

LOCAL HAPPENINGS IN CAPSULE FORM

Mr. and Mrs. Harold Veasman of Lewiston were Thursday supper guests in the W. L. McCreary home. Mr. and Mrs. Fred Richard, also of Lewiston, joined the group later in the evening.

Mr. and Mrs. C. J. Perry of Grangeville were Wednesday visitors of Mr. and Mrs. Dave Clayton, and attended the Juliaetta school Christmas program in the afternoon.

Mr. and Mrs. W. L. McCreary and Kim Trout were Monday afternoon guests in the Fred Richard home at Lewiston. They visited in the Parker McCreary home at Moscow on Friday evening.

Mr. and Mrs. Henry Klatt of Goldendale, Wn., arrived Saturday to spend the holidays with their son and daughter-in-law, Mr. and Mrs. Charles Klatt and family.

Monday dinner guests of Mr. and Mrs. George Brocke, Jr., were Mr. and Mrs. Otto Schoeffler of Kingstons, Ida., and Mr. and Mrs. Gerald Harris and family of Orofino. Tuesday guests were Mr. and Mrs. M. W. Beckham of Spokane and Mrs. Harry Johnson and son Dick of Lewiston. Mr. and Mrs. Eugene Brocke and children were Monday dinner guests of Mr. and Mrs. George Brocke, Sr. Miss Ann Jones, daughter of Mr. and Mrs. Dee H. Jones, a University of Oregon student, has visited for a week with her parents here. She left for Eugene on Tuesday of this week.

Mrs. Elsie Deobald visited in the home of her son and daughter-in-law, Mr. and Mrs. W. A. Deobald and family at Moscow from Saturday until Monday evening.

Mr. and Mrs. Harold Lukens of Orinda, Calif.; Mr. and Mrs. Donald Lukens and Charles Grady of Lewiston visited Monday afternoon in the home of Mrs. Eula Miller and Mr. and Mrs. Lester Crocker and family.

Guests of Rev. F. C. Schmidt over Christmas were Mr. and Mrs. Warren Schmidt and Debbie Schmidt of Kaho-lolu, Wn. They left for their home on Tuesday.

Mr. and Mrs. Howard Hoffman and family attended the Ice Capades at Spokane on Monday.

Rev. J. Pearson and sons Mark and Phillip, now of California, are spending the Christmas holidays at Kendrick. The boys are attending Monte Vista Christian High School at Watsonville, Calif.

Mr. and Mrs. Bob Magnuson have all their children home over the holidays. Robin Magnuson arrived from Fort Dix, N. J., on Saturday, where he is in the Medical Corps of the army. His wife, Cindy, and Dana Magnuson arrived from California on Friday. Mr. and Mrs. Richard Morton are here from Shelton, Wash. It had been several years since all the Magnusons have been together.

Phillip Pearson of Watsonville, Calif., spent Thursday and Friday of last week with Virgil Dygert, Jr.

Dobbie Roberts has been staying at the Virgil Dygert home while he has been working over Christmas vacation at the depot in Kendrick. His home is at Spokane, and he is attending W. S. U. at Pullman.

NEWS BRIEFS FROM AMERICAN RIDGE

MRS. GEORGE HAVENS
Phone 289-4139

Mr. and Mrs. Frankie Bencsoter spent the Christmas week-end in Lewiston with their sons, Don and Ray Bencsoter and families. They were Christmas dinner guests of Mr. and Mrs. Ray Bencsoter and family.

Mr. and Mrs. Geo. Havens spent Christmas Eve with Mr. and Mrs. Ira Havens in Lewiston. Other guests were Mr. and Mrs. Ted Havens and family, Mr. and Mrs. Charles Havens and sons, Jeff, Rayner, Havens and Harold Sarbacher, the latter of Washington, D. C.

Mr. and Mrs. Bob Bencsoter and family of Spokane and Mrs. Ella Bencsoter were Christmas guests of Mr. and Mrs. Dick Bencsoter and Lesley.

Mr. and Mrs. Ted Havens and sons and Rayner Havens, all of Lewiston, were Christmas guests of their parents, Mr. and Mrs. Geo. Havens.

Mr. and Mrs. Arlie Armitage and family, Southwick; and Mr. and Mrs. Sid Erwin of Oxbow, Ore., were the Christmas guests of Mr. and Mrs. Walter Bencsoter. Afternoon and evening guests were Mr. and Mrs. Jack Webster and daughters of Plains, Mont., who arrived to spend the week.

Mr. and Mrs. Dick Bencsoter spent Monday and Tuesday in Spokane.

Mrs. Bob Dupea and sons of Orofino were Friday guests of her parents, Mr. and Mrs. Walter Bencsoter.

Mr. and Mrs. Jack Bencsoter and family of Fullman were Saturday guests of his parents, Mr. and Mrs. Walter Bencsoter.

Mr. and Mrs. Sid Erwin of Oxbow, Ore., arrived Friday to spend the week with her parents, Mr. and Mrs. Walter Bencsoter.

Monday evening guests of Mr. and Mrs. Walter Bencsoter were Mr. and Mrs. Dick McCall and family of Lewiston. On Tuesday Mr. and Mrs. Tom Greene and family of Lewiston were guests.

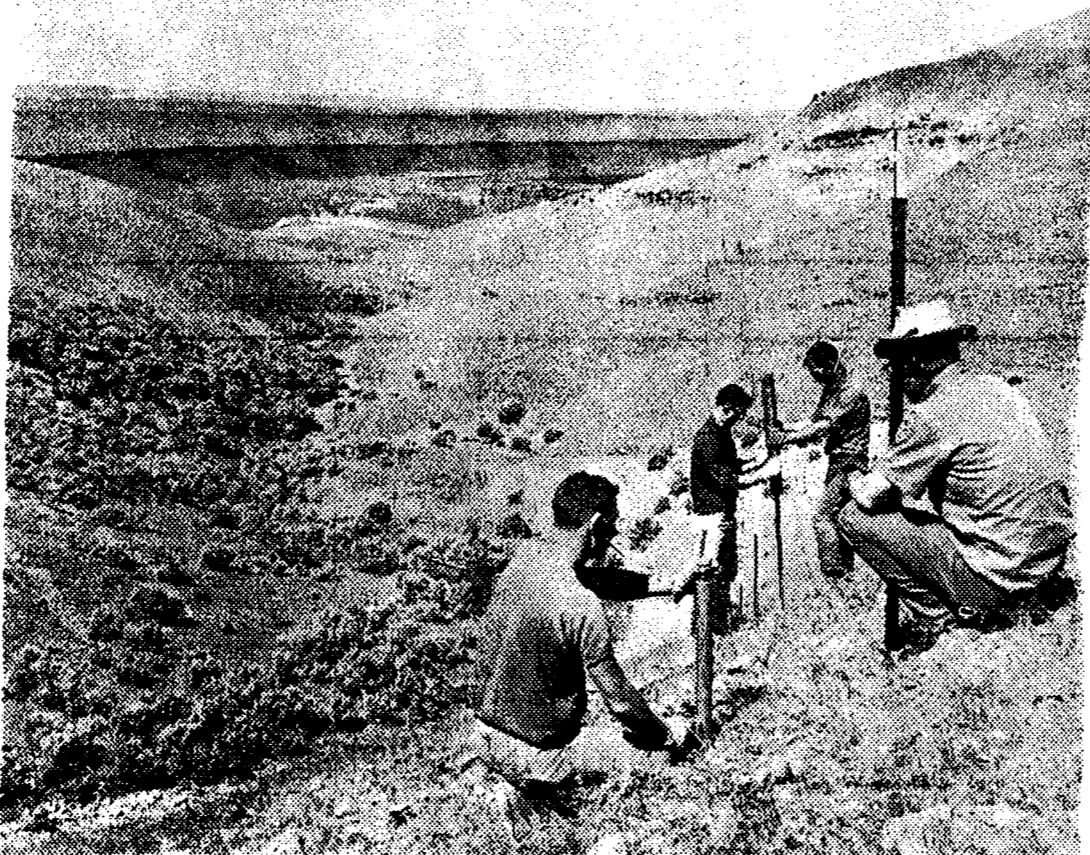

Sherry and Dana Bencsoter of Lewiston are spending the week with their grandparents, Mr. and Mrs. Frankie Bencsoter.

Mr. and Mrs. Warney May, Jr., and family were Lewiston visitors on Tuesday.

Mr. and Mrs. Frank Hoisington and sons were Friday evening guests of her parents, Mr. and Mrs. Walter Bencsoter.

Mrs. Tom Greene and family of Lewiston visited for a short time on Christmas Eve in the home of her parents, Mr. and Mrs. Walter Bencsoter.

Mr. and Mrs. Henry Brammer and Mr. and Mrs. Little and son and a friend were Christmas guests of Mr. and Mrs. Werner Brammer and

SEX APPEAL IN NEW INSECTICIDES

U. of I., Moscow - Insecticides with sex appeal are being explored by University of Idaho scientists. According to Dr. Peter K. Freeman, professor of chemistry and director of this project, emphasis is being placed on those potential insecticide compounds which quickly kill, dissolve into harmless chemical compounds in a very short time under natural conditions and possess the necessary vapor pressure for area coverage.

The structure of a series of compounds presently under study is related to insect sex attractants. One compound, tetracyclic chloride, attracts the female American cockroach.

Research into the synthesis and reactions of new chlorine compounds will lead to the development of new pesticide structures of superior performance to those presently in use in Idaho, according to Dr. Freeman.

The new compounds under study are related to commercial pesticides such as Chlordane, Heptachlor, Lindane, and Dieldrin. He said, new organic compound research techniques brought about by a recent isolation of the carbonium ion has renewed interest in pesticide development at the University of Idaho.

Dr. Freeman said many insecticides are becoming ineffective, as insects become more tolerant and adjust. Bad side effects are also of concern to the researchers. The accumulations of poisons over long periods of time may have serious effects on public health.

Ben E. Cook left Tuesday for their home at Ontario, Ore., following a visit in the Walter Crawford home. Mrs. Cook and children remained for a longer visit. Other Christmas Day guests were Mr. and Mrs. Kevin Crawford of Coeur d'Alene, and Mrs. Elizabeth Anders, Lewiston.

NEW MEASUREMENT SYSTEM FOR SNOW

U. of I., Moscow - Radio active isotopes are being used to gauge Idaho's snow pack water content. Project 61 at the University of Idaho is a joint study by the Department of electrical engineering, U. S. Bureau of Reclamation, and Corps of Engineers. According to Harvey M. Waldron, project director, the program is designed to develop new telemetering systems for the study of mountain snow packs.

Waldron said a Cobalt-60 package is suspended on a tower above the snow. A sensor is buried in the ground below the package, and the radiation is directed through the snow mass giving accurate water content measurements. Other instruments collect ground and air temperature, precipitation, wind velocity and humidity. This information is automatically radioed from the survey site on a 24-hour basis to a central data accumulation center.

The mountain recording station is totally automatic and requires only periodic servicing. Waldron said the new telemetering system would ultimately replace the old snow tube and personal inspection techniques still in use, and give more complete immediate, and accurate snow and water runoff conditions. He said the system can accurately predict potential flooding conditions.

The University of Idaho has two stations in operation, and the Corps of Engineers has three in various Idaho watersheds. Waldron said present development is designed to reduce the cost, and complexity of the electronic telemetering stations in the hope of establishing more stations.

Very little is known about snow, he said. Researchers are attempting to determine snow structure and geometry. There is interest in how snow melts, and the ground conditions found during the melting process. Greater knowledge of Idaho's snow pack will lead to better conservation and utilization of the yearly runoff. The University of Idaho studies are making a major national contribution, said Waldron.

NEW TAILLIGHTS

Two-color taillight system for automobiles may be a safer way to signal braking action, according to Ohio State University systems engineers. They have found that in an automobile taillight system a light of another color probably would improve night driving safety. Researchers compared the conventional red taillight-red stoplight system with an experimental amber taillight - red stoplight system.

NEW APPLE TREES

Apples may someday be commercially harvested from dwarf trees grown on trellises as row crops in Pennsylvania, researchers at the Pennsylvania State University say. Dwarf apple trees can easily be trained on wires and pruned into ground-level "tree walls," they report. Trellis-trained apple trees have been grown successfully on the West Coast. One grower reported 900 boxes of apples per acre within three years after planting - better than most conventional orchards at 15 years of age.

AVAILABLE

For hours a picket walked up and down a busy street carrying a sign that was absolutely blank. Asked what was the big idea, he replied: "I'm looking for a sponsor."

Kendrick has no parking meters!

BOISE DEER GET BIG PRIVATE PASTURE

Boise - Deer winter range in the Boise foothills is being fenced by Fish and Game department crew. Some 3,000 acres will be fenced for inclusion in this important wildlife management area adjacent to the capital city.

Other developments will be range cover plants and spring water improvements that will benefit quail and chukar partridge, as well as big game animals.

Keith Rudd (right) is manager of the Boise Wildlife Management area. Workers from left to right are Mike Snodgrass, Jerry Bowman and Henry Baldwin.

CHINESE INFLUENCE

Boise - Few Idahoans realize the significance of the Chinese in the mid 1800's. The Orientals crossed Oregon and Nevada deserts to the gold fields of the Owyhees to settle into the various camps of Idaho.

By 1880, in Warren, there were approximately 800 Chinese. They conducted their own stores, butcher shops, laundries, and pack strings to carry supplies from Grangeville. The Chinese were most populous in Idaho City, Grangeville, Elk City, Boise Basin and Silver City.

When the Northern Pacific Railroad was being built, a railway camp north of Lake Pend Oreille advertised for laborers. In answer came 7,000 Chinese coolies!

The late Polly Bemis, of Idaho County fame, was a Chinese slave girl who nursed Charles Bemis back to health after a gunfight misadventure and later married him. Their home was on the Salmon river at the mouth of "Polly Creek." She has been the subject of hundreds of magazine, research and newspaper items.

In weaving the historical tapestry of Idaho the golden thread of the Chinese contributes much to the beautiful pattern of a rugged picture.

BIG ENROLLMENT

U. of I., Moscow - The little, northern Idaho community of Sagle is on its way to becoming the best-educated town in the United States.

According to the 1966 Idaho Department of Highway's map, Sagle has a population of five. The University of Idaho's student directory for 1966 shows 16 persons enrolled at the Moscow institution from the village of Sagle.

The group of three seniors, two juniors, eight sophomores and three freshmen represent eight colleges in the university.

Virgil Stevens, a student at Cornell University in New York, flew to Spokane Wednesday evening where he was met by his parents, Mr. and Mrs. Marion Stevens and brother Lloyd, who brought him home for the Christmas holiday. He plans to return to his school early New Year's Day.

Richard Carpenter, a medical student at the University of Oregon, flew to Lewiston Friday morning and spent the Christmas holiday with the Glen Stevens family. Glenda and Linda Stevens, students at Seattle Pacific College, have been home for "quarter break" and Christmas va-

cation since December 11th. Karen Kerby and Darrell Zumhoffe, University of Idaho students; Lloyd Stevens, Larry Heimgartner, Kent Ankney, students at the Lewis-Clark Normal School are also home for the holidays.

Mr. and Mrs. Rufus Fairfield, Fern Stevens, Jan Kerby and Karen Kerby were Thursday evening callers in the Glen Stevens home.

Fern and Linda Stevens, Larry Heimgartner, Karen Kerby and Jan Kerby joined other young people of the Cottonwood Creek Community Church in a caroling party Friday evening. They visited the L. L. Williams home near Gifford; Mrs. Effie Powell, Mr. and Mrs. G. C. Newman, and Mrs. Atkinson in Clarkston, and Mrs. Pearl Kerby at Cheery Lanes.

A number of family gatherings are being planned for Christmas, but due to the necessity of getting the news in early, these reports will have to be put in next week's paper.

W. W. P. PLANS HUGE EXPANSION IN '67

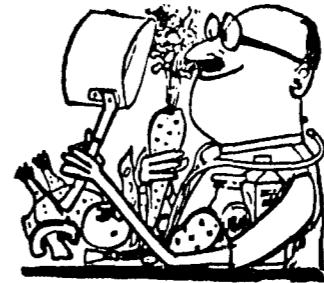

Spokane — The Washington Water Power Co. announced last week that it has budgeted approximately \$10,380,000 for additions and improvements to its electric and natural gas systems in 1967. George M. Brunzell, president, said that the utility will spend \$5,631,000 on its electric system and \$4,569,000 on its natural gas facilities.

"Major budgeted expenditures on our electric system will go toward increasing the capacity of our transmission lines and substations in order that they can handle rapidly increasing load requirements," Brunzell said. "Our 'gas' dollars will be used to bring natural gas service to several more communities within our service area."

Planned improvements and additions to W. W. P.'s electrical facilities include approximately \$140,000 for the installation of lines and a necessary substation to provide construction power at the Lower Granite damsite; \$112,000 for construction of a new 110,000-volt line connecting to a new sub-station at St. Maries; \$61,000 to complete a new sub-station at Ahsahka that will help supply electrical energy at the Dworshak damsite; approximately \$215,000 to complete the "heavying-up" of its transmission facilities in the Moscow area; and \$317,000 to complete the reconductoring of its Moscow-Lolo (Lewiston) loop, a project that has required the expenditure of more than \$800,000.

Mr. Brunzell said that 1967 expenditures of more than \$10 million are "about the same as the company has been spending for the past several years."

"The ever increasing demands for electrical energy and the popularity

NUTRITION FOR TEENS

It has become a habit to divide the human life span into a number of segments such as infancy, childhood, pre-teens, teens, adult, middle and old age. There are different needs at different times of life, but these are not sharply pigeonholed. They merge gradually from one phase to another, and what is even more important—the differences are superficial. The basic principles are the same at all ages.

Right now it is fashionable to "tsk-tsk-tsk" at our young people about a lot of their shortcomings, which the older folks have forgotten they had in equal or maybe greater measure in their own youth. Especially do we tend to deplore the eating habits of the young.

What's so wrong about the way young people eat? If their nutrition is so bad, how come, as they say on TV, they are bigger, stronger and healthier than any previous generation?

Must Distinguish

We have to distinguish between boys and girls, which may be a bit difficult in view of stretch pants on one sex and long curls on the other—unless we accept Red Skelton's differentiation. He says the one clinging to the rear of the motorbike is the girl.

There's another way to tell the difference. Watch what they eat. Boys will eat almost anything that won't bite them first, and they are hungry all the time, and don't care who knows it. Girls are figure-conscious, and are likely not to eat enough. Studies

of groups of young people show that girls are less well nourished than boys.

Many older folks are prone to shake their heads over the diet of the adolescent — hamburgers, hot dogs, popcorn, candy, peanuts, milk shakes, ice cream, pizza, soft drinks. No fruit, no vegetables... tsk, tsk, tsk! And how do the kids react? I'll give you one guess. How would you?

Take Unbiased Look

An unbiased look at the diet of the adolescent, left to his own choice, indicates that his love for hamburgers, often with cheese, milk shakes, hot dogs, ice cream, pizza and peanuts makes some pretty good contributions of protein (meats, nuts, cheese and milk) of dairy foods, and enriched bread in the hamburger and hot dog buns. Popcorn, buttered, is good too.

Fruits and vegetables may be deficient. But we will never motivate the young people to change their diets by nagging them, or by being critical—without even a good reason—of their choice of many useful foods.

Young people like to make their own decisions. Give them the facts, and omit the head-shaking and "that's-not-the-way-I-was-brought-up" attitude, and offer them fruits and vegetables in attractive form, and let them make a choice without coercion. Some will be foolish. Most will be sensible.

There's more to nutrition than food. Psychology plays a large part.

of natural gas for both house heating and industrial use have set an annual investment level for us that is not likely to decrease in the foreseeable future," Brunzell said. "All of the usually reliable indicators point to a rapid economic development of the Inland Empire in the years just ahead. We intend to make certain that every new resident, new business and new industry coming to the area will be supplied adequately."

cant problem in the state.

Dr. J. A. Kolar, assistant agronomist at the university's Twin Falls branch experiment station, has tested Washoe over the past three years at both Twin Falls and Parma. Forage yields of the new variety topped Lahontan at both sites. Nevada trials also indicate Washoe will produce a higher seed yield than Lahontan.

A small amount of foundation seed has been allocated to state growers through the Idaho Crop Improvement association this spring. However, Dr. Ensign explains, seed of the new variety will not be generally available to registered alfalfa growers until next year.

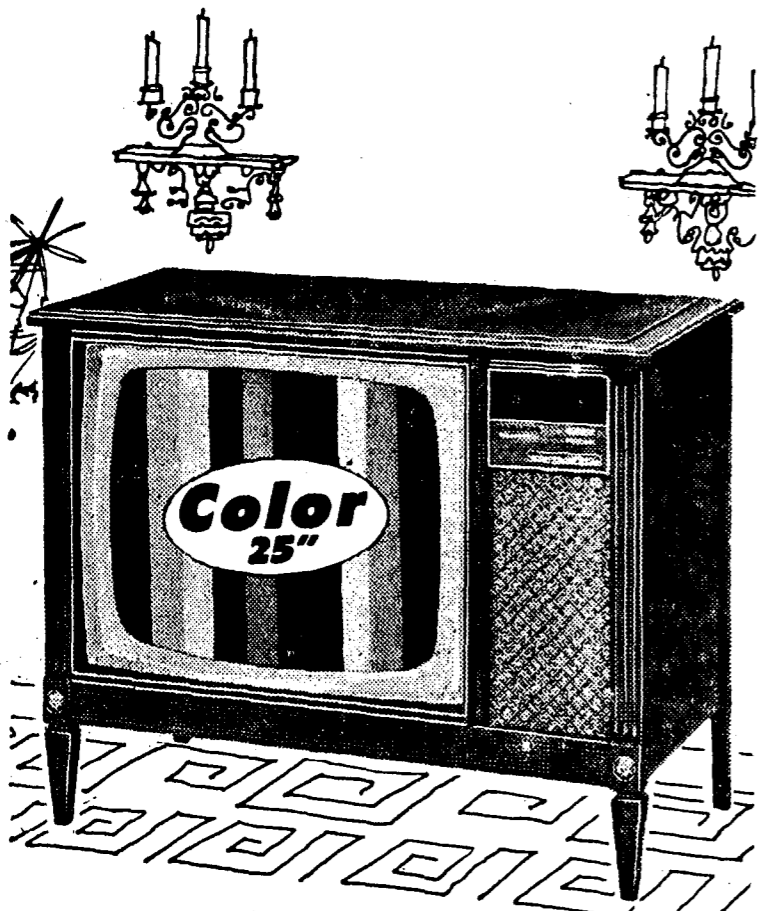

NEW ALFALFA

U. of I., Moscow - Washoe alfalfa, a new variety with high resistance to alfalfa pea aphid and stem nematode infestation has been approved for release in Idaho.

The variety is adapted to all areas of southern Idaho where Lahontan alfalfa is now grown, reports Dr. R. D. Ensign, associate director of the University of Idaho agricultural experiment station. Washoe, developed by USDA and Nevada agronomists, has slightly better yielding ability than Lahontan and is equally resistant to stem nematodes, Dr. Ensign says. As an added advantage, the Washoe variety has strong resistance to pea aphids. In some years these are a signifi-

CHAMPION WORRIER

One day, after an exceptionally long spell of good weather, a farmer was standing in his field gazing sadly at the bumper crop. A car stopped and the government employee leaned out to congratulate the farmer on the fantastic growth of his produce. "Yes, it's true," the farmer lamented. "The vegetables are bigger and better than ever, and the wheat is coming along well enough, but has strong resistance to pea aphids. just think how it's exhausting the soil!"

WATCH BRAKES
 Spokane — An added hazard of driving during rainy, snowy weather are brakes that become wet and are temporarily unable to stop a vehicle within a safe distance. This situation is even more perilous because drivers may not be aware of it until after they have applied the brakes and found them almost totally ineffective.
 To avoid being caught off guard while driving in heavy rain or on slushy roadway, apply the brakes at frequent intervals. If they fail to hold properly, dry them out by friction by depressing the brake pedal gently with one foot while applying the throttle with the other to keep the car moving.
 Brakes may get wet if the vehicle must be driven through deep water. Here the vehicle should be driven at a very slow speed to avoid creating waves that may splash water on the distributor or wiring — and once through, make an immediate brake test.

WAYS AND WAYS
 A wealthy woman was interviewing an applicant for a job on her household staff.
 "Do you know how to serve company?" she asked.
 "Yes, ma'am; both ways," was the reply.
 "Just what do you mean by 'both ways'?"
 "So's they'll come back, and so's they went!"

HIGH SPEED TRAINS
 High-speed trains will test a tieless roadbed in Germany next year. The trains will reach speeds up to 185 MPH on a continuous welded track that is cushioned by rubber pads mounted on concrete slabs. The roadbed will need little maintenance because it eliminates the need for ballast — the rocks that anchor the rails and ties. The new concept was discussed by Dr. Herman Meier, a German transportation expert, during a recent trip to this country sponsored by National Cylinder Gas.

 Mr. and Mrs. Grant Clemenhagen and Mr. and Mrs. Henry Galloway, Janice and Jerry, were Monday evening dinner guests of Mr. and Mrs. Melvin Sneve and Nels.

WHERE ARE WE HEADED TODAY?
 As the last sheet is torn from the calendar the pundits, commentators, financial and editorial writers pause with pen in hand to take a retrospective look at the year 1966. They will find that it was a good year in many respects. The economic indices continued to reflect a general state of affluence that the nation has enjoyed for 20 years. The blatant evidence of the affluence has bothered those who find it difficult to reconcile the tragedy that men are facing in Viet Nam with a persistent demand at home for a life of greater ease and comfort. The truth is that while the output of United States industry poured a flood of material well-being across the land, there was no stinting on military requirements. The productive capacity of this country has become so great that it can sustain a major war effort without interrupting our peacetime lives, and judging by reports at the end of the year, there is growing evidence that the communist world is not a monolithic force after all. Serious as it is, the war in Viet Nam and the threat of world-wide communism may have less of a bearing on the shaping of the American future than events that have been taking place right here at home.
 In the midst of prosperity, there has been a rising discontent that is difficult to explain. At a time when major industries and business leaders are devoting a large part of their energies to help solve broad social and economic problems, a deep-rooted movement is sweeping across the country that could well undermine the private enterprise, free market economic system.
 During 1966, extensive investigations into the motives and the performances of many basic industries reached a new high. The maladjustments of inflation have been blamed on industry. Toward the end of this past summer, consumers turned their wrath on retail distribution. Housewives picked stores and manufacturers price reductions. Simultaneously, striking unions made a sham-bles of the government's wage guidelines. Wage increases threatened to outstrip productivity increases. All of these things promise to raise a fundamental issue to which most citizens have given no thought.
 The issue that is being raised by the striking housewives, striking workers and investigative government bodies, involves the question of whether or not our private enterprise capitalistic system which functions on the profit motive, is to be retained? The growing discontent, if it runs deep enough, will result in legislative action that will alter irrevocably the system under which we have lived since the founding of the nation.
 Since any fair examination of the record will reveal the great benefits that have been derived from competitive capitalism, we must assume that the present discontent is based on misunderstanding — a misunderstanding that has been encouraged by irresponsible political actions that have led to the depreciation of the dollar. The rise of discontent among U. S. citizens, if not resolved, may well lead to the crippling of productivity and the erosion of liberty, as controls are substituted for the laws of supply and demand in a free market that is incomparably the best in the world. Life magazine describes its accomplishments in a few sentences: "American housewives, many of whom are engaged in supermarket boycotts to protest the high cost of food, spend an average 18.2 per cent of their families' take-home pay to buy that food. In 1960 they were spending 20 per cent and in 1947, 24.6 per cent. In France, housewives dedicate 30 per cent of their family budget to

 Mr. and Mrs. Hans Harder and family were Sunday over-night guests of Geo. F. Denner.
 Mr. and Mrs. Gary Browning visited his grandmother, Mrs. Viola Browning in the Nursing Home at Moscow, Monday.

LEARN FROM BIRDS
 Penguins are being studied by a University of Wisconsin zoologist to gain information about the "biological clock" and biological compass found in many animals. Prof. John T. Emien says penguins are able to follow a straight-line course to the sea even when released on land far from their homes. He believes that the ability of this type of bird to travel in a straight line over hundreds of miles of featureless snow and ice depends on the "clock" and "compass" working in combination.
 I would like to thank everyone for the gifts and nice Christmas cards sent us — and to wish everyone a Happy New Year. — Mr. and Mrs. Adolph Denner and Debbie. 51-1x

SPEAKING OF TAXES — AND MOST DO
 There will be two surpluses, important ones, with which the 39th Idaho Legislature must deal. One is the actual dollar amount of unobligated cash to the credit of the general fund at June 30, 1967; the other is the excess, or surplus, or level of tax structure above that which was necessary to balance the general fund appropriations.
 If, for example, there is a general surplus, cash surplus, at June 30, 1967, of \$10 million — it could be more — then the tax structure is \$10 million too high. If then the new general fund budget were to be based on economic growth, the tax structure could be reduced by \$10 million. The legislature must deal with the cash surplus, a one-shot deal, and the surplus level of revenue. If the legislature were to budget continuing expenditures based on cash surplus and revenue surplus, the 1969 legislature two year hence would have an aggravated fiscal problem.
 A suggested budget would lead us into that trap. A 1968 million general fund budget suggestion would necessitate a \$20 million increase in taxes to balance the 1969-1971 general fund budget if the expenditure level was not reduced.
 Estimates of a June 30, 1967, cash surplus range from \$6 million to \$18 million — one official estimate is \$11.8 million released by Governor Smylie. The amount of surplus depends on many things: the economy of the state, manipulations among the funds, the extent to which appropriated funds are spent in the biennium, etc. There was a cash remaining fiscal year of the present balance at June 30, 1966, of \$7 million. General fund expenditures during the first fiscal year of the biennium were \$64 million, substantially less than one-half of the 136 million appropriated — this is as would be expected.
 Expenditures in the second period would normally be greater and certainly will be this year because of a 4 per cent cost-of-living salary increase granted by executive order provided the departments can prove it in their authorized budgets. We have no objections to this increase. Revenues to the general fund were \$72 million during the first fiscal year of the biennium — with \$31 million produced by income tax and \$24 million by the sales tax. Sales tax collections in the second period will certainly exceed those of the first period since there will be a full 12-month period compared to 11 months, plus a growth factor which is evident. Income tax collection in the first period exceeded estimates, and collections thus far in this period indicate that there will be an increase in collections during the second fiscal year.
 Yes, there are many opportunities for fiscal action which must be considered by the newly-elected members of the 39th Session of the Idaho Legislature and the taxpayers of Idaho, both regarding taxes and expenditures. — A. T. L. Max Yost.

THANK YOU
 We wish to say "Thanks" to the many organizations and to all those who contributed so much to the recent benefit in our behalf. We wish you all a Happy New Year. — Mrs. Ted Peters, Paul and Warren. 1-x

Christmas Dinners Numerous
Mr. and Mrs. Kenneth Wilken entertained their parents at Christmas dinner Sunday — Mr. and Mrs. Geo. Wilken and Mrs. Henry Wendt.

Mr. and Mrs. Walter Koopp entertained at Christmas dinner Sunday for Roy Ramey, Mr. and Mrs. Gerald Heimgartner and daughter, and Mr. and Mrs. Ernest Brammer and Jolene.

Mr. and Mrs. James Whiting and daughters prepared Christmas dinner and took it to the home of his parents, Mr. and Mrs. Harl Whiting, and ate with them on Sunday.

Mr. and Mrs. Glen Wegner gave a Christmas dinner Sunday to a group of relatives including Mr. and Mrs. C. H. Fry, Mr. and Mrs. Wm. Fry and family, Mrs. Rose Bartlett, Mr. and Mrs. Herb Millard and daughters, Mr. and Mrs. Aug. F. Wegner, Vern Wegner, Mr. and Mrs. Dan Sullivan and family and Mr. and Mrs. Don Johnston.

Mr. and Mrs. Wilbert Brunsiek, Mr. and Mrs. Albert Glenn, Mrs. Warren and Joe Henderson were the Christmas dinner guests of Mr. and Mrs. Eldon Glenn.

Ray Brunsiek, Kellogg, arrived Sunday and enjoyed Christmas dinner with his brother-in-law and sister, Mr. and Mrs. Aug. Brammer. That evening Mr. and Mrs. Raymond Rodgers of Orofino were visitors.

Bill Mielke of Lewiston was a Christmas dinner guest of his brother and sister, Ted and Helen Mielke.

Mr. and Mrs. Ed. Mielke and Mr. and Mrs. Charles Parks and family were Christmas Day guests of Mr. and Mrs. Charles Havens, Clarkston.

Mr. and Mrs. Fred Newman and grandchildren, and Mr. and Mrs. Glen Newman and family were Christmas dinner guests of Mr. and Mrs. Wally Newman.

Mr. and Mrs. Herbert Schwarz and daughters, and Ernest and Lawrence Schwarz were Christmas Day guests of Mr. and Mrs. Walter Denler on Fix ridge.

Mr. and Mrs. Ervin Lohman and Ronnie were Christmas Day guests of Mr. and Mrs. Gary Lohman and family in Lewiston.

Mr. and Mrs. Stanley Hepler had as Christmas dinner guests their parents, Dallas Hepler and Mrs. Plummer, the latter of Lewiston.

Rev. and Mrs. Meske entertained at Christmas dinner for their children.

Surgery Patient

Little Johnny Silflow, youngest son of Mr. and Mrs. Roy Silflow was taken to a doctor in Moscow last Tuesday, where X-rays showed that he had swallowed a pin, and that it was entering one lung.

He was sent on to Spokane to the Sacred Heart Hospital, immediately. However, he had to wait until Thursday to undergo surgery, as an infection had developed.

He is getting along very nicely from last reports.

Recent Visitors

Visitors in the home of Mr. and Mrs. Harl Whiting during the week included Mrs. Kenneth Wilken, Mrs. Jesse Thornton, Mrs. Bob Draper, Mrs. Myrtle Schoeffler, Mrs. Jimmy Roberts, Mrs. James Whiting and daughters, Mrs. LaVina Thornton, Mr. and Mrs. Wilbur Stalnaker, Mr. and Mrs. Norman Whiting and Keri, Mr. and Mrs. Vern Whiting, Mrs. Ray Whiting and Mr. and Mrs. Wilbert Brunsiek.

Other News

Mr. and Mrs. Ernest Brammer and Jolene, and her father, Roy Ramey, left Monday for Portland to spend the Christmas holidays.

Mr. and Mrs. Glen Wegner attended a surprise birthday dinner last Monday at Lenore, honoring Mrs. Don Johnston.

Mrs. LaVina Thornton and Mr. and Mrs. Wilbur Stalnaker of Vancouver, Wn., were Monday morning visitors of Mr. and Mrs. Harl Whiting. Mr. and Mrs. Vern Whiting of Elk River; Mr. and Mrs. Norman Whiting and Keri of Coeur d'Alene; Mrs. Ray Whiting of Lewiston, and Mr. and Mrs. James Whiting and daughters were dinner guests. Mr. and Mrs. Wilbert Brunsiek were evening callers.

Mr. and Mrs. James Whiting and daughters were Thursday afternoon visitors in Lewiston, calling on Ray Whiting at the hospital, and on Mrs. Ray Whiting at the Nursing Home.

Mr. and Mrs. Roy Silflow came home Friday evening to be with their family Christmas Eve, returning to Spokane on Sunday. Mr. and Mrs. Otto Silflow, Juliaetta, are staying at their home with the children while the Roy Silflows are away.

Miss Dorothy Meyer arrived home from India Saturday to spend some time with her mother and other relatives, and to attend her sister Lodea's wedding.

Mr. and Mrs. Wilbert Brunsiek and Mr. and Mrs. Albert Glenn spent Saturday evening (Christmas Eve) with Mr. and Mrs. Eldon Glenn.

Rev. and Mrs. Theo Meske and family, Mr. and Mrs. Wilbert Brunsiek and Miss Mildred Brammer were Christmas Eve guests of Mr. and Mrs. Aug. Brammer.

Mrs. Aug. Brammer and Wilbert Brunsiek drove to Spokane Friday to meet Miss Mildred Brammer, Ithaca, New York, who came to spend the Christmas holidays with her parents, Mr. and Mrs. Aug. Brammer, and other relatives.

Mr. and Mrs. Herbert Schwarz, Helen Mielke and Mrs. Fred Newman attended a wedding shower in Juliaetta Monday evening, honoring Mr. and Mrs. Bob Denler.

Liz Terry, Bob and Jimmy Allen spent Monday evening with JoAnn and Susan Schwarz.

Mr. and Mrs. Ed. Mielke, Ted and Helen Mielke visited Mrs. L. S. LaHatt in Pomeroy last Thursday evening. Mrs. LaHatt has been quite ill.

Ronnie Lohman of Lewiston spent the week-end here with his parents, Mr. and Mrs. Ervin Lohman.

Mrs. Plummer, Lewiston, spent a few days visiting her son-in-law and daughter, Mr. and Mrs. Stanley Hepler and son Donnie.

Mr. and Mrs. Bob Watts visited Mr. and Mrs. Stanley Hepler Monday afternoon.

Duane Meske, Lewiston, spent a few days at the home of his parents, Rev. and Mrs. Theo Meske, during the Christmas holidays — ill with the flu!

Special News

I would like to announce that I have reached the age for "Pension" and "Retirement" from writing the Cameron News. I am sure there are younger ones who can give you all better service. I surely thank the ones who have been so kind in helping me during the past 12 years.

Wishing you all a Happy and Prosperous New Year. Thanks to All. — Blanche.

REAL ENGINEERING

Real-life engineering headaches are being substituted for dry textbook problems at Stanford University to pump new vigor into engineering classrooms. Over 100 case studies describing some of the toughest problems that have been faced by engineers in approximately 70 different companies are now in Stanford's engineering case library. A case may involve the unexplained multiple failures of a certain type of airplane or be more prosaic, such as the repeated breaking of welded joints in a special type of truck trailer.

PLANT DISEASES

Plant disease epidemics cost Americans close to \$5 billion each year, according to scientists at the Pennsylvania State University.

Let Blewett's make salami for you. You'll love it. adv

**GREETINGS
FOR THE NEW YEAR**

As we prepare to welcome the New Year, we want to say just a word of thanks to each of you. You have been loyal and considerate and we are truly grateful. Best wishes for the New Year.
