

**FIX RIDGE ITEMS**

A nice crowd attended the pot-luck supper in the Lutheran Church basement Saturday evening. Following supper Mrs. Martin Foleson (nee Teddy Giese) was honored with a pink and blue shower. The mother-to-be received many lovely gifts.

Mrs. Oliver Clark attended the Cancer meeting and luncheon in the Methodist Church at Moscow Saturday.

Debbie Demler was a Wednesday dinner guest of Mr. and Mrs. Wallace Clark. Afternoon visitors were Mrs. Bennie Weatherby, Mrs. Adolph Demler and daughter Lenette.

Sunday dinner guests of Mr. and Mrs. Walter Demner were Mrs. John Schwarz and sons Ernest and Lawrence, Mr. and Mrs. Herbert Schwarz and daughter JoAnn, Ida Stoneburner and Emma Hartung, all of Cameron. Afternoon and evening callers were Mr. and Mrs. G. F. Demner and daughter, Mr. and Mrs. Tom Demner and sons; Mrs. Louise Cridlebaugh and daughter Shirley of Lewiston; Mr. and Mrs. Dick Gruell and sons of Lewiston, and Mr. and Mrs. Dale Laird of Moscow.

Mrs. Adolph Demner and Debbie were Tuesday supper guests of Mr. and Mrs. Tom Demner.

Mrs. Katherine Demner of Lewiston visited from Friday to Monday with Mr. and Mrs. Ernest Demner.

Mr. and Mrs. William Clark, Bonnie and Kenneth of Moscow, visited Sunday afternoon with Mr. and Mrs. Wallace Clark.

Sunday supper guests of Mr. and Mrs. Ernest Demner were Virgil Post and children of Genesee; Mrs. Katherine Demner of Lewiston. Afternoon callers were Mrs. Eleanor Demner and sons David and Donald.

Mrs. Adolph Demner and daughter Lenette visited in Moscow overnight, Tuesday.

Mr. and Mrs. Geo. F. Demner visited Wednesday and Thursday with her parents, Mr. and Mrs. Ben Cummings, in Spokane.

Mrs. Kuni Demner and Herman of Lewiston visited Wednesday and Thursday with Mr. and Mrs. Tom Demner.

Mr. and Mrs. Geo. Giese, Mr. and Mrs. Adolph Demner and daughters were Sunday dinner guests of Mr. and Mrs. Sam Weaver and family at Linden.

Rev. and Mrs. Harold Paul and family of Troy were Friday supper guests of Mr. and Mrs. Bennie Weatherby.

Mr. and Mrs. Dale Laird of Moscow and Geo. Demner were Sunday dinner guests of Mrs. Kuni Demner in Lewiston.

Judy, Janice and Bob Demner attended the Luther League skating party at Lewiston, Sunday.

Mr. and Mrs. Adolph Demner and Debbie, and Mrs. Eleanor Demner were Lewiston visitors Friday evening.

Mr. and Mrs. Geo. Demner, Linda and Janice, and Linda Adams, the latter of Juliaetta, were Lewiston visitors on Saturday.

Mrs. Geo. Giese visited her mother, Mrs. R. C. Woodruff, in Lewiston on Monday.

**BIG BEAR RIDGE NEWS**

Vernon Garrison of Anchorage, Alaska, spent the week-end at the Gerald Ingle home.

Mrs. Johanna Nelson returned home on Tuesday of last week from a visit with relatives at Coeur d'Alene.

Arnold Halseth and Mr. and Mrs. Boyd Leland, the latter of Clarkston, spent Sunday in Spokane visiting with their mother, Mrs. Ed. Halseth, a patient in a Spokane hospital. It is expected to bring her home the last of this week.

Mr. and Mrs. Joe Clemenhagen and Bertina and Joe Forest attended the funeral of Michael Mathison, Sr., at Moscow, Saturday afternoon.

Mr. and Mrs. Harold Poindexter of Asotin and Mr. and Mrs. Ray Lee of Pullman were Sunday guests in the home of Mr. and Mrs. Robert Arrasmith.

Mrs. Helen Hinrichs spent Sunday in the home of her brother, Mr. and Mrs. Ray Jones and family in the Lewiston Orchards.

Mr. and Mrs. Henry Peterson of Pullman and Mrs. Carson, Sr., of Moscow, spent Sunday afternoon in the Joe Forest home.

Browning Warren of Palo Alto, Calif., and Mr. and Mrs. Chas. S. Warren of Caldwell, Idaho, were week-end guests in the home of their sister, Mrs. Gerald Ingle and family. They were here to attend the Golden Wedding anniversary of Mr. and Mrs. Carl Smith of Moscow.

Mr. and Mrs. Everett Hammond and children of Moscow spent the week-end here with her parents, Mr. and Mrs. Ernest Jones and son Don.

Mrs. Cecil Dean and Mrs. Frank Hoisington were Lewiston callers on Friday.

Mr. and Mrs. Arlie Armitage of Southwick were Sunday guests in the home of Mr. and Mrs. Frank Hoisington.

Mr. and Mrs. Ed. Galloway and son Eddie and Mr. and Mrs. Cecil Chamberlain were week-ago-Sunday dinner guests in the Clarence Morey home.

There will be a pot-luck supper and sale at the Community Hall on April 27 starting at 6:30 p. m.

**Merry Stitches 4-H Club**  
The Merry Stitches 4-H Club held their meeting March 23 at the home of Betty Blankenship. Loeda Meyer showed the club how to make a flat fell seam, false flat fell seam, a skirt placket, and cut a bias.

In the business meeting 4-H camp and Short Courses were discussed. Loeda Meyer gave a report on the pictures shown by Art Misner and Tom Trail, on their trip to Pakistan and Nepal.

Delicious refreshments were served by Betty and Mrs. Blankenship.

The next meeting will be on April 6 at the home of Loeda Meyer. — Judy Koepf, reporter.

**Kendrick Canyon Klub**  
The Kendrick Canyon Klub will meet on April 3rd at the home of Mrs. Ed. Nelson, with Mrs. John Darby as co-hostess.

The lesson "Furniture Arrangement" will be given by leaders.

**DEARY ITEMS**

Mr. and Mrs. Harvey Head and daughter Wilma of Kendrick were Saturday evening guests in the Ray Bogar home.

Mr. and Mrs. Forrest Wetterow and daughter Karen of Sandpoint spent Saturday at the Jim Jones home.

The United Brethren Ladies Aid Society met Wednesday, March 20, with Mrs. Olive Thomas. There were 18 ladies and eight children present. They finished work on the rag rugs, but will continue quilting and hand work for their fall sale. The cooked food sale was reported a very good success, with receipts of nearly \$30. This money will be used to purchase new curtains for the church.

Mr. and Mrs. Harold Mael visited Sunday with Mrs. Marie Dahl and Mr. and Mrs. Martin Shove and David at Juliaetta.

Mr. and Mrs. Lester Griffin and family visited in the John L. Scott home at Moscow, Saturday.

Mr. and Mrs. R. H. Hamilton, who spent the winter in California, have returned to their home here. They left for California in early November.

Ricky, Linda, Dianne and Rebecca Griffin are spending a few days with their grandparents, Mr. and Mrs. James M. Griffin.

Jack Steens, principal of the Deary Schools, has returned home, after spending several days in Boise on business.

Mrs. Jim Candler and children of Kendrick visited at the Harold Mael home Monday.

**Wins Award**  
U. of I. Moscow — Work done in machine design as a student at the University of Idaho by Jasper L. Avery, Orofino, has earned a special award from Machinery magazine, Prof. N. F. Hindle, head of the mechanical engineering department, announced this week.

Avery was nominated for the award by the mechanical engineering staff and commended for his work as a student at the university. He will graduate in June.

Avery will be awarded two handbooks of design information and a subscription to the magazine.

Mr. Avery is a son-in-law of Mr. and Mrs. Cecil Choate.

**Attend Christening**  
Bradley Scott infant son of Mr. and Mrs. Don Millard, Kendrick, was christened Sunday at the Cameron Emmanuel Lutheran Church.

Mr. and Mrs. Aug. O. Wegner of Pullman came down to witness the ceremony, as did Mr. and Mrs. Richard Holman and son of Coeur d'Alene, the latter arriving Saturday evening to spend the week-end with her parents, Mr. and Mrs. Walter Silflow.

All were Sunday dinner guests in the Silflow home.

**Evergreen Friendship Club**  
The Evergreen Friendship Club met last Wednesday at the home of Mrs. Lester Crocker, with Eula Miller as co-hostess.

The lesson was "Talking Things Over With the Family," and was presented by Connie Fey, Club members set March 30 for Family Night, but it has been postponed until April, due to other events scheduled for that night.

**Has New Address**  
Word has been received that Pvt. Alfred L. Cook, son of Mr. and Mrs. Asa Cook, Juliaetta, has a new service address. For the benefit of those who might care to write, here it is: Pvt. Alfred L. Cook, US 56-241-160, 304th (Sig Bn. (OFY) 301, c/o Fleet P. O., San Francisco, Calif.

**Baby Son Arrives**  
Mr. and Mrs. Bennie B. Cook, Pullman, announce with happiness the birth of a son, at 11:00 p. m., March 26, in the home of her parents, Mr. and Mrs. Walter Crawford, Leland. The little fellow weighed in at 8 1/2 pounds. Babe and mother are doing nicely.

**W. S. C. S. Conference, Spokane**  
The Pacific Northwest Conference of the Womens Society of Christian Service will be held at St. Paul's Methodist Church in Spokane April 9th through 11th.

Mrs. Wm. Holt, president of the local society, reminds all members that they are welcome.

**Home From Hospital**  
Friends will be delighted to learn that Mrs. Ed. Halseth is now home from a Spokane hospital where she had spent some weeks, and is feeling fine.

She was brought home Tuesday by their son Gerald.

**Have Sold Home**  
A deal was made Tuesday whereby Mrs. Kathryn Morey purchased the residence of Mr. and Mrs. Ervin Swenson in the east part of town.

The consideration was not made public.

**Now Live in Country**  
Mrs. A. J. Sheneman, Moscow, left for her home there Tuesday of last week following a visit of several days with Mr. and Mrs. Ross Armitage.

The Sheneman family have now moved to Route 1, where they may be found by their old friends here.

**Open House Set For Sunday**  
The family of Mr. and Mrs. T. J. Armitage, Southwick, are holding an Open House, at the family home, from 2:00 to 5:00 o'clock Sunday afternoon, April 7th, honoring their parents Golden Wedding Anniversary. Everyone is cordially invited.

**Grange Meeting Sunday**  
Kendrick Grange members are reminded that our Grange meeting will be held Sunday afternoon at 2:00 o'clock, when the Rock Creek Grange will come down for the annual visitation. It is hoped there will be a big turnout, as there will not be another Grange visitation at Kendrick this year.

**Kindergarten Postponed**  
Mrs. Ben P. Cook has been ill with the flu, and has cancelled Kindergarten until Thursday, March 28.

**PERSONALS AND NEWS BITS ABOUT KENDRICK FRIENDS**

Mr. and Mrs. Paul Dammarell and family of Moscow were Sunday guests in the home of his brother Mr. and Mrs. Max Dammarell and family.

Among those who attended the Sportsmen's Show at Spokane last week were Mr. and Mrs. H. C. Schupfer, Mr. and Mrs. Geo. Wilken, Mr. and Mrs. R. L. Blewett, Mr. and Mrs. John Johanson, Mr. and Mrs. Otto Schupfer and their son-in-law and daughter, Mr. and Mrs. Ken Samuelson, and Mr. and Mrs. W. L. McCreary.

Mrs. Verla Whithead, Lewiston, has been spending some time with her sister, Mrs. Walter Brocke, the latter convalescing following recent surgery at the Gritman Memorial Hospital in Moscow.

Mr. and Mrs. H. M. Barber of Coeur d'Alene were week-end guests here in the home of their son-in-law and daughter, Mr. and Mrs. Bob Watts and daughter Fatti.

Mr. and Mrs. Joe Watts and daughters of Moscow were Sunday dinner guests of his mother, Mrs. W. A. Watts. They also called at the home of her parents, Mr. and Mrs. E. A. Deobald.

Mr. and Mrs. Oscar Medalen, accompanied by Mr. and Mrs. Alan Medalen and son Eric of Orofino, drove to Spokane Sunday to see the Sportsmen's Show.

Geo. Jones arrived home last week from Geiger Field, Spokane, where he received an honorable dependency discharge from the service.

Mr. and Mrs. H. Bruce, who have been living in the Warney May, Sr., house here, are moving the first of the week to Asotin Flats, where he will manage a farm.

Mr. and Mrs. Bob Spencer of Coeur d'Alene were week-end guests in the home of her mother, Mrs. Estella Leith.

Milton Eugene Lind, Lewiston, was a week-end guest in the home of his parents, Mr. and Mrs. Paul Lind. Mrs. Bina Raby, Lewiston, is a house guest in the Lind home this week.

Mr. and Mrs. Forrest Wetterow and daughter Karen of Sandpoint were Sunday luncheon guests of Mr. and Mrs. Jack Kuykendahl.

Charles Westendahl visited with his brother-in-law and sister, Mr. and Mrs. Gerald Gustin and son at Harvard from Thursday until Saturday.

Visitors in the P. G. Candler home Sunday were Mr. and Mrs. Charlie Sanderson and Mr. and Mrs. Willis Patterson and little son Doug, all of Elgin, Oregon, the latter a nephew of Mrs. Candler; Mr. and Mrs. Don Candler, Tommy and Luann of Ebovill; Mr. and Mrs. Walter Candler and three sons of Asotin; Chas. Candler, Chas. Westendahl, Mrs. Lloyd Candler and the James Candler family.

Among those who drove to Pomeroy on Wednesday morning to attend the funeral of Louis Lindquist were Mrs. Elsie Deobald, Gordon Peters,

Ben P. Cook and Mr. and Mrs. R. L. Blewett.

**Takes Spill On Motorcycle**  
Gary Abbott sustained bruises, scratches and plenty of skid-burns late Sunday morning when the motorcycle he was riding (belonging to Jim Nelson) went out of control on the road between Kendrick and Juliaetta, and into the ditch.

The motorcycle was slightly damaged.

Gary has been confined to his home for a few days — so stiff and sore he found it almost impossible to move.

**Attendance Down**  
Attendance at the annual Kendrick Ag. Day, Tuesday, was down considerably from that of last year, with only 130 showing up to partake of the free lunch at noon — against 225 served last year.

There were approximately 160 present for the meetings, against almost 300 last year.

This is rather hard to understand, for the event was well publicized, and weather and road conditions were ideal.

**Wheat Growers To Meet**  
The Nez Perce County Wheat Growers Association will hold a meeting Tuesday evening, April 2nd, at the Cameron Ladies Aid-hall at 8:00 o'clock.

The state president and state secretary, as well as the Nez Perce county directors will be present to explain the program.

All Nez Perce county farmers in the area are urged to attend.

Enjoy warmer floors, even temperature, the clean, fresh air of  
**ELECTRIC HEATING**

Electric is the most healthful heating system in use today. A silent, even distribution of warm, fresh air heats rooms from floor to ceiling. There are no "cold" or "hot" blasts of air. Soot, smoke, dust, fuel odors and drafts are practically eliminated. Every room can be heated to just the right temperature because of individual room temperature controls. Fuel storage and furnaces are no longer necessary and this means more "living space." Today electric is the choice of over 7,000 WWP customers and every year hundreds more switch from fire to wire heating. Why not convert to electric today? No need to wait until summer. A conversion can be made at any time without disrupting your present system.

See our electric heating expert at your nearest WWP Co. office. He can explain the various systems of modern electric heating,

estimate your cost of operation and installation and offer you a list of the qualified electrical heating contractors in your area. Remember, it is important that you have a properly engineered system for maximum efficiency and economy. No obligation. This is a free service to any WWP customer.

**FREE ELECTRIC HEATING BROCHURE . . .**

. . . a complete explanatory brochure on modern electric home heating. "Heat your home the modern electric way." Includes general information on the kinds and types of electric heating now available. For your free copy write or phone your nearest WWP Company office.

**THE WASHINGTON WATER POWER COMPANY**

**'Whiskers' Help Study of Forces Binding Atoms**

NEW YORK, N. Y. — One of modern science's oddities—highly pure and perfect metal crystals known as "whiskers"—are enabling scientists at the Westinghouse Research Laboratories in Pittsburgh, Pa. to gain new insight into the enormous forces which bind atoms together.

In a paper delivered during the seventh New York meeting of the American Association for the Advancement of Science, Dr. R. L. Eisner, Westinghouse research physicist, described a new technique for evaluating these forces by measuring the tensile strength of whiskers of iron and silicon.

Dr. Eisner's technique is one of the most accurate methods known for pulling apart the tiny crystals and measuring directly the applied force (stress) and the amount of stretch (strain) they undergo. Precise, delicate equipment is required, Dr. Eisner said, because the tiny strands of metal may be 40 millionths of an inch or less in diameter—about one hundredth the thickness of human hair. Use of the method, the Westinghouse scientist reported, has cast new light on the nature of the interatomic forces which give all metals their ultimate strength.

"In whiskers, a metal exists in a perfect condition," Dr. Eisner said. "In contrast, any ordinary piece of metal contains countless millions of structural imperfections. Under stress, it is these imperfections which govern how and when the metal will break. They mask any attempt to measure the much larger forces which hold the metal atoms themselves together.

"By conducting tensile tests on whiskers, where these imperfections do not exist, we can pull the individual atoms far enough apart, without breaking, to get a measure of the interatomic forces. This enables us, for the first time to check modern theories of interatomic forces."

**U. S. Families Get Bigger and Bigger**

NEW YORK—Families are becoming larger in the United States, statisticians report.

This is evidenced by an increasing number of couples now having a third or fourth child. The annual rate for third births has climbed from 1.8 per 100 married women under age 45 in 1940-41 to 3.1 per 100 in 1954-55. For four births, the rate increased by 70 per cent during this period.

Fifth and subsequent births also increased somewhat in recent years and are likely to continue upward for the balance of the decade. Statisticians see little likelihood, however, that the rates for these births orders will return to the levels of the 1920's.

Second births increased almost without interruption from a low point in 1933 to a peak in 1952. Although the rate has since fallen off somewhat, it is still at an unusually high level — one-third above the rate in 1940, and one-eighth higher than in 1920.

**Bell From Battleship On College Campus**

UNIVERSITY PARK, Pa.—The bell from the battleship, U.S.S. Pennsylvania, now is located on the campus of the Pennsylvania State University.

In keeping with a Navy tradition of preserving the names or relics of its famous fighting ships, the Navy has loaned the bell to the University on a permanent basis.

The U.S.S. Pennsylvania was commissioned in 1916 as one of the first two oil burning battleships and until expansion of the fleet in World War II served as a flagship.

The ship, which was 612 feet in length and displaced 33,100 tons, escaped with minor damage when the Japanese bombed Pearl Harbor but was seriously damaged in August, 1945, when attacked by a Japanese torpedo plane while at anchor off Okinawa.

**Average U. S. Farm Bigger Than in 1950**

MINNEAPOLIS — Size of the average U. S. farm has expanded from 215 acres in 1950 to a present size of approximately 250 acres.

Meanwhile, average sales value of farm land including buildings has risen from \$67 per acre in 1950 to approximately \$80 per acre in 1956, Department of Agriculture indexes show.

Thus, land and buildings in the average U. S. farm unit today are worth approximately \$22,500, compared with \$14,400 in 1950.

With a continuing absorption of small farms into larger units, the total number of farms in the U. S. has dropped from nearly 5,500,000 in 1950 to under 4,700,000 in 1956.

**Social Freedom Held Popular Lure Of Big City Life**

LOS ANGELES—In this age of high pressure living, what lures the small town inhabitant from the peace and quiet of his village to the raucous big city.

It may be the job opportunities or the "bright lights," but according to a sociologist at the University of California, Los Angeles, a major attraction of modern metropolitan areas is their "lives" and "let live" way of life.

Dr. Svend Riemer says the city dweller tends to come to the city to escape the close social controls of his village environment.

"Sometimes a case of divorce or delinquency may 'force' him to make the move," he says. "But often he merely aspires to the social freedom of the big city."

It has often been assumed, the UCLA sociologist points out, that the city dweller is more prone to divorce or delinquency because of his peculiar contact pattern. He is generally left alone by friends and neighbors who do not keep him well in line. They do not exert social controls as stringently as would be the case "back home."

The transfer of the village type of social control to the metropolis has been recommended as a remedy for the evils of city living, Dr. Riemer notes. But this is not the answer, for if the city dweller does not like "nosey neighbors," he has only to move away to another neighborhood.

**Steam Locomotives On Exhibition**

WASHINGTON — Railroad fans who bewail the passing of the "iron horse" will be interested to learn that the Smithsonian Institution has on exhibit all the known remains of all the steam locomotives used in this country before 1835.

This adds up to one operable locomotive, built in 1831, and parts of four earlier ones, according to a recent publication of the Smithsonian's U. S. National Museum.

The locomotive is the John Bull, built in Britain for a New Jersey line now part of the Pennsylvania Railroad. It was placed in service November 12, 1831, and remained in active use until 1865. Since then it has been on display at most of the major fairs and expositions in this country.

The oldest relic is the safety valve of this country's first rail locomotive—built as an experiment by Col. John Stevens, of Hoboken, N. J., in 1825. He ran the locomotive around a small circular track on his front lawn.

Another relic is a wheel—said to be all that remains of the original De Witt Clinton. This famous locomotive in 1831 was the first to run in New York State, near Schenectady on tracks now a part of the New York Central System.

**Stubbornly Gallant—Army Mule on Last Leg**

WASHINGTON—The Army mule doesn't die easily, but it's slowly fading away.

The United States Army's plan to put its last unit of combat mules to pasture in favor of helicopters will close an almost legendary chapter. Northern armies alone used 450,000 pack mules in the Civil War. Out of the 25,000 that went abroad with the American Expeditionary Force in the first World War, 5,000 were casualties.

Mules were used in World War II, but by and large jeeps took over during that period.

In 1940 the mule population in the United States totaled about 4,000,000, that of horses, nearly 10,500,000. Today, the combined mule-horse population has plummeted to a low of 3,962,000.

**Sulphur Is Element Of Diversified Uses**

WASHINGTON—The all-pervading element—sulphur—is being brought to the surface by ingenious wells in Texas and Louisiana, where a new major source has been found under water.

Sulphur is the element of thousands of uses. Rubber is vulcanized with the use of sulphur. Gasoline is refined with it. Paper, textiles, leather, ivory, plastics, fertilizers, medicines, wool, disinfectants, explosives, sheep dip and soap contain sulphur, as do some 32,000 other articles in common use.

**Versatile Material**

WASHINGTON—Unknown commercially until the early 1930's, glass fiber is now one of the most versatile manufacturing materials. From it are made air filters for furnaces, insulation to control heat, cold and noise; battery separators, insect screening, fine curtains and draperies, and in combination with plastics, furniture, bathtubs, sports-car bodies, and luggage.

**Lengthy Reports Being Replaced by Magnetic Tapes**

SCHENECTADY, N. Y.—A roll of magnetic tape about the size of a dinner plate has replaced a 900-page report to speed the Social Security information of 30,000 General Electric Company employees from Schenectady to Baltimore.

This latest application of automation principles to accounting marks the beginning of a new era of data transmission between industry and the government, since this is the first application of the procedure.

GE officials say the potential savings of such an operation are tremendous to both the government and the company. General Electric employs more than 280,000 persons throughout the country and eventually it is expected that Social Security information for most of them will be forwarded by the tape method.

In addition to the saving in time and material for the preparation of the records, there is also a huge saving in storage space required to keep the records.

The tape, which is approximately 2,400 feet long and weighs about two pounds, carried the quarterly Social Security report for most of the General Electric employees in the Schenectady area. Until tape was used, it was necessary to prepare more than 900 typewritten pages, each containing 30 to 40 names, four times a year to supply the quarterly figures which the government requires for Social Security.

**Honey Bees Share And Share Alike**

WASHINGTON — With honey bees it's share and share alike.

A single sample of sugar or nectar brought into a hive by a forager is participated in by all the members of a family—all progeny of a single queen—which may number more than 50,000 individuals.

Thus all get essentially the same diet and all acquire a common odor by which they can recognize each other. This odor constitutes a "scent language" which is a basis of the extremely complex bee social life.

These observations, based on experiments with radioactive sugar, are reported by Dr. Ronald Ribbands of Cambridge University.

In one of these experiments, Dr. Ribbands says, "a marked bee

is trained to collect sugar solution from a small glass tube, and when radioactive sugar is substituted the bee continues to collect the radioactive syrup quite happily. It returns to the hive, and what happens to the labeled sugar can be followed quite easily. Every bee that receives some can be spotted by means of a geiger counter."

**1956 Best Year for Life Insurance**

NEW YORK—American families in 1956 bought more new life insurance, increased their ownership of life insurance to a larger aggregate and received more in life insurance benefit payments than in any year on record, according to the Institute of Life Insurance.

The year's purchases of new life insurance are estimated at \$55,600,000,000, some \$7,200,000,000 more than in 1955 and nearly \$45,000,000,000 more than in 1940.

Aggregate life insurance owned in the country reached an estimated \$415,000,000,000 at year-end, up nearly \$43,000,000,000 in the year and nearly \$300,000,000,000 more than in 1940. Life insurance in force now averages over \$3,900 for the nation's 108,000,000 policyholders. It is more than \$7,500 per family, countrywide, and over \$9,000 per insured family.

**Three Considerations When Buying House**

NEW YORK—There are three things you should consider when you start thinking about buying a house: 1. Cost. 2. Size. 3. Equipment and materials.

As for size, we're fast approaching the 1,500-square-foot mark. You should insist on at least two bathrooms; 150 square feet of kitchen at a minimum; three to four bedrooms; facilities for a family room. Equipment should include built-in kitchen appliances and modern bathroom fixtures in color. Materials should be of proven worth such as durable, waterproof ceramic tile in bath and kitchen, copper plumbing, seasoned lumber.

**Man-Made Timbers**

WASHINGTON—Man is no longer dependent upon nature to grow giant timbers. By gluing together small pieces of seasoned lumber, timber fabricators can produce "factory grown" timbers of virtually any size or shape. Only limiting factor is the size of timber that can be handled in transport from the fabricating plant to the building site.

**Diabetics Can Live Long, Active and Normal Lives**

The control of diabetes so that a person suffering from the disease may lead a long, normal and active life has become a reality.

In a study of 760 diabetic patients suffering from the disease 25 years or more, Dr. Elliott P. Joslin, of Boston, found approximately 80 per cent active and a few in perfect health.

"The patients in perfect condition are those whose treatment was initiated (with hardly an exception) with strenuous control of diabetes in their early years," Dr. Joslin stated, "this control being maintained for 10 years, more or less, to more than the usual extent and even then continued.

"In this series the evidence is overwhelming that strict treatment of diabetes pays and, moreover, that control of the disease is possible."

Of the total group studied, 23 patients had had diabetes for more than 25 years and yet had a sound body with urine free from albumin, eyes without diabetic complications such as hemorrhages and cataracts, and had arteries free from calcification.

Of these 23 patients, all of whom lived in unusually favorable homes and under comfortable social circumstances according to the survey, 13 inherited the disease, the age of onset ranging from 1 4/5 to 32 years. All take insulin. Seventeen married, resulting in 28 living children, all of whom are healthy. "Corroborative testimony that diabetics are living long and—most of them—useful lives is afforded by 40 of our patients with diabetes of 30 to 35 years' duration whose onset was in childhood," Dr. Joslin stated.

**Mosquitoes Eat Dog (Food) in Unique Clinic Studies**

Three million radioactive labeled mosquitoes raised on tap water and finely ground dog food containing radiophosphorus or a phosphate derived from it, were recently used in experiments conducted by the Chemical Corps Medical Laboratories of the Army in order to determine insect flight ranges.

With the constantly increasing human activity in northern regions, the study of arctic and subarctic species of biting insects has assumed great importance. Control of the enormous numbers of mosquitoes that occur in most arctic and subarctic areas is difficult even with large scale spraying. Even after such spraying, it has been established that reinfestation from the surrounding territory may occur rapidly. Accurate knowledge of the flight range and dispersal patterns of the important types of biting flies is needed in order to increase the effectiveness of control measures.

In this particular research project the region near Churohill, Manitoba, was selected. This region is on the timberline, and has enormous mosquito populations which include both tundra and conifer forest species. Radioisotopes were used as tracers. Adult mosquitoes were also made radioactive by feeding them on radioactivated rats and rabbits, raisins, flowers, and sugar solutions.

**Insomnia**

Insomnia is a demon that has plagued people all through the centuries. Now there are so many individual remedies that if a person tried them all, he'd never have time to sleep. There are many ex-insomniacs, though, who swear by their own particular remedy, and if sleep really is elusive every night, then the person suffering from insomnia has nothing to lose by trying one or two which appeal most to him.

A word of warning, though! Don't be too upset or disappointed if a "guaranteed-to-stop-insomnia" cure doesn't work. Before he settles down to the long list of suggestions that friends are more than willing to thrust on him, the insomniac should make a thorough check of his bed.

First, he should see that his mattress is level, resilient and in good conditions—that is, no sags, lumps, humps or bumps. Then he should check his bedspring—if it is in good condition, it will have no broken coils or sags. Next comes his pillow. To provide adequate support it should be fluffy, buoyant, resilient and fill the gap between his shoulders and neck. If his bedding passes this test, then he is free to try some of the 1001 sleep inducers—and with the best wishes of all ex-insomniacs.

Another suggestion, perhaps more to the liking of the teetotalers, is to drink a glass of warm milk every night.

**Lightning Bugs**

The full details of how a lightning bug produces its light are not fully understood, although it is known to utilize a chemical reaction involving water, oxygen, a rather simple compound called "luciferin" and a more complex one, belonging to the class known as enzymes, called "luciferase." Probably the luciferin, after it has become properly activated, actually produces the light. The insect may exercise some sort of nervous control over the organs that produce light, perhaps in the same way that a nervous impulse controls the contraction of a muscle, and several scientists are engaged in research to find how this happens.

**St. Patrick Shrine Bringing Fame to Missouri Town**

ST. PATRICK, Mo.—This unique little town in the verdant hills of northeast Missouri has a new feature that draws many visitors.

If present interest continues, the new church—or Shrine of St. Patrick—will be one of the most photographed landmarks of our country. Visitors are already flocking to the site, although the shrine is not fully completed.

It will be perhaps the only church in our country with a round tower, a sort of dream from the middle ages. Erected of beautiful cut stone, it takes the visitor back to the hills and valleys of Ireland—the Isle of Saints with its glorious past. Its stained glass windows, made in Dublin, depict some of the Irish Saints. The choir window, now in place, contains such a variety of colors that it can be safely said there is no other window exactly like it.

The central figure, of course, is St. Patrick, who seemingly belongs to all nationalities, especially around March 17th. Surrounding the good Saint we find the Coat of Arms or the emblems of the four provinces of Ireland. The Red Hand of O'Neill, always raised in the cause of faith or freedom, is on the top. At the bottom are the Crowns of Munster, reminding of the kings who reigned by the Rock of Cashel even before the time of Christ. On the right is the Harp of Leinster, the great musical instrument of Ireland that goes back beyond the days of King David. On the left is the emblem of Connaught—the dagger of defense and the dove of peace.

**Seeing Ability Affects Driving**

NEW YORK—Indications of the vital relationship of seeing ability to highway accidents show up on all sides. For example, two-thirds of all traffic deaths occur at night, although one-third of the driving is done then. Poor seeing conditions, such as rain, snow, and sharp turns obscured by bushes, are a factor in one-fifth of the fatal highway accidents.

Comparative studies of accident-free drivers versus accident-repeaters also reveal significant trends. The repeaters are inferior in ability to see with both eyes together at the same time, in depth perception, ocular muscle balance, and visual acuity. As visual acuity decreases from 20/35 to 20/50, there is a rapid increase in accident rate. Up to 56 per cent of the repeaters have tunnel vision (inability to see objects on the side while looking straight ahead) as against only about one to three per cent of the accident-free drivers. This is a crucial point, because some 75 per cent of all traffic mishaps involve objects on the side.

**Catastrophes Took Fewer Lives in '56**

NEW YORK—Catastrophes—defined as those accidents in which five or more persons are killed—took more than 1,300 lives in the United States during 1956, about 150 less than in 1955.

The more favorable record reflects a smaller death toll in major catastrophes—those in which 25 or more lives were lost. During 1956 there were five such catastrophes which accounted for about 270 lives; in 1955 nine catastrophes of this magnitude caused the loss of more than 600 lives.

Not in many years has the death toll from outstanding natural disasters been so low. In 1955 the major hurricanes, floods, and tornadoes accounted for the loss of more than 450 lives, compared with only 25 during the year just ended.

**Wierd Creatures on Barro Colorado Isle**

WASHINGTON—Wierd creatures are the fashion on Barro Colorado, the Smithsonian Institution's tropical preserve in the Panama Canal Zone. For instance, there's the turkeylike curassow. In this family, the male should be boss; he has a roar that sounds "like a lion"—and the female is usually silent.

There is also a fruit-eating hawk known as "burja," the witch—a bird about the size of a raven whose back is coal-black. It has a white belly, red feet, and a greenish-yellow bill which sometimes is slightly blue at the tip. The name, however, is due less to its wierd appearance than to the almost continual "scolding" of other birds, or at any intruder into its retreat.

**Capitol Classic**

WASHINGTON—The 72 Ionic columns of the United States Treasury Building form one of the Capitol's classic sights. Each column measures 36 feet, nine inches in height, 12 feet, 6 3/4 inches in circumference, and weighs 35 tons. All were cut from single blocks of granite.

**Suez Passage Is More Difficult Than It Appears**

WASHINGTON—Passage through the almost straight, 100-mile-long Suez Canal looks easy to landlubbers.

Actually, moving traffic along this strategic waterway between the Mediterranean and Red Seas is a difficult job. How difficult it can be was hinted by the delicate maneuvers used recently to free ships marooned between Port Said and the blocked southern entrance.

Originally southbound, the trapped vessels faced unusual problems in turning around and avoiding obstructions caused by the late hostilities. But, even in normal times, skippers turn grey.

Maj. Gen. Glen E. Edgerton, retired army officer and the only American on the Suez Canal Company's international board of engineering advisors, recently wrote in a National Geographic Magazine article: "From the standpoint of the master accustomed to straight steaming in deep water, the most unnerving thing about a Suez transit is the sudden seeming insanity of his ship. The reason is the peculiar action of the water confined between narrow banks. . . . There are not only the ordinary currents to be reckoned with, but also the vagrant pressures built up by the ship herself."

An unchecked swerve from the current may mean trouble. If the ship is lucky, she will only "smell the bottom," barely touch where the channel begins to slope upward to the bank, but she may hit the bank and stick.

Any delay in transit is reported as an incident. In March 1956, when 1,397 ships went through, there were 114 incidents. Causes included bumping the banks, engine breakdowns and fog.

**Brazil Is Building New Inland Capital**

WASHINGTON—Brazil is building a new capital—expected to become a center of atomic power and air traffic as well as government.

In an almost uninhabited region of grassland and bush hundreds of miles from the heavily populated seacoast, construction has started on a "Presidential Palace," someday to be surrounded by a thriving city called Brasilia.

The present capital is Rio de Janeiro, a cosmopolitan city on the Atlantic. Travelers declare

Rio to be one of the world's most beautiful cities, but it is overcrowded and short of water and electricity. There is no way of enlarging it except to push more of its encircling mountains into the bay.

Moving the government nearer the center of the huge country has been a goal since 1789. Brazil's present Constitution declares that the capital shall be removed to the central plateau.

The site is in the State of Goias, some 600 miles northwest of Rio, and beyond any existing railroad.

**Industry Is Growing Faster Out West**

NEW YORK—In keeping with the trend of population and the growth of the country at large, industry is continuing to grow faster in the West than in the East, according to data being made public by the U. S. Bureau of the Census of its 1954 Census of Manufactures.

The figures show that manufacturing output west of the Mississippi increased 90 per cent on an over-all basis between 1947 and 1954 while the comparable figure for all the States east of the River was only 50 per cent. The National gain for the period was 57 per cent. Despite this trend, however, nearly two-thirds of American manufacturing still lies in the area east of the Mississippi and north of the Ohio River.

**Mexico's Burro Fades From Rural Scenes**

WASHINGTON—Mexico's faithful friend, the burro, is declining in numbers as machines take over more and more farm work.

The drowsy-eyed little beasts now total only about 2,500,000 compared with the many millions that once worked the Mexican land and carried the nation's burdens.

Until recent times, the patient burro symbolized the old Mexico as picturesquely as cactus, the guitar or sombrero. Few visitors traveled anywhere without seeing them.

Descendants of the small gray donkey of North Africa, burros came to the New World with the Spanish conquistadores.

**History Note**

LANSING, Mich.—In 1847, legislators wrangled for months in Detroit to choose Michigan's permanent capital. A prankster suggested "the township of Lansing," then a wilderness with a sawmill and one log house. To break the legislative deadlock, the tired lawmakers agreed.

To Offer Flight Training  
U. of I., Moscow — The University of Idaho has been named as one of 40 schools selected by the Department of the Army to offer aviation flight training to selected ROTC students, it was announced this week by Lt. Col. James A. Moore, professor of military science and tactics.

The course is limited to fourth-year ROTC students and will be under the direct supervision and administration of Lt. Col. Moore.

The purpose of the program is to encourage college ROTC students to seek a career in army aviation and to create a reserve pool of qualified pilots who may be utilized in the event of a national emergency.

The flight training, which will start at the university during the 1957-58 school year, will consist of 70 hours of instruction; one-half ground instruction and the other half in the air. The course is extra-curricular for those selected and will be held on the student's own time.

Instructors will be provided from civilian sources at the Pullman-Moscow airport. Those who complete the course will be qualified for a CAA private pilots license.

**"NO MAN ALONE IS WISE ENOUGH"**  
— (Author's Name Below) —  
One of the most important discoveries of this miracle age of new medicines is the right use of vitamins. Properly taken they are a blessing to mankind.  
But be cautious about claims made for their use by untrained door-to-door salesmen and stores that sell them under the name of food supplements. Compare the potency, prices and quality of the vitamins they sell with the reliable brands we pharmacists offer.  
Be wise. Ask your physician or pharmacist for the answer to your vitamin questions. We both are dedicated to consider your health more important than quick profits.  
YOUR PHYSICIAN CAN PHONE 941  
WHEN YOU NEED A MEDICINE  
Pick up your prescription if shopping near us, or let us deliver promptly without extra charge. A great many people entrust us with the responsibility of filling their prescriptions. May we compound yours?

**IN LIVING FULL LIVES**

**"Aim and Purpose"**  
 I am beginning a series on "Living Full Lives" which is designed to enlighten the reader on matters concerning religion and spiritual growth. As a Christian Minister, I feel it a responsibility and a pleasure to use this medium to help those needing weekly guidance who would not otherwise receive it.

The aim and purpose is to encourage people to seek spiritual growth on their own initiative, and through these weekly articles to help us all live better lives in the midst of conflicts. No criticisms will be made of different faiths, nor will the author deliberately infringe upon the beliefs of individuals. This newspaper and its staff shall not be held responsible for any ideas expressed in these articles, for such ideas are solely my own.

**THIS IS OUR STORY**

Compare these figures:

1936	1957
New car.....\$ 700.00	\$2,700.00
Coffee, lb......33	1.09
Eggs, dz......10	.50
Flour, 50 lbs.....1.29	4.79
Cafe dinner......50	1.25
Year's sub. to Gazette......2.00	3.00
Display adv. rate per col. inch......20	.30

We here at the Gazette are just a little proud of our part in the story told by the above figures, comparing the prices of now and twenty-one years ago.

While prices of many products have increased four times during the past 20 years, the Gazette subscription rate has only increased 33 1/2 percent. Our advertising rate, based on circulation is about the same as it was a decade ago. For, while the rate has increased by one-third, our circulation has also increased one-third, which means the advertising rate has kept pace with circulation. So it actually costs just about the same to reach a reader in the Gazette today as it did twenty years ago!

When we think of national publications, such as Colliers, Woman's Home Companion, Farm Journal and others; seemingly crammed with lucrative advertising, yet suspending publication because of prohibitive costs, it impresses upon us the loyal support we receive from our community of advertisers and subscribers. The weekly newspaper does compete really with a sort of phantom, by way of the fellow who comes from a distance to sell merchants brochures, dodgers and catalogues (called junk mail by the P. O. department). However, the medias simply take from and add nothing to the community and can hardly compare with the newspaper, which is the heart of every town, joining folks together through a common sense of communication.

The strength of the weekly newspaper is in the public service features which include boosting the schools, the P.-T. A., the Scout Drives, 4-H Club programs, the activities of the churches, clubs, granges and lodges, the Red Cross, March of Dimes, Cancer Society, and all other worthy causes. The Gazette is proud to be a part of all these community activities and in helping to make them a success. However, in all fairness we say the quality of a newspaper is dependent largely upon the quantity of advertising received. A newspaper will give the best possible publication consistent with good business. The Gazette has been fortunate to have the good support of the local merchants — of loyal correspondents — and the people of this area.

We urge our merchants to give every break in price and quality to the local customer — and we urge our people to shop at home! The successful and happy community is the one where the people are loyal to each other!

**Kite Flying Can Be Dangerous**  
 The Washington Water Power Co. this week urged all Latah county youngsters who enjoy flying kites in the brisk winds of spring "to get more fun out of the sport by observing a few simple safety rules."

V. S. Casebolt, Palouse division manager for the company, said the use of wire or string with metal thread in it for flying kites is a serious threat to the safety of anyone who uses it for such a purpose. "The best practice is to use plain cotton string or cord, and to stay well away from any electrical power line, and, of course, out of the street. But even ordinary string can become a conductor of electricity when wet or damp, and the use of rubber-soled shoes is no guarantee against completing an accidental circuit from the string to ground," Casebolt said.

If a child should be so unfortunate as to have his kite tangled in a power line, the WWP official said the electric company would be notified at once so that experts can be sent out to clear the line. Any string trailing from a kite tangled in electric service wires should be left untouched until a lineman can remove the danger.

"Nobody has been hurt by electricity from a power line while flying kites in this area since we can remember," Casebolt reports, "and I'm sure everybody wants to have it stay that way."  
 "WWP has formed a special Reddy Kilowatt Safety Club for all youngsters who promise to abide by the rules of electrical safety," he stated. "Membership cards and badges are free to interested youngsters through any WWP office," he said.

**Summer School Catalogs**  
 U. of I., Moscow — University of Idaho Summer School catalogs are now being mailed to prospective students who wish to attend the 44th term, Dean J. Frederick Weltzin, director, announced this week.

Decked in a cover depicting grasses of Idaho and a bird singing its summer song, the 40-page catalog provides information on courses and activities for the coming session, which begins June 17th and ends August 9th.

"The regular term is eight weeks and offers to the student a schedule of full-length semester courses at full credit," Dean Weltzin said. "For those who must limit their attendance to shorter periods, a number of short courses and workshops are available." Both graduate and undergraduate work is offered in Summer School courses in over 40 departments in five colleges of the university. Work in the field of education is particularly extensive as a large portion of summer school students are teachers or school administrators.

**To Present Play**  
 U. of I., Moscow — "Angel Street," a psychological drama revolving around a murder plot, will be presented by the University of Idaho drama department Friday and Saturday, March 29 and 30, in the University auditorium, Prof. Jean Collette, chairman of dramatics, announced this week.

Included in the play cast is Clifford Cook, son of Mr. and Mrs. Asa Cook, Juliaetta.

**LINDEN ITEMS**

Mrs. Marion Souders and son Jimmy visited Monday and Tuesday, March 18th and 19th with Mr. and Mrs. Marvin Garner at Riggins, they having accompanied Marion that far on his way to Gooding, where he visited his brother George, a patient in the TB hospital in that city. Mrs. Arley Allen stayed with the Souders children during their parents absence.

Art Costen left on Wednesday for a ten-day visit with Mr. and Mrs. Everett Kirkpatrick near Coulee Dam.

Mr. and Mrs. Harley Perryman and son Gene were Sunday dinner guests of Mr. and Mrs. Cecil Chamberlain on Big Bear ridge.

Mr. and Mrs. Ernest Grim drove to Portland, Oregon, Wednesday morning after receiving word that his brother, Roy Grim, had suffered a heart attack the evening before. They returned home Friday evening, reporting his brother as progressing satisfactorily toward recovery.

Mrs. Gil Erlingwe went to Boise on Friday, where she attended a meeting of the I. E. A.

Mr. and Mrs. Marion Souders and family were Sunday visitors in the home of Mr. and Mrs. Melvin Garner, Orofino.

Mr. and Mrs. Bob Grim have moved from Moscow to the Everett Weeks ranch above Pine Creek.

Alva Craig made a business trip to Marysville, Wash., the first of the week.

Joe Cuddy has returned to his studies at E. W. C. E., Cheney, Wash., after spending the spring vacation here at his home.

A. M. Blanford, Lapwai, and Cecil Dean, Big Bear ridge, were Sunday visitors in the Phil Bahr home.

Janice Grinolds was a Monday overnight guest of Darlene Chibber.

Mr. and Mrs. C. A. McAllister and family, Mr. and Mrs. Al Pederson and sons Doug and Jerry, and Mrs. Frank Lyons attended a Youth Rally at the U. B. church in Clarkston Sunday afternoon.

Danny Kechter returned home Friday from the Gritman Memorial hospital in Moscow, where he had been a pneumonia patient since Monday.

Mr. and Mrs. Allan Knoles and sons of Spokane were Sunday visitors in the home of Mr. and Mrs. Sylvester Konen.

Mrs. Harry Langdon, Lewiston, was an over-night guest one night last week in the Arley Allen home.

Mr. and Mrs. Adolph Denner and daughters and Mr. and Mrs. George Giese, all of Fix ridge, were Sunday dinner guests of Mr. and Mrs. Sam Weaver.

Mr. and Mrs. Arley Allen attended funeral services for Howard Nelson at Lewiston, Monday.

**GOLDEN RULE**

Mar. 26 — Mrs. Vina Thornton of Lewiston and daughter Evelyn visited at the Emil Beyers home Tuesday.

Mr. and Mrs. George Wilken and granddaughter, Susan Bowers Kendrick, visited at the George Finke home Tuesday, helping honor Mr. Finke's birthday anniversary. Alma Betts visited there in the evening.

Mr. and Mrs. George Finke took a cake and visited with the Alfred Swanson family Wednesday — to honor his birthday anniversary.

Mrs. Lyle Bashaw came up from Orofino to take her uncle, Loy Martin, to Dr. Christensen in Kendrick, Wednesday. Mr. Bashaw came up and took him again on Thursday. Mr. Martin has been quite ill with the flu, but is better at this time.

Mr. and Mrs. Chester Martin of Lewiston came up Friday to visit his parents, Mr. and Mrs. Roy Martin.

Mrs. Jack Kuykendall of Kendrick and Alma Betts accompanied Mrs. D. V. Kuykendall and son Jerry to Lewiston Friday afternoon, where the ladies attended a pink and blue shower in honor of Mrs. Gene Kuykendall. It was held at the home of Mrs. Stanley Kuykendall, with Mrs. Don Kuykendall as co-hostess.

Mr. and Mrs. D. V. Kuykendall enjoyed having all their children at home Sunday to spend the day. They were Mr. and Mrs. Gene Kuykendall, Mr. and Mrs. Kenneth Bonser and Mr. and Mrs. Pat Holiday. Congratulations to the Kuykendalls on their 36th wedding anniversary, which is Thursday, March 28th.

Mr. and Mrs. J. R. Crawford of Orofino were Sunday dinner guests of Alma Betts. The dinner honored Mrs. Crawford's 75th birthday anniversary.

**FAIRVIEW BRIEFS**

Mrs. Paul Dagefero returned home from Spokane Tuesday of this week, after she and their daughter Nina had visited in the home of Mr. and Mrs. Terrance Downey at Spokane, going up Thursday. They cared for Mrs. Dagefero's granddaughter while the Downeys were at Mt. Hood attending a ski tournament. Nina remained for a longer visit.

Mr. and Mrs. Leon Wolf stayed at the home of his parents, Mr. and Mrs. Leonard Wolf, doing chores, while they were away in southern Idaho visiting relatives.

Sunday dinner guests of Mr. and Mrs. Leon Wolf were her parents, Mr. and Mrs. Claude McGahn and family of Troy.

**NOTICE OF HEARING OF SCHOOL BUDGET**

Notice is hereby given that the Board of Trustees of Kendrick Joint School District No. 283 in Latah County, Idaho, have prepared a budget for said school District for the ensuing year, and that the same is available for public inspection in the office of Robert Meserve, Superintendent of Schools at the Kendrick High School.

Notice is further given that a public hearing will be held upon said budget by said Board of Trustees at the hour of 7:30 P. M., to 9:00 P. M., on Wednesday, April 10th, 1957, in the Kendrick High School Building.

at Kendrick, Idaho, in accordance with the provisions of Section 33-905 of the Idaho Code, as amended, which hearing any qualified elector of the District may attend.  
 Done by order of the Board of Trustees of said School District, this 18th day of March, 1957.

## HELLO, FOLKS:

Remember the old saying: "Never mind how old you are, it's how you feel that counts." Well the above can certainly be true of your car, pickup or truck. A spring tonic of Union gasolines, a thorough grease job and a crankcase filled with that wonderful Royal Triton Motor Oil will make your equipment "feel like a youngster." Just you bring it in today for proof.

Two soaks stood at the bar watching the approach of an old croup.

"I don't know what's happened to Jim lately," said one of them admiringly. "He's getting quite a spring in his stagger!"

Don't keep on running those winter tires. Come in and let us show you how cheaply you can ride

on those wonderful new U. S. Royals — in comfort — safety!

Arithmetic teacher: "If there are seven flies on your desk and you kill one, how many remain?"

Extra Bright Pupil: "One — the dead one."

Spring may be "just around the corner," but it's still too darn cold to do without a fire. Don't forget to pick up your telephone and call 1251 for Union Burner Oils — the fuel that gives you clean, hot, economical heat. One try will convince you.

Sailor: "I'm burning with love for you."

Cool Gal: "Oh, don't make a fuel of yourself."

Always travel "Union".

## WHAT CAMERON FOLKS ARE DOING THESE DAYS

Card Party  
Don't forget to come to the card party Friday evening, March 29, at the Cameron Hall. Proceeds go to the Red Cross. Play begins at 7:30.

Infant Baptized  
Bradley Scott, infant son of Mr. and Mrs. Don Millard of Kendrick, was baptized at the Cameron church Sunday morning by Rev. Meske.

Sponsors were Mrs. Aug. O. Wegner of Pullman; Mrs. Richard Holman of Pasco, and Norman Silflow.  
Luther League's Enjoy Party  
Rev. Meske took the members of the Luther League to Skateland in Lewiston Sunday afternoon — where all enjoyed a skating party.

Birthday Anniversary  
Mr. and Mrs. Glen Wegner honored her mother, Mrs. C. H. Fry, on her birthday anniversary last Wednesday evening, at dinner. Other guests were Mr. Fry, Mr. and Mrs. Aug. F. Wegner and sons Wayne and Vern, and Mr. and Mrs. Herb. Millard, the latter of Juliaetta.

On TV At Lewiston  
Linda Newman, daughter of Mr. and Mrs. Harry Newman, was on TV Monday evening. She had won a prize in a coloring contest. Congratulations Linda!

Attend Services At Pullman  
Mr. and Mrs. Glen Wegner attended church and baptismal services in Pullman Sunday, where Glen was a sponsor for the infant son of Mr. and Mrs. Eugene Wegner.

Council Meeting Scheduled  
This is a reminder that on Friday, March 29, there will be a "Council Officers Training Day" at the Clearwater Power Co. auditorium in Lewiston. It will last from 10:00 a. m. to 3:00 p. m.

Two men from Washington, D. C., are scheduled to speak, and should be very informative and interesting. The information gleaned here should help to iron out a lot of problems which at times plague the Council members.

One member each from the Southwick, Leland and Cameron Home Demonstration clubs is to attend. Anyone interested from Cameron please call your president.

General News  
Rev. Meske visited with Mr. and

Mrs. James Whiting and daughter last Thursday evening.

Mr. and Mrs. Weyen of Kendrick visited with Helen and Ted Mielke last Thursday evening.

Mr. and Mrs. Aug. Brammer spent Friday evening visiting with Mr. and Mrs. Fred Newman.

Sharon Lo: man was a house guest of Patty Corkill over the week-end.

Mr. and Mrs. Dallas Hepler were called to Lewiston recently to be with his uncle Bill King who is quite ill at the St. Joseph's hospital.

Mrs. Minnie Albright of Lewiston and Mr. and Mrs. Wilbert Brunsiek spent Monday with Mr. and Mrs. Albert Glenn and Mrs. Blum.

Mr. and Mrs. Dan Sullivan and family were Sunday dinner guests of her parents, Mr. and Mrs. Aug. F. Wegner.

Mr. and Mrs. Glen Wegner spent Monday evening visiting with Mr. and Mrs. Fred Newman.

Mr. and Mrs. John Blankenship and family were Sunday dinner guests of her parents, Mr. and Mrs. Gus Kruger, at Kendrick.

Mr. and Mrs. Fred Newman were Saturday dinner and all-day guests in the home of their son-in-law and daughter, Mr. and Mrs. Geo. Allen.

Mr. and Mrs. Aug. Brammer were Sunday guests of Mr. and Mrs. Otto Kruger.

Sunday dinner and supper guests in the home of Mr. and Mrs. Walter Denner on Fix ridge were Mr. and Mrs. Herbert Schwarz and Jo Ann, Mrs. John Schwarz and sons Lawrence and Ernest, Mrs. Ida Stoneburner and Emma Hartung.

Mr. and Mrs. Ted Freeman and son of Lewiston were supper and evening guests of Mr. and Mrs. John Blankenship, Sunday.

Mr. and Mrs. Gus Kruger of Kendrick spent Friday evening with Mr. and Mrs. Wilbert Brunsiek.

Patty Corkill was a Monday overnight guest of Sharon Lohman.

Mr. and Mrs. Aug. F. Wegner and Mr. and Mrs. Harl Whiting attended the Golden Wedding Anniversary of Mr. and Mrs. Jack Travis, at Kendrick, Sunday afternoon.

Herman Silflow visited with Mr. and Mrs. James Whiting and baby daughter Sunday afternoon.

Mr. and Mrs. Stanley Hepler and Donnie, Gary and Ronnie Lohman were Sunday dinner guests of Mr. and Mrs. Howard Plummer in Lewiston.

Mr. and Mrs. Henry Meske of Spokane spent Sunday evening with his brother and family, Rev. and Mrs. Theo Meske.

Rev. and Mrs. Paul Daneker of Lewiston were Monday dinner guests of Rev. and Mrs. Meske.

Mr. and Mrs. Bob Lingenfelter of Moscow spent Sunday with his brother-in-law and sister, Mr. and Mrs. Roy Silflow.

Mr. and Mrs. Roy Silflow and sons were Monday dinner guests of his parents, Mr. and Mrs. Otto Silflow, in Juliaetta.

Afternoon Circle Thursday  
The Afternoon Circle of the Kendrick W. S. C. S. will meet Thursday afternoon in the church basement with Mrs. Raleigh Albright as hostess.

All are reminded to bring articles of warm clothing which are being packed for "Warm Clothes for Hungarian Relief." This is a project undertaken by the Women's Society of the church — but not limited to members. In fact, anyone who might like to share in this worthy cause is asked to leave articles at the church or with Mrs. Howard Hoffman.

The deadline is April 1.

Home Next Month  
Word has been received by Mr. and Mrs. Leonard Wolf that their son, Lt. and Mrs. Howard Wolf, will leave the Orient April 9th for home, coming by ship. They should arrive here about May 12th.
