### Progress Made On TV Problem

Some progress was made at the March 19th meeting of the Juliaetta TV Association. It was decided to use the "Blonder, Tongue and Benco" type translator, and to obtain the services of Vern Choate and Northwest Electronics of Spokane for installation.

Work on the 346 Form is progressing rapidly and it is felt that the April 1, 1961, deadline can be met.

It was noted that 90 percent of the television set owners in Juliaetta had paid or pledged their \$50.00 assessment. However, it is important that the payments or pledges continue to come in. The Association has enough cash assets to go ahead with the plans, but it will take every one's cooperation to finish the project. If each member will take care of his obligation as pledged, the town of Juliaetta will be assured of good and continuing TV reception.

It was felt by those present at the Monday meeting that future business of the Association be left to the present officers, and a working committee appointed by Vice President Cecil Gruell.

The Association would like to thank the people of Juliaetta for coming forth with money and pledges and it is hoped to reward the efforts with better than ever TV reception.

### Cancer Drive

The month of April is "Cancer Drive Month" and Mrs. Harvie Shepherd, chairman of the drive in Juliaetta, announces that the drive will begin on April 1st.

The FCC requires a public notice regarding translator re-broadcasting, and though our new operation will not begin until sometime this summer, the Juliaetta TV Association hereby notifies the public that it will rebroadcast Channel 2 on Channel 7; Channel 4 on Channel 9, and Channel 6 on Channel 11. We will use the Blonder Tongue Benco type equipment, which is FCC accepted. — Juliaetta TV Assn.

### Red Cross Drive Completed

The Red Cross drive was completed last week. Mrs. Ted Peters, chairman, wishes to thank everyone for their contributions, and if anyone was missed, and wishes to contribute, please see her. A total of \$52.55 was collected. Mrs. Jack Browning and Mrs. Wally Fleming assisted in the drive.

## LIONS CLUB SLATES LOCUST FESTIVAL, ALL-DAY ACTIVITIES REPLACE PARADE DAY

The Kendrick Community Lions Club this week disclosed a plan to replace "Parade Day" with a "Locust Blossom Festival," to be held in Kendrick on May 27. Although still in the planning stages, the day is expected to be one of the largest events to take place in Kendrick for many years.

The tentative plans for the day include: A morning parade, a noon band concert and barbecue, Gymkhana, races, etc., with a dance to wind up the activities.

This will be the first time such a festival has been undertaken in this community, and it is hoped it will be one of the most memorable occasions of the year. The date has been set to correspond (it is hoped) with the blooming of the locust trees, which are so numerous on the Kendrick streets.

The tentative schedule is as follows: Parade at 10 a. m.; foot races immediately after the parade; barbecue and band concert in the Kendrick park during the noon hour. (The music will be directed by Elmer Stitzlein K. H. S. music director) and it is hoped to have three bands.

## COUPLE HONORED WITH SHOWER ON SUNDAY, MAR. 19

Miss Marcella Christensen, daughter of Mrs. Elsie Christensen of Seattle, became the bride of Monty Clemenhagen, son of Mr. and Mrs. Grant Clemenhagen, in a double ring ceremony at Seattle, March 16.

On Sunday, March 19, the couple were honored with a combined reception and bridal shower at the Big Bear Ridge Community Hall. The hall was decorated with baskets of spring flowers. Lace tablecloths covered the gift table and the refreshment table. The refreshment table was centered with a beautiful three-tiered heart-shaped cake which was flanked by white candles in silver candleabra. The cake was baked and decorated by the groom's mother, Mrs. Grant Clemenhagen.

After the young couple cut the traditional first piece of the cake was cut and served by Mrs. Al Ruby and Mrs. Oscar Olson of Deary. Mrs. Robert Clemenhagen presided at the punch bowl, and Mrs. Roy Clemenhagen poured coffee. In charge of the guest book and gift table were Mrs. Joe Clemenhagen and Mrs. Fred Clemenhagen, all aunts of the groom. Monty, having just completed his Army basic training, will now be stationed at the "Nike" and "Redstone Missile Arsenal" in Huntsville, Alabama, where they will make their home.

Best wishes go with the happy young couple.

## V. F. W. AND AUX. HOLD MEET

Baker-Lind Post No. 3913 and Auxiliary met Thursday evening, March 23 in the V. F. W. Hall.

A report on the state meeting was given by Mrs. Darlene Wilson. Anna Weber won the "White Elephant."

Pie and coffee were served at the close of the social hour.

## PLANT TREES IN VILLAGE PARK

E. M. White, village custodian, was busy Monday planting fifteen new maple and Chinese elm trees in the Kendrick park. The trees varied in height from four to six feet, and should produce an excellent growth this year.

It is planned, when these trees become big enough to provide some shade, to begin taking out the old poplar trees that now provide the cool shade so desirable in the warm summer months.

## IMPROVING

W. E. Spicer, who suffered a light stroke some time ago, and was hospitalized, is now at his home and steadily improving. He is up to answer the phone — and glad to be home.

## EARL E. HARRIS KILLED NEAR BOVILL MONDAY

Earl E. Harris, 42, Lewiston, a sawyer for Potlatch Forests, Inc., in logging operations near Bovill, was killed at 1:50 p. m. Monday when a tree apparently became uprooted because of the amount of moisture in the ground and fell on him.

Coroner William Shields of Clearwater county and Orofino, and Potlatch Forests, Inc., officials at Bovill, said no wind was blowing at the time of the freakish accident, and the ground around the tree had not been disturbed. Shields said the tree was a limbless larch but still green. It struck Harris on the back of the head.

Harris was a son of Clarence E. Harris, a Lewiston street department employee, who at the age of 60 was killed when his city-owned truck rolled driverless down 9th St. Grade in Lewiston, July 24, 1955, and crushed him. He had gotten out to check where gravel was to be dumped and was standing in front of the truck when it began to roll.

The tree which struck Earl Harris was about 100 feet tall and eight inches thick at the point where it hit him. Terrance Corlin, Bovill, was working with Harris falling trees to be used in decking a loading area for trucks. Harris was standing on a fallen tree, looking toward a small creek when Corlin heard a noise. He saw the larch falling toward Harris and yelled to him. Harris made no move.

Mr. Harris had worked in the woods most of his adult life. He was born May 19, 1918, at Troy, Idaho, and lived there for two years. From 1920 to 1942 he was a resident of Gold Hill, near Kendrick. He attended grade school at Gold Hill and was graduated from Kendrick High School. He was away from woods work for 36 months while he served in the Army in World War II from 1942 to 1945. He lived at Bovill from 1948 to 1956, when he moved to Lewiston.

He was married to Carol Mattoon of Kendrick, June 12, 1948, at Superior Mont. Also surviving are five children at the family home at 3613 18th St., Lewiston: Shirley Ann, Earle Elaine, Anita Gall, Thomas Lee and Timothy Arnold; his mother, Mrs. Myrtle E. Harris, Lewiston; two sisters, Mrs. Edward Ingram of Lewiston, and Mrs. Delbert Nicholson, Potlatch, and a brother, Harry Harris, Avery.

The body was taken to the Brower-Wann Funeral Home at Lewiston.

## SCHOOL DIRECTORS SET RULINGS ON ATTENDANCE

### I. Absence from school:

A. There shall be three kinds of excuses:

1. Number One — This excuse will be given only for illness, dental appointment, optometrist appointment or bereavement that is verified by a note from home. A student who has a Number One excuse will either be allowed to make up the work he missed or not be penalized for missing it.

2. Number Two — This excuse shall be given to those students who have legitimate reasons for having been absent other than those stated in paragraph one. Work trips with parents, various emergencies at home etc., are examples of legitimate reasons. If possible students should arrange for these absences in advance by submitting a note from home stating the reason for the absence. If advance arrangements are not possible, a note must be presented after the absence in order for an excuse to be given. Make-up arrangements will be optional on the part of the teacher. He will be under no obligation to arrange make-up, but may, if he so desires. The teacher may or may not penalize a student for work not made up, depending upon the individual case and the agreement reached with the student.

3. Number Three — This excuse will be given to those students who have been absent for reasons wholly unacceptable under paragraph one or two, or who have presented no note from home explaining the absence. Students who have Number Three excuses may not make up for credit any of the work they missed. They shall be penalized for the missed work by the teacher placing a zero or a failing in their grade books for each day which was missed.

B. Absence from school because of legitimate school activities shall be marked in the attendance books of the teachers just as if the student were absent for any other reason. A number One excuse will be given to the students involved signifying that the student is expected to make the work that was missed.

C. Tardiness  
A. Students who are tardy to class because of carelessness on their own part must have an admit slip from the office in order to be admitted to class. They will have to make up

## TENTATIVE WELL ACCEPTANCE

At the last meeting of the village trustees in Kendrick, after examination of the test pump report on the new well, it was agreed to accept it as it is, provided it meets the approval of the engineer who supervised the project. He lives in Spokane and has not yet been here to confer with the trustees, and examine the test reports.

Said Frank Abrams, mayor: "We do not see where much, if anything could be gained by going deeper with the 12-inch hole, and then casing part of what we have now. There is no reason to believe we would get more, or better water. The stuck bailer has also been removed, so that is no hindrance."

Mr. Abrams added: "The 12-hour pump test showed 306 gallons per minute, and the water dropped but 71 feet. I don't know how much more the well might have been capable of producing, but that was the full capacity of the pump."

## CRAB FEED AND FAREWELL PARTY

G. F. Brocke & Sons, Inc., entertained their employees and several guests at a crab feed Friday evening, March 24th, in the Kendrick Fire Hall — and it was also a farewell party honoring Mr. and Mrs. Clifford Davidson, who leave this week-end to make their home in Spokane.

Following the bounteous crab feed with all the trimmings, the evening was spent in visiting and watching "Sing Along With Mitch" on TV.

The group presented Mr. and Mrs. Davidson with lawn chairs and table as a farewell gift.

Those present were: Raymond Swanson, Mr. and Mrs. Paul Lind; Mr. and Mrs. Ellis Anderson of Troy; Mr. and Mrs. Clarence Alexander, Mr. and Mrs. Ronald Craig, Mr. and Mrs. Claude Gephart, Sr., Claud Gephart, Mr. and Mrs. Harvey Head, Mr. and Mrs. Wm. Johnson, Mr. and Mrs. Jake Riebold, Dr. and Mrs. D. A. Christensen, Mr. and Mrs. Phil Johns, Mr. and Mrs. Art. Johns, Mrs. Adrian Johns, Mrs. W. A. Waitts, Mr. and Mrs. Walter Brocke, Mr. and Mrs. Clifford Davidson, and Dean Brocke.

## ALMOST LOSES FINGER TUESDAY

Leonard Eckman, son of Mr. and Mrs. Lloyd Eckman, Juliaetta, cut the end of a finger nearly off, when a door at the school house closed on it.

The end of the finger, including the nail, was severed, with the exception of about one-sixteenth inch of skin — enough to make it possible for Dr. Christensen to sew it back on.

## NOW AT HOME

Mrs. R. L. Blewett was brought home from the Spokane hospital last Friday, and is convalescing at the family home here. Her mother, Mrs. Wm. Bartlett of Gifford, came over Saturday to help out for a week or two.

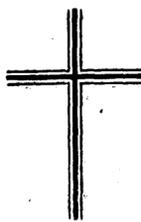

one-half hour before or after school studying the subject of the class to which they were late. If a student is late to class because of a conference with another teacher, the teacher responsible for the tardiness will write an excuse for the student to carry to his class. No penalty of any kind will be exacted for such tardies. The teacher who is presented with an excused tardy note will take up the note and return it later in the day to the originator. Unexcused tardiness will be administered by the office.

III. Student procedure  
A. Students will be responsible for bringing their notes from home into the office before classes begin. If they are late to class because they forgot to get their excuse in time, they will be considered unexcusably tardy and have to make up the time.  
B. Students will present their excuses to either the teacher or the student secretary for each class that was missed and turn the completely signed excuse in to the office at the end of the day.

**EASTER**

The Easter Bunny will be coming soon, and will hide some eggs in your room.

But Easter isn't all rabbits and eggs, it's the day Christ arose from the tomb.

Up there on top of Calvary Hill, two other robbers they did kill. One on each side of Christ with a cross of their own.

But Christ died on the cross of his own free will.

They pierced his side with a little spear.

But Christ went on without a tear.

"Father forgive these people for they know not what they do"

And God forgave them just like he does you.

So do you see, Easter isn't all rabbits and eggs

Christ died on the cross for your sins and mine

So now do you see why Easter is such a wonderful time.

— Roy Fry.

### IDAHO POTATO SEED IN GOOD SUPPLY

Idaho has a large supply of certified potato seed for the 1961 crop, Larry Summers, potato marketing specialist of the University of Idaho extension service, reported this week. The harvest of certified seed last fall was about three million hundred-weight, he said. That's nearly 30 percent more than the 1959 crop and 48 percent more than the recent average. Seed potatoes were harvested from 19,382 acres, a 32 percent increase from 1959 and 85 percent higher than the average.

Russet Burbank is the predominant variety, accounting for 98 percent. On a national basis, certified seed potato supplies are 8% greater than a year ago. Katahdin, largely a product of Maine, is the leader with 13-million sacks. Russet Burbank is second with five and one-half million sacks. The Russet is grown mostly in Idaho, Maine, Montana and Oregon. Idaho seed from the 1960 crop is being tested in California this winter. Readings will be made in March, several months before normal Idaho planting dates.

### CANCER DRIVE BEGINS IN APRIL

Two JayCee nominees for Miss Idaho of 1961 point out cancer statistics in Idaho as the annual Crusade for the American Cancer Society, Idaho Division, begins April 1 for the entire month throughout the state. On the left is LaVerda Garrison, Miss Nampa; and on the right, Bonnie Smith, who is Miss Boise. Statistics on the chart are 1959 figures, the latest available, as prepared by the Bureau of Vital Statistics, Department of Health, Boise. In that year there were 1,490 reported cancer cases, and 703 deaths. Important to note is the fact that of the 703 deaths from cancer, more than three out of four were not publicly reported until the patient died, leading to a greater estimated number of cases than are actually reported.

### STREP THROAT IS MORE THAN JUST A COLD, IT CAN BE VERY DANGEROUS CARE OF SICK ANIMALS NECESSARY

Many sore throats get well by themselves, no matter whether they get proper treatment or not. That is why gargles and flannel bandages around the neck and throat lozenges and a lot of other things get a reputation for being "cures."

There's one kind of soar throat that doesn't pay to fool around with even when it seems to be mild. That's the kind due to a germ known as streptococcus—strep for short.

This condition is the same as what we used to call scarlet fever, except that there isn't any rash, or at the most a faint flush that escapes notice or soon disappears.

A strep throat usually comes on suddenly with fever, nausea or vomiting, and a general feeling of illness. You can't distinguish it at home from ordinary sore throats, yet it must be treated promptly, before it does serious damage. The only way to be safe, then, is to take no chances with ANY sore throat, but get medical attention at once. Easy To Spread

Strep throats are contagious, and may spread through a family, unless the person is kept in a room by himself, fed from separate dishes which are sterilized after using, and given towels and washcloths which are also kept separate. The patient's coughing and sneezing are particularly dangerous since they spread germs into the air, where they are carried on dust particles and moisture until breathed in by someone else.

Strep throat infection may spread to the ears, the eyes, the sinuses, and down into the chest. It may injure heart or kidneys.

The most serious danger in strep throat is rheumatic fever. This is not an infection, but it follows strep infections. Persons who once had rheumatic fever should be particularly careful about throat infections, which may set off recurrences of the rheumatic fever.

U. of I., Moscow.—When an animal appears sick, put it in a place by itself and call a veterinarian. Those two first steps are recommended by Dr. Lloyd H. Scrivner, University of Idaho veterinarian. A summary of his suggestions was offered this week by Homer Futter, county agricultural agent. In any infectious disease, the veterinarian pointed out, there is a lapse of time between the entrance of the germ into the body and development of symptoms. This is the incubation period. Incubation varies with different diseases. In some it is measured in hours, while others take weeks or months.

Early symptoms of several diseases are very similar. Considerable professional knowledge is necessary to separate them. In all infectious diseases the causative agent is multiplying in the animal's body. As the organisms increase, the chance of them overcoming resistance of the animal and spilling over into body wastes increases. When they spill over they are more likely to infect other animals. Therefore, it is important to isolate sick animals. A delay of two or three days to "see what will happen" may result in spreading the trouble at the very time the organisms are developing at their maximum rate.

There are effective vaccines and specific treatments for most diseases if they are used early. So it is advisable that a veterinarian be called early to diagnose and make a laboratory examination if it is required.

### Why do you trust this man to feed your family?

HAVE you ever realized that the most precious thing you buy every day is food? Probably not. Yet your own family's health and well-being depend largely on the quality of food you buy. Your food store dealer never forgets this fact. That's why he's as careful of the food he offers you as he is with the food he takes home to his own family.

While experience has taught you to rely on him for the best—most wholesome—foods, you likely take for granted his constant check for quality...his investment in new and better foods...and that he brings all of this to you at a price you know is right.

And how rewarding for you if your favorite food store gives you S&H Green Stamps.

You know, of course, that half the families in America save them today.

Your S&H Green Stamps make it possible for you to choose from over 1,500 top-quality, famous brand-name items at your S&H Green Stamp Redemption Store.

**PARK PATER**

By Mrs. Ben J. Smith

March 14 — "Mad Hatter's Tea Party" — Making Easter bonnets, conversation and drinking tea helped Monday afternoon pass pleasantly at the Enger home. Mrs. Mickey Baumgartner and Mrs. Jerry Smith and children called to complete the "Mad Hatter's Tea Party."

March 20 — PINOCHLE PARTY — The bi-weekly pinochle party was held at the school house Saturday evening. Those present from Deary were Mrs. Dorothy Lancaster and John, Paul Kirk and Bruce Baumgartner. Those from Park were Mr. and Mrs. Charles Stratton, Mr. and Mrs. Charley Enger, Kathy and Linn, Mr. and Mrs. Karl Enger and Vickie, J. D. Baumgartner, and Mr. and Mrs. Jerry Smith and children. High prizes were won by Mrs. Hazel Enger and Karl Enger and Jerry Smith tied for the men. Low prizes went to Mrs. Smith and Paul Kirk. After the games had ended refreshments, many of which were special-day. Those present at the party from Park decided to enter a float in the Deary Strawberry parade depicting the strawberry industry at Park.

**WEATHER NOTES** — The first few days of real spring weather were noted in Park last week. Several of the farmers used the opportunity to burn dead grass and brush out of the fence rows.

**OTHER ITEMS** — George Lawrence of Deary and J. D. Baumgartner have returned from a week-long fishing trip to Pend Oreille lake for bluebacks. The Baumgartners were in Moscow on business, Saturday.

Mr. and Mrs. Charles Stratton have returned from an extended trip to Spokane, where they visited relatives.

Charley Enger recently purchased a 1953 Ford station wagon to take the place of the Studebaker he used as a "shuttle car" when driving the school bus.

Callers at the Fox home Thursday were Mrs. Mickey Baumgartner, Mrs.

**SPRING SEEMS TO HAVE ARRIVED**

Officially spring was due to arrive on Monday, March 20 — but locally it arrived a couple of days ahead of schedule — or at least so it seems at this time.

After a somewhat damp and chilly Thursday and Friday, "Old Sol" turned on the heat Saturday, and

Helen McKinney and Mrs. Wanda Enger and Vickie. Ed. Lord and children and the Engers called on Sunday.

Visitors to the Lord home Sunday were Mrs. Marie Flodberg of Troy; Mr. and Mrs. Ed. Hall of Bovill, and Mr. and Mrs. Ray Carmen of Deary.

Mr. and Mrs. Karl Enger and Vickie Lynn were dinner guests in the Smith home Thursday, and at the Fox home, Friday.

Charles Jelleberg was in Deary to attend a Weed meeting at the Grange hall on Saturday. He called at the Smith home Sunday. Mr. and Mrs. Ed. Hall also visited the Smiths that day.

it was indeed a beautiful day, with the mercury climbing to a high of 64 degrees. Sunday was even better, the column indicating 72 degrees for the warmest day of 1961.

Along with the two warm days came the blooming of forsythia and daffodils, violets, daisies and a number of other early spring bloomers. And to cap the climax — Marvin Long mowed his lawn for the second time and Everett Fraser plowed his garden!

Other signs of spring are farmers hauling out loads of fertilizers, land plaster, etc., and trucks carrying farm machinery may also be seen now and then.

Local loggers are still at a standstill, but the big pulp trucks of P. F. I. are beginning to move again.

The Potlatch river is dropping and clearing, and local fishermen are spending their spare time on the Clearwater river in search of steelheads.

Sunday night this area was visited with a slashing wind and rain storm.

It last only a couple of hours, but there was no doubt but what the wind was blowing and rain falling!

The old lady is always delighted with the lunches, and the other day, as she sipped the milk, she said gravely, "Oh, Larry, don't ever sell that cow!"
