AROUSED OVER LACK OF SALMON IN SALMON RIVER

Wash., D. C. — Senator Len Jordan last week urged the U. S. Fish & Wildlife Service to make a complete and thorough investigation of the rapidly diminishing summer salmon run on Idaho's Salmon River. Jordan noted that John Wood-worth, director of the Idaho Fish and Game Commission, has been forced to issue a closure on salmon fishing in Idaho because of the greatly depleated number of salmon that are getting into Idaho rivers to spawn this year. The Idaho senator also told U.S. Fish & Wildlife Service officials that Idaho sportsmen and small businesses that service the salmon sports fishermen, have been very aroused by the ban.

A CENTURY OF SERVICE TO THE PEOPLE OF II

When furs were money and wagons were schooners J. C. Anderson started a trading post at what now is Idaho Falls. Trappers, traders and miners brought their furs, gold and valuables to the post for safekeeping. The Anderson Brothers Bank prospered and grew through the years to the First Security System of Banks — with 44 offices in 36 Idaho communities today.

Idaho has had a great history of growth and progress to which First Security has made substantial contributions. In the past five years alone, we have paid more than 13½ million dollars in interest on savings accounts deposited with us. In addition, during these same five years, we have made over 300,000 loans amounting to more than 1' billion 110 million dollars to individuals and businesses in Idaho. This, indeed, is banking that is building Idaho!

From the past 100 years we draw inspiration as well as experience, both of which aid us in providing ever better and more helpful banking service to the people of Idaho.
