## We're helping to develop a national resource

We met these young men on one of our student refinery tours last fall. -They learned quite a few things about Catalytic Crackers and Residuum

Strippers that day. We learned a few things about them, too. About their curiosity and their ambitions.

Why our interest in these bright young men? Because young people are our greatest national resource.

They deserve all the help they can get toward realizing their potentials.

Refinery tours and geology tours, scholarships and fellowships, and teaching materials for schools, are just some of the ways our Company shows its active interest in today's young men and women.

Standard Oil is trying to help young people discover more about themselves... and the world they live in.

Sign of excellence

In his analysis of the federal reall markets are serviced by myriads of competing firms.

The Commission tended also to overlook the dynamic aspects of competition and to judge the food month.

Large chain supermarkets seem to have drawn the most fire from the competition is a process of "moves" report. The most and responses in a death of moves the control of the contr and responses" in a developing chess arious charge against this group game. is its exercise of power in such a manner that bargaining power is not equally distributed among the var-

### ADVANCE WARNING

A Cornell University sociologist says he has evolved a way "to plug" the "brain drain" by converting man behavior patterns into mattematical terms and feeding them in a computer. He says his method was help government and academic planners predict the migration habits of scientists and technicians. By knowing this in advance, planners can take steps to keep their scientists and technicians from moving to other positions.

### BACTERIA USEFUL

By spoiling food, common bacter-ia probably have saved many people from food poisoning. The reason for this apparent incongruity, a University of Wisconsin bacteriologist explains, is that less harmful bacter ia in food may inhibit the growth of other, more toxic organisms.

There's no substitute for a good brearkfast. You'll find all the items at Blewett's, in Kendrick.

Lewiston — Missing signatures and addresses are two frequent problems that have delayed the processing of doctor bill requests for payficiaries," D. Gene Shaw, Social Security manager in Lewiston says.

Due to the above problems with claims from this area, we are suggesting that beneficiaries making their first claim bring the forms and receipts to the Lewiston Social Security office, or the representatives who visit the rural areas. By letting us check the request for payment forms before they are sent to the Medicare carrier, the beneficiary can be sure that the claim won't be delayed because some item has been
