## GEORGE F. BROCKE ASKS LEGISLATIVE SPECIAL SESSION

State Representative George F. Brocke, Sr., Tuesday of last week wrote to Gov. Robert E. Smylie requesting a special session of the Legislature be called to repeal the real-property valuation law passed last year.

Mr. Brocke, D-Latah, said in a letter to the governor that "the assessment values now being placed on real property . . . in many cases are unrealistic."

"I am sure that there will be several court cases filed in regards to this law and I also believe that this revaluation is something that requires more study and time."

"I believe that it would be to the best interest of the people of the State of Idaho for you to call a special session of the Legislature and request that this law be repealed," Brocke wrote.

He suggested that the 39th Legislature "could then work on this problem and come up with some workable plan."

The 1965 Legislature passed a law requiring county assessors to assess farm and residential property at 20 per cent of its market value. The 20 per cent rate to be reached over a four-year period with the first of the four adjustments taking place this year.

Brocke said that although the values placed on farm land "seem to show a pattern, the value placed on farm buildings in many cases is completely out of line."

"In this county the value of old homes is being increased to unheard of figures that in no way reflect the true cash value of the property," Mr. Brocke charged. He said a "serious situation is arising in many of our counties due evidently to a misunderstanding of the intent of the Legislature in enacting Senate Bill 246."

## Latah Assessors Gets Boise Orders

Boise — Latah County Assessor Eugene Taylor has been ordered to use a base price of \$260 an acre to determine full cash value of rural agricultural land in Latah County.

The Idaho State Tax Commission said Thursday the price of \$206 per acre, previously determined by Taylor, was erroneous.

Taylor was also ordered to report ratios of assessment for this year on forms supplied by the commission.

The commission issued the orders from a June 23 hearing in Latah County to determine whether Taylor:

1. Was properly determining the full cash value of rural land, and
2. To determine the categories of property at which different ratios could be used.

The commission later stipulated that there are only three categories of property to determine ratios of assessment to full cash value: Residential, rural, and business and industrial.

County assessors are making their first adjustment in re-assessing farm and residential property at 20 per cent of their market value.

The real property valuation law passed last year provided that the 20 per cent figure be reached during a four-year period. — Lewiston Tri-

## Storms of Protest Arising

Storms of protest are arising on every hand, particularly from the owners of older homes, older business establishments and farmers — all already severely burdened with taxes of every kind. Many claim (and rightly) that they couldn't sell their older home and older business houses for the so-called "20 per cent valuation that is being placed upon it!"

## GEORGE N. WARE KILLED IN LOGGING ACCIDENT WED.

## BETTER SIGHT?

Rochester — Best all around device for extracting information from the world about us the eye. But by the year 2,000 "perception machines" will be built whose ability will rival and perhaps exceed what the eyes can do, predicts Robert M. Boynton, director of the Center for Visual Science at the University of Rochester.

## LUTHERAN CEREMONY UNITES MISS SUNNY YOUNG AND RICHARD A. NELSON, JUNE 17

On Friday evening, June 17, 1966, at 8:00 o'clock, Miss Sunny Wydell Young, daughter of Mr. and Mrs. Robert W. Young of Pullman, became the bride of Richard A. Nelson, son of Mr. and Mrs. Edwin Nelson of Kendrick. The double ring ceremony took place at the Trinity Lutheran Church at Pullman, Wash.

Rev. Karl Ufer, pastor, officiated before an altar flanked with lighted tapers in candelabra and tall baskets of white gladioli, snap dragons and pink peonies.

The bride, given in marriage by her father, was radiant in a gown of white Chantilly lace and taffeta, fashioned with a basque bodice and Sabrina neckline and long fitted sleeves. The bouffant skirt featured a petal overskirt in lace, which extended into a chapel train. Her bouquet was of white roses and Stephanotis.

Miss Barbara Jo Young, a sister of the bride, was maid of honor, and bridesmaids were Miss Judy Pederson, Miss Miriam Wells (close friends) and Mrs. Binx Hayden, a cousin of the bride. Their identical floor-length gowns were fashioned of white shantung bodices and turquoise and white checkered skirts with organza over-skirts. They carried bouquets of yellow daisies.

Roger Nelson, the groom's brother, was best man. Ushers were Arnold Young, a brother of the bride; Allen Wegner, a cousin of the groom, and Dale Nelson, a friend of the groom.

Miss Sharon Ufer played the wedding music and accompanied Miss Wilma Baer who sang "The Lord's Prayer", "Beloved It Is Morn" and "Calm As The Night."

The wedding reception was held in the church parlors. After the traditional first piece of cake had been cut by the young couple, it was cut and served by Mrs. Michael Mix and Mrs. Harry Wegner. Mrs. Kenneth Boyd poured, and Miss Carolyn Holt served punch.

They are now at home at 1104 Abbot, Richland, Wash., following a wedding trip to Radium Hot Spring, B. C., Canada.

## ODD WEATHER, YIELDS SAID LOW

For the last of June and first part of July, weather over the period can be said to be "most unusual."

True, we have had a few warm days, with the temperature reaching 88 degrees on Wednesday, and that is about the only warm day. Night temperatures have been in the low 50's, with Friday morning showing a reading of 50 degrees, and jackets a popular item.

Yields of strawberries, raspberries are described as "light," the fruit being on the "small side," although bushes were apparently "loaded." Some lay this condition to the late, hard frosts, others to the unusually dry spring season.

Anyway, it's a most unusual year weatherwise and otherwise.

## PIONEER PASSES

Marvin Long received a telegram Sunday, telling of the death on July 2 of Mrs. Esther Dill (Mrs. Jody Long) in a nursing home at Bristol, Virginia. Funeral services were held on Tuesday at Chilhowie, Va.

## GEORGE F. BROCKE ASKS LEGISLATIVE SPECIAL SESSION

State Representative George F. Brocke, Sr., Tuesday of last week wrote to Gov. Robert E. Smylie requesting a special session of the Legislature be called to repeal the real-property valuation law passed last year.

Mr. Brocke, D-Latah, said in a letter to the governor that "the assessment values now being placed on real property . . . in many cases are unrealistic."

"I am sure that there will be several court cases filed in regards to this law and I also believe that this reevaluation is something that requires more study and time."

"I believe that it would be to the best interest of the people of the State of Idaho for you to call a special session of the Legislature and request that this law be repealed," Brocke wrote.

He suggested that the 39th Legislature "could then work on this problem and come up with some workable plan."

The 1965 Legislature passed a law requiring county assessors to assess farm and residential property at 20 per cent of its market value. The 20 per cent rate to be reached over a four-year period with the first of the four adjustments taking place this year.

Brocke said that although the values placed on farm land "seem to show a pattern, the value placed on farm buildings in many cases is completely out of line."

"In this county the value of old homes is being increased to unheard of figures that in no way reflect the true cash value of the property," Mr. Brocke charged. He said a "serious situation is arising in many of our counties due evidently to a misunderstanding of the intent of the Legislature in enacting Senate Bill 246."

## Latah Assessors Gets Boise Orders

Boise — Latah County Assessor Eugene Taylor has been ordered to use a base price of \$260 an acre to determine full cash value of rural agricultural land in Latah County.

The Idaho State Tax Commission said Thursday the price of \$206 per acre, previously determined by Taylor, was erroneous.

Taylor was also ordered to report ratios of assessment for this year on forms supplied by the commission.

The commission issued the orders from a June 23 hearing in Latah County to determine whether Taylor:

1. Was properly determining the full cash value of rural land, and
2. To determine the categories of property at which different ratios could be used.

The commission later stipulated that there are only three categories of property to determine ratios of assessment to full cash value: Residential, rural, and business and industrial.

County assessors are making their first adjustment in re-assessing farm and residential property at 20 per cent of their market value.

The real property valuation law passed last year provided that the 20 per cent figure be reached during a four-year period. — Lewiston Tri-

### MANY ITEMS MISSED

We at the Gazette are well aware that there was a great deal of news about the 4th of July week-end and its happenings that was missed — but when no mail moves from Saturday morning to Tuesday morning — and almost all places of business are closed — and many folks out of town — time does not permit the gathering and putting into type of all the news.

Please bear with us. We did our best — as did our faithful correspondents!

We might add that the Kendrick park was a very popular place Sunday and Monday. Many youngsters were greatly disappointed at the pool being closed on the 4th — but "then, that's the breaks."

**TREE FARMERS GET HYBRID SEEDLINGS**

Lewiston — Hybrid pine seedlings are now being distributed to 570 Certified Tree Farmers in northern Idaho. Royce Cox, chairman of the North Idaho Tree Farm Committee, announced this week. The Tree Farm program is sponsored nationally by the forest products industry to stimulate improved forestry practices on private lands, Cox said.

Distribution of the seedlings is one of several special activities planned for the observance of the 25th anniversary of tree farming. The seedlings are being made available without charge by the Western Wood Products Association, a trade organization of private timberland owners

and wood products companies in the western pine region. The association is responsible for maintaining the Tree Farm program in the 11 states in the region.

The hybrid seedlings, now about eight inches tall, are individually rooted in plastic tubes about one inch in diameter and twelve inches long. Purpose of the tube container is to improve chances of survival after transplanting. Seedlings for distribution in northern Idaho are of two crosses — Jeffrey Pine crossed with Ponderosa Pine, and Knobcone Pine crossed with Monterey Pine.

The Jeffrey x Ponderosa has the characteristics of both species and was first discovered as a natural hybrid in California. Later the Placerville institute produced several crosses of the two species. Some of the

hybrids were planted in Oregon in 1952 and seed produced by them through open pollination in 1965. This seed was used to produce the second-generation hybrids now being distributed.

The seedlings will be available at several local distribution points, Cox said. Only one seedling is to be given to each Certified Tree Farmer. They may pick them up at the following locations: Orofino, C-PTFA office in the Curtis Bldg.; Troy, state woodland forester's office or Norm Berg's Cafe; Kendrick, State District Fire Warden's office; Deary, George Lawrence residence.

## MESKES GRADUATE FROM N N C, NAMPA

Nampa — Officials of Northwest Nazarene College in Nampa, Idaho, have announced that Duane Otto Meske, son of Rev. and Mrs. Theo A. Meske, Kendrick, graduated this month with an A. B. degree in Elementary Education. Meske was elected to "Who's Who Among Students in American Colleges and Universities" this year.

His wife, Rona K. Meske, daughter of Mr. and Mrs. Rollin E. Armistage, Southwick, graduated this month with an A. B. degree in Language and Literature. Mrs. Meske, graduating magna cum laude, was elected to "Who's Who Among Students in American Colleges and Universities" this year.

The Meskes are presently at home to their friends at Southwick, Idaho.

## ON DEAN'S LIST

U. of I., Moscow — Students nam-

ed to the Dean's List, for academic achievement in the University of Idaho College of Business Administration were announced this week by Dean David D. Kendrick.

Included in the 67 students receiving recognition upon completing the spring semester with grade point averages of 3.30 or better was the name of Richard A. Nelson, son of Mr. and Mrs. Edwin Nelson, Kendrick, Idaho.

## MEDICARE DATE IS NOW PAST

Lewiston — May 31 was the deadline for people who became age 65 prior to March 31 of 1966, to sign up for Medicare under Social Security. The next information those who have signed up for Medicare will receive is a handbook entitled "Health Insurance Under Social Security," according to D. Gene Shaw, district manager at Lewiston.

This booklet is printed in large type and is easy to read. It discusses in detail services furnished under the

"Hospital Insurance," describing what benefits are payable under the plan.

The last half of the booklet contains 15 pages on "Your Medical Insurance." This part explains the 350.00 deductible and the "80 percent" provisions of the supplementary medical insurance program. It tells where to file claims for medical insurance benefits, including the addresses of all the fiscal intermediaries (the party who pays the bills) in the United States.

Mailing of this booklet will begin in June and continue until everyone has received theirs. The booklet will arrive in the mail without an envelope and so will be easily recognized.

The local Social Security office will not have this booklet available for distribution, so it is requested that everyone keep his or her booklet when it is received.

## ENROLLMENT AT U. NEARS DEADLINE

U. of I., Moscow — New warnings were issued at the U. of I. today on early deadlines in connection with fall enrollment, which must be held to about 6,400 due to limitations in facilities.

Earlier this month the Regents approved a recommendation by university officials to accept no applications for admission this fall after June 30. The ruling applies to Idaho residents, as acceptance of non-resident students had already been stopped May 13.

Now the deadline for registration for sorority rush is being made earlier, July 15, instead of Aug. 1, said Dean of Women Marjorie Neely.

Robert F. Greene, director of dormitories, said that "applications for dormitory housing are now almost up to hall capacity. Housing for women students is particularly at a premium.

NEW PESTICIDE HAS GREAT MANY USES

Los Angeles, Calif. — USDA accepted uses of malathion LV concentrate, the only government registered low volume pesticide now on the market, has been extended to cover more than 15 insects on more than 20 crops.

New label acceptances cover lygus bugs on cotton and safflower, early season insects on cotton, Mexican bean beetles on soybeans, and five important insects attacking bean crops.

A registration was also issued for malathion for control of adult flies and mosquitoes on beef cattle in feed lots and holding pens.

The low volume insecticide is produced by American Cyanamid Co., and requires only 4 to 16 ounces per acre, depending upon the crops and insects involved.

Applied by air, undiluted malathion is sprayed out in the form of extremely small droplets that are barely visible during application.

USDA registrations previously given malathion LV included adult mosquitoes and flies in alfalfa, clover, grain, grass and non-agricultural lands; boll weevil; cereal leaf beetle, and beet leafhoppers on wild host plants.

You can't picnic without food. You will find every item at Blewett's in Kendrick.

SUPPORT OF 4-H AT NEW HIGH

BEGINNING with an annual contribution of a few thousand dollars 45 years ago, the aids, but also encouragement to National 4-H Service Committee, this year has budgeted a record \$2 million for services to the 4-H program. This year marks the 45th National 4-H Club Congress to be held in Chicago. The annual the Committee has fostered a event brings recognition to boys steady growth of service and girls between 14 and 19 support to 4-H," said Norman C. Mindrum, director. "Contributions from U.S. business in 1966 reached a new high of 61, representing virtually every type of major business enterprise. Rico who win them.

Another highlight of the Congress is the presentation of 300 scholarships valued at \$146,500. The 3,358 grants given during the last 15 years have done much to enlarge the education and careers of the older 4-H Club member.

Most of the scholarships are for \$500 and paid all at one time. However, last year General Motors, donor of awards in the national 4-H Safety program for 22 years, upped its scholarships to \$1,000. The corporation provides eight scholarships payable in two installments.

Other 4-H scholarships range from \$800 to \$1,600. In addition, six \$3,000 fellowships are awarded to professional extension workers for advanced study.

"It is gratifying to report," said Mindrum, "that this year three more companies have accepted support of new national 4-H programs."

The new programs are home management, sponsored by Tupperware of Orlando, Fla.; horse, sponsored by Merck & Co., Inc., Rahway, N.J., and a series of study manuals on veterinary science underwritten by The Upjohn Company of Kalamazoo, Mich.

Among the 61 donors are the following which have given support to the 4-H program from 15 to 48 years: Allis-Chalmers, American Oil Foundation, Armour and Company, Santa Fe Railway System, the Burlington Railroad, Coats & Clark Inc., Illinois Central Railroad, Kerr Glass Manufacturing Corporation, Livestock Conservation, Inc., Montgomery Ward, Simplicity Pattern Co., Inc., Standard Oil Company (Ky.) and The Standard Oil Company (Ohio). Also, Westinghouse Electric Corporation, Wilson & Co., Inc., Standard Brands Incorporated, The Pure Oil Company, Hercules Incorporated, Ford Motor Company Fund, Elgin National Watch Company, Conrad Hilton Hotel, Chicago Board of Trade, Carnation Company, American Forest Products Industries, Inc., Cities Service Oil Company, The Sears-Roebuck Foundation, Massey-Ferguson Inc., Sunbeam Corporation, Firestone Tire & Rubber Company, International Harvester Company, and North Western Railway.

Hermiston, Ore., visited his mother, Emma Hasse, Saturday evening, and were guests at the Henry Hasse home for the week-end.

Mary Ann Pavel, who is attending summer school at Cheney, Wn., arrived home Friday to spend the week-end with her parents, Mr. and Mrs. John Pavel.

Alma Betts had the honor of being one of the former students of Meta Schutz, now Mrs. Aug. F. Wegner, at the Golden Anniversary reception of Mr. and Mrs. Wegner at the Cameron Church, Sunday afternoon. Mr. and Mrs. Albert Lawrence and family were also among those from this community attending.

Ernestson Bonser, Mrs. Gene Holliday and Mrs. Gerald Kuykendall, all of Lewiston, spent Sunday at the D. V. Kuykendall home. Mr. and Mrs. Gene Kuykendall and family were Monday visitors.

WHEAT PROGRAM ANNOUNCED FOR '67

Moscow — The 1967 wheat program "will assure increased production of needed wheat and at the same time will bring producers more income," Orville L. Freeman, secretary of agriculture said recently in announcing major provisions of the program.

Key factors in the 1967 program are:

1. Price support loan level will be \$1.25 per bushel.

2. Domestic marketing certificates on an estimated 520 million bushels will be valued at the difference between full parity as of July 1, 1967, and the \$1.25 loan value. (This year's certificate value for the 1966 crop will be about \$1.32 per bushel).

3. Marketing certificates will represent expected production on 40 percent of the participating farmers' farm allotment. These allotments will reflect the increased 1967 national allotment of 59.3 million acres, announced earlier this year.

4. There will be no acreage diversion program for wheat. The Cropland Adjustment Program (CAP) as it applies to wheat, will be announced later.

5. Wheat may continue to be planted on feed grain acreage on farms participating in both programs and feed grains may be planted on wheat allotment acreage. Producers will be able to substitute wheat for oats and rye on the same basis as in 1966. If barley is included in the 1967 feed grain program, wheat may be substituted as in prior years; if barley is not included, wheat may be substituted for barley in the same way as for oats and rye.

6. A producer will have the option of planting in excess of his wheat allotment (by not more than 50% and still be eligible for certification and price-support loans provided the excess production is stored and the farmer meets other terms and conditions similar to those in effect in 1966.

CAN WE WAVE THE FLAG TOO MUCH?

Is it possible to wave the flag too much? Provided, of course, that you wave it with integrity? Is it possible to study Lincoln or Shakespeare too much? Is it possible to read the Bible too much?

The great, the good, the true, are inexhaustible for inspiration, example and strength. I believe that we are not waving our flag enough, not nearly enough.

It seems to me that we are developing a tendency to be timid or even apologetic about waving the Stars and Stripes. Walk up and down the streets on July 4th and count the flags. It is our nation's birthday, a sacred day in world history, the most important day of America.

Isn't our flag a synonym of the United States of America? Does it not represent man's greatest, noblest, and most sublime dream? Is it not the zenith of achievement, the goal to which generations have aspired?

Ladies and gentlemen, I believe it is time for us to stop for a moment and think. Let us arrest our near reverential admiration of material success and return to the spiritual and ethical values. Let us imbue and rekindle in ourselves and our children the so-called old-fashioned way of patriotism, a burning devotion to the principles and ideals upon which our country was founded.
