

Kendrick May Seek State Aid To Lower 25 m.p.h. City Speed Limit

Kendrick village officials, long plagued with the problem of speeding past the park, which is also a playground area, may be forced to take drastic steps to curb the offenders, Frank Abrams, Kendrick's mayor, said this week. The offenders not only are cars, but include logging trucks, lumber hauling trucks and even a few farm trucks — all of which creates an extremely dangerous situation for the children who are in the park playing and taking swimming lessons.

Frank Abrams said that if the city did not receive the complete cooperation of the loggers, lumber truck operators and others who drive Kendrick's Main Street, in the maintenance of safe and proper speeds while passing through town, the trustees would seek to have the speed limit reduced — even if it meant going to the governor for help — and then strictly enforced — even if that meant calling in the State Police and the Latah County Sheriff in order to do so — for one child's life means a great deal more to us than the very few minutes a day a trucker can save by speeding through town.

Mr. Abrams cited an incident last week in which one loaded long-log truck passed another going in the same direction within the business district of Kendrick! He said this incident was reported to the trucking firm's employer, and the latter had taken the firmest of steps to curb any such incidents or speeding on the part of the drivers. In another incident last week-end one of this same firm's trucks pulled out in front of a state fire truck operated by Norman Lewis, and which had the siren going!

Abrams and village marshal E. M. White joined in saying that a speed of 25 miles per hour past the village park and playground area — a speed recommended by the state — is excessive and dangerous — and if drivers won't cooperate, means will be found to see that they do!

Both said: "We realize that the truck driver has a living to make the same as anyone else, and the more trips he makes, the greater his pay — but the very few minutes per day he might gain by speeding through town won't gain him even one part of a trip per day — not to mention the lives he may endanger. So beware. Logging trucks of one firm are the ones who have forced the decision — but everyone will be treated alike.

Local residents agree with the village officials, many saying: "This move is long over-due. Law enforcement needs to step in before some child loses a life, or a car is smashed to bits."

WHEAT QUOTAS TO BE VOTED ON IN AREA THURSDAY

Nez Perce and Latah County wheat farmers who will harvest more than 15 acres of 1960-crop wheat as grain will be eligible to vote Thursday in a nationwide poll which will determine whether market quotas and penalties will be in effect for the 1960 wheat crop.

Farms will cast ballots in their respective communities between 8:00 a. m. and 6:00 p. m., said Mrs. Helen Van Sant, office manager of the Agricultural Stabilization and Conservation Committee.

Area voting places will include: Leland Church basement, Melrose-Peck Community Hall, American Legion Hall at Genesee, Southwick Ladies Aid Hall, Kendrick City Hall.

If two-thirds of the growers casting ballots in the 39 commercial wheat states approve the referendum, marketing quotas will be in effect in those states. Farmers who exceed their wheat acreage allotments will be subject to quota penalties on their excess wheat. If a grower complies with his wheat allotment he will be eligible for price support — which will probably be around 75 percent of parity.

The quotas and penalties will not be in effect if more than one-third of the voting growers oppose them. Acreage allotments will remain in effect for the 1960-crop — a condition of eligibility for price support which is 50 percent of parity, as directed by law.

Commercial states are those with wheat allotments of more than 25,000 acres. Non-commercial wheat states for 1960 include Alaska, Connecticut, Florida, Louisiana, Maine, Massachusetts, Nevada, New Hampshire, Rhode Island and Vermont.

JULIAETTA-KENDRICK LITTLE LEAGUERS WIN 2 OF 3; ENTER TOURNAY PLAY SUNDAY

The Juliaetta-Kendrick Little Leaguers walked off with winning honors from two of the last three games played.

The locals dumped Lewiston 14 to 8 last Thursday, and whopped the Deary nine 5 to 2 on Friday. The only game lost was to Genesee, by a score of 22 to 8.

In the game against Lewiston, the locals had five hits and one error, while Lewiston had the same number of hits, but committed three errors. Lind and Rowden were the batteries for Juliaetta-Kendrick. Magnuson held hitting honors for the evening with 2 for 2. Lind had 2 for 3, and Eldon Fey hit a home run for the locals.

Eldon Fey and Tommy Rowden were the batteries for the Juliaetta-Kendrick nine when they dumped Deary on 4 hits and no errors. Deary had 7 hits and no errors. Hits for the locals went to Magnuson, Eldon Fey, Bobby Meserve and Bruce Vincent, the latter clouting a home run. The game was completed in 50 minutes of play.

The only loss to the Juliaetta-Kendrick aggregation came at the hands of the powerful Genesee squad

"As soon as the plans are completed in Boise, the architects have promised to personally bring them to Kendrick for final approval by the directors and then they will be ready for use in a call for bids," Meserve said.

"The directors have already seen about half of the working plans for the new building, but complete ones have not yet been seen or approved by the board," he added.

HARVEST IS ON

First grain to reach the local warehouses in the 1959 harvest season was fall barley.

Hugh Parks was first with his load last week at the Kendrick Rochdale Co., and Homer Parks, only a few days behind, brought his in this week.

R. E. Watts says the yield is pretty good, but feels the hot weather will affect the grain yields in general.

At the Lewiston Grain Growers, Ben Westendahl said Leonard Wolf was the first to bring in fall barley, last week, with Roy Silflow not far behind. At their Juliaetta warehouse Cletis Hoisington was first with Eldon Heimgartner a close second.

Mr. Westendahl said the barley was of very good quality, with yield reported running from 1½ to 2 tons per acre.

Mr. Westendahl added that the high heat was hurting spring grain, but was not likely to affect the fall wheat.

In the line of "first with harvest" Harry Newman, Cameron, brought in the first load of grass seed, Alta Fescue, Monday afternoon of this week, to Brocke & Sons, Seedsmen. The quality is said to be very good.

GOLDEN WEDDING

Mr. and Mrs. Claude Pippinger of Orofino will be the guests of honor at a Golden Wedding Anniversary Open House, Sunday, Aug. 2, at the home of their son, Mr. and Mrs. Wayne Pippinger, also of Orofino.

OH YOU WEATHER

Local residents who had been complaining about the "chill damp spring weather" were forced to apply the brakes and shift into reverse gear very suddenly this past few days — for Old Sol, really "turned up the thermostat."

Wednesday of last week, according to the "official" thermometer, a reading of 95 degrees. Since that time we have had several "sizzlers" as follows:

Thursday	98
Friday	98
Saturday	102
Sunday	102
Monday	103
Tuesday	100

The Potlatch river is drying up rapidly, although still maintaining a slightly better than average flow for this time of the year.

FLOYD MILLARD DIES THURSDAY

Floyd J. Millard, 55, of Kendrick, an accountant at the Kendrick Equipment Co., died Thursday afternoon, July 16, of a heart attack. He had been ill with a heart ailment for four years.

Mr. Millard was born June 7, 1904, at Juliaetta, Idaho, and had resided in this area all his life. He was united in marriage to Irene Eulen, at Lewiston, Dec. 8, 1928. She survives at the family home in Kendrick.

Mr. Millard was a member of the Methodist Church, the Masonic Lodge, the Kendrick Community Lions Club and the Kendrick Volunteer Fire Department.

He was an avid sports fan, attending, until forced by ill health to discontinue the practice, almost every baseball and basketball game in the Kendrick-Juliaetta area. He was for a number of years manager of the town team basketball team, and also helped coach and manage the Little League teams for a number of years.

For several years he was the owner of the Kendrick Table Supply store at Kendrick, disposing of this business to return to his best-loved work, accounting.

Survivors include a daughter, Mrs. Alvin Sloan of Spokane; two sons, Herb Millard of Juliaetta and Don Millard of Kendrick; three brothers, Everett Millard of Portland, Gerald Millard of Ahsahka and Ralph Millard of Lewiston; a sister, Mrs. Nick Nickens of Kootenai, and four grandchildren.

Funeral services were held Saturday at the Brower-Wann Memorial Chapel in Lewiston, with the Rev. F. C. Schmidt, Kendrick, officiating.

Music was furnished by Mrs. Jack Lohman, Mrs. Burton Souder, Jr., and Mrs. Jud Lee, who sang "The Old Rugged Cross" and "Beyond the Sunset," accompanied at the organ by Mrs. Pauline Brigham.

Active pallbearers were George F. Brocke, Jr., Wm. Johnson, E. M. White, Dave Clayton, Roy Fey and Bud Fey. Honorary bearers were Roy Glenn, H. C. Schupfer, Bernard Jones, Lawrence Heimgartner, Tom Long, Herman Johnson, Geo. Brocke, Sr., F. C. Cuddy, Ross Armitage, and W. H. Weyen, all friends for many years of the deceased. Interment was in the Juliaetta Cemetery.

The funeral parlors at Lewiston were filled to over-flowing, and floral offerings were in profusion, showing the high esteem in which Mr. Millard was held.

There was also a large crowd at the graveside rites in the Juliaetta Cemetery, many attending this who were unable to be present at Lewiston.

OILING ON GRADE

Oiling operations on the Bear Ridge grade, State Highway 7, between Kendrick and Deary, were completed last week, and the grade is oiled from top to bottom.

However, on top, where surface rock proved inferior, having weathered badly during the winter, bids are being called for a special type of oiling job, which includes cement, lime, etc., in an effort to bring the surface up to standard.

All reports indicate, also, that the newly oiled surface of the grade itself is beginning to break up under the impact of heavy trucks and hot weather. Just what steps are or will be taken to correct this, we do not know.

WATER RATIONING

Kendrick village officials say that the water rationing program, begun early this year, is working out quite satisfactorily — the one evening's exception being caused by excessive water use at Armitage Field, a situation which has since been corrected.

It should be borne in mind that the following are the rationing rules — all on the north side of Main Street and west side of the school house hill may water on even numbered days. Those on the south side of Main Street and east of the school house hill may water on the odd numbered days.

Bill White, village custodian, says homemakers are taking it in their stride as a matter of necessity.

SILVER WEDDING ANNIVERSARY FRI.

Richard L. Blewett and Esther Bartlett were married in Lewiston on July 17, 1934, at the Methodist Church parsonage, and their 25th, or Silver Wedding anniversary, observed last Friday, July 17, gave evidence of a happy married life — with most of that quarter century having been spent in Kendrick.

A no-host pot-luck supper in the park provided an opportunity for friends to wish them continued happiness.

A bountiful picnic supper, "topped off" with a three-tiered wedding cake and ice cream, visiting and good fellowship comprised the festivities.

The group presented the honor guests with a "treasure chest" as a memento of their affection.

Norman Lewis, Deputy State Forester at Kendrick, reported Tuesday morning that crews from this office had answered four fire calls during the past week.

The first, and by far the most serious of these was at the ranch home of Dr. and Mrs. D. A. Christensen Wednesday, when approximately 20 acres of timber were destroyed. The blaze broke out about 5:00 o'clock that evening, and in the high heat, and fanned by a breeze, spread very rapidly, mounting to the top of the steep, rocky hill almost before the brush and fire crew from the office were able to make the trip.

This blaze began from an underground root from a rotten stump — the smoldering fire crawling underground for some 20 feet before breaking out and into flames in the Christensen timber. It was definitely a hang-over from a previous fire, as Mr. Lewis reports the area was thoroughly checked by crewmen Wednesday just after noon. There were two places where debris were smoldering, but they were well within a formerly established fire line, and near the top of the hill — and could not possibly have caused the blaze.

The fire first began on July 5, when Dr. Christensen, under a fire permit, did some controlled burning. It got out of control at that time when fanned by a sudden breeze.

It was an awesome sight to watch from Kendrick, as from the school-house hill there was a clear view of the raging inferno — as it "crowned" and rolled up the hill, sending out clouds of white and yellowish smoke.

Mr. Lewis said fighting this blaze was extremely difficult due to the steep and rocky terrain, and some hours were required to bring it under control. It is still being watched as down logs, etc., are always potentially dangerous, even days after a fire is supposedly out.

Three grass fires were also fought and extinguished in the past week. One of these was just below Juliaetta at the home of Mrs. Mary White. It was confined to a small area, and cause is unknown.

Another blaze occurred just below Copey's Service Station, near the Spaulding bridge, between the Clearwater river and the highway. It was set by sparks from a truck-trailer which lost a wheel, the hub striking the sparks and igniting dry grass.

The last blaze occurred Saturday night approximately three-quarters of a mile below the mouth of Coyote grade, caused by a flipped cigarette stub.

Mr. Lewis warns that the fire index is at an extremely high level — and asks caution from everyone.

AWAY FOR 50 YEARS

Mrs. Frank Clements of Alliance, Alberta, Canada, stopped in the Gazette with Mrs. Jesse Heffel Monday to inquire into the records of 50 years ago.

Mrs. Clements is a former resident, but had not been back for 52 years. She remembered the old school house she attended down near the railroad tracks, and wondered if we could confirm her memories, perhaps with some records or pictures in the Gazette.

Just about that time Lester Crocker walked by, and came in to exchange memories, and he said: "Yes, he could remember the old school house being down there (where Armitage Field now is located) and that he and some of the boys used to slip over to the tracks and pump a hand car around for a little ride, and that trains were far more numerous then than today.

Mrs. Clements is a cousin of Mrs. Roy Craig and Bud Heffel. Her father, the late R. E. Heffel, was a brother of the late Stewart Heffel, and will be remembered by many of the old timers.

Bill Riley, Texas ridge, lost his barn full of hay by fire Tuesday morning of this week.

The blaze was discovered around 12:05 (noon) by Roy Glenn and Chas. Taylor.

Quick action by the neighbors kept the blaze from getting out of control, for it got into a wheat field adjacent to the barn.

Norman Lewis and his crew from the Kendrick forestry district answered the call and got there in time for mop-up operations — but there was nothing that could be done about the barn, it burned to the ground.

The cause is unknown, but it is surmised spontaneous combustion was the cause.

BONE FINALLY SET

Robbie Witt, son of Mr. and Mrs. Earl Witt, Juliaetta, who broke his right femur six weeks ago, and has been in traction at the St. Joseph's Hospital all that time, had the leg placed in a cast Monday, and things look brighter now — for it should not be long until he can come home.

NEW WHITE LINE

Last week-end crews painted a new white center line strip on the paving through Kendrick, and new "Keep Idaho Green" slogans also appeared on the highway's surface. Both are commendable jobs.

V. F. W. AND AUX. TO PICNIC

District Two Veterans of Foreign Wars and Auxiliary will hold their annual picnic at Spaulding Park on Sunday, July 26, with the pot-luck dinner to be served at 12:00 noon.

Idaho Fish and Game Department construction crew finishes pouring concrete structures for another fish screen in the Salmon River region. This unit is located on the North Fork of the Salmon River and is designed to keep young salmon from entering irrigation ditches and canals on their downstream trip to the ocean. Approximately 250 screens will be installed before the project is completed.

TO COACH NATL. RIFLE TEAM ENTRY

Frank C. Dammarell, 3729 McCall Blvd., Bremerton, Wash., has been selected to captain and coach the state big-bore rifle team which is going to the national rifle matches at Camp Perry, Ohio, this summer. Dammarell, who has been active in local and state shooting activities, was selected by a committee of the Washington State Rifle and Pistol association. This will be Dammarell's second trip to the national matches sponsored by the National Rifle Association. Also on the six-man state team is another Bremerton shooter, Eugene Parker. This will be Parker's third time at the national contest. More than 130 of the state's top riflemen tried for a berth on the team. The shooters will leave for Ohio about Aug. 11, and expect to arrive there the 15th. They will attend a shooters' school starting the 16th, and start shooting for the record on the 19th.

In addition to the school, Dammarell will attend a special night school on administration and procedures connected with being an official NRA referee for the Olympic peninsula district.

Mr. Dammarell also instructs for the Washington State Game department on how to handle firearms. — Bremerton Sun, July 16, 1959.

Our Note: Mr. Dammarell is very well known here, being a son of Mr.

LEROY GLADEN HURT IN CRASH

LeRoy Gladen, 25, Moscow, a truck driver, was hospitalized early Thursday morning of last week after his car left the road, bowled over a telephone pole, and flipped several times.

The car came to rest atop the railroad track near the Troy-Moscow highway about one and one-half miles east of Moscow. Gladen was thrown from the car and was found 30 feet from where the car stopped. He was unconscious when removed to the Gritman Hospital at Moscow. He was treated for a fractured leg, broken pelvis, broken collar bone and multiple cuts and bruises. — Daily Idahoian, Moscow.

Note: At latest report, his father, Fred Gladen, Kendrick, said LeRoy was recovering as well as could be expected, but would be in the hospital for some time.

TRITE SAYINGS
 Take things as they come — the past is gone, tomorrow is an uncertainty, and today is no sure thing.
 You probably wouldn't worry about what people think of you if you could know how seldom they do.
 What you believe depends very much upon what you are.
 Tact is the ability to hammer home a point without hitting the other fellow on the head.

DO YOU KNOW

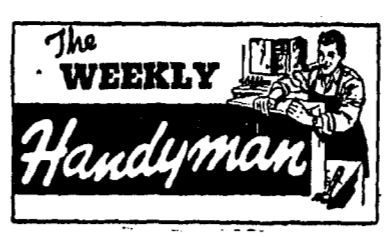

If public power paid the same taxes paid by business-managed electric companies, government would have some \$660,000,000 additional revenues which now come out of the pockets of somebody else. PUDs and public power pay no Federal taxes.

The biggest trouble with success these days is that its recipe is just about the same as that for a nervous breakdown.

Fancy this: way back in 1897 the WWP Co. said in its annual report: "The company has never missed a payroll or failed to pay promptly its debts." Today, 21,576 stockholders have a direct claim on company earnings. When you pay your electric bill, your money is distributed to many people through dividends, taxes, purchases and payroll.

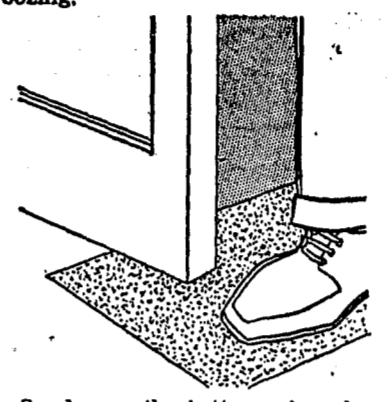

Over 25 per cent of WWP employees have been with the company more than 20 years.

This wisdom of Communism: "From each according to his ability, and to each according to his needs." Sounds wonderful, but in practice it is simply awful. It means that the State squeezes every ounce of energy out of the individual and gives him exactly what government thinks he needs. The Grade A sucker for communism doesn't even have a cook stove of his own, but must eat at a government canteen.

QUESTION: What makes the black stuff ooze up between the tiles of our kitchen floor? We put the tiles down ourselves and I'm wondering if we did something wrong. How can we eliminate the oozing?

ANSWER: There are two probable causes of the oozing between kitchen floor tiles—applying too much paste to the floor and not giving the paste sufficient time to set up. The only way to remedy the situation is to pull up the tile and start over again. Cleaning the tile doesn't get to the base of the problem and prevent continued oozing.

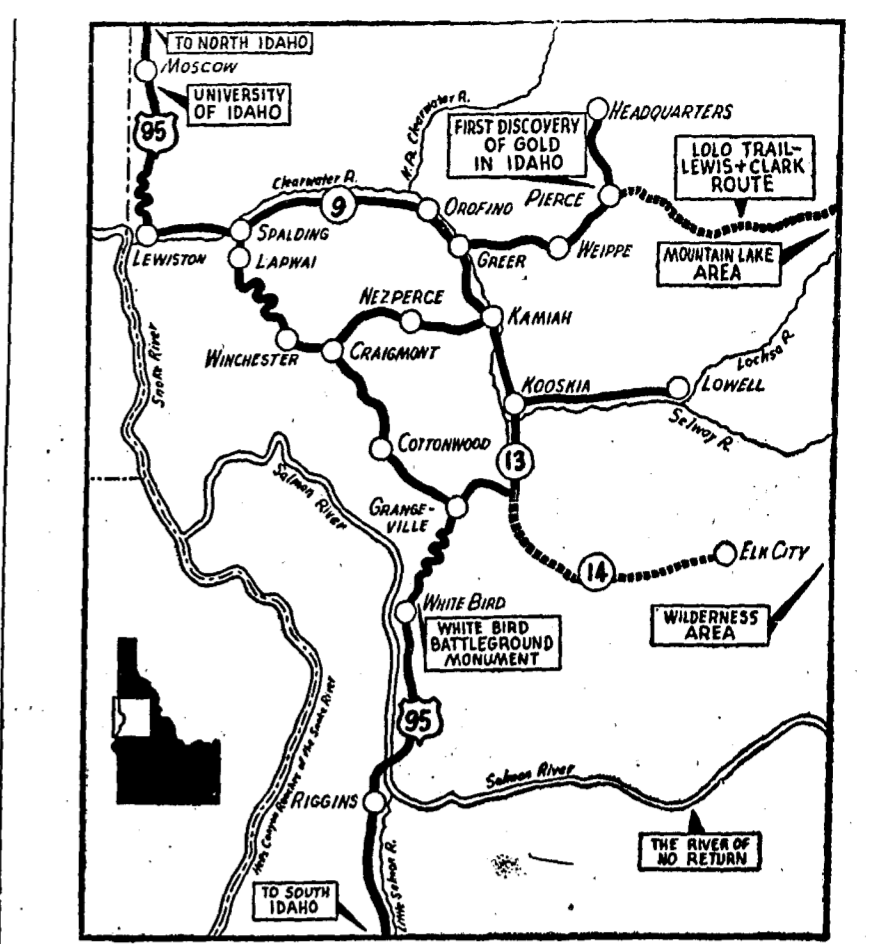

Sandpaper the bottom edge of a door without removing door from hinges.

In relaying the tile, try these suggestions: If a notched trowel leaves too much paste, try using a trowel without notches to spread a thinner layer of paste. Allow the paste to set up and, before laying the tile, test the paste by notching it with your finger. If the paste doesn't stick to your finger, it has set up properly for application of the tile.

QUESTION: The door to our kitchen rubs against the floor when it is fully opened and I'm afraid it will mark the floor if not corrected. Is there any solution without removing the door and planing its edge?

ANSWER: Place a sheet of coarse sandpaper on the floor at the place where the door rubs. Hold the sandpaper with one foot and swing the door back and forth across the sandpaper until there is no longer in contact. That way, you'll remove just the right amount of the sticking door—and you won't have to remove the door from its hinges. If the door begins to rub again, the chances are the hinges aren't holding it in position properly, in which case you then will have to remove the door and reset the hinges.

MAP OF IDAHO'S CLEARWATER RIVER COUNTRY shows routes to major scenic and sporting spots. The Clearwater country lies between Idaho's panhandle and the southern portions of the state. The area has played a vital part in the state's history. First white men to enter Idaho descended the Clearwater in canoes. Later, at Pierce, Idaho's first gold was discovered in 1860. The map was prepared under the direction of the State Department of Commerce and Development.

LOG DRIVES CAN STILL BE SEEN IN THE SPRING ON IDAHO'S Clearwater River. The loggers are shown at the start of the drive, polling the timber into the stream for its rush to the sawmill. George Clark and Meriweather Lewis, sent west in 1805 to explore the northwest wilderness country for the United States, were the first men to enter the wild country drained by the Clearwater. Today good roads wind through forest and farm land where Nez Perce Indians once roamed. Much of the drainage area, however, is still wilderness. Prepared by the State Department of Commerce and Development, the story on the Clearwater country is the third of 15 stories to appear this summer and next that will eventually cover every part of Idaho.

FALLOUT SHELTERS are the best way for rural Americans to protect themselves from a massive nuclear attack which could unleash dangerous radioactive fallout throughout the country. Some of the shelters recommended by the O. C. D. are not as elaborate as this one which includes an auxiliary generator and an electric air filtering and venting system.

However, all recommended shelters should include the basic features shown here — a place to sleep; food, water and medical supplies, and at least eight inches of concrete or an equal weight of other materials for shielding the shelter against fallout.

U. of I., Moscow — The suspense filled mystery "Dial M for Murder", will be presented at 8:00 p. m. in the University of Idaho Field House July 21-23, as the fourth of five productions planned for the summer theater season.

It is the story of a husband who plans to murder his wife for her money. The plan almost works until a bit of first-rate detective work saves the woman in the final scene.

Included in the cast is Clifford Cook, a son of Mr. and Mrs. Asa Cook, Juliaetta.

WEARS CAST

Mrs. Jack Travis, who fell down the stairs at the family home recently, has discovered that she has a broken bone in her right ankle. X-rays at the Troy clinic Tuesday revealed the injury. She is wearing a cast.

DIKE PROGRESSING

Two bulldozers, a carry-all and a crawler tractor with scoop bucket and ripper and a couple of trucks are now at work on the Kendrick dike project.

Quite a "hole" has been made in the island adjacent to the depot. In fact, it is disappearing a great deal faster than the "sidewalk superintendents" ever thought it would.

Above the Lewiston Grain Growers warehouse work is also under way.

THE Bull itin

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, FOLKS:

Did you ever stop to think how hot the transmission or gear box on your tractor or combine got this kind of weather. And as a result how good a product you needed to insure lubrication? We believe that you have — and we know that in Union Products we have the answer to that extreme heat lubrication problem! So, if you are not already using Union Products, why not phone us and give them a try?

Just as an elderly man stepped from the curb, a huge dog tore around the corner and knocked him flat on his back. He had barely struggled to his feet when a small foreign car brushed against him and sent him sprawling again. A passerby rushed over and helped the old boy to his feet. "Are you

all right?" he asked. The old man steadied himself, then replied: "That dog didn't hurt me any, but that dang can tied to his tail nearly killed me!"

Don't try to do your harvest hauling on "banana peel" or boot-ed tires. Come in and talk it over with us. You'll be surprised at how very cheaply you can drive out on a new set. Save harvest time — and money too, with new ones.

Any baseball team could use a man who plays every position superbly, never strikes out and never makes an error; but there's no way to make him put down his hot dog and come out of the grandstand.

Always travel Union — best!
