## BIG WIND MON. EVE DAMAGE HEAVY

The Kendrick area was hit by a really terrific wind and rain storm Monday night — a storm which littered the streets and alleys with dead tree limbs, leaves and other debris.

The real damage, however, occurred when wind got under the edge of the sheet metal roof on the west section of the Kendrick Rochdale Co., and ripped it off completely. Luckily, underneath the metal roof lay the old paper one, and with the exception of a very small area, this stayed on, preventing damage to the stored contents of the building.

There possibly was other major damage in other spots of which we have not learned.

Of course there is a very good chance that this wind storm was not that at all — but the final wind-up of the politicians at the close of their campaign. These campaigns are always noted for being "windy", not to mention the "mud slinging!"

In the Southwick-Leland-Cameron-Gold Hill areas the storm struck with terrific force, blowing the roofs from several barns and sheds, downing telephone and electric light poles, and uprooting trees. In the area electric power was interrupted at 11:30 p. m.

In the Gold Hill area uprooted trees blocked roads and delayed the school busses.

On the ranch of Mr. and Mrs. Bob Nelson, American ridge, their big barn was completely destroyed!

The downing of telephone wires cut deeply into the ability of Gazette correspondents to gather news — so missing are a number of familiar columns.

In the Lewiston area the force of the storm was far greater — it unroofed buildings, damaged parked airplanes, left the town without electric power for some time. Total damage at the Lewiston airport alone is estimated at more than \$100,000.

At Moscow the torrential rain which accompanied the wind caused some flooding, and even smashed plate glass windows in downtown stores.

Further damage coming to light was the loss of a portion of the roof from the Kendrick Equipment Co. repair shop, and at the Paul Supple ranch on Little Bear ridge a portion of his barn roof being blown off. Late Tuesday evening power had still not been restored to the full Southwick-Linden areas, and those with deep freezes were becoming rather nervous. Then, too, there were those who wished to listen to and watch the election returns.

## DEATH CALLS FORMER RESIDENT

Roy Akins, 65, of Walla Walla, a retired farmer, died at 9:00 p. m., Wednesday, Nov. 29, while visiting with his wife at the home of a stepson, Loyd Farrington, near Southwick. Death was caused by a heart ailment.

Mr. Akins was born Feb. 13, 1893, at Somerville, Oregon. Later, as a young man, he was employed in woods work and lumber hauling in the Southwick-Kendrick area. He later returned to Oregon to farm, and lived in that state until 1950, when he moved to Clarkston. The next year he moved again, settling at Walla Walla.

After his first wife died in 1948, Mr. Akins was married to Rose Farrington, at Clarkston, on Sept. 28, 1950. He was a member of the I. O. O. F. and the Rebekah lodges.

Survivors include his wife, Rose, at home; one son, Lee, of Tillamook, Oregon; a step son, Loyd Farrington, Southwick, two step-daughters, Mrs. Helen Kloster of Marysville, Wash., and Mrs. Evelyn Kirby of Lewiston, and one sister, Mrs. Beulah Brandt of Walla Walla.

Funeral services were held Saturday at the Groseclose Funeral Home at Walla Walla. The Brower-Wann Funeral Chapel of Lewiston handled preliminary arrangements.

Burial was at Salem, Oregon, beside the body of his first wife.

Mr. and Mrs. Akins had been visiting friends in the area, as well as her children, when he was stricken. It was indeed a shock to all.

Mrs. Akins is, of course, a pioneer resident of this area.

## CECIL A. HARRIS DEAD AT LOWELL

Cecil A. Harris, 48, 622 Burrell Ave., Lewiston, collapsed and died about 9:00 a. m. Thursday, October 30, while operating road equipment on a construction job near Lowell, Idaho. Cause of death was a heart attack.

Mr. Harris had just started work for the Hamer Corporation of Roseburg, Oregon, two hours before. He was operating earth moving equipment.

Mr. Harris had planned to move his trailer home from the Lewiston Orchards to the work site on Saturday. The company by which he was employed is widening and surfacing the Lewis & Clark Highway near Lowell.

He had been a highway construction worker for 20 years and had been employed by the Lewiston Pre-Mix Co. until recently.

Cecil A. Harris was born Oct. 28, 1910, at Southwick. He moved to Lewiston in 1941, staying there 10 years before moving to Roseburg in 1951. He returned to Lewiston in May of this year.

## SOUTHWICK NATIVE DIES IN CALIFORNIA

Mrs. William J. (Thelma) Winters, 55, of Corning, California, and a former resident of Southwick, died Sunday of cancer at her California home, relatives here learned on Monday. She had undergone surgery last April and never had fully recovered.

She was born Thelma Southwick, at Southwick, Jan. 2, 1903, a daughter of the late Mr. and Mrs. LeRoy J. Southwick, members of the family for whom the community was named. She was united in marriage to William J. Winters at Lewiston in 1919, and the couple lived in various Washington communities before returning to Southwick in 1946. They moved to Corning, Calif., in 1949, and have lived there since that time. Winters is a retired carpenter.

Survivors include her husband, at Corning; one son, David of Corning; one sister, Mrs. C. A. Cuddy of Southwick, and a brother, Howard Southwick of the Lewiston Orchards.

Funeral services were held at 10:00 a. m., Wednesday, at Corning, with burial following there.

Mr. and Mrs. Arne Cuddy and Mrs. Hattie Southwick left Sunday for Corning to attend the services.

## ABOUT THE DIKE

Many have asked: "What happened to the dike that they were supposed to build this year?" And now we have the answer from Frank Abrams, mayor.

Mr. Abrams tells us that the dike was O. K'ed for construction by the Army Engineers on October 1st, after many weeks and months of legal red-tape, which had to be "unwound" and cut.

A recent telephone call gave all the additional needed information: The Call for Bids on the contract is set for April 1, 1959, and the successful bidder has until June 1 to move in and be ready to begin work.

The project has been approved and the money allotted — so there is no danger whatsoever of losing it, despite the almost year's delay.

Mr. Abrams said all had been confirmed as being in order by Neil Swanson, engineer in charge, and Ivan Wilson, right-of-way engineer.

There seems little doubt but what this project would have been completed this year had it not been for legal technicalities raised by the N. P. Railway Co.

## SOPECIAL COUNCIL MEETING

At a special meeting of the Village Board, held Monday evening, due to Tuesday being election day, Atty. Frank Barton met with the Board for a discussion of the flood control project and drawing up of an Ordinance to permit the sale of park land lying near the Clarence Fry home on Bear creek.

Regular business was also taken care of.

## CURRENT NEWS AT OUR SCHOOLHOUSE

### History Editorials

Following are two editorials that you might have found in the newspapers of 1790 to 1794. However, they were written as an assignment for the American History class of the Kendrick High school, Dennis Racicot, instructor, with the dual purpose of History and a "Thinking Editorial" on a national issue, present or past:

### Tension

Today there is a tension in the United States. People everywhere are arguing about the actions of our Secretary of the Treasury, Alexander Hamilton. Many are for him and yet others are against him. Federalists and Republicans are having many bitter arguments about the issues resulting from Mr. Hamilton's fiscal policies. One must remember that many people who are indifferent can be swayed over to one side or the other.

This great statesman has had good training and excellent backing. He has attended King's College. He was appointed Captain of the Artillery during our recent revolution and was on our great President Washington's staff in 1777. He also fought brilliantly at Yorktown. After the war he practiced law, served in the New York Legislature and in Congress. He was a member of the Constitutional Convention; furthermore he helped bring about the ratification of the Constitution.

This man is doing our country a great service by trying to establish a firm financial basis for our new government. His policies include: Payment of the National Debt in full, assumption of state debts, increased excise duties, and the establishment of a National Bank.

As editor of this paper, I definitely agree with Hamilton's policies. If we pay the National Debt in full, other countries will respect us and will think we are a good risk in times to come. The states' debts were made for the cause of the new government. If we start a National Bank, it will help put our money into circulation faster and easier. It will also be a place for this government to safeguard its money. Though this bank will be privately owned, it will send weekly statements to the Federal Government, if the request is made.

Although Hamilton's political theories run counter to the trend of the times, his wizardry in "balancing the books" of this new nation will go down in history. — Denny Abrams.

### Hamilton, a Friend of the Few

We would like to know what President Washington was thinking about when he appointed Alexander Hamilton as Secretary of the Treasury in May of 1789. Hamilton, who is only in his early thirties, is too inexperienced and easily influenced by the few big shots who are trying to run the government.

All these debts which Hamilton is proposing money for will be paid for out of the pockets of small farmers and landowners. The only ones who will profit by this are the big businessmen. Many of us who were in need of money sold debt certificates for less than they were worth. Now they are being redeemed in full. Who is buying all of these certificates? Hamilton's friends, the big businessmen, of course.

States that have paid their war debts must now help pay the debts contracted by less responsible states. Such injustice, thanks to Hamilton. Hamilton also pushed through the Bank Bill, which provided for a National Bank. This bill favored the commercial North and never did a thing for the agricultural needs of the South. How unconstitutional can a bill get? It does not state anywhere in the Constitution that Congress has the right to create a National Bank. The Federalists are inclined to stretch the Constitution a little too much.

These are just a few of the things Hamilton has done in the past. Now, in 1794, he is trying to put an excise tax on whiskey. This is not fair, because the western farmers make

## LOCALS WIN

In one of the hottest political battles in years the Democrats upset normally Republican Latah County.

Two of the local candidates, both running on the Democratic ticket, easily won election: George F. Brocke, Sr., receiving 3,761 votes to lead the field for State Representative. The other from Latah County is Harold Snow, Republican, with 3,677.

Gerald Ingle, also Kendrick, easily won re-election over his Republican opponent, Eugene Taylor, Juliaetta. Gerald received 4,069 to Gene's 2,961.

In the race for Probate Judge, also a hot contest, C. L. Woodward won re-election over Allen R. Deer, 3,674 to 3,381.

In other hot and heavy contest Cope R. Gale, Republican, won the office of Prosecuting Attorney from William E. Swope, Democrat, 3,872 to 3,152.

For Sheriff R. C. (Speed) Lange Democrat, defeated Jack McBride, Republican, 4,951 to 2,271.

In the race for Governor Robert E. Spidle won over the proponent of legalized "Casino Type" gambling by a vote of 3,842 to 3,396. Thus Latah county remained one of those helping to elect a Republican Governor.

## KENDRICK VOTING

Kendrick precinct's voting Tuesday came, in general, as no surprise to most. However, the real upset of the balloting came in turning down the so-called "Right to Work" law to the tune of 146 to 119 — for there are no unions in this area closer than Lewiston, and farmers in general, do not approve of the tactics employed by many unions.

### PLAY SUCCESS

The Junior Class play, "The Little Dog Laughed", presented to a packed gymnasium last Wednesday evening, October 29 — was thoroughly enjoyed by young and old alike, and we can say without fear of contradiction, was one of the best coached and best presented of any ever seen at Kendrick. Mrs. Merrick, director, and assistants Diann Johns and Jerry Armitage, are to be really congratulated!

The cast of characters was: Laurie Huntington, a sophomore home from college, Doris Wilson, Sidney Huntington, her father, normally jocular, Richard Nelson; Martha Huntington, her mother, charming but anxious, Frances Rowden; Wally Huntington, her brother, content with the world, Jerome Pederson; Miss (Gus) Gustavetsky, Martha's part-time helper, Marga Wilken; Joan Wood, Wally's one-and-only, 16, Diane Benscoter; Ted Wood, her father, and Sid's competitor in used cars, Larry Blankenship; Lillian Wood, Joan's cultured, conscientious mother, Ila Johnson; Mark Bradford, Joan's cousin and a medical student, Danny Abrams; Horatio P. Honeywell, a bird fancier and taxidermist, Duane Meske; Amelia Dennis, a catty kibitzer, Shannon Groseclose; Caroline Blakesley, a foolish housewife, Sandra Cantril; Grace Schoenbeck, wife of the department store owner, Lynn Koopp; Walola Breckenridge, wife of the bank president, Judy Craig; Teresa Brown, Walola's maiden sister, Betty Ross; additional pantomime passers-by, Eddie Corkill, Diann Johns and Donnie Meserve, the latter leading "The Little Dog That Laughed."

On the technical staff, were: Advertising, Sandra Cantril, Shirley McAlister, Shannon Groseclose, Mary Ann Pavel. Make up: Marilyn Zum Hofe, Janice Heimgartner. Set construction: Eddie Corkill, Duane Meske, Richard Nelson, Duane Meske, Jerry Armitage, Larry Blankenship.

Properties were in charge of: Byron Bowen, Lynn Koopp, Judy Craig, Lee Grinolds.

### 4-H'ers to Parade Again During Chicago Congress

The 4-H parade pictured above is one of the exciting demonstrations that will be repeated in the amphitheater of the International Livestock Exposition during the 37th National 4-H Club Congress in Chicago. Thanksgiving weekend will usher in 1,300 champion 4-H Club members, several hundred state and national 4-H officials and many friends of 4-H who help to make the annual Congress possible. They arrive by train and plane from every state in the nation, and will be joined by delegates from Alaska, Hawaii, Puerto Rico, Canada and other foreign countries as well.

The Congress opens officially on Sunday morning Nov. 30, at the Conrad Hilton hotel and closes with a banquet for about 2,000 on Thursday night Dec. 4, when more than 200 national 4-H champions will be saluted. This unique delegation of 1953 national, sectional, and state 4-H winners represent the best of 2,200,000 Club members. By diligent and successful application of 4-H principals and techniques to project work these ambitious boys and girls have climaxed their 4-H career by attaining state honors. They have participated in one or more of some 60 different 4-H award programs conducted by the Cooperative Extension Service and ar-

anged by the National Committee on Boys and Girls Club Work. Among the wide range of projects and activities carried on in nearly 91,000 clubs are field crops, clothing, poultry, achievement, entomology, health, safety, leadership, foods, soil and water conservation, swine, and tractor. To be eligible for a state or national award, the 4-H'er must be over 14 years, and must have completed three years of club work. Awards include \$400 college scholarships and all-expense trips to the National Club Congress. They are provided each year by half a hundred business firms, educational foundations and private citizens. Some of these 4-H benefactors are: Ford Motor Co., International Harvester Co., Kerr Glass Mfg. Corp., Coats and Clark, Inc., Oliver Corporation, Carnation Company, Simplicity Pattern Co., Westinghouse Educational Foundation, Hercules Powder Co., Arcadian Products Department of Allied Chemical Corporation, Betty Crocker of General Mills, Whirlpool Corporation, Allis-Chalmers Mfg. Co., Montgomery Ward, E. I. Lilly and Company, Sears-Roebuck Foundation, Edward Foss Wilson, General Motors, Firestone Tire & Rubber Company, and Moorman Manufacturing Company.

### U. P. SERVICE ENDS

Lewiston, Oct. 26 — The Union Pacific Railroad Co.'s passenger train from Lewiston to Ayer Junction, rolled smoothly out of the city last night at 6:30, the apparent end of service started 50 years ago.

The road three years ago had said it was losing money on the run and wanted to discontinue it. In August, that permission was given. An appeal of the decision is before the Idaho Supreme Court, however.

Aboard, for what may have been the final run were 12 passengers. Two of them said they were cutting short their visits here so they could get home without making a round-about journey. The Pullman sleeping car had no passengers. Also on board the train was a crew of six.

During the decades of operation the train had provided sleeper and coach service to and from Portland and had made connections to other points on the Pacific coast, to the south and to the east. The railroad has proposed as a substitute service a bus connecting with the Spokane-Portland train at Hooper, Wash.

With the end of the U. P. service, Lewiston is left with one passenger train, the one-trip-a-day Northern Pacific Railway service to Spokane. The N. P.'s Budd car leaves here each afternoon at 4:30. It arrives daily at 12:45 p. m. from Spokane.

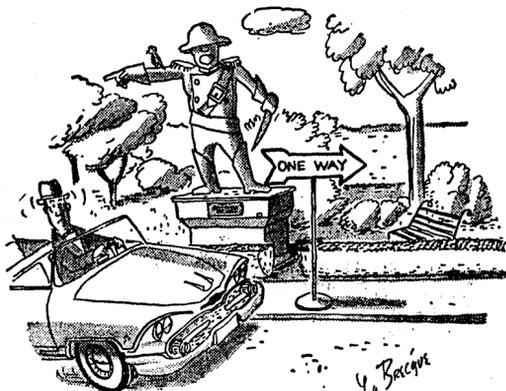

Suspension of the U. P. service has been appealed to the Supreme Court by James Givens, attorney for the Lewiston Chamber of Commerce, but it is not expected any action will be taken on the appeal until some time next year.

The Union Pacific was given permission to suspend the operation by the Idaho Public Utilities Commission and the Washington Public Utilities Commission in an order dated Aug. 15. Both commissions denied appeals for re-hearings earlier this month.

There were six people on the morning train, including Marion Grose-dose, 81, of Juliaetta, who was returning home from Oregon City, Ore., where he helped a brother, William, celebrate his 86th birthday anniversary.

### NO PROGRESS

After a visit to an old friend in the hospital, novelist Irvin Shaw too the patient's pretty nurse aside and said: "Give me the real lowdown. Is he making any progress?" "None at all," replied the nurse decisively. "He's not my type."

### CATTLE GRUBS

New grub control methods can save Latah county cattlemen thousands of dollars. Research has come up with a material that will kill the grubs in the animals body.

Cattle grubs or "Warbles" as they are commonly called cost the cattle industry millions of dollars. Grubs cut holes in the hides of animals and ruin meat on the loin, which is the most expensive cut.

In the past grub control was attempted by using high pressure spray with rotonone in the early spring after the grubs were in the cattle backs and had cut holes through the skin. Now the cattle can be sprayed in the fall with the new systemic poison which enters the animals body and kills the grub before extensive damage to the hide and meat occurs. Although the cost of the new spray material is about a dollar a head the

control of grubs in the cattle will save the cattlemen many millions of dollars.

Right now is a good time to use the grub control, either as a spray or fed as a large pill, or bolus, reports Homer Futter, Latah county agent.

Don't use on weak, sick or very young animals. Ranchers planning to use this method should contact the county agent's office for complete information.

ATTEST: R. E. MAGNUSON, Clerk. 45-1

TO THE EDITOR

In the past year I have had three pets. All of them are now dead. An accident is one thing, but this deliberate killing is not only cruel, it is vicious.

It is a heart-breaking experience for a little child and an adult alike, to have their cat or dog come to them crying in pain, and know that all their efforts to save these pets will fail. Strychnine is a quick and deadly killer.

Is this one, who poisons a dear pet, a part of God's plan? I hope so for their sake! — Mrs. L. E. Ware, Kendrick, Idaho.

If things ever get back to normal, we'll probably wonder what's wrong! Taxes could be a lot worse. Suppose we had to pay tax on what we think we're worth.

**HELLO, FOLKS:**

Well, now that the "smoke of political battle has cleared away" it's time to think about the coming winter months. Does your car, pickup or truck have sharp, well defined tread on its tires? If not, come in and find out just how cheaply you can own new mud and snow tires, or if you prefer, new regular tires — and let us tractionize them!

An elderly gentleman observed a small boy trying to ring a door bell. The boy had trouble reaching the bell button, so the kindly old man walked up on the porch and pushed it for him. Then he asked the boy what he was going to do next. "I'm going to run like heck," Mister. "What are you gonna do?"

How's that stove oil tank? Is it

full and ready to keep you warm? If not, pick up the phone and call us at 1251. Say "Fill 'er up," and we'll do the rest. Or, better still, ask about our Keep Full Service.

They had not met for some time. "And you say that last week you were in the town where I live?" she inquired.

"Yes," replied John. "And you thought of me, John?" "I sure did," replied John. "I said to myself, 'Why, isn't this the town where what's-her-name is living?'"

Yes, we stock Prestone, chains, chain tighteners, and many other winter necessities.

For smooth winter starts let us fill that tank with Union 7600 or Union Royal Gasolines.
