change" at mealtime—a new place to eat, different dishes, and even different people to serve her.

Doirama Portrays Life Among Early Indian Communities

CHICAGO—Life as it was lived centuries ago in villages of prehistoric Indians of the Southwest is vividly portrayed in three miniature dioramas at Chicago Natural History Museum. They show three different prehistoric periods, and three different southwestern environments. The groups were prepared by Alfred Lee Rowell, dioramist in the department of anthropology, who has been engaged in the task for two years.

The first diorama shows part of a pit-house village of the Mogollon Indians who lived in the mountainous area of New Mexico and Arizona. The time represented is between 200 B.C. and A.D. 500, but museum archaeologists have traced Mogollon culture back about 4,500 years.

The second diorama shows part of a Hohokam village known as Snaketown in the desert near Phoenix, Ariz., as it must have looked about A.D. 950. The Hohokam Indians were farmers who constructed a network of irrigation canals in order to raise crops in the desert area of southern Arizona.

The third diorama is a model of Pueblo Bonito, an Anasazi village in Chaco Canyon, N.M. The time depicted is about A.D. 1100. The Anasazi Anasazi were the Pueblo farmers of the plateau areas of northern New Mexico, and Arizona, southeastern Utah, and southwestern Colorado. Pueblo Bonito was the largest "apartment house" in the Southwest.

Medical School Enrollments Are Setting New Records

Medical schools of the United States in the last year took further steps to protect the future health of the nation by enrolling the largest number of students in their history.

This was revealed in the 51st annual report on medical education in the United States and Canada, compiled by the Council on Medical Education and Hospitals of the American Medical Association. The report was prepared by Dr. Donald G. Anderson of Chicago, secretary of the council, and his aides, Dr. Francis R. Manlove and Mrs. Anne Tipner.

A total of 26,191 students were enrolled in 79 approved schools in the United States for the 1950-51 academic year. This compares with the previous high record of 25,103 in the year before, an increase of 1,088 (4.1%). Since 1941, when there was an enrollment of 21,379 students in 77 approved schools, the increase has been 4,812 (22.5%).

The report also disclosed that the current academic year will see a continuation of this increase in medical education because of the enrollment of a record freshman class. It is estimated that about 7,400 new students will enter medical schools, compared with the previous record of 7,182 a year ago.

Also important from a future health protection standpoint was a survey which showed plans were under way in many states for the opening of additional medical schools and for the expansion of existing facilities.

"Significant progress is being made toward resolving the financial problems of the medical schools," the report also said. "Funds available to the schools during 1951-52 will total approximately \$109,600,000, which represents an increase of \$36,000,000 in the last four years."

Psychologist Believes Kids Aren't Bad—Just Problems

There are no "naughty children" or "problem children," in the opinion of one distinguished child psychologist, there are only "children with problems."

"In modern days, we should not talk any longer about 'the naughty child' or 'a problem child' but should try to find the reasons back of the problems of the child."

Dr. Reymert, who is Director of The Mooseheart Laboratory for Child Research at Mooseheart, Ill., explores some of these reasons and finds that most of them are related to a lack of understanding of the child and his needs, on the part of the parent.

He observes that "one child may be naughty because he feels that he is being blamed and criticized too much. Another child may misbehave because he feels that his parents are not interested in him and do not pay enough attention to him. A third child may use this means to rebel against excessive restrictions or confinements."

"It is toward removing the cause or causes for the child's naughtiness that we must turn our attention rather than toward even stricter and more severe discipline," Dr. Reymert points out.

Insomnia

Although many people are troubled with various types of insomnia, there is no one who "just can't sleep at all" for any length of time. There is a type of insomnia where one can't get to sleep easily, but after he has fallen asleep, he sleeps soundly. In another type, the person awakens often during sleep and, although he seldom stays awake for long, things he is awake for hours. Still another type is the person who awakens early and can't get back to sleep. The person who "just can't sleep at all," however, is non-existent. It is impossible to live without sleep. Even though one is troubled with insomnia, if he has a good sleep foundation, he will doze off—although he may not realize it. On a good quality sleep foundation, it is impossible to resist sleep for long unless there is something physically wrong with a person.

Stop Sediment

To prevent the sediment that accumulates in the bottom of a tea kettle from hard water, throw away immediately the remaining amount of boiling water which you are not going to use. Do not allow the boiling water to settle in the kettle. Installation of a water softener, to treat the hard water and get rid of the compounds that cause the sediment, would also eliminate the deposit.

Earth and Gravity

The force of gravity is lessened by the centrifugal force produced by the Earth's rotation because of centrifugal force. The effect of gravity at the equator is about one part in 289 less than it would be on a stationary Earth, or than it is at the poles, where there is no such force. The centrifugal force also throws the surface of the Earth at the equator about 13 miles farther than the poles from the center. This causes a further decrease in gravity, so a man who weighs 189 pounds at the pole would only weigh 176 pounds at the equator, as measured by a spring balance. Ordinary scales would not show this, since the weights used would be equally affected.

Mayflower Will Resail Ocean Blue

WASHINGTON — Shades of our ancestors, The Mayflower will resail the pilgrim voyage.

Hewn from stout English oak, a new Mayflower is taking shape in a British shipyard. In July they laid her oaken keel. Next July, if all goes well, the second Mayflower will set sail on a two-month crossing to the "stern and rock-bound coast" of New England. Its crew and passengers, many of them descendants of Mayflower passengers, will land in garb of the Puritans of 1620.

Gesture of friendship to the United States, the project is financed entirely by voluntary contributions in Britain. Long research by historians on both sides of the Atlantic guides the work.

Little is known of one of the most famous ships ever to sail the Atlantic. No precise records, specifications, or descriptions survive, nor any known painting or sketch of the "fine ship," as Puritan deacon Robert Cushman described the Mayflower.

Christopher Jones was her master, a native of Rotherhithe beside London's Thames. She was likely a 180-ton vessel, fair size for her day, broad-waisted, with high superstructures or "castles" fore and aft.

US-USSR Economic Potential Compared

LOS ANGELES — Russia's economic potential in 1960 will be roughly the same as that attained by the United States in 1929.

This is the considered judgement of Dr. Dudley F. Pegrum, professor of economics on the Los Angeles campus of the University of California, who recently prepared a comprehensive analysis of the economics of the United States and the Soviet Union for the Lockheed Aircraft Corporation.

In his analysis, Dr. Pegrum carefully compared relative strengths of the two countries in fuel and power supplies, metals, agriculture, railroads, labor and military production.

He concluded that the maximum economic strength of the U.S.S.R.

in the event of an all-out war in 1960 would be one third of that which could be mustered by the United States.

"This does not mean that the might of the Soviet Union should be underestimated," he adds. "A potential output of \$50 billion dollars for war effort on the part of Russia in 1960 represents enormous power. It is more than that which any other country except the United States has a prospect of matching by 1960."

Noisy Shrimp Give Radar Rough Times

SAN DIEGO—The Pacific Ocean off San Diego has one of the noisiest sea channels in the world and the lowly shrimp is the great noise-maker, says Dr. Franz Kurie, technical director of the Naval Electronics Laboratory.

Kurie says the noise is caused by enormous numbers of shrimp snapping their claws.

Noise caused by sea creatures becomes so loud at times that submarines can use it to evade detection by electronic equipment being used by surface ships.

Dr. Kurie says that a permanent deep sound channel has been discovered in the Atlantic Ocean where conditions are right for sound transmission across extraordinarily great distances.

In one experiment, a sound was transmitted from Dakar, in Africa to the Bahamas Islands on this side of the Atlantic Ocean.

'Taxi' Ride Turns Out to Be 'Free'

ROBINSON, Ill.—The family car was in a garage for repairs, so Lab Russell told his wife to take a taxi to work.

Mrs. Russell, nearly late, phoned for a cab. A few moments later a car turned into her driveway. Mrs. Russell rushed out, got in and told the driver where she wanted to go.

On arrival, she asked how much she owed for the ride.

"Lady, you don't owe me anything," the driver said. "I was just turning around in your driveway."

Help Mayor

YORK, Neb.—Mayor Lloyd O. Livingston was in a spot before compassionate City councilmen voted him out of it.

Livingston had workmen build a foundation for his house in the city—then discovered that the contractor used a short ruler.

The completed foundation was a foot nearer the curb than the law allowed, and a special action by the council was needed to legalize it.

Nail Polish Sealer For Fungal Infection

CHICAGO—A Miami physician has finally outdone the proverbial female who fixes everything with a hairpin or a little nail polish.

Dr. Hollis F. Garrard has reported that he has successfully used nail polish sealer in treating a fungal infection of the fingers and nails.

He said the sealer acts as an "artificial cuticle" and keeps water and foreign material from getting under the loose skin around the nail. The sealer is applied to the nail and nail fold in the morning and left on until bedtime when it is removed and another medication applied.

Dr. Garrard has used the method on 59 patients with monilial paronychia.

Tavern Owner Must Protect His Patrons

BOSTON—A tavern owner must also be a referee, apparently.

A Massachusetts Supreme Court justice has ruled that a tavern owner is responsible for the safety of a customer who gets involved in a fight resulting from a television program.

Justice Harold P. Williams upheld a lower court award of \$3,000 to Pasquale Greco, Boston.

Greco had called upon a boisterous fellow-patron at Sumner Tavern to be quiet during a television program.

The man broke Greco's leg in the ensuing battle.

Justice Williams said the tavern owner should have exercised reasonable care for Greco's safety.

No Comparison

NEW YORK—A group of visiting Russian journalists took in a New York automat and made history by observing that similar restaurants at home "are not so good as this." They admired the food-and-drink dispensing machines and then lined up at the steam table for a hot lunch and milk.

Terramycin Said Effective Against Pinworm Infection

Infection caused by the pinworm, the most common and widely distributed of all human parasites, can now be successfully treated with terramycin, according to a team of 6 American doctors conducting clinical trials in Haiti.

Treating 61 cases of pinworm infection, the physicians found terramycin effective in all but two patients. Clinical trials with the wide-range antibiotic drug were undertaken because, said the doctors, "the usual treatment with gentian violet often does not eradicate the infection, and not infrequently the drug must be discontinued due to toxic reactions." Several of the patients who had taken gentian violet previously said they found terramycin "considerably more tolerable."

Pinworm infection is found throughout the world and in all ages. Public health experts estimate it affects 35 per cent or more of the general population. In southern states 50 to 60 per cent of all children have had it. Caused by a small white worm, its most disturbing symptom is itching. Often scratching brings about a secondary infection. Pinworm may interfere with eating and result in loss of weight and anemia. The disease usually infects the entire family.

In their clinical report, appearing in the current issue of the medical journal, "Antibiotics and Chemotherapy," the doctors point out that successful therapy depends upon simultaneous treatment of the whole family. In this respect one of gentian violet's disadvantages, they say, is that young children often cannot swallow the enteric-coated tablets.

Whenever possible, the medical team in Haiti examined whole families and treated them simultaneously with terramycin. Full cooperation was not always obtainable, but "despite inadequate dosage in a large number of cases," says the report, "in only 2 instances did treatment definitely fail by the fourth week after therapy was begun."

North Carolina Attacks Highway Safety Problems

A sound program to promote safety on the highways has been set in motion by the state of North Carolina. The appalling number of deaths and injuries resulting from motoring accidents in recent years has provoked this state to take action of a new and decisive type.

Since the first of July, applicants for driver's licenses and renewals have been required to have their eyesight tested on a complex instrument which measures 12 visual skills, including muscular balance, acuity at near and far distances, and depth perception. The instrument makes it impossible for drivers with poor vision to slip by, by memorizing the letters that they must read — a trick sometimes played with conventional charts. Those who fail the tests are advised to consult an eyesight specialist, and many of them will undoubtedly be enabled to pass by professional eye-care.

Good vision has long been recognized as a major factor in accident prevention, and thousands of hours have been spent in attempts to establish proper standards for motorists. But the results were always inconclusive, because too much of the element of personal opinion was involved. Under the new system, however, definite statistics on 1,300,000 drivers will be obtained by next July 1, and it will be possible to judge accurately which visual errors contribute most to accidents and which visual skills are most essential to highway safety.

A Comet's Weight

What is the weight of a comet? Weight is a measurement of the attraction of the Earth for a body on or near its surface, and as a comet moves far out in space, and is subjected to a varying attraction from the Earth and other planets, one should not speak of its "weight." Its mass, which is a measure of the amount of matter it contains, can only be determined roughly. It has been estimated that with Halley's comet the nucleus, which contains most of the material, has a mass of about a two-hundred-millionth of the Earth's mass. This would be about thirty million million tons. It has also been determined that the particles of which Halley's comet is made could not be held together by the gravitational attraction of a mass smaller than one twenty-fifth of the above figure. Most comets, however, are much smaller than Halley's, and have considerably smaller mass.

Schedule Is Wise

A regular painting schedule actually simplifies property protection. One wise farmer does a fourth of his buildings each year. In that way, each gets its necessary coat of protection every four years without fail, and each year's painting project can be fitted in as other outdoor work permits. While city dwellers do not have as many structures to safeguard, they are wise to look on painting as property-value insurance and to follow a regular schedule.

OBLIGATION

The obligation of the family during a time of sorrow, is closely allied to the obligation of Vassar-Rawls Funeral Home to the family. It is essential that those served be given the benefit of over 50 years of experience. Complete funeral arrangements . . . thorough to the very smallest detail . . . are simply basic requirements of a Vassar-Rawls service. It is the extra conveniences that are important . . . the simple friendly gestures that mean so much to a burdened mind. The family's obligation of payment is eased by the knowledge that at Vassar-Rawls, funeral payments are designed for the family's needs. A funeral is a mutual obligation . . . necessitating mutual trust and confidence.

It's usable horsepower that counts!

Rated horsepower figures don't tell the whole story of truck performance!

Many passenger-car-type engines have to strain at the job of developing power to pull a normal load. They have to "give it all they've got" to move their loads and keep them rolling, cost big money in wear, repair and shortened life.

INTERNATIONAL Truck engines—built for trucks—turn at relatively low rpm—deliver high usable power at normal road speeds. They are part of the all-truck engineering that asks no passenger car component to do a truck job—part of the thinking that builds trucks stronger, to last longer . . . save you the BIG money in operating and maintenance costs.

HELLO, FOLKS:

Haying time is at hand — now that the weather seems to have settled down a bit. Are you ready? Is your pickup or truck equipped with good tires? Do you have an ample supply of oils, greases, gasoline and diesel fuel on hand? If not, come in and discuss the tire problem — we handle those famous U. S. Royals — and give us a call on the phone for your farm needs.

"So you want another day off?" snorted the office chief to his small office boy. "I'm anxious to hear what excuse you have this time. You've been off for your grandfather's funeral four times this year already!" "Today my grandma's getting married again," calmly replied the

youngster.

Our specialty is the care of your car. Bring it in for a complete lubrication, including a crankcase full of that famous Royal Triton Motor Oil — a wash job and perhaps a wax polishing. There's lots of satisfaction in driving a good performing, fine looking vehicle. The cost is low, too.

"I insured my voice," said the would-be singer, "for \$250,000." "And what," snorted the critic, "did you do with the money?" "Like a clean windshield? Stop here for service. We wash 'em!"

Someone has defined a "wolf" as a big game hunter who enjoys life, liberty and the happiness of pursuit.

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Newly Weds Charvaried
A group of friends gathered and tendered Mr. and Mrs. Roy Silflow a rousing tin-can serenade at their home Friday evening. Treats were distributed and all departed wishing the newlyweds much happiness.

Children's Day Picnic
The Children's Day program and picnic was well attended last Sunday, at the Meyer's grove, where a basket dinner was spread for all. In the afternoon races and ball games were enjoyed. Plenty of pop and ice cream were on hand for everyone.

Attends N. W. Dist. Convention
Rev. Meske spent from Monday through Friday in attendance at the Northwest District Convention of the American Lutheran church at Pacific Lutheran College in Parkland, Wash.

Annual Missionfest To Be Held
The Annual Missionfest Service at Cameron will be held Sunday, June 17, at 10:45 a. m. with Miss Dorothy Meyer, missionary from India, as the speaker. Everyone is welcome to attend. After the services there will be a pot-luck dinner at the hall.

Bridal Shower
A bridal shower was given Monday afternoon at the hall honoring Mrs. Roy Silflow.

The building was beautifully decorated with home grown flowers. A long table was set with small vases of flowers where the group were seated, and played games. Prizes went to Mrs. Theo Meske and Mrs. Herbert Schwarz. After the games the bride was seated at a table covered with a beautiful lace table cloth, with two large baskets of string and peonies at a center piece, and where all her gift packages were to be opened.

Fuses Had To Be Replaced

Otto Schupfer and Bud Eichner report that they all but ran out of fuses last week in replacing those burned out in the electrical storm of June 3rd. Otto said they replaced 48 in phones on Fix ridge alone — and he would have to do a lot of figuring to tell accurately how many were required in the entire system!
