KENDRICK COMMERCIAL CLUB ENTERTAINS VISITORS

Aug. 11, 1938 — The Kendrick Commercial Club met in regular monthly session in the banquet room of the Fraternal Temple, Monday evening. Dinner was served by Mrs. Paul Lind and Mrs. Edgar Long to the 33 members and visitors present.

After dinner the following delegation from the Lewiston Chamber of Commerce was introduced by Dr. D. A. Christensen, president of the local club: Bert Johnson, district highway engineer; E. N. Lorenz, chairman of the highway committee of the Lewiston Chamber of Commerce; J. W. Shepherd, president of the Lewiston Chamber of Commerce, and State Senator R. E. Erb.

After a few words from N. E. Walker, in charge of the local WPA work, he introduced Mr. Johnson, who gave a very clear and concise outline of the road situation as it affects this section. He stated that the road would be built from the end of the oil this side of Arrow Junction to Juliaetta, and that some \$135,000.00 had been allocated for that purpose. He also made it quite clear that there would be no money for the completion of the road to Kendrick this fall, but that there was every probability that the road would be completed to Kendrick next year. He also stated that a bridge would be built across the Foliatch at the mouth of Wanaher Gulch. This, too, was very good news to this entire section of the country.

Mr. Johnson added that roads built within and those leading to the Kendrick section within the past four years made fine additions to the state highway system.

Short talks by Mr. Lorenz, Senator Erb and J. W. Shepherd regarding the final building of the Arrow-Kendrick road were very optimistic and Mr. Shepherd made the statement that this project is at the top of the Lewiston list for roads in 1939.

Aside from the Lewiston delegation other visitors to the club were Thorvald Nelson, John L. Woody, Scotty Wilson, Fred Bailey, Roy Glenn and Frank Wilken. Of course all these men were interested in roads on the respective ridges they represented, and while these roads were discussed, there was little promise of any immediate work being done. All these ridges are in need of better roads and their residents may rest assured that Kendrick will lend every aid to have them completed just as soon as the money is available.

On behalf of the Commercial Club Dr. Christensen extended a cordial welcome to those from Lewiston and those from the ridges at this meeting and urged them to attend any other meeting they might care to. Visitors are always welcome and the needs of the entire surrounding territory are the needs of Kendrick. The Commercial Club will always be found ready and willing to extend a helping hand where ever and when ever it is possible to do so.

At the close of the business meeting four reels of motion pictures were shown, the first reel being of the trip taken to The Dalles last month by E. A. Deobald and Geo. P. Barnum, showing the first ocean freighter to ever pass through the big locks at Bonneville dam.

Three reels of plain pictures were also shown, one of the big ships of the United Airlines company that fly from coast to coast between daylight and dark. All were very instructive and interesting.

HEAT WAVE BROKEN

July 28, 1938 — The terrific heat wave that has been over this entire section of the country for the past ten days, was finally broken to a small degree Sunday and Monday, when the mercury reached just 92 degrees in Kendrick. However, there had been several days when it went above 100. Up at Spokane for ten days the mercury registered 100 and better; while down at Lewiston there were ten days that it registered from 100 to as high as 113, according to weather bureau reports. It must have been much hotter than that on Lewiston's Main Street.

Considerable damage was done to local field beans, but it was a good thing for the wheat, as it caused it to ripen rapidly, and combines may be seen and heard on almost any direction these days. The wheat is said to be of good quality and the yield running from 40 to 55 bushels per acre.

Some damage is thought to have been done spring wheat — but it is too early to tell as yet.

BRIDAL SHOWER

May 26, 1938 — Mrs. M. Lyle, Jr., gave a bridal shower in honor of Mrs. Carl Hartung, Jr. (nee Eleanor Hill) in her home here last Thursday afternoon.

As an entertainment feature a list of words was given each guest and when all were placed in proper order they told the story of when and where the marriage took place. A prize was given for the story nearest correct.

The bride received many lovely gifts, after which delicious refreshments were served by the hostess.

Mr. and Mrs. Hartung were married in the Dalles, Ore., April 9, by the bride's grandfather, Rev. Johns, and the announcement came as a complete surprise to their many friends. The bride is a daughter of Mr. and Mrs. Lester Hill, former residents of Kendrick. The groom is a son of Mr. and Mrs. Carl Hartung, pioneer residents of this area. The young couple will make their home in Lewiston.

ABOUT THIS ISSUE

This is your copy of the Annual "Twenty Years Ago" edition of the Kendrick Gazette — issued each August so that our busy correspondents and we, the publishers, may enjoy a week's vacation.

All "Twenty Year Ago" material is, as you will notice, dated. It is our hope that these columns will bring back fond memories and furnish you with reading enjoyment.

Advertising is, of necessity, current — as are legal and other notices.

We have endeavored to reproduce exactly the same headlines and reading material that was carried in 1938. We chose to spread the "news" over a period of several weeks in order to give the broadest possible coverage.

KENDRICK-ARROW ROAD

July 25, 1938 — People in the "know" say that all the right-of-way from Arrow to Juliaetta has been secured in Nez Perce county with the exception of some through Indian land lying along the route, and this will undoubtedly be secured before long.

Reports from Juliaetta some days ago said they had secured about all the right-of-way from the Nez Perce county line to the Village of Juliaetta, which should mean that within a reasonable length of time the contract will be let and work begun. It is said the road will be built only to the W. W. P. sub-station below Juliaetta.

Kendrick Wins With Flowers

June 16, 1938 — The Flower Show at Moscow, sponsored by the Botany Department of the U. of I., and presented by Dr. F. W. Gail, head of that department, last Saturday afternoon was greeted with much enthusiasm.

Flowers of all kinds were donated from this area — including Lewiston, Clarkston, Pullman, Potlatch, Genesee, Juliaetta and Kendrick.

Blooms on display were peonies, iris and roses, and there was also a wild flower section, and beautiful indeed was the result, for every wild flower that grows in this section was represented.

Roy Long took a carload of roses from Kendrick, donated by the Mesdames Harold Thomas, Harley Perryman, Arthur Perryman, Edgar Long, L. J. Herres and Geo. Leith, and Miss Ida Schupier. With these flowers Kendrick captured first position in the display, and it is gratifying to know the rose section, and while no prizes the local roses were "tops."

Dr. Gail wishes to thank all those donating flowers. The exhibit is a part of the Commencement Week exercises, and over 5,000 people saw the display. Thanks are also due Roy Long for his efforts in collecting, transporting and arranging the display.

June 16, 1938 — Mr. and Mrs. Henry Davis are the proud parents of a baby daughter, born to them on Wednesday of last week, weight 6½ pounds.

OLD TIMER VISITS

June 2, 1938 — J. J. Hamley, president of Hamley & Co., cowboy outfitters of Pendleton, Ore., and an old-time resident of Kendrick, visited in town Friday, calling on Geo. Barnum, W. A. Watts and other old friends.

Mr. Hamley, who was here during the two big fires of 1898 and 1904, can indeed talk very interestingly on Kendrick history. Mr. Hamley said that most of the old timers were gone, but he wished he had more time to visit with those who remained.

He said he had never seen the road from Arrow to Kendrick in as good a shape as at the present time, and could never remember the old town looking as pretty — with the locust trees in bloom and many flowers and shrubs also blooming.

LEAVES FOR ALASKA

June 2, 1938 — Miss Velma Ameling left Kendrick Friday morning for Spokane, from where she went on to Seattle and at that port took a ship for Juneau, Alaska, where she will be employed in the office of the Juneau Retail Credit Association.

Miss Ameling had just arrived in Kendrick from Craigmont, where she had been visiting her sister, Mrs. Ward Howell and family, and was to visit her mother, Mrs. Liddie Ameling and other relatives here when the telegram asking her to come at once arrived.

Miss Ameling said she had applied for the position many weeks ago, but of time. This is her first trip to the north and she is indeed looking forward to it with pleasure.

TWO WPA PROJECTS

July 28, 1938 — According to information given out by R. L. Small, WPA field engineer, two more WPA projects were started Wednesday of this week. These include four miles of improvements on the Little Bear ridge road, north of Kendrick, and the other six miles south of Deary.

The \$9,639 Bear ridge project will make a long-needed improvement by grading, widening and constructing ditches and drainage slopes on the narrow and winding road. Crushed rock will probably be included for surfacing. Federal funds total \$6,233, while the sponsors are providing \$3,406, according to Small. Norris Walker will be foreman, and about 20 men will be employed.

Mrs. Walter Crawford is staying in Lewiston to be near her mother, Mrs. Jennie Hund, who is recovering from a recent major operation.

YOUNG COUPLE TAKE VOWS

June 9, 1938 — We notice that the Lewiston Tribune claims Lewiston had the first June bride of this area, but they will have to show an earlier marriage than the one mentioned — as Miss Jean Fry of Kendrick became the bride of Glen Wegner, at 7:00 a. m., Wednesday, June 1st!

The marriage ceremony was performed at the August F. Wegner home on Potlatch ridge, with the Rev. Theo Meske officiating.

Miss Fry is a daughter of Mr. and Mrs. Clarence Fry of Kendrick, and a graduate of the Kendrick High School with the class of 1938. The groom is a son of Mr. and Mrs. Aug. F. Wegner of Cameron, and a graduate of Kendrick High school with the class of 1936.

A delightful wedding breakfast was served by Miss Gladys Wegner, sister of the groom, after which the new Mr. and Mrs. Wegner left on a short honeymoon.

They will make their home on the Wegner ranch where the groom is engaged in farming with his father and brothers.

Those in attendance were Mr. and Mrs. Clarence Fry, parents of the bride; Rev. and Mrs. Meske; Mrs. Hull, grandmother of the groom; Mr. and Mrs. August F. Wegner, parents of the groom, and Wayne, Vern and Gladys Wegner.

June 16, 1938 — One of the most popular young couples of the Southwick community, Miss Doris May Arbitrage, daughter of Mr. and Mrs. Thomas Arbitrage, and Carl M. Mustoe, son of Mr. and Mrs. Given Mustoe, went to Justice of the Peace Wm. F. McClelland at Southwick, June 9th, and were quietly married.

There being no guests present, the ceremony was witnessed by the members of the McClelland family.

The bride was pretty in a dress of coral-rose, over which was worn a soft pearl-gray wool coat. She carried a large bouquet of white bride's roses.

Both the bride and groom were born and reared in the Southwick area and were graduated from the Southwick High school in 1937.

The groom is a progressive young farmer of this section, and has rented an 80-acre farm for a term of years. The property is located northwest of town and is known as the George Hayward farm. There the happy couple will be at home to their many friends.

Harvest Starts Next Week

July 14, 1938 — It is expected, according to present weather indications, that harvesting operations will begin in some of the earlier fields next week. Walter Bigham, American ridge, has a field of fence-high fall wheat that he expects to begin cutting next week, or perhaps even the latter end of this week. Several other farmers also have fields that are expected to be ready about that time.

DYNAMITE BLAST WRECKS WINDOWS NEAR SOUTHWICK

Aug. 25, 1938 — The peace and quiet of the Southwick section and the countryside for miles around was interrupted Sunday afternoon at 1:30 o'clock was a terrific explosion one-half mile west of Southwick on the Southwick-Kendrick road. Windows in the Given Mustoe and Darwin Tarry homes were shattered by the force of the exploding dynamite and gasoline, the latter setting fire to fence posts and a stack of hay.

A pickup truck driven by Dewey Parker, 30, Juliaetta, and owned by the Rural Electrification Administration, which is engaged in extending its lines into this section, and containing between 40 and 50 pounds of dynamite and 100 caps, ran off the road and landed in the ditch some 15 feet below, turning over and catching fire during its descent.

Parker was pinned beneath the burning truck. He managed to extricate himself from a difficult position and escaped on the side where a door had been removed several days before. Four minutes after he left the truck, the dynamite and caps exploded. With minor cuts and bruises on his head and body, Parker climbed back to the road to warn traffic of the impending danger.

Given Mustoe and Darwin Tarry, who live near where the accident happened, were hastening to aid Parker and attempted to extinguish the blaze, when warned back by the driver. Tarry and Mustoe stationed themselves on the road and halted traffic. Several cars were in line when the explosion occurred.

The pickup was blown to atoms, pieces being carried more than 500 feet, the muffler landing 250 feet from where the explosion occurred. Flying embers ignited a hay stack in a field of Given Mustoe's. Window panes at the Mustoe and Darwin Tarry homes were shattered and fence posts set ablaze by the flaming gasoline.

Parker was engaged in blasting post holes for the R. E. A. Residents of Southwick said Parker was reading his notebook when the truck ran off the road. Reports reaching Southwick said windows a mile away rattled from the force of the explosion.

LIFE AND DEATH STRUGGLE

Aug. 11, 1938 — Wednesday morning, after the life and death struggle that occurred at the local primary, there was much merriment as well as some gloom, naturally. The morning was not old when the "kidding" of the two local candidates started — and they took it heros. Later in the day Harold Thomas claimed to have found the "bag" that Marvin Long had the election in, and immediately posted it near the Blewett and Perryman places of business for identification. Marvin finally got up nerve enough to go and take a look at the thing and then hurried back down to the store and secured the "dog house" which he said should be occupied by Harold. And, to top it all, a deadly "skull and crossbones" was placed at the scene of the carnage and blasted hopes for the assistance of a coroner.

Well, it so happened that Stone Evans had been elected coroner for this precinct, on the Democratic ticket, having had no opposition and having received enough votes (two) to take care of the "deceased." However, as one was a democrat and the other a republican, there was no way to reconcile the affair because they were both evidently democratic votes and therefore could not be used for the "planting" of a republican.

However, Marvin still claims he would have been elected if he had not run out of precincts like Kendrick, and Harold also claims that the only reason he was not elected was because he did not get enough votes.

Our note: Marvin was running for State Representative on the democratic ticket, and received 77 votes in the Kendrick precinct. Harold Thomas was running for State Senator, and received 64 votes in the Kendrick precinct.

Leave For Real Vacation
 June 16, 1938 — Mr. and Mrs. Wade T. Keene, Tom Keene and Don Benscoter left early last Friday morning on a vacation trip to last a month. They headed south to Pocatello, where they will pick up Miss Maxine Keene, and will go from there back up through Yellowstone Park, thence on to Colorado to Rocky Mountain National Park, Estes Park, the Grand Canyon, Bryce Canyon, and other points of interest including Death Valley — thence to the coast and return home via the Redwood National Highway.
 During their absence Mr. Keene's place at the warehouse is being taken by Walter Nelson of Peck.
