after attending the Rebekah State Assembly. She made the trip with Mrs. Doris Hanson, Mrs. Velda Kanstiener and Mrs. Hazel Hammond, all of Deary.

Mrs. Cope and Mrs. Kanstiener day, October 28. were Assistants to the President of the Assembly. Mrs. Kanstiener was appointed Conductor for the next Assembly, to be held in Idaho Falls next year.

Family Reunion

Many incidents happen regularly, while others are spectacular and rare. When four brothers and a sister get together for a happy reunion, after a lapse of many, many years, this is indeed a rare incident. The cycle of time again united the fivesome at the home of the sister, Mrs. Emma C. Hodges at Dutton, Mont, for a week-long visit in the area.

Driving from their homes in Juliaetta and Lewiston, Idaho, respectively, were Mr. and Mrs. Charley Schultz and Mr. and Mrs. Albert Schultz, to meet the two other brothers, John and Fred, at Dutton.

Four of this rugged German family were born in Minnesota, while Albert, the youngest, was born in the state of Washington, after the elder pioneers migrated west, just before the turn of the century.

Yes, it's true! Rain, the first fall really worth mentioning for many weeks, began falling about 4:00 o'clock Tuesday afternoon, and continued throughout most of the night. It was just what the farmers had been hoping for — but all say, "We need a lot more!"

The temperature is quite warm, being in the mid-50's - and will give fall-sown grains just the lift they need.

Fresh and cured meats of all kinds are obtainable at Blewett's Market 10:00 a.m. in Kendrick.

## SHOW AT OPPOSITE ENDS OF PROBLEM

By J. Edgar Hoover, F. B. I.

Wash., D. C. — There is a deep FRACTURED FACTS nation today on standards of edu-cation at all levels. Teacher training, physical facilities, curriculums and the complexities of financial support all demand and are receiving wide attention. This is an encouraging trend, and it typifies the awareness educators and citizens have for the welfare of American youth.

on these challenges, we cannot afford I've been sitting in the wastebasket!" to ignore other effective defenses

The staggering toll of crime in minute! this nation is revealed in appalling statistics. The Uniform Crime Reports for 1962 reflect the commission of some 2,048,370 serious crimes durtickle your palate at Blewett's Groing the year. More significantly, this cery in Kendrick. exceeds the record for the previous year by 6 percent.

With the exception of murder, which showed a decrease of 2 per cent, all classifications of serious crimes registered increases during 1962. Forcible rapes increased 2 per cent; robbery was up 4 per cent; aggravated assault and burglary rose 5 per cent; larceny of \$50 and over shot up 8 per cent; and auto theft jumped 9 per cent. The first half of 1963 saw another 9 per cent rise in serious crime.

The index used to measure crime in this country is greatly influenced by the fluctuation of property crime robbery, burglary, larceny and auto theft — which occur in everincreasing volume. In 1962 young persons under 18 years of age comprised more than half of all the arrests for these crimes. Specifically, they were represented in 62 per cent of the arrests for auto theft; 51 per cent for larceny; 49 per cent for burglary and 25 per cent for robbery. Although only a small percentage of the young people are involved in these criminal acts, the proportion who are becoming involved is increasing more rapidly than the populations of the control of the contro lation of this age group.

Collectively, these young offenders are primarily school students. Certainly here is an area in the "education" of our youth where there is dire need for improvement. Prevention of crime should be the concern of all public-spirited citizens. While parents are basically responsible for a child's instruction on morals, in-cluding the rights of others and re-

spect for private property, where they fail, our schools can assist in providing a second chance.

For example, a joint anti-auto theft campaign by local police and school authorities might be considered. Posters, pamphlets, films, panel discussions, personal appearances by discussions, personal appearances by law enforcement officials and other suitable means of stressing the danger of auto thefts to pertinent age groups in school could give added emphasis to this grievous matter. Any doubts in the minds of students as to the seriousness of "joy riding" in a "borrowed" piece of personal property valued at an average of \$866 should be firmly erased. This is aside from the ever-present fact that such folly often leads to other criminal acts and the launching of a criminal career.

As we move along into the new
