

COMINGS AND GOINGS OF KENDRICK FOLK, FRIENDS

July 3, 1936 — Mr. and Mrs. Herman Schupfer and Beverly returned Friday evening from a three-week trip to California. They visited the San Diego Exposition and other spots of interest while away.

Oscar Hartung and Roy Ramey, Jr., spent a couple of the days the forepart of the week at home, before returning to their construction work camp near Winchester.

Mary Adams of Moscow was in town visiting with old friends, Wednesday.

Mr. and Mrs. Sam Nesbit of Los Angeles are here visiting in the home of his brother, Mr. and Mrs. B. F. Nesbit.

Dick Carlson of Spokane is visiting with his uncle, Ed. Carlson, at Juliaetta, and with Frank Homer Rider, this week.

July 17, 1936 — Mr. and Mrs. Jim Benjamin, Mr. and Mrs. Gunder Reiersen and Mrs. Edgar Long went on a huckleberrying expedition to the Clarkia area over the week-end.

Patty McCreary returned home on Tuesday after a week's visit with Beverly Bressler at Genesee.

Rev. and Mrs. T. E. Poindexter and two sons, accompanied by Barbara Long, Arlene and Annabelle Deobald, Clara and Marybelle Mattoon left on Sunday afternoon for Camp Grizzly, where they will spend a week at Young People's Conference.

Mr. and Mrs. Paul Lind drove to Teakean Sunday to visit friends.

Jean Crocker spent the week-end in Leland visiting in the Robert Smith home.

Mr. and Mrs. Lester Crocker, Mr. and Mrs. Don Miller, Mr. and Mrs. Frank Crocker and Ward Howell went huckleberrying on Beal's Butte Sunday.

Mr. and Mrs. W. B. Deobald and children left Wednesday morning for Nelson, B. C. to visit her sister and family, Mr. and Mrs. J. C. Allison.

Bob Dammarell, employee of the Shell Oil Co., is making daily trips through Kendrick servicing the Goodfellow Construction Co., who are building the Wauncher Gulch road.

Alice and Nancy Riley returned to Lewiston Wednesday afternoon, where they are employed.

July 24, 1936 — Mr. and Mrs. Geo. Leith were Troy and Moscow visitors Sunday.

Mr. and Mrs. J. E. Key of Spokane spent the week-end here with relatives.

Mr. and Mrs. J. M. Lyle, Jr., and daughters spent the week-end in Lewiston visiting with relatives.

Mr. and Mrs. Clyde Daugherty and children left Saturday for Spokane where they will spend a couple of weeks visiting relatives.

Mrs. Silvie Cook, who has been attending summer school at the U. of I., has finished her course and is home for the summer.

Mr. and Mrs. Silvie Cook and Margaret, Jean Crocker and Mrs. Edgar Long and Barbara were huckleberrying in the Beal's Butte section Sunday.

Elbert Long, who has been teaching at the summer school at the U. of I., is visiting at the home of his grandmother, Mrs. N. B. Long.

Miss Rowena Ramey returned home Sunday after spending three weeks visiting friends at Coeur d'Alene, St. Maries, Plummer and Spirit Lake.

Harry Perkins of Howard, Kansas, arrived Friday night to visit with his cousins and families, Mr. and Mrs. Wade Keene and Mr. and Mrs. Ira Havens and families.

July 31, 1936 — Mrs. Norla Callison went to Peck Monday for a few days' visit with relatives.

Mrs. Ben Cummings and daughter Miss Ethel, were Lewiston visitors on Monday.

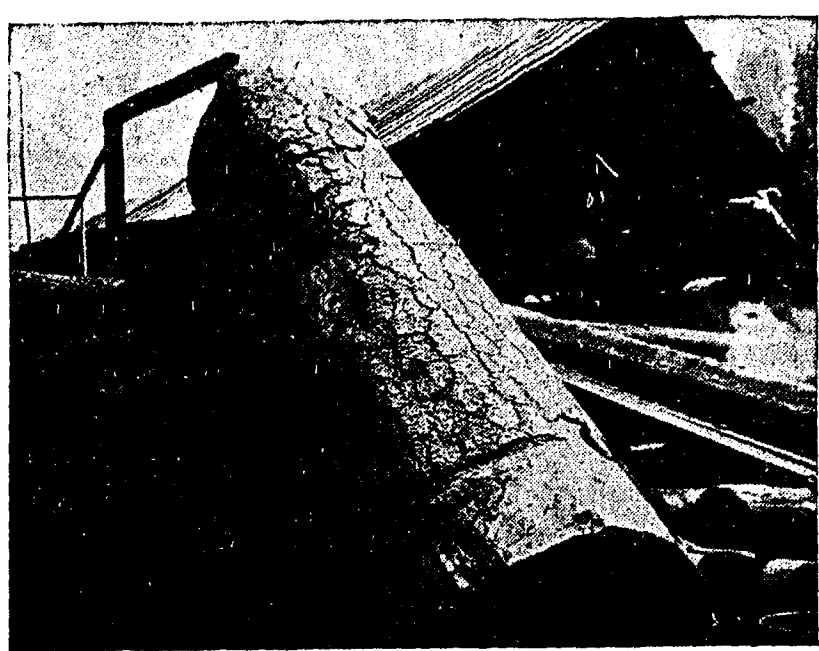

Mrs. George Leith returned home Wednesday from Lewiston, where she had spent the past few days.

Mr. and Mrs. James Pearce and family of Walla Walla were week-end guests in the home of Mr. and Mrs. Lester Crocker.

Mrs. J. B. Leonard of Marion, Va., arrived Tuesday for a visit with Mrs. N. B. Long. Mrs. Leonard will be remembered as Mrs. Jody Long. Miss Lillian Long has been here for some time visiting her grandmother and other relatives.

Mr. and Mrs. W. L. McCreary left Saturday morning for Warrenton, Oregon, for a visit with Mr. and Mrs. P. S. Griffith and family. Mr. Griffith and Mrs. McCreary are brother and sister, Harley Wyatt of Globe, Ariz., is assisting in the Gazette office during their absence.

DO YOU REMEMBER THIS ONE ? —

It's a huge yellow pine log, cut and delivered to the old Thomas Sawmill 20 years ago by Claud Craig, and we might add that the big log really posed a problem to the mill — but it came out beautiful, clear lumber — lumber that would be "worth a young fortune" today.

In fact, the chances are very slim

that such a log would ever go to the saws today. It would wind up as a "peeler" in the big P. F. I. veneer plant at Lewiston.

The old Thomas Sawmill stood on ground across Bear Creek in the east part of town, near what are now the Manning Onstott and C. H. Fry homes.

BIG BUTTER SHIPMENT LEAVES KENDRICK MONDAY

July 17, 1936 — Harold Thomas, on Monday morning of this week, made what is probably the biggest butter shipment ever to leave Kendrick — 10 tons of the golden product of cream that delights everyone.

Everett Crocker took the big shipment to Lewiston, from which point it will go by refrigerator truck to Seattle, for use on the meal tables of that city.

It speaks well of the Potlatch section that such large quantities of butter fat are available here — and of the Thomas Creamery, which but a short three years ago was merely a cream receiving station, with a tiny can-washing boiler fed by 12-inch stove wood, and a cream testing heater with a tiny gasoline burner and turned by hand.

Now this plant is a very modern one indeed, with its big churn, two pasteurizers, ice plant, cold storage lockers, ice cream freezing equipment, modern steam sterilizing tables, electric cream testers and all the other modern and sanitary gadgets that go to make up a thoroughly modern creamery.

Unlike many creameries, Mr. Thomas invites inspection — invites visitors to watch the production of butter, ice cream and cottage cheese from the arrival of the cream or milk in the cooling rooms to the finished product.

Mr. Thomas says he is proud of his plant, proud of the sanitary way in which everything is handled, and welcomes visitors.

LINDEN ITEMS

July 24, 1936 — Mrs. Earl Langdon and children and Frank Foster, who have been visiting at the Guy and Arthur Foster homes and with Aunt Carrie and Arley Allen, besides calling on many of their old friends and neighbors on the ridge, left on Thursday for their home in California.

Mr. and Mrs. John Darby and daughters spent Saturday evening with Mr. and Mrs. Clem Israel and family.

Mr. and Mrs. Lester Weaver and son and John Michael, spent Sunday with Mr. and Mrs. Adolph Dennler at Juliaetta.

Miss Lillian Grayson, who has been working in Lewiston, is visiting her parents, Mr. and Mrs. Forest Grayson.

Most every family on the ridge has been huckleberrying the past two or three weeks, some of them going two and three times. All got a nice lot of berries, as they are plentiful and large this year.

Mr. and Mrs. Clem Israel and Mrs. Louisa Fry spent last Sunday afternoon with Aunt Carrie and Arley Allen.

Mrs. Jim Farrington and son returned to their home at Bovill Saturday, after visiting her parents, Mr. and Mrs. H. S. Weaver.

Mrs. Ray Cuddy and children spent Sunday at Southwick visiting relatives.

Lester Weaver is treating his barn to a coat of paint, which adds much to the appearance.

Mr. and Mrs. Claud Pippingier of Orofino; Mr. and Mrs. Louis Porter of Cavendish; Mr. and Mrs. Arthur Foster and daughter, Mr. and Mrs. Edgar Bohan and daughter and Mrs. Mattie Garner and family visited with Mrs. McPhee and Cleve Sunday.

Miss Aletha Israel has returned from Spokane, where she has been attending business college.

Mr. and Mrs. Pressly and family and Mr. Barclay attended church services in Moscow Sunday morning.

July 31, 1936 — Mrs. Mertie Stone and daughter Lola of Lewiston are visiting her brother, Addison Alexander and family this week.

Bill and Bob Fry recently purchased a Ford V-8 truck.

Billy and Teddy Weyen spent last week visiting with relatives in Spokane.

Clem Israel and Ray Cuddy have taken a contract for logging the timber off the Claud Stanton place and Hugh Stanton Estate at Breakfast creek, and have begun work.

Cleve McPhee, Walter Carmin and Melvin Garner have gone to Breakfast Creek, where they will be employed.

Mr. and Mrs. Jim Keeler have moved to the Ed. Knute camp, where Jim will be employed.

Mr. and Mrs. Dan Whybark spent Sunday evening with Mr. Starr.

Louis Alexander came up from Clarkston Sunday evening to get his son, Robert, who is ill with the mumps.

FIX RIDGE NEWS

July 3, 1936 — Adolph Martha and Ernest Dennler and Omie Weaver went to Lewiston Thursday after a load of cherries.

Elsie Dennler of American Ridge was home for a few days last week.

Mr. and Mrs. Caus Clark and family were Lewiston visitors Saturday.

Mr. and Mrs. Ralph Richardson and daughters drove to Moscow Saturday.

Mrs. S. Hutchison and son Wallace and Mrs. J. Woodruff called at the Robert Hall home Sunday.

The Dennler Bros. went to Genesee Tuesday on business.

Emma Dennler has returned home from Douglas, Wash., where she has been visiting the past few weeks.

Mr. and Mrs. Caus Clark went to Lewiston Tuesday on business.

Jacky and Clinton Clark visited with Omie Weaver Tuesday.

Mr. and Mrs. Ralph Richardson and daughters and Mrs. Robert Hall were Lewiston visitors on Wednesday.

Mr. and Mrs. Ira Fix went to Lewiston on business Tuesday.

July 31, 1936 — Mr. and Mrs. Paul Hall were Juliaetta visitors Wednesday.

Mr. and Mrs. Ed. Richardson and son Paul were Sunday dinner guests in the Roy Glenn home on Texas ridge.

Mr. and Mrs. George F. Calvert and son Glenn were dinner guests in the Ira Fix home Sunday.

Mr. and Mrs. Ralph Richardson and daughters went to Lewiston Saturday.

Lawrence Slead visited at the Herbert Jenkins ranch near Kendrick on Saturday.

Rex Taber visited Sunday afternoon with Billie and Gayle Jenkyns.

BIG BEAR RIDGE

July 24, 1936 — Milo Slind and daughter Mardell visited with friends and relatives here recently.

Mrs. Robert Clemenhagen entertained the Ladies Guild Wednesday.

Mabel and Howard Halseh spent Sunday afternoon at the Ed. Halseh home.

Mrs. Zach Aas entertained the Lutheran Ladies Aid at her home in Moscow, Thursday.

Mr. and Mrs. Hjaalmer Dahiberg and family spent Sunday at the Oscar Slind home.

Emma Aas is visiting her sister, Mrs. Ed. Lien.

Margaret Lien returned home last week from the coast, where she had been visiting relatives and friends.

Agnes Rognstad visited at the home of Mr. and Mrs. Thorvald Nelson last week.

Mr. and Mrs. Lewis Pearson and children of Spokane spent Saturday and Sunday with Ed. Halseh and family.

To Start Logging Operations

July 31, 1936 — Clem Israel has secured the contract for logging off the Claud Stanton and Hugh Stanton timber claims, which are said to contain some of the finest timber to be found anywhere. The operation will involve the moving of several million feet of timber, it is said.

FILINGS FOR ELECTION ON AUGUST 14 NOW COMPLETE

July 20, 1936 — Filings for the candidates for the Primary Election to be held on Tuesday, Aug. 14, are now complete — and reveal many positions for which a hot contest is brewing — and several which are unopposed.

Below we list them:

Republican Party
For United States Senator: Dr. Ray J. Davis, William S. Holden, John C. Sanborn, Mark L. Streeter, Herman Welker.

Representative in Congress: Louise Shaddock.

State Senator: Jack McBride, J. C. Parker.

State Representative: Elvon Hampton, Harold Snow.

County Commissioner (Second District) J. Adrian Nelson; (third district) Eugene Taylor.

Sheriff: J. F. Jordan.

County Treasurer: Edna M. Thierault.

Probate Judge: Will S. Defenbach, C. L. Woodward.

Prosecuting Attorney: Len Bienenberg, Peter O. Leriget; Lloyd G. Martinson.

County Assessor: Oliver W. Espe.

Coroner: E. R. Short.

Democratic Ticket
United States Senator: Claude J. Burtenshaw, Frank Church, Alvin V. McCormack, Glen H. Taylor.

Representative in Congress: Gracie Pfost.

State Senator: Harold Lough.

State Representatives (two): John Anton Johnson, Kay Pell.

County Commissioner (second district) Orval M. Snow; (third district) Gerald Ingle.

Sheriff: Carl E. Anderson.

Probate Judge: William E. Swope.

Prosecuting Attorney: Melvin J. Alsager.

"IT AIN'T FUNNY MAGEE!"
"In 1936 We Mean"

The accompanying "photograph" may seem funny — that is, until you have driven over the road from Kendrick to Troy, or from Kendrick to Deary — then "it becomes a true picture" of the situation in every way.

Now here's our suggestion: Do sign the petition being circulated by Mrs. Cecil Chamberlain for the rebuilding and oiling of the Big Bear Ridge road (to Deary) — and:

Bearing in mind that this is an election year, question and obtain if possible the pledge of every political candidate — regardless of party affiliations, to use his influence in an attempt to get some roads in this area!

Hard To Believe

July 24, 1936 — We can't imagine how those pioneer farmers of a hundred years ago cleared the forests, drained the swamps, and laid out those lovely farms without the aid of some government agency or other.

Help Schedule Announced

Boise — Mondays are office days for the area Internal Revenue Service in Lewiston. The office is closed the other days of the week, except on a special appointment basis.

This is to enable internal revenue agents and collection officers to get out of the office and do their field work.

Every Monday they will be on hand in the office, for federal tax information service and help.

You just can't beat a picnic in the great outdoors for sport. Get those supplies of all kinds, including plates and cups, at Blewett's, Kendrick ad

Implantation Best in Stilbestrol Use

Cheaper and Avoids
Wastage, Says Expert

Livestock gains are stimulated equally by stilbestrol implantation or by stilbestrol feeding, but University of California researchers think implantation is better for a number of reasons.

M. T. Clegg, assistant professor of animal husbandry, recently reported to cattlemen that implanting the synthetic hormone in the ear of the animal gives better control over the amount the animal receives than does providing stilbestrol in the feed. Further, im-

Implantation is reported most economical method of using stilbestrol in California tests.

plantation is cheaper, avoids wastage, and keeps animals that should not have it from getting it. Implanting stilbestrol pellets with a hollow needle under the skin is customarily done in the ear, so that any amount left at slaughtering time will not be included in portions to be eaten. According to Clegg, amounts absorbed from the pellet into the system of the animal are not detectibly greater than would be found in animals on many natural feeds.

With both methods of providing stilbestrol to beef cattle, extra gains by the animal's amount to around half a pound a day when animals are on diets providing maximum energy. This extra weight is growth rather than fattening; the resulting gains are lean meat. This usually means a

slight reduction of grade through lack of finish.

Taste tests conducted in the department of food technology at the University's Davis campus indicate that there is no detectible difference between meat from animals that have received stilbestrol and those that have not.

New 'Hobby' Farmers Pose Special Problem

The urbanizing and changing age of the population poses special problems for education, particularly for the nation's Agricultural Extension Services—its county, home and 4-H club agents in every county seat town.

Challenging questions on this score came from a University of Minnesota rural sociologist, Prof. Lowry Nelson.

He pointed to the fact that the state's farm population shrank 100,000 in the 1940's and may continue downward for some time. And more part-time and "hobby" farmers are operating near cities. He believes that county extension workers need to know what these new farmers need.

He emphasizes that understanding of farm problems by city people—and of urbanites' problems by farmers—is growing increasingly important, partly because we are now so closely tied together by modern communications and the interdependence that springs from mechanization.

One striking fact of the shrinking population: Farmers are getting "less politically potent"—except in areas where they retain power "by default" because of the failure of the state legislatures to reapportion according to the changed population.

Labor Saver

Three-wheeled cart saves labor in handling milk cans around the dairy barn. Low bed eases the labor of lifting cans and single rear wheel permits making sharp turns.

West Europe's General Health Better Than Ever

NEW YORK—Western Europe's general health, as gauged by prevailing mortality and morbidity conditions as well as by the expectation of life, is better than ever before despite the relatively short period that has elapsed since the devastating days of World War II, when there was widespread privation of food, clothing, shelter and medical services.

A survey of data from the United Nations and other sources concluded by insurance statisticians show each of the countries studied has established a new minimum death rate during the postwar period.

The death rate in France, for example, fell from 13.5 per 1,000 in 1946 to 11.9 in 1954, as compared with 15 per 1,000 in the immediate prewar period. Similarly, in Italy the death rate was reduced from 12.1 to 9.0 per 1,000 between 1946 and 1954, which compared with an average of about 14 per 1,000 in 1937-39.

New low death rates were cited for Austria, Belgium, Denmark, Western Germany, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, England and Wales, and Finland. Correspondingly, many of these countries also reported new records for expectation of life.

The excellent postwar health record of Western Europe may reflect, in part, the weeding out of impaired lives during the war. But generally the gains have resulted mainly from such planned activities as the restoration, soon after the war, of medical, hospital, and public health services, and the subsequent expansion and improvement of these services.

Wide use of the recent advances in medicine, including the antibiotics and other drugs, and greatly increased food supply which has raised nutritional level of the population also have been important factors, it is noted.

Diamond-Studded Smog Investigator

LOS ANGELES—A balloon-borne "diamond-studded" device which etches meteorological data on a smoked glass plate is one of the latest instruments being used in smog studies.

Developed by Don T. Hilleary, UCLA meteorologist, the device is known as a meteorograph.

The instrument was brought into the smog picture by the Air Pollution Foundation and three such will be used in Los Angeles County to probe the invasion layer. This is the layer of hot air over cold air that periodically traps a lid on pollutants in the Los Angeles basin, trapping smog.

Heart of the instrument, which is designed to be attached to a captive balloon, is a tiny "railway" car. The car, which is drawn by a clock mechanism, moves along at the snail's pace of a quarter of an inch an hour. The smoked glass plate is carried by the car and thus data is plotted on it against time.

Three mechanisms register, respectively, temperature, pressure and humidity. A recording arm with a diamond point is attached to each mechanism and etches responses from the mechanisms on the smoked glass plate.

Motorist Wins Case Against Speedometer

OKLAHOMA CITY — A jubilant Oklahoma City motorist was cleared of a speeding charge after a blushing motorcycle officer admitted in court that his speedometer registered 10 miles too fast.

The unusual event came about when motorcycle Officer A. G. Odum, Jr., arrested Willard Harold Parchman, 43, on a charge of speeding 45 miles an hour in a 35 m.p.h. zone. Parchman protested so strongly that the officer agreed to check his equipment.

"I hate to confess it publicly, but it was my speedometer that was wrong, Odum admitted before Traffic Judge James Demopolos.

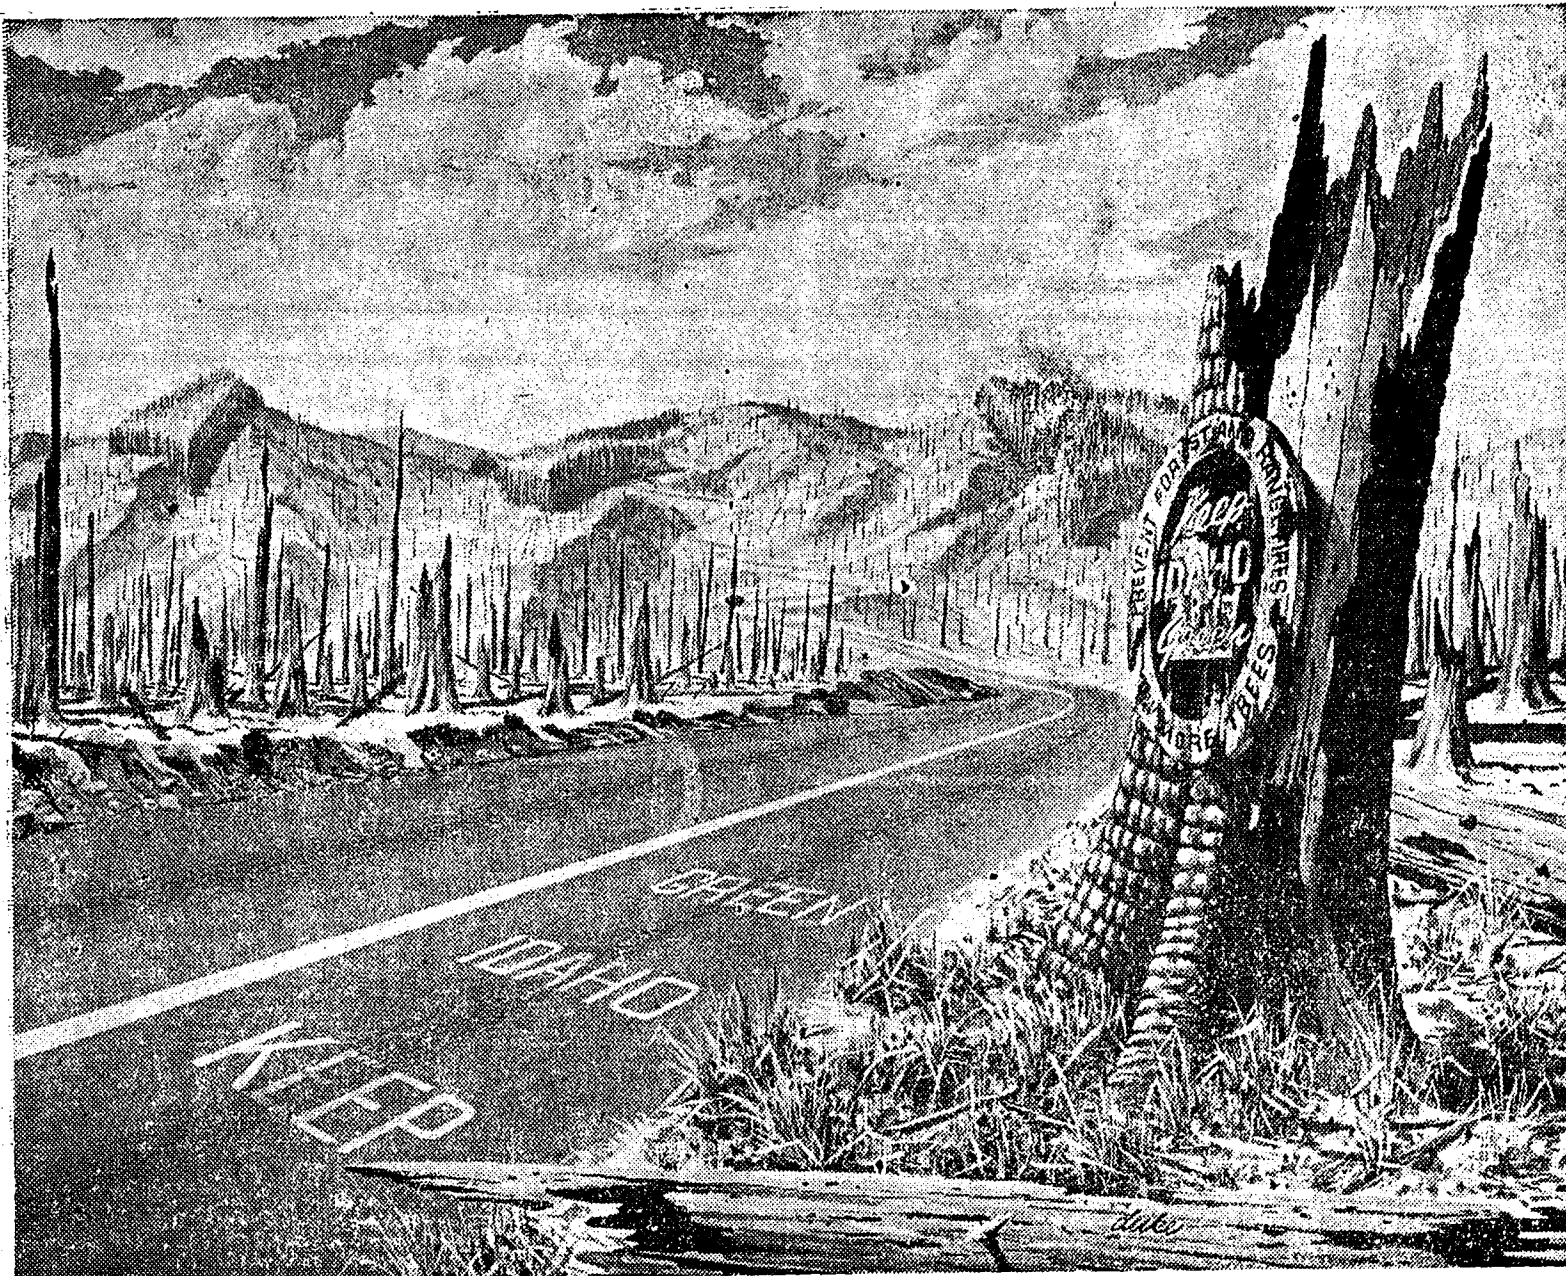

Conversation Agent Surprised at "Deer"

POPLAR BLUFF, Mo. — Roger Biesemeyer, a State conservation agent was naturally surprised when a man called from nearby Neelyville, Mo., to report that he had a deer locked in his barn.

But, Biesemeyer got a bigger surprise when he arrived at the farm to check the story. "When I walked into the man's barn," he reported, "there was the prettiest little billy goat I've ever seen. A 50-mile drive to identify a billy goat!"

In Strictest Sense
ALBUQUERQUE, N.M. — When the 1955 New Mexico State Fair was ready to open for business, someone noticed a two-foot high raised sign on a building which read: "AMATEUR ART."

As the sign was being changed, one fair official mused, "looks like we may also have some amateur spellers."

tomorrow was destroyed

If it could ever be said that the future could be destroyed before it arrived, then this scene would say it. Fire, when it destroyed this stand of trees, took away the natural production and resources of the forest. Its productivity and the recreational facilities of tomorrow no longer exist. Everyone must practice care while in the woods and help prevent such scenes as this. Except during extremely dry seasons you are welcome to use PFI lands for hunting, fishing and camping; but remember, be careful, help KEEP IDAHO GREEN.

Treat Posts With Simple Process

Little Equipment Required for Job

Fence posts can be treated against decay and termites by a simple soaking process developed by the Forest Products Laboratory of the Forest Service.

By standing the round green posts first in a water solution of copper sulfate and then in a water solution of sodium chromate, the two chemicals diffuse into the post and combine to form copper chromate. This combination is toxic to fungi and insects, practically insoluble in water, and will not leach from wood placed in a damp soil.

Of 100 pine posts thus treated and set in 1942 in Mississippi only one has decayed. This is a region of high decay and termite hazard where the average life of untreated pine posts is about three years. The average life of hardwood posts has also been extended considerably by this treatment. The method shows promise of wide application for preservation of wood for farm use.

Equipment needed to carry out this treatment is commonly found

Treating pine posts with copper sulfate and sodium chromate paid off in Mississippi experiments.

In most homes: A scale to weigh the chemicals or a 1-pound coffee can, a 10-quart pail, and two barrels, one of which must be wooden or concrete. The copper sulfate crystals and sodium chromate powder usually can be ordered through a local hardware store.

The Forest Products Laboratory recommends that no less than 30 posts be treated at a time.

Two Vegetable-Type Soybeans Announced

Seed for two new vegetable-type soybeans developed through State-Federal cooperative research and announced recently by Iowa State College and the USDA have been supplied to commercial seed and canning companies for testing during 1956.

The two edible varieties, Kim and Kanrich, will gradually become available to the home gardener and to food canners and freezers through regular seed sources following further seed increases. Neither Iowa State College nor the U.S. Department of Agriculture has seed of these varieties for distributing to gardeners.

Growers of field-type soybeans are cautioned not to switch to either of these vegetable soybeans unless they have a market connection with a seed concern or food canning or freezing company.

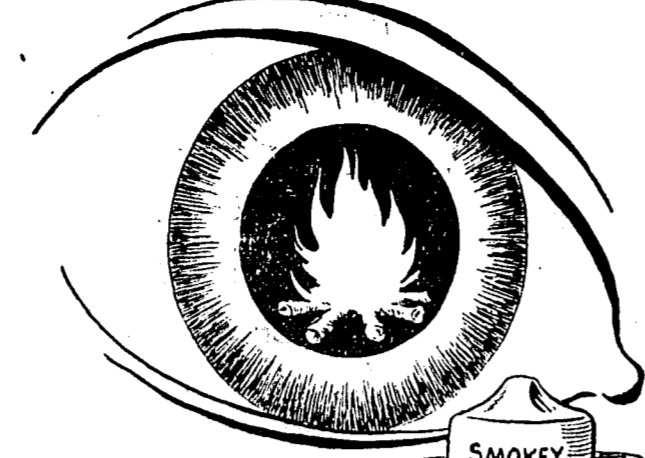

Kim and Kanrich, the result of more than 10 years of breeding research are strikingly superior to their predecessors. Kim grows an average of 15 inches taller than Sac, its vegetable-soybean parent, and has averaged nearly 14 bushels more beans per acre. Pods of the new variety shatter very little after ripening and its beans are better tasting. Kanrich represents a similar research improvement over its edible soybean parent, Kanro. A field variety, Richland, is a parent of both new varieties.

Hog Waterer

Self-filling hog waterer can be made by cutting opening in the side of a 50-gal oil drum. Float valve is protected by placing board in front of it. Hole should be large enough to allow hogs to drink, but small enough to keep them from sticking feet into water.

Weather Turns Torrid
July 20, 1956 — Thursday was, without a doubt, the hottest day of 1956 — and probably for the past couple of years, when the mercury registered 103 degrees on the "official" thermometer. Various others about town recorded from 101 to 106 — so there is no doubt but that it was really hot.

Following a Wednesday reading of 96, it was perhaps felt even more than usual, for Wednesday night was hot, a low of 86 being the coolest.

Friday (today) is considerably better, with just a few drops of rain falling, and overcast skies helping to keep the mercury down.

HERE'S HOW
Bill Holden

SEES THE
Reclamation
PICTURE

I believe Idaho should participate with federal agencies in making a comprehensive inventory-type survey of our water. I believe that all uses of water should be subordinate to irrigation and domestic use. The farmer's right to go out to his cropland—his priority of right—to the use of the water is based on state law. I have worked for years to protect this right.

If elected, I will seek a place on agricultural and other committees important to Idaho's welfare, and I will work hard to reduce federal taxation.

Grange Held Tuesday Evening July 17, 1956 — The Kendrick Grange met in regular session, with just enough members present to fill the chairs and permit a meeting. After a business session which saw a discussion of food to be sold at the Latah County Fair in September, it was decided to recess Grange until the first Tuesday in September. The evening ended with refreshments served in the banquet room by the hospitality committee.

Wauchner Gulch Closed July 17, 1956 — According to information received from Oscar Mannon, foreman of the Goodfellow Construction Co., no more traffic will be permitted over the grade. Detour via Sperry grade.

Science Plays Big Role in Modern Criminal Detection

WASHINGTON—Science is gradually revolutionizing crime detection and the day may come when it is possible to dispense altogether with human witnesses in criminal investigations. This is the conclusion of Dr. Charles Sannie, professor of organic chemistry at the National Museum of Natural History in Paris. Even radioactive isotopes have made their entry into crime detection. Dr. Sannie points out in a paper published in the annual report of the Smithsonian Institution. Take, for example, murder by arsenic poisoning. It is known that arsenic tends to accumulate in the hair and nails. The quantity found in a tuft of hair, at a given point, makes it possible to ascertain the time the poison was administered since the rate of hair growth, slightly more than half an inch a month, is known. Identification by blood group may be only in its infancy. Hitherto the law has been concerned only with the well-established A, B, and O groups. Recent research is revealing an ever-increasing number of previously unsuspected specific factors in the blood which are inherited according to the laws of heredity.

A major development, Dr. Sannie says, has been in the detection of stains of biological origin, such as those from saliva and body fluids. In the past there was no means of detecting such stains with certainty on a thick colored material. Now, an ultraviolet lamp does the trick and will also identify animal and vegetable remains, such as fragments of wood, scraps of plants or seeds, or pollen. The fluorescence technique has made practically impossible successful forgeries or counterfeiting of stamps, providing the methods are applied by police. Belgium is now making use of the electron Telescope, developed during the war, to enable soldiers to see their opponents in the dark by infrared light.

Pacific Islands Were One Continent

WASHINGTON — Islands of the southwestern Pacific appear to be fragments of an ancient Melanesian continent which broke up 10 or 20 million years ago. This hypothesis, previously advanced by geologists, is amply supported by plant distribution, says Dr. Albert C. Smith, botanist of the U. S. National Museum. Dr. Smith recently completed his third collecting expedition in these islands, during which he visited the wild, little known Korombasan-basanga Mountains—a region of massive rock columns ringed by precipices and divided by dark chasms, and nearly all covered by steep and silent rain forest. He has collected, however, throughout the archipelago. Dr. Smith's studies indicate that the last land connections to be sundered, as the old continent broke up into its present remnants, were those along the Fiji-New Hebrides Solomon Islands chain.

You Can't Sue TV When You're Caught

TALLAHASSEE, Fla.—You can't sue a television station because the news camera catches you where you shouldn't be or with someone you shouldn't be seen with, the Florida Supreme Court has ruled. "A television newscaster must, like a newspaper reporter, attempt to get before the public 'today's news today,'" declared Justice B. K. Roberts in the unanimous ruling. Any person picked up by the TV cameras, although unwilling, cannot claim invasion of his privacy.

The court dismissed a \$250,000 damage suit brought against a Miami TV station by a Miami Beach citizen who claimed his reputation was damaged and his privacy invaded when he was shown on a telecast at a hotel cigar shop during a gambling raid.

Fire Call Finds Home Owner in Station

UNION, S.C.—Magistrate J. Lee Gregory was watching television at the fire station when an alarm came in.

"I'll just sit here and answer the phone until you fellows get back," he told the departing firemen. "You'd better get on this truck. It's your house," yelled the driver. Firemen discovered a badly-burned roast in the Gregory's oven and a pot of scorched beans on the stove.

Fruitless Hunt

DYERSBURG, Tenn. — Police, firemen and volunteers were busy searching a wooded ravine for 17-month-old Chuckie Moody until his father received a phone call that the lad was safe in a barbershop. His mother, Mrs. E. L. Moody, who spread the alarm, had forgotten she left him there to get a haircut while she shopped.

On Huckleberrying Expedition

July 10, 1936 — Mr. and Mrs. Wm. Watts, Joe and Bob, and Mr. and Mrs. E. A. Deobald and family spent Monday on a huckleberrying expedition in the Elk River area. They exhibited 30 gallons of fine big berries as a result of the trip. The berries are said to be ripe in some sections and very green in others, probably due to deep snow and slow melting, varying with the location.

Catches Real Fish

July 24, 1936 — To Charles Deobald, son of Mr. and Mrs. E. A. Deobald, goes the honor of having caught the largest trout reported this year from the Potlatch, he having caught a 12-inch rainbow in the swimming hole, near the Lewiston Grain Growers warehouse, Friday.

TEAKEN GOSSIP

July 10, 1936 — Most of the folks went away from here for the Fourth. The Choate families went on a fishing trip and were away about three days. Some went to the river just for the day. The Clains, Linds and Brocks had a picnic at the Berry place in the woods. Mr. and Mrs. Clarence Dougharty of American Ridge; Lawrence Dougharty and mother Mrs. Dora Dougharty of Juliaetta, and their sister, Mrs. Carl Kinzer of Miami, Florida, spent Sunday at the Wm. Groseclose home and attended church in the afternoon. Mrs. Kinzer is spending the summer with her mother. Mr. and Mrs. John Lind and grandsons Leon and Gene, were dinner guests at the Elwood Brocke home Sunday.

THE Bull itin

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, FOLKS:

"It won't be long now," said the monkey when his tail got caught in a lawn mower — and the same applies to the beginning of harvest — "it won't be long now!" For that time can be counted in days — not weeks. Are you ready? Are the tires on your car, pickup, truck, combine, etc., ready for the harvest days? Are your diesel fuel and gasoline tanks full? Do you have plenty of oil and lubricants of all kinds on hand?

If not, phone us at 1251 and we'll supply your needs with those famous U. S. Royal Tires, Union Fuels, Gasoline and Lubricants — including that famous Royal Triton Motor Oil!

A small boy, after his first train ride, was telling his pal about his new ambition — to be a railway

conductor. "But," asked his friend, "wouldn't you rather be an engineer and run the train?" "No, siree," came the reply. "The conductor gets all the comic books that kids leave on the train!"

Busy? We'll bet you are. So just bring your car in to us for a wash job, wax job, grease job and oil change — we'll do a first class bit of work — and you'll be surprised at how little it costs.

We know a man who has a car so old that this year he wrote the State Motor Vehicle Department requesting upper and lower plates — instead of front and rear ones. Moral: Use Union Products!

Always travel "Union".

Attention Farmers

HAPPENINGS AT CAMERON

July 3, 1936 — Sunday evening visitors at the home of Mr. and Mrs. Fred Mielke were Mr. and Mrs. F. W. Mielke and son of San Francisco; Mr. and Mrs. W. C. Mielke of Orofino; Mr. and Mrs. Edwin Mielke and daughter, Mr. and Mrs. Fred Newman and family, Mr. and Mrs. Walter Denner; Mr. and Mrs. G. F. Criddlebaugh of Lewiston; Mr. and Mrs. Lorin Westerman, Mrs. Fred Westerman and Mrs. Jacob Schmidt of Spokane; Mrs. Ida Stoneburner, Mrs. John Schwarz, Herbert and Lawrence Schwarz; Mrs. Kuni Denner, Miss Emma Denner and Emma Hartung.

Miss Mildred Wegner visited over the week-end in Lewiston with relatives.

Mr. and Mrs. Fred Schoeffler and Mrs. Otto Schoeffler spent last week-end visiting relatives and friends at Wallace, Kellogg and Coeur d'Alene.

Saturday evening dinner guests of Mrs. Ida Stoneburner and Emma Hartung were Mr. and Mrs. F. W. Mielke and family and Mr. and Mrs. G. F. Criddlebaugh.

Mrs. George Heitman and son Walter of Lewiston are here staying with Grandma Brammer while Mr. and Mrs. Koopp are visiting in Canada. Henry Wendt and Walter Koopp also accompanied Mr. and Mrs. Koopp.

Lewiston visitors Friday were Herbert and Ernest Schwarz and Mrs. Ida Stoneburner.

Mr. and Mrs. F. W. Mielke and family were Orofino visitors last Thursday.

Those who gathered at the F. W. Newman home last Tuesday afternoon to help Mrs. Newman celebrate her birthday anniversary were Mr. and Mrs. Edwin Mielke and daughter, Mrs. John Schwarz, Mrs. Fred Mielke, Mrs. Ida Stoneburner, Emma Hartung, Mr. and Mrs. F. W. Mielke and family and Herbert Mielke.

Sunday dinner guests in the home of Mr. and Mrs. Otto Silflow were Mr. and Mrs. August O. Wegner and family, Mr. and Mrs. Gus Kruger and family, Mr. and Mrs. Fred Silflow and family, Paul Silflow and Mrs. Ida Silflow.

The Ladies Missionary Society met at the Carl L. Wegner home Sunday evening.

Lewiston visitors Saturday were Mr. and Mrs. F. W. Newman, Mrs. John Schwarz and Herbert Schwarz.

Mildred Wegner is helping Mrs. George Havens with her work this week.

Sunday dinner guests in the A. H. Blum home were Mr. and Mrs. Albert Glenn, Mr. and Mrs. Wilbert Bruniek and Rev. Theo Meske.

Mrs. Ida Silflow, Mrs. Ida Stone-

burner, Mrs. Henry Wendt, Emma Hartung and Miss Ella Denner called on Grandma E. ... Mrs. Heitman, Thursday afternoon. Marjorie Wendt is on the sick list.

July 31, 1936 — Miss Emma Hartung, who is ill at the St. Joseph's Hospital, is speedily recovering. We hope to see her up and around again before long.

Rev. Theo Meske left Tuesday on his vacation. Mrs. A. Sonnerberg, Mrs. A. Luonanburg and Mrs. Henry Meske and son Erhardt, who have been visiting here the past few days, also departed. They will spend several weeks visiting on the coast.

Miss Gertrude Widmer is visiting this week at the Carl L. Wegner home.

Among those from here who attended the wedding, on Saturday, of Miss Hilga Ehlers and Raymond Poinville, were Mr. and Mrs. Carl L. Wegner, Mr. and Mrs. August F. Wegner and Mr. and Mrs. August O. Wegner.

Mrs. Stubblefield called on Mrs. Walter Silflow Tuesday afternoon.

Mr. and Mrs. Carl L. Wegner and daughters Mildred and Selma were Moscow visitors on Friday.

Mr. and Mrs. George Wilken and family were visitors at the A. E. Spekker home Sunday afternoon.

Mr. and Mrs. Gus Kruger, August O. Wegner, Fred Silflow and Carl L. Wegner were in Lewiston Monday afternoon on business.

Mr. and Mrs. Herman Silflow and Mrs. Ida Silflow spent from Sunday until Tuesday at Mable Creek on a fishing trip.

Mr. and Mrs. Wilbert Bruniek and Mr. and Mrs. Albert Glenn were Sunday dinner guests in the A. H. Blum home.

FAIRVIEW ITEMS

July 31, 1936 — Oney and Orval Walker were Lewiston visitors Saturday.

Mr. and Mrs. Arnold Woody of Boise spent the past ten days visiting Mr. Woody's aunt, Mrs. John Glenn and other relatives.

Mr. and Mrs. Edgar Carlson, Mr. and Mrs. Albert Glenn, Mr. and Mrs. Fred Glenn and daughter and Mr. and Mrs. Arnold Woody were supper guests Thursday in the John Glenn home.

Dinner guests Saturday evening at the Fred Glenn home were Mr. and Mrs. Arnold Woody and Claud Woody.

Mr. and Mrs. Roy Morgan and children and Charles Metcalf were dinner guests of Mr. and Mrs. J. M. Woodward, recently.

Mr. and Mrs. T. J. Fleshman and son Jack, Mr. and Mrs. Glen Fleshman, Mr. and Mrs. J. M. Woodward and Mrs. Viola Smith called at the Oney Walker home Sunday afternoon. Lois Margon and Charles Metcalf spent Monday at the R. E. Woody home.
