PARK PATER

BY MRS. JERRY SMITH

IS IMPROVED — Charles Jelleberg was dismissed from Gritman Hospital in Moscow Tuesday after being treated for pneumonia. He paid a brief visit to friends in Park Friday afternoon and reports he is feeling better, but still very weak. He is staying with Mr. and Mrs. Morris Wood in Deary until able to return home. Mrs. Wood is his niece.

LAST STORM? — Park residents hope they saw the last of "Old Man Winter" in the rain, snow, wind and hail storm that hit the area on Sunday morning. The various kinds of weather took turn — then got all mixed up together, as Winter made a final effort where he's not wanted.

OTHER ITEMS — Park ladies gathered at the home of Mrs. Jerry Smith Thursday afternoon for a home products party. Those present were Mr. and Mrs. Mae Shultz and Mrs. Glovina LaBolle of Big Bear ridge; Mrs. Neva Hatley and Mrs. Mildred McKinney of Helmer; Mr. and Mrs. Melvin Gudmunsen and Shelly, Mrs. Anna Gudmunsen, Mrs. Mickey Baumgartner, Mrs. Helen McKinney, Mrs. Wilma Thompson and Mrs. Thelma Stratton, all of Park; Mrs. Lula Brown and granddaughter, Kendrick; Carol Jean Gudmunsen, Mrs. Stratton and Mrs. Gudmunsen's granddaughter, Colfax.

Friday visitors at the Smith home were Mr. and Mrs. Vester Daniels and Phillip, and Mr. and Mrs. Roscoe Hunter and children of Lenore. On Sunday it was Mr. and Mrs. Mark Cromer and sons of Deary.

Weathering the Years and the Storms Together . . .

Time was when the windmill and its pump was everyone's best friend — the wind turned the mill — and the mill in turn drove the pump — a most satisfactory arrangement for everyone.

Today, the windmill and its pump have faded from the picture and are but the memories of a bye-gone era.

But pulling together, working together for a common end result will never go out of style, and that aim is the building of a better community — through its churches, schools, roads, and all the other items that go toward better living.

For Example: When you spend your dollars in Kendrick at least a part of that dollar stays in Kendrick — to help build the many things that are a part of our every-day living and your home town and community. No part of that dollar spent away from home returns to benefit you, your church, school or community in general. Remember: Shop at home — in Kendrick!

We are prompted to sponsor the above advertisement through our desire to serve the best interests of our community in every way possible.

PHYSICAL FITNESS IS 4-H AIM

Chicago - The National 4-H Health program this year aims to improve personal fitness and community health, announces the National 4-H Service Committee.

Representing the 4th H in the club four-leaf clover emblem, health activities or projects are expected to be completed by some 670,000 boys and girls from coast to coast. Best efforts will be rewarded through the program's sponsor, Eli Lilly and Company.

Health medals, trips to the National 4-H Club Congress at Chicago, and \$500 college scholarships await hard-working 4-H'ers. Last year more than 5,000 members earned the gold-filled health medal, according to the 4-H Service Committee. This was an increase of about 300 winners over 1962.

With emphasis on fitness, members and local club leaders as well, plan to take periodic inventory of health habits as outlined in the 1964 health bulletin published by the 4-H Service Committee.

The idea-packed bulletin reminds club members that "health is first an individual affair and next a family affair." And, "because we cannot isolate ourselves from society, we have a responsibility to our neighbors to make our communities safe and healthful."

That is the sum and substance of the health program.

VISIT SELWAY ON FIELD WORK TRIP

U. of I., Moscow — Seven students and three professors snowshoed into the Selway area for field work in a Big Game Management class and came back with the report that deer appear in "good shape".

Part of the two-day trek was to arrive at an opinion based on a partial survey on the general condition of the animals and the range.

"The range appears to be going downhill," said R. H. Giles, Jr., instructor in wildlife management. "We found examples of over-browsing which in time will cause a reduction in big game quality."

Solutions to the problem are increased harvest of deer of both sexes and supplemental range management. Giles said spraying of herbicide by helicopter is a method now being used some by the Forest Service to stunt the growth of tall brush to make more browse for animals. Some of the bushes which normally grow to 20 feet have been turned into reachable feed for the animals through use of the herbicide.

The class headquartered at the Fenn Ranger Station north of Grangeville and made treks up the Selway and the Lochsa rivers. They spotted nine mountain goats, 50 elk, 20 white-tail deer, four mule deer and a moose.

Ranger Clyde Blake at Fenn worked with the group discussing management policies, problems, techniques, philosophies and ways to determine condition of the range.

15,000 FARMERS CAN'T BE WRONG

Mix-All means uniform feedmaking! ... and now, GEHL adds 13 new features

Ask any one of the more than 15,000 Mix-All owners why he chose a Gehl. Chances are, one of the big reasons is uniform grinding and mixing.

Uniform, because ingredients are cut (not pounded) by 66 thin, reversible, steel hammers. The big 507 sq. in. grinding surface produces faster grinding, too . . . and low power requirements. Because all milled ingredients are of uniform size, they mix more thoroughly with concentrates in the 2-ton hopper.

NEW FEATURES ADD VERSATILITY

Now, 13 new Mix-All features make this uniform feedmaking easier than ever. A new auger feeder drive lets you load ingredients at *hundreds* of speeds to fit any crop. A high-speed unloading transmission empties the 2-ton hopper in only 5 minutes. And, the concentrate hopper has a new unmatched capacity, the tank is calibrated . . . plus 9 other new and useful features. See them all. Stop in soon and ask us to prove with a demonstration that the Gehl Mix-All is your best feedmaker buy.

Grinding chamber of Mix-All features more hammers, larger grinding surface than any other farm mill.

Concentrate hopper with unmatched capacity can be easily loaded from side or rear. Lid and bag guard are hinged.

AS A TAXPAYER SEE APRIL 15TH

Oscar Medalen brought us in the following clipping, taken from the "Cavaller County Republican" Thursday, April 9, 1964:

"A taxpayer's parody of Lincoln's Gettysburg Address has been making the rounds:

"One score and 19 years ago, our fathers brought forth upon this nation a new tax, conceived in desperation and dedicated to the proposition that all men are fair game. Now we are engaged in a great mass of calculations, testing whether this taxpayer, or any taxpayer so confused and so impoverished can long endure.

"We are met on Form 1040. We have come to dedicate a large portion of our income to a final resting place with those men who spend their lives that they may spend our money. It is altogether anguished and torture that we should do this. But in a larger sense, we cannot evade, we cannot cheat, we cannot underestimate this tax. The collectors, clever and sly, who compute here, have gone far beyond our poor power to add and subtract.

"Our creditors will little note nor long remember what we pay here, but the Bureau of Internal Revenue can never forget what we report here.

"It is not for us, the taxpayers, to question the tax which the Government has thus far ignobly spent. It is rather for us here dedicated to the great task remaining before us — that from these vanishing dollars we take increased devotion to the few remaining — that we here highly resolve that next year will find us in the higher income bracket, that this taxpayer, underpaid, shall figure out more deductions, and that this tax of the people, by the Congress, for the Government, shall not cause solvency to perish!"

BEEF SCHOLARSHIPS ARE OFFERED

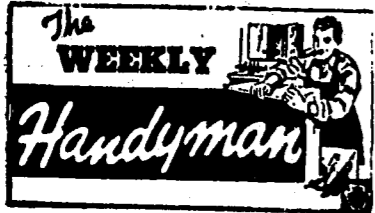

U. of I., Moscow — Idaho's Cowbelles believe in promoting beef use through scholarships. They have watched outstanding animal science majors become the most successful cattlemen of their time.

Miss Ann Louise Olson, sophomore from San Diego, California is this year's choice for the award. She was obviously pleased when her scholarship presentation was made for the Idaho Cowbelles by Mrs. Stanton Becker, Genesee. Mrs. Becker was acting for Mrs. Harold McFarland of Carmen, president of the association.

In making the presentation, Mrs. Becker pointed out that although Miss Olson's present address is out-of-state, she is a former resident of Idaho and chose to return to the state for her college education. She is one of several students who have received scholarships from the Cowbelles, the women's auxiliary of the Idaho Cattlemen's association.

Dr. T. Donald Bell, head of the department of animal science at the University of Idaho, who helped in the selection of the scholarship winner, unceasingly calls for greater emphasis in the training of future livestock producers.

"In this complex society it requires the finest training of the best brains

THOR RESEARCH CENTER FOR BETTER FARM LIVING

"Can you give me a list of rules to follow for the best care of mower cutter bars?" writes a farm reader.

We might point out, to begin, that you can expect troublesome side draft, increased loads, and generally poor work output when the mower knives become dull and ledger plates worn. These things will indicate when it's time to get to work on the cutter bars.

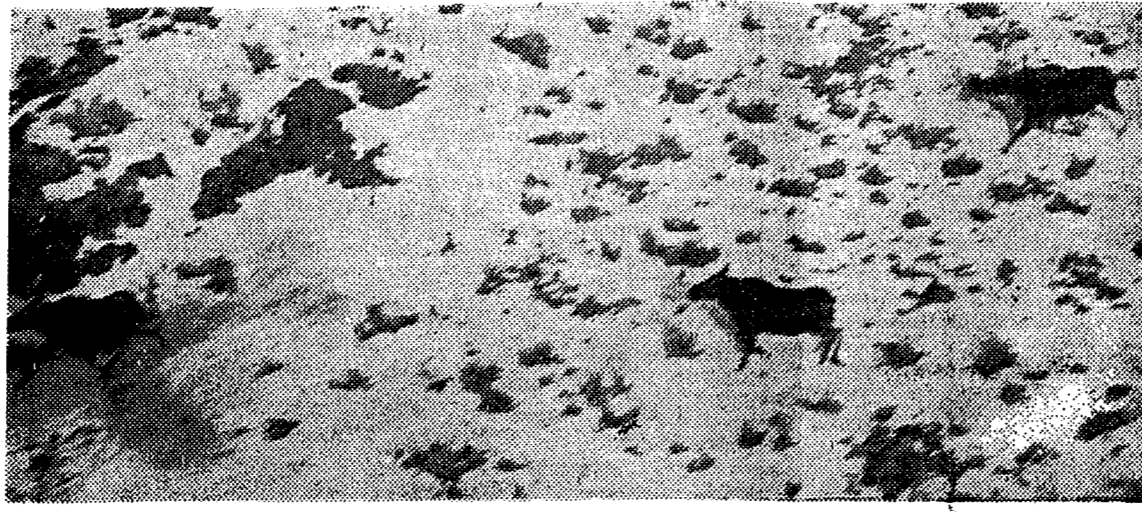

FarmTool is helpful instrument in mower maintenance.

Keep rivets well tightened and replace ledger plates when serrations have worn smooth. If knife sections are broken or so badly worn that they cannot be ground to the proper angle, replace them.

You'll find that a portable electric grinder or an electric FarmTool with grinding attachment does a really good job in grinding worn knife sections. The trick is to grind these knife sections to the same cutting angle as on the new sections. Guards that have been dented by rocks should be ground smooth to the original point. If the point is broken off, replace the guard.

The guards should be properly set and aligned. Each must be tight on the bar and adjusted to make each ledger plate provide shearing contact with the corresponding knife section.

(Address your do-it-yourself problems or questions to Thor Research Center, Aurora, Ill. They will be answered by mail or in this column.)

we have to preserve and continue our livestock industry," he says. "Those who aren't prepared for their role in beef cattle ranching or other areas of livestock production cannot hope to carry on the family business that have taken generations to build."

MANY TREES TO BE PLANTED THIS YEAR

U. of I., Moscow — Nearly half a million trees will be distributed in Idaho this spring by the forestry nursery on the University of Idaho campus. About 500 orders for 463,000 seedlings of 21 species were received by the March 10 deadline, Vernon Burlison, extension forester, reported.

Evergreens were a sell-out, he said. There are more requests for evergreens than for deciduous trees. That's an about-face from the situation 15 years ago. It used to be, Burlison added, that deciduous species accounted for about 70 per cent of the total.

The little trees are made available

for windbreaks, wildlife habitat, erosion control, and Christmas tree plantations. They will be delivered to county agents on the basis of prior requests by individuals. The first shipment will go to western Idaho late in March. Others will be delivered in April and May.

Douglas fir tops the list with 110,000. Ponderosa pine was second with 103,000; Scotch pine, 28,000; Norway spruce, 20,000; Austrian pine, 17,000; juniper, 14,000; Englemann spruce, 3,000; lodgepole pine, 3,000; western white pine, 2,000; and western redcedar, 1,000.

In the deciduous category, Russian olive comes first with 52,000. Others are: Siberian pea, 17,000; black locust, 13,000; hybrid poplar, 12,000; golden willow, 11,000; green ash, 10,000; lilac, 7,000; honeylocust, 3,000; multiflora rose, 3,000; and siberian elm, 2,000.

COUNT ANIMALS FROM THE AIR

Boise — Three running moose are part of several dozen counted by helicopter in annual eastern Idaho census on Fall River Ridge out of Ashton.

Many big game trend counts have been completed or are now underway. Some of these, by Fish and Game department personnel on snowshoes — but mostly in the air — include drainage of the South Fork of the Payette and Boise rivers, the Lochsa and lower Selway area; the main Salmon river breaks, and the Cassia Division of the Sawtooth National Forest, Unit 64.

VAST AUDIENCES SEE IDAHO FILMS

Two million people viewed films dramatizing the attraction of Idaho in 1963, and this year between 4 and 6 million will view these films sent out by Idaho's Department of Commerce and Development, according to John Ward, who has charge of the department's film promotional activities.

"The interest in Idaho keeps growing," Ward commented. Television showings now booked for March will reach well over a million people in addition to about 150 showings booked for audiences in groups from twenty-five to over a thousand. The 1963 total of 2 million viewers was more than double the total of the previous year and even surpassed the grand total of all viewers who had seen these Idaho films since the department's film library was founded. At the rate the films are being requested at present, and from all states in the union, the 2 million-a-year mark will be passed before March of this year is over.

January and February figures show audiences of over a half million each with some still to be reported, and advance bookings for March are scheduled for way over a million.

"The special value of these showings to Idaho is that all of the showings have been requested by people already interested in our state. Not

one performance was scheduled "cold" — all of them were by invitation. Many viewers after seeing one Idaho film wrote in requesting further showings for their own hometown or for organizations they belonged to in other states.

This was especially true of our most popular film, Hell's Canyon, which enjoyed 133 performances in 1963, seven on TV, and reached a total audience of about 700,000. Just about every other day of last year some audience, somewhere, was enjoying Idaho's Hell's Canyon. Hell's Canyon has often played in 10 states in the same week.

"The department now has 74 prints of 26 different Idaho subjects. It takes appreciable alertness on the part of the department and a lot of cooperation on the part of people in other states to make 74 prints serve 150 showings a month, but we get that cooperation. People who get to know Idaho — really like Idaho."

Club To Meet Monday
The Friendly Neighbor Club will hold a special meeting on Monday, April 20, at the home of Mrs. Dick Parsley. It will be an all-day session with quilting in the morning, and a pot-luck dinner at noon. Mrs. Ruth Shane, Moscow, will give a talk and show slides on a trip she made to Norway, at 1:30 p. m. Anyone wishing to attend will be most welcome — as this should prove to be very interesting.

Community Clean-up
The Cedar Ridge 4-H Club and its leaders met on Friday afternoon to clean up around the Gold Hill Church as a part of their Community Service project. All enjoyed a wiener roast and toasted marshmallows at the conclusion of their job.

Other News
