

**W. W. P. Changes Dist. Mgrs.**  
Ernest W. Hatch, Moscow district manager for the Washington Water Power Co., has been appointed manager of the utility's Lewiston division, it was announced last week by George Brunzell, WWP vice president.

An electrical engineering graduate of the University of Idaho, Hatch joined WWP in 1939 as a residential commercial representative at Colfax, becoming commercial representative in 1941. In the following year he took leave of absence for service with the navy,

rejoining the company in 1945 as commercial representative in the Palouse division and later in the Lewiston division.

He was transferred to Spokane in 1947 as industrial engineer and later promoted to the company's Moscow district office in June of 1953, where he took an active part in Moscow civic affairs, including the Chamber of Commerce, Latah County Fair, Boy Scout and other activities.

With his new appointment to become effective June 10, Hatch will succeed Albert Gruber, who has been

named technical research analyst for the company in Spokane.

John B. Murray, Spokane Division plant engineer for WWP, has been appointed manager of the company's Moscow office, it was announced last week by V. S. Casebolt, Palouse Division manager for the company.

Murray graduated from W. S. C. in 1947 with a B. S. in electrical engineering. He joined WWP in that year as a groundman at Spokane, becoming Division Distribution Engineer in 1949. In 1950 he was promoted to assistant division plant superintendent of the Lewiston division, and in 1955 promoted to division plant engineer and transferred to Spokane.

The new Moscow district manager was born in Spokane and is a graduate of Lewis & Clark high school. He later entered the U. S. army and enrolled at W. S. C. following his discharge. He is married and has two daughters.

His appointment will take effect on June 5th.

Get that lunch meat at Blewett's Grocery-Market, Kendrick. A good selection, always. 1-adv

**Gunshot Injuries Down Slightly**  
Thirty-six hunters were injured in gun accidents in Idaho during 1956, one less than in 1955, the Idaho Fish and Game department reported this week.

Ross Leonard, director, said analysis of the record for the past four years shows a strong similarity in pattern for all except 1955. He pointed out that a steady increase in injuries is not reflected in the reported fatalities, and probably indicates better reporting rather than any actual increase in accidents. "We also notice more very minor accidents are now being reported than appeared in previous years," he added. Fatalities, of course, have been completely reported throughout the period.

The 1956 record shows 27 persons injured and nine killed in gun accidents while on hunting trips, as compared with 22 and 15 in 1955 (the non-typical year); 20 and 11 in 1954 and 19 and 12 in 1953. Again, accidental discharge of weapons was responsible for the majority of the accidents, as it has been each year except for 1955, when there was an even three-way split between acci-

dental discharge, mistaken for game, and other causes. In 1956 the score was 22 due to accidental discharge; five to "mistaken for game" and nine to other or uncertain causes.

Exactly half of this year's victims were youths under 20 years of age, most of them being hurt either by themselves or by other juveniles. In the three previous years, adults suffered slightly more than half of the accidents reported. Twenty-two caliber guns caused a third of the 1956 accidents, as they have done every year except 1955, when they caused only three.

Shotgun accidents were up last year and caused 12 of the accidents, figuring in somewhat fewer during the previous year. Big game rifles, which caused 25 of the 1955 accidents, figured in only 12 last year, the lowest proportion for this type of weapon during the period covered by the record, Leonard said.

"In general, the record last year looks better than for the three previous years," Leonard commented. "There was a smaller proportion of true hunting accidents, with many of the mishaps actually due to non-game species or handling accessory guns while on hunting trips. It is amply demonstrated again that the forgotten load and the uncontrolled muzzle are the chief cause of hunting accidents in Idaho."

### Savings Becoming Part of Average American Budget

**NEW YORK**—With all the intensified competition for the consumer's spending money and the steadily growing take of the tax collector, American people have been giving saving a little more room in their budgets over the past year, a reversal of the two preceding years.

Contributing to this development has been one of the most widespread efforts to stimulate personal thrift that the nation has ever seen. Seldom except in wartime has the need for increased saving been more widely recognized than now, nor has its practice received a greater encouragement. An added inducement has been provided by a noticeably improved reward for thrift in the form of higher interest rates, better dividends on savings, etc.

As a result, preliminary indications in figures compiled by the U. S. Department of Commerce are that 1956 was the first \$20 billion savings year since the World War II period, when a combination of shortages, rising personal incomes, and patriotism brought the biggest personal savings the nation has ever seen. The indicated savings total for 1956 is about a fifth greater than the \$16.6 billions of personal savings in 1955. The previous peak for the period since the end of World War II was \$19.7 billions in 1953. The all-time high was \$36.9 billions in 1944.

This development on the thrift front is the more significant in view of the need for greater saving to meet the rising capital requirements of our expanding economy, and to help counteract the strength and persistence of inflationary pressures which have pushed the cost of living to new high levels.

### Predict 1957 to Be Top Business Year

**LOS ANGELES** — Two factors will make 1957 a record year for business.

One is the current high volume of business expenditure for new plant and equipment. The other is the rising trend of government spending.

This is the consensus prediction of 19 faculty members of the UCLA Graduate School of Business Administration, each of whom drew on knowledge of his personal specialty in preparing the forecast.

As a group, the participating faculty members foresee a gross national product reaching 429 billion dollars, some 16 billion over the previous record established in 1956.

Here's what the forecasters see ahead for the coming year:

1. Consumer spending will reach new highs due to increased incomes.
2. Industrial production will make new records. Automobile production will increase to 6,500,000 units, 12 per cent over 1956.
3. Residential construction, which declined by 200,000 units in 1956, will decrease another 100,000 units in 1957.
4. Both wholesale and consumer prices will be higher in the year ahead. Most current price increases reflect rising production costs—notably wages.

### Early Cowboys Were 'Brush Poppers'

**NORMAN, Okla.** — Today the brush thickets of Texas are still in evidence, and wild cattle still hide in them, but the riotous pursuit of longhorns must be sought in the memoirs of cowhands of another day.

Perhaps the best of them all, says J. Frank Dobie, himself a "brush popper" of long standing as well as the recognized dean of Texas letters, was James H. Cook, author of "Fifty Years on the Old Frontier."

Roping the outlaw cattle demanded a technique far removed from that of the plain cowboys. The brush popper knew he would never catch a cow by looking for a soft entrance into the thicket; therefore, he hit it center, hit it flat, hit it on the run, and tore a hole in it. The brush popper had to be a rider good enough to travel all over his horse, or the whipping thickets would have torn him to pieces. If he could not afford gloves, his skin paid the price. "It is cheaper to grow skin than buy it anyway," said Cook.

### Wise Children

**MUNICH**—An annual pageant is held in Dinkelsbuhli, in German Bavaria, to honor the children who saved the town from destruction by a Swedish conqueror in 1632. As the story goes, one of the children reminded the conqueror of his own son who had died shortly before and the conqueror then ordered his soldiers not to loot and burn the town.

**More hill-climbing power...  
New Chevron Gasolines**

Highest octane gasolines Standard ever made! More power for the grades, more pep for the straightaway... they're yours when you use:

**ESTATE OF EMELINE INGLE, DECEASED**  
Notice is hereby given by the undersigned, executor of the estate of Emeline Ingle, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with the necessary vouchers within four (4) months after May 16, 1957, the first publication of this notice, to the said executor, at the office of Charles J. Kibben, Title Building, Moscow, Idaho, the same being the place for the transaction of the business of said estate, in Latah County, State of Idaho.

**JERRY J. INGLE, Executor**  
Dated at Moscow, Idaho, this 14th day of May, 1957.  
First pub. May 16, 1957.  
Last pub. June 13, 1957.

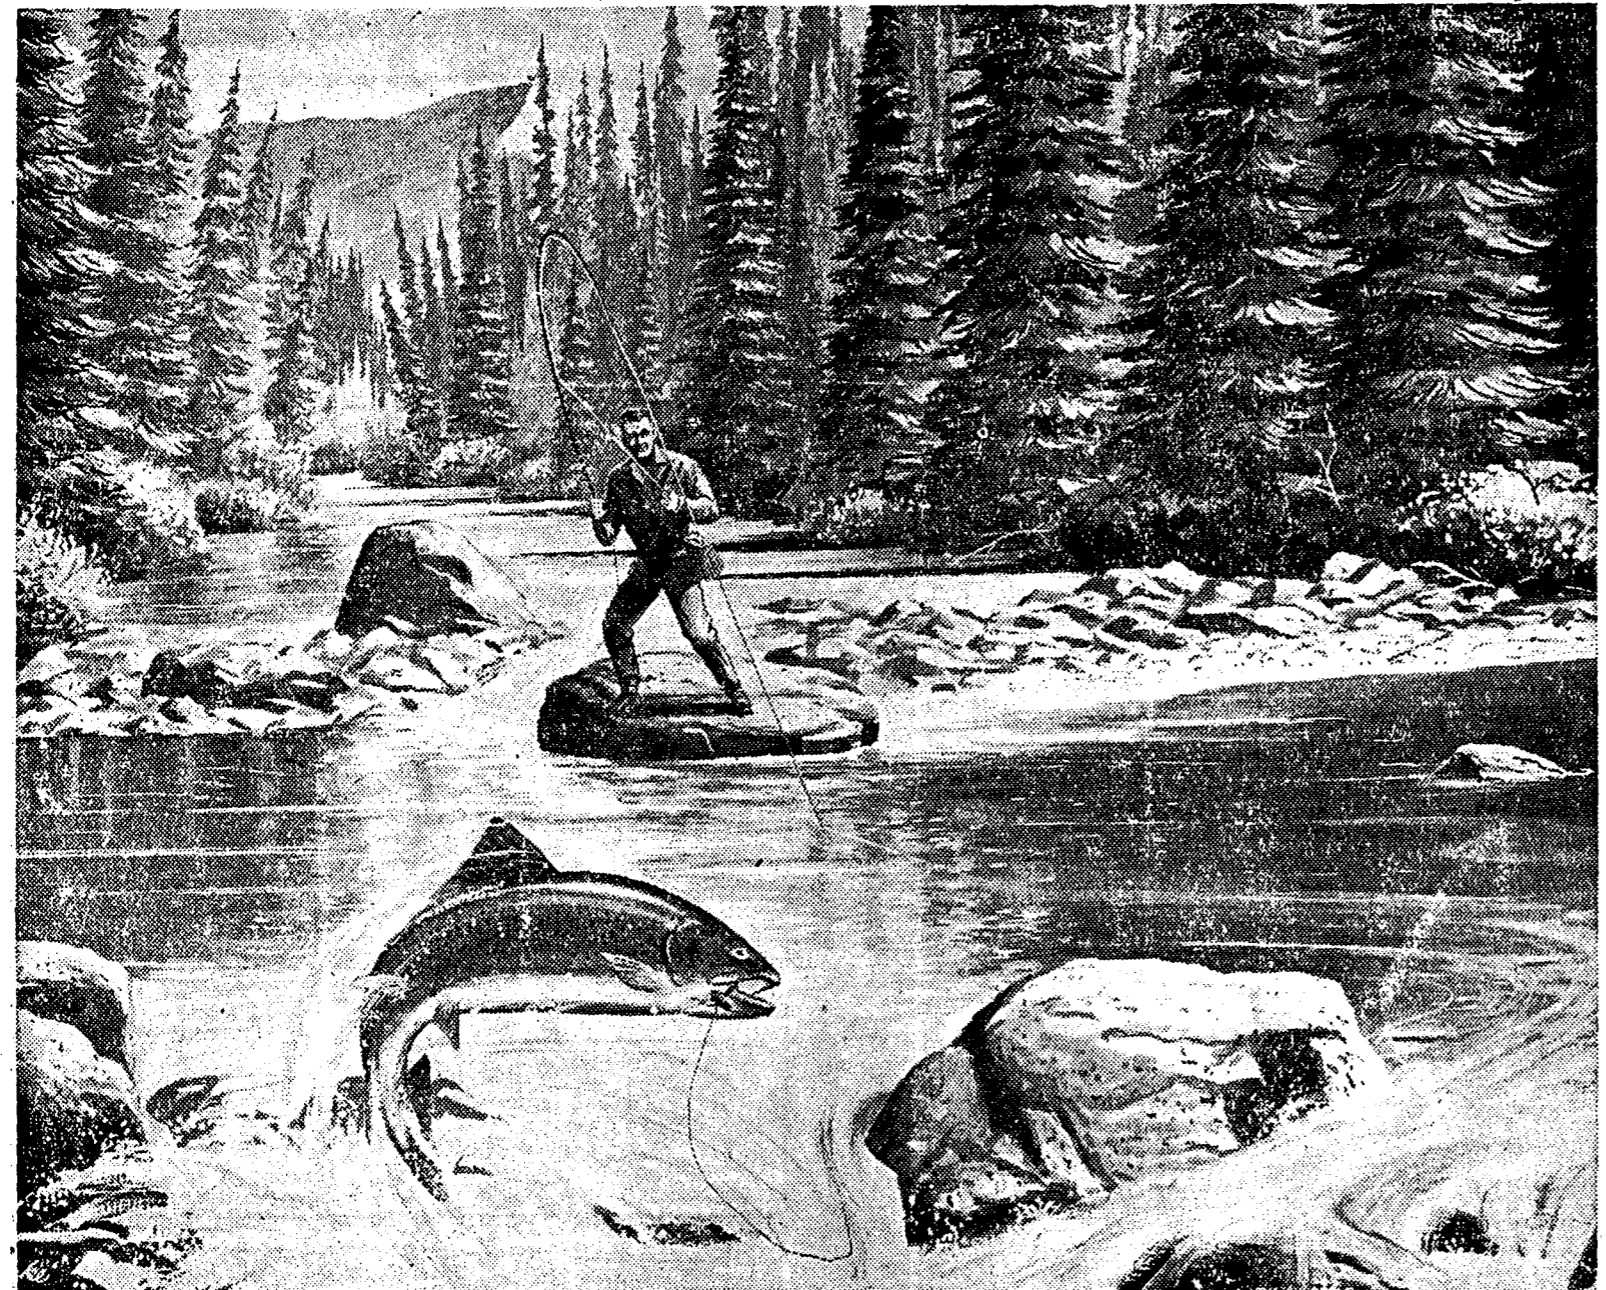

#### NOTICE OF ANNUAL SCHOOL MEETING AND ELECTION

In Kendrick Joint School District No. 283, Latah County, Idaho

**NOTICE IS HEREBY GIVEN,** That the annual school meeting of School District No. 283, County of Latah, State of Idaho, will be held on Saturday, the 25th day of May, 1957, at the Kendrick High School school house and the Juliaetta School house in said District, and the polls at said election shall be open between the hours of 1:00 o'clock P. M. to 5:00 o'clock P. M. on said day.

That at said meeting the following business will be transacted:

1. One Trustee to serve for a term of 3 years will be elected from trustee district No. 2 (Kendrick).
  2. One Trustee to serve for a term of 3 years will be elected from trustee district No. 1 (Juliaetta-American Ridge).
- The name or names of all candidates for election of Trustee, together with the term for which nominated, shall be placed on file with the Clerk of the Board of Trustees at least six (6) days prior to the day of election, excluding the day of election.
- That the election at said meeting will be secret and separate ballot. Electors residing in Trustee District No. 2, will vote at the Kendrick School house and electors residing in Trustee District No. 1, will vote at the Juliaetta School house.
- Dated this 6th day of May, 1957.
- A. O. KANIKKEBERG,**  
Clerk of Kendrick Joint School District No. 283 of Latah County, Idaho.  
First pub. May 9, 1957.  
Last pub. May 23, 1957.

### It will be fun to fish in 2000 A. D.

Fishing was enjoyed by our forefathers, is enjoyed by us, and will be enjoyed for generations to come. That's why the practice of good forest management, conservation and wise use of our natural resources today is so important. Proper logging methods provide watersheds to prevent uncontrolled spring run-off. Logging methods employed by Potlatch provide roads that give ready access to better recreational areas. You are welcome to use PFI's access roads except when such roads are closed by the state for fire prevention. With good forest management helping to provide proper watersheds, maintaining better stream levels and adding new access roads, we can assure ourselves good fishing in 2000 A. D.

## Hypnosis May Solve Special Anesthetic Needs

CHICAGO — Hypnosis, not now recommended for general use as an anesthetic, may solve some special anesthetic problems, according to three Dallas researchers who have used it in several unusual cases.

They reported using hypnosis for delivery of a baby when the mother was a polio victim, for a dental procedure in a woman sensitive to chemical anesthetics, and in three other special cases. They reported their cases in the Journal of the American Medical Association.

They said they have been investigating hypnosis for anesthesia for three years, and have found it useful under these special conditions:

1) when a chemical anesthetic or depressants may be dangerous because of respiratory or heart disease; 2) when a patient is sensitive to regular chemical agents; 3) when repeated use of anesthetics weakens a patient who is already physically disturbed; 4) among patients whose fear of general anesthesia is so great it presents serious risks; 5) when the cooperation of the patient may be needed during surgery; and 6) when the procedure may be so lengthy that the general anesthesia may be too weakening.

Use of hypnosis presented no difficulty in the delivery of a pregnant woman suffering polio, or in several dental procedures, lasting about two hours each—in a woman who suffered swelling of the face and body, hives, and nausea from general anesthesia.

## Bows Were Better Than Early Musket

WASHINGTON — The American Revolution might have been fought — on the side of the colonies — with bows and arrows.

They still were better weapons, in some respects, than the available muskets of the day—as emphasized by Benjamin Franklin in a 1776 letter to Gen. Charles Lee, who then was engaged in fortifying the port of New York:

"These were good weapons, not lightly laid aside: Because a man may shoot as truly with a bow as with a common musket. He can discharge four arrows in the time

of charging and discharging one bullet. His object is not taken from his view by the smoke of his own side. A flight of arrows seen coming upon them terrifies and disturbs the enemies attention to their business. An arrow striking in any part of a man puts him hors-du-bombat till it is extracted. Bows and arrows are more easily provided everywhere than muskets and ammunition."

This is cited by Col. Berkeley R. Lewis, of the Frankfort Arsenal, Philadelphia, in a comprehensive treatise on small arms and ammunition, especially as used in the United States military service.

## Marble Games Sure Sign of True Spring

WASHINGTON—It hardly seems like spring until small fry knuckle down to a game of ringer.

This, of course, is the traditional game played with marbles. Depending on local jargon, the player takes a highly prized shooter, law, glassie, or stoney to knock common marbles—commies, mibs, or ducks—from the ring. Knuckles must touch the ground.

Time obscures the origin of marbles. Youngsters in ancient Egypt, Greece, and Rome tawed just as purposefully as today's boys and girls in T-shirts and blue jeans. The Latin expression *relinquere nuce—in effect*, "putting away childish things"—probably refers to a form of marbles that Roman children played with nuts.

In years gone by, the small spheres of many colors have been made of many substances: marble chips (hence the game's name); alabaster (alleys); prettily banded agate (aggies); painted and glazed clay (clayeyes); and colored glass.

## Exhibit Tells Story Of Early Telephones

WASHINGTON—An exhibit telling the story of the telephone has been opened at the Smithsonian Institution.

Planned by the staff of the Institution and Bell Telephone Laboratories, the exhibit was presented by the telephone industries of the United States. Beginning with the "Galvanic music" with which Charles G. Page of Massachusetts started the learned world in 1837 the story is carried through the most recent applications to telephony of electronic devices.

## Hawaiian Anthem

HONOLULU—Hawaii, though a territory of the United States, has its own national anthem, a stately melody entitled "Hawaii Panoi" (My Own Hawaii).

## Nebuchadnezzar Might Have Been Bit Overrated

PHILADELPHIA—History may have overrated King Nebuchadnezzar of New Babylon. He is generally regarded as one of the ancient masters of pillage and war—but he also knew stalemate, defeat and rebellion.

Nebuchadnezzar may not have been as invincible as we think. J. Philip Hyatt suggests in the Journal of Biblical Literature. Though he was beyond doubt both an able general and a war-loving king, Nebuchadnezzar must have had a harder time of it than scholars have assumed.

Hyatt, professor of Old Testament at Vanderbilt University, bases this revised estimate on a newly available set of Babylonian records. For years, five cuneiform tablets lay in the British Museum, receiving little careful study. In 1956, four of the five were published by J. D. Wiseman.

The tablets have thrown "a great flood of new light" on the reign of King Nebuchadnezzar (605-561 B. C.) and the last days of Judah, Hyatt declares. With gaps, the tablets cover the period 627-555 B. C.

Nebuchadnezzar was once actually defeated by the Egyptians, or at least fought to a standstill. In 601 Nebuchadnezzar took his forces southward toward Egypt. As Hyatt translates, "The King of Egypt mustered his army . . . in open battle they inflicted great destruction upon one another . . . the king of Akkad (Nebuchadnezzar) and his army turned around, and went back to Babylon."

## Suggests Treating Addicts Medically

SAN FRANCISCO—Narcotic addiction should be treated medically rather than punitively, according to Dr. Karl M. Bowman, professor of psychiatry, emeritus, at the University of California Medical Center here.

While illegal selling of narcotics should be vigorously prosecuted, addiction in itself should be regarded as a medical problem and not a crime. Dr. Bowman recently told the American Psychopathological Association. He praised the British system of narcotic control, under which addicts are encouraged to seek medical treatment,

and where if their physicians deem it necessary, are given prescriptions for sustaining doses of narcotics.

Opium derivatives and their synthetic substitutes do not produce criminal behavior, the psychiatrist said; rather, they quiet addict and suppress aggressive and sexual impulses. Addicts may, however, commit crimes to obtain drugs. Such crimes, as well as the illicit narcotic trade itself, could be largely discouraged by overhauling the narcotic control laws, Dr. Bowman believes. "It now seems time," he said, "to turn to the medical approach as it is being used for alcoholism."

## Code System for Doctor's Diagnosis

CHICAGO—You may think you have poison ivy and your doctor may even tell you that you do, but when he records his diagnosis, he will call it "dermatitis venenata." What you call "athlete's Foot" he'll call "dermatophytosis." And his secretary will simply file it as "112-211."

This may look like a method for confusing the patient and making a mystery of something simple, but it isn't. The patient isn't the only one who has been confused by terminology; so have the doctors. Calling athlete's foot "112-211" is one result of years of effort to give them a common language.

It's called the Standard Nomenclature of Disease and Operations, now used by more than 85 per cent of American hospitals, and in wide foreign distribution.

## Things to Know in Book of Superlatives

NEW YORK—In case it slipped your memory the largest drum in the world measures over 25 feet in circumference and is towed by a tractor, and the oldest bell in the world is reported to be some 3,000 years old. And the best selling songs are "Till We Meet Again" and "Let Me Call You Sweetheart" and the people of the United Kingdom go to the movies more often than the fans in any other country. These and thousands of other facts are found in "The Guinness Book of Superlatives" which has sold over 150,000 copies in the United Kingdom.

Visible Far WASHINGTON—The stone likenesses of George Washington, Thomas Jefferson, Theodore Roosevelt, and Abraham Lincoln atop Mount Rushmore in the Black Hills of South Dakota can be seen for 60 miles.

## HELLO, FOLKS:

It's said there is nothing new under the sun — but we take issue with that. We have something new we want to GIVE YOU — FREE. Guess what it is: Map — picture postcard — picture? No! It's a Fishing Lure! Come in and get one. Make your choice while we are filling the tank on your car, truck or pickup! Yes — we'll say it again! IT'S FREE!!

Boss: "Jones, I understand that you've been going over my head." Jones (meekly): "Nt that I know of, sir." Boss: "Isn't it true that you've been praying for a raise?"

Yes, we know, it don't look much like fishing now — but when you see the lures we are giving away you'll get "steamed up a

bit more about the sport. Come in and ask about them!

During evening devotions in a boys' summer camp, a counselor was startled to hear this prayer from a 12-year-old:

"O God, we thank Thee for every blessing. We are grateful for the birds and the bees and the flowers — they mean so much to those who teach us about them. Amen!"

Thinking of going on a trip while waiting for the ground to dry up enough for spring work? If so, bring in that car and let us service it from end to end with those famous Union Products — including Royal Trilon Motor Oil! Then you'll be set — and safe!

Yes, we stock chains, mud and snow tires, anti-freeze, etc.

### WHAT CAMERON FOLKS ARE DOING THESE DAYS

#### Ladies Aid Changes Date

The Cameron Ladies Aid met with a small group present last Wednesday at the hall. Mrs. Homer Parks and Mrs. Geo. Wilken were hostesses, and served a delicious dinner at noon. It was decided to hold an all-day meeting May 29th instead of June 5th. The next meeting will be a business one — so everyone attend.

#### Daughter Honored On Birthday

Mr. and Mrs. Glen Wegner honored their daughter Jillian last Thursday evening with a dinner, having as guests Mr. and Mrs. Aug. F. Wegner and sons, Mr. and Mrs. C. H. Fry, Mr. and Mrs. Herb Millard, Rev. and Mrs. Theo Meske and family, Paloma Peters and Ida Glenn.

#### General News

Mr. and Mrs. Ernest Brammer and Jolene were the supper and evening guests in the home of Mr. and Mrs. Kenneth Wilke, Tuesday.

Mr. and Mrs. Chas. Hoffman were Tuesday evening luncheon guests of Mr. and Mrs. Harl Whittinger.

Ervin Lohman and sons Gary and Ronnie were visitors in Missoula, Mont. for a few days last week.

Mr. and Mrs. Glen Wegner and family were recent supper and evening guests of Mr. and Mrs. Ted Weyen and family.

Mr. and Mrs. Ted Weyen spent last Thursday evening with Mr. and Mrs. Wilbur Tarbet and family.

Mr. and Mrs. Harl Whittinger and Mr. and Mrs. Weyen were Sunday dinner guests of Mr. and Mrs. Bob Draper at Leland.

Mrs. Fred Newman and Mrs. Wally Newman, members of the Cameron Home Demonstration Club, attended a Leadership Training meeting at Lewiston, Wednesday.

Mr. and Mrs. Henry Wendt returned home Monday evening, after spending the week-end at Kettle Falls, Wash., with their son-in-law and daughter, Mr. and Mrs. Frank Harbert and sons.

Mr. and Mrs. Glen Wegner and family were Friday evening supper guests in the home of Mr. and Mrs. Eugene Wegner, Pullman.

Mr. and Mrs. Wilbert Brunstiek were Sunday dinner guests of Mr. and Mrs. Albert Glenn and Mrs. Blum.

Mr. and Mrs. Ted Weyen and family spent Friday evening with Mr. and Mrs. Willard Schoeffler.

Mr. and Mrs. Wilbur Tarbet and Ruthie were Saturday evening visitors in the home of Mr. and Mrs.

Glen Wegner. Mr. and Mrs. Wilbert Brunstiek spent Monday with Mr. and Mrs. Gus Kruger in Kendrick.

Mr. and Mrs. Don Cantril and Sandra were Saturday evening supper guests of Mr. and Mrs. Ted Weyen and family.

Mr. and Mrs. Dan Sullivan and family of Cream ridge were Sunday dinner guests of her parents, Mr. and Mrs. Aug. F. Wegner.

Mrs. Albert Glenn and son Eldon were Lewiston visitors, Thursday.

Mr. and Mrs. Ed. Mielke and Patricia, Mr. and Mrs. Chas. Parks and Ted Mielke spent Sunday with Mr. and Mrs. L. S. LaHatt in Pomeroy.

Mr. and Mrs. Geo. Allen and family were Saturday evening supper guests of her parents, Mr. and Mrs. Fred Newman.

Mr. and Mrs. Ernest Brammer and Jolene visited with Mr. and Mrs. Roy Silflow and sons Saturday evening.

Mr. and Mrs. Ervin Draper and family were supper guests of Mr. and Mrs. Glen Wegner, Monday evening.

Mr. and Mrs. Glen Wegner and daughter Janis, and Helen Mielke were Sunday dinner guests of Mr. and Mrs. Fred Newman, Mr. and Mrs. Wally Newman and Mikey were supper guests that evening.

Ernest and Lawrence Schwarz attended the Baccalaureate Services in Genesee, Sunday evening.

Mr. and Mrs. Don Cantril were Sunday afternoon and supper guests of Mr. and Mrs. Glen Wegner.

Mrs. Glen Wegner and Mrs. Don Cantril attended the Graduation Exercises at Lapwai, Sunday evening. Mrs. Wegner's niece was a member of the class.

Ida Stoneburner and Emma Hartung spent Sunday with their sister, Mrs. John Schwarz.

Helen Mielke and Mrs. Fred Newman visited with Mrs. Hattie Johnson at the Geo. Wilken home in Kendrick Monday afternoon.

Mr. and Mrs. Ernest Brammer and Jolene spent Sunday afternoon with Mr. and Mrs. Walter Koepf and family.

Mr. and Mrs. John Blankenship and family attended the "Home Show" in Lewiston Sunday afternoon. That evening they visited with Mr. and Mrs. Reinhard Wilken and family.

Mrs. John Blankenship attended a Council meeting in Lewiston last Friday.

#### Vacation Church School Scheduled

Vacation Church (Bible) School at the Kendrick Community Church will begin on June 3rd. Hours will be from 9:00 to 11:30 a. m. It will close on June 14th.

Classes will be held for all children who will be four years old this summer — up to and including 6th grade pupils.

Your children are cordially invited to attend.

#### Purchased Gertje House

Mr. and Mrs. John Deobald last week purchased the Ed. Gertje home on the school house hill. The Deobalds have been residing there for over a year.

The consideration was not made public.
