SCHUPPERS TELL OF EUROPEAN TOUR

SEE WORLD FAIR; VISIT WITH FORMER LOCAL RESIDENTS

(Continued from last week)

We stayed over-night in a hotel at the edge of a large glacier at the top of the Grossglockner, the highest mountain in the Austrian Alps. Our hotel room cost only \$4.00 for each couple and we had a magnificent view.

Salzburg was our next major stop. At the Steigkeller we saw lively Austrian folk dances. We also saw the composer Mozart's birthplace and a fortress, which dates back to 1077. On a tour out of Salzburg we saw Berchtesgaden, Hitler's old hideout. He had 3,000 men working for him here part of the time. A diary, fish hatchery and bakery were part of the establishment, which went as far as two stores underground. Berchtesgaden is located in a beautiful section of southern Germany.

Beverly Anne left us at Salzburg and then we started through Germany. Arriving in Munich we found the city was celebrating its 800th anniversary. The glockenspiel in the top of the Rathaushaus (city hall) at Munich is interesting. Each day at 11:00 a. m. the street below the Rathaushaus is crowded with thousands of people, watching the display. Dwarfed wooden figures dance for 15 minutes in the tower and then, above them, a gold-colored rooster comes out of an opening, to crow.

Our next stop was at Stuttgart, where we visited Mr. and Mrs. Jack Moore (a daughter of Mr. and Mrs. M. C. Halliday, Juliaetta) their son, Keith, and daughter, Katherine, who was born several days before we arrived there. Jack drove us around the city and Keith went with us up to an observation post at the top of a 450-foot television tower. Two restaurants also are located on the tower.

We toured the Mercedes-Benz car factory in Stuttgart. They turn out 450 cars each day, of which 80 are made for export. In fact, nearly all taxi cabs in Europe burn diesel.

Rothenburg is an interesting historical village we visited in Germany. Its history dates back to the eighth century and its buildings and city walls are being kept as they were several centuries ago. Our hotel rooms here had canopy beds. We joined a sightseeing bus from Rothburg to Heidelberg, where the main attractions we saw were a castle and the largest wine barrel in the world, which has a capacity of 50,000 gallons.

We then went to Weisbaden, where we boarded a boat to go down the Rhine river to Cologne. At Cologne we saw the Dom Cathedral, built 700 years ago. All the buildings around it were destroyed during the war and it was badly damaged. We saw a huge crowd at Cologne depot, welcoming the University of Germany's football team, which had just won second place in a tournament in Sweden.

Brussels — to see the World's Fair — was our next stop. We got rooms with two meals a day, for \$8.00 per person. And the hotel was near one of the entrances to the fair grounds. The American building is beautiful, but we felt the Russians and Hungarians surpassed everyone in machinery displays. The tall, soft ice cream cones served in the American building created much curiosity among Europeans. They stared at the cones and finally ate them, after seeing other do so.

We men happened to see Herbert Hoover as he left the American Building on the Fourth of July. Eight or nine policemen were escorting him. He was to make a speech that evening at the fair.

The Atomium was a major attraction which everyone at the Fair seemed to enjoy. We rode the elevator to the top sphere, which houses a restaurant and an observation platform. Then we took escalators up through the arms of the atomium to the other spheres and walked down 326 steps, since the escalators only went in one direction.

We went by plane to London, where we spent four days touring the city and surrounding area. The first day we went by train to Kings Lynn, north of London, to visit Mr. and Mrs. Archie Candler and their three children — Charles, Andrea and Ingrid. Archie took us to see Sandringham Castle, summer home of Queen Elizabeth, and drove us around Kings Lynn, an interesting appearing village.

The Tower of London, Buckingham Palace, Westminster Abbey and Piccadilly Circus were points of interest for us in London. Then on July 11 we left Southampton on the S. S. Flinders, a French ship, and we had a rough ocean voyage to New York City.

There we picked up our car, which had been in storage at a garage less than a block from the dock where we landed. We drove to Idaho, with a side trip to Cape Girardeau, Missouri, to visit briefly with relatives.

FORMER RESIDENT DIES

Word was received by Mrs. Ervil Woody, Juliaetta, Wednesday of last week, telling of the death of Bill Reubendall, at Dundee, Oregon, the previous Sunday. Mr. Reubendall will be remembered as foreman at the stud mill at Kendrick last year. Survivors are his wife, Amey, and an adopted daughter. An adopted son preceded him in death.

HISTORICAL PAPER

In order that we of the Gazette, as well as our hard-working correspondents may enjoy a week's vacation, the annual Twenty Years Ago Edition of the Gazette will make its appearance during the week Aug. 17-23.

Uncle Sam says "there must be a paper every week," and so the news will be "Twenty Years Ago."

The office will be open as usual to receive news items, subscriptions and job work — but no job work will be done during that week. If in need of printing during that time — let us know now!

KAREN LOUDON IS SUMMER BRIDE

A pretty home wedding was solemnized Wednesday, August 6, when Miss Karen Loudon became the bride of John Wesley Jones, Moses Lake, at 4:30 in the afternoon, in the home of her uncle and aunt, Mr. and Mrs. Burton Souders, Sr.

The Rev. Ernest Gates, pastor of the Kendrick Community Church, performed the double ring ceremony as the young couple stood before the fire place. A floral arrangement of pink and white glads on the mantel completed the setting.

The bride, dressed in a pink nylon waltz length dress with matching hat and veil, was given in marriage by her uncle, Burton Souders, Sr. Her corsage was a single white orchid.

Her maid of honor, Miss Doris Wilson, was dressed in a sheath dress of aqua cupioni. Her accessories were white.

Linda Jones, Portland, a sister of the groom, was bridesmaid. Her dress was of white sheer nylon sprinkled with black embroidery. Her accessories were also white, and both had white gardenia corsages.

Best man was a friend of the groom, A. 2/c Richard Williams of Larson Air Force Base, Moses Lake. Only immediate members of the family witnessed the ceremony. The young couple left the next morning for their new home at Moses Lake.

The bride is well known here, having lived with her uncle and aunt, Mr. and Mrs. Burton Souders, Sr., since she was five years old. She is the daughter of Vance M. Loudon of Kellogg. She attended High school here and has been active with the younger set.

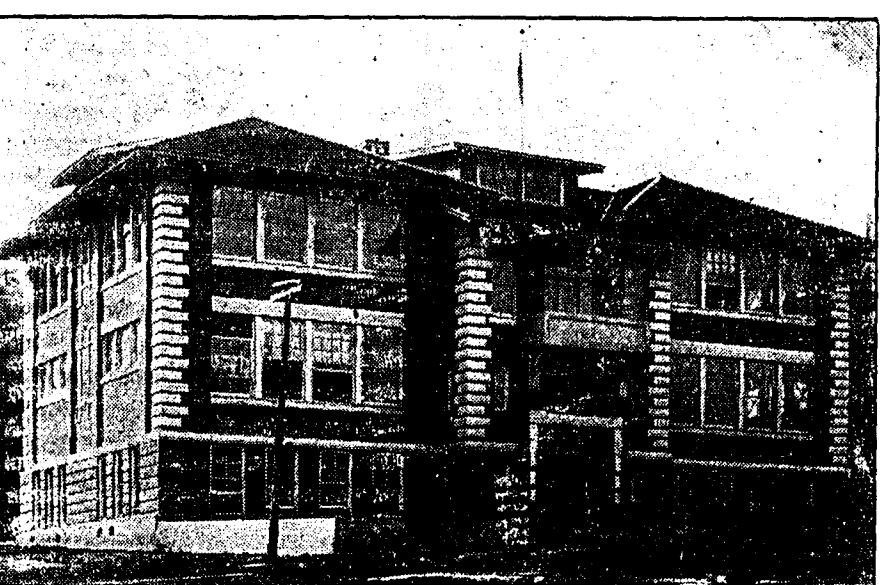

The groom, a son of Mrs. Clyde Herdman, Portland, and a grandson of Mrs. Pete Stump, has spent much of his youth here. He attended High School here and later joined the Air Force. He is now stationed at Larson Air Force Base, Moses Lake, Wn.

WHAT BIG FEET

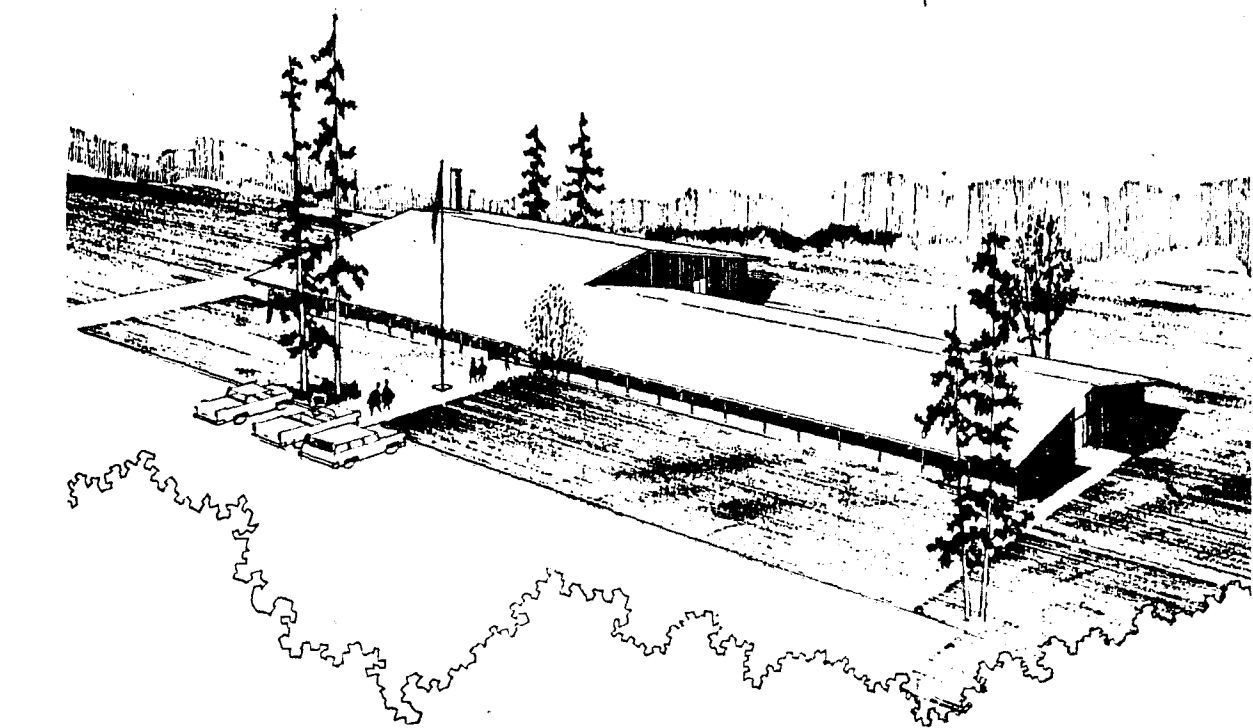

Last week foot prints around the pond on the Harley Eichner farm aroused great curiosity as to who the "big footed" intruder might be.

Andy Cox finally solved the mystery with a pair of field glasses — a moose was seen meandering away from the pond following a cooling dip!

There will be fun for everyone at the Aquatic Show in Kendrick next Sunday, Aug. 17.

DISTRICT'S PRESENT SCHOOL, CONSTRUCTED IN 1912, CROWDED, INADEQUATE

PROPOSED NEW JR. HIGH AND HIGH SCHOOL FOR JOINT DIST. 283

MILL TO RESUME

It was announced Wednesday morning that the Juliaetta Mill, Inc., Juliaetta, is being leased to the C. D. Ough Lumber Co. of Spalding, who took charge Monday morning, Aug. 11. They plan to put it in operation about Aug. 18.

The mill is being overhauled and readied for use at the present time. Logs began arriving on Tuesday, and they plan on a full winter's operation if sufficient logs are received.

Mr. Ough is an experienced sawmill operator and woodsman. He was the manager and one of the owners of the Lorenz Lumber Co. at Spalding, for six years. He has had many years of experience previous to that operation.

The mill at Juliaetta is now in the market for logs and timber — with P. S. Puckett in charge of that section. Jack Browning, Juliaetta, will be the mill superintendent. Most of the crew has been secured at this time.

All welcome the resumption of this home enterprise.

STORM DAMAGE

The brief wind and rain storm which hit this area about 2:15 Sunday afternoon did not appear to be "much of a storm" at Kendrick, but in the Juliaetta area it was a different story.

The wind there littered the streets and yards with leaves, brush and limbs.

Worst damage, however, occurred when the wind blew a tree across one of the high power lines of the Washington Water Power Co., near Juliaetta. The falling tree broke one line, and crossed it with another, "blowing fuses, causing lines to "single phase" and otherwise raising havoc.

As the electric line fell it hit some of the telephone wires, feeding current into them, and putting all the long distance circuits from Juliaetta and Kendrick out of commission. Otto Schupfer, local phone company manager, said the damage to the long distance lines was estimated at approximately \$2,300.00. Work of repairing them is still going on.

The long distance circuits were out from 2:20 Sunday afternoon to about midnight.

Quite a number of fuses were blown in local circuits, and other minor damage done. However, at this time, all has been repaired.

SUFFERS BROKEN LEG

John Denler, son of Mr. and Mrs. Tom Deller, Fix ridge, had the misfortune to break his left leg Sunday, Aug. 10. He, with his parents, was attending a family picnic honoring an aunt, Mrs. Lena ZumHofe at a Lewiston park.

In play, the youth jumped over the bluff which edges the park, landing on the pavement about eight feet below, breaking both bones in his left leg below the knee. He was taken to the hospital where the fracture was reduced. His parents drove down for him and brought him home on Monday.

The Saturday preceding, his brother Mark wrecked his bicycle near the family home. He was taken to Kendrick where several stitches were taken in his chin by Dr. Christensen.

COMMENT:

Voting, as predicted, was very light, there being only 149 votes cast. It would seem from the above returns that there are almost no Republicans left in the Kendrick Precinct, but probably all is not what appearance would indicate. We know many Republicans voted the Democratic ticket for two reasons — to boost the two local candidates, Geo. F. Brocke, Sr., who led all in collected tallies, 94, and Gerald Ingle, with 89. The desire also was to vote against A. M. Derr, gubernatorial candidate, who favors open gambling. He being at the bottom of the list with just 14.

AQUATIC SHOW SUN.

The attention of everyone is called to the annual Aquatic Show, which will be held this Sunday, Aug. 17, at the Memorial Pool, Kendrick. Plan to bring your family and attend.

FIREPLACES COMING

The fireplaces being built in the Kendrick Village park by the Kendrick Community Lions Club, are really beginning to take shape now, with one nearing completion. It is of natural rock, rustic design, and the others will be similar.

The old band stand, lowered, and with the floor removed, is being used as a cover for the fireplaces. Wood, cut from trees damaged by the big storm of some three weeks ago, is neatly stacked nearby, waiting use by the picnicker, Boy Scouts, 4-H Clubs, or others for weiner and marshmallow roasts.

It's indeed a worthy project of the Club for community betterment.

KILLED IN AUTO ACCIDENT SAT.

THREE OTHER LOCAL YOUNG MEN NARROWLY ESCAPE

Norman C. Silflow, only son of Mr. and Mrs. Walter Silflow, pioneer residents of the Kendrick area, met death in a car accident Saturday evening about 10:15 o'clock near Fernwood, Idaho.

The car, a 1957 sport coupe owned by Norman, but according to investigating officers, driven by Jack Brown, son of Mr. and Mrs. W. R. Brown of Kendrick, failed to make a curve and plunged over the bank. Norman, sitting in the front seat, was thrown out and the car apparently rolled on him in its fatal plunge. He was rushed to the hospital at St. Maries, but pronounced dead on arrival.

Jack Brown, driver, was not thrown from the car. His injuries, however, are not believed serious, and he was released from the St. Maries hospital Sunday evening following a night spent there for observation.

James Armitage, son of Mr. and Mrs. Ross Armitage, Kendrick, riding in the back seat, was thrown from the car. He landed on his back in a grassy plot some 66 feet from the vehicle, literally flying through the air completely across a small rocky creek bed. James suffered two deep scalp wounds, a possible concussion and other severe injuries which have not been determined. Sunday afternoon about 4:00 o'clock he still remained unconscious. He, too, is in the St. Maries Hospital.

George Jones, son of Mrs. Allie Jones, Kendrick, also a passenger in the back seat, rode the car to the end of its plunge. He suffered only minor injuries and shock. He returned to his home here Sunday evening with Ross Armitage, who had driven up early Sunday morning after receiving word of the accident.

Norman C. Silflow was born at Cameron, Idaho, Dec. 22, 1937. His early youth was spent at Leland where he attended grade school. He moved with his parents to Kendrick in January of 1953. At this time his parents sold their farm and purchased the Kendrick Table Supply, which they now are operating.

He attended the Kendrick High School, graduating with the class of '56. He was a member of the Emmanuel Lutheran Church, being baptized there as a babe and confirmed April 6, 1952.

For a time he worked on farms near here, then entered the employ of P. F. I. at Lewiston. For the past few months he has been employed by the L. E. Nielson Blasting Contractor Company.

Survivors are his parents, Mr. and Mrs. Walter Silflow, Kendrick; two sisters, Mrs. Barbara Holman, Spokane, and Mrs. Marlene Millard of Lewiston, and a maternal grandmother, Mrs. E. L. Pearson, Lewiston.

The body was taken to the Brower-Wann Funeral Home at Lewiston.

Final rites were held Tuesday, August 12 at 2:00 p. m. in the Brower-Wann Memorial Chapel at Lewiston, with the Rev. Theo Meske officiating. Mrs. Jack Lohman and Mrs. Jud Lee sang, "In The Garden" and "Heaven Is My Home," accompanied at the organ by Pauline Brigham.

Interment was in the Lewis-Clark Memorial Gardens at Lewiston, Idaho. Active pallbearers were school chums, Albert Glesenhagen, Herman Hinrichs, Jack Brown, Ronald Chalk, Theodore Havens and Walter Wolff. Honorary were Roy Silflow, Vernon Choate, Emil Silflow, Gerald Lohman, Harry Wegner, Marvin Silflow, Harold Silflow and George Jones.

Mr. and Mrs. Richard Holman and children of Spokane and Mr. and Mrs. Don Millard and son of Lewiston, arrived here soon after receiving word of their brother, Norman Silflow's death, and have remained with their parents, Mr. and Mrs. Walter Silflow.

Mrs. Ross Armitage has been at the bedside of their son, James, at the St. Maries hospital since early Sunday. Mr. Armitage had to return Sunday evening, but he and their daughter, Mrs. Max Clemenhagen, drove up Tuesday night to bring back this report on James condition: "Jim is improving and has reached a semi-conscious condition. He has not yet been X-rayed for final determination of injuries."

X-rays and further examination will determine whether Jim will be able to continue to play football. He was a star player at the College of Idaho last year. He is a junior.

An epithet, even striking in application — often indicates a lost argument.

JULIAETTA DOINGS IN PAST WEEK

DEPOT CLOSING; BIRTHDAY ANNIVERSARY; VISITING

Depot Closes

Friday evening at 5:00 o'clock saw the last "official" click of the door at the Juliaetta N. P. depot, as it ended its life cycle, by permission of the I. C. C. The railway company contends that business conditions no longer make maintenance of the depot possible.

The exact date of establishment does not seem to be available, but we understand it was between 1886 and 1888. Many thousands of cars of local products have been billed through the station in the succeeding years.

Birthday Anniversary Party

Mrs. Emma Tarry, Southwick, was a medical patient from Friday until Monday in the Davidson Nursing Home at Kendrick.

LIBRARY WORKSHOP SCHEDULED

The Idaho State Library will sponsor a two-day Workshop for Idaho public librarians at Moscow, Idaho, on September 11 and 12. The Workshop sessions will be held in the general library of the University of Idaho. A complete schedule of the daily sessions of the Workshop will be mailed shortly, giving the hours and other information.

Prof. Richard Darling of the University of Montana, a trained librarian, will conduct the Workshop, assisted by Mrs. Alberta Titus, extension librarian of the Idaho State Library. Prof. Darling has conducted librarians' workshops for the Montana Library Extension Commission and is well qualified to conduct this one. He will present only subject material from the questionnaires submitted some time ago. In other words, this Workshop is being presented to suggest solutions to specific problems, such as weeding collections, selection of adult and juvenile books, cataloging the library collection, how to mend books, how to make library displays and similar problems.

The State Library will pay the expenses of one representative from each library and Mrs. Ella Benscoter, as advisor of Latah County to the State Planning Committee, has announced that she will give her \$7.00 per day for a representative from Juliaetta or Kendrick who wishes to help carry on the project in these towns. To be acceptable you must attend the entire time.

Mrs. Benscoter says: "There is a possibility of the Bookmobile after all, as federal money has been raised again, \$1 for \$1. Insurance rates in our own van will almost cover the cost of the books, which would have had to have been insured to travel in a private van. A meeting with state officials will be held on Sept. 15, in furtherance of this work."

Mrs. Benscoter says that anyone interested may contact her. Since it is so close she suggests several attend, use a "pool" car and the available money for food.

There will be book displays, and attendance is urged.

TO ATTEND LEAGUE MEET

Judy Koepf, daughter of Mr. and Mrs. Walter Koepf, Cameron, left Spokane on Tuesday, Aug. 12, with a group of tourists and representatives of The Luther League, to attend the League International Convention which is to be held in Ithaca, New York (at Cornell University). The group were traveling in six Grayhound busses leaving Spokane, and many more are leaving from all parts of the United States.

They will stop and tour cities of interest all along the way, taking the northern route through Niagara Falls and thence to Ithaca.

On this trip they will stop every other night at a designated hotel.

At the conclusion of the convention and homeward bound, they will go to New York City for a two-day tour of some of the principal places such as the UN Building, Empire State Building, Statue of Liberty, etc., ending up by seeing a Broadway play.

On leaving New York they will have tours of various historical cities such as Washington, D. C. Their last tour will be through Yellowstone Park.

Judy expects to be home the first part of September in time for school. She was taken to Spokane by her mother, and sister Lynn.

BLEWETTS VISIT HERE

Mrs. Rex Blewett and two sons of Washington, D. C., arrived in Lewiston by plane Saturday and will spend a couple of weeks in the area visiting relatives. They were met by Mr. and Mrs. Ralph White, Lewiston.

Mrs. Blewett had made the trip with their sons by plane to Saratoga, Calif., to visit her parents, Mr. and Mrs. Karl Mann. Mjr. Blewett preceded her by car, driving through on a business trip. They met at Saratoga and came as far as Portland together, where they again separated — he going to Corvallis, Ore., for a two-week seminar. He will join his family here for a brief visit when his business is completed.

In the meantime Mrs. Blewett and sons will visit in the Ralph White and Nye Blewett homes in Lewiston this week and next week will be at the R. L. Blewett ranch in Gifford. They are expected to visit in the Ben F. Cook home after Mjr. Blewett joins them.

They were assisted by Connie Howell, Beverly and Linda Gates, Sharon Fey and Ray Heimgartner. Yield was 32 gallons of corn for the freezer, and 24 quarts of beet pickles.

HOME FROM HOSPITAL

Mrs. Stewart Wilson and Mrs. Leonard Wolff drove up to Spokane last Friday to get Stewart Wilson, who had been a patient in the Veterans Hospital there for the past two weeks and two days, receiving treatment. Stewart is feeling much better at this time.

AIN'T IT THE TRUTH!

Women take a kidding because they must get a new hat every spring. But on the other hand, how many men do you see going out hunting or fishing with a last year's license?

SOUTHWICK FOLK ARE BUSY ONES

Mr. and Mrs. Will Winters of Corning, Calif., arrived in Southwick on Wednesday to visit with relatives and old friends. They plan to take David Winters home, after he visited this summer with his grandmother, Mrs. Hattie Southwick, and other relatives.

Thursday evening Mr. and Mrs. C. A. Cuddy entertained at dinner honoring Mr. and Mrs. Will Winters and son David, and Mrs. Hattie Southwick.

Saturday Will Winters and son David visited at Juliaetta with his mother, Mrs. Daisy Winters.

Capt. and Mrs. Earl Brown of Riverside, Calif., are spending part of their vacation here with her parents, Mr. and Mrs. Clay King.

OH, YOU WEATHER!

You may talk about the warm (we call it hot) weather that was with us last week — but this week has proven even more of a "sizzler."

Wednesday we enjoyed a mild 95 degrees; Thursday, 96; Friday, 98; Saturday was another 98; Sunday Old Sol coaxed a reading of 102 from the "official" thermometer.

Sunday, to cap the climax, the Juliaetta area was hit with a brief, but hard wind and rain storm. The wind scattered small limbs and leaves on streets and lawns. The rain was most welcome, for it cleared the air of dust and smoke, even though it didn't lower the temperature very much. Harvesting operations were stopped until Monday morning.

Monday did almost as well, with an even 100. The village water rationing is working out very well, the reservoir being full or almost full every morning, so no changes have had to be made to date in the original plan.

TWO FIRES IN WEEK

A spark from a back-firing combine motor working on the Bob Smith place (formerly Pearl Hazeltine) near the Harold Parks lane on Potlatch ridge, set off a fire that burned five acres of grain and 15 acres of pasture, last Thursday. The combine damage was confined to the drapers, which were burned off. Damage was estimated at about \$400.00. It was extinguished by volunteers and a crew from the Kendrick Forestry department.

Last Friday a small timber fire got under way in the white pine area west of Deary. A half acre was destroyed. The cause was a hang-over from a lightning strike two weeks ago.

The local brush crew was dispatched to the area and soon had the blaze under control.

FAUNIEL DYGERT KNOWN HERE

Fauniel Dygert, 11-year-old daughter of Mr. and Mrs. John F. Dygert of Clarkston, who was drowned at the Clarkston Beach, Sunday, was known to many here.

Her grandparents, Mr. and Mrs. Frank Dygert are former residents of Fix and American ridges. Her father was born on Fix ridge, and the family later lived on American ridge in what is now the Virgil Hurlbert home.

The little girl disappeared from sight near the log boom which marks the edge of the Clarkston beach swimming area. Her sister, Norma Jean, 12, was rescued by an unidentified girl.

She was only in the water between two and a half and three minutes, but artificial respiration and a resuscitator proved in vain.

BIRTHDAY DINNER

The Kenneth Brown home was the scene of a happy birthday dinner on Sunday for the Brown family, when Mrs. Brown honored the birthday anniversary of her husband and also infant son.

Guests present included Mr. and Mrs. Ed. Brown and Mr. and Mrs. Don Jensen and daughters, the latter of Moscow.

4-H TOUR THURSDAY

The Latah County 4-H Forestry tour scheduled for Thursday, Aug. 14, will be a cooperative venture this year. It has been organized by Russell S. Slade, extension farm forester in cooperation with Tom Fich, Forest Service ranger, Princeton station, and Manning Onstott, engineer for the Soil Conservation Service, Kendrick.

The tour will start at the Deary school at 8:30 a. m., and proceed up to the Spud Hill lookout. Ranger Tom Fich will guide this part of the trip and explain the function of the tower in fire control work for the Princeton district.

After everyone has had an opportunity to observe and inspect the tower they will proceed to Norm Berg's Tree Farm, located north of the Troy-Deary road. Here the group will eat their sack lunches near his farm pond.

Manning Onstott, Soil Conservation engineer, will then explain the conservation plan that has been prepared for Mr. Berg. Russell S. Slade, extension farm forester will show the 4-Hers the young stand of trees that has been thinned and Mr. Berg will explain details of the operation.

Other things of interest will be a new tree planting, a commercial thinning operation — and the Forest Service will demonstrate some of their fire fighting equipment.

If you are planning to attend the tour — don't forget your sack lunch.

"Sage" Observations
Be safe, be right — slow down at night!
Great minds discuss ideas, mediocre minds discuss events, small minds discuss personalities.
One of the worst tragedies that can befall a man is to have ulcers and still not be a success.
They tell us that sewing circles darn more husbands than socks.
We hear that a fool and his money are soon parted, but please tell us, how did they get together in the first place.

Some wives frown on their husband's poker parties. Others have lucky husbands.
Many a man keeps his nose to the grindstone so his wife can turn hers up at the neighbors.
The man who really wants to do somethings, finds a way; the other kind finds an excuse.
Some people are so busy learning the tricks of the trade that they don't learn the trade.
The highest reward for a man's toil is not what he gets for it; but what he becomes by it.

**Standard's local buying means good business
for more than 26,000 "hometown" suppliers**

Our shopping list covers everything from adding machines to zinc. Almost any item you can name—from commonplace things like pencils, paint, pipe, printing to the less ordinary like binoculars, badges, blankets and burglar alarms—is on our 50,000-item shopping list.

Here in the West alone, last year Standard was a good customer for more than 10,000 suppliers of goods and services, to whom we paid more than \$250,000,000. This was an important factor in the business health of many western towns.

When a sum like this goes into circulation it spreads out in all directions to support jobs and payrolls. It helps assure customers for thousands of enterprises, both small and large, including Standard. That's why we make every practical effort to buy locally—it means better business in the communities we serve.

ALMOST ONE MILLION 4-H CLUB MEMBERS are aiming for safer living on highways and farms, in homes and communities. Their efforts are focused on the national 4-H Safety program directed by the Cooperative Extension Service and arranged by the National Committee on Boys and Girls Club Work.

Farm boys and girls enrolled in the program — and their city cousins as well — can take their share of credit for helping to decrease traffic deaths last year. Proof that they're on the job is the record high enrollment reached in 1957

with 815,000 club members between the ages of 10 and 21 took part in some form of safety activity, according to the National Committee.

And hard work does not go unrewarded. At the national level eight top ranking 4-H'ers will receive \$400 college scholarships and an all-expense trip to the National 4-H Club Congress in Chicago next December. The state winner also will attend the Congress with all-expenses paid, and it is estimated that nearly 4,000 youngsters will merit the county safety medal. All awards are provided by General Motors which has supported the 4-H Safety program since 1944.

items of power equipment — home saws, planers, etc.

A neighborhood safety committee may keep an eye on buildings under construction where children play after workmen leave.

Everett H. Davis, agricultural engineer of the University of Idaho extension service and member of the state farm safety committee, reports that tractors, firearms, falls and drownings were leading causes of accidental deaths in Idaho last year. There were 18 deaths charged to agricultural machinery — chiefly tractors; 11 to firearms; 38 to falls, and 17 drownings.

A national survey shows that nearly 50 percent of the deaths by accidents to farm people involve motor vehicles, and more than 60 percent of these accidents occur at night. Rural pedestrians account for only one fatal accident in nine, but nearly twice as many rural people are killed and injured when walking with the traffic as when walking against it. Walking against traffic is the Idaho law.

CLAIRE HOBART

Claire Hobart, blind musician and composer, and a missionary to the Latin Americans, will present a concert at the Bethany Lutheran Church, Big Bear ridge, September 3, at 8:00 p. m.

Mr. Hobart plays the organ, piano and accordion. He sings songs of his own composition. He will also tell of his mission work as well as play and sing.

Mr. and Mrs. Hobart conduct a Christian school for the blind in Nuevo Laredo, Mexico.

There is no admission charge but a free will offering will be taken.

COLUMBUS HAD THE RIGHT IDEA!

With the sputniks has come the rediscovery that the world is round! Excitement over prospects of space travel raises unprecedented enthusiasm for geography.

To young and old, the earth is suddenly a great ball spinning in orderly relationship to the sun, the moon and countless other bodies of a limitless universe. All at once, in thought and spirit, we find ourselves in outer space viewing our world in-the-round. We see our mountains and oceans and plains in three dimensions, as we have long seen the ridges and craters of the moon! And all at once, the flat map is as obsolete and foreign to our concept of our environment as the tablets of Ninevah!

Fortunately for both our teachers and our youngsters, whose soaring interest deserves encouragement, modern technology and ancient cartography have joined hands to produce the means of studying the world as if travelling in a manned satellite. There is now a 12-inch relief globe of the earth, precision moulded of a tough, white vinyl plastic for classrooms and home use — and economical enough that every classroom can have one. In fact, it costs less than many a dictionary! The white, unmarked surface, with embossed latitude and longitude lines and topography makes the globe ideal for painting, to indicate countries, climates, ocean currents, satellite orbits, natural resources, population distribution and countless other aspects of history and economics as well as geography. Once painted, it can be washed off and painted again — and again. Self-sticking pressure tapes can be used to indicate sea routes, explorations, migrations. Its challenge to the imagination of the teacher and student alike is practically limitless.

It is interesting to note that this

12-inch globe of the world is the offspring of one of the most ambitious research and construction projects in cartographic history — the world's most accurate relief globe, which is six feet in diameter and costs (unpainted) \$7,850.00 or more! But we think of the geniuses of geo-physical maps have rendered their most impressive service at this critical time in making it more fun for teachers to teach — and kids to learn!

ARE YOU PROSPECTING?

University of Idaho — The geiger-counter carrying uranium seekers that struck out for the hill country of the west several years ago have given way to a new version of the amateur prospector.

Lewis Prater, metallurgist and assistant director of the Idaho Bureau of Mines — Geology at the University of Idaho, said prospectors today often carry a fishing rod along with their mining equipment.

"Where some invested in mining equipment and a jeep and would spend entire summers looking for uranium a few years ago," said Prater, "there seems to be more weekend prospecting tied to a fishing trip or a hike in the mountains."

It is easy for Prater, who has been with the Bureau of Mines since 1941, to check on prospecting activity. One of the functions of the bureau is to offer citizens of the state advice on ore quality and how to develop it.

Part-time prospectors send promising ore samples gathered during their treks to the bureau for an evaluation of what they have. You never know, somebody may find a bonanza!

To aid geologists, both professional and amateur, the bureau does geologic and metallurgical studies of areas with the state and prints the findings in booklets. Maps showing the geologic make-up of Idaho are also available.

SAFETY, ALWAYS

Neighborhood safety drives save lives and reduce accidents. The idea is particularly recommended by the department of agriculture as a part of a continuing safety drive which began last month.

Every family stands to benefit, safety people say, when neighbors join to rid their community of ancient hazards and pay attention to safety rules. Some of the things community effort can get rid of before accidents happen are open wells, washed-out ditches, shrubbery that blinds corners, unprotected gravel and rock pits, refuse heaps, and discarded refrigerators.

Every family owning a power garden cultivator or lawn mower needs information on their safe use. Children need advice to stay away from such machines, as well as many other

LEAVE ON VACATION

Rev. and Mrs. Ernest Gates and family left early Tuesday morning on their vacation. They plan a visit with relatives in North Dakota, and enroute home a tour of Yellowstone National Park.

They will return in time to hold services the last Sunday in August — the 31st.

Seeing Is Believing
During a fire in the night, the tenants of an apartment house rushed to the street carrying their most prized possessions. One woman noticed that the gentleman who lived directly above her was carrying a large, covered bird cage.
"What have you got there?" she asked, out of curiosity.
"That's my pet rooster," said the

man. The woman gasped and fainted. When she was revived she told her anxious neighbor, "I'm sorry I fainted but you see, I've been under treatment by a psychiatrist for the past year because I kept hearing a rooster crowing!"
