SHORT LOCAL ITEMS OF MORE THAN PASSING INTEREST

4-Hers Attend Short Course
Two girls and three boys from the Cameron area attended the Short Course at Moscow from June 17 to 23. As none of us had been there before we had no idea how interesting it would be, but I'm sure all decided that college life would be fine. From all of Idaho there were 601 in attendance.

Those of us living so near Moscow didn't realize how lucky we were. It cost just \$17.00 for each for the entire course, but the students from south Idaho had costs of \$40.00 — so more local boys and girls should be taking more interest. And believe me, it's worth every cent of it.

The meals are really excellent, too. They kept us so busy no one had time to get homesick. There is a choice of our subjects — anything from cleaning chickens to square dancing. They can attend free movies, go swimming in a warm pool, and pick out any kind of sport you may like. In addition, you learn to mix with kids from other areas and make many friends. So I just want to say: "Short Course is swell. Let's all go next year."

From the Merry Stitches Club Judy Koopp and Jean Jones attended. From the Livestock Club Reggie Wegner, Duane Meske and Larry Blankenship. — Larry Blankenship, reporter.

Petition Being Circulated

Mrs. Cecil Chamberlain, Big Bear ridge, is circulating a petition asking for the oiling of Idaho State Highway No. 7 — across Big Bear Ridge — from the "Southwick-Orofino Junction" just east of Kendrick, to Deary, and to date has been very successful in securing signers, even a considerable number of Moscow business men.

It is highly recommended that everyone in this area see Mrs. Chamberlain and sign this petition. It may be that it will receive no consideration — but at least it will let the state highway commission know that we in this area are aware of the need for good roads — and that we want them!

The oiling of this link would bring far closer the dream of a north-south link from Spalding Junction to Coeur d'Alene, via Deary, Avon and Harvard, to emerge at Potlatch. We commend Mrs. Chamberlain on her booster spirit!

LOCAL PONY LEAGUE TEAM IN TIE FOR FIRST PLACE

The Kendrick-Juliaetta entry in the Pony Baseball League moved into a first place tie in league standings on Monday evening by whitewashing Orofino 7 to 0 for a season record of three wins and two losses. The local boys broke into the scoring column in the fourth inning when they put together three hits and a walk — good for three runs. They picked up another run in the 5th on two hits and a walk, and iced it in the 7th with 3 more runs on four hits, the big blow being Wesley Andrews 5th home run of the season — with two men on ahead of him as a result of two singles.

Batteries for the game were: Kendrick-Juliaetta — Parks and Andrews; Orofino: Corbett and Brown.

Short score for the game: Kendrick-Juliaetta — 7 runs, 11 hits, 1 error; Orofino: No runs, 3 hits, 3 errors.

June 21 — On Thursday, June 21, in a game played at Armitage Field in Kendrick, the local entry defeated Kamiah 8 to 7. This contest was close all the way, not being decided until the last half of the 6th inning when Kendrick-Juliaetta scored what proved to be the winning run on two base hits and a base on balls.

Batteries for the game were: Kendrick-Juliaetta — Armitage, Reynolds in the 7th, and Andrews. Kamiah — Lyons and Emmett.

Short score for the game: Kendrick-Juliaetta — 8 runs, 10 hits, 4 errors; Kamiah — 7 runs, 7 hits, 0 errors.

BE ALIVE THE FIFTH!

Holiday motorists were offered this advice: "Be Alive the Fifth" by the Traffic Safety division as the Fourth of July celebration approaches. Unless everyone takes that advice to heart and uses extra caution to reverse the usual high holiday accident toll, many persons starting to celebrate the Fourth of July, will not live to see the day out, according to Harold Davis, traffic safety director.

Year after year the Independence Day celebration stands out as the number one killer during the summer. This year promises to run true to form unless the celebrants themselves resolve to do something about it.

The Traffic Safety division offers the following tips to holiday drivers:

1. Begin your trip a little earlier so you won't be tempted to speed. Remember that speeders lose. Take it easy on the Fourth and be alive the Fifth.
2. Don't drink if you drive, and don't drive if you drink.
3. Don't cut in and out in heavy traffic. Stay in line until passing is safe.
4. Drive as if your life depended on it — because it does. And others lives often depend on you, too.

Farmer Tax Refund Guide

The Washington office of the Internal Revenue Service has announced publication of a pamphlet for the guidance of farmers who will soon be filing a claim or refund of the federal tax paid on gasoline used for farming purposes.

A limited supply of this 15-page pamphlet titled "Publication No. 308" has been received for distribution throughout Idaho. Farmers may obtain it by contacting their local county agricultural agent or the nearest office of the Internal Revenue Service.

Publication No. 308 explains in plain language the rules and procedures to be followed in filing a claim for refund of the federal gasoline tax. It also explains the steps to be taken by farmers to obtain relief from the federal tax on diesel fuel and other special motor fuels which are used for farm purposes.

Claims for refunds are to be filed between July 1 and October 1 with the District Director of Internal Revenue on Form 2240. The first claim to be filed is to cover taxes paid on gasoline purchased and used during the first six months of 1956. Thereafter, refunds will be made for taxes paid during a one-year period, from July 1 to June 30.

United In Marriage

Ray W. Taylor, Juliaetta, and Georgia Southwick, Troy, were married at 8:00 p. m. Saturday, June 23, in the First Christian Church at Lewiston, with the Rev. James York, pastor, officiating at the simple double-ring ceremony. Mr. and Mrs. Loyd E. Ware, brother-in-law and sister of the bride were their only attendants. The ceremony was also witnessed by the bride's mother, Mrs. Abner Corkill of Troy.

The bride was attired in a turquoise linen suit with white accessories and her corsage was of peppermint stick carnations. The matron of honor, Mrs. Loyd Ware, wore a pink nylon dress with white accessories and her corsage was of blue carnations. Mrs. Corkill wore a beige suit with black and white accessories.

Laws To Be Enforced

Village Marshal E. M. (Bill) White says that too many village ordinances are being violated, taking into consideration the heavy increase in traffic, particularly as harvest draws near. Among these are:

Illegal parking (parking diagonally, headed the wrong way, and backing around corners, etc).

Children riding bicycles on sidewalks, and when in the streets failing to observe traffic rules.

Bill says this is a warning — and continued violations will result in the issuance of tickets. In the case of bicycles — they will be impounded.

Bill also adds that a new crop of "bang pipes and illegal mufflers have made their appearance. He says: "Take them off or tell it to the judge!"

Weather Settles — Work Resumed

The good weather of the past few days has permitted the resumption of farm field work, and the bark of tractors, clatter of mowers and all the other sounds associated with farming can be heard on every ridge around Kendrick.

The cool, wet weather put work schedules back from ten days to two weeks, particularly in haying, bean planting and summer fallow working.

As one farmer put it: "If I could cash in on the wild oats I'd really have it made. This season has been perfect for growing these field pests." (Only his words weren't quite that). Anyway, the sunshine and warmth are more than welcome.

Her petition of candidacy carried 281 signatures from 12 of the First District counties and was filed with Sec. of State James H. Young.

Miss Shaddock, a former Coeur d'Alene newspaper woman, has also served as secretary to Lt. Gov. D. S. Whitehead, during an Idaho legislative session; as executive secretary to Gov. C. A. Robbins; and as executive secretary to Idaho's Senior Senator, Henry C. Dworshak, from Jan., 1951, until Feb. of this year, when she resigned to seek the First District seat.

She was born in Coeur d'Alene, and is a daughter of Mr. and Mrs. L. C. Shaddock, pioneer residents of that area. She has six brothers, and all of them were reared on a small dairy farm near Coeur d'Alene, where the family home is still located.

ELECTRICITY COMING NEED

Lewiston — Rapid population and industrial growth in the Lewiston-

Clarkston area will triple the area's need for electricity in ten years, the Washington Water Power Company predicted today.

Al Gruber, Lewiston Division manager for WWP, said that a four-month field study of electrical load growth in this area has revealed that the load has been growing at the rate of about 12 per cent annually "for at least the last four to eight years. And this includes just the non-industrial load," Gruber said.

"Besides population increases, there's another good reason why the electrical use in this area is going up. More for more things than ever before, from pumping water and drying hay to running a new set of the latest kitchen appliances," Gruber said. "Our average residential customer uses about three times as much electricity as the national average at less than half the cost."

The WWP official said the increase in electrical requirements for the Lewiston basin compared to about six per cent annually for the entire Washington Water Power Company service area and to seven and a half per cent in the Spokane area.

"When the average use of electricity is high in any particular area, it's usually a good index that the area is enjoying high living standards and general prosperity," Gruber said.

"The Washington Water Power Company has great confidence in the unexcelled potential of the Inland Empire to grow and become even more economically healthy," he stated. "Our Lewiston area alone has already outgrown two 110,000-volt transmission lines now serving this territory out of Spokane. That's why field work is already underway to prepare for construction of \$3,200,000 high voltage transmission line more than

100 miles long from Spokane to Lewiston to double the present electrical transmission capacity. The job is expected to take about two years, with about \$360,000 being spent on it this year."

Gruber added that other construction expenditures in WWP's Lewiston division will bring total costs to more than three-quarters of a million dollars in 1956. He mentioned such details as \$25,000 for rural line extensions, \$97,500 for line extensions to new residential customers in the area, and more than \$53,000 for distribution line rebuilds.

Gruber also stated that WWP plans to spend more money for new construction in the next four years throughout its entire system than has been spent in the previous 67 years of the company's history.

Women In Public Office

It seems to us unfortunate that our school district never has tapped a rich source of strength. We refer to female representation on the board of education. For some reason or other it has become a tradition that the board of education is a man's domain — just as is the City Council. More and more women are taking their places in government, and we are of the opinion they have much to offer.

We firmly believe that a school board can be strengthened with mixed representation. Women by nature, training and instinct observe things that men miss completely. Their closer attachment to children in the home gives them a better understanding of child problems in school, and usually they delve into problems more searchingly and thoroughly than men ever do. These characteristics certainly would be valuable on any school board or city council.

We certainly don't know why it should be so, but women seem to take a much keener interest in school affairs than do men. Mothers are far more frequent visitors in schools than men, and if you are not satisfied make a survey of who — men or women — make a Parent-Teacher organization tick — and would probably do equally well on a city council.

There are a number of women in the community who would make excellent members of a board of education or city council. For one thing there are many women in the community — far more than men — who have had teaching experience. Some of these women have much they could contribute to the development of policies for the operation of a successful school or town system.

This is the time for candidates to file for the coming school and city elections. We'd like to see some of the good mothers come forward. — LeRoy (Ill.) Journal (via C. S. Monitor).

Pre-Arrangement

Have you ever stopped to think how gracious it would be toward those whom you hold dear, were you to provide in advance for all details attending your funeral . . . so that when death occurs, they will not be burdened with funeral arrangements? Our Pre-Arranged Funeral Plan operates like a Savings Account at the bank. You choose the funeral you wish, then pay for it at one time, or make regular monthly payments on it; yet, if conditions should change, you can withdraw the payed-in sum at any time; or the funeral can be arranged in advance without any financial commitment. A Pre-Arranged Funeral Plan appeals to the modern mind, and if you will write for our free brochure, you can learn all the details. Write Vassar-Rawls, 141 9th, Lewiston, Idaho.

Tomorrow's Farm Problem
The basic agriculture problem today is found in the staggering surplus of major crops. That of the comparatively near future will be entirely different. As the Portland Oregonian put it, "The problem in a few years will not be how to set aside farm land and avoid surplus of foodstuffs, but how to produce sufficient food on the remaining cultivatable land."

This view may seem startling, but it stems from the hard rock of fact. From 1942 through 1956, reports the Soil Conservation Service, some 17 million acres of tillable U. S. land will have been converted to non-agricultural purposes—industrial areas, housing developments, airports, highways, and so on. An additional 3 million acres has been planted to trees. To quote the Oregonian again, "Re-

cently President Eisenhower recommended that 25 million acres be taken out of cultivation and placed in the conservation reserve part of his proposed soil bank. This is not much more than has been taken permanently out of cultivation. . . in a decade and a half."

That trend, it is expected, will not continue but probably intensify. At the same time, our population is expected to reach the 210-220 million level in a mere 20 years. We will thus have a great many more mouths to feed—and a much-reduced acreage to produce that food.

It is evident from all this that agriculture's future job will be to make the croplands more productive, not less. This will require the use of more and improved farm equipment of all kinds along with the other tools and techniques that science and technology have made available to the modern farmer.

HELLO, FOLKS:

Are you — or perhaps we should say "Is your car ready" for the Fourth? — and that trip? Perhaps you're going fishing — perhaps to a family reunion — perhaps to visit some distant celebration — but is it ready? How are your tires? Does it need a grease job — oil change — wash or polish? If so, don't fret about it. Bring it in to us. We're specialist in road care of your car — using those famous Union Products and U. S. Royal Tires. The cost is low — results big. Come in!

Two women who had once been neighbors met on the street after not having seen each other for several years. "My," said one, "I would hardly have known you. You look so much older." "I wouldn't have recognized you

either," replied the other sweetly, "except for your hat and dress."

Busy in the hay field? Busy working summer fallow, or bean ground? If so, don't worry about adequate supplies of lubricants, gasoline or diesel fuel. Just step to the phone and call 1251. We'll arrive in a hurry with your needs of famous Union Products.

Young Man: "What's the best way to teach a girl to swim?"
Swimming Instructor (with a grin): "First you put your left arm around her waist, then you gently take her left hand, and —"
Young Man: "But she's my sis!"
Instructor: "Oh — push her off the dock."

You'll like Union Products. We handle them!
