

JULIAETTA NEWS

(Continued from page 1)

Winters, Lewiston, and little granddaughter, Karen Wilcox of Missoula, Montana.

Kembur Young of Sacramento, Calif., has been visiting for the past week in the home of his step-father and mother, Mr. and Mrs. Harold Freeman. He left last Thursday.

Jack Sherman left for Spokane last Thursday where he took his examination Friday for induction into the army. He passed and is now 1-A.

Mr. and Mrs. Ed Choate, Lewiston Orchard, were Sunday afternoon callers in the Ed Groseclose home.

Ben Adams, Lewiston, was a recent visitor in the Claude McGary home.

Mr. and Mrs. Marvin Grayson of Lewiston visited Monday in the home of Mr. and Mrs. Alonzo Guthrie.

Mr. and Mrs. Albert Schultz of Lewiston Orchard called Wednesday afternoon in the home of his brother and sister-in-law, Mr. and Mrs. Chas. Schultz. They also called on Mr. and Mrs. Henry Brown.

Mrs. Hugh Lowry of Clarkston called on Mrs. Thea Mabbott in the Ervin Mabbott home Tuesday morning.

Mr. and Mrs. Earl Schatz and daughter of Post Falls were weekend guests in the home of Mr. and Mrs. Ted Peters.

Mrs. Ken Samuelson and sons of Post Falls spent the week-end here with her parents, Mr. and Mrs. Otto Schupfer.

SCHOOL NOTES

Magazine Sale Ends
The Juliaetta magazine sale ended March 9, and was a big success. The school received \$316.27, with some of the prizes coming out of that. The total in sales made was \$964.17. The students and teachers sincerely appreciate this patronage.

Top salesman was Jerry Galloway, 6th grade. Others selling \$30.00 or more were Joy Davis, Barbara Farrington, Debbie Cope, Ray Heimgartner, Donald Parks, Debbie Johnson and Ricky Candler.

The fifth grade collected \$384.49 and the sixth grade \$579.88. The 6th grade received the Toy Tiger for their room.

Barbara and Carlene Miller, 3rd and 7th graders, have moved to Potlatch.

Science Entries

Students are asked to have all of their Science entries at school on Thursday, or no later than Friday morning, as March 20 is the deadline.

Sixth Grade News

Sunday, March 8th, the 1st, 2nd and 3rd grades held a basketball game. The rooms were split into two groups. At the end the score was 7 to 3.

This week the 6th grade is bringing all of their Science Projects in for a few days display. We have quite a number, and we are looking

GENESEE BULLDOGS WIN STATE A-4 CROWN SATURDAY

Genesee, Oakley, Murtaugh and Roberts won their first-round games Thursday night, March 12 at Burley in the Idaho High School Class A-4 basketball tournament. Genesee, however, was forced into an overtime to collect its win. The final score was Genesee 59, Hagerman 55.

In the Genesee Hagerman game the score was knotted at 53-53 at the end of regulation play. However, in the overtime period Genesee Russell Zenner tossed in the winning basket with 42 seconds left to play. Skip Ivie added an "insurance" basket with just five seconds remaining.

Genesee 78, Oakley 49
Genesee made the finals of the Class A-4 basketball tournament by soundly trouncing the Oakley Hornets 78 to 49.

The game was close only for the first five minutes. Ahead 12 to 10 with 3 minutes left to play in the first quarter Genesee hit for nine consecutive points and went out in front 23 to 12 at the end of the first quarter.

Genesee shot a sizzling 55.2 percent from the field in accomplishing this victory.

Genesee 56 — Murtaugh 42
Genesee Bulldogs sharpened their aim after a cold first half to defeat Murtaugh 56 to 42 for the Class A-4 high school basketball championship of the state of Idaho Saturday night.

The victorious Bulldogs, after receiving their trophy, presented their coach, Ozzie Kanikkeberg, with a trophy they had purchased for him.

At the half-way point it was 21-17 for the Bulldogs. They then raced to a 21-point third quarter, and then forced Murtaugh to come out after them in the final quarter.

Previous Champions In 1951

Genesee last won a state championship in 1951. The team went to Boise Sunday and remained overnight, returning to Genesee on Monday.

Actually there is only a slight difference between keeping your chin up and sticking your neck out — but it's worth knowing!

All "the makings" for delicious winter breakfasts at Blewett's Market in Kendrick. adv

forward to the Science Fair on Friday, March 20th.

WEATHER COULDN'T BE MORE "MARCHY"

The weather this past week just couldn't be more "March Like" if it tried. There has been wind, rain, hail, snow, sleet and sunshine — you name it, we've had it!

However, after several dreary, not too cold days, Saturday was a real chiller, with snow falling on most of the ridges, and rain in Kendrick.

Sunday, for a change, the sun came out bright and clear in the morning, and shown all day, the thermometer recording a high of 58 degrees.

Local residents really "lived it up" with many washing cars, others raking and working on lawns, cleaning and burning trash piles. Anyway, it was one full day of sunshine.

There was no doubt but that the groundhog saw his shadow on Feb. 2 — but the six weeks should be up by now!

Lawns are turning green here in the canyon. Daffodils are budding, forsythia starting to bloom and the little white snowdrops all but fading away.

POTLATCH DERBY DATE IS SET

The annual Potlatch River Derby for years a money-raising event of the Kendrick Volunteer Firemen, has been turned over by them to the Boy Scouts for their use as a fund raising project — an effort to send to Scouts to the great Camporee of Valley Forge.

The date for its "running" has been set for Sunday, April 5th, beginning at 1:00 p. m., when the big ball will be dropped into the river at the Potlatch River bridge just below the mouth of Cedar creek.

The Boy Scouts began their ticket sales on March 16th.

P. N. P. HAS LICENSE TO CONSTRUCT MT. SHEEP DAM

Spokane — A ten-year struggle of Northwest investor-owned utilities to build a major, multi-purpose dam on the Snake river came to an end last month when the Federal Power Commission approved the application of Pacific Northwest Power company to build the \$257,000,000 High Mountain Sheep project, 50 miles south of Lewiston, Idaho.

The F. P. C. rejected a rival bid by the Washington Public Power Supply System to build the Nez Perce dam in the same stretch of river just below the mouth of the fish-rich Salmon river.

All five F. P. C. commissioners turned down a request by the Department of the Interior that the High Mountain Sheep site be reserved for federal construction.

Kinsey M. Robinson, chairman of the board of P. N. P. and also of the Washington Water Power company, which is one of the generating firm's four sponsoring utilities, hailed the decision as "a great victory for multiple purpose resources development by private capital."

He said the decision was "a right one in the public interest and gives our region confidence in its task of building a continuing program for economic growth."

"With new resources such as High Mountain Sheep and Canadian storage, as well as other great projects on hand, the Pacific Northwest region can assure a power supply to anyone in any quantity," Robinson said.

The commission said the High Mountain Sheep site was best adapted to a comprehensive plan of development. The site is on the Snake between Idaho and Oregon, just upstream from the point where the Salmon river joins the Snake and keeps that Idaho stream open for production of Chinook salmon and Steelhead trout.

The 670-foot high dam — the tallest arch dam in the western hemisphere — will back water 58 miles to the Hells Canyon site. Initially,

the plant will produce 1,000,000 kilowatts — ultimately 2,000,000.

"While furnishing power, flood control and navigation benefits, the project also opens up a vast new recreation area in the Grand Canyon of the Snake," Robinson said.

"In addition to its many benefits, the High Mountain Sheep project fits sensibly into the region's urgent need to preserve and improve natural resources," he said.

F. P. C. in a split decision, said the Washington State Public Utility District group did not have statutory preference on the High Mountain Sheep site as claimed by that public body to get that project if its Nez Perce application failed. The F. P. C. majority said P. N. P. had a valid permit which entitles the private group to a license.

It is expected the public power group will appeal the decision.

P. N. P. was formed in 1954 by W. W. P., Pacific Power & Light,

Portland General Electric and the Montana Power companies. They serve a million customers in a six-state area.

Construction time in the big project is estimated to be six years. An average of 1,400 men will be employed annually with 2,400 men at the peak.

It is estimated an additional \$5,000,000 will flow annually into local, state and federal tax coffers when the big project is in operation.

DO IT EVERY TIME!

Colonel: "So you lost half your forces by a trick of the enemy!"

Captain: "Yes, sir. They rigged up a machine gun to look like a TV camera, and the boys just fought for a chance to get in front of it!"

There is no substitute for good food, and you will find every kind to tickle your palate at Blewett's Grocery in Kendrick. 1-adv

A FRIENDLY WELCOME AWAITS YOU

15,000 FARMERS CAN'T BE WRONG

Mix-All means uniform feedmaking!
... and now, **GEHL** adds 13 new features

Ask any one of the more than 15,000 Mix-All owners why he chose a Gehl. Chances are, one of the big reasons is uniform grinding and mixing.

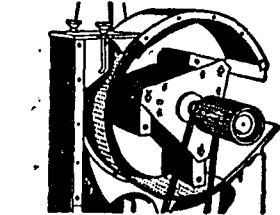

Uniform, because ingredients are cut (not pounded) by 66 thin, reversible, steel hammers. The big 507 sq. in. grinding surface produces faster grinding, too . . . and low power requirements. Because all milled ingredients are of uniform size, they mix more thoroughly with concentrates in the 2-ton hopper.

NEW FEATURES ADD VERSATILITY

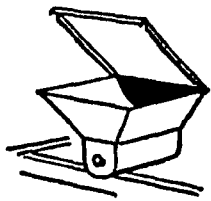

Now, 13 new Mix-All features make this uniform feedmaking easier than ever. A new auger feeder drive lets you load ingredients at *hundreds* of speeds to fit any crop. A high-speed unloading transmission empties the 2-ton hopper in only 5 minutes. And, the concentrate hopper has a new unmatched capacity, the tank is calibrated . . . plus 9 other new and useful features. See them all. Stop in soon and ask us to prove with a demonstration that the Gehl Mix-All is your best feedmaker buy.

ABOUT PRUNING YOUR ROSES

Moscow - Prune tea roses just as the buds are bursting, suggests Homer Futter, Latah County agricultural agent. Take out all dead canes by cutting at least an inch into live wood. Take out all thin, weak canes. Crossing branches can be corrected by removing the weaker branch. Thin out some of the

older canes.

Cut the remaining strong canes to about 20 inches if you are pruning a vigorous rose on good soil in moderate climate. Pruning canes to about eight inches produces bigger blooms. When you prune, cut 1/4 inch above a strong bud that faces outward. Slope the cut inward. Cover the cut with a dab of asphalt tree-healing compound. Sometimes roses are pruned so early that outside buds are difficult to see. If you do prune at that

stage, cut again to outside buds after they have opened. Carefully examine long sucker growth and remove suckers that grow from below the bud union.

Hybrid perpetual roses such as American Beauty and Ulrich Brunner are vigorous and resistant to cold, says Tony Horn, horticulturist of the University of Idaho extension service. Prune them less severely because they produce flowers on last year's wood. Leave more green wood to produce blooms. They usually bloom once a season.

Severity of pruning on climbing varieties depends on the amount of wood produced. Prune to make them fit their support. In the spring, cut out dead, broken and diseased canes. If remaining canes are too long for the trellis, shorten them. Just after they have bloomed you can thin out some of the old canes. This stimulates new shoots and laterals that will bear flowers next year. Pruning during the dormant season is usually done at the sacrifice of some flowers.

heat from a warm to a cool surface. Effectiveness of insulation material is based on the number of thermal units per hour that pass through one square foot with a one-degree difference in temperature between the two sides.

Ventilation aids in removing the moisture from a poultry house. The idea is to bring relatively cool air into the house, warm it and then exhaust it. The moisture holding capacity of the air doubles with each 20-degree rise in temperature.

The best temperature for laying hens is 50 to 60 degrees. With a well insulated building and high concentration of birds, the body heat of poultry warms the house. In extremely cold weather or in houses that leak a lot of heat, it may be necessary to supply supplementary heat.

TO STUDY IN THE ARCTIC THIS YEAR

U. of I., Moscow — Checking fossils of plant life of the time of the dinosaurs will take a University of Idaho professor to the Arctic this summer under a \$4,700 grant from the Arctic Institute of North America and the Office of Naval Research.

Dr. Charles J. Smiley, assistant professor in the department of geology and geography, is no stranger to the land of the midnight sun. He spent two previous summers on this work along the Kuk river, about 100 miles west of Barrow.

The grant also includes outfitting and other support while in the Arctic. With three student assistants Dr. Smiley will use two boats and study about 70 miles of the Chandler river area. The boats will be the lone means of transportation during the study.

Get fresh vegetables (or fresh frozen) at Blewett's Market in Kendrick. They're delicious. adv

GOOD CHICKEN HOUSE PAYS WELL

U. of I., Moscow — No, a chicken house isn't what it used to be. It is much better. The concept has been changed in recent years, says Robert Black, poultry specialist of the University of Idaho extension service. Time was when a poultry house was little more than a roof and a wind-break. Today it provides environment that is uniform the year round. Many flocks never see open sky or scorch in bare earth.

The purpose of modern housing, Black said, is to provide maximum comfort, reduce stresses that contribute to disease, increase the bird's production and thus contribute to profit. Good poultry environment releases the birds from all possible stress in ever-changing weather. The three critical factors are insulation, ventilation and temperature. Insulation restricts the flow of

We like doing business with Murray Black

And he likes Standard's policy of supporting local business

If you had an oil well out in the ocean, as Standard often does, you'd find Murray Black a useful man. He helps to build, and also services, underwater oil wells and pipelines.

Murray is not a Standard employee...he's an independent contractor, with five other deep-sea divers on his payroll, and thousands of dollars of his own money tied up in equipment.

He started specifically to serve Standard's offshore drilling operations near Santa Barbara, and, from this small, local beginning, has become one of the busiest submarine contractors on the West Coast.

While his services are unique, he is only one of some 18,000 individual suppliers from whom Standard buys goods and services every year. Many are small, independent operators such as Murray Black.

Standard's purpose is to spread its purchasing as widely as possible, so that its dollars help to build many local businesses and communities.

Our annual shopping list is more than 50,000 items long. As our dollars flow into your community through local purchases, they help its whole economy. And the benefit, sooner or later, reaches out to you.

Planning ahead to serve you better

Potlatch Ridge Workers
The sum of \$27.69 was taken in for the Washington's birthday card party at the Leland Club House, given by the 4-H Club.

Carolyn Siffow gave a demonstration on "How to Give a Demonstration." Irene Schwarz gave a demonstration on "How to Make a Buddy Burner and Trench Candle" and helped each one make one.

Marsha Schoeffler served delicious refreshments. — David Wilken, reporter.

Club Meeting
The Cameron Home Demonstration Club met last Tuesday with Mrs. Theo Meske for an all-day session, with a pot-luck dinner at noon. Mrs. Luther Parks and Mrs. Leonard Wolff were visitors.

Roll call was answered with "This Is Your Life" and Mrs. Geo. Wilken was the one chosen at this meeting. Pictures of her were passed around when she was a girl, and Mrs. James Whitinger gave the reading for her life. Another member will be chosen at the next meeting.

The day was spent making ribbon chrysantheums, demonstrated by Mrs. Theo Meske.

Other News
Mr. and Mrs. Wilbert Brunstiek and Mrs. Albert Glenn spent last Thursday visiting with Mr. and Mrs. Clay Albright at Lewiston.

Mr. and Mrs. Kenneth Wilken and family and Mr. and Mrs. Ernest Brammer and Jolene pooled their suppers Friday evening and ate at the Brammer home.

Mr. and Mrs. Roy Ramey visited Saturday afternoon and evening with Mr. and Mrs. Ernest Brammer.

Mr. and Mrs. Harl Whitinger were Troy visitors last Thursday afternoon.

Mr. and Mrs. Fred Newman visited

with Mr. and Mrs. Glen Newman Saturday afternoon, helping Janis celebrate her birthday anniversary.

Charles Havens and Patricia Mielke, both of Clarkston, were Sunday afternoon visitors of her parents, Mr. and Mrs. Ed. Mielke.

Mr. and Mrs. Ernest Brammer and Jolene, Mr. and Mrs. Dan Sullivan and family, Henry Tschantz, James Whiting and Mr. and Mrs. Burton Souders, Sr., bowled in the tournament at Orofino, Sunday.

Eva Wilken and Mark Mustoe were Saturday afternoon callers of Janis Whitinger, helping her celebrate her seventh birthday anniversary.

Mr. and Mrs. Stanley Hopler and Donnie attended the Pancake Feed in Kendrick Saturday evening.

Mr. and Mrs. Cecil Brammer and family were Sunday dinner and afternoon guests of his parents, Mr. and Mrs. Aug. Brammer.

Mr. and Mrs. Gary Lohman and baby and Ronnie Lohman, all of Lewiston, were week-end guests of their parents, Mr. and Mrs. Ervin Lohman.

Mrs. Glen Newman left Monday for Port Orchard, Wash., to be with her father, Loren Pitcher, who is gravely ill.

Helen Mielke visited her aunt, Ida Stoneburner and Emma Hartung, on Monday.

Emma Hartung and Ida Stoneburner were Sunday guests of their sister, Mrs. John Schwarz, and sons Lawrence and Ernest.

**GRANGERS SCHEDULE
SESSIONS**

Moscow — Ermil Jerome, Idaho State Grange Master, and several other State Grange officers will hold a Grange promotion meeting in the Moscow Grange Hall, Friday, March 20. A 2:00 p. m. meeting will be open to all Grange members and friends, when Grange policies will be presented.

A 6:30 covered dish dinner is planned, followed by an 8:00 o'clock Grange meeting for Grangers only. A baby sitter will be on hand.

Jerome and other state officers are conducting meetings throughout the state during March, and will be at the Lapwai Valley Grange on Thursday, March 19, for an 8 o'clock meeting.

A large attendance is hoped for, as all departments of Grange work will be covered.

**OPENS MAIL ORDER
SERVICE**

Oscar Medalen former proprietor of the fire-damaged Western Auto Store here, has opened a catalogue service store for that organization, and will operate from his home. He will be assisted by Gus Kruger.

Catalogues are now in the mail for local and area patrons.

ON DEAN'S LIST

N. N. C., Nampa — Officials of Northwest Nazarene College in Nampa, Idaho, have announced that Miss Rona Armitage, daughter of Mr. and Mrs. Rollin E. Armitage of Southwick, was included on the Dean's List for high academic achievement last semester. Miss Armitage, a sophomore, was listed with "high honors," earning 3.5 or better.
