

PERSONALS AND NEWS BITS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Don Millard and baby and Mrs. Elwood Pearson, all of Lewiston, were week-end guests of Mr. and Mrs. Walter Silflow. All called on Floyd Millard Sunday afternoon.

Mrs. Walter McCall returned Friday from Richmond, Calif., where she visited her father, Carl Hartung, and other relatives. She was away two weeks, also stopping in Portland to visit her brother, Carl Hartung, Jr., and family.

Mr. and Mrs. Alan Medalen and children of Orofino came over Sunday to visit his parents, Mr. and Mrs. Oscar Medalen, all went to Lewiston that day and were dinner guests of Mr. and Mrs. Jerry Harris. Later in the day all enjoyed a boat ride.

Mr. and Mrs. Jack Kuykendall drove to Ritzville last week-end to visit her daughter and family, Mr. and Mrs. Orville Preston and sons. There they met Mrs. Kuykendall's brother-in-law and sister, Mr. and Mrs. H. M. Harell and son Hobert, Jr., of San Angelo, Texas, who accompanied them here to visit in the Kuykendall home until Wednesday.

Mrs. Geo. Wilken accompanied Mr. and Mrs. Herman Meyer to Spokane last Thursday to hear some missionaries speak at St. Paul's Lutheran Church. Mrs. Geo. Havens was also a member of the party.

Mr. and Mrs. Reuben Stephenson of Burns Lake, B. C., were house guests Thursday through Saturday in the home of his niece, Mr. and Mrs. H. C. Schupfer. The Stephensons came here from Clarkston where they had been visiting his sisters, Mrs. Norris Walker and Mrs. Archie Daventport.

Mr. and Mrs. Melvin Procnier of Troy were guests Saturday in the home of Mr. and Mrs. H. C. Schupfer. Mrs. Ida Pemberton came up from Irrigon, Oregon, with Mrs. Allen Fraser and children Monday. They came to attend the funeral of D. M. Fraser, Tuesday.

Dr. and Mrs. D. A. Christensen and Patsy Cuddy drove to Tekoa Sunday to spend the day with Mr. and Mrs. Douglas Christensen and daughter.

Roger Christensen and Leland Slind left Monday morning to spend the week fishing at Kelly Fork — after spending the summer working with the state forestry brush crew.

Mr. and Mrs. Ronald Thrall and two children of Lewiston have taken one of the Blewett apartments, moving in last week-end. He is employed by Loyd Farrington.

Mr. and Mrs. Milford Osborn and family moved from the Bamberry house on the school house hill to Juliaetta last week-end. They have rented a home owned by Mr. and Mrs. A. Cook.

Mr. and Mrs. Ed. Brown and Mr. and Mrs. Don Brown and children were Sunday guests of Mr. and Mrs. Don Jensen and family in Moscow.

Mr. and Mrs. Louis Mao and daughter Rosalie of Frist River spent the week-end here visiting her brother and family, Mr. and Mrs. Marion Rowden.

Leaving to resume their studies at the College of Idaho in Caldwell last week were Gerald Heffel on Wednesday; Jim Armitage on Friday and Glen Wegner on Sunday. Gerald, who is manager for the football team, had to go a little early, and his mother drove him down.

Mr. and Mrs. Herman Eberhardt of Lewiston were Friday evening supper guests of Mr. and Mrs. Paul Lind.

Mr. and Mrs. Bennie E. Cook and son spent this week here at the home of his parents, Mr. and Mrs. Ben P. Cook, while he is employed as relief operator at the N. P. depot.

Mrs. Geo. C. Eggers accompanied Mrs. Fred Crowser and granddaughter Geraldine Marner of Gifford to Moses Lake to visit Mr. and Mrs. Glen Eggers and the Harvey Adams family Saturday over Monday. Both are former residents here. They drove on to Wenatchee to get packages.

Billy Bamberry of Focatello spent several days of last week here visiting his parents, Mr. and Mrs. Wm. Bamberry.

Mr. and Mrs. Ig. Flaig of Coeur d'Alene were week-end guests in the home of her mother, Mrs. Estella Leith.

Mr. and Mrs. Arthur Fraser of Lewiston were Tuesday guests in the home of his parents, Mr. and Mrs. Everett Fraser.

Mr. and Mrs. Ben Westendahl and family and Mr. and Mrs. Lawrence Heimgartner and family spent the week-end at Red River Hot Springs.

Mr. and Mrs. Milford Blewett and sons of Gifford were Sunday dinner guests of Mr. and Mrs. Ben P. Cook.

Mrs. Dennis Racicot, Juliaetta, and Mrs. Ben Westendahl attended a District P-T. A. conference in Lewiston Tuesday.

Mrs. Howard Vognild of Everett, Wash., is visiting in the home of Mrs. Johanna Nelson for a few weeks.

Soil Conservation Winners

Akron, Ohio — Idaho's champion soil conservation district for 1956-57 and two individuals selected for their outstanding work in soil and water conservation were named here this week by Goodyear Tire & Rubber Co., sponsors of a national soil conservation awards program.

First place district honors for the state go to Latah district.

Walfrid L. Lundquist of Rt. 3, Moscow, was named by the Latah district governing body as the outstanding farmer-cooperator.

Nominated by the winning district to receive the governing body individual member awards is Eugene Thompson of Rt. 1, Moscow.

Lundquist and Thompson will be guests of the program sponsor or a vacation trip to Wigwam guest resort and Goodyear Farms, Litchfield Park, Arizona, next November, as part of the grand award.

Latah district and the individual winners also will be presented bronze plaques symbolic of their achievements. Presentation of the plaques usually is made at the annual meeting of the state association of soil conservation districts.

Get those fresh frozen fruits at toast nor breakfast. See Blewett's Grocery-Market, Kendrick.

IDAHO SCHOOLS FACING AN ACUTE TEACHER SHORTAGE

Boise — Idaho school administrators report teaching vacancies, unfilled on August 26, of 61 teaching positions — enough to staff a school system enrolling approximately 2,000 pupils. The report is based upon a 90 percent return of a questionnaire sent out by the Idaho Superintendents' Association, a department of the Idaho Education Association. The survey included only districts which maintain high schools. Projected shortage on the basis of a 100 percent report and including non-high school districts would undoubtedly bring the total to 75 or more.

Thirty-one of the 105 districts operating high schools reported their staffs still incomplete as of August 26. Twenty-three districts, most of them rather small, had not replied to the questionnaire at the time the tabulations were made. Fifty-two districts reported their staffs complete on the reporting date. Reporting districts employ about 90 percent of the public school teachers.

The survey disclosed that 916 former teachers have left their 1956-57 positions; 1,015 teachers newly employed; 61 teachers being sought, and a probable total increase, if vacancies can be filled, of 150 public school teachers over the number employed the preceding year.

An aggregate of 27 teaching positions were reported to have been eliminated in eight districts. Eliminations were effected by closure of some small schools and discontinuance of some subjects.

Seventeen districts reported the discontinuance of school subjects. Some reported having dropped more than one subject. Music courses were dropped in seven schools. Driver training, foreign languages, shop, industrial arts, home economics, art, physical education and health courses were listed among the discontinued subjects. Most of the discontinuance was because teachers could not be found.

New Housing Development At U

U. of I., Moscow — The University of Idaho's new \$550,000 family housing development was open for public inspection at an open house from 2:00 to 4:00 p. m., Sunday, Sept. 8.

Located off Third Street next to the city recreation park, the eight-building, 64-family development has been called one of the most modern of its type in the nation.

"The development represents the latest thinking of architects for buildings of this type," Cornish said.

Financed through revenue bonds, the buildings will be paid off on a 30-year basis through rentals. The architects were Jones, Lovegren, Helms & Jones of Seattle. General contractor for the project was John Thomas, Moscow.

Open for inspection were four apartments, each with a varied decoration scheme. All of the apartments are furnished with a bed, sofa bed, coffee table, two lounge chairs, dining table and chairs and kitchen appliances. Several built-ins make use of space in the form of large wardrobe closets with sliding doors, book cases and storage drawers.

All of the new apartments have been spoken for, Cornish said. The rapid rental of the apartments points up that the buildings were designed to meet the growing needs of a growing university in a more permanent way.

Higher educational institutions were faced with the married student housing problem for the first time following World War II, Cornish said. Service men heading for the nation's campuses needed housing for their families. To meet the emergency at Idaho, 100 surplus trailers were placed in the same area, where the new and first permanent student family housing development stands today.

With the new addition, the total available units under family housing will rise to 290.

A total of 668 students last year — about 20 percent of the student body — were married. Just prior to World War II, there may have been about 50 married students attending classes at the University.

Students will pay \$70 per month rent in the new units. This includes heat, water, hot water, sanitation service, and furniture — from the carpet on the bedroom floor to the drapes hanging at the windows. The only additional charge will be for electricity.

A modern heating system has been installed for the eight buildings. University heating facilities are utilized, and through heat exchangers, water is warmed and sent through radiators in each of the apartments. A series of automatic controls will regulate the heat. One of the regulators is attached to an outside wall to evaluate the temperature outside and transmit its findings to a series of controls which regulate the heat to the individual buildings.

We Can Believe It
The department of agriculture reports that U. S. consumers spent an average of \$419 for food per person in 1956, compared with \$336 seven years ago. Yeah, but look at the difference in the purchasing power of the dollar!

Psychologists say no person should trip to keep too much to himself. The Bureau of Internal Revenue is of the same opinion.

Big Game Tags And Report

Showing this year's big game tag and report card unit is Mrs. Fay Whitson, Idaho Fish and Game department license clerk. On the desk is a sheet of the units as furnished to vendors. Each unit includes a detachable paper tag with snap lock, a postage-paid report card and instructions for use.

Vendors should detach the units carefully to make sure they keep

corresponding tags and cards together, as tags must be left attached to cards until kill is made. Units may be folded for convenience, if the perforations are not broken prematurely. As with other lock tags, the snap lock is made for one-time operation, and must not be "tested". The department warns that "the first snap is the last."

Hunters are asked to mark and mail the report card promptly.

GOLDEN RULE

Sept. 10 — Mr. and Mrs. Jack Kuykendall of Kendrick, and her sister, who is visiting her, from Texas, called at the D. V. Kuykendall home Tuesday evening.

Mr. and Mrs. Cecil Choate called at the Alma Betts home Tuesday evening.

Mrs. George Finke visited her sister, Mrs. Elmer Souders, and called at the Alfred Swanson home Wednesday. On Thursday she visited with Alma Betts.

Loy Martin spent Thursday and Thursday night in Orofino.

Mrs. George Finke and Alma Betts called on Mrs. D. V. Kuykendall Friday.

Mr. and Mrs. Bud Adamson visited her father, Fred Stage, Saturday afternoon.

Mrs. D. V. Kuykendall and son Jerry were Lewiston shoppers on Saturday, also attending the rodeo while there.

The Cavendish Women's Society of Christian Service will meet Tuesday, Sept. 17, at the home of Mrs. Marshall Campbell in Orofino.

Mrs. Gloria Wilson and sons and David Watson spent the week-end at the George Finke home. Mr. and Mrs. Dick Watson were Sunday visitors and took them all back to Kendrick. The Kenneth Wilken family of Cameron were also Sunday visitors.

Mrs. D. V. Kuykendall and Mrs. George Finke accompanied Alma Betts to Orofino Sunday afternoon, where they visited at the Don Christensen home, and inspected the construction of the new home the Christensens are building.

The Oscar Lawrence family are in the process of moving to Lewiston. Albert Lawrence will operate the farm.

Alma Betts called at the Frank LeBaron and Jess Daniels homes on Monday.

Mr. and Mrs. John Lettenmaier and family joined with relatives and friends at a picnic in Spalding park Sunday in honor of his mother, Mrs. Cora Lettenmaier.

Glen Carpenter of Clarkston spent Wednesday afternoon at the Russell Perkins home.

Mrs. Russell Perkins and Mrs. Den-

zil Kuykendall visited Monday evening at the Leo Choate home in Teakcan, making plans for the Fair at Orofino.

Wayne Davis of American ridge was a business caller in Southwick Sunday evening.

Miss Dorothy Harding Guest
The Woman's Society of Christian Service will be hostess to Miss Dorothy Harding, a full time Christian Worker in the Home Missionary field. She has recently traveled in Europe, including Russia, and has slides of her travels.

The W. S. C. S. will be happy to have you as their guest Sept. 12, at 2:00, in the Kendrick Community Church, to hear Miss Harding.

This is the first fall meeting of the W. S. C. S. and all members are urged to be present. Hostesses are Mrs. Hiram Galloway and Mrs. John Johnson.

Pot-Luck Dinner Scheduled
A pot-luck dinner will be held at the Bethany Lutheran Church on Big Bear ridge, Sunday evening, Sept. 15, to which you are cordially invited.

Following the dinner pictures will be shown by Julius Nordby of Lewiston, taken on his tour of the Holy Land.

CARD OF THANKS
We wish to express our sincere thanks to all our friends for their assistance and sympathy during the time of our bereavement. — The D. M. Fraser Family. 37-1

Housewife Keeps Busy Corresponding With 20,000 Women

TOLEDO, Ohio—How would you like to keep up a regular correspondence with 20,000 women you've never seen?

That's regular routine for a Toledo woman who deals with 20,000 American homemakers serving as "consultants" for her husband's market research firm. The woman is Mrs. Howard Trumbull, vice president of National Family Opinion, Inc., which has its headquarters in downtown Toledo and an office in New York City. She's "Mrs. Trumbull" to the firm and "Clara" to her husband who founded the business 10 years ago, but to homemakers in Council Bluffs, Iowa; Craig, Colo.; Blue Mound, Ill.; Los Angeles, Chicago, Miami, Brooklyn, and thousands of other communities across the country, she's "Carol Adams."

She's the woman to whom homemakers speak their minds confidentially about packages they don't like, a new jelly that someone plans to place on the market, an improved sewing machine, and many other products. The "consultants" are not paid, Mrs. Trumbull explains, but seem to find a special kind of pleasure in being able to tell American business firms what they like and, very often, dislike about their products.

Because Mrs. Trumbull, via her "Carol Adams" pen name, can speak to homemakers on a chat, informal level, get "straight from the shoulder" opinions about products before they are placed on the market, and guarantee her consultants that they will remain anonymous, National Family Opinion has no difficulty obtaining information it asks in behalf of its clients.

Dinosaurs Once Dominated Earth

WASHINGTON—Dinosaurs were the dominant animals on earth for approximately 130,000,000 years. Man and his more or less human-like forerunners have been here, at the most, less than 2 million years, and all human history covers a maximum of little more than 10,000 years. The earliest mammal like creatures date back hardly more than 150 million years.

The story of this long supremacy of a race of extinct reptiles, which first appeared 200,000,000 years ago and persisted to the dawn of the age of mammals about 70,000,000 years ago, is told by Dr. David H. Dunkle, of the Smithsonian Institution's Division of Vertebrate Paleontology, in a 24-page illustrated booklet published by the Institution.

These reptiles, whose nearest extant relatives are the vastly different birds and crocodiles, included the largest creatures ever to inhabit the land. Some of them, however, were no bigger than chickens. During their long tenure of existence they underwent fantastic variations. Many walked upright on their hind legs. Some got about on all four legs. Some developed heavy suits of bony armor.

U. S. Pays 80 Billions To States, Individuals

NEW YORK—The Federal Government has paid a total of \$80½ billions to States as grants-in-aid and to individuals in the States over the 23-year period from 1934 to 1956, inclusive, according to a study recently made public by the Congressional Joint Committee on Reduction of Nonessential Federal Expenditures, of which Senator Harry F. Byrd is chairman. Some 60 per cent of this total, adding up to \$49½ billions, went to individuals, with payments to States and local units making up the balance. Veterans were the leading recipients in the individual sector, receiving an aggregate of \$16½ billions in the 1934-56 period. A total of more than 125 programs were involved in these payments. In general, the trend of these outlays has been up except for veterans, who received their biggest payments from the Federal Government in the 1948-52 period.

British to Give Extra Pay to Cut-Off Soldiers

LONDON—The British Government recently announced that military men who lose their jobs through the streamlining of the armed forces would be given going-away grants as high as \$16,800. The amounts vary with rank and length of service, the figure above representing the amount that would go to colonels with 15 years' service.

All the grants would be tax free and in addition to normal retirement pay and terminal grants previously paid.

Britain plans to slash its armed forces from 690,000 men to 375,000 men within the next five years.

Respiratory Ills Common Ailment For Ice Cap Team

CHICAGO — A physician who spent 100 days isolated on the Greenland Ice Cap with five other scientists says respiratory ailments were the most common medical problems and aspirin the most frequently used medication. The most interesting case occurred after 40 days of isolation, Dr. Robert W. Christie said.

The expedition leader developed an influenza-like illness three days after the group received an air drop of supplies. The disease apparently was transmitted by the man's personal mail, since all the other materials dropped were handled by the other men, none of whom became ill. There was no evidence of other means of contracting the disease.

In 1955 the scientists traveled almost 1,200 miles (400 miles through unexplored regions) and collected data in the fields of glaciology, geophysics, bacteriology, physiology and mechanical engineering. The temperatures ranged between 31 F and -31 F and the altitude ranged to 12,000 feet.

During the 100 days there were 61 medical visits. None of the diseases were serious and most were treated with relatively common drugs. The ailments included sinusitis, sore throat, common cold, bloody nose, stomach upsets, muscle strain, ingrown toenail, burns, cold sores, headache, motion sickness, frostbite, snow blindness and back strain.

The drugs used included aspirin for headaches and muscle and joint pains; phenylephrine hydrochloride for sinusitis, paregoric for diarrhea, salt water gargle for sore throat; cod liver oil ointment for burns and frostbite, and various antibiotics and sedatives.

New Hunt Is On For Grizzly Bear

BERKELEY, Cal. — A grizzly bear hunt is under way in California for the first time in many years.

Of course the California grizzly has been extinct over 30 years—and these hunters aren't carrying guns—but Drs. Loye Miller and Seth Benson are hunting for specimens of the giant bear, whether they are bear-skin rugs or trophies over the mantlepiece.

Although possessors of old grizzly relics may not realize it, stated the scientists, a well preserved California grizzly specimen is an important zoological find. In spite of the large number of these animals which roamed California in recent times, very few of the giant bears are available for study today.

The zoologists, who recently received a finely preserved grizzly skull some 50 to 100 years old, said parts of less than 70 California grizzlies are known in museums throughout the world now.

Grizzly bears, which once existed over a considerable portion of western North America, are now confined to Montana, Wyoming, and Idaho and parts of Canada, Alaska, and Mexico. The last California grizzly to be seen alive was observed in Sequoia National Park in 1924.

Few Hundred Survivors Of Famous Longhorns

WASHINGTON—The ornery longhorn that built the American cattle kingdom has finally become a national pet.

Sixty years ago, cowboys still roped and branded these bad-tempered, money-making bovines. Now visitors come to gaze at a few hundred survivors of the breed grazing in private paddocks, game refuges and zoos.

Among the longhorn's distant ancestors were Spanish cattle introduced into Texas in 1690. Early Lone Star ranchers collected hodgepodge herds liberally laced with this hot Spanish blood. Gradually the longhorn developed.

Big-boned and narrow-hipped, cows weighed 1,600 pounds and came in a variety of drab colors, none particularly beautiful. Horns sometimes stretched eight feet from tip to tip, with dagger-sharp points.

Judge Rules That Poker Is Not 'Game of Chance'

BUENOS AIRES—Poker is not a game of chance, an Argentine judge has ruled.

Dr. Jose Maria Ragucci so ruled in ordering freedom for several members of an athletic club who had been arrested on gambling charges.

Said Judge Ragucci: "The fact that the skill of a player and a technique in eliminating a good deal of the improbable are important factors, and the calculating abilities of the players is a preponderant element of the game, eliminates it from those known as games of chance."

Definitions
Poise: The ability to keep talking while somebody else picks up the check.
Shoulder Strap: A device that keeps an attraction from becoming a sensation.
Diplomat: One who can so tactfully tell you to go to hell that you look forward to the trip.
Vacation: A period during which you discover where not to go next year.

More Truth Than Poetry
One local auto dealer says that prices haven't really risen. The car that sold for \$1,100 sixteen years ago can still be purchased for that price. — Lydon (Wash.) Tribune.

Come in and see our INTERNATIONAL Truck
"POWR-LOK" Test!

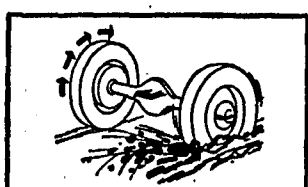

It's next best to having traction power
 on all four wheels—and the cost is so low!

POWR-LOK is an ingenious new differential that gives power to the rear wheel that has the most traction.

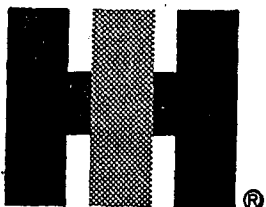

With POWR-LOK you pull through mud holes, loose sand, other slippery places that would normally stop a truck with standard differential.

So don't spin your wheels. Be sure your next truck is an INTERNATIONAL with POWR-LOK differential. Come in and see our convincing test, first chance you get.

How POWR-LOK Works
 With a conventional differential, power goes to the wheel with the least traction. This results in a loss of power—and you're stuck. But with POWR-LOK, power goes to the wheel with the most traction. So long as either wheel can catch hold, you keep moving.

NOW! Only \$35⁰⁰
 Factory-installed on a New INTERNATIONAL Truck. Federal and local taxes additional.

INTERNATIONAL TRUCKS cost least to own!

Farm Social Security
 Lewiston — A majority of farmers expect to depend on their farm investment as the important source of income in old-age. Moreover, most farmers plan to continue living on the farm after retirement. The problem in many cases, is how to keep a farm in the family. Many farms have passed from father to son, or to another near relative through several generations. This is a tradition of American farm life which still pre-

vails in most sections of the nation. Often this objective is achieved by entering into a partnership arrangement. Such an arrangement will maintain or establish the social security insurance covered status of both members of the partnership.

Many partnership arrangements are possible. In all cases, if the parties actually enter into a bona-fide partnership agreement and operate in conformity with the agreement, each is a self-employed farmer for social security purposes. Whether the farming operation is a partnership for social security purposes must be determined from all the factors involved, and no single feature of the general partnership test is controlling.

Complete information is available from Marlow V. Wootton, 307 Weisgerber Bldg., Lewiston.

Painters at Work Year Round Keeping Big Bridges Shiny

WASHINGTON — Drivers crossing the Golden Gate Bridge in San Francisco and the George Washington Bridge in New York are accustomed to seeing painters welding their brushes daily at some point on these two magnificent models of architectural magic. Rain or shine, fog or high wind, painting crews work on the bridges eight hours a day, five days a week, fifty-two weeks a year. When the weather is not good for work outside, they turn their skill to the hundreds of small cells in the towers, or to the inside struts, I-beams and hold-downs—all of which must have regular coatings of weather-resistant paint to keep the steel in perfect condition.

The George Washington Bridge—six years older than the somewhat longer San Francisco span—marked its twenty-fifth anniversary last fall. There was little birthday celebrating, however, since the bridge, in typical work-a-day mood, carried some 100,000 automobiles—not counting buses and trucks—across the mighty Hudson which it so gracefully spans.

Bridge authorities, in their determination to use the very best paints available, conduct constant research to determine what type coating is most suitable for each purpose. In the case of the Golden Gate Bridge, over 1,500 samples of paint have been tested since the span first went into construction in 1933. These tests determine which coatings will best stand up to heavy fog, rain and hot sun over the years. The tests are carried on systematically on a weight block on the San Francisco side of the bridge, where rain, wind, fog, salt water and heat of the sun show up the damage they can do to paint.

Eight Died From Rabies During 1956

CHICAGO — Eight Americans died from rabies in 1956, according to a consultant for the Journal of the American Medical Association.

In addition, one other death was attributed to rabies, but was not confirmed by autopsy.

Four of the confirmed deaths were reported to the National

Office of Vital Statistics as occurring in Dallas, Texas, in January, June, July and October. The victims were a man aged 63, two boys aged 3 and 12, and a girl aged 12.

The other deaths occurred in Austin, Texas, in a man 39; Mobile County, Ala., in a woman 26; Lake County, Indiana, in a woman 70, and Santa Fe, N. M., in a girl 7.

Rabies, a virus disease, is acquired through the bite of a rabid animal, usually a dog or a cat. Cows, foxes, skunks, bats and other animals also are known to carry the disease. Vaccination of household pets is the best means of stopping the spread of the disease.

Tomato Tests Explore Blood Pressure Problems

LOS ANGELES—"Hot" tomatoes are being used to explore problems related to high blood pressure.

Dr. Irving Zabin, physiological chemist at UCLA medical school is using radioactive tomatoes (the garden variety) to study certain chemical structures similar to those found in cholesterol, the fatty substance in the body thought to be related to high blood pressure.

The center of interest is the substance that makes tomatoes red, a carotenoid pigment. This substance contains a multiple of five carbon structure, which is also found in cholesterol.

Dr. Zabin is tracing the formation of tomato red pigment. Compounds containing radioactive carbon are injected into tiny holes drilled into the green tomatoes, and the holes are sealed with paraffin. When the tomato ripens, the red pigment is extracted and analyzed to see how the radioactive carbon atoms are incorporated in the chemical structure.

Band Plays on Nightly—To an Empty House

WASHINGTON—A dance orchestra played at the Casino Royal for a whole week, but no one danced.

A business agent for a federation of musicians explained it this way:

The club management wanted to close the night spot for repairs a week before the orchestra's contract was to expire. The union insisted the club make good its end of the contract. So the orchestra was ordered by the club manager to report nightly throughout the week, dressed in white dinner jackets, and play to the empty house.

Club Manager Leon Zeiger was not available for comment.

STONY POINT NEWS

Sept. 9 — Glen and Jim McKay, Russell Ditson and Ernest Foster of Athens, Oregon, delivered a load of heavy logging equipment to the Steigers ranch at Weippe and were Sunday (Sept. 1) supper guests of Mrs. Ernest Steigers here at Stony Point.

Mrs. Mortin Pichelman was a Saturday afternoon caller in the Ernest Steigers home last week.
Mr. and Mrs. Keith Steigers were Sunday (Sept. 1) supper guests of Mrs. Ernest Steigers. They took their two small sons, Tommy and Terry home with them. The boys had stayed with their grandmother a week while their mother underwent a tonsillectomy. Mr. and Mrs. David Steigers and son were also supper guests of Mrs. Steigers that evening.

Mrs. Helena Brown from Boehls Cabin and her son, Don Brown, who is employed at Camp X spent the Labor Day holidays here. Carol Brown is staying with her aunt, Mrs. Ernest Steigers, and beginning her senior year at Lapwai High school.

Wednesday, Aug. 28th Mr. and Mrs. John Stevens of Los Angeles arrived by train to spend two weeks with his sons and their families here.

Wednesday evening supper guests of Mr. and Mrs. Glen Stevens and family were Mr. and Mrs. John Stevens, Mr. and Mrs. Fred Baumgartner and daughter Dorothy, Marilyn Baumgartner and Don Hoffman, all of Genesee.

Mrs. Cletis Hoisington and Mrs. Marion Stevens attended a baby shower for Mrs. Frank Hoisington on Big Bear ridge, Thursday afternoon, Sept. 5th.

Mr. and Mrs. Glen Stevens and family and Mr. and Mrs. John Stevens visited in the Wm. Hecht home at Juliaetta Thursday evening.

Mr. and Mrs. Harvey Fairfield visited in the Marion and Glen Stevens homes Saturday afternoon and evening.

Mr. and Mrs. Clifford Powell of Spalding and Mr. and Mrs. John Stevens of Los Angeles were Saturday supper guests in the Glen Stevens home. This was a wedding anniversary for Mr. and Mrs. Powell and also for Mr. and Mrs. Glen Stevens.

Mr. and Mrs. Bill Hecht, Mr. and Mrs. R. W. Fairfield, Mr. and Mrs. John Stevens and Mr. and Mrs. Glen Stevens and family were Sunday (Sept. 1st) dinner guests of Mr. and Mrs. Marion Stevens and family.
Mrs. Robert Foss and children visited Sunday with Mr. and Mrs. Albert Heimgartner.

Mr. and Mrs. John Maund and Michael moved Sunday to their new home in Juliaetta.

Mrs. Nevt. Heath visited Tuesday, and Wednesday with her husband, who is herding cattle in the Elk River area.

The Friendship Club plans to meet for the first time this fall, Sept. 28th, with Mrs. George Stedman acting as hostess.

Mr. and Mrs. John Stevens and Mr. and Mrs. Marion Stevens visited Leonard Fairfield on Big Bear ridge, Thursday.

The Sew and Rip 4-H Club met Saturday afternoon at the home of one of their leaders, Mrs. Callie Ankey, for the last meeting of the year. Nearly all the members have completed their work and plan to exhibit at the Nez Perce County Fair this week.

The sudden death of Mrs. Bob Burns, step-mother of Mrs. Floyd Heimgartner, called Mr. and Mrs. Heimgartner to Orofino Wednesday, where they visited her father. The funeral was held in Orofino Friday morning.

Mr. and Mrs. Floyd Heimgartner and family were Saturday supper guests in the home of her brother, Mr. and Mrs. Bob Burns and family of Culesac. Mrs. Terry Bryant of Spokane returned home with them to stay over-night.

Mr. and Mrs. Earl Parks of Spokane spent the week-end with Mr. and Mrs. Hugh Parks.

Mr. and Mrs. Eldon Heimgartner and family visited Mrs. Lucille Hartung in Pullman, Sunday.

Most Life Policy Benefits Go to Widows, Children

Reflecting the basic use of life insurance in family financial planning, wives, children and other relatives appear to be the directly named beneficiaries in more than 80 percent of all life policy death claims, the Institute of Life Insurance says. This is indicated by an Institute analysis of one month's claims in the United States.

Applied to the year's probable total of death claims, the one month's distribution would indicate that this year, wives, children and relatives will be beneficiaries of some 1,200,000 life insurance policies, with total benefits about \$1,400,000,000. Wives and children alone would account for \$1,225,000,000. In addition, they will receive a considerable share of the 7 percent of claims and 14 percent of benefit payments which go to estates and other beneficiaries, excepting husbands.

Husbands were shown to be beneficiaries in 11 percent of the policies, although they received only 4 percent of aggregate benefits, reflecting the smaller average size of policies owned by women.

The month's claim analysis also revealed that, while the majority of death claims were paid on policies which had been in force a number of years, there was a large number in the early life of policies, even in the first year. Although great care is taken in selecting applicants, with those to whom policies are issued being in apparent relatively good health, nearly 5 percent of policies becoming death claims were found to be less than a year old. This would indicate that this year there will be some 70,000 death claims within a year of issuance of policies, with nearly \$100,000,000 involved.
Nearly one-sixth of all claims were shown to be under policies less than five years old. Almost 40 percent of the claims and just over 40 percent of the amount of benefits paid were under policies in force 20 years or more.

Preventive Measures Urged As Safeguard Against Stroke

The best way to avoid a stroke, third among leading causes of death in this country, is to recognize its possibility and make physical readjustments that may help to stave it off.

In the absence of serious systemic diseases such as diabetes and syphilis, there is not much chance of the average person having a stroke before 45 years of age, according to Dr. William Bolton, associate editor of the magazine, Today's Health. But, virtually everyone past middle age is a possible candidate. The following precautions were recommended.

1. Obtain prompt, active treatment of systemic diseases.
2. Do not become or remain overweight.
3. Watch blood pressure that tends to become high.
4. Obtain regular physical check-ups.

"Strokes vary from widespread, devastating ones that bludgeon their victims into oblivion to tiny ones producing such vague, indefinite signs that they often escape immediate detection," he said. "The basic cause in both extremes is identical: escape of blood into the brain tissue. The amount of bleeding and its location near to or far from vital centers or important nerve pathways are the chief factors that determine severity in strokes."

"Not all strokes are the result of direct escape of fluid from blood vessels into brain tissue. Some physicians lean strongly to the belief that temporary spasm in a blood vessel may be a common cause.

"Another fairly common event is formation of a clot within one or more of the tiny arteries in the brain.

"There is increased possibility of stroke in certain diseases."

Tough Case

Recognizing the fact that portable movie projectors are often carried into all sorts of climates and that they must withstand the hard knocks incident to travel, the manufacturer of one such machine has devised a special carrying case that is able to "take it." Built of birch and basswood, high frequency radio waves are used to set the adhesive that binds the panels so they can never pull apart. The case is then dipped in a synthetic resin sealer that checks decay and minimizes moisture absorption. It is then primed, sanded, and painted with a spatter finish. Allowed to cure for three weeks, the finish is hard and durable. Even after years of intensive service, it does not become brittle or chip away from the wood.

Pre-War Army

Six months before World War II began, the Army contained 29 infantry and cavalry divisions at nearly full strength, totaling more than 450,000 officers and men, plus an armored force of four divisions with a total strength of 40,000 troops. The Army history, "Washington Command Post: The Operations Division," credits mobilization of the National Guard and induction under the Selective Service Act for this rapid expansion of strength.

Kendrick Gazette

THE Bull itin

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, FOLKS:

Yep, these chilly mornings remind us that "Fall is just around the corner," and the season is at hand when a little heat is needed in the morning and evening in your home. Are you ready? Is your fuel oil tank full? If not, just pick up the phone and call us at 1251 — and say: "Fill 'er up." We'll do the rest — with Union products, of course.

Two salesmen were talking: "You know," one said, "I made some very valuable contacts today."

The second one nodded: "I didn't make any sales, either."

Getting ready to go hunting? If so bring that car, pickup or truck in for a "winterizing job." Let us fill the radiator with Prestone;

mount your winter tires — or perhaps sell you a set of those famous U. S. Royal Mud and Snow tires, change the motor oil to a winter grade, and grease the chassis, it's better to be safe than sorry.

A visitor from another country was asked what he thought about Americans.

"Funny people, you Americans," he answered. "You take a glass. You put sugar in your drink to make it sweet and lemon to make it sour; you put in gin to warm you up and ice to keep you cool. Then you say: 'Here's to you' and drink it yourself. Funny people," he concluded, shaking his head.

There are no better products than Union. Try them.

WHAT CAMERON FOLKS HAVE BEEN DOING THE PAST WEEK

Ladies Aid Meeting
The Cameron Ladies Aid held their first business meeting last Wednesday after the summer vacation — with 14 ladies present. The afternoon was spent in tying out a comfort, and in discussing business.

It was decided to have the annual bazaar and supper on October 23rd. Hostesses for the afternoon were Mrs. Ted Weyen and Mrs. Reinhard Wilken, who served delightful refreshments at the close of the meeting.

Family Vacationing In California
Mr. and Mrs. Aug. Brammer left last Thursday to spend a month with their son and daughter-in-law, Mr. and Mrs. Harold Brammer and family at San Jose, Calif.

Honors Father's Birthday
Mr. and Mrs. Walter Koepf honored her father, Roy Ramey, on his birthday anniversary last Thursday evening, with a birthday supper.

Present besides the guests of honor, Mr. and Mrs. Roy Ramey, were Mr. and Mrs. Ernest Brammer and daughter Jolene.

Celebrates Birthday
Last Sunday a group of relatives and friends spent the day helping Mrs. John Schwarz celebrate her birthday anniversary. Some were dinner guests, and other afternoon callers.

Those helping celebrate the occasion included Mr. and Mrs. Walter Denner and family, Mr. and Mrs. Tom Denner and family, Mrs. Geo. Denner and Mrs. Eleanor Denner, Mielke, Mr. and Mrs. Herbert all of Fix ridge; Helen and Ted Schwarz and JoAnn, Mrs. Ida Stoneburner, Emma Hartung and Mrs. Fred Newman.

General News
Mr. and Mrs. Wilbur Corkill and son Larry spent last Friday evening visiting with Mr. and Mrs. Walter Koepf and family.

Mr. and Mrs. Stanley Hepler left Monday morning for the Selway, where they will spend a few days fishing and relaxing.

Glen Wegner, Jr., left Sunday for Caldwell, Idaho, where he will attend the College of Idaho for his second term.

Mr. and Mrs. Jack Travis of Kendrick and Mr. and Mrs. James Whitinger and Janis were Sunday dinner guests of Mr. and Mrs. Earl Whitinger.

Mr. and Mrs. Dave Clayton and family, Mr. and Mrs. Elmo Eldridge and family, Kendrick, and Mr. and Mrs. Chas. Parks and baby of Juliaetta were Sunday dinner guests of Mr. and Mrs. Ed. Mielke.

Mr. and Mrs. Harry Newman and family spent Sunday with her mother, Mrs. Hagley, in Juliaetta.

Mr. and Mrs. Ed. Mielke and Ted Mielke visited with her parents, Mr. and Mrs. L. S. LaHatt, in Pomeroy, Monday.

Patricia Mielke spent the week-end with her brother-in-law and sister, Mr. and Mrs. Chas. Parks in Juliaetta.

Mr. and Mrs. Wilbert Brunstiek were Sunday dinner guests of Mr. and Mrs. Albert Glenn and Mrs. A. H. Blum.

Mr. and Mrs. Gus Kruger of Kendrick spent Friday evening with Mr. and Mrs. Wilbert Brunstiek.

Mr. and Mrs. Albert Glenn and Mr. and Mrs. Wilbert Brunstiek were Lewiston shoppers on Monday.

Mrs. Clay Albright of Lewiston, and Mr. and Mrs. Wilbert Brunstiek were Tuesday evening supper guests of Mr. and Mrs. Albert Glenn and Mrs. Blum.

Mr. and Mrs. Ervin Lohman visited with Otto Rauschke, who is a patient at the St. Joseph's hospital in Lewiston, Sunday evening.

Ronnie Lohman has gone with a group of friends to Buffalo Hump to spend a few days on a fishing trip.

Gary and Sharron Lohman attended the Rodeo in Lewiston Sunday afternoon.

Mr. and Mrs. Ernest Brammer and Jolene were Pullman visitors Sunday afternoon.

LINDEN ITEMS
Russell Ellison, Spokane, was a Thursday over-night guest in the Arley Allen home.

Mr. and Mrs. Gil Erlwine were Sunday afternoon visitors of Mrs. Dave Gentry, Kendrick.

Sunday dinner guests of Mr. and Mrs. Arley Allen were Mr. and Mrs. Earl Langdon of Los Angeles, Calif., and Mr. and Mrs. Edgar Bohn, Kendrick.

Jack Sherman, Juliaetta, was a Sunday over-night guest of Skippy Chillberg.

Mr. and Mrs. Jack Waltz and three children, Dennis, Judy and Timmy of Walla Walla, spent Sunday in the home of Mr. and Mrs. Lester Weaver.

Mr. and Mrs. Bill Zimmerman and family were Saturday over-night guests of Mr. and Mrs. Charlie Zimmerman, and Sunday visitors in the home of her parents, Mr. and Mrs. Adolph Swenson, in Lewiston.

Mr. and Mrs. Vernon Snyder and sons of Lewiston spent Monday at the Bill Zimmerman home.

Mrs. Bonnie First and daughter Denise, and Sam Kennedy of Maywood, Calif., were Thursday and Friday over-night guests in the Bob Chillberg home.

Mr. and Mrs. Bob Pratt and family spent Sunday in the home of Mr. and Mrs. Nels Qualey at Peck.

Mrs. Jack Parsley returned by plane Saturday night from Idaho Falls, where she had been visiting her father, Ben, Plastino and family.

Similarly, the great retail stores of America — such as Gimbel's, Macy's, Marshall-Field's — have all prospered by selling to more people at less cost through newspaper advertising.
