Gazette Opens Drive For New Subscriptions

Wanted - subscribers. No experience necessary.

The sixth grade students of the Juliaetta Elementary School of District No. 283 this week kicked off a two-and-one-half week subscription campaign for the Kendrick Gazette, which offers a long list of prizes for the kids, and 75 cents for each subscription - the money going to the Juliaetta Grade School. (The money earned will be used for "blackout curtains in the gymnasium" Gerald White, principal, said.

The object of the subscription drive is to collect new subscribers and add new readers to the present large list of loyal Gazette followers.

Twenty-four boys and girls of the sixth grade at Juliaetta began the campaign Tuesday of this week, and it will run through Saturday, December 19th.

Juliaetta School Principal Gerald White agreed to take over the direction of the campaign when the Gazette asked his assistance, and said they would give the school 75c of every three dollars paid on new subscriptions. Not only will the school receive 75c of every subscription, but a prize will be given each junior salesman who sells more than three subscriptions.

The first prize offered in the contest will be a deluxe camera with a rhage. flash attachment. Second prize will be a beautiful boy's or girl's wrist be a beautiful boy's or girl's wrist watch, and the third prize will be a top brand pen and pencil set All

ORIE W. HAMILTON

KILLED SUNDAY

Sunday. Orie W. Hamilton, 55, a former Kendrick and Gifford area farmer and construction worker, died when another car crossed the center line and smashed into the auto in which he was riding. His son, Norman, 30, was injured critically. Jack L. Morgan, 33, of Kenni-

wick, driver of the other car, also was killed.

Norman Hamilton. Pasco, driver of the car in which his father was killed, was taken to a Pasco hospital. His jaw was broken in three places, his pelvis was fractured and one wrist was broken. He was in surgery from 10 a. m. until 4:30 p. m., and is to undergo further surgery this week.

Two of the elder Hamilton's brothers, Leslie Hamilton of 1018 7th St., and Ted Hamilton of 316 12th Ave., and his sister, Mrs. Arnold Olson of 1124 12th St., all Lewiston, drove to Pasco the same day on being notified of the accident.

Every American is taxed to pay for Federal "public power." The people of the State of Washington have paid \$85,250,000; the people of the State of Idaho have paid \$14,300,000. But there's another side to it. In addition to Federal aid in construction, public power is cheap because it escapes its fair share of taxes. Why should a PUD pay only about 7¢ of each revenue dollar for taxes while a private utility pays some 23¢? (Since rates are about the same, what does the PUD do with the money saved in taxes? Nobody knows.

There are now 1,266,566 people working in civilian jobs in the Executive Depart-ment; and 1,085,676 civilians working in the Department of Defense, not counting armed services personnel. In addition, there are 185,182 citizens in other countries receiving pay from the U.S. Federal Government. Twelve billion dollars for payroll breaks down to about \$252.00 for every family in America. What the people won't do for themselves, the government apparently has to do. If you want to stop the increase in Federal employment, then each community will have to do a little more for itself. * * *

\$100 apiece is what rare trumpeter swans meant in terms of fines assessed recently against four Idaho Falls hunters who had killed the noble birds. Originally the trumpeter was found over much of interior North America, with nesting grounds in Canada and Alaska, the Northwest, and even as far south as northern Mexico. Settlement of the west deprived birds of needed isolation and, only 25 years ago, just 73 trumpeter swans were known to exist in the area of northeastern Idaho, southeastern Montana and northwestern Wyoming in a radius of

WINTER WEATHER

Some perhaps grumble about the penetrating chill of the past few days, but when compared with the weather in other areas - ours has indeed been wonderful.

The days have varied from high cloudiness to bright sunshine, with night temperatures just below the freezing mark — and daylight hitting into the high 40's. There has been some rain. Saturday morning snow fell for a few minutes. The flakes were "as big as silver dollars" but melted almost as fast as they fell. and an hour after the storm ended no traces remained in the valley. and remained on the ground for
