Of Course It Would Happen

During this recent cold snap, the stoker at the Kendrick High school has been in pretty constant operation — and Friday began to give trouble. Investigating, Art. Foster, school custodian, discovered that the motor was very hot. Frank Abrams was called and the two of them went to work on it — but not much could be done until Saturday — when the heat could be turned off.

Saturday, work was resumed, and it was discovered that due to stoker trouble a hole had been burned in the grates.

The motor was replaced, and fire brick, in lieu of grates, were installed, and by Sunday evening the whole was in operation again — permitting a warm building Monday morning.

SIXTY-THREE ATTEND LIONS "TRAIN MEET" WED. EVE

Sixty-three interested persons attended the public meeting with N. P. Railway Co. officials last Wednesday evening, in the Kendrick Fire Hall — and many and varied were the questions asked the officials by those present.

The meeting, sponsored by the Kendrick Community Lions Club saw eight representatives from the Lewiston Chamber of Commerce; nine from the Troy Chamber of Commerce; two from Juliaetta, and one from Moscow — not to mention representatives from the Kendrick Grange, Kendrick Women's Clubs and other "just interested citizens" sit down to dinner with five officials of the Northern Pacific Railway Co., in an effort to reach a solution of our "local train problem," a train which the railway company has indicated it will probably ask the I. P. U. C. for permission to discontinue.

Representing the railway company was F. L. Steinbright, Seattle, western division general manager; F. G. Scott, Seattle, western passenger traffic general manager; C. W. Meckstroth, general agent, Lewiston; two representatives of the passenger traffic department at Spokane, and R. H. Ramey, local agent.

Following the dinner, George F. Broeke, Jr., Lions Club president, turned the meeting over to Mr. Steinbright, who, rather than give a talk or read a prepared statement, called for a round-table discussion, with the floor open to questions, with he and Mr. Scott taking turns answering the many varied and sometimes very searching queries put to them.

Mr. Steinbright stated that the local passenger train or "bug" had shown a net loss of \$4,770 per month in the first six months of 1956 (the latest period for which accurate figures are available).

It was brought out that a passenger check along the line, taken from Oct. 19 to Nov. 5 had shown a daily average of five to six passengers leaving or coming into Spokane — and three to four leaving or coming into Lewiston each day, with a lesser number at various stops along the line.

Queried about other income Mr. Scott stated that about 40 percent of the income from the "bug" was express. He admitted that the loss of the mail contract on the rails had been a severe blow to "passenger train" income on this branch. He added that he did not know whether or not the loss in operating income could be overcome, were it possible to restore the mail in this area to the trains.

Steve Spengler of the Lewiston delegation stated that this area was showing a steady growth in population, business and freight income to the railway, and he could not see why this branch should not pay. To this statement Mr. Steinbright replied that "I don't either, but the fact remains that it doesn't — on a passenger basis."

Eldon Strom of the Troy delegation suggested that the Northern Pacific consider re-scheduling the train, for instance: Leaving Lewiston about 7:00 a. m., making the run to Spokane, and then leaving Spokane about 7:00 p. m. for Lewiston. And to this Mr. Scott replied: "We have been considering that very thing — and it is possible that we will try it."

On a show of hands asked on the question, all area residents with the exception of one, voted "Aye," with the Lewiston delegation abstaining.

Questioned by J. M. Lyle, University of Idaho representative on student representation, they stated that extra trains would be provided whenever needed, as in the past.

After residents of Kendrick, Troy and Juliaetta pointed out that their area does not have bus service, and would be completely isolated for express and passenger service if the train were removed, Scott said he would "investigate the possibility" of a passenger-express bus from Lewiston to Moscow, which would give persons in the area access to buses at Lewiston and Moscow. The Northern Pacific does have such buses between several Montana points," he said, "but most people won't ride on them a second time."

"However," Scott said, "When and if we decide to take away the run we will let you know before hand. And we promise you this: We will make sure that we leave you with as good or better express and freight service than you now have."

Mr. Steinbright brought out the fact that the "bug," known to the railroad, as "Train 314" was the only one left operating on the Northern Pacific's branch lines throughout the entire system.

Our Note: Perhaps this meeting will have little or no effect on the final decision of the railway company in the matter — but it did show real interest on the part of people in the area, and on the part of the railway company.

Pink And Blue Shower

Members of the Kendrick Community Church choir complimented Mrs. Frank P. McCready with a pink and blue shower Saturday afternoon in the church basement.

Tigers Drop Game To Orofino

In a low-scoring contest, featured by extremely tight defense on the part of both teams, the Kendrick Tigers lost a game Tuesday evening, Jan. 15th, to the Orofino Maniacs. The final score of 34 to 41 shows just how tight both defenses were — not to mention that it was tied seven times.

The B squad won their 11th game in a row by defeating the Culesac B's 73 to 32. Scoring for Kendrick in the double-column total were Jim Cuddy, 18; Tom Mabbott, 10, and Dick Cuddy, 10.

Pickup Turns Over Sat. Night

The pickup truck belonging to and driven by Wilbur Tarbet, and carrying his wife as passenger, left the road not far from their home Saturday night, and rolled over into a rather deep ditch, smashing the vehicle pretty badly.

We understand that Mr. Tarbet received a severe sprain of one ankle, and a deep cut on his nose, not to mention plenty of bruises. Mrs. Tarbet also received a generous assortment of bruises and scratches.

It seems the Tarbet pickup was pushing a stuck car in the snow, when in some manner a tire chain broke and wrapped itself around a wheel, flipping the pickup over.

SHORT LOCAL ITEMS OF MORE THAN PASSING INTEREST

P-T. A. Monday Evening

The regular monthly P-T. A. meeting was held here Monday evening in the high school auditorium.

During the business session Mrs. Gil Erlwine, president of the local Teachers' association, reported for them, saying they would not go out on strike — at least until their present contract expired. This decision was in answer to a questionnaire sent out by the P-T. A. of Boundary County.

Following a brief business meeting the program chairman introduced Prof. Sarah Culton of the Education Staff of the Lewis-Clark Normal School at Lewiston, who was guest speaker. Her subject, "Together We Build," proved to be informative and interesting. She gave a resume of the L. C. N. S. curriculum and progress made in the past year and a half. She stated they now had 50 students that could go out as teachers on a two-year college basis. This gives them a provisional certificate that allows them to teach three years. They then must return to college before they can continue teaching.

Mrs. Culton reported there were 196 students enrolled, of which 74 will finish their two-year course this spring. Of these, 50 plan to teach on the "Provisional Certificate," and the rest will go on to other institutions of learning. It was of interest to learn the school has a budget of \$235,000 for 196 students.

To conclude the program the newly organized Boys' Quartette sang several numbers, "You Tell Me Your Dreams," "Riding Down The Canyon," and "Silver Theads Among the Gold." The group consists of Leonard Eldridge, Darrel Broeke, Gary Abbott and Elmer Stitzlein, the latter their musical director.

The Kendrick ladies served delicious refreshments at the close of the evening.

Fire At W. Brown Home

Monday morning about 9:30 o'clock the fire alarm sounded, and the truck rolled to the W. Brown home in the west part of town (former A. K. Carlson residence).

The lower floor of the two-story brick home was a mass of flames when the local volunteers arrived — but they were able to extinguish the blaze and hold damage, with the exception of smoke, to the three front rooms.

The cause of the blaze is unknown, but appearance suggest that it originated in a lamp or wiring near a davenport, as actual fire damage seemed to be greatest in that portion of the front room. Of course, all furniture and personal effects in the front room were a total loss.

We understand the house, belonging to G. F. Broeke, Sr., was partially insured. It is not known if the Brown household items were or not, as they are sojourning in Arizona. During their absence the house was being occupied and cared for by "Stubb" Olson.

The local Volunteer Fire boys are to be highly complimented on the fine job they did in extinguishing the blaze.

No estimate of damage is available at this time.

Mrs. Mabel Tegner Passes

Orofino, Jan. 17 — Frances Mabel Tegner, 76, a long-time Southwick, Idaho, area teacher, died today in a local hospital. She was born in Phillipsburg, Kansas, spent her girlhood on her parents' farm in that state and later was graduated from Teachers College and taught in Kansas until moving to Southwick in 1916. She taught school for about 30 years.

Survivors include two sons, including Doyle Hayward of Kendrick; two daughters, including Lee Kirk, of Kendrick, and a half-sister, Mrs. Cecil Hayward of Lewiston.

The body was taken to the Gilbert Chapel at Orofino. Services will be in the Community Church at Southwick cemetery. Date and arrangements are pending.

Suffers Stroke

Mrs. Pearl Scott, Juliaetta, suffered a light stroke Tuesday at her home. She was found about noon by neighbors, with one side paralyzed. Mrs. Leon Wolff R/N is caring for her for several days, and if she does not improve satisfactorily she will be taken to a hospital.

Flying Livestock

During the last year more livestock were transported overseas by air than were shipped by boat, about 60 percent going by air. The ratio is even higher for small domestic animals.

O-w-u-w!

Postmaster: "Does this package belong to you? The name is obliterated. Can't be mine. My name is Smith."

This area is covered with a blanket of snow from 24 to 26 inches in depth now — and it's still snowing. The roads are general open — the snow plows running steadily but slick, and travel hazardous. It would take, however, just one puff of wind and they would be plugged solid, as the snow is as fluffy as feathers!

Collision Saturday Evening

Saturday evening, about 6:30 o'clock, cars owned and driven by Charles Westendahl and Parker McCready, the latter of Moscow, collided in front of the Kendrick High School.

Mr. Westendahl had attempted to go up the hill past the gymnasium to his home, but didn't quite make it, and was backing down for another try, when his car struck the McCready car almost "amidships" on the right side, buckling the door and smashing in the center pillar. Luckily, no one was injured.

Damage to the Westendahl car was estimated at about \$10.00; to the McCready car, \$100.00.

E. M. White, village marshal, investigated the accident.

With Parker was his father, W. L. McCready. Mr. Westendahl was alone.

Kids Are Having Fun

To say that the children of Kendrick had been "having fun" the past ten days, is to put it mildly — for they having really been taking full advantage of the coasting and skiing offered by the snow.

Not having "much fun" are the operators of the snow plows here — both on the state highways and the roads of the Kendrick Highway District, for they have been traveling on an all but day-and-night schedule. Should a wind come up it is problematical whether or not they could keep the roads open, for the snow is very dry and "just right for good drifting."

A brief period of skating was enjoyed Sunday, but the falling snow and tendency of the river to freeze "from the bottom up," soon put an end to that sport.

As we go to press Wednesday there is about 16 inches of snow on the ground, and the prospect of lots more to come.

Frigid Cold And Snow Stay
The bitter (for this area) cold of last week is still with us, although temperatures have moderated somewhat.

Thursday morning of last week we saw 5 below zero, Friday morning 3 below, Saturday morning 15 above, and that is about the reading each morning since that time.

However, Saturday snow began falling in the late afternoon, and Sunday morning snow shovels were again popular items, with about eight inches covering the ground.

The snow, very light and fluffy, needs only a wind to bring about real drifting. A light breeze blew on top the hills Sunday morning, but very little drifting occurred.

The bitter cold brought on a rash of frozen pipes that kept the village thawing machine going full blast for a couple of days. It also saw the state highway department snowplows operating almost "round the clock," as they fought to keep the snow from packing and becoming ice on the highways.

Bright spot of the picture is the smile on the faces of logging truck operators — for their woods roads are now "solid indeed" and all they have to worry about is the danger of sliding into the ditch and the trouble in getting icy-cold equipment started.

Of course — the fuel dealers have smiles on their faces, too. But then, it's an ill wind that blows nobody good!

Rainfall Totals 21.66 Inches
There are undoubtedly many who wonder what the rainfall for this area may be, and here it is for 1956 — from official rain gauge records on American ridge:

January	2.97
February	1.75
March	1.75
April	.20
May	2.96
June	2.97
July	.35

November	1.02
December	2.94

Among the trials they may hear are two in which Paul D. Matovich, former University of Idaho student, is the defendant. He faces murder charges in the deaths of three Idaho students in a dormitory fire October 19, and arson charges in connection with a fire at Chrisman Hall, Oct. 13.

Included in the jurors names drawn are F. G. Candler, Robert Arrasmith and Arthur Foster, Kendrick.

Mill Closes Down
Forced by the extreme cold, which froze their mill pond, the Mead & Howard Lumber Co. mill at Kendrick closed down Wednesday of last week. It is not known at this time when operations can be resumed — it will have to depend on the weather.

Their planing mill at Juliaetta is operating one shift, beginning at 9:00 a. m. to give more daylight hours and all mid-day warmth possible.

The stud mill, at the old Long feed yard east of Kendrick, has also been closed down for an indefinite period.

SPECIAL STAMP HONORS POLIO VOLUNTEER WORKERS

March of Dimes volunteers here and throughout the country have been honored for the fight against polio in the issuance of a special three-cent stamp. The postoffice department placed it on sale Wednesday, January 16, throughout the country. The stamp is a "long vertical" and shows a woman with protective arm around a boy and girl. She holds a shield with a medical emblem symbolizing the partnership between civilian volunteers and the medical and science professions in the battle against polio. The legend reads: "Honoring Those Who Helped Fight Polio."

This recognition by the U. S. government points up the work of some 4,000,000 March of Dimes volunteers for the last 19 years in supplying financial aid to polio research and patient care. The crowning achievement of the program was the development of Salk vaccine. However, as March of Dimes spokesmen warn, much remains to be done despite the protective power of the vaccine. There are 80,000 Americans disabled by polio who may still need treatment and rehabilitation. Thousands of trained personnel to administer care are needed. In addition, research must be continued to improve the vaccine and develop new treatment techniques for the disabled. These are the needs to be met out of proceeds of the 1957 March of Dimes.

Officials of the current drive urge residents to use the new commemorative stamps to send in March of Dimes Mailers — the little cards that hold coins and bills — to help finish the polio job.

Don't forget, too, that there are coin "Iron Lungs" to be found on almost every store counter, in which you may poke that odd lot of change. Every penny helps.

Also, this coming Saturday evening, January 26, the Kendrick Grange is sponsoring a March of Dimes dance at the K. H. S. gym., beginning at 9:00 o'clock. Here you can dance — and help the March of Dimes.

Changing Advertising Policy

Union Oil Company of California, one of the nation's largest advertisers, has cancelled all billboard advertising and will increase substantially its newspaper campaigns in both dailies and selected weeklies, according to Reese H. Taylor, chairman of the board, at Los Angeles, Calif.

Among the weekly newspapers selected to carry Union's advertising in 1957, is the Kendrick Gazette.

"Two factors were of primary concern in reaching the decision to abandon billboard advertising," explained Mr. Taylor.

"First is the traffic hazard, which a great many experts have indicated billboards tend to increase.

"Second is an apparent and growing resentment on the part of many people and residential communities to obscuring the beauty of our natural landscape with this type of advertising.

"As a company serving the motoring needs of the public, it simply did not make sense to continue to use an advertising medium which is apparently becoming offensive to many, as well as being a hazard."

Read It First

Down in Corpus Christi, Texas, Manuel Craza has won a beef against the cops. He was arrested for drunk driving and was hustled off for a blood test. A policeman handed him a release to sign.

But Manuel was sober enough to insist on reading the fine type and darned if he wasn't giving his consent for amputation of a leg! Naturally he refused to sign anything, and when the police sheepishly admitted to the judge that the wrong form had been used, Manuel went free.

Let it be a lesson to you. Never get blind drunk in more than one eye at a time. — Knoxville (Tenn.) News Sentinel.

Hazardous Driving Lies Ahead

Not waiting for Mr. Groundhog's prediction on how soon spring may come, Harold Davis, state traffic safety director today forecast at least another six weeks of difficult driving.

"For motorists, winter hazards will continue through February and much of March," he warned. "This prediction is based on the experience of a good many years."

The state official added: "Days are getting a little longer now, but much of our driving still is done at twilight and during hours of darkness. Visibility is further reduced by inclement weather, which calls for keeping headlights, tail lights, clearance lights, windshield wiper blades, defrosters, etc., in tip-top operating condition."

He further pointed out: "Traction is tricky on snow and ice. Even the drivers who have escaped mishaps thus far this winter had better be on guard against skidding. Adjusting speed to road conditions is imperative. In heavy snow, or packed snow or ice, tire chains are still a vital necessity."

Concluding, Davis emphasized: "Always watch the temperature changes. Ice becomes more slippery as the temperature rises and any thawing begins."

Yes, Something Should Be Done
 Something should be done about that over-grown foot locker women call a purse, complains editor Jack Taylor of the Austin (Nev.) Reese River Reville. Jock claims the main difference between the contents of it and a small boy's pockets is that in the purse you seldom will find any fishhooks and angleworms. He thinks someone should start a style calling for women to wear change belts like those used by bus conductors. — The Christian Science Monitor.

Latah Pioneers To Meet

The Latah County Pioneers' Association will hold its regular winter meeting on Saturday, January 26th, beginning at 10:30 a. m. At noon a pot-luck dinner will be served — and what a place this is to get lots of good food.

In the afternoon there will be a program of music and possibly a short talk by some person yet to be selected.

This is a fine place to meet some of the older residents of the county, and also those who are not in the older group — for this is open to all. Mark the date on your calendar. F. S. A pioneer is considered one who has been in the county for 30 or more years.

HELLO, FOLKS:

How do you like your winters? Frigid?, cool, comfortable, or hot? Probably the only way you can get one exactly to your taste, is to go south! But the next best thing is a tank full of our Union Burner Oil. With the clean, hot fire it will give you, you can be truly comfortable in your own home. So, pick up your phone and call 1251 — say: "Fill 'er up," and we'll do the rest.

A woman trying to maneuver her sedan out of a parking space banged into the car ahead. Then into the car behind, and finally, pulling into the street, struck a passing car. A policeman who had been watching approached her. "Let's see your license," he demanded. "Don't be silly, officer," she re-

plied. "Who'd give me a license?"

Car, pickup or truck hard to start these winter days? If so, try a tank full of our famous Union Gasolines — and a crankcase full of Royal Triton Motor Oil — they're the answer to hard winter starting.

Tramp: "Beg pardon, but do you happen to have some pie or cake that you could spare an unfortunate wanderer?"

Lady: "No, I'm afraid not. But wouldn't some bread and butter do?"

Tramp: "As a general rule it would, but you see, today's my birthday."

See us for mud and snow tires, chains, anti-freeze, and all the other winter necessities.
