

# Tigers Open Season

**THE FIRST TIP PUTS THE DEFENDING STATE CHAMPS IN PLAY.** Pictured above are the Kendrick Tigers and the Kamiah Kubs, as the 1959-60 season got under way. The Tigers lost their first and second games, but will be seeking a win this Friday when they meet Nezperce at Nezperce. Although the Tigers have lost their first two encounters, be sure to watch them, as they will win more than their share of the games this year. Follow the Tigers and give them your support.

## GENESSEE BULLDOGS DUMP TIGERS HERE FRIDAY NIGHT, 39-32

The Kendrick Tigers dropped their second consecutive basketball game Friday night to the Genesee Bulldogs, by a score of 39 to 32.

Friday night's game was the second loss for the defending state champs, but spectators generally felt that the Tigers looked much better than they had Tuesday before when they played the Kamiah Kubs and were beaten in their opener. It is also felt that the Tigers, under the able direction of Coach Denny Racicot, will iron out the rough spots and win a good share of their games.

The Genesee encounter was not an easy win for the Bulldogs, as the score was tied at the half-way point 19 - 19, and the game was on ice more than once in the second half. Both Duane Meske and Dave Baumgartner paced their respective teams with 16 counters.

Genesee also won the preliminary "B" game by a score of 46 to 39.

The Tigers again swing into action this Friday when they meet the Nez Perce team in a double header at Nez Perce, with B game starting time at 7 p. m. The Tigers did not play this Tuesday night, and will be seeking their first win of the season.

Be sure to see the Tigers in action this year, and you can be assured of top notch high school basketball, and a team you can be proud of, so give them your support.

**THE UNGUARDED TRAPLINE**

Fur Trappers who came to the west on the heels of the Lewis and Clark expedition were the first permanent citizens of the big new land. An unwritten law, held sacred by all but a tiny few, allowed trappers to leave extensive traplines unguarded for months at a time. Each trapper's rights of possession of area and catch were respected by all.

The same philosophy of respect for the rights of the individual survives to this day as a part of life in the west. The right of each individual to his property or his ideas including his choice of beverage is a proud tradition of Montana history we still enjoy today.

Today in Montana the United States Brewers Foundation works constantly throughout the beer business to assure the sale of beer and ale under pleasant, orderly conditions.

Beer belongs in the free west. Enjoy it.

**Idaho Potato Growers Pioneers New Dryer**

A revolutionary new development in the oldest form of food processing — the dehydration of food products — is going to work this month for one of the nation's largest processors of potatoes, Idaho Potato Growers, Inc., of Idaho Falls. Darrell Bennett, superintendent of the big cooperative's dehydration plant, points out how the stainless steel conveyor belt of the new dryer forms a continuous moving trough that holds the diced potato cubes while heated air is forced upward through the belt's wire mesh. G. L. McCall, processing division manager, left, and M. A. Peterson, general manager, inspect one of the new dryers which were purchased recently from Diamond Manufacturing Company of San Leandro, Calif.

**Report from the GOVERNOR**

**PROFESSIONAL MANAGEMENT IS NECESSITY**

Professional management of the natural resources owned by our state public school endowment fund is a manifest necessity.

We have established such programs in the management of our wildlife resources and our water and forest resources. Now we must extend this principle to the management of our land resources and our state park system as well.

The maintenance and preservation of watershed values, the winter range problems of our wildlife administration, the absolute need for stabilizing and strengthening our livestock industry requires that we have people on all these jobs who know what they are doing.

This kind of management has paid off in the forests. It will pay off in public lands administration as well. The time has undeniably come when we must subordinate all political considerations to the wise preservation of these natural resources for the continuing use of oncoming generations.

A decision to sell mountain meadow land now for a high dollar value per acre could very well be the key reason for a real disaster just a few short years ahead.

We just can't afford to let flash floods like the Boise disaster of last summer happen very many times any place. In the long run, the breaking up of this high watershed ground threatens the very water sources that give life to our irrigated valleys.

Next week the State Land Department is selling 2,400 acres of this mountain meadow land at public auction. This sale was ordered over my strenuous and continued objection. I predict that this land will bring a high price.

But after the sale the public as a whole will not have a word to say about how this land is managed. It will be in private hands, win, lose or draw. The public has an interest in the management of watersheds. In this instance we are trading dollars now for potential disaster later and this is bad management per se.

In a recent editorial the Lewiston Tribune put it this way:

"So long as the lands are retained by the State they can be administered for everybody's benefit — the cattlemen, the wool growers, the farmers, the campers and sportsmen. So long as the state controls these lands it can regulate the numbers of cattle and sheep allowed to graze these, to grow the maximum amount of meat and wool without depleting the range; it can insure the conservation of watersheds whose loss would or could cause unreckoned damage on downstream lands and choke the flow of irrigation water; it can provide the habitat we need to constantly replenish our wealth of wildlife.

"Once the lands are sold all these controls will be lost, and public lands once sold are almost irrevocable."

This is another of the reasons why Idaho desperately needs a professional Department of Natural Resources. We cannot afford political management of these resources much longer. Current history proves that. I asked the last Legislature to create a department and to staff it with trained personnel. If they had done so, some of these things would not be happening.

I feel strongly about this matter, because these public lands are a public trust. The Land Board should act as trustees in the highest sense of the word.

When the next session of the Legislature convenes in 1961, I shall ask it to correct the 1959 session's error or omission.

— ROBERT E. SMYLIE, Governor.

**IN THE TOP TEN**

Two Spokane firms and a San Francisco landscape architect firm won one of the "top ten" national awards presented annually by the American Association of Nurserymen.

The award, for industrial landscaping and beautification, went to The Washington Water Power Co., and to A. Edward Balzer of Spokane, and to Lawrence Halprin and Associates for the landscaping at the WWP Service Center on East Mission.

"Credit for this national recognition should go to the nurseryman and the landscape architects. W. L. Thrailkill, WWP vice president said, "We provided the land, but the rest was up to them."

Thrailkill said that WWP was particularly pleased that a Spokane nurseryman had a part in the landscaping project and was getting national recognition for his efforts.

Three of the ten awards went to recipients west of the Mississippi river. The awards formally will be presented at regional and state meetings of the Nurserymen's Association early in 1960.

**WATCH HEATERS FOR DEADLY GAS**

Boise — Some Idaho families may have small travel trailers equipped with a certain make and type of gas-burning space heaters believed to have been responsible for at least eight recent deaths from carbon monoxide poisoning in Michigan, Dr. Terrell O. Carver, administrator of the Idaho Department of Health, announced this week.

A warning received from the U. S. Public Health Service stated that some 2,000 of the 8080 BTU wall panel heaters had been installed in 32 makes of 10 and 12-foot travel trailers, sometimes used by campers and hunters. None of the heaters in question are known to have been installed in mobile trailer houses, Dr. Carver said.

Although the manufacturer has made remedial efforts to correct the defects, evidence is not positive on the complete efficiency of the modifications, the health department warns.

The report received indicated that the heaters had built up to a lethal concentration of carbon monoxide under normal operating conditions.

Dr. Carver said the State Health Department in Indiana, where the heaters are manufacturer, has obtained the serial numbers of all trailers known to be equipped with the heaters, and that a list will be available at the Idaho Department of Health office in the capitol building, Boise, within a few days.

**"DO LIKE HE DONE"**

A letter, obviously written by an illiterate salesman to the manager of his home office, read as follows: "Dear Boss: I just seen this outfit which ain't never bought a dime's worth of nothin from us and I sole them \$200 worth of guds. I am on my way to Chawgo."

Two days later a second letter arrived: "Dear Boss, I cum here and I sole them 40 thousand dollars wurth."

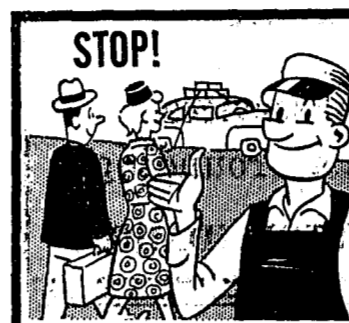

Both letters were posted on the bulletin board with this note from the president: "We have been spendin too much time hear tryin to spel instead of sel. Let's watch those sails. I want exerybody shud read these letters from G-----, who is on the rode doin a grate job and you shud go out and do like he done."

**HE WOULD TOO!**

"Your methods of cultivation are hopelessly out of date," said the youthful college graduate to the old farmer. "Why, I'd be surprised if you even got ten pounds of apples from that tree."

"So would I," replied the farmer with a grin, "it's a pear tree."

The Quarterly Meeting of the Gold Hill Church was held Saturday evening, with the Rev. Harold Pressnall in charge.

Mr. and Mrs. Cleon McAlister visited in the Jim Baumgartner home at Park Sunday afternoon. Enroute home they visited with Mr. and Mrs. Lowell Carlson on Big Bear ridge.

The Friendly Neighbor Club met Wednesday at the home of Mrs. Jack Parsley. Plans were made for the annual Christmas party for members and their families. Following a delicious pot-luck luncheon at noon,

Mrs. George Lyons and Mrs. Dick Parsley gave a most interesting demonstration on "Table Decorations."

Parents and friends of the Cedar Ridge 4-H Club enjoyed demonstrations and exhibits Saturday evening at the Gold Hill hall. Carolyn Holt, president of the club, gave the welcome and introduced leaders and members. Following the Pledge to the Flag (American) and 4-H Pledge, demonstrations were given — Janice Grinolds, Nutrition; Eileen Holt, Banana Bread; Gary Craig, How to Plant a Tree; Bobby Pratt, the Difference Between White Pine and Ponderosa Pine; Roger Kechter, Fir Trees; Burt Kimbley, Use of the Plant Press. Mrs. James Holt explained the 4-H emblem, colors, motto, and read The Creed. Mrs. Alva Craig introduced the 1st and 2nd Year Sewing Girls, who then modeled their garments. Different projects offered to 4-H members were also on display. Refreshments of cookies, punch or coffee were served by the ladies of The Friendly Neighbor Club, which sponsors the 4-H Club on this ridge. The evening was planned by leaders Clem Lyons, Mrs. Alva Craig and Mrs. James Holt, and was a most successful one.

Raymond Whybark was a Sunday afternoon and evening guest of Mr. and Mrs. Gil Erlwine.

Mrs. George Lyons, Lisa and Dorothy were Thursday afternoon callers of Mrs. James Holt.

Mr. and Mrs. Cecil Dean and family were Sunday dinner guests of Mr. and Mrs. Wayne Arnett and family.

Mrs. George Lyons and Mrs. Ida Lyons attended the organ recital at the Cameron Church Sunday evening.

Many folks from this ridge attended the funeral of Louis Alexander, Friday, at Lewiston.

Mr. and Mrs. John Chapman and daughters of Lewiston spent Sunday with Mr. and Mrs. Sam Weaver and family. The men butchered pigs.

Elmer Weaver was a Sunday evening visitor of Joe Cuddy.

Elmer Weaver was in Kendrick on Monday of this week — helping Larry Arnett celebrate his birthday anniversary.

Each family with children attending the Southwick Grade School, is asked to please bring one dozen popcorn balls the evening of the Christmas program — Dec. 22.

Thrifty folks use our BUDGET PLAN

By spreading the cost of your heating oil over ten monthly payments, our budget plan does away with old-fashioned seasonal heating bills—and no interest or carrying charges are added.

You save with Standard Furnace Oil because its Detergent-Action cleans your burner as it heats your home—gives low-cost operation. Every drop of Standard Stove Oil gives you more heat for your money in your circulating heater.
