KENDRICK - 1959

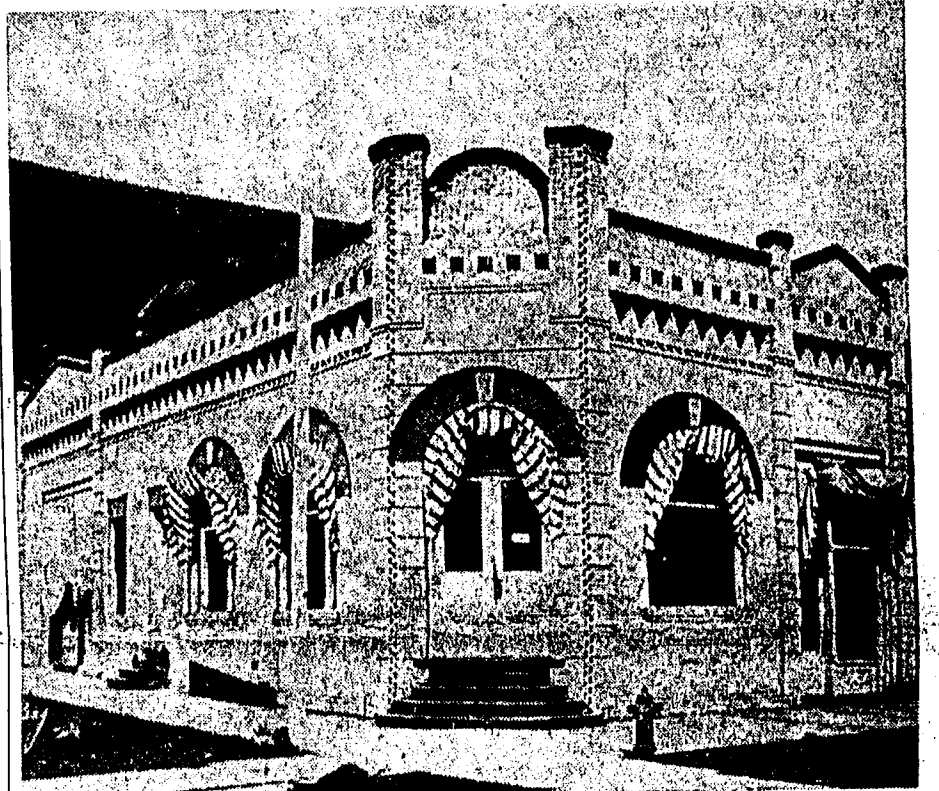

KENDRICK BOASTS GOOD GOVERNMENT; BUILDS NEW 'TEMPLE TO HOUSE LODGES

The city council was organized with the first incorporation of the town and it speaks well for the various councilmen elected to manage the town's affairs that no indebtedness of either bonds or floating, hang over the citizens to add to taxation while the town possesses a fire department, good streets and sidewalks a city hall, hydrants and other municipal improvements. Under the present state law the council is elected for a term of two years and the present board, it is argued, will continue to manage the town's affairs in the same conservative but broadminded manner, as in the past. Its latest action is the purchase of school property in the west end of town, which is planned to dedicate to park purposes.

The officers now in charge of administrative affairs are as follows: City Council, E. W. Bradbury, mayor; John Lauterbach, Guy M. Lewis, W. O. Marr and Roy Dickey, W. M. McCrea, treasurer; Sam Mellison, city clerk.

THE KENDRICK FRATERNAL TEMPLE

A SHORT SKETCH OF THE KENDRICK GAZETTE; NOW PUBLISHED FOR 14 YEARS

The Kendrick Gazette was established in 1891 by Joseph S. Vincent, and the first office was in a tent with a small army press for machinery and the quantity of type was in proportion to the remainder of the outfit.

The plant was burned out in the first fire in 1892, but resumed operation in a short time with a little better plant. In 1898 the plant suffered severely from the flood of that year, but never missed an issue.

In 1901 the Gazette passed into the control of D. T. A. Mackintosh, who continued in charge of its destinies until June of the present year.

In the fire of 1904, the plant was again entirely destroyed, and for the next two weeks its issue was printed in the neighboring town of Juliaetta and that year again reverted to the army press which was set up in the woodshed back of Mr. Mackintosh's residence. In 1905 the Gazette was moved into a new brick building, with a complete modern outfit and now possesses the largest and best outfits in the Potlatch, having recently purchased a large 6-column quarto Cottrell press.

In June of this year Mr. Mackintosh sold his interest to the Kendrick Publishing Co., of which company George W. Hancock is the manager and principal owner.

During the years of trial and progress, the Gazette has always had the loyal support of the business men and farmers of this community, growing from 115 subscribers in 1891 to 1,000 at the present; from a four column, two page paper to an eight page six column. It has always tried to keep abreast of the country and to issue a clean, readable, likeable local paper, standing for right, as the management saw the same.

50-YEARS AGO

Yes, this is it — the 50-Year-Ago issue that we told you was coming.

It is made possible through the courtesy of Arthur Johns, who loaned us the Special Booster Edition from which most of the material is taken, including the pictures. A few other news items appear, which are of later date.

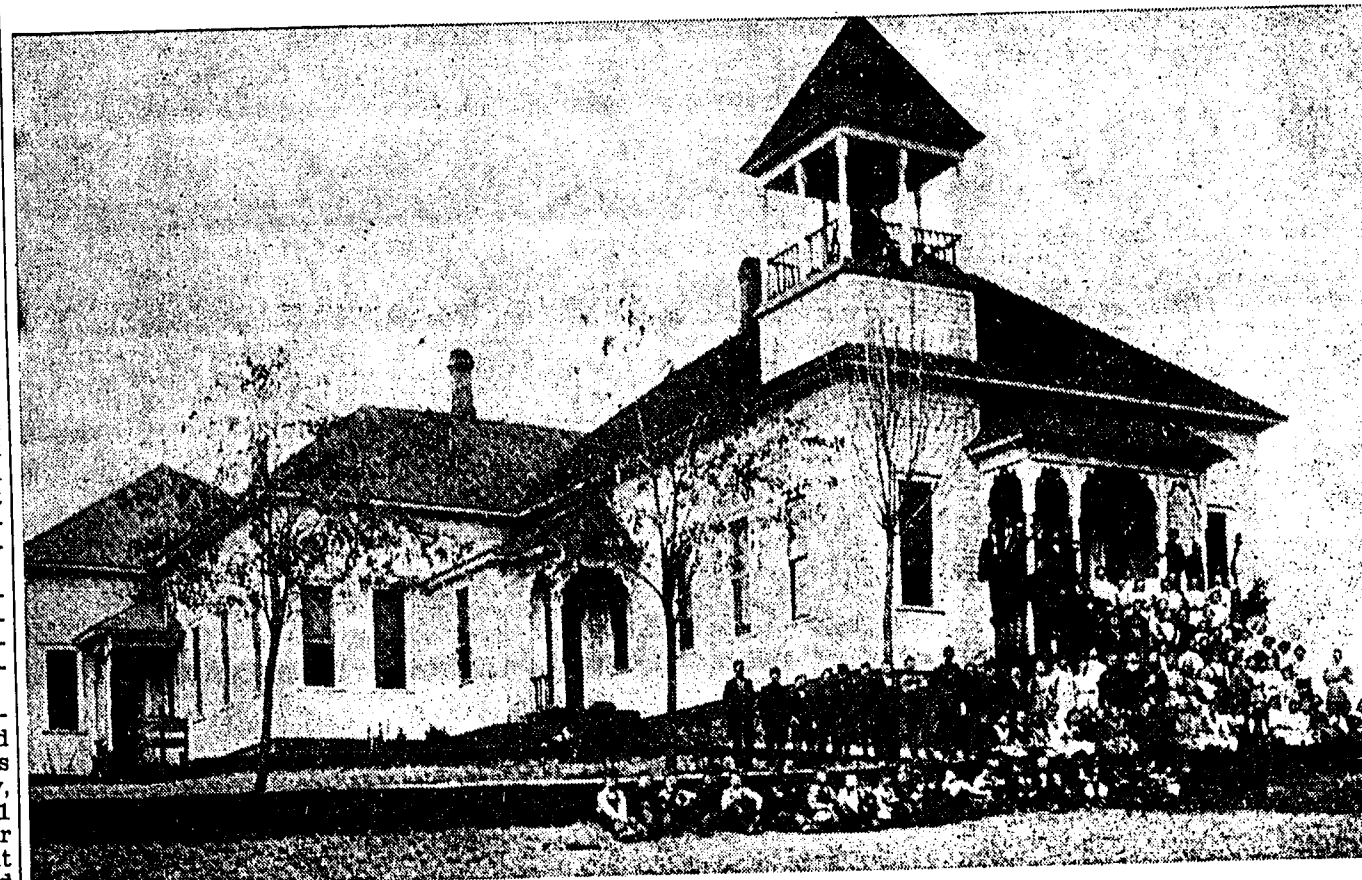

This edition also provides us with our annual week's vacation — and one for our hard-working correspondents as well. It is our sincere hope that you enjoy it as much as we of the Gazette have in its preparation.

The Gazette Staff.

been Democratic in politics, and has stood high in the councils of the party, at the last election, Mr. Mackintosh being elected representative to the state legislature.

A town is known in the outside world and its standing determined by the record of its lodges and clubs; by their prosperity and their strength, and these organiza-

tions, when in healthy condition, necessarily have a great influence on the public matters of the town where they are located. Kendrick is particularly fortunate in both its lodges and clubs and much credit has been brought to our town as a result.

KENDRICK SCHOOL IS MAGNET FOR GROWING VILLAGE

Kendrick, Aug. 13, 1909 — Schools and churches are two of the magnets that attract or repel settlement. Beautiful for situation and picturesque in its setting, Kendrick's school house, like that in the "Bonnie Brier Bush," invites to pleasure and scholarship.

On the edge of a bluff, overlooking the Potlatch River, three canyons diverging in Alpine variety and Italian beauty, rippling water, rugged rocks clad with aromatic pines, resinous fir, green grass hanging moss and trailing vines — farms nestling in checkered orchards and fields on sunny slopes, and pure ozone — the bluest of skies and almost ideal location is almost ideal.

To it gravitate, as tributaries to the main stream or trade to the stores a procession of young folks from the outlying ridges. Ten grades form the curriculum—

component, trained and experienced teachers and excellent esprit-du-corps are features of the school throughout.

Idaho has uniform state questions for grade scholars for entrance into the high school. In grade work, Kendrick is thorough and the examinations have been met and mastered by every aspirant. Many of the high school scholars are young men and women who room in town, "Batch" or do light house-keeping and on Friday afternoons ride five or six miles to their homes on the farms, returning Sunday afternoons for their week-day school tasks. Taught to be self reliant, they prize their opportunities and form the habit of turning to vantage their vantages.

The school tax is generously levied and cheerfully paid, and the aim is to pay adequate salaries to the teachers and to leave their honor and

capacity to give the value received for the money received — to expect each teacher to do the best possible for the scholars in their individual charge.

The moral tone is high and all parents need have no fear of evil surreptitiously entering or allowed to remain when discovered; equipment is modern and it is adequate to the demand. Free text books are provided and the ambitious youths can find at their very door opportunities for a common school education, with Lewiston's Normal School 25 miles and Moscow State University 25 miles to the North, inviting and welcoming.

It ranks well in the state; its graduates guaranteed the future; facts speak with mute eloquence. Young as is the state and school, its roster contains the names of millionaire and Congressman.

circle are all strongly organized; while in the clubs, the Commercial Club takes precedence as the strongest and oldest, and the Burns club, musical club, baseball club and the women's club, each have a large membership and a solid support.

In the lodge circles much fame has been secured through the ability and enterprise of the members: Two grand chancellors of the Knights of Pythias have been elected from the Kendrick lodge, J. R. Hall and Jos. S. Vincent; one grand matron of the Rebekahs, Mrs. A. C. White; one worthy matron of the Rathbone Sisters, Mrs. W.M. McCrea; while some of the lesser positions of honor and prominence in the state organization are always graced by a Kendrick man.

After the disastrous fire of 1904, the lodges of the town formed a corporate body known as the Fraternal Temple Co. Ltd., at an expense of \$8,000, erected a fine temple, consisting of a main hall 30x70, spacious and convenient ante-rooms and banquet room, all of which is free of debt, and is now paying interest on the investment.

The Knights of Pythias was established in '89, has won several prizes for team work during its existence, has a present membership of 75, considerable money invested and a good working capital, while its care of disabled members and relief work is of public comment; the Odd Fellows are noted here as everywhere for their splendid charity and in '89 a few of the faithful organized what is now Nez Perce lodge, No. 37, of over 100 members, with plenty of capital to carry out the plans of the order; this order, like the Knights is noted for its fine team work and instance to institute sister lodges in this part of the state. The Masons, noted for conservative but substantial growth, have been true to their tradition and in '89—organized with 12 members, gradually growing to over 45 at the present, possessing a strong exchequer and ranking high among the lodges of the state for the perfection of its work and the quality of its members.

The officers of the A.F. & A.M. for 1909 are: D.T.A. Mackintosh, W. M.; Neal N. Nelson, S.W.; Robert Foster, J.W.; Almon Lauterbach, secretary; Nick Brocke, treasurer; John E. Lauterbach, S.D.; Frank Housnel, J.D.

The officers of the Knights of Pythias for this term are: Stanley Talbott, C.C.; S. Mellison, V.C.; Rev. Archibald Durrie, prelate; George Davidson, K. of R.&S.; E. D. Bradbury, M. of F.; and Harry Stanton, M. of E.

The officers of the I.O.O.F. for 1909-10 are: U.S.G. Evans, N.G.; John

Kendrick Banks Relate Prosperous Condition

No better evidence of the prosperous condition of a community can be found than the presence in its center of sound financial institutions. They are the axis around which revolve all the businesses of their respective districts, and without them our commerce—local, state or national, would be but a passing dream.

How many people have ever considered the part which the currency of a nation plays in the transaction of business in the markets of the world and how small a part the actual currency represents? As it is shown by the Clearing house reports of New York, only about five per cent of the business done is covered by the actual metallic money and its representative—the circulating note.

The position a nation holds among the world powers is largely determined by condition of its finances. Of little use would be the vast areas of land if there was not the money to develop the resources.

What is true of a nation, is true, in a corresponding degree, of a community. The great transfer of commodities will take place where the best banks and strongest financial institutions are to be found.

The people of this town have ample cause to be proud of the banks established here, for indeed they represent a strength equal to any in the state. They have ever ready to assist any legitimate enterprise for the good of the individual as well as the growth of the city. The officers and directors include men of individual responsibility and sterling qualities, men who not only stand high in the community but also in the financial world.

Woody, V.G.; John Kennedy, P.N.G.; J.B. Helpman, R.S.; H.P. Hull, S.F.; Guy M. Lewis treasurer.

The Woodmen of the World, a fraternal insurance organization, possesses over 100 enthusiastic members and is noted for fine social meetings and a virile and active membership, and the same may also be said of its auxiliary order, the Women's Circle of Woodcraft, which plants its cabin in the forest close to the Woodmen has been selected in more than one welfare of the members of both the organizations.

The officers of the Woodmen of the World for the present year are: J.B. Helpman, C.C.; Charles McKeever, V.C.; Charles Hamlin, treasurer; Roy Durbin, clerk; Jos. Fruchtl, escort.

Our Neighboring Town, Southwick

Southwick, Nez Perce County, Ida., is situated on the Big Potlatch ridge, about 100 miles south of Spokane and about 35 miles north of Lewiston, the county seat of that county.

The town is on the border of the great prairies of the Potlatch ridge to the west and the largest body of standing timber left in the United States on the east. It is built on a beautiful, level tract of country and when the time comes that some transportation company puts a railroad along the top of the ridges (which is bound to come in the near future) Southwick is destined to become the distributing center of a large extent of country. Today Southwick is reached by stage line from Kendrick, the nearest railroad point about fifteen miles away.

The town has three flourishing churches, with good membership — the Methodist, Presbyterian and United Brethren. There has recently been erected a large four room school house, located on a beautiful plot of ground, two acres in extent, on the corner of main street.

In a business way, Southwick is well supplied and the traveling public is served in an up-to-date manner at the city hotel and Hotel DeHarris. Ziemann Bros. & Hoehn are proprietors of a large department store,

Main Street of Southwick, Looking East from Store of Ziemann Bros. & Hoehn

located on main street. The postoffice is located in a new building on Main street, the postmaster being S. R. Westmore, who also runs a confectionary business. There are three millinery stores,

blacksmith shop, two livery barns, meat market, ect. It has a good hall, in which the Southwick Commercial Club and other lodges and clubs meet.

The town and country surrounding

are exceptions in the way of Christianity, morals and good citizenship. It is particularly noted for its healthful climate, pure water and natural resources.

The timber located to the east is

of the following varieties: Yellow and white pine, spruce, tamarack, red and white fir, cedar and some hemlock, mountain ash and cottonwood, running on an average of from two to eight million feet to the quarter

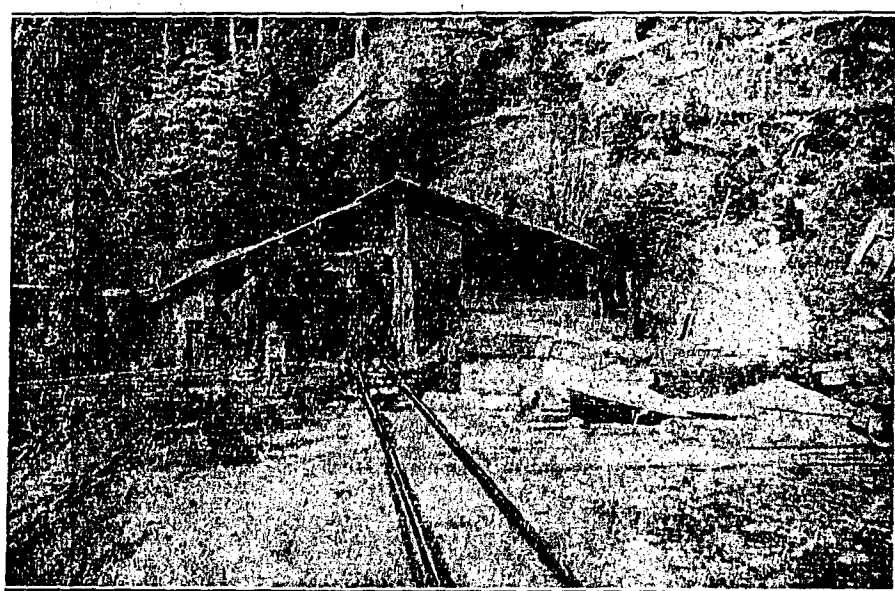

section. There are 12 sawmills within 12 miles of Southwick, with an annual output of not less than 8,000,000 feet of rough and dressed lumber.

Cereals of all kinds do exceptionally well. Wheat makes a yearly average of 35 bushels to the acre; oats 70 bushels; barley 60 bushels; corn 35 bushels and flax 20 bushels. Timothy hay does well yielding two tons to the acre; red clover four tons, and alfalfa four tons per acre.

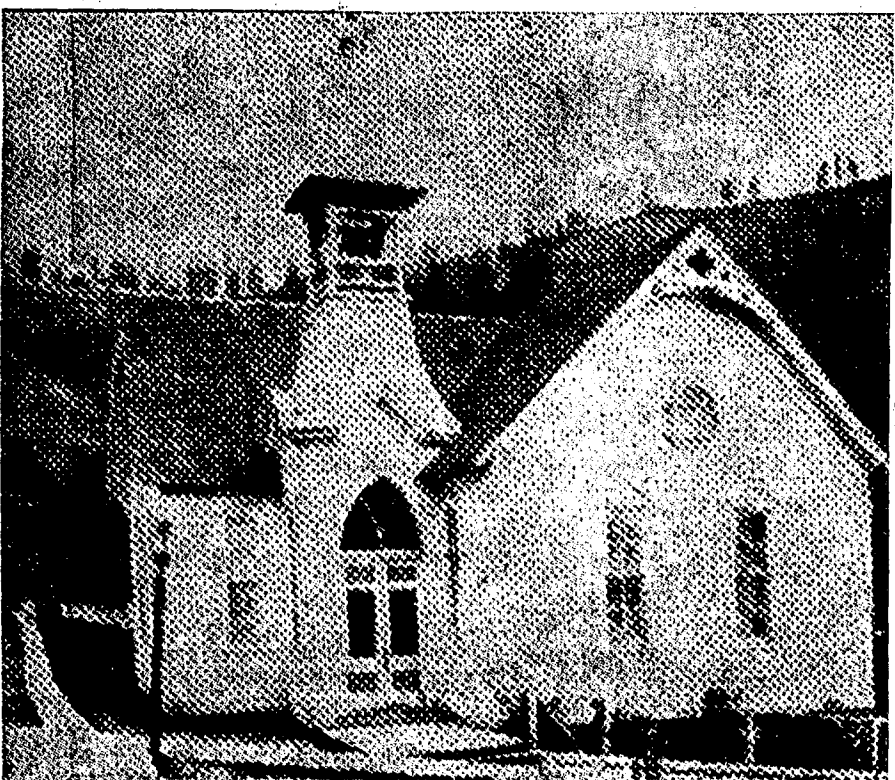

Fruit and vegetables are very prolific and of exceptionally good quality, being better than grown in eastern states and the irrigated products. Apples average about 1,000 boxes, prunes 1,500 boxes, peaches 500 boxes and apricots 600 boxes per acre. Potatoes yield on an average 12 tons, cabbage 10 tons and beets 12 tons to the acre. Garden truck, tame and wild berries grow in abundance.

Cattle, hogs, sheep, horses and all kinds of livestock do exceedingly well, as we have no hog cholera, no Texas fever, no wind broken horses or contagious diseases.

Land is worth from \$25 to \$50 per acre and there are all kinds of opportunity for money making. Come to Southwick, where there are no cyclones, tornadoes or floods. Failure of crops in this district has never been known.

REAR VIEW OF KENDRICK BRICK YARD -1909 — A brick yard was first established in Kendrick about 15 years ago, but the present firm has been in its present location for about four years. This yard has the latest and most improved machinery, in the way of brick making, and as the clay is of a superior quality, free from alkali and other noxious ingredients. Mr. J.A. Frucht has a demand which he has never yet been able to satisfy and this year before the season began had not sufficient brick in the yard to even build a chimney. While a heavy output was made last season, it will not equal this year, for the intention is to burn 3,000,000 brick, counting both the common and the steam dried and steam pressed. Twenty-five men are employed during the entire season.

GRACE METHODIST EPISCOPAL CHURCH

Since about 1888, the Grace Methodist Episcopal Church has figured conspicuously in the history of Kendrick and the surrounding country. She has sent her itinerants into the fertile fields of the American, Little Bear and Potlatch Ridges, establishing classes and Sunday Schools.

American Ridge, Little Bear Ridge, Southwick, Cavendish and Leland, each have churches, which owe their origin largely to this mother church. Other churches that now are active in our community are the Presbyterian church, German Lutheran and Roman Catholic.

MARR'S GENERAL MERCHANDISE STORE

In the general merchandise line, Kendrick has four stores which would be a credit to a town twice its size, as they constantly carry a stock varying from \$60,000 in the largest store to \$10,000 in the smallest. The modern progressive business methods of these firms have

given this city a wide reputation as a trading point and every business venture, large or small, shares in the profits resultant from such advertisement. They carry at all times, not only a large stock of merchandise, but a well selected one, purchased by experienced buyers.

200 SQUARE MILES SERVED DAILY BY LOCAL BUSINESS

Kendrick, which is the supply point for a territory of 200 square miles, has direct connections with outside points via the Northern Pacific; it is a town of 1,000 inhabitants; the entire business section is built of brick; possesses water power sufficient for every industry and we might say unlimited.

There is a flour mill with 200 barrels capacity daily, six grain warehouses, cold storage, brick yard, saw mill, two banks, hotel harness and cigar manufactory and every mercantile business is well represented, carrying stocks of from \$1,000 to \$75,000.

Directly tributary to Kendrick is the following acreage: Wheat, 30,000; barley, 5,000; oats, 5,000; flax, 2,000; corn, 2,500; beans, 1,000; vegetables, 1,500. Fruit acreage: Apples, 3,500; prunes, 600; peaches, 200; pears, 280; grapes, 75; plums, 90; strawberries and small fruit, 125.

There are 45,000 acres of timber lying east of here about twenty miles which the state land officials estimate contains 400,000,000 feet of good standing timber.

There is never a failure of crop for lack of rain.

To keep up with the country and retain our commercial supremacy, we need and can support a cannery, creamery, box factory, straw board mill.

The social life is very active and all of the prominent orders, such as the Masons, Odd Fellows, Knights of Pythias, Woodmen and women's auxiliaries have strong lodges with from 75 to 100 members.

A splendid gravity water system and acetylene gas lights are features of the town.

One fact worthy of particular note is the climate; it is warm in the summer, but always cool at night; it is never what might be called cold, zero weather being only about three weeks in duration. The climate is one of the strong drawing cards for the Potlatch, being warm, salubrious, dry life-giving, combining the good qualities of the temperate zone with the torrid belt, and none of zero features of either.

'TELEPHONICALLY' KENDRICK RATES AMONG THE BEST

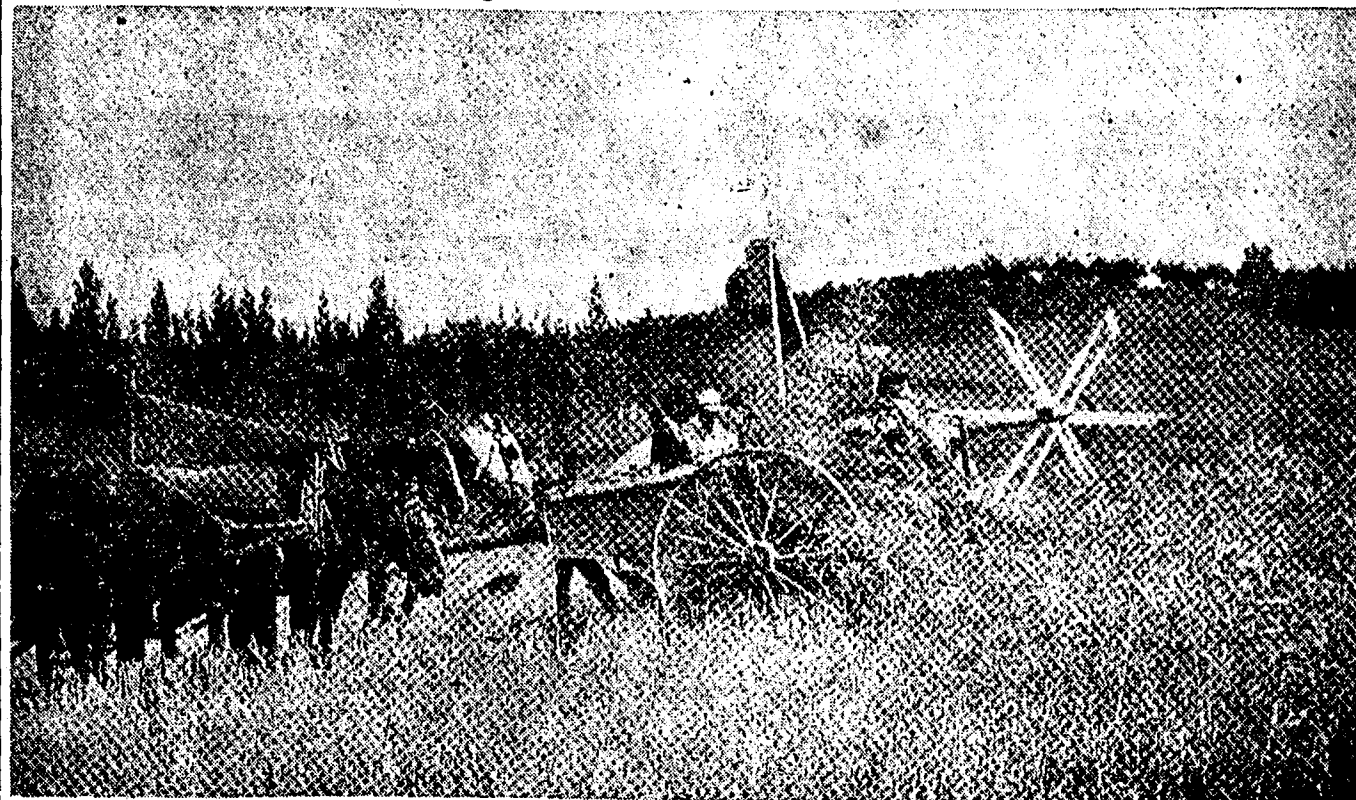

In this day of hustle and hurry, with the worlds conditions such that men must everywhere take advantage of all the conveniences accessible for facilitating business, to be able to keep in the front ranks. With time often more than the equivalent of its monetary value, it would be but meet that we say something of the telephone advantages of Kendrick and the Potlatch country contiguous thereto.

We believe there is no section of the great northwest, nor indeed in the effect east, that is better equipped telephonically than is this section. We have two systems: The Potlatch Telephone Co., owned and operated locally and the Interstate Telephone Co., a stock company, controlled by Spokane capital.

The Potlatch telephone Co. will soon have a system of thirty-two trunk lines running from Kendrick to the neighboring town of Julietta which, when completed, will eliminate the necessity of an exchange in the latter place and will combine a scope of country forty miles long and twenty miles wide into one exchange, which will give to said country a continuous twenty-four-hour, seven-day-in-the-week service. Thus a farmer living beyond Deary, twenty miles or more easterly of Kendrick, may by a simple turn of the crank, be placed in immediate communication with a neighboring farmer (for, with telephonic advantages, all in a system become as neighbors) forty miles to the west.

We believe the time is near at hand when the two companies now in the field will merge or inter-communicate, and when this is consummated, and every person with a telephone in his home or place of business can have the advantages of every other telephone in the country. We can hope for nothing better until the time comes when we have the wireless, portable, vest-pocket telephone fitted into the back of a watch, the head of a cane, or the hat pin of the "Merry Widow."

Harvesting Scene In 1909 — Location Unknown

Distinguished Citizen—1909

LUMBER BUSINESS IS IMPORTANT TO ENLARGING TOWN

KENDRICK Aug. 13, 1909 — The lumber business is one of the most important enterprises of this city and is represented locally by the Barnum Lumber and Construction Co., who do a wholesale and retail business in lumber and building materials, carrying a stock of \$10,000; the Pine Creek Lumber Co. has its headquarters in Kendrick and are wholesale dealers in rough and dressed lumber. Their annual output is over 2,000,000 feet per year.

There are Besides the above, in this vicinity, twelve small sawmills engaged in the manufacture of rough and dressed lumber, with an annual output of not less than 10 million feet.

The building and construction business is one of the most important branches of which this country has reason to be proud, for it is principally one of them that the fame and popularity of our large cities depend. The views of the buildings occupied by the business houses of this town are excellent examples of this and many of them were constructed by the Barnum Lumber and Construction Co., which is personally superintended by Geo. P. Barnum, who carefully looks after every detail from foundation to roof and at the same time offers inducements impossible to be secured elsewhere, his connections being widespread. Since embarking in the construction business he has shown himself to be a thorough master of the most complicated designs and exacting specifications. He cheerfully furnishes plans and estimates and when prices are quoted they are invariably found to be as low as the usage of good material and workmanship will allow.

BUSINESS OPENINGS, OPPORTUNITIES OFFERED IN THE KENDRICK AREA

KENDRICK, Aug. 13, 1909 — Like every other Western town of enterprising spirit, Kendrick is full of opportunities for the man with push or capital or both.

Situated at the junction of the Potlatch River and Bear Creek, the town commands a splendid water power, a reserve of potential force hardly utilized at present, but properly harnessed this water means power for various manufactures, mills and other uses to which such water power can be adapted, for the Potlatch is no small stream, but has ample flow of water for power.

Then a magnificent body of timber (white pine, cedar, spruce, tamarack, fir, ect.) lies tributary to this town, among the canyons of all these streams which converted into lumber will make millions of feet of the best rough and dressed lumber, to say nothing of the thousands of cords of wood, poles, ties, ect, which will mean lumber mills, sash and box factories and many other kindred industries.

The immense quantity of fruit, berries, vegetables and cereals that is now being raised in this section and the enormous opening for increase in the acreage of this kind of produce offers an opportunity, for a canning factory seldom equalled, in connection with the water power site.

The large number of milch cows owned by the farmers and the large and rich pastures to be found on the rich hillsides shows that this will be a fine opening for a creamery. Close at hand lay fine prospects of copper and other ores, and work already done shows that this industry will be a big one ere long, for one property has already passed the prospective stage and the mineral zone is a large one.

While the general lines of business are well represented and the general mercantile trade is ably taken care of by a progressive and

enterprising body of businessmen, there are numerous lines not represented which the town would heartily welcome and cordially endorse. In addition to the openings mentioned above, a machine shop, candy factory, second hand store, ect., would all be appreciated.

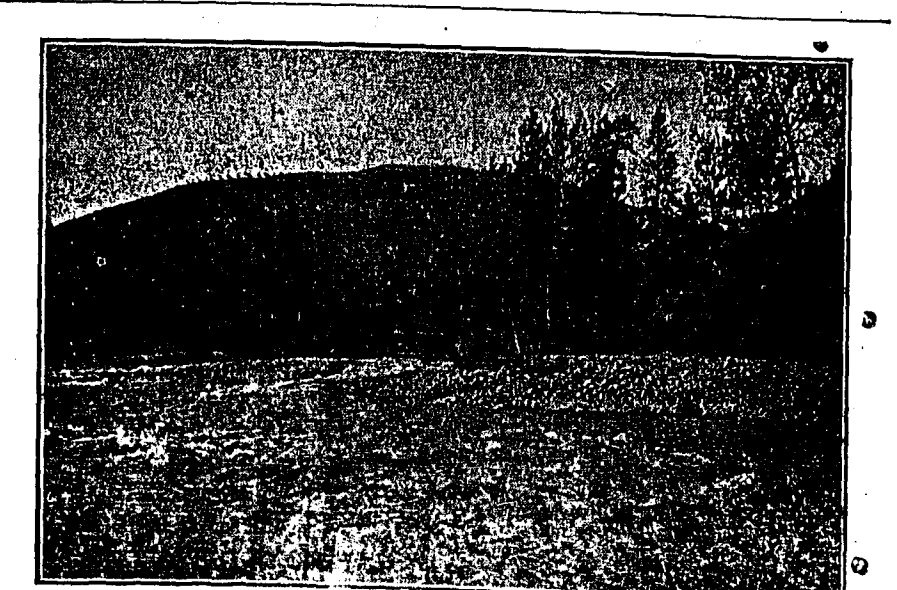

For the small farmer, chicken raiser, produce and hot house grower, the opportunities are without end, for produce brings a high price. The market is always strong and the soil is the best that can be found in the state. It has been proved so often that the ten to forty acre farmer becomes well to do, that no argument along this line is necessary, the proof is here for the asking, and we hold as a golden opportunity to the man wishing to better his condition, the opportunity of low priced lands, rich soil, good markets and an ideal climate.

While no farming enterprise is a bonanza for a laboring man, the man of thrift and energy can easily forge ahead and to this class we extend a cordial invitation.

The climate being so mild that in winter water is hardly given time to freeze into ice of any thickness, cold storage and ice manufacturing plant has already been figured on and the opportunity lays open.

But briefly have we gone into this large subject, just enough to let the reader understand the present needs calling to be taken care of, while as the town grows and the country develops, new industries and business openings will be offered to meet the demands made by the public.

With the potential energy lying at our doors in unlimited water power with the vast forest tributaries to this town and the excellent fruit, farm and stock country at the town's back no industry founded on honest principles and carried on conservatively can help succeeding and developing with the growth of the country, beyond the founder's expectations.

The Potlatch River

Kendrick is the center of pivotal point of five ridges, is situated at the junction of the Bear and Potlatch rivers and on the Spokane-Lewiston branch of the Northern Pacific Tributary to her are the resources of 200 square miles of country, than which

none richer is known, and it is this revenue which has made the town. The town was founded in 1888, being then the terminus of the N.P. Lewiston branch. In 1892 a fire almost wiped out the business portion, which was rebuilt from brick.

Purchase Combine

July 13, 1923 - Frank Bencoter and Warney May have purchased a 12-foot Holt combine recently which they will use in their harvesting operations on American ridge. The ma-

chine is operated by two or three men and requires 12 horses for harvesting the grain and a gasoline engine to drive the separator. The harvesting and threshing is thus done in one operation, saving binder twine, bundle hauling, time and expense. Mr. Bencoter stated that he believed the machine would pay for itself in one season in the saving of threshing bills. It cost approximately \$3,000.00.

Discontinue Train

November 28, 1924 - Beginning last Monday the local freight through Kendrick was discontinued, owing to the fact that business is slack at this time of the year. The highball from Spokane to Lewiston is giving daily freight service both to and from Spokane and Lewiston. The local on the Pullman branch was also taken off. It has been rumored that one passenger-train each way would be discontinued but Mr. Ramey, local agent, stated that he had not received notice of such a change. Usually about once a year this rumor is started but it does not materialize. It is likely that the passenger service will not be interrupted.

Leith-Spencer

July 15, 1923 — Miss Rita Leith and Mr. Robert Spencer completely surprised their many friends here by driving to Cameron the afternoon of July 4th and there being quietly married by Rev. E. A. Rein, Lutheran minister. It was not until the following afternoon that news of the wedding became public and by that time Mr. and Mrs. Spencer were on their way to Butte, Montana for their honeymoon.

Those present at the wedding were Mr. and Mrs. Leith and daughter Clarice, Mrs. Leola King and children of Moscow, Mr. Spencer's sister, Miss Ruth, of Spokane, and Mrs. E. A. Rein of Cameron.

NOTICE OF ADMINISTRATOR'S PRIVATE SALE OF REAL PROPERTY

IN THE PROBATE COURT OF THE COUNTY OF LATAH, STATE OF IDAHO

In the Matter of the Estate of ANNA MARIE DAHL Deceased.

NOTICE IS HEREBY GIVEN, that Grace Wood, as administratrix of the estate of Anna Marie Dahl, deceased, will, on or after the 18th day of August, 1959, sell at private sale to the highest bidder, upon the terms and conditions hereinafter set forth, all of the right, title, interest and estate of the said Anna Marie Dahl, deceased, at the time of her death, and all the right, title, estate and interest her estate has, by operation of law or otherwise, acquired other than and in addition to that of said decedent at the time of her death, in and to the following described real property situated in Latah County, State of Idaho, to-wit:

Lot Two (2) in Block Twenty-five (25) of the Town of Juliaetta, as shown by the recorded plat thereof.

TERMS AND CONDITIONS OF SALE. Cash in lawful money of the United States of America, at least ten (10) percent of bid to be paid at the time of sale and the balance on confirmation of sale by the Probate Court aforesaid. Baking "cookies" for better roads

"Cookies" of asphalt paving are baked and frozen in our laboratories, so we can measure how highways wear in all types of weather.

The man is William H. Ellis, one of Standard's scientists who conduct many such tests to improve highway materials and construction methods. We actually build roads, subject them to crushing pressure, try out many paving mixes, work closely with highway engineers.

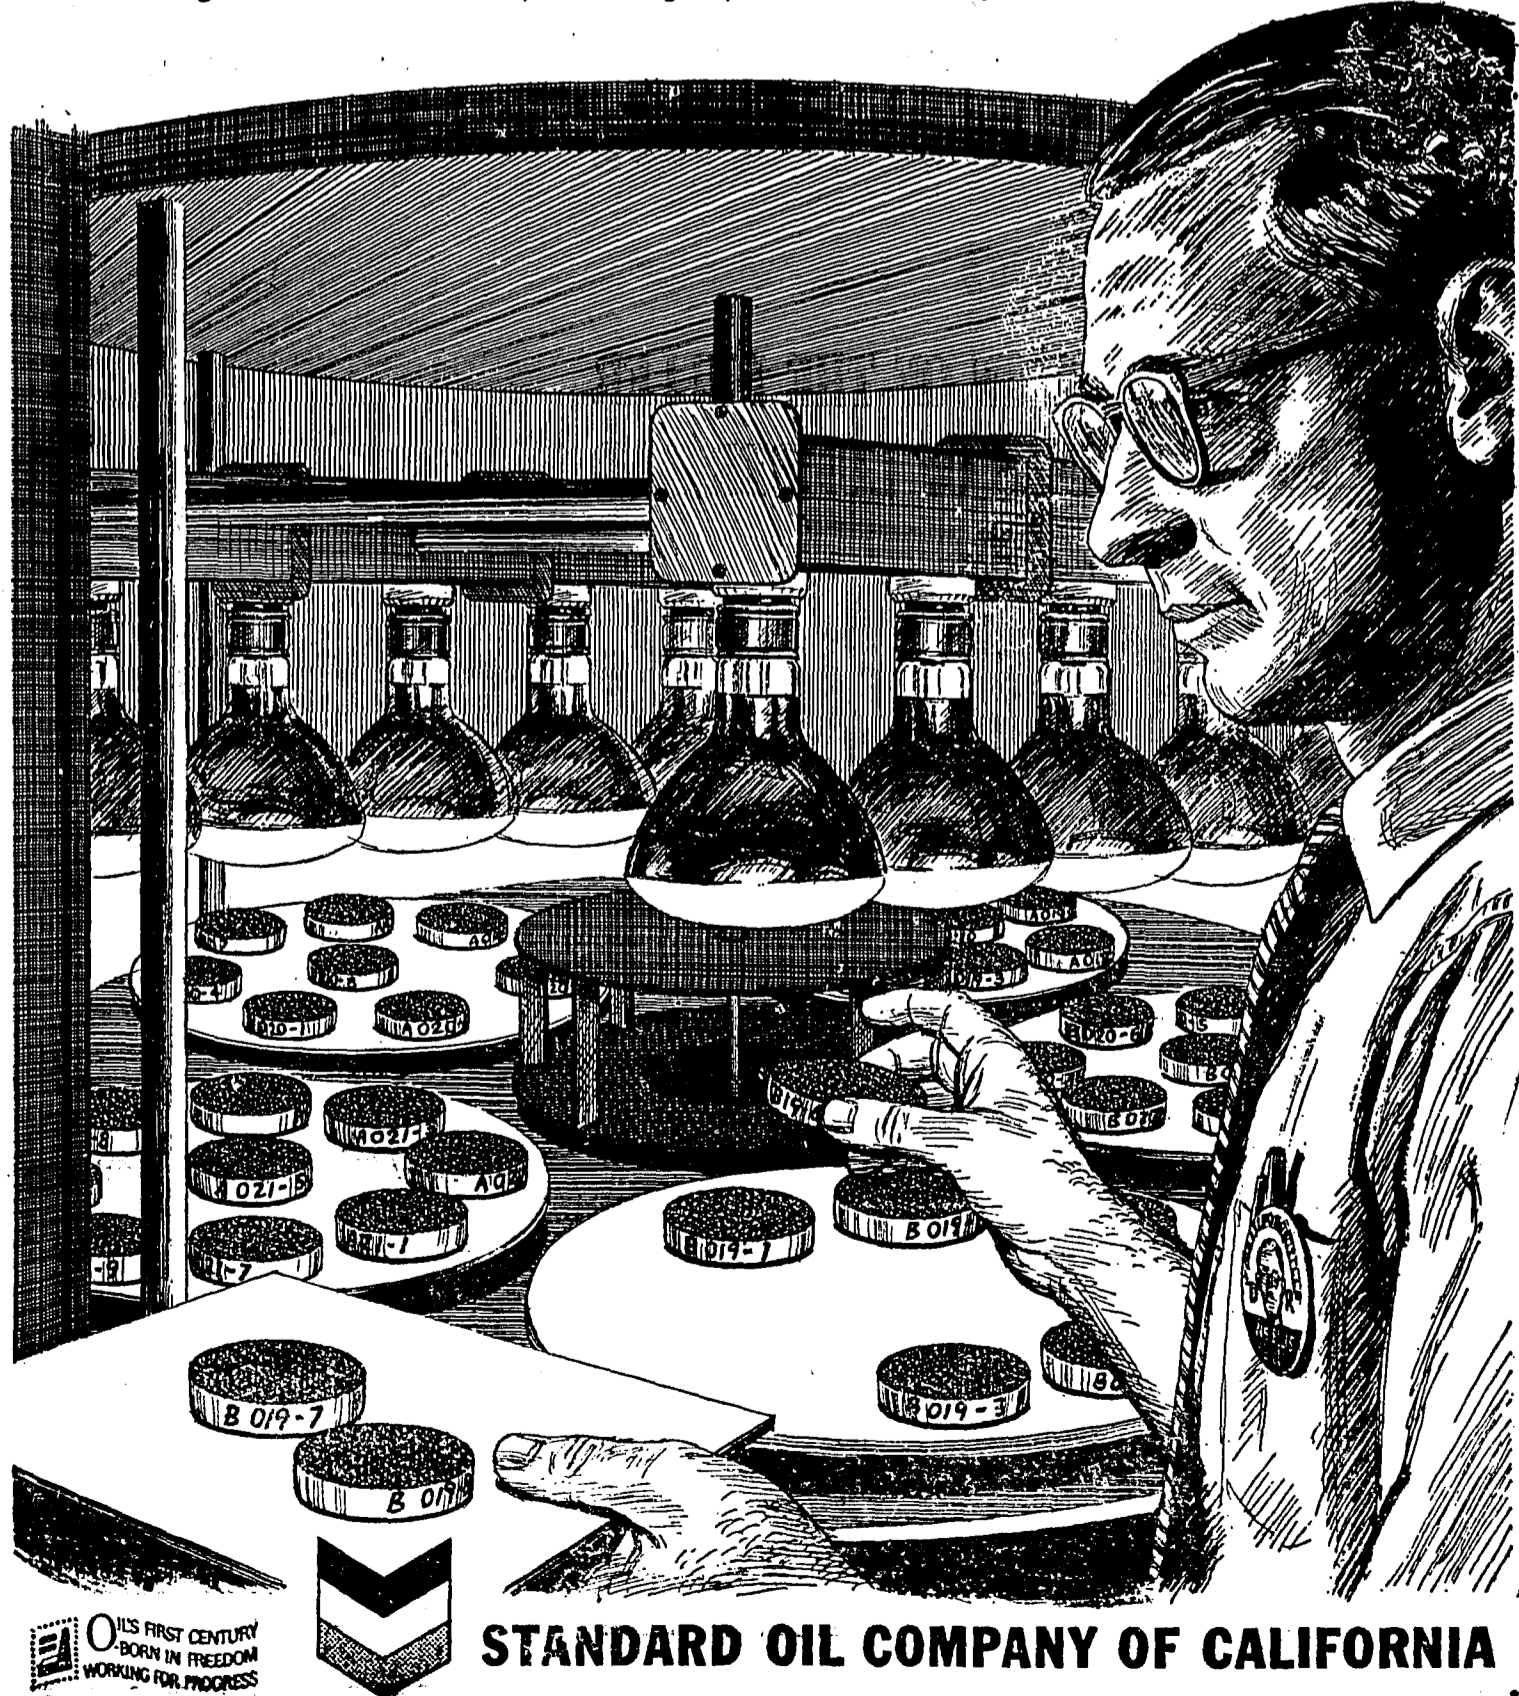

Our work benefits you both as a motorist and a taxpayer. Asphalt costs less than any other pavement . . . three miles of highway for the cost of two. You also get roads that resist skids, cut down glare,

make lane markers easier to see . . . roads which are smooth, quiet and comfortable.

Asphalt roads are ready for use within hours after laying . . . cost less to maintain and can be even stronger and better after years of service.

By such continuing research that brings you better products at lower cost, the people at Standard are planning ahead to serve you better.

Standard's asphalt products are made and sold by American Bitumuls & Asphalt Company, a wholly-owned subsidiary.

It Figures

Feller!

To get where you want to go . . . to have the things you want to own . . . will take money. There's just one way to get it, and that's to SAVE it. In fact, saving makes all the difference between wishing and having. Little by little, your regular deposits here will add up to the BIG things you have in mind!

Compound interest makes your money grow faster.

ADVERTISEMENT FOR BIDS

Sealed bids will be received by the Board of Trustees of the Joint Class "B" School District No. 283, Latah County, State of Idaho, Office of the Superintendent, Kendrick, Idaho, up to 8:00 P. M., Thursday, September 3, 1959, on the construction of the Kendrick High School.

Plans and Specifications will be available at the office of Dropping, Kelley, & Finch, Architects, 2504 Kootenai, Boise, Idaho, on and after Thursday, August 13, 1959, upon the deposit of \$25.00 for each set of Plans. Deposits will be returned to actual bidders only upon return of drawings in good condition.

Bids received after the time of opening shall not be considered, and no bidder may withdraw his bid after the hour set for the opening, or before award of contract, unless said award is delayed for a period of 30 days. No oral, telephonic, modifications to the bids will be considered.

All bidders, including general contractors, subcontractors and specialty contractors shall be LICENSED, as a "public works contractor" within the meaning of Sections 54-1901 and 54-1902, Idaho Code, (Public Works Contractors License Act), and the successful bidder shall be required to post a proper public works bond before commencing work as required by Section 45-502 of the Idaho Code.

Each bid shall be accompanied by a certified check, cashier's check, or bid bond in the sum of not less than 5% of the total bid, and made payable to the Joint Class "B" School District No. 283.

All bids on said project shall be opened and read aloud at the office of the Superintendent of Schools, Kendrick, Idaho, immediately after the closing hour for said bid, as indicated in this notice.

The Board of Trustees reserves the right to reject any or all bids and to waive all informalities.

By Order of the Board of Trustees
Joint Class "B" School District No. 283, Latah County, State of Idaho.
A. O. KANIKKEBERG, Clerk.

Last pub. Aug. 27, 1959.

Narrow Escape

July 15, 1923 — Four young people from Kendrick had a narrow escape last Sunday when the car in which they were driving went into the ditch and turned turtle. No one was injured but the car was damaged considerably, having a broken windshield and top, and bent fenders.

The accident happened on the cut-off between Kendrick and Troy. The occupants were George Broke, Egna Flagg, Dorothy Erickson and Leah Holada.

ORDINANCE NO. 492

AS AN ORDINANCE PROVIDING FOR THE ISSUANCE OF \$10,000.00 WATER REVENUE BONDS OF THE VILLAGE OF KENDRICK, IDAHO; PROVIDING FOR THE PAYMENT OF THE EARNINGS OF THE WATER SYSTEM OF SAID VILLAGE; PROVIDING FOR THE FORM OF THE BONDS AND INTEREST COUPONS TO BE ATTACHED THEREON; CREATING A SPECIAL FUND AND A RESERVE FUND; DESCRIBING CERTAIN COVENANTS; SETTING FORTH A SAVING CLAUSE, AND PROVIDING FOR THE PUBLICATION AND EFFECTIVE DATE OF THIS ORDINANCE.

WHEREAS, at a special election held in the Village of Kendrick, Idaho, on June 24, 1959, Water Revenue Bonds in the amount of \$10,000.00 were authorized for the purpose of acquiring funds to pay the cost of additions and betterments to the Water System pursuant to the provisions of Ordinance No. 491; and,

WHEREAS, there are certain requirements that must be complied with by the issuing corporation prior to the issuance of these Water Revenue Bonds;

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF TRUSTEES OF THE VILLAGE OF KENDRICK, IDAHO:

Section 1: That for the purpose of obtaining and providing funds to pay the cost of making certain additions and betterments to the Water System and in order to pay the cost of the issuance of said Water Revenue Bonds, and of all engineering, inspection, fiscal and legal expenses, and interest, which it is estimated will accrue during the construction period and for six months thereafter on money borrowed, there shall be issued and sold by the Board of Trustees of the Village of Kendrick, Idaho, Water Revenue Bonds of said Village in the aggregate principal amount of \$10,000.00, which is the estimated cost and expense of the foregoing; shall be dated August 1, 1959, and shall be payable on August first in each of the following years in the following amounts:

\$500.00 in each of the years 1961 to 1978, both inclusive;

\$1,000.00 in the year 1979.

The Board of Trustees of said Village reserve the right to redeem any or all bonds at par maturing on or after August 1, 1966, in the inverse order of their numbering, highest numbers first, upon and after prior publication of notice of the intention to redeem any of said bonds by publication of such notice at least once in a newspaper of general circulation within said Village at least thirty (30) days prior to the date of intended redemption, and upon the date fixed for redemption interest upon the bonds thus called for redemption shall cease to accrue.

Section 2: That the form of said bonds and the interest coupons which shall be attached thereto and the Certificate of the Clerk and Treasurer of said Village, which shall be printed upon the back of each bond, shall be substantially in the following form, viz:

(Form of Bond)
UNITED STATES OF AMERICA.

per cent (.....%) per annum, payable annually on the first day of August in each year, upon the presentation and surrender of this bond at its maturity, and upon the presentation and surrender of the annexed interest coupons as they severally become payable, both principal and interest of this bond being payable in lawful money of the United States of America at the office of the Treasurer of the Village of Kendrick, in Kendrick, Idaho.

This bond is one of an issue of Ten Thousand Dollars of said Village, of like date, tenor and effect, except as to dates of maturity and varying rates of interest, of the denomination of \$500.00 each, maturing on August first in each of the following years and in the following amounts: \$500.00 in each of the years 1961 to 1978, both inclusive, and \$1,000.00 in the year 1979. Provided, however, that said Village reserves the right to redeem any or all bonds at par maturing on or after August 1, 1966, on any interest payment date on or after August 1, 1965, in the inverse order of their numbering, highest numbers first, upon and after prior publication of notice of the intention to redeem any of said bonds by publication of such notice at least once in a newspaper of general circulation within said Village at least thirty (30) days prior to the date of intended redemption, and upon the date fixed for redemption interest upon the bonds thus called for redemption shall cease to accrue, and by mailing notice of said call at the same time to the purchaser, or purchasers, of said bonds.

The foregoing bonds have been issued for the purpose of acquiring funds to pay the cost of making certain additions and betterments to the Water System as authorized by Ordinance No. 491, passed and approved June 2, 1959, and as authorized at a special election held within said Village on June 24, 1959.

This bond is issued under the authority of and in strict compliance with the Constitution and laws of the State of Idaho and with Chapter 47 of the Session Laws of Idaho of 1951, and the ordinances and resolutions of this Village.

The Village of Kendrick further covenants and agrees to keep and perform all the covenants of this bond and of Ordinance No. 491, passed and approved June 2, 1959, and Ordinance No., passed and approved July 31, 1959.

This bond and the interest thereon are payable solely from the Special Water System Fund named and known as the "Water Revenue Bond Redemption Fund of 1959," created by Ordinance No., and said Village does hereby pledge and bind itself to pay in said Water Revenue Bond Redemption Fund of 1959, and the Reserve Fund, both created by Ordinance No., the various amounts required by said Ordinance to be paid into and maintained in said Funds, all within the times provided by said Ordinance.

Said funds so pledged are hereby declared to be a prior lien and charge upon the gross revenues of the Water System superior to all other charges of any kind or nature, except operation and maintenance costs.

The Village has further bound itself to maintain said system in good condition and repair, to operate the same in an efficient manner and to establish and maintain and collect rates and charges that will provide revenue equal to 1.4 times the amount required each calendar year to pay the principal and interest due on all outstanding Water Revenue Bonds, as authorized by Ordinance No., after operation and maintenance costs of said system have been paid but before depreciation. Any future charge or special fund indebtedness which may be created by said Village, to be payable out of the revenues of said system, shall constitute a charge and lien subject and junior to the charge and lien thereon created by said Ordinance.

It is hereby certified that all acts, conditions, and things required by the Constitution and laws of said State and by the Ordinances and Resolutions of said Village to happen, exist and to be done and performed precedent to and in the issuance of this bond have duly happened, have existed and do exist, and have been done and performed, and that this bond and the bond issue of which it is one are not affected by any constitutional or other municipal debt limitation.

IN WITNESS WHEREOF the Village of Kendrick, Latah County, Idaho, has caused this bond to be signed in its corporate name by the Chairman of the Board of Trustees, countersigned by its Treasurer and attested by its Clerk under the seal of said Village, and the coupons hereto attached to be signed by the Treasurer of said Village by his facsimile signature, which official, by the execution hereof, does adopt as and for his proper signature his facsimile signature appearing on each of said coupons, this first day of August, 1959.

VILLAGE OF KENDRICK, LATAH COUNTY, STATE OF IDAHO

By _____ Chairman of Board of Trustees

ATTEST: _____ Clerk

COUNTERSIGNED: _____ Treasurer (Form of Interest Coupon)

No. _____ \$.....

On the first day of (August.....), 19....., the Village of Kendrick, Idaho, will pay to bearer at the office of the Treasurer of said Village in Kendrick, Idaho,

(\$.....) in lawful money of the United States of America solely from the Water Revenue Bond Redemption Fund of 1959 of said Village, created by Ordinance No., passed and approved July 31, 1959, and solely from the earnings and revenues of said water system, being the annual interest then payable on its Water Revenue Bond of 1959, dated August 1, 1959, Bond No. (Facsimile Signature)

Treasurer of the Village of

Kendrick, Idaho. The following additional language will be printed upon the coupons of the bonds subject to redemption:

In the event of prior redemption of the annexed bond all unearned interest evidenced hereby as of the date of such prior redemption shall cease to be payable.

CERTIFICATE OF VILLAGE CLERK AND VILLAGE TREASURER

(To be printed upon the back of each bond)

We, the undersigned Clerk and Treasurer, respectively, of the Village of Kendrick, Idaho, do hereby certify that the within bond has been duly registered in permanent record books kept in our respective offices for the purpose of such registration, in full compliance with the provisions of Chapter 262 of the Session Laws of Idaho of 1927, and as amended, and Chapter 47 of the Session Laws of Idaho of 1951, and all other laws applicable thereto, such registration showing the number, date, amount of the bond, rate of interest thereon, date of maturity, place of payment and the number and denominations of the attached coupons; and the undersigned Treasurer does hereby certify that before the delivery of this bond he received the proper consideration therefor.

Clerk of the Village of Kendrick, Idaho

Treasurer of the Village of Kendrick, Idaho (End of Bond Form)

Section 3: There shall be, and there is hereby created and established in the office of the Treasurer of the Village of Kendrick, Idaho, a Special Water System Fund, which shall be known and described as the "WATER REVENUE BOND REDEMPTION FUND OF 1959" of the Village of Kendrick, Idaho, into which Fund for the purpose of paying the principal and interest on these bonds, according to their maturities, shall be paid monthly by said Village, and the proper officers of said Village shall pay monthly, and this Board of Trustees, by this Ordinance does hereby promise and agree, and obligates and binds the Village of Kendrick, to set aside and pay out of the gross earnings and revenues of said water system (subject to the primary deduction therefrom of sums equal to the costs and expense of operation and maintenance of such system) a definite sum monthly in every month during the life of said bonds, commencing with the month the bonds are dated, and until the full payment of said bonds and all interest, equal in amount (in each such month in each year during said period of monthly payments) to one-twelfth of the aggregate amount of bond principal which shall be payable during, and at the expiration of, each such year during the life of said bonds, and as specifically set forth hereinbefore, plus one-twelfth (in each month) of the bond interest accruing and being payable within each such year.

It is hereby made the mandatory official duty of the Treasurer of the Village of Kendrick, Idaho, for the time being, to maintain said Water Revenue Bond Redemption Fund of 1959, continuously in his office, and to pay, and to cause to be paid, into said Water Revenue Bond Redemption Fund of 1959, out of the said revenues of said water system, the foregoing bonds, and the semi-annual interest thereon and to apply said moneys for the payment and retirement of said Water Revenue Bonds according to their terms.

The foregoing Water Revenue Bond Redemption Fund of 1959, created hereby, and the funds paid therein, as required hereinbefore, shall be used solely for the purpose of the payment of the principal of said bonds authorized hereby as they mature and become payable, and for the payment of the interest thereon as the same accrues and becomes payable, as provided in the interest coupons which shall be attached to said bonds, without preference or priority of the interest upon one bond over another bond maturing in any year, by reason of its numbering, priority of issuance or otherwise.

The Board of Trustees and corporate authorities of the Village of Kendrick, hereby declare that in fixing the amounts to be paid into said Water Revenue Bond Redemption Fund of 1959, as aforesaid, they have exercised due regard to the cost of operation and maintenance of said water system and that no portion of said revenues nor charges have been previously pledged for any other indebtedness.

Section 4: Said Village hereby covenants and agrees with the owners and holders of each of said bonds that the Village will establish and collect rates and charges for said water system for as long as any of the \$10,000.00 bonds authorized herein are outstanding, and will make available for the payment of the principal and interest, on all of such bonds as the same shall accrue an amount equivalent to 1.4 times the amount required each year for the principal and interest payments due on all such outstanding bonds. The amount "available for the payment of the principal and interest of all such bonds as the same shall accrue" is hereby defined as the gross revenues of said water system less expenses of maintenance and operation, but before depreciation.

Section 5: There shall be, and there is hereby created and established by said Village, in addition to the Water Revenue Bond Redemption Fund of 1959, a Reserve Fund, and in addition to the sums above required, said Village shall set aside and pay into said Reserve Fund, out of the gross revenues of said water system, after the primary deductions therefrom have been made of sums equal to the costs and expenses of operation and maintenance of said water system, and after the monthly payments into said Water Revenue Bond Redemption Fund of 1959 have been made, as provided in Section 3 hereof, the sum of at least \$1,000.00 by July 31, 1961. When said sum of \$1,000.00 has been deposited in said Reserve Fund no further pay-

ments shall be made into said Reserve Fund. Said Village further agrees that it will at all times maintain said sum in said Reserve Fund. In the event of a deficiency in said Water Revenue Bond Redemption Fund of 1959, for the payment of maturing principal and interest amounts, such deficiency shall be made up from the Reserve Fund and said Reserve Fund shall be reimbursed out of the next available revenues arising from said water system and costs and expenses of maintenance and operation.

The foregoing funds deposited in the Reserve Fund must be deposited in The Farmers Bank at Kendrick, Idaho, or invested in direct obligations of the United States Government having a guaranteed redemption price and maturing not later than ten years from the date of issue.

Section 6: It is the duty of the Village to transfer from its General Fund to the Water Fund a sum, or sums of money for furnishing the municipality, or any of its departments, boards or agencies, with the services and facilities of such water system.

Section 7: The Board of Trustees further covenant and agree that none of the funds specifically pledged have heretofore been pledged for the payment of any special fund indebtedness whatsoever and that the revenues of said water system are sufficient in amount to fully pay the foregoing bonds hereby authorized in addition to all other charges thereon.

Language expressing the terms or substance of this Section and other Sections of this Ordinance and the Covenants contained in Ordinance No. 491, shall be set forth in the foregoing bonds in the form of, or as a covenant and agreement of said Village with each and all of the owners and holders at any time of said bonds or any of them.

Section 8: So long as any of the bonds hereby authorized remain outstanding the Village of Kendrick shall maintain and carry for the benefit of the Village and the holders of said bonds insurance, if available, against loss by fire or other casualty on the physical properties of the water system of the kinds and in the amounts normally carried by private companies engaged in the operation of the similar properties. All moneys received from losses from any such insurance policies are hereby pledged by the Village as security for the payment of said bonds until and unless such proceeds are paid out to repair the loss or damage or to restore the physical property lost or damaged, in respect to which such proceeds have been received. The payment of premiums for all insurance policies required under the provisions of this Section shall be considered an operation and maintenance expense of the municipal water system.

Section 9: A complete set of books of account of said water system shall be kept in the office of the Treasurer of said Village, and shall be open to inspection by the public at any time during office hours. The books of account shall be audited annually by a public accountant appointed by the Village of Kendrick, Idaho. Said audit shall be made within sixty (60) days following the close of each fiscal year. Each such audit, in addition to whatever matters may be thought proper by the accountant may be included therein, shall include the following:

1. A statement in detail of the income and expenditures of the water system for each fiscal year.
2. A balance sheet as of the end of such fiscal year.
3. The accountant's comment regarding the manner in which the Village has carried out the requirements of this Ordinance, and the Accountant's recommendation for any change or improvement in the operation of the water system.

4. A list of the insurance policies in force at the end of the fiscal year, setting out as to each policy the amount of the policy, the risks covered, and the name of the insurer and the expiration date of the policy.
5. The number of metered water customers at the end of the year.

All expenses incurred in the making of the audits required by this Section shall be regarded and paid as a maintenance and operation expense.

Section 10: When for any reason the Village of Kendrick, or any of its authorized agents, have not deposited sufficient moneys in the Water Revenue Bond Redemption Fund of 1959, and there has been a default in the payment of the principal and interest of the bonds outstanding any payable, then, and in that event, one, or any number of the holders of the bonds, representing twenty-five per cent (25%) of the outstanding bonds, are entitled to the appointment of a Receiver, which Receiver may enter and take possession of said water system, operate and maintain the same, prescribe rates, fees, tolls or charges, and collect and receive and apply all revenue thereafter arising therefrom in the same manner as the Village of Kendrick itself might do.

Section 11: If any section, subsection, sentence, clause or phrase of this Ordinance is for any reason held to be unconstitutional, or illegal, such decision shall not affect the validity of the remaining portions of this Ordinance.

Section 12: This Ordinance shall take effect and be in full force upon its passage, approval and publication in one issue of the Kendrick Gazette, a newspaper of general circulation in said Village, published at Kendrick, Idaho, and being the official newspaper of said Village.

Passed under suspension of all rules and regulations of the Board of Trustees upon which proper roll call votes were duly taken, and duly enacted an Ordinance of this Village at a Special meeting of the Board of Trustees of the Village of Kendrick, Idaho, held on July 31, 1959.

THE Bull itin

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, FOLKS:

Nope, we weren't in business here 50 years ago — but we can truthfully say that our products of today far exceed in quality the wild-west dreams of engineers and consumers of that time. In fact, we believe them the "top in quality today — Union Products." Phone us at 4251 — try them for yourself!

The manager of a department store put this notice in the window: "If you need it, we have it."

But in the window of a rival appeared a sign saying: "If we don't have it, you don't need it!"

Hate to drive a dirty car, pickup or truck — but haven't got time to wash it? Bring it in to us — we'll wash it for you — and wax it, too, if you so desire!

Hubby: "You mean to say you went to that expensive place to have your photograph taken?"

Wife: "But, my dear, they take marvelous photographs. Molly B. went there and you couldn't recognize her!"

Busy? How about letting us service that car, truck or pickup while you shop or relax? We use the finest of lubricants — Union! And let us fill the crankcase with the tops of all motor oils — Royal-Triton. Your vehicle will run as smooth as silk!

Marie: "I don't think much of your fiancé."

Betty: "I don't want you to!"

Got a harvest lubrication problem? Let us solve it for you with Union Products.

PERSONAL ITEMS AND NEWS STORIES OF KENDRICK FOLK

ITEMS TAKEN FROM THE 1954 KENDRICK GAZETTE

Last June W.J. Tweedy of Peck, Idaho, located a mining prospect near that point and the results were so favorable that the Green Banner Mining Company was incorporated. The last assays show gold values of \$2,300 per ton. A limited amount of stock is now on the market at 10 cents per share.

John Lauterbach of Chicago arrived in Kendrick the middle of this week in search of a location for a general merchandise store. Competition in the life of trade and there is room for more stores here.

A recent cold spell caused several inches of ice to form on the creek. A. Hill and the Hotel Kendrick managed to harvest about 12 tons each before the thaw.

City Markets: wheat, bluestem, .75; cattle \$3.08; hogs, \$4.75; eggs, 25; potatoes, .75; 16 inch wood, \$4.50.

Having bought the dairy fixtures but not the spring belonging to H.W. Weber, I am prepared to deliver milk once a day to anyone at the popular price, 20 quarts for \$1.00. Canyon View Dairy, R.F. Bigham, proprietor.

Peter Treisch, editor of the Kendrick Times passed through here en route to Seattle where he expects to make his home.

Kendrick Livery Stable, where you will find it in one of the front stalls, which the council has rented so that the hose may be readily secured.

The farmers of the Potlatch met November 10 to perfect plans for an organization in the line of building a farmers warehouse. The organization was completed with S.W. Bigham, president and U.S.G. Evans, secretary. Nine directors were elected and a very large membership signed of the best and most representative men in the Potlatch.

T.E. West, city attorney, was instructed to draw up sidewalk ordinances and also to notify property owners in the burnt district to replace the sidewalks on their property.

It is said that Frank Fox of Juliaetta will move his general merchandise stock here and occupy one of the store rooms in the hotel block.

The Gazette has just struck off bill announcing the public sale of O. Dumbald on Potlatch ridge, near the Juliaetta tramway. After 14 years ownership Mr. Dumbald has just sold his home ranch to Wm. Bonner of Everett, Wash., the consideration being \$4,200.

The justices of the peace and constables in the precinct adjacent to Kendrick are: Bear Creek — Rod Drury, Henry Ingle; constable, Chas. Aller. Gold Hill — A.W. Longfellow; constable, James Garner. Kendrick —

So Much Value for Your Money **FOX CROFT SHEETS and PILLOW CASES**

A few of the members of the Kendrick Rod and Gun Club have been indulging in turkey shoots, and as usual have proved the superior marksmanship of Kendrick shots. Sam Callison and J.T. Moser visited the shoots at Joel and in competition with some of the crack shots of Moscow as well as local experts, brought back everything they shot for, including 6 turkeys, 4 geese, ect. Wednesday, these two with William Hunter and John Hamley attended the Leland match with the result that another calf was added to the spoils of war besides 16 out of 20 turkeys and the same proportion of geese, ducks, ect. We did not learn how the spoils were divided because the victors felt bashful after taking everything in sight.

Warehouses and Mill Provide Best Shipping Center for our Farmers

Farmers judge a town by the ability to handle the grain raised on the many fertile acres that lie within a reasonable distance from it. This town has always been recognized as the very best marketing point in the county—best because of the superior grain market facilities, and also because here can be secured the highest market price. There are no more important factors in any community than these, and that these truths are known far and wide is evidenced by the fact that the grain is hauled here by farmers who live nearer to other though inferior markets.

There are six warehouses with a combined storage capacity of over 500,000 bushels and they do an annual business of not less than three million bushels of wheat, oats, barley, ect.; 500 tons of hay and 200 tons of beans.

The Kendrick flour mill is owned by the Vollmer-Clearwater Co. and its daily capacity is 200 barrels of flour. The output, Idaho Best and Kenida flour is constantly maintained at the highest standard of excellence and challenges duplication with any flour on the market, being the county—best because of the su-wheat. The results produced please the eye and the palate, and the milling methods employed are such as to preserve the fullest strength and usefulness all the nutritious elements of the best wheat.

BETTER DIESEL PERFORMANCE

When you use RPM DELO Lubricating Oils, your diesel engines spend more time working, less time in the shop. It stays on parts whether engine is hot or cold, running or idle. Special compounds prevent deposits that clog and stick rings.

To extend the useful service life of your diesel engines and reduce down time, use RPM DELO Lubricating Oils.
