Bridge Approach Again Put In

The approach at the cross-river end of the county bridge over the Potlatch river at the north end of town was again repaired Friday. A few plank had been put in after it washed out for the second time during the last flood, but it was unsafe, for motor traffic. It is again in

Fractures Leg

Mrs. Henry Brammer had the mis-fortune to fall last Thursday, in their home, while preparing lunch. She was taken to St. Joseph's Hospital Saturday, where X-rays were taken and it was discovered she had suffered a "hairline" fracture just below one hip. Dr. Christensen and Roy Ramey took her to the hosengagement of her daughter, Ginger

to bed. She was resting better on V. Clemm of Troy, Idaho. for a few weeks. Their daughter, school and will graduate from their Mrs. George Havens, is staying with respective schools in May.

The wrecker of the Kendrick Welding & Machine Shop was called, and Mr. Dygert pulled the vehicle back onto the street. The truck suffered only very minor damage. March 2.

IDAHOANS PLANT MANY TREES

Moscow — Idaho planted 15,759 acres of forest trees last year, according to a report Homer Futter, Latah county agent, had this week from Vernon Burlison, University of Idaho extension forester. Most of the planting and seeding was on federal land. Only four percent was on

private property. Throughout the nation, almost one billion seedlings were set out. At the rate of a billion a year, the report said, it will take 70 years to plant the non-restocking areas of forest lands in the United States.

BIRTHDAY DINNER

Ronnie Dammarell, son of Mr. and Mrs. Max Dammarell, observed his 13th birthday anniversary on Sunday, Feb. 14, with dinner guests and birthday cake at his home. Those present were Mr. and Mrs. Clinton Benedict and daughters of Lewiston; Mrs. Pearle Long and Mr. and Mrs. Ed. Dammarell. Mr. and Mrs. Paul Dammarell of Troy were afternoon

DEER SUFFER FOOD LACK IN WINTER

Boise — Over-used winter ranges result in high-lined trees like this, even though pines are poor deer feed. Big game animals — deer in this case — have stripped the tree of the tree

Artifically feeding big game animals is unwise because only a relatively small number of animals can be fed during any feeding operation, and because the concentrated animals cause long-term damage to the range. Moreover, the digestive system of big game animals seldom are ready to handle the artificial feeds when feeding operations begin.

Law said the equipment would consist of a transmitter tower, antenna and necessary supplementary units and necessary supplementary units come from Lubbock, Texas, where they had been formerly used by Station KCBD-TV. The tower will be supplied by Pacific Tower Co., Portland.

NAMED TO NATL. WILDLIFE SOCIETY

U. of I., Moscow — Dr. Kenneth E. Hungerford, professor of wildlife management at the University of Idaho, has been elected to the nation-pleted. Wiring to the building is also al council of the Wildlife Society, finished. dedicated to the establishment of high professional standards in wildlife management.

U. OF I. PURCHASES TV EQUIPMENT

case — nave stripped the tree of green needles as high as they can reach. Fawns suffer most because they cannot reach as high as mature animals. When sharing winter range with deer, elk of course have the advantage because of their greater reach.

Artifically feeding big game animals is unwise because only a relation of Radio Corporation of America to put the university's television station on the air this spring, it was announced today by Professor Gordon Law, acting director of communications. The purchase is to be supported by a \$96,299 grant from the U.S. Department of Health, Education and welfare.

erected on Paradise ridge, about four miles southeast of Moscow, a height of 1,100 feet above average terrain will be attained. The tower will be 800 feet high, and the antenna will extend 87 feet above it.

The concrete block building to house the transmitter has been com-

The station will broadcast directly within a radius of 70 miles of the Paradise Ridge site, and will operate

As representative of Region Six, Dr. Hungerford will be the spokesman for the states of Alaska, California, Hawaii, Idaho, Nevada, Oregon, Utah and Washington, and the territory of Guam. His three-year council term will begin in March.

A member of the college of forestry, wildlife and range sciences since 1943, Dr. Hungerford is assistant unit leader of the Idaho Cooperative Wildlife Research unit. He would be able to broadcast to Moscow via the LaGrande relay point.

POTLATCH YOUTH IS IFYE DELEGATE

Jerry Howard, University of Idaho senior and a former Latah County 4-H'er, has been chosen the 1965 International Farm Youth Exchange delegate to Korea beginning April 1, 1965. Jerry is the son of Mr. and Mrs. Alfred Howard of Potlatch, Idaho.

During grade school and high school Jerry's ability in numerous 4-H projects over a ten year period enabled him to win trips to National 4-H Club Congress meetings in Chicago and Washington D. C. In 1962, his continued interest in 4-H helped him to win one of two National Milwaukee Grain and Marketing Scholarships.

Before leaving for Korea in April, Jerry will spend a good deal of time preparing himself by studing the history, politics, religions, agri-culture, and various other phases of Korean life. He will also study different types of American customs that people of Korea may be interested in. Learning the Korean language is also one of Jerry's goals before leaving Idaho.

The International Farm Youth Exchange is a two-way exchange. Selected farm youth from the United States live and work with farm families in other countries from six to nine months and, in turn, farm youth from cooperating countries come here to live and work with our farm families. After their return home, U. S. delegates devote considerable time sharing the benefits of thier experiences with others, giving talks and participating in civic programs.

No state or federal funds are used to finance the actual exchange. The IFYE national budget is made possible by contributions from individuals, foundations and industries interested in rural youth and inter-national understanding. One-half of the funds are raised in the community that is sponsoring the delegate, through individuals and club groups. This helps to create interest in the delegate who will represent their community.

To help finance Jerry as an IFYE, the 4-H'ers of Latah County are sponsoring a county wide Hootenanny, February 20th, with all proceeds from this going into the fund to finance Jerry's trip. The Hootenanny will be held in the ballroom of the Student Union Building on the University of Idaho campus. There will be two performances -- a matinee from 1:30 to 4:00 in the afternoon and the evening performance from 8:00 to 12:00 -- featuring the Paradons at the dance which will complete the evening's activ-

TESTS SET UP FOR BEAN FOR SEED

U. I., Moscow A laboratory and field testing program to detect halo blight infection in bean seed has been set up by the University of Idaho's College of Agriculture in cooperation with Idaho's bean seed industry, the State Commissioner of Agriculture and the Idaho Crop Improvement

association. Goal of the program is to reduce and eliminate if possible, the amount of diseased bean seed planted in the state, according to Dr. A. M. Finley, head of the department of plant science.

Laboratory testing will begin immediately, Dr. Finley said. Small samples of seed introduced into Idaho from known halo blight-infested areas will be tested in the university plant pathology laboratory. If the seed appears to be free of infection, larger samples will be grown and tested at Yuma, Ariz. in late February and March.

"If we find evidence of halo blight in either laboratory or field tests, we will advise strongly that the seed not be planted in Idaho" Dr. Finley

said. This kind of attack against halo blight is necesary because there is no chemical means of controling the disease, he pointed out. Four or five diseased plants per acre can destroy a field of beans. Since the disease spreads quickly, one infected field can endanger a bean-growing area. In Idaho's case, halo blight infection threatens the total bean seed

"Idaho became the nation's No. 1 source of bean seed because it was free of halo blight and other bacterial seed diseases," Dr. Finley said. "Bean varieties developed in the commercial areas could be grown for increase here without concern over seed diseases. Our climate effectively choked out infection."

Not so today, he added. Halo blight infection was noted throughout the southern Idaho bean producing areas last year.

Dr. Harry S. Fenwick, plant pathologist with the Idaho Agricultural Extension Service, will be in charge of the university testing program. Beginning about February 15, he

will supervise planting at the field test plot in Arizona. As soon as the bean plants emerge, he will conduct daily field readings at the site. Reports of the readings on each sample will be relayed to the originating seed dealer immediately.

Dr. Finwick will also conduct field tests at the university's plant science farm near Moscow later in the spring too late to plant in Arizona.

GEMS OF WISDOM

Remember: It is impossible for one fool to get into an argument.
When a man doesn't care what people think of him — he has reached either the top or the bottom.

Sometimes a girl breaks a date by going out with him.

Horse sense is nothing more than a sleeping pill you plug in.

A man is always as young as he feels — but seldom as important. Quiet people aren't the only ones who don't say much.

A hypocrite is a person who preaches by the yard and practices by the inch.

Potlatch is people

MEET TOM YOUMANS, JR., of Potlatch, Idaho. Tom has worked with Potlatch Forests, Inc., since February, 1946. He has held many jobs, such as Power Plant Fireman, Warehouse Stock Clerk, Personnel Director, Assistant Superintendent, and Plant Superintendent. Tom is now Plant Manager at Potlatch, Idaho. Not only does he have years of experience behind him, but he is a graduate of Lewis-Clark Normal School in Lewiston, Idaho, and studied Personnel Administration at the University of Paris, France.

TOM IS SHOWN HERE INSPECTING a run of the popular rough sawn "Textured" lumber. COMMUNITY AFFAIRS ARE AN IMPOR-TANT PART OF TOM'S LIFE. He was the first secretary of the Potlatch Area Boosters, one of the founders of the "Annual Potlatch Community Days," a member of the Latah County Chamber of Commerce and past master and member of the local Grange. A 4-H leader for 7 years, Tom served one year as council chairman for Latah County. He is past director of Heyburn Youth Park and a member of the Potlatch Masonic Lodge

and past president of North Idaho Arabian Association. At present, Tom is on the board of the Northwest Woods Products Clinic.

THERE ARE FIVE MEMBERS OF THE YOU-MANS FAMILY . . . Tom, his wife Mary and three sons. Mrs. Youmans, also, finds time to be active in Potlatch community groups. She was a 4-H leader for 8 years, department superintendent at the Latah County Fair and has held various offices in the local and County Grange. She is a member of both the North Idaho Arabian Association and the Appaloosa Club.

TOM YOUMANS, JR., IS PART OF A PLAN; a plan that treats timber as a crop, to be grown, protected and harvested when mature. A plan that involves building roads, communication and buildings. This is a plan that is made by people, carried out by people, financed by people and done in the best interest of people . . . people like Tom Youmans and you, and your neighbor.

SURE POTLATCH IS A LOT OF THINGS . . . but, most of all, Potlatch is people.

AND ALTERNATIVES

Boise — A number of alternatives to a sales tax were presented by Rep. J. W. Monroe (D. NezPerce) in a outgrowth of Spokane's popular talk in the House Chamber, Monday. Farm Forum held each February,'

as a credit and reduce the rates to the Farm Forum and they indicated take away the myth that Idaho is they wanted other meetings where one of the highest income tax states they could get detailed information in the nation, when in reality it is on livestock. only 17th.

To clear up the intrastate corporation laws and not permit corporton on Friday, where they attended ations doing business in this state called head tax). To change income tax laws by ad-

for dependents. This would broaden March 6, in the Student Union buildthe base to as much as 100,000 new ing. taxpayers, which is the difference Federal government and to the State.

To require a rate of one-half of Burlison, university extension forone percent of income from people in lowest bracket. This will take less money from people in this group than will a sales tax, but will require everyone to make some contribution. It is better than a sales tax because it recognizes the ability to pay, which the sales tax totally disregards, and tion on the present use of grading in can be controlled at any level of marketing of Idaho trees. economy. This adjustment can result in \$30 million per biennium.

To tax automobiles, which to a a tax few can escape. It is competitive with states around us and will not deter business from coming to the state. This source can raise from \$18 to \$20 million at an aver-

age rate per car of \$50.00. To amend the Code which says to assess property at 100 percent. This is not being done but this red flag which business sometimes uses can and should be taken down.

Hundreds of livestock producers and feeders and those who supply money and supplies for stockmen are expected to attend the First Annual Pacific Northwest Livestock Conference which will be held here Thursday, March 4.

in the continuous stars.

The announcement came from William H. Crutcher, chairman of the conference and long associated Crutcher explained the conference

is aimed at beef cattlemen -- producers and feeders alike; at sheepmen -- both commercial range and small farm types; at hogmen -- regstered and commercial. He said there will be enough in the program to interest stockmen in Oregon or Idaho as in Montana or Washington. The conference is sponsored by the Spokane Chamber of Commerce in co-operation with Montana State

Washington State University. "This first conference is a direct His suggestions included:

To disallow the Federal income tax

Crutcher explained. "We surveyed more than half the persons attending

Following the panel Wilson Kellogg, federal supervisor of inspection in Idaho, will discuss U. S. degree reflects ability to pay and is standards for Christmas trees, and will illustrate the quality of tree that conforms to the various grades.

THE TRUTH HURTS

The Wall Street Journal relaties the young clerk was being lectured by his boss. "Now don't forget," he reminded the young man, "the cus-

tomer is always right." It wasn't long before the boss noticed customers entering his store and leaving immediately without purchasing anything.
"What's wrong" he demanded,

Why aren't the people buying?"

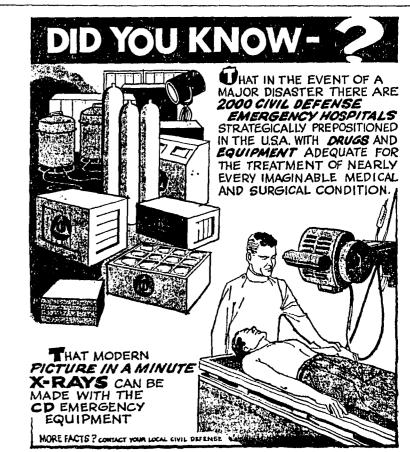

and I tell them they are right!' A compliment a day keeps the quarrel away.

Memory is the product of intel-

ligence — and work.

"Well," answered the honest youth,

they all say our prices are too high,

FASTER, EASIER WINTER STARTING

Heavy-duty engines start in seconds with Chevron Pressure Primer System - even in sub-zero weather. Safe, simple system uses pressurized steel cartridges of priming fuel, discharger and metal tubing to intake manifold. Reduces engine wear, lengthens battery life.

Avoid fuel line icing. Just pour a little Chevron Ban-Ice® Fluid in your gas tank.
