VICE PRESIDENT

Spokane — V. S. Casebolt, former Palouse Division manager for the Washington Water Power Co., and manager of the utility's Personnel and Industrial Relations department, has been appointed Assistant Vice President, according to an announcement by George M. Bhunzell, executive vice president of the com-

pany. The action was taken at the annual meeting of shareholders and directors on May 8th.

Casebolt started work for the company as a part time lineman in 1921. He was made local manager in Bovill, Idaho, in 1927. Following a series of promotions he was made division manager in 1953, and left that job to assume management of the personnel department in Spokane.

In other actions at the board meeting the directors declared a common stock dividend of 50 cents per share payable on June 15, 1959, to the stockholders of record at the close of business on May 22nd.

Our Note: Mr. Casebolt will be remembered by many here, he having been a frequent visitor while stationed at Moscow, and later Pullman. He worked as a lineman in association with the late Jack Barnes.

only **ELECTRIC HEAT** is
 "Tailor-Made" to fit any
 large or small business!

Used by **RESTAURANTS, SHOPS, MOTELS, GARAGES, OFFICES, CLINICS, WAREHOUSES.**

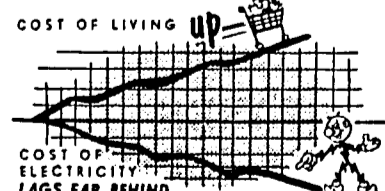

Easy installation and simple maintenance make electricity the "tailor-made" heat for commercial or institutional buildings. Yes, electric heat is clean, practical and convenient. Temperature in any single area can be regulated accurately or turned off completely when not needed. At the same time, electric heat saves valuable space, eliminating need for a central heating unit. To do the entire heating job, or to act as a heating partner for the central system in hard-to-heat areas, electric heat answers all requirements. There's a style and size "tailored" to fit any need. And, it fits the business budget, too; economical to install and reasonable to operate on WWP rates.

Science Makes Own Snow to Study Its Mysteries

WASHINGTON—Scientists have created miniature snow storms in their laboratories to unravel the mysteries of one of nature's greatest beauties.

No one has ever found two crystals of snow exactly alike, although thousands have been photographed. The six-sided crystals, as delicate as the finest lace, are copied by designers seeking exquisite patterns for dresses, china, and other objects.

A quarter of a century ago, Dr. Ukichiro Nakaya and his colleagues at Hokkaido University, Japan, began an intensive study of snow, the National Geographic Society says. By 1948 they had succeeded in duplicating in a cold chamber all the natural types of snow crystals.

After more years of research, Dr. Nakaya has reported that the variety in snow crystals is caused by differences in the temperature and the degree of humidity in the atmosphere. The discovery makes it possible for scientists to estimate upper-air conditions during a snowfall by examining the shape of snow crystals on the ground.

Snow forms through the condensation of water vapor on tiny particles of matter, such as dust, in the atmosphere. Each particle is only about five hundred-thousandths of an inch in diameter—so small that it can be studied only with an electron microscope.

In colder areas, crystals fall as individual units, but in warmer regions, crystals stick together while making their earthward journey. Such a group is called a snowflake, and, in extreme cases, it may grow to be four inches in diameter.

Ocean Floor Holds Many Secrets

WASHINGTON — Scientists hope to pry open Davy Jones' locker to read the private diary of the earth.

Powdered rock, silt, plants, shells, bones, and meteorites have been dropping into the ocean abysses for billions of years. Layer after layer of sedimentary rock has formed, providing an eons-old chronicle of earthly happenings. In places this record may go back to the time when oceans were first formed.

A new branch of science has developed in recent years to study the history carved in stone at the bottom of the sea, the National Geographic Society says. Known as marine geology, it is so new that until 1948 there was no English-textbook in the field.

A major breakthrough occurred when a Swedish scientist, Dr. B. Kullenberg, invented the piston corer—a device for removing a long column of ocean sediment. So far, scientists have barely scratched the ocean floor with this promising technique, but they hope drilling will eventually help to answer such questions as "When did life begin?" and "How old is the earth?"

Hospitalized Child Study Is Reported

CHICAGO — The personal handling of a hospitalized child by doctors and nurses is just as important to his parents as his medical care and treatment, according to researchers.

In a report on the reactions of 100 parents whose children were hospitalized, San Francisco researchers said that hospitalization is as hard on the parents as on the child and that modifications in hospital routine and adequate explanations by the physician can do much to ease the parent's anxiety and their children's.

Of the 100 parents interviewed on the child's admission, all expressed anxiety regarding separation from their child. In 57 their anxiety was "overwhelming" and the parents "had such difficulty coping with their own fears and anxieties that they were unable to give support to their child," the authors said.

However, 44 of 68 parents interviewed on their children's discharge felt better about the hospitalization because of the "friendly personal handling" of their child by the hospital staff.

Tree Farm System Has Grown Rapidly

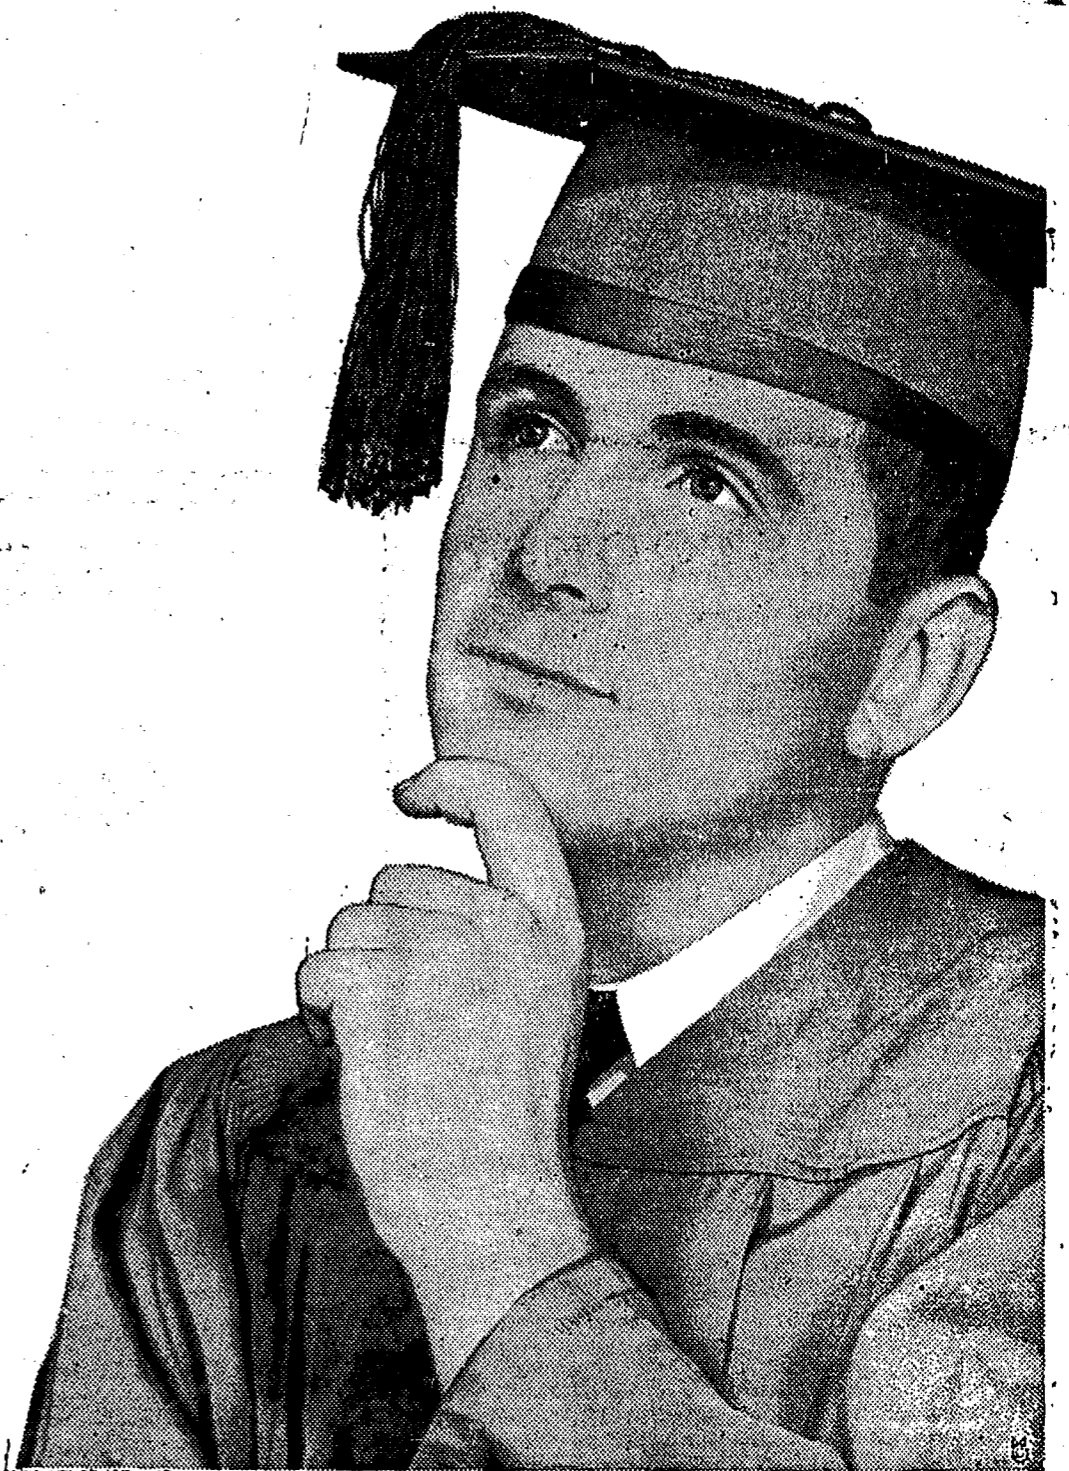

CHICAGO — More than fifteen years ago the forest industries recognized the tree-growing potential of small woodlots and began doing something about developing them through the American Tree Farm System. Since that time the Tree Farm program has had solid support from the forest industries. Under sponsorship of the American Forest Products Industries it has spread to 45 states. More than 43 million acres of privately owned woodlands have been certified as Tree Farms.

CONGRATULATIONS, SENIORS!

Our eyes are upon you and our hearts full of pride as we view your splendid record in academics and extra curricular activities.

We have watched you grow in wisdom and stature, and your achievements have been a source of pride and joy to your communities.

As you venture into new and different pathways, you're wished a world of happiness and success along life's way — for you are tomorrow's golden hope, on your graduation day!

This good will message sponsored by the merchants of your home towns — Juliaetta and Kendrick.

MEAT HOGS

The meat-type hog has the smell of success in the Lewiston area, thanks to the Twin-River Swine

DID YOU KNOW

Natural gas used by customers of WWPCo. comes both from Canada and from New Mexico through a high-pressure pipeline more than a thousand miles long.

How time flies! Back in 1928 the company had only 6,773 stockholders while today those who have invested at least part of their savings in WWPCo. number 21,576 stockholders, with 736,747 shares being owned in Washington, Idaho, Oregon, Montana and California. Incidentally, the company has never missed a cash dividend for 60 years.

There are 200,000 gasoline stations in the U.S.A., 50,000 drug stores, but only 1,400 regular bookstores.

It takes money to run a big company, and small ones for that matter. Back in 1940, WWPCo. paid \$2,472,191 in payroll to regular and temporary employees. In 1957, WWPCo.'s payroll had climbed to \$5,354,000, with another \$2,060,000 going to construction and other personnel—total \$7,414,000.

Spokane and the Inland Empire are lucky to have abundant good water. The average daily U.S.A. consumption of water per person is 150 gallons.

Employees seem to like working at the Water Power. A total of 478 employees have been with the company 20 years or more. Each year the company gives a dinner party to its "Old Timers."

Have you noticed that your taxes have increased? WWPCo. has noticed it, too. In 1940, WWPCo. paid \$2,419,060 taxes collected in your electric service bill, while in 1958, taxes had climbed to \$5,028,367.

Producers' association. The group was just an idea a year ago. When the first anniversary rolled around in April 1959, regular meetings attracted as many as 70 people and the association is still growing.

Membership includes swine producers in the Lewiston trading area. The district takes in Kendrick, Lapwai, Lenore-Prairie, Genesee, and Lewiston in Idaho, and Asotin, Clarkston, and Colton in Washington. The rivers from which the name comes are the Clearwater and Snake.

The association sprang from a recommendation of the livestock advisory committee in Nez Perce county. Farmers cooperating in program development with Loren Kambitsch, county extension agent, went to work on the proposition that something of lasting benefit could be done for the swine industry.

As a marketing group the association promotes sale of clean, meat-type hogs at local auctions. Another project taking shape this year is the sponsorship of weaner pigs for 4-H club members to feed for the fall

Get to know your forest friends

Wildlife is yours to know, enjoy and protect!

You'll be seeing a great deal of the family of friendly beavers above. They're being featured in a variety of school posters, outdoor panels and leaflets as part of the new wildlife conservation program sponsored as a public service by Standard Oil Company of California. Objective of the program is to help preserve America's outdoor heritage by promoting wildlife appreciation and good conservation practices.

Officers for 1959 are Jack Mitchell, Lewiston, president; Bud Heffel, of Kendrick, vice president; and L. A. George, Clarkston, secretary-treasurer. Mitchell is in his second year as president.

Since the initial meeting at which Wade Wells, livestock specialist of the University of Idaho extension service, outlined opportunities for an association, the members have heard talks and watched demonstrations by several professors of the university and Washington State College. They have had tips on control of swine diseases from veterinarians and ideas on marketing by Russ Gladhart, manager of a stockyard in Spokane. Information on certification of litters is on the agenda for this spring.

"The fellows have been bringing their wives to the recent meetings," County Agent Kambitsch said. "They seem as interested in the talk as the men. They are a group that likes to get together and plan. They are carrying out a program. Their enthusiasm has been contagious."

Directors elected in 1958 to three-year terms, are — in addition to the

main officers — Henry Hasse, Lenore; Clarence Aherin, Genesee; Jack Wheeler, Lapwai; and Jim Morrison, Colton. Richard Neyens, Genesee, was elected a director in 1959 to take the place of Aherin.

HOUSEHOLD TIPS

Oil your sewing machine once a month whether you use it or not, suggests the county home agent. The machine needs oil to keep it in good condition. One drop in each hole is enough. In fact, it is preferred. Too much oil can cause skipped stitches.

Miss Esther Nystrom, clothing specialist of the University of Idaho extension service, recommends oiling after each continuous use of as much as eight hours. She also urges a thorough cleaning once a year with a safe cleaning fluid or kerosene. Take the machine outdoors for the job. That's a safety measure. There's another reason, too. The inside of the house a mess.

After cleaning the machine, dry it and give it oil in appropriate places.

The grasshopper who came to dinner

What a pest! This uninvited guest eats your family's dinner while the food is still growing. Together with other insects, he destroys more than four billion dollars' worth of U. S. crops each year.

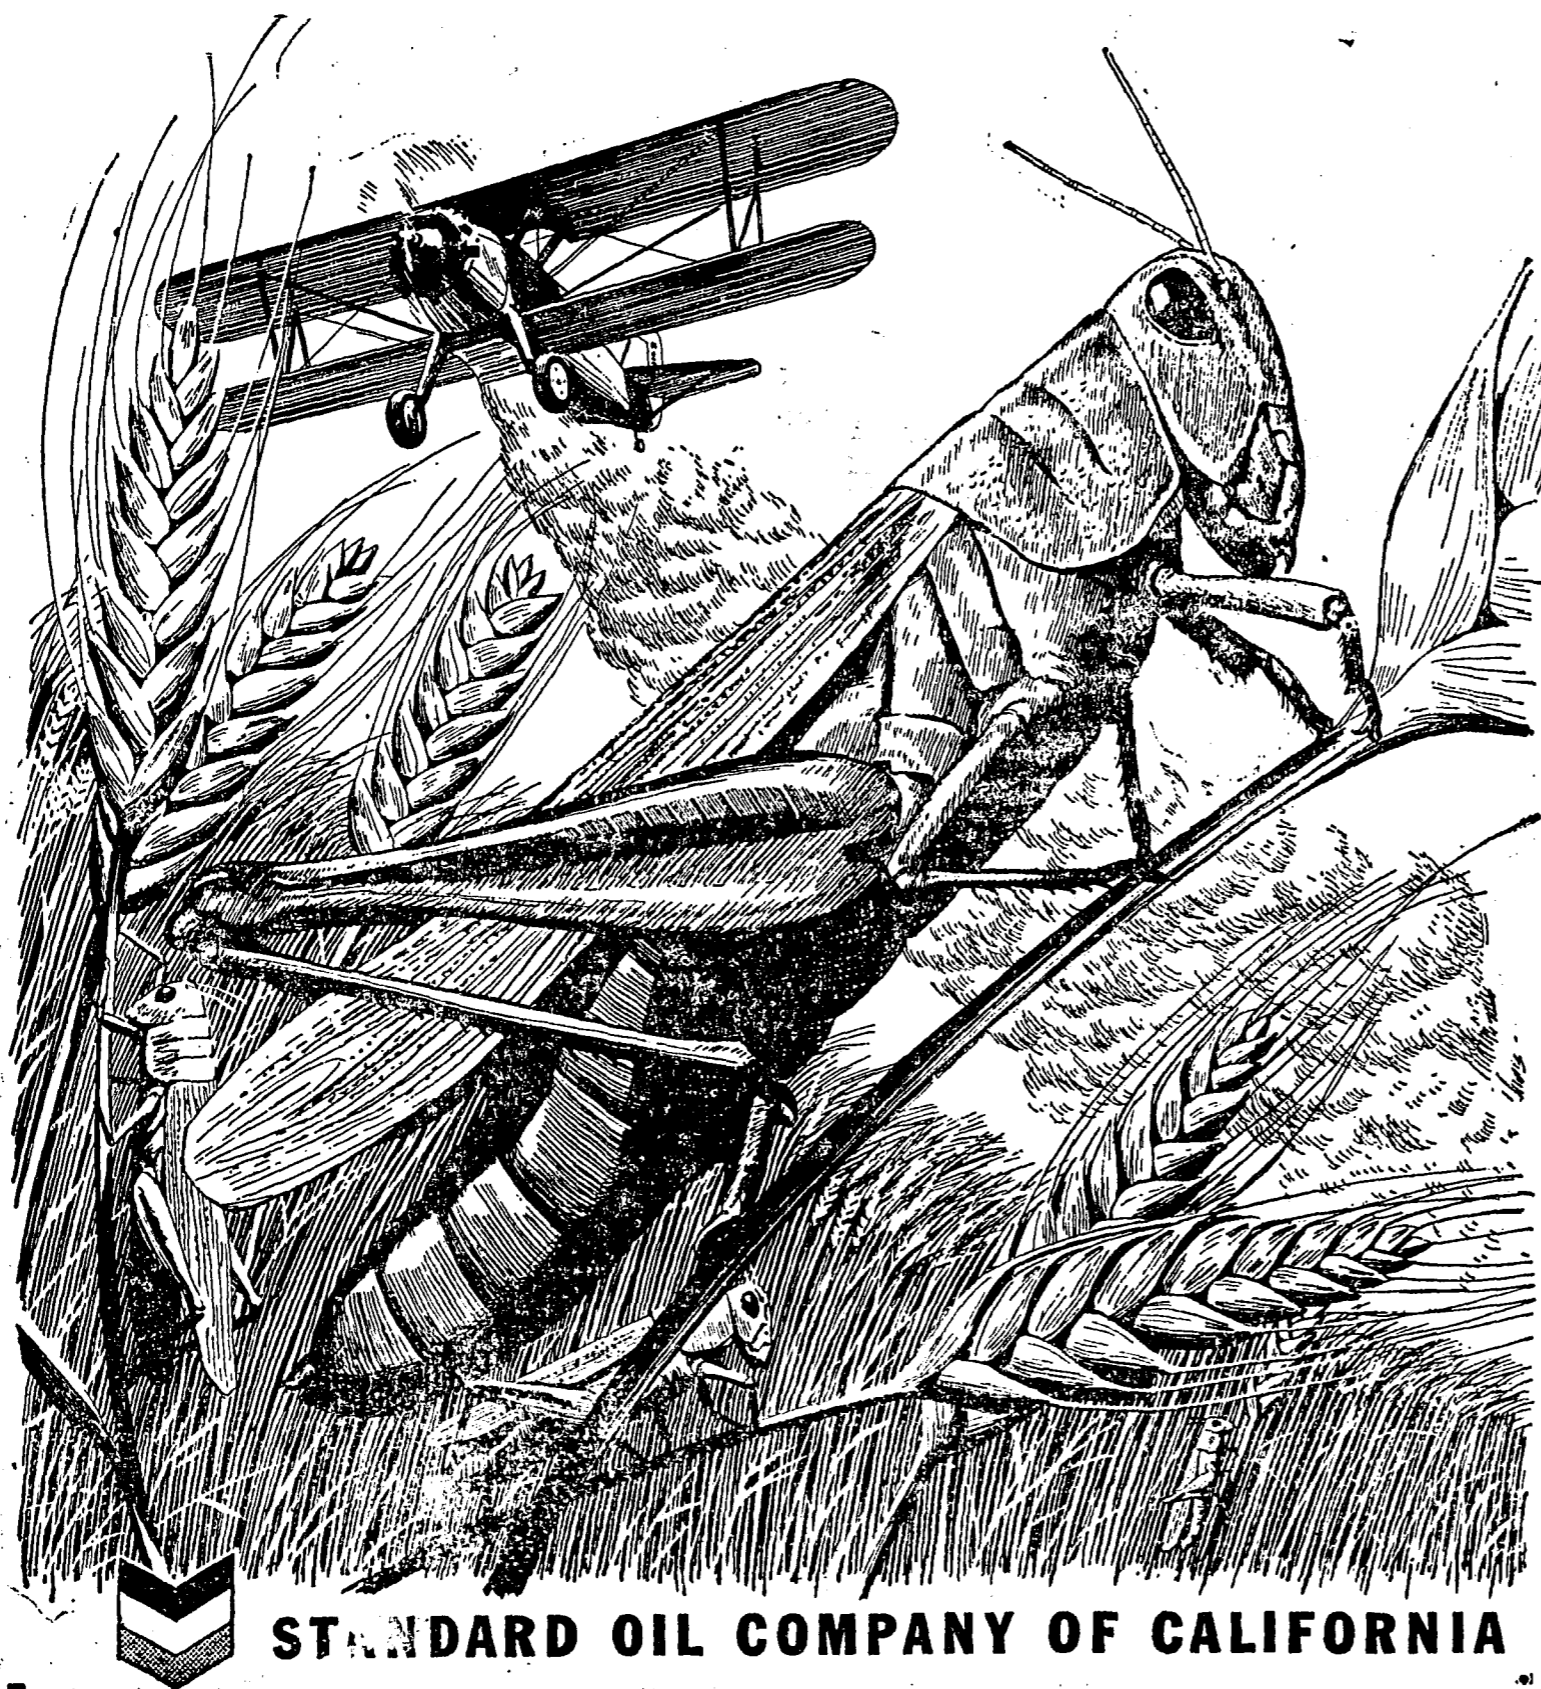

To help farmers reduce these losses, Standard's scientists are at work on new and better insecticides. Since 1907, we've developed more than 650 products for every general plant disease and insect problem . . . from home garden products to agricultural pest controls. Last year our products helped save enough food of all kinds to feed more than a million people.

While this is encouraging progress, the battle never ends. Insects are developing harder strains

which are more difficult to control. And protecting our food supply is becoming more important, for by 1970 there will be an additional 36 million people in the United States.

That's why one of our most important jobs is creating better ORTHO* pest controls. Through research that helps farmers provide more food for a growing population, the people at Standard are planning ahead to serve you better.

*ORTHO pesticides and fertilizers are made by Standard's wholly-owned subsidiary, California Spray-Chemical Corp., and sold in 75 Free World countries.

JOHNNY AND HIS ARITHMETIC

Is fourth grader Johnny learning his arithmetic any better than — or even as well as — his parents did? He should do better than his parents — there's little room for argument on that score. Arithmetic long has been the most poorly learned and least liked subject in elementary school. If you doubt this, just look at the way high school students avoid mathematics.

Now comes news of a new program that is proving that Johnny CAN learn arithmetic better and faster than children ever have in the past, and enjoy it in the process. The program, already in use in some 1,500 schools, was devised by two college professors of mathematics and education, Maurice Hartung and Henry Van Engen, who believe that grade schools should emphasize basic mathematics ideas that will carry over to high school courses. Most important, the program's ultimate goal is to teach children to succeed with story type problems.

Teachers know that the biggest weakness both of children and adults is problem solving. They can "figure" very well when they are told

to divide or multiply but if they must decide for themselves which process to use, they are lost.

In Chicago, recently, 54 out of 55 high school seniors were able to divide 234 by 3; but over 40 were unable to "state what per cent of 60 makes 12". They didn't know they were supposed to divide 12 by 60. No one told them!

Meeting this weakness head-on, the Hartung-Van Engen program begins teaching basic mathematics to first graders. They explore the "why's" behind the rules, instead of blindly memorizing what the teacher or the book says. Third graders start using equations to solve problems.

By the time these youngsters get to the sixth grade, they succeed with percents, ratios, and other topics usually taught in seventh or eighth grade. They understand what they're doing, are proud of their ability, and their teachers are confident they will be eager beavers for high school math.

In an age when the country needs so many scientists and engineers with good mathematical backgrounds, this is doubly important. Parents owe a vote of thanks to school educators who are using this new method in order to give our children the best possible training.

"I don't feel it's entirely my fault. The salesman said this car was fully automatic."

FASHIONS

A staid gentleman, judge at a horse show, was upset by the dress of some of the girls. "Just look at that young person with the poodle cut, the cigarette and blue jeans," he declared to a bystander. "Is a boy or a girl?"

"It's a girl. She's my daughter." "Oh, forgive me, sir," apologized the old fellow. "I never dreamed you were her father."

"I'm not," snapped the bystander, "I'm her mother!"

NOTICE OF SALE OF KENDRICK JOINT CLASS B SCHOOL DISTRICT NO. 283 OF NEZ PERCE, LATAH AND CLEARWATER COUNTIES, IDAHO, BONDS OF \$385,000.00

NOTICE IS HEREBY GIVEN that the Board of Trustees of Kendrick Joint Class B School District No. 283 of Nez Perce, Latah and Clearwater Counties, Idaho, will sell at the regular meeting place of said Board in the Directors' Room of the Farmers Bank in Kendrick, Idaho, on June 9, 1959, at 8:00 o'clock P. M., Pacific Standard Time, the negotiable coupon bonds of said School District in the principal amount of \$385,000.00, authorized at a special election held within said District on April 3, 1959, for the purpose of paying the cost and expense of certain specified legal school purposes as set forth and described in a Resolution of the Board of Trustees adopted on March 9, 1959.

The foregoing bonds shall be dated June 1, 1959, shall be of the denomination of \$1,000.00 each, shall be numbered from 1 to 385, both inclusive, and shall be amortized and payable on June first in each of the following years, viz: \$12,000.00 in each of the years 1960 and 1961; \$13,000.00 in each of the years 1962 and 1963; \$14,000.00 in each of the years 1964 and 1965; \$15,000.00 in each of the years 1966 and 1967; \$16,000.00 in each of the years 1968 and 1969; \$17,000.00 in each of the years 1970 and 1971; \$18,000.00 in each of the years 1972 and 1973; \$19,000.00 in each of the years 1974 and 1975; \$20,000.00 in each of the years 1976 and 1977; \$21,000.00 in the year 1978; and \$23,000.00 in the year 1979.

4-H CAMP

U. of I., Moscow — Camp Heyburn on the shore of Lake Chatcolet, near St. Maries, has a busy season ahead. From May until the end of August the 4-H recreation center will be jumping, according to the schedule announced by G. T. McAlexander, district agent of the University of Idaho extension service.

Chatcolab, a session for recreation leaders, was held May 10 to 16. Other dates are: June 22 to 24, Whitman county, Wash., 4-H; June 24 to 27, Lincoln county, Wash., 4-H; June 28 to July 1, Adams county, Wash., 4-H; July 2 to 4, Heyburn council; July 5 to 8, Bonner and Boundary county 4-H.

July 8 to 11, Benewah county 4-H; July 12 to 15, Latah county 4-H; July 15 to 18, Clearwater and Nez-perce county 4-H; July 20 to 22, Spokane stake MIA; July 22 to 25, Kootenai county 4-H.

July 26 to 31, Washing Juvenile Grange; August 3 to 8, Grand Coulee stake MIA; August 10 to 14, Spokane county, and August 24 to 28, forestry resource camp.

There is no substitute for good food, and you will find every kind to tickle your palate at Blewett's Grocery in Kendrick.

Last pub. June 18, 1959.

ORDINANCE NO. 113

An Ordinance prohibiting dogs from running at large within the incorporated limits of the Village of Juliaetta. Providing for a penalty for the violation of any of the terms of this Ordinance and repealing Ordinance No. 111 of the Village of Juliaetta, Idaho.

Be It Ordained by the Chairman and Board of Trustees of the Village of Juliaetta, Latah County, Idaho:

Section 1. That from and after the passage, approval and first publication of this Ordinance it shall be unlawful for any person owning a dog to allow such dog to run at large from March 1st to October 15th of each year on any of the streets or alleys within the incorporated limits of the Village of Juliaetta, Latah County, State of Idaho.

Section 2. Any person within said Village of Juliaetta owning any dog or dogs within the meaning of this Ordinance, or who shall have the control of any such dog, and who shall allow any such dog to run at large upon any of the streets or alleys or upon any property within the Village of Juliaetta not the property of such owner, shall be deemed to have violated this Ordinance.

Section 3. Any dog as defined in this Ordinance which is allowed to run at large within the Village of Juliaetta between the dates of March 1st and October 15th of each year may be taken up and impounded by the Village Marshal, and the owner shall pay to the Marshal of the Village of Juliaetta the sum of one dollar (\$1.00) for each dog so impounded by the Village Marshal before such dog shall be released, and in addition thereto such owner shall be subject to the payment of a fine as defined in Section 4 of this Ordinance.

Section 4. In addition to the penalty provided for in Section 3 of this Ordinance, any person violating the terms of this Ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in the sum of not less than one dollar (\$1.00) for the first offense and not more than five dollars (\$5.00) for each offense thereafter, together with the cost of prosecution.

Section 5. It is hereby made the duty of the Village Marshal to enforce the provisions of this Ordinance and in the event that any such dog shall be impounded within the Village of Juliaetta by the Village Marshal, he shall give immediate notice to the owner of such dog. And if the impounding fee provided for herein is not paid by such owner within 48 hours of the impounding of such dog, the Village Marshal shall proceed to dispose of said dog.

Section 6. Nothing in this Ordinance contained shall be construed as compelling the Village of Juliaetta or its officers to impound any dog running at large within the limits of the Village of Juliaetta, but the Village Marshal shall proceed under the provision of Section 4 of this Ordinance without impounding any dog running at large.

Section 7. This Ordinance shall be in full force and effect from and after its passage, approval and first publication.

Sealed bids for said bonds are requested and required. Bidders therefor must submit sealed written bids specifying:

(a) The lowest rate of interest and premium, if any, above par, at which the bidder will purchase such bonds; or

(b) The lowest rate of interest at which the bidder will purchase such bonds at par.

and each such bid (except any bid which may be received from the State of Idaho or the Department of Public Investments) is required to be accompanied by a Cashier's Check or a Certified Check made payable to the Treasurer of the School District, in an amount equaling five per cent (5%) of the amount of any such bid, or by a cash deposit in like amount, which such Cashier's Check, Certified Check, or cash deposit shall be returned or forfeited or applied upon the purchase of said bonds, as provided by Section 57-216 of the Idaho Code of 1947, as amended.

All bids must state net interest cost to Kendrick Joint Class B School District No. 283 of Nez Perce, Latah and Clearwater Counties, Idaho.

Sealed bids for said bonds will be received by the Clerk of said Board of Trustees of the foregoing School District in the office of the School District in the Directors' Room of the Farmers Bank in Kendrick, Idaho, at any time prior to 8:00 o'clock, P. M., Pacific Standard Time, on June 9, 1959, at which time, and at the place above specified, the Board of Trustees of the foregoing District will meet in public meeting for the purpose of considering any bids which may be received therefor, and for the purpose of awarding such bonds or rejecting any and all bids therefor.

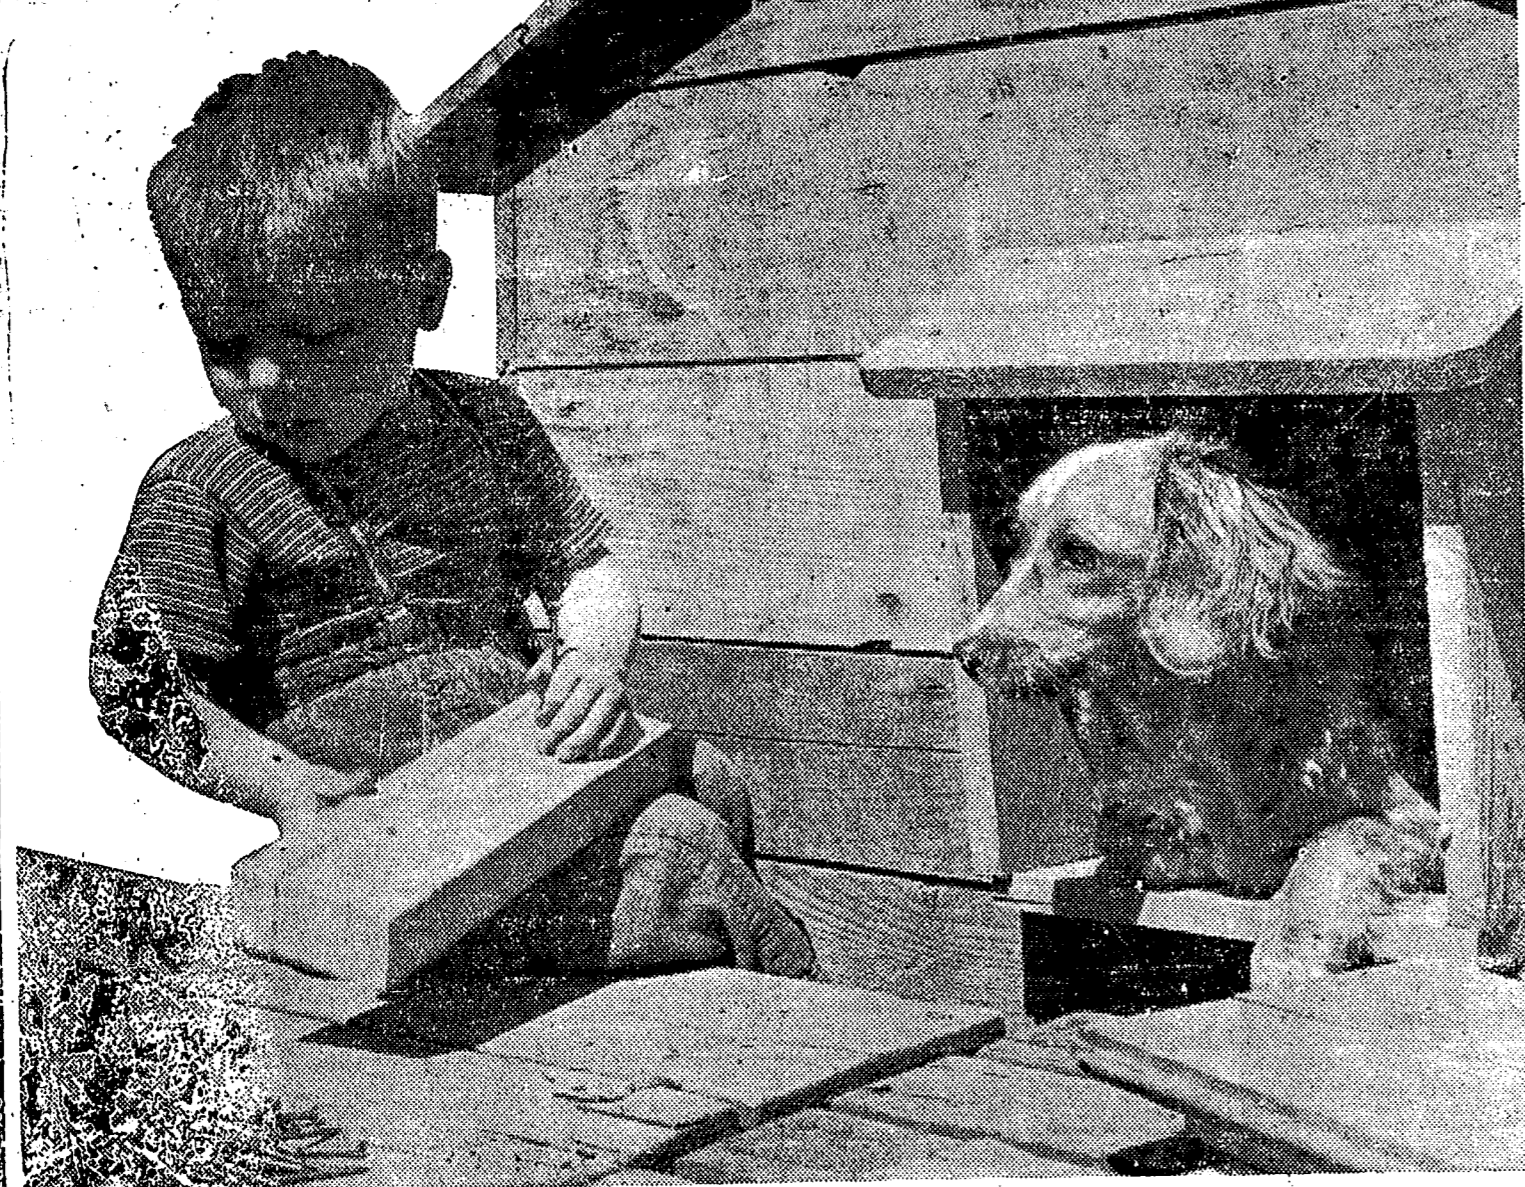

The legal approving opinion of Burcham & Blair, bond attorneys of Spokane, Washington, will be furnished the successful bidder. All bids must be unconditional. Printed bonds ready for execution will be furnished the successful bidder.

KENDRICK JOINT CLASS B SCHOOL DISTRICT NO. 283 OF NEZ PERCE, LATAH AND CLEARWATER COUNTIES, IDAHO.

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, FOLKS:

Well, we can't offer you anything but sympathy for your weather trials as you try to farm — but by golly we can offer you the best as stove oil — Union — until such time as the weather warms up and you can go back to work. Call us at 4251.

"I don't think any woman can keep a secret."
"My wife can. We've been married ten years and she's never told me why she's always wanting money!"

Say, are you planning a trip over the long Memorial Day weekend? If you are, why not bring in your car and let us get it ready. We'll thoroughly lubricate it with Union Lubricants, and drain and fill the crankcase with that won-

derful Royal Triton Motor Oil — the oil without a peer. Then you'll be set for happy driving.

"Look here," said the worried husband to the new maid, "why did you tell my wife what time I came in last night, when I asked you not to?"
"I didn't," replied the maid. "She asked me what time you got in, and I told her I was too busy cooking breakfast to look at the clock."

Have you checked your supplies of gasoline, diesel fuel, motor oils and lubricants lately? Are you set to go to work when the rains stop? If not, call us at 4251 — for Union Products. We hurry!

There are no better products than Union. Try them.

CAMERON SECTION ACTIVITIES VARIED

Relatives Gather

A group of relatives gathered at the Albert Glenn home last Thursday after attending the funeral services of Charles Oldag in Cameron. An afternoon luncheon was served to the group which was prepared by Mrs. Albert Glenn, Mrs. Wilbert Brun- siew, Mrs. Ervin Lohman and Mrs. Elmer Lohman.

Those present included Mrs. Pearl Reinertsen, Mrs. Mary Wessels and Ted Wessels of Spokane; Earl Wessels of Cofax; Mr. and Mrs. Dave Garrett and Mr. and Mrs. Henry Kostner, Genesee; Mr. and Mrs. Art. Rosenau and Mr. and Mrs. Ervin Plomer, Lewiston; Mr. and Mrs. Carl Plomer, Moscow; Mr. and Mrs. Gus Blum, Pullman; Mrs. Carrie Henshaw and Mrs. Edna Holman and daughter Susan of Portland; Mrs. Hattie Lohman, Mr. and Mrs. Ervin Lohman, Mr. and Mrs. Elmer Lohman; Mr. and Mrs. Wilbert Brun- siew; Mr. and Mrs. Albert Glenn and Mrs. Blum, and Rev. and Mrs. Theo Meske.

Club Meets

The Cameron Home Demonstration Club met last Wednesday afternoon with Mrs. George Wilken in Ken- drick. Mrs. Emil Silflow and Mrs. Harold Silflow gave a demonstration on "Packing Lunches."

Mrs. Wilken served delicious re- freshments at the close of the after- noon.

General News

Mr. and Mrs. Gus Kruger of Ken- drick spent Thursday evening visit- ing with Mr. and Mrs. Wilbert Brun- siew.

Mrs. Minnie Koopp of Juliaetta spent last week visiting her brother and wife, Mr. and Mrs. Aug. Bram- mer.

Mr. and Mrs. Aug. Brammer and their house guest, Mrs. Minnie Koopp, spent last Wednesday with Mr. and Mrs. Cecil Brammer on Cream ridge.

Mr. and Mrs. Earl Whittinger were Friday dinner guests of Mr. and Mrs. Fred Whittinger in Clarkston. Vester Whittinger of Everett, Wash., was also a guest.

Betty Blankenship was a Satur- day over-night guest of Lalonda King at Culesac.

Mr. and Mrs. Wilbert Brun- siew were Saturday dinner and afternoon

guests of Mr. and Mrs. Earl Whit- inger. Mrs. Brun- siew helped Mrs. Whittinger finish her quilt on which she was quilting.

BETTER DIESEL PERFORMANCE

When you use RPM DELO Lubricating Oils, your diesel engines spend more time working, less time in the shop. It stays on parts whether engine is hot or cold, running or idle. Special compounds prevent deposits that clog and stick rings.

To extend the useful service life of your diesel engines and reduce down time, use RPM DELO Lubricating Oils.
