Thurbers To Grangeville Feb. 16, 1939 - Mr. and Mrs. L. S. the Nigg stock. Mr. and Mrs. Thurber have made many friends during their residence in Kendrick who are more than sorry to learn of their intention to move. However, Mr. Thurber says he has an opportunity of getting into a larger town and that he has a splendid location for the store there. Prior to his coming to Kendrick Mr. Thurber was for 20 years connected with the Casey Dry Goods & Cloth-

ing Co. at Colville, Wash.
Mr. Thurber states that Saturday will be their last day for business in Kendrick and will then start packing their stock for shipment.

New Bottle Washing Machine April 20, 1939 — The Thomas Creamery has just finished the installation of a new bottle washing machine which is indeed a marvel of efficiency.

Bottles are put into a large tank filled with hot soap-suds, and are thoroughly cleansed inside and out by high speed revolving brushes driven by a steam turbine.

From this point they are put into their carrying crates and shoved into the "hot box" where they are deluged with boiling hot water driven by steam pressure, and are finally steam sterilized and "cooked", unouched by human hands.

They are then allowed to cool, and then put into the automatic bottle filling machine, attached to the pasteurizer, where they are auto-

matically filled and capped.

Mr. Thomas stated that his new equipment, together with the pasteur izer previously installed, enables him to meet every government require-ment in the handling of milk.

MUCH MONEY IN KENDRICK Jan. 12, 1939 — According to their published financial statements the Kendrick State Bank has total assets of \$236,495.23, and the Farmers Bank \$204,409.25. Which is pretty good for a community of this size. Cecil Choate
