U. OF I. GETS GRANT OF \$7500 FROM U. P.

U. of I., Moscow — A \$7500 grant by the Union Pacific Railroad was presented to the University of Idaho College of Mines for use in new equipment purchases and repairs. Acting Dean Rolland R. Reid accepted the grant for the college.

Arthur Z. Gray of New York City, executive director of the foundation handling the awards, made the presentation is a luncheon in Boise. According to Reid this is the fifth year that the college has received the grant.

Plans this year call for the grant to be used in the mining engineering and metallurgy departments, Reid said. "The first year that we received the grant, which was the opening year for the new Mines building in 1960, we were especially hard pressed for funds to provide chairs and desks for the offices. The Union Pacific grant helped tremendously in getting us started in the new quarters."

Last year the money was used in the departments of geology and geography.

IMPROVEMENTS ON HOMES MADE

Several homes in Kendrick have undergone improvements this past summer.

The home of Mr. and Mrs. Walter Brocke, adjoining the Kendrick Community Church has undergone complete remodeling, including a new roof-line, steps, painting, etc.

The home of Mr. and Mrs. Max Dammerell has received extensive interior remodeling, and an exterior of natural cedar, which is being given and oil finish.

The home of Mr. and Mrs. Frank Abrams is still in the process of receiving a new roof of hand-split cedar shakes.

The home of Mr. and Mrs. John Deobald and family on the school-house hill received extensive interior remodeling.

CHILL AND DAMP WEATHER STILL HERE SITUATION SERIOUS

Chill, deary, damp (or perhaps the word "wet" weather would be more appropriate, still dominates this area, and the situation, so far as harvest work is concerned, is rapidly becoming very serious. Reports obtained from the local warehouses (estimates) would seem to indicate 30 to 45 percent was under roof.

Percentages as estimated by local warehousemen were:

George Brocke, Jr., of Brocke & Sons, Inc., reported that rape and grasses only were completed. Peas, lentils and clover only partially done, with the prospects of completed harvest of crops not good at this time. No estimation on beans.

Bob Watts of the Kendrick Rochdale Co., Inc., reports that perhaps only 30 percent of grain throughout this area is in, while Ben Westendahl of the Lewiston Grain Growers, Inc., felt that their percentage in the Kendrick-Juliaetta area was nearer 45 percent.

Mr. Westendahl reported that the yields were running above average, and that spring grain would yield well if the crop can be harvested.

One farmer questioned said: "I've got 500 acres of grains this year — and so far I've been able to cut just 100 acres! The situation is really getting rough."

Another farmer said: "I've got most of my wheat and other grain in, but all of my beans and peas are still out there, getting soaked."

Said a farmer in the Southwick area: "I got the combine into the edge of my first field — and there it sets. I haven't harvested a kernel of grain, and this continuing rain is beginning to soften the heads. It surely doesn't look good to me!"

Said another farmer: "I've got about a third of my stuff in. Unless this rain stops pretty soon the rest won't be gotten in — I figure it will take at least a week to ten days of real sunshine to dry things out so I can get back to work!"

We might add that home gardens are also feeling the effects of the rain. Many say: "I've got lots and lots of big tomatoes, but they're as green as grass. Hardly a sign of ripening. Corn is very late, also needing warm, dry weather to mature properly. However, in the cucumber, carrot, turnip and other divisions of the garden, who like chill, damp weather, things are really growing."

RIDGE RIDERS GUESTS OF TROY CLUB

Sunday, August 30th, the Troy, Idaho, Saddle Club held an invitational trail ride, pot-luck dinner and "Playday." There were 19 riders from four area saddle clubs taking part in the day's activities.

Local winners of ribbons were as follows: Bill Rogers, baton race, 2nd; LeAnn Rogers, Baton race, 2nd.

MUSICAL ENJOYED

A small but appreciative group attended the church sponsored song-fest at the Kendrick Community Church last Friday evening.

The choir, under the direction of Miss Dee Magnuson, presented several numbers. Mrs. Gary Browning sang "Just One Step at a Time" and John Lind played a bassoon solo.

Norla Callison presented a gift and Certificate of Appreciation to Miss Dee Magnuson for her work as choir director this past summer.

After the program a coffee hour was held to honor the college students of the church. Mrs. Everett Fey presented each student with a memento from the Woman's Society of Christian Service. Mrs. Fey is secretary of Student Work for the Society.

MINOR ACCIDENT

Tuesday, Aug. 25, Mrs. Ted Grinolds, of Cedar Ridge, unable to see because of dust, got into loose gravel on the grade near the Chas. Fey home, and went over the embankment. As she was moving slowly the car suffered only minor damage and Mrs. Grinolds was not injured.

The services of the Kendrick Welding & Machine Shop wrecker were required to get the car back on the roadway.

TROTH PLIGHTED

Mr. and Mrs. Paul Dagefoerde, Fairview, announce the engagement and forthcoming marriage of their daughter, G. Ann to Thomas J. Hauck, son of Mrs. Mary Hauck, 977 Grand Avenue, New York, New York.

Miss Dagefoerde is a graduate of Kendrick High School and attended Kinnman Business University. She is now employed by Centennial Mills, Inc., in Spokane.

After graduation from Hays High School in New York, Mr. Hauck attended Florida University and then served with the Air Force. Presently he is a baker for Rosauer's, Inc.

Plans are being made for a November wedding.

MRS. BINA E. RABY, KENDRICK PIONEER, DIES AT LEWISTON

Mrs. Bina E. Raby, 82, a resident of north central Idaho since 1900, and a pioneer of the area, died of a stroke at 8:45 p. m. Saturday, Aug. 29 at the Orchards Nursing Home. She had been ill for about four months.

She was born July 8, 1882, at Lewis Fork, North Carolina, and attended school there. She married Marvin O. Raby at Blowing Rock, North Carolina, Oct. 31, 1897. Three years later she moved with him to the Teakean, Idaho, area, where they took a homestead. In 1906 she moved with him to Tacoma, where he was employed briefly on a railroad.

The following year they moved to Moscow, and in 1909 to Kendrick. Here they operated the Raby Hotel and Apartments until his death in 1940.

In 1946 she moved to Lewiston, where she had since made her home. Her home there was at 631 4th Ave. She entered the nursing home about four months ago.

Mrs. Raby was a charter member of Canyon Chapter No. 67, O. E. S., at Kendrick, and was a past worthy matron of the chapter. She was also a member of the Lewiston First Methodist Church and a life member of the Woman's Society of Christian Service.

She is survived by two daughters, Mrs. Bina Eberhardt of Lewiston, and Mrs. Grace Lind, Kendrick; a son, Oscar Raby, Clarkston; 12 grandchildren and 28 great-grandchildren.

Funeral services were held at 2:00 p. m. Tuesday at the Chapel of Flowers. The Rev. Bruce B. Groseclose, pastor of the First Methodist Church of Lewiston, officiated. Pallbearers were her grandsons, Lawrence Cook, Joseph M. Cook, Gary Raby, Milton E. Lind, Leon Lind and Leslie Luma.

PROF. WILL HELP PUBLICIZE IDAHO

Boise — Education and science as well as industry follow the path opened up by tourism attractions and promotions and a good indication of the influence, says Louise Shadduck, head of Idaho's Department of Commerce and Development, is the kind of request she has just received from Malcolm R. Renfrow, head of the Department of Physics at the University of Idaho.

Dr. Renfrow has just requested a representative supply of Idaho promotional and tourist literature to take with him on his travels east, which involve not only his academic work but his functioning on the Mathematical Advisory Board of the National Academy of Science.

Dr. Renfrow points out that in his work he makes many contacts which can benefit the state of Idaho, but that he is particularly interested in handing out information as to Idaho's excellent living and recreational advantages, since it helps bring in faculty members of the higher qualities.

In Encyclopedia
Idaho will get a comprehensive presentation in general information with illustrations in color as well as black and white, when the new 16-volume series called "New Encyclopedic Guide to the United States" is published. Information on Idaho has been provided the company by the Department, consisting generally of the comprehensive information of the Idaho Centennial Almanac brought up to date.

VILLAGE FACES ANOTHER SEWER BOND ELECTION

Under date of Aug. 13, from Boise, the following certified mail letter was received by L. A. Wallace. It is reprinted in its entirety.

Mr. L. A. Wallace, Chairman of the Village Board, Kendrick, Idaho Dear Mr. Wallace: The Idaho Water Pollution Control Advisory Council and the Idaho State Board of Health have discussed at their recent meetings the situations where some of the communities have had bond elections to finance sewage collection and waste treatment facilities and these bond elections have failed to obtain the necessary two-thirds majority. The Board recognizes that the governing bodies for these communities are acting in good faith in presenting these proposals to the people for their approval. However, failure to pass these elections does not relieve the communities of their legal and moral responsibilities in eliminating the health hazard created by the improper disposal of their wastes.

The Idaho State Board of Health at its meeting on July 30, 1964, took the following formal action in this regard:

Where bond elections to finance waste treatment facilities fail to obtain the necessary two-thirds majority, these proposals shall be submitted to the voters again as soon as legally possible. This does not preclude any other type of enforcement action which may be advisable or necessary.

In again presenting this proposal to the voters, renewed effort will be necessary to inform the voters of the need for adequate sewage treatment facilities. We would be glad to provide any assistance we can in working with the Village Board or Committee in presenting this information.

Sincerely, Terrell O. Carver, M. D., Administrator of Health."

SCHOOL OPENED ON SEPT. 1, WITH AN ENROLLMENT OF 330

Supt. James V. Muscat reported a total enrollment of 330 for this district on the first day's reports, as of Tuesday afternoon. Broken down by school and grades they are as follows:

COINCIDENCE

The following article came into the Gazette last week from a subscriber, and we believe it well worth reprinting:

Both President Lincoln and Kennedy were concerned with civil rights. Lincoln was elected in 1860, Kennedy in 1960. Both were slain on a Friday in the presence of their wives. Their successors were both named Johnson. Andrew Johnson was born in 1808, Lynden B. Johnson in 1908.

John Wilkes Booth was born in 1839. Lee Harvey Oswald was born in 1939. Both were slain before trial could be held.

Lincoln's secretary, whose name was Kennedy, advised him not to go to the theater the night he was killed. President Kennedy's secretary, whose name was Lincoln, advised him not to go to Dallas.

CLUB TO MEET

The regular meeting of the Ridge Riders Saddle Club will be held on Thursday, Sept. 3, at 7:30 p. m. in the Fire Hall. All members are urged to attend. There must be a decision made on participation of the local club in the coming Lewiston Roundup parade and grand entries, Sept. 11, 12 and 13.

An invitation has been received from the "Gold Trail Wranglers" of Kamiah to their fall gymkhana on Sunday, Sept. 6. Registration will be at 11:00 a. m., pot-luck dinner at 11:30 a. m., and grand entry at 1:00.

COIN INCIDENTS

ANCIENT CHINESE MADE THEIR COINS WITH A HOLE IN THE CENTER THAT ENABLED THEM TO PROTECT THE COINS BY STRINGING THEM TOGETHER ON A CHAIN OR ROPE. TODAY PUNCHED HOLES IN PAGES OF WHITMAN BOOKSHELF COIN ALBUMS PRESERVE COLLECTIONS BY YOUNG AND OLD. COINS STAY IN MINT-FRESH CONDITION BEHIND CLEAR ACETATE PLASTIC WINDOWS BY CELANESE.

EVER FIND A 3-CENT PIECE? THEY WERE MINTED BACK IN THE 19TH CENTURY FROM 1871 TO 1873, AND ARE COLLECTOR'S ITEMS TODAY. IF YOU COME ACROSS ONE, HANG ONTO IT.

KNOW THE VALUE OF A DOLLAR? ESPECIALLY THE 1804 SILVER DOLLAR? TODAY IT IS WORTH \$20,000, AND THERE ARE EAGER BUYERS.

IN THE DAYS OF THE ROMAN EMPIRE, IT WAS COMMON PRACTICE TO SCRAPE SILVER FROM THE SIDES OF COINS. MINT OFFICIALS TRIED TO PREVENT THIS. THEY CUT NOTCHES ALONG THE EDGE OF THEIR COINS, TO SHOW THE GOOD SILVER INSIDE AND THE FACT THAT THE OUTSIDE HAD NOT BEEN FILLED. IN MODERN TIMES, A REEDED EDGE IS PLACED ON SILVER AND GOLD COINS FOR MUCH THE SAME PURPOSE.

Wilson, who have spent the past week here visiting relatives, returned to their home at Oakland, Calif., Thursday at noon.

Mrs. Bob Smith and Margie were Monday visitors of Mrs. Geo. Havens. Sorry — The telephone line was out Tuesday morning — and was unable to collect news.

Mart Klopfer and Mrs. Ethel Evans were dinner guests Saturday in the Newt Heath home.

Mr. and Mrs. William Ingraham and children were visitors of Mrs. Newt Heath Thursday and Friday.

Mr. and Mrs. Edgar Heath and family of Nezperce spent Sunday visiting Mrs. Newt Heath.

Mr. and Mrs. Roy Heimgartner and sons were hosts at a Bar-B-Q supper given for young people of the Cottonwood Creek Community Church, Sunday evening.

Mrs. Frances Houghton, Patty and Kenny left for their home in El Cajon, California, Friday morning. Patty had spent the summer visiting Mr. and Mrs. Marion Stevens and

family. Her brother and mother had been here for two weeks.

Tom and Bill Glass of Boise, Ida., left for home with their mother, Mrs. Tom Glass, Friday morning. The boys had spent two weeks in the Glen Stevens home while their mother was in Missoula, Mont., caring for Mrs. Stevens' and Mrs. Glass' father, who is hospitalized there. Clifford Powell has undergone major surgery recently.

Fern Stevens and Marilee Fieger returned home Thursday from a week's visit in the Ernie Fieger home in Mountain Home.

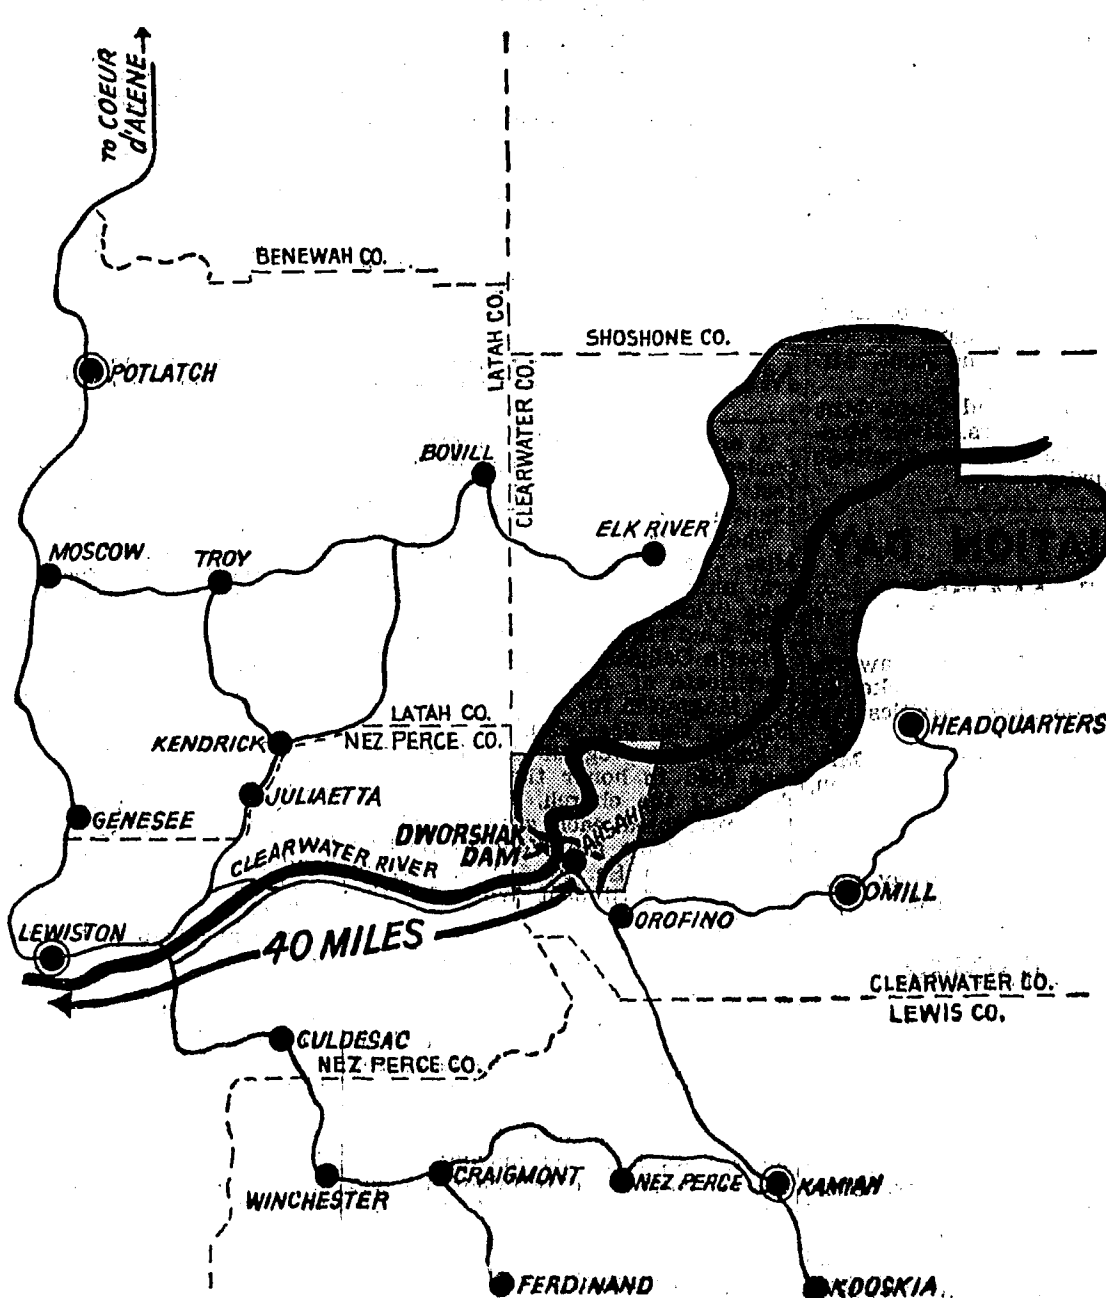

Mr. and Mrs. Alvin Steigers were dinner guests of Mr. and Mrs. Albert Heimgartner Sunday. Afternoon callers included the Floyd Heimgartner family, Mrs. Marion Stevens, and Mrs. Eldon Heimgartner.

AWFUL SITUATION

Asked why she refused to take the tranquilizers prescribed by her doctor, the woman said: "The last time I was taking them, I found myself being friendly to people I wouldn't even speak to otherwise!"

THOR RESEARCH CENTER FOR BETTER FARM LIVING
 "Do you have any plans available for a plain, sturdy stool I can make myself?" queries an Indiana reader. "My wife wants a stool that can be carried easily to reach upper shelves of cabinets and closets." The type of stool we suggest here not only can serve as a step to reach upper shelves, but also can be used by little tykes as a television-viewing seat.

Popular Sturdy Stool
 Only materials needed are 31 inches of 1x10 finished pine or the same length and width of 3/4-inch plywood; 26 inches of 1x4 fir, eight flathead screws, and glue. Pine or plywood will be used to make the top and the legs, while the fir is used for cross-supports.
 You'll hasten shaping, assembly, and finishing of the stool if you use portable electric tools — circular blade and jig saws, drill, and sander. Cut the wood to length and taper sides of legs with the circular saw. Then use the jig saw to cut insert grooves for cross-supports and to shape bottoms of the legs, ends of cross-supports, and corners. Sand all pieces smoothly with power sander, then glue cross-supports into the leg slots.
 Pre-drill countersink holes into cross-supports and legs, set the eight screws, and you're ready for finishing with paint or stain. You can cover the top with floor covering or, if you plan the stool as a child's seat, you might cover with padding and upholstery.
 (This stool plan is available, without charge, by writing Thor Research Center, Aurora, Ill., and asking for Project No. 5101.)

Appreciation Day

For families who have small children in the house, the uniform floor to ceiling distribution of an Electromode Down-Flo Wall heater is ideal. Gentle, fan-circulated comfort is spread over the entire room, eliminating chilly, floor level drafts. Smudgeless, flameless, electric heat prevents walls, drapes and other furnishings in your home from becoming soiled and greasy, so your home stays new-looking longer.* The exclusive Electromode Safety-Grid is on the job, too, for carefree comfort for the whole family. Installation is simple. Down-Flo Heaters are available in models for small and larger rooms.
 *Completely safe—Safety Grid outdates hazards. Heat producing wires are sealed within an aluminum casting. No hot wires are ever exposed. Only Electromode has the Safety Grid—your family deserves nothing less.

JULIAETTA DOINGS IN PAST WEEK

MRS. ERVIN MABBOTT
Phone 288-2254

(Continued from last week)

Mr. and Mrs. George Hutchison, Juliaetta area pioneers, who moved to Spangle, Wash., 15 years ago, observed their Golden Wedding Anniversary Sunday, Aug. 23 at their home in Spangle. The occasion was celebrated by an open house for friends and relatives throughout the area.

The Hutchisons, who were married at Moscow, are members of pioneer families in the Fix Ridge area near Juliaetta. He was born there, a son of James and Sophia Hutchison, who were early farmers in the area. He began working for the Northern Pacific Railway in 1917, moving later to Juliaetta and Pullman. He retired in 1950.

Mrs. Hutchison moved to the Fix Ridge area with her mother, Mrs. Laura Farnell, who later married Robert Hall there. She cooked at sorority houses on the Washington State University campus until her retirement several years ago.

All five of the Hutchison's children were at the open house Sunday. They are: Mrs. Howard (Jeweldine) Heathington, Pasco; Mrs. Allen (Laverne) Olson, Los Angeles; Mrs. Edward (Iris Allen) Palm Springs, Calif.; Mrs. Stanley (Norma) Waitman, San Mateo, Calif., and James Hutchison, Kennewick, Wa.

DRESS REVUES ARE POPULAR IN 4-H

Chicago — Lots of things in 4-H are fun. Girls participating in the dress revue program, for example, seem to enjoy every minute of it. They think it's fun to sew and exciting to get up before an audience and show off what you have made.

However, even games have rules, so the young fashion models must abide by rules relating to their taking part in a dress revue.

They learn to make the right choice of pattern, fabric and accessories. The garment must also be made according to the 4-H clothing construction methods and the club leader's guidance. Equally important is the manner in which the

clothing is worn. Judges of dress revues are often other 4-H Club girls who have been coached for the task. They are quick to evaluate the wearer's general appearance and her ability to model with grace and poise. The experience also helps them to improve their own wardrobes.

GROUND-WATER STUDY PLANNED

U. of I., Moscow — A detailed study of ground water resources in the Moscow basin will begin next week with interviews of local residents who own water wells.

Lewis Prater, assistant director of the Idaho Bureau of Mines and Geology, announced the project this week. It will be conducted by the bureau which will publish results of the study.

Dr. Robert Jones, assistant professor of geology at the University's College of Mines, will lead the project, assisted by Mr. and Mrs. Alan Ross of Eden.

Prater said collection of the interviews is necessary to provide an accurate knowledge of aquifers, water tables, artesian pressure surfaces, the quantity of water available, the movements of ground water, and the origin and distribution of chemical constituents in the water, such as iron.

In urging co-operation of Moscow residents, Dr. Jones said: "More adequate data on wells in this area will not only be valuable to us, but they will also be helpful to all water users in the Moscow basin. We will be calling on residents and asking questions about their water wells. This is the only way we can get the information."

"At present we know there are at least two water tables at different levels. Three artesian systems are also known."

KAMLOOPS TROUT GET HUMAN BOOST

Bud Ainsworth, Jr., fish culturist at Clarks Fork, "strips" eggs from a kamloops trout spawner as part of the propagation procedure. Altogether, nearly a million kamloops rainbow eggs have been taken this year from these big trout. Some of them will be shipped to the Hagerman fish hatchery in south Idaho to hatch and raise until fall, but most will be kept at Clarks Fork.

This hatchery recently obtained new incubator trays capable of holding one and one-half to two million eggs as part of the five-point program. About 32 ounces or 8,000 Kamloops eggs can be placed on each tray. The eggs start hatching in about 54 days, but remain in the incubator trays for 80 to 85 days. They are then transferred to indoor troughs and held about a month, feeding on beef liver and dry feeds. Most of the fingerlings are released into the tributaries of Lake Pend Oreille.

Picnic time is at hand. Get those wanted items at Blewett's in Kendrick.

Tests of commercial fertilizers on mountain meadows are being conducted this summer at seven locations by the University of Idaho extension service.

Tony Horn, horticulturist of the University of Idaho extension service says the staking of some varieties of tomatoes is desirable for quality and maximum production.

Glass jars may be used for freezing most fruits and vegetables, say food specialists of the department of agriculture.

Young adults with 4-H experience are sought as volunteers for Peace Corps work in Brazil and Sarawak.

We feature Carnation Dairy Products. Blewett's Market.

SALVATION IS OF THE JEWS, THE GOOD OLIVE TREE. Rom. 2:22; 9:4,5; Eph. 2:12; Deut. 16:22

Since Moses' time—3200 years—the holy CHERUBIMS and Gentile's COMMONWEALTH of strange gods, dumb idols: didn't LURE Jews to INVENT gazing-stock-graven-images of FAITH personalities as Father Abraham or Moses to place in TABERNACLE or TEMPLE: or 12 Apostles, Christ or Mary, to put in Church. AMEN. It took 9607 years to CURE Jews, trading God for idols. Jud. 10:6; Jer. 2:11; Eze. 11:12-14:3. With Jews absent 19007 years world isn't saved by Gentile effort (no Jewish pope). Gentile times began with SACRED GOLDEN IMAGE, ends in ABOMINATION of DESOLATION. Rev. 9:20. "For out of Zion shall go forth the LAW, and the Word of the Lord from Jerusalem." NOTICE TO PARENTS AND GUARDIANS OF SCHOOL AGE CHILDREN

In compliance with the requirements of 33-203, notice is hereby given that: In all school districts of this state, every parent or guardian of any child between the ages of seven and sixteen years, shall cause such child to be instructed in certain specified subjects. Every such parent or guardian shall cause such child to attend a public, private or parochial school, during a period equal to that portion of each year during which the public schools are in session in such district, and shall cause such child to conform to the attendance regulations established by the board of trustees of such school district.

When a duly licensed physician or psychiatrist shall certify in writing that the physical or mental condition of a child is such that it does not permit attendance at school and upon a finding by the board of trustees that the best interests of the child or the school will be served by exempting such child from attendance, then the board of trustees may grant such exemption during the continuance of such disability. A petition for exemption for such cause may be initiated by the child or by its parent or guardian.

Before the board of trustees may exempt any child who is an habitual truant whose conduct would disrupt school order or discipline, the board shall notify the parents or guardian and afford them an opportunity to appear and show cause why the exemption should not be granted. When exempted for such cause, the probate court shall be notified, and said child shall come under the purview of the youth rehabilitation law.
