

to all our friends!

Kendrick Rochdale Company
KENDRICK, IDAHO

Your loyalty and patronage in the past months merit a genuine word of thanks from each of us.

THURBER'S

CONFIDENCE
in the FUTURE

It is with complete confidence that we look forward to the future of this community. The people of this area have every facility to make the New Year one of happiness and prosperity and it is our belief that the New Year will be one of record achievement. May you have a most successful and profitable year, our wish for you.

No Problem At All

There are those who seem to be greatly worried by the influx of Hungarian refugees into the United States, claiming that our population is already increasing too rapidly — and their coming will impose a still greater strain on our already crowded housing situation and school rooms. And, of course, not to mention the job of finding work for them so that they may be self-supporting.

To us this seems no problem at all. We have in the United States many thousands of communists who follow the Moscow dictated line in every detail — and who profess to love Russia. Why not gather up these "commies" and ship them to Hungary? This action would do away with the problem of population increase. The jobs and homes these Russian lovers left behind could become the work and homes for the Hungarians. What could be fairer?

Of course, if we gathered up the "parlor pinks" and "Fifth Amendment hiders" we could undoubtedly more than send the Russians better than we receive — in numbers at least. And beyond a doubt our labor unions and many other organizations would be far better off.

How to pick out the "commies," "pinks" and "fifth amendment hiders?" That answer is easy. Most, if not all, are already known to the F. B. I., and there would be little, if any, chance for error in making the selections. Of course they would have to go with only their meager personal possessions — the same conditions in which the Hungarians arrive.

We think that this "trade" proposition is one worthy of real consideration, particularly to those who are doing the worrying about the increase in population.

Trade with the home merchants!

THANK YOU

Friends

Accept, please, our sincere thanks for your many courtesies in the past. We hope we may continue to merit them in the future.

Scientist Would Make Mink Possible For Every Woman

NEWARK, N.J.—If a Rutgers scientist has his way, the women of America may find themselves up to their ears in mink!

Dr. John M. Cross, professor of pharmaceutical chemistry, recently made the first analysis of ranch mink fat and found it has several characteristics of interest to cosmeticians.

There's the catch, ladies. The Cross "coat of mink" is the kind you rub on—a "Mink No. 5" of sorts. It won't keep you warm, but you'll sure smell expensive in it.

Dr. Cross' study came about in this way:

One of New Jersey's mink ranchers complained that in skinning the animals his hands became so soft and "lady-like" from contact with the mink fat that they were always sore when he had heavy work to do.

The rancher's wife saw nothing wrong with "lady-like" hands—on ladies, that is—and suggested that the local pharmacist might advise them on the fat's commercial value. Sensing a basic research job, the pharmacist referred the mink man to Dr. Cross.

The Rutgers professor was immediately interested in analyzing the grey-white mink suet which is so easily renderable that body heat melts it to a clear yellow oil while it is being held in the hand.

He conducted a standard battery of 12 characterization tests on the mink oil and his results aroused the curiosity of both scientists and practical cosmetic manufacturers.

Two items were of special interest, the fact that the oil has some hormone-like material which may be valuable, and its great ease of penetrating the skin.

Old-Time Ferry Passes From Scene

WASHINGTON — Shawneetown Illinois, recently said farewell to its 148-year old ferry that helped to open and people the West.

A new bridge now spans the Ohio where the ferry long offered the only crossing. Here, where the wide river sweeps downstream below the joining of the Wabash, the path to the frontier came a century and a half ago.

Shawneetown itself is no longer directly on the river. A century of floods finally compelled the town to move in 1937 to a safer site some

four miles inland. But even during disasters that rolled water across the 60-foot levee, the ferryboats continued to run, panting across half-submerged farms, dodging floating houses, barns, and uprooted trees.

Facing Kentucky across the river, Shawneetown was settled about 1800 by pioneers from Virginia who paddled down the Ohio to trade with the Shawnee Indians.

Atomic Reactor Plant Demonstrates Power

WASHINGTON—The successful conclusion of an unprecedented power demonstration by an atomic ship propulsion reactor was recently announced by the U.S. Atomic Energy Commission.

The nation's first practical reactor power plant—land-based prototype of the Nautilus at the Commission's National Reactor Testing Station in Idaho—was routinely shut down at the end of what is believed to have been the longest full power run ever completed by any type of propulsion plant—land, sea or air.

On a single charge of uranium fuel (and using only part of that charge) the nuclear reactor operated at an average power of 100 per cent for more than 66 days and 66 nights. The test was designed to prove the reliability and stamina of pressurized water reactors for ship propulsion. The prototype of the reactor now in the Nautilus met the most demanding requirements which could be placed upon it.

Leaves of Earliest Palm Are Discovered

WASHINGTON—There were flowering plants on earth at least 160,000,000 years ago.

Finding of fossil leaves of an apparently quite primitive palm the earliest yet known, has been announced by Dr. Roland W. Brown, paleontologist of the Geological Survey.

The fossil imprints of palmlike leaves were found in a geological formation in southwestern Colorado dating from the so-called Triassic period of geological time.

Spuds, After All

PITTSBURGH—Prisoner in the Allegheny County jail are getting potatoes in their Irish stew after all.

County officials, alarmed at the high cost of potatoes recently considered making Irish stew with rice. But, after considering what Irish stew would taste like without Irish potatoes, they decided to pay the price after all.

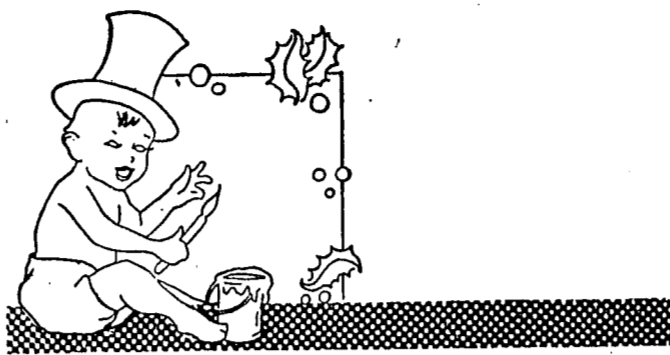

Model Plant Is Gift To University
Engineering studies at the University of Idaho will be aided with the use of a model plant used in the manufacture of gasoline, Prof. Norman F. Hindle, head of the mechanical engineering department, said this week.

The model of a fluid catalytic cracking unit was a gift to the university from the Flour Corporation of Los Angeles. It stands about four feet high and is scaled 1/4-inch to a foot. A part of a complete working model of a gasoline refinery which has

been built by the corporation, the model is made of plastic, wire and wood.

Mechanical engineering students will use the model in studies of construction and function of the plant,

while chemical engineering students will study the aspect of chemical processes involved in the manufacture of gasoline. Civil engineering students may use it as a guide to plant site studies.

'COURAGE — THE OLD YEAR WHISPERED AS IT ENDED'

— (Author's Name Below) —

If you know anyone who is discouraged about their health, give them this cheerful news: 1957 offers much hope.

Right now research scientists are on the brink of reporting new drugs and treatments that might solve their problem.

The important thing is to advise them to visit their physician. He knows that as soon as any new drug is released for safe use we pharmacists stock it in our prescription departments. If he thinks it will help he will prescribe it.

The private utility program is COMPREHENSIVE DEVELOPMENT of the Snake River

New dams **MUST** be started **RIGHT NOW** to meet the area power needs of 1965. The Washington Water Power Company and neighboring utilities, sponsors of the PNP Co., are "ready for action" with a sound, practical **COMPREHENSIVE** plan for the power development of the Snake River that can mean 2,415,000 **NEW** kilowatts.

Five dams are planned for construction by private industry with private capital. **NOT A FOOT OF RIVER FALL WILL BE WASTED AND NOT ONE-CENT OF TAXPAYER'S MONEY** will be used.

The Idaho Power Company is now building Brownlee to be followed by Oxbow and Hells Canyon. Work will be started on Pleasant Valley and Mountain Sheep as soon as licenses are granted by the FPC. These five big dams will harness 10 billion kilowatt hours of electricity annually.

WHAT CAMERON FOLKS ARE DOING THESE DAYS

New Parsonage Completed
Rev. and Mrs. Theo Meske and family moved into the new parsonage last week — which was just completed recently.
The new house, modern in every respect, was built by M. C. Halliday and Gordon Penland, both of Juliaetta.

Students Arrive Home
Teddy Meyer, student from Pacific Lutheran College, Parkland, Wash., and Glen Wegner, Jr., from College of Idaho at Pocatello, arrived home to spend their Christmas vacation with home folks and friends.

Family On Vacation
Mr. and Mrs. John Blankenship and family left last Thursday on a vacation and sight-seeing trip into California and Old Mexico.

Entertain At Dinner
A family gathering was held at the home of Mr. and Mrs. Kenneth Wilken, Sunday — with an early Christmas dinner honoring all members of the Koopp families. Guests were Mr. and Mrs. Carl Koopp, Juliaetta; Mr. and Mrs. Walter Koopp and family, Mr. and Mrs. Henry Wendt, Mr. and Mrs. Harold Silflow and Kathy, Mr. and Mrs. Herb Schwarz and JoAnn, Ernest Holmgren, and the host and hostess, Mr. and Mrs. Kenneth Wilken.

Mr. and Mrs. Dan Sullivan and family of Lenore and Mr. and Mrs. Glen Wegner and family visited their parents, Mr. and Mrs. Aug. F. Wegner, recently.

Mr. and Mrs. Earl Whiting were shoppers in Lewiston Tuesday, and were dinner guests that evening of Mr. and Mrs. Dave Schoeffler in that city.

Mr. and Mrs. Ernest Brammer and daughter Jolene were recent visitors in the Earl Whiting home.

Mr. and Mrs. Albert Glenn were Lewiston business visitors on Thursday.

Mr. and Mrs. Ted Weyen spent Saturday evening with Mr. and Mrs. Glen Wegner.

Mr. and Mrs. Henry Lingenfelter of Tekoa, Wash., are spending several days with their son-in-law and daughter, Mr. and Mrs. Roy Silflow and family.

Mr. and Mrs. Fred Newman were callers in the home of their son-in-law and daughter, Mr. and Mrs. Geo. Allen and family on Cream ridge Friday evening and all attended the school Christmas program at Cavenish that evening.

Mrs. Fred Newman and Mrs. Marvin Silflow met with Mrs. Earl Whiting and filled Christmas boxes for

the Sunday School children and their teachers, which were passed out at the Christmas program Monday evening at the church.

Mr. and Mrs. Herman Meyer entertained their children Thursday evening at a family dinner, as all could not be home for Christmas. Those present included Mr. and Mrs. Marvin Silflow and family, Miss Hermina Meyer, Loeda Meyer and Ted Meyer.

Mr. and Mrs. Gus Kruger of Kendrick were visitors in the home of Mr. and Mrs. Wilbert Brunstiek on Thursday evening.

Mr. and Mrs. Albert Glenn visited with Mr. and Mrs. Roy Silflow and family Friday evening.

Mr. and Mrs. James Whiting were Sunday dinner guests of his parents, Mr. and Mrs. Earl Whiting.

Mr. and Mrs. Walter Koopp and family and Mr. and Mrs. Roy Ramey spent Wednesday evening with Mr. and Mrs. Ernest Brammer.

Mr. and Mrs. Roy Ramey were Saturday supper and evening guests of their son-in-law and daughter, Mr. and Mrs. Ernest Brammer.

Mr. and Mrs. Ernest Brammer and daughter Jolene were Sunday dinner guests of her parents, Mr. and Mrs. Roy Ramey. That evening they called on the Henry Brammers at Juliaetta and the Werner Brammers at Kendrick.

As the 2-8 line was out of order I was unable to call anyone there this week.

I want to thank all of you for helping make this a good news column this past year. Wishing you all a Happy and Prosperous New Year. Your correspondent — Mrs. Earl Whiting.

BIG BEAR RIDGE NEWS
The annual Christmas program was held at Bethany Lutheran Church on Tuesday evening, and was thoroughly enjoyed.

Students home on vacation from their schools are: Jerry Chamberlain and Donald Ingle from the U. of I.; Roger Jones from W. S. C.; Monte Clemenbagen from Pocatello; and Maxine Sind from Deaconess School of Nursing at Spokane.

Latest report from the bedside of Mrs. Ernest Jones at Gritman Memorial Hospital, Moscow, is that she is improving.

Mr. and Mrs. Henry Callaway and family and Mrs. Kate Huffman were Moscow callers on Saturday.

Mr. and Mrs. Robert Aarasmith were Moscow visitors on Wednesday.

Miss Leona Wilson, who is teaching at Colfax, is spending her vacation at home with her parents, Mr. and Mrs. A. C. Wilson and sons.

Mrs. Johanna Nelson moved to Moscow on Sunday, where she will spend the remainder of the winter.

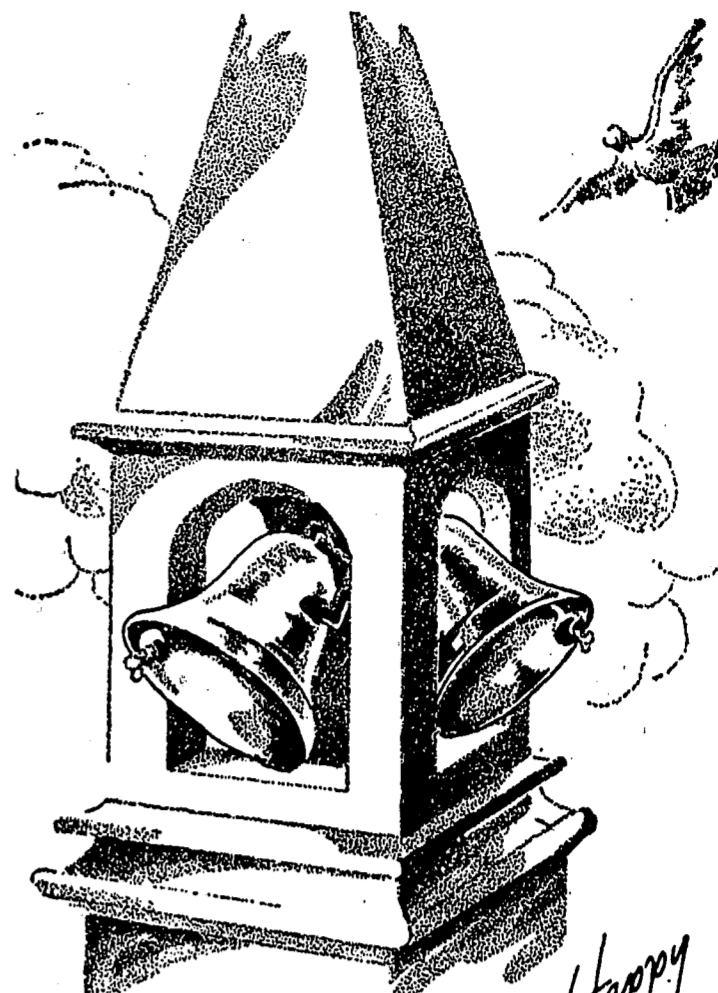

Pvt. Buddy Clemenbagen has arrived home on a ten-day furlough. He reports to Atlanta, Georgia, Jan. 2nd.

Mr. and Mrs. Clement Israel and family of Ephrata, Wash., arrived Sunday at the home of her parents, Mr. and Mrs. Grant Clemenbagen, to spend the holidays. They will also visit with other relatives in the area.

Mr. and Mrs. Lauren Hoisington and family were Sunday dinner guests of Mr. and Mrs. George Steadman of Cheery Lanes.

New Bear Ridge Correspondent
Mrs. Frank Hoisington has signified her willingness to write the Big Bear Ridge news for the Gazette. This is a real community service, so won't you help her by calling in your news, rather than waiting for her to call? Assist in making your column a good one.

Mrs. Johanna Nelson, who has been your correspondent "off and on" for the past 40 years, wishes to be released from this duty — and who can blame her! "Orchids" to you, Mrs. Nelson, for your faithful service to your community and to us!

May the bells of the New Year

ring out with a

full measure of health, happiness

and prosperity for all.

And a heartfelt "Thank You" for your generous patronage
