

"HELLO WALK" IS NEW ADDITION AT U. OF I.

Proving that a safety hazard can be eliminated and a horticulture research "laboratory" and beauty spot added at the same time is the new "Hello Walk" entry at the University of Idaho, which will greet students returning to the campus this

fall. "Hello Walk" is a pathway bisecting the lawn in front of the Administration building where by tradition each student met is greeted. Students have used the same route since the university first opened its doors in 1892.

Gone will be the old flight of steep stairs. In its place will be several levels of risers which wend past native rock planters, along an organic garden, by several redwood benches

and on to the Administration building.

The over-all design of the project was made by Charles Stoll, a senior architecture student from Williamsport, Pa., while working part time at the university's physical plant division.

The revamping grew out of the necessity for a safer student pedestrian crossing and the need for better control of traffic near the terminal area. Blake street was to be widened which meant the old stairs of the

walk would have to go. In its place will be the new entry.

Working out the new look were members of the buildings and grounds staff and William Snyder, assistant professor of horticulture.

Stoll was asked to do the design as part of his buildings and grounds job and "give it something that means something." He was equal to the task and his design accepted.

"This is organic design," explained

SOIL CONVERSATION

"These Renovated Pastures Really are 'Bully!'"

The crows recognize that it may not be the farm for "peaches and cream" nor "milk and honey" — but it's a "honey" just the same. Economical beef production can be the secret to increased income on your farm. And renovated pastures supply young beef animals with a nutritious diet — and increase soil fertility at the same time. Get advice on such a practice from your local soil conservation district. Now!

Elephant Brand liquid FERTILIZERS

Your clay hilltops and eroded slopes need PHOSPHATE, SULPHUR, NITROGEN and sometimes POTASH. We can furnish you with a DUAL SYSTEM fertilizer applicator that will apply low cost Ammonia Nitrogen in combination with Phosphate and Sulphur. With one trip over the field your Elephant Brand Liquid Fertilizers are ready for those plant roots as soon as you seed. Your clay hilltops will raise comparable crops to your better soil with the addition of Phosphorous, Sulphur and Nitrogen. Let our field men show you the results from last year's application — they are surprising.

Apply Fertilizer Now --- Pay October 10

FOR TOPS IN SERVICE We have established a new site in Kendrick. A collect call to Moscow will bring us to your farm on the run. Another first with Williams — 2-WAY RADIOS are now installed in our field trucks for the best in Fertilizer service. If you need a delivery, an applicator, repairs in the field, or Soil Testing Service, a collect call to WILLIAMS IN MOSCOW, and our 2-WAY RADIO system, will bring a man to your farm immediately.

the 30-year-old student. "There is something growing and blooming throughout the year from among the 70 different plant varieties used. We attempted to simulate the out-croppings familiar to this area and provide a landscaping for day and night."

The walkway, which was made safer by a grade reduction at the end will have special lighting to highlight the area after dusk. Plant scientists and students will be able to use the area for the study of species not native to the Northwest. Stoll, who has worked his way

through the university, has had a hand in the project from the first mark of the pencil to the actual construction. He is currently working as a laborer with the contractor doing the job.

BITS OF THIS AND THAT

Traffic accidents in America cost \$6.4 billion last year. That amount would pay for one-third of all the farm machinery in the nation.

Biggest classroom in the world

THE CLEARWATER FOREST . . . SCENE OF AN UNUSUAL EXPERIMENT IN "ON THE SPOT EDUCATION"

PFI, cooperating with the Forest Service, the Clearwater County Forestry Extension Service and other service organizations, participated in playing host to 90 Clearwater County 6th grade pupils during a three-day tour of the timber country. Accompanied by Forestry 4-H members and adult leaders from various service organizations, the group of more than one hundred literally "took to the woods."

Camping under the stars, speeder rides into PFI logging camps, eating with the lumberjacks in the cookhouse, watching logging operations (from falling the tree . . . skidding it to a landing . . .

to the final loading onto truck or flat car), listening to talks by men who specialize in each phase of logging and forestry, filled every moment of the three days.

For many children, this was their first look at the forest. For most of them, the experience will be long remembered.

As a good neighbor, POTLATCH accepts its responsibilities toward the education and development of our young citizens — the leaders of tomorrow.

STUDYING FISH LIFE CYCLES

Fish and Game Department biologists are studying several important

questions about the changing living conditions of fish. A program is now underway for tagging and releasing catchable-sized hatchery trout in the various watersheds.

Changing conditions include higher water temperatures, more silt, mu-

nicipal and industrial pollution and competition from other kinds of fish. The success or failure of this study hinges on the amount of cooperation anglers will give in returning the tags they recover.

U. OF I. HAS NEW CONSTRUCTION PROJECTS GOING

Work is going at a feverish pace on 20 construction projects to be completed by the opening of the fall semester at the University of Idaho next month. A record number of more than 4,200 students are expected to enroll for classes at the university this year.

Largest project entails the finishing touches on the new \$500,000 College of Mines building which will open its classrooms and laboratories to students for the first time this fall. It was financed one-half by contributions from the Idaho mining industry and one-half by state appropriations.

A new \$170,000 home for the Alpha Chi Omega sorority will be ready for occupancy in early September. To house 60 women, the two-story home designed by Gale, Martell, Norrie and Davis, Coeur d'Alene architects, is of traditional design. The exterior features pink Roman brick with white cedar siding and black ornamental ironwork trim.

A move to make pedestrian travel safer at the corner of Blake Street and University Avenue has resulted in the widening of Blake Street and removal of the old "Hello Walk" steps. Three short risers replace the previous steep descent. In addition,

native rock planters and an assortment of 70 plant species from all parts of the nation have been added to the area.

New luminaires to light University Avenue and Line Street are being installed to replace the outmoded lighting standards.

A new access road to the campus is being provided by the extension of Rayburn Avenue north to the Moscow-Pullman highway (State Highway No. 8). This improvement is expected to alleviate the rush-hour strain on the existing access roads.

Automatic fire sprinkler systems being installed in the Science hall and the Agronomy building are part of the continuing plan to increase the safety of older classroom and laboratory buildings.

Utility tunnels, carrying steam, water and gas pipes and electrical service to all parts of the campus, are being extended to new construction areas.

Among other projects are the covering of the Administration building file roof with a vinyl weather-seal

membrane; remodeling of various offices on campus; masonry repair on the Engineering Kirtley Laboratory No. 1; resurfacing the tennis court north of Ridenbaugh hall; rewiring dormitories to provide additional power outlets and improved illumination, and paving and resurfacing of campus streets.

Within the next month, the university will call for bids on a major addition to the Student Union building, which is to be financed by student fees and revenue.

ODD BUT TRUE

A new method of dehydrating potatoes, carrots and other vegetables that will make them ready for eating after simmering in water about five minutes is being developed by the department of agriculture.

We now use 270 billion gallons of water daily. Reliable estimates predict a need for 600 billion gallons daily in 1980.

The United States is losing annually about one million acres of our finest farm lands, to non-agri-

cultural uses, such as housing, highways, airports, golf links, factories and the like.

Seed of two new disease resistant dry bean varieties has been released by the department of agriculture. Michelle-62 is a selection from foundation seed grown in Idaho. The other, Saginaw, was developed in Michigan.

Idaho farmers used 15 percent more commercial fertilizer last year than they did in 1959. The estimate of the increase is based on 150,000 tons registered for use in 1960. Total value was about \$14 million.

The WEEKLY Handyman

A Service of Thor Research Center For Better Farm Living

Q. I understand there actually are three steps in the sanding process, graduating from coarse abrasives to fine. Could you tell me the proper grit designations for smoothing rough plastic with a portable electric sander?

A. Three different grades of abrasives are enough to get a good finish on most material, though some perfectionists use up to six different abrasives, going from

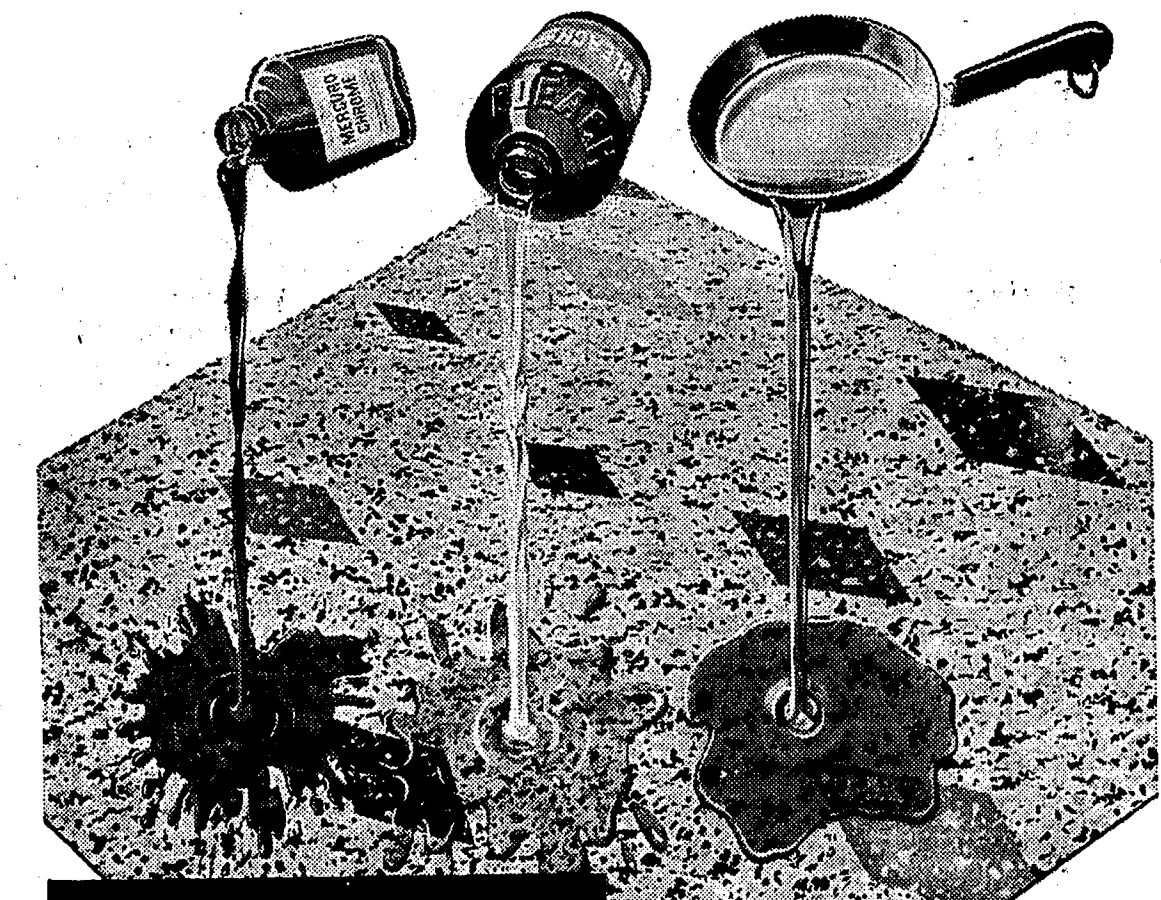

coarse to very fine. The best progression for finishing plastics begins with 36 or 40 grit, goes to 60 or 80 grit and winds up with 100.

Here is a chart by SpeedWay power tool specialists which provides an accurate guide for sanding a wide range of material:

Material	Coarse	Medium	Fine
Hardwoods	30-40	60-80	100-120
Softwoods	40-50	60-80	100
Aluminum	40	60-80	100
Brass	36-40	60-80	80-120
Composition	40-50	60	80
Copper	40-80	80-100	100-120
Cork	24	50	80
Iron	24-30	60-80	100
Paint removal	24-40	60-80	100
Steel	24-30	60-80	100

Abrasives are designated in two ways, by symbol or grit size. The most common sizes (first number is the symbol): 3=24 grains per square inch; 2 1/2=30, 2=36, 1 1/2=40, 1/2=60, 1/0=80, 2/0=100, 3/0=120, 4/0=150, 5/0=180, 6/0=220, 7/0=240, 8/0=280, 9/0=320, 10/0=400, 11/0=600, 12/0=600.

Silicon-carbide abrasives cover this entire range; aluminum oxide covers all but the very-fine grits, and garnet goes only to 1/0. Carbit, a lifetime abrasive material made of carbide bonded to metal, is available in three popular grades: 80 (medium coarse), 120 (medium), and 150 (medium fine).

THE Bull itin

Published Weekly by the Union Oil Service at Kendrick
W. L. "Bill" Rogers, Editor

HELLO, THERE, FOLKS:

Well, the rain Friday night did a bit of good — it put down the dust — but field plowing is still mighty tough work. So why not cut down on that a bit by using Union Diesel Fuel, Union Gasoline and Union Motor Oils — for peak performance of your tractor. Call us at 4251. We hurry!

A stout school teacher was talking about birds and their habits. "Now," she said, "at home I have a canary and it can do something I cannot do. I wonder if any of you know exactly what it is?"
"One boy raised his hand. "I know, teacher," he said. "Take a bath in a saucer."

Have you seen the new Union Minuteman Tire? The first tire good enough to bear the name

"Union." If you haven't come in and see it today, it's priced to meet competition — yet give superior service. Sure, we trade!

Pat: "How's that?"
Mike: "This is a great country, Pat."

Mike: "Sure, the paper says you can buy a folve dollar money order for jist eight cints!"

Need service on your car, plow or truck? Bring it in for a real going over. We'll lubricate it from end-to-end, using the proper lubricant at each spot — change the oil and filter cartridge — and with Union Products you're ready to roll for miles!

How long has it been since you changed oil in your car, pickup or truck? Bring it in today!

A. L. C. W. To Meet

The Cameron Ladies of the A. L. C. W. plan their first business session on September 6th (Wednesday afternoon) after their summer vacation, at the hall. Please plan to attend if possible.

Infant Baptized

Debby Ann, infant daughter of Mr. and Mrs. Roy Silflow was baptized into the Lutheran church at Lewiston, August 20. A dinner was served at the Silflow home after the services. Present were Mr. and Mrs. Otto Silflow, Mr. and Mrs. Henry Lingenfelter of Tekoa, Mr. and Mrs. James Whittinger and Janis, Mr. and Mrs. Harold Silflow and Kathy, Mr. and Mrs. Emil Silflow and son, Mrs. John Blankenship and Betty and Herman Silflow.

Sponsors for the baby were Mrs. Emil Silflow, Harold Silflow and Mrs. John Blankenship.

Undergoes Surgery

Otto Kruger, who has been a medical patient at the St. Joseph's Hospital in Lewiston for the past two weeks, underwent surgery Tuesday morning.

No further information is available at this time.

Other News

Mr. and Mrs. Dick Cuddy spent last Wednesday evening visiting with Mr. and Mrs. Harl Whittinger.

Last Thursday Mrs. Clay Albright of Lewiston; Mrs. Albert Glenn and Mrs. Blum were dinner guests of Mr. and Mrs. Wilbert Brunstiek. Mr. and Mrs. Eldon Glenn and baby were also guests.

Mr. and Mrs. Wilbert Brunstiek and Mrs. Albert Glenn spent last Friday with Mrs. Clay Albright in Lewiston. Herman Silflow was a Walla Walla visitor recently.

Mr. and Mrs. Ervin Lohman and son Gary are spending a week's vacation at the Seven Devils, fishing. Mrs. Gary Lohman is visiting her parents, Mr. and Mrs. Geo. Denhler, during their absence.

Mr. and Mrs. Wilbert Brunstiek were last Sunday guests of her cousin, Mr. and Mrs. Dave Garrett, at Genesee.

Mr. and Mrs. Aug. Brammer and Grandma Koepf visited Sunday after-

noon with Mr. and Mrs. Albert Glenn and Mrs. Blum.

Mr. and Mrs. Dallas Hepler were Sunday dinner guests of their son and wife, Mr. and Mrs. Stanley Hepler. That evening all drove to Lewiston and visited with Mr. and Mrs. Howard Plummer.

Mr. and Mrs. Bob Draper and Mr. and Mrs. Harl Whittinger picnicked at the Three Devils picnic area on the Lochsa River, Sunday.

Mr. and Mrs. Gus Kruger spent Monday evening with Mr. and Mrs. Wilbert Brunstiek.

Mr. and Mrs. Roy Silflow were Lewiston visitors on Thursday.

Mr. and Mrs. Henry Lingenfelter of Tekoa returned to their home on Friday, after spending some time in the Roy Silflow home.

Mr. and Mrs. Loren Westerman and daughter Sharon of Spokane, and Mrs. Louise Criddlebaugh and grandson Jerry Gruelle of Lewiston visited with Emma Hartung and Ida Stoneburner, and Mrs. John Schwarz last Thursday.

Mrs. Walter Denhler and Judy visited her mother, Mrs. John Schwarz, last Thursday.

John and Susan Schwarz visited with Ida Stoneburner and Emma Hartung last Wednesday.

Mr. and Mrs. John Rausch of Wenatchee and Mrs. Swart and children of Ephrata, Wash., visited last week with Mrs. Otto Kruger. All visited with Carl and Otto Kruger in Lewiston on Wednesday, and that evening they called on Mr. and Mrs. Fred Newman.

Mr. and Mrs. Ed Mielke and Patricia and Mrs. Fred Newman were luncheon guests of Mr. and Mrs. Geo. Allen on Thursday.

Ray Whittinger and son Gary and Mrs. Huffman, all of Lewiston, were recent supper and evening guests of his parents, Mr. and Mrs. Harl Whittinger.

MORE JULIAETTA

Continued from Page 2

Week-end here visiting relatives and friends.

Mr. and Mrs. Neil McKellup of Polkath were week-end guests last week of Mr. and Mrs. Gate Clark.

Mrs. Gertrude Pederson, recently returned from a trip to Minnesota, North Dakota and Montana, visiting relatives and friends.

Mrs. Leslie Garrison and Mr. and Mrs. Ted Garrison and children of Oregon City, Ore., spent a few days this week visiting Mr. and Mrs. Will Groseclose.

Mr. and Mrs. Gerald White and family returned to their home in California the first of this week, after spending two weeks here visiting relatives and friends.

Mr. and Mrs. Harvie Shepherd visited with the Vernon Banks family in Lewiston, Saturday afternoon.

Christie Johns, daughter of Mr. and Mrs. Adrian Johns, spent last week in the Harvie Shepherd home, while her parents were in Seattle.

Mr. and Mrs. Fred Bailey of The Dalles, Oregon, and Mr. and Mrs. Jack Bailey and son Kirby of London, Oregon, visited in the Alonzo Guthrie home Friday.

Mrs. Monte Calkins and son Edwin returned home last Friday from Boise, where he had been a patient in St. Luke's Hospital for the past week.

Mr. and Mrs. Lloyd Scott and family moved to Willow Ranch, Calif., last week, where Mrs. Scott will teach.

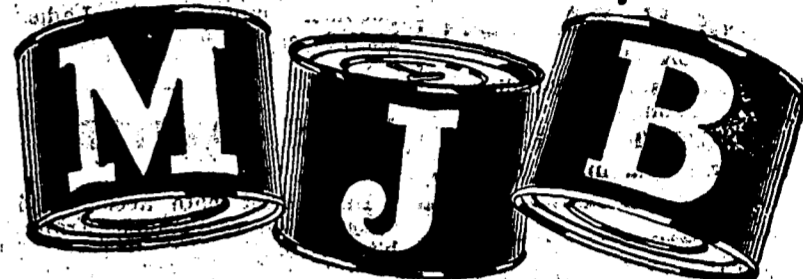

Mr. and Mrs. Monte Calkins and family moved into the Marvin Leland house this week.

Mr. and Mrs. Ervin Mabbot spent the week-end in Fendleton, Oregon.
