Candlelighters were nieces of the bride, Pamela and Patricia Loggins. Nieces Linda and Ardis Ostrin and Joyce Ann Anderson served as flower girls, and a nephew, John Anderson,

WINTER STORMS HIT, CLOSE SCHOOL, SLOW ALL TRAVEL

Last Thursday afternoon what one might call the first real storm of the winter hit this area — forcing the dismissal of schools in the district at noon, due to drifting snow on top the ridges. Here in the canyon it was hard to realize such a storm was taking place, as there was little, if any wind, and the temperature above freezing.

Friday the storm continued in this area, but on a much lighter basis, with snow falling and some drifting reported on the ridges, but with the snowplows in full operation Joint School District No. 283 operated as usual. Roads were extremely slick, and the clank of chains could be heard from about every-other-vehicle to visit Kendrick.

At Kendrick snow fell to a depth of about four inches, but soon began to settle, and by evening was down at least half.

Saturday the area was hit with another storm, dumping more snow, and snarling and slowing traffic, although no serious accidents were reported.

Sunday morning another storm arrived, drifting the fallen snow on the ridges, and dumping still more — about two inches falling here in the canyon and from two to eight inches was reported on the ridges. However, the temperature remained mild and late Sunday night rain began to fall in the canyon and by morning most of all of the latest fall had disappeared.

Rain and sunshine were mixed on Monday, and the snow began to settle and disappear. Rain fell in the canyon part of Monday night and then it turned cold and began to freeze. Tuesday morning Kendrick's streets were a glaze of black ice, and even walking was a hazardous means of travel. By Tuesday at noon, under sunshine travel conditions were greatly improved — but still far from good.

MOTHERS' MARCH

At Kendrick the "Mothers' March" is scheduled to be held on Wednesday evening, Jan. 29. All who will "March" are asked to be present at Burt's Confectionery at 7:30 p. m. that evening.

CAROLE LEE JUTTE BECOMES BRIDE OF LARRY BLANKENSHIP ON SAT., JAN. 10TH

Grace Lutheran Church in the Lewiston Orchards was the setting on January 10, at 8:00 p. m., for the marriage of Miss Carole Lee Jutte, daughter of Mr. and Mrs. Wayne Jutte, Lewiston Orchards, and Larry Blankenship, son of Mr. and Mrs. John Blankenship of Kendrick.

The Rev. E. C. Fritschel officiated at the informal double-ring ceremony in a floral setting of blue-tinted gladioli, white stock and blue and white chrysanthemums.

The bride, given in marriage by her father, wore a gown of white lace over taffeta, fashioned with a wide satin cummerbund and low-scooped neckline, coming to a vee in the back. Her fingertip veil of Chantilly lace and seed pearls was the "something borrowed" from the groom's family. A drop-pearl necklace, a gift of the groom, was her only jewelry. Her bouquet of carnations, centered with a large orchid, was all in white, and carried on a white Bible.

Mrs. Robert Galloway of Moses Lake, Wash., a sister of the groom, was matron of honor. The bride's sister, Miss Kay Jutte, was bridesmaid. Both wore identical gowns of iridescent sky-blue taffeta in street-length design, with long sleeves and full skirts. They carried nosegays of blue mums and wore little hats of blue bows, with short white veils. Robert Galloway served his brother-in-law as best man. Ushers and candlelighters were Neil Grnolds and Roy Silflow, both of Kendrick. Clair R. Little accompanied by Mrs. Arthur Schultz sang "The Wedding Prayer" and "The Lord's Prayer."

The bride's mother chose a two-piece dress of cobalt blue crepe with gold and black accessories. The groom's mother wore a royal blue wool afternoon dress with white accessories. Both had corsages of white rosebuds.

At the reception which followed the ceremony the bride's table was covered with a lace cloth, and centered with a round tiered cake beautifully decorated with white hearts and huge blue roses, and topped with the traditional miniature bride and groom.

STUDENTS ENTER SPEAKING CONTEST

Eighteen of the students of Kendrick High School recently entered the "Voice of Democracy" speaking contest which is a joint project of the V. F. W. National organization and the National Broadcasting Association. This was the first time Kendrick High School had entered this contest. The 18 speeches were recorded by KRLC at Lewiston, and judged by qualified local judges.

The theme was "Challenge of Citizenship" and supervision for them was given by Mrs. George Merrick in her speech class at the High school. Results of the judging was as follows: Doug Armitage, 1st; Rick Rogers, 2nd; Mary Meske, 3rd, and Rosalie Lettenmaier, 4th.

These speeches, on tapes, and others from District II, V. F. W., were taken to Boise by Dist. II Commander Herb Millard last week-end, and will be judged there Sat., Jan. 25, in the state competition. The first place winner in that contest will receive a one-week all-expense paid trip to Wash., D. C. this spring, to compete nationally for top awards.

Mr. Millard, representing this District, attended the Council Administrative meeting on Friday and Saturday. A main topic discussed was the infiltration of Communistic literature into schools and other such sources in the state.

DIMES STATE CHM. NAMED FOR 1964

Boise — James G. James of Boise will serve as the Idaho State Chairman of the 1964 March of Dimes, it was announced last week by Basil O'Connor, president of the National Foundation March of Dimes.

Mr. James will again lead thousands of volunteers throughout Idaho, as he did last year as the state director, during the annual campaign to raise funds for medical care of those afflicted with birth defects or with arthritis, and to support research into the cause and cure of these crippling conditions.

JAMES G. JAMES

In announcing the appointment, the president of the nation's largest voluntary health organization said: "I know very well that under the inspiring leadership of Mr. James, the people of Idaho will give generously again to support the March of Dimes scientific assault on these crippling conditions. In deciding the amount to give, all of us must also be mindful of the continuing need of those thousands stricken in other years with paralytic polio."

WATER IS BEING INVESTIGATED

Some two weeks ago Kendrick's municipal water supply began to develop a "peculiar taste", although remaining as clear as crystal.

Thinking that perhaps some surface water had seeped in E. M. White, village marshal, opened fire hydrants to flush out the pipes, and checked the springs which are the source of Kendrick's winter water supply. All seemed to be in perfect order, but the "nasty taste" persisted.

At the time of the flushing Mr. White took a sample of the water and sent it to the State Board of Health. Saturday the report was returned, "pure and safe."

However, with the nasty taste still with us, two members of the State Board of Health visited Kendrick Tuesday. They took samples of the water from the springs to go in for a complete mineral as well as bacterial analysis, and expressed the opinion that somehow the water at the springs was coming in contact with an alloy — but that it was nothing harmful.

In the meantime the springs are cut off and water is being supplied to Kendrick from the municipal well at the west end of town.

GET THOSE RECORDS READY FOR I. TAX

Boise — January 1st begins the income tax filing period and the necessary forms and instructions will be in the mail to all taxpayers before that date. Your financial records are important in preparing federal income tax returns, C. H. Edmison, administrative officer for the Internal Revenue service says.

Now is the time to get together your cancelled checks, receipts, records of contributions and other papers. Taxpayers who kept good financial records during the year will have no trouble preparing their federal income tax returns, Edmison explained.

Complete records are especially important to taxpayers who itemize deductions. Copies of prior years' returns are also good guides in preparing the new return.

MORE TOURISTS VISITING IDAHO

Boise — The steady increase in the number of tourists and visitors bringing in boats, the big increase in the number of trailers entering the state, plus the phenomenal increase in the number of pickup campers, provide three basic reasons why visitors to Idaho are staying longer than in previous years, Louise Shaddock, head of Idaho's Department of Commerce and Development reports.

Yellowstone Park visitor counts give a practical indication of tourism in Idaho, she points out, and this year the actual usage of the park showed such a definite uptrend due to campers and stop-over visitors, that 1963 became Yellowstone's record year for tourist use.

The warm weather which continued into October in Idaho this year also contributed to the upward rise in tourism the state enjoyed toward the close of the summer, she commented.

In the Yellowstone counts, the number of trailers entering the area were up 80 percent, and the number of pickup campers more than doubled. Cars bringing in boats were counted at 68 percent more than in 1962 and the overall tourist count was up 30 percent. These increases helped to compensate for the inclement weather which got the season off to a slow start last spring.

REGENTS ACCEPT MUSEUM GIFT

U. of I., Moscow — An unusual gift to the University of Idaho — a complete museum presentation of the Appaloosa horse from the dawn of history to the present — has received formal Board of Regent acceptance at its Boise meeting.

George B. Hatley, executive secretary of the Appaloosa Horse Club, Inc., Moscow, a 1950 graduate of the university, made the presentation. The original exhibit, gathered by the Amon Carter Museum of Western Art, Fort Worth, Texas, at a cost of \$250,000, received international notice when it was opened last January.

Amon Carter officials directed by the noted Mitchell Wilder traveled throughout the world to obtain original art pieces and photographs which depict the spotted breed in art and history. The original art used in the display was photographed to be a part of the exhibit given to the university. The Appaloosa exhibit was a feature attraction at the Idaho Historical museum in Boise during the summer territorial centennial.

The breed, which reached a peak under the selective breeding program of the Nez Perce in Idaho, is ancient. Spotted horses have been drawn on the walls of the caves of Early Man in France, have sparked wars in China before the birth of Christ, and were used throughout Europe before eventually becoming the hunting and war horses of the Nez Perce.

The exhibit will be the first to be shown under a new University of Idaho museum program to begin in the second semester. Aim of the program is to bring outstanding exhibits in a wide range of interest, to the Idaho campus.

CALL THAT FISHING

Lugging a huge fish, an angler met another fishing enthusiast whose catch consisted of 12 small ones.

"Howdy," said the first man as he gingerly laid down his fish and waited for a comment.

The other fellow stared for a few moments and then calmly responded: "Just caught the one, eh?"

WINESOME MARY LOU GRAVES, 5, Flint, Michigan, the 1964 March of Dimes Poster Girl, shown with Max Hansen, Idaho Department Commander of the American Legion, takes time out from a busy schedule to travel to Indianapolis, Ind., to meet with other officials of the American Legion at an annual campaign conference. Mary Lou was born with an open spine and, after surgical treatment, is learning to walk. In this country, 250,000 infants are born every year with significant birth defects, while arthritis and rheumatic diseases afflict 11 million children and adults. The March of Dimes is fighting both of these crippling. March of Dimes treatment centers are providing special care, and March of Dimes funds are supporting the work of scientists who are seeking preventative.

HINTS ON THOSE CHRISTMAS PLANTS

U. of I., Moscow — Two Christmas plants enjoyed by many are the poinsettia and the cyclamen. Both, however, need special care if you are to enjoy them to the fullest, according to George Woodbury, University of Idaho horticulturist.

Both the poinsettia and cyclamen are relatively cool temperature plants and should be kept in a fairly cool room or in a cool window. The poinsettia does not like changes in temperature or drafts, Woodbury pointed out. Water both plants moderately.

The poinsettias should last for two or three weeks with good care. Then the leaves will drop naturally. Put the plant down in the basement. When spring comes, cut the stems back and put the plant, pot and all, into the ground. In the fall, bring the

plant back into the house.

"Raising poinsettias is quite an art, so I won't guarantee you'll have success when you bring them back into your home. But it should be interesting to try," Woodbury said.

The cyclamen should produce blossoms for six weeks to two months with good care. After the plant has finished blooming, let it die down a little. Keep the plant moderately moist. Soon it will lose its leaves.

In the spring, plant the cyclamen in its pot in a shady spot outdoors. Keep it moist through the summer, and it will grow new leaves. By late September or in October, the plant will produce a number of buds. Bring it back indoors for another season of Christmas blossoms.

Woodbury points out that the cyclamen bulb or corm should be set into a larger pot every year or two. With moderate care, the cyclamen will produce blossoms for several years.

U. OF I. RADIO STN. NOW ON THE AIR

U. of I., Moscow — At 2:00 p. m. Friday, Dec. 13, a new voice of the University of Idaho went on the air — KUID, 91.7, began services from the Radio-TV Center. The station received a "go ahead" shortly before noon from Ben F. Waple, secretary of the Federal Communications Commission.

"The station will be student operated under faculty supervision," said Gordon Law, head of the communications department. "The station will serve a dual purpose. It will function as a training area for students and as additional service to the people of Idaho."

Programming will begin on Jan. 6 with four hours of music in the afternoon, followed by educational shows. Until then, music in the form of light classics will be aired tentatively from 2:00 to 10:00 p. m., Monday through Friday.

"We could possibly have started earlier," Law said, "but being concerned with quality we wanted to make certain station personnel could operate in an effective and efficient manner."

As earlier tests were being made on the station, lightning hit the FM antenna, damaging it and the transmission line. All went well in the first broadcast, however, even if it was Friday the 13th.

SNOW SURVEY HAS BEEN TAKEN

Moscow — The first snow survey of the 1963-64 season was taken on Nov. 30 by personnel of the Soil Conservation Service.

Since 1957 the average snow depth for Dec. 1st on the Moscow Mountain snow course is 11.1 inches, which is 2 inches more than the snow depth for the same date this year. Also, the water content is lower than the average by .7 inches. However, the snow depth is greater than last year at this time by 0.5 inches. The snow course has 9.1 inches of snow and 2.1 inches of water, as compared to only 3.6 inches of snow and .6 inches of water last year.

Also, the other four snow courses on Moscow Mountain are below the last seven-year average. There is a trace of snow at East Twin snow course; to scattered snow cover at West Twin, and no snow at Howard and Cummerine Creek snow courses.

There is about 3/4 of an inch of frost in the ground, and the soil is "damp" to saturated at the higher elevations.

The snow survey will continue on the 1st of each month through May, and is conducted through the cooperative efforts of Prof. C. C. Warnick, University of Idaho engineering experiment station; Soil Conservation Service, and the Latah Soil Conservation district supervisors.

PREVENT THOSE WINTER DRIVING WOES
The Safe Winter Driving League presents this winter driving tip from the National Safety Council: "Tests show that reinforced tire chains cut stopping distance on snow and ice more effectively than anything else, and give from four to five times as much traction as regular tires without chains. Don't be a traffic blocker—always carry tire chains for severe snow and ice conditions."
